"With the satisfactory development of our export trade, your directors decided that the time had arrived to acquire additional machinery for papermaking. Four new machines accordingly were ordered, and are being built. It is expected that delivery of the first machine will be made in the spring of 1920. Meantime, necessary additional buildings are being constructed. Looking to the future, your directors acquired additional timber limits: (1) The Breakey Gaspe limits, 451 square miles; and (2) the Portneuf limits, near the Saguenay River, 484 square miles. In view of the above commitments your directors decided to set aside a further sum of $500,000 to general reserve."

DEBENTURES FOR SALE

GREATER WINNIPEG WATER DISTRICT

ONE MILLION DOLLAR, 20-YEAR, 5½% DEBENTURES

The Greater Winnipeg Water District will receive up to the 16th day of February, 1920, at the office of the Bank of Montreal, Winnipeg, sealed tenders for the purchase of the undermentioned securities:—

One Million Dollar 20-year debentures, dated January 1st, 1920, due January 1st, 1940, bearing interest at the rate of 5½% per annum, payable half-yearly on the first days of January and July in each year.

The District invites tenders as follows:—

1st. With payment of Principal and Interest at the Bank of Montreal, Winnipeg, Toronto or Montreal.

2nd. With payment of Principal and Interest at the Bank of Montreal, Winnipeg, Toronto, Montreal and the Agency of the Bank of Montreal, 64 Wall Street, New York.

Every tender must be accompanied by certified cheque payable to the Treasurer of the Greater Winnipeg Water District for 1% of the total amount of the tender.

Tenders must be addressed to the Bank of Montreal, Winnipeg, marked, "Tenders for Greater Winnipeg Water District Debentures," and delivered not later than 12 o'clock noon on the 16th day of February, 1920.

The highest or any tender not necessarily accepted.

The Greater Winnipeg Water District is a corporation under the laws of the Province of Manitoba and Dominion of Canada, incorporated for the purpose of providing an adequate and permanent supply of water to the City of Winnipeg, City of St. Boniface, the Town of Transcona, part of the Municipality of St. Vital, part of the Municipality of Fort Garry, part of the Municipality of Assiniboia, part of the Municipality of West Kildonan and part of the Municipality of East Kildonan. The works are completed and in operation and have a capacity of 100,000,000 gallons per day. The amount of money necessary to pay interest and sinking fund is levied by annual rate upon lands in the above cities and municipalities on an equalized basis of assessment.

Any further information and particulars may be obtained upon applying to the undersigned.

R. D. WAUGH,
Treasurer,
Greater Winnipeg Water District.
201 Tribune Building, Winnipeg. 57

REQUIRED for the Province of Ontario, Resident Inspector with good Casualty connection. State salary required and average expenses. Strictly confidential. Scottish Metropolitan Assurance Co., Ltd., 164 St. James Street, Montreal 54

WANTED

THE QUEBEC BOARD OF TRADE is looking for an energetic and thorough business man as Trade Commissioner for the City of Quebec. Will be required to have the following qualifications: Well educated, able to speak in public, of good address, sound business judgment. Preferably one capable of speaking English and French. Good salary will be paid to right man. Contract for three years. Reply to undersigned, giving age, state if married or single, references, salary expected, and any further information as to experience and capacity to fill this position. Also mention date would be able to commence duty.

J. T. ROSS, President,
Board of Trade,
Quebec, P.Q. 58

DEBENTURES FOR SALE

CITY OF EDMONTON, ALTA.

Notice is hereby given that in view of the adverse financial market conditions, the city will not exercise its option as stated in a former notice to take up the following debentures:—

Issued Under By-Law.	Series.	Maturity.	Next Interest Due Date.
683	A	July 1, 1920	Jan. 1st, 1920
684	B	July 1, 1920	Jan. 1st, 1920
700 & 3 1918	C	July 3, 1922	Jan. 3rd. 1920
27 1918	F	July 15, 1923	Jan. 15th, 1920
2 1919	G	Feb. 15, 1924	Feb. 15th, 1920

F. BARNHOUSE,
City Treasurer.
34

DEBENTURES FOR SALE

Sealed tenders addressed to the undersigned and marked on outside, "Tenders for Debentures," will be received up to noon on Friday, February 20th, 1920, for the purchase of $35,000.00 thirty-year 6 per cent. Debentures of the Rural Municipality of Dauphin, issued under the Good Roads Act of 1914 and amendments thereto. These Debentures may be guaranteed as to principal and interest by the Province of Manitoba.

The highest or any tender not necessarily accepted.

For further information address:—

J. A. GORBY,
Secretary-Treasurer Rural Municipality of Dauphin,
Box 330, Dauphin, Manitoba. 59

TOWN OF YORKTON, SASKATCHEWAN

DEBENTURES FOR SALE

Tenders will be received by the undersigned until 12 o'clock noon on Tuesday, the 27th day of January, 1920, for the undermentioned debentures, viz.:—

	$24,000 for Electric Light purposes,
	15,500 for Waterworks purposes.
Total....	$39,500

The said debentures will bear interest at the rate of six per centum per annum, will be dated 1st October, 1919, and payable in twenty equal annual instalments of principal and interest combined at Toronto, Montreal or Yorkton.

Delivery and payment to be made at the Bank of Montreal, Yorkton, Saskatchewan.

This issue has been approved by the Local Government Board of the Province of Saskatchewan.

The right is reserved to reject any or all proposals.

F. J. PILKINGTON, C.A.,
Treasurer.
Yorkton, Saskatchewan, 2nd January. 1920. 56

DIVIDENDS AND NOTICES

The Canadian Fairbanks-Morse Company, Limited

PREFERRED DIVIDEND No. 29

Notice is hereby given that a semi-annual dividend of 3 per cent. (3%) on the preferred stock of this Company has been declared due and payable on the fifteenth day of January, 1920, to stockholders of record at the close of business Thursday, January 8th, 1920.

By Order of the Board.
T. M. CULLEN,
Assistant Secretary.
Montreal, December 30th, 1919. 53

THE MONTREAL CITY AND DISTRICT SAVINGS BANK

The Annual Meeting of the Shareholders of this Bank will be held at its Head Office, St. James Street, on Monday, the ninth day of February next, at 12 o'clock noon, for the reception of the Annual Reports and Statements and the election of Directors.

RECENT FIRES

Year Starts Off with Undiminshed Loss—Record for Fortnight Includes Many Heavy Losses

Abbey, Sask.—January 5—Building, with all its contents, of Cuthbertson and Thompson. Empty building, owned by the Gillespie estate, and the general store and post-office of Ganies and Co., with all its contents, including the mail, were destroyed. The office of the Revelstoke Lumber Co. was also slightly damaged. Estimated loss, $40,000, covered by insurance.

Bridgeburg, Ont.—January 3—Residence of A. Ferdinando, on Phipp Street West, was destroyed. Most of the furniture was saved. Cause, defective chimney. Estimated loss, $2,500.

Brandon, Man.—January 4—Building of the New York Shoe Store, 609 Rosser Avenue, the upper portions of buildings, Nos. 607, 605 and 603 to the corner store were destroyed. The roof of the one-story building, occupied by D. Hurley, dry goods, boots and shoes, 611-13 Rosser Avenue, was also damaged. Cause, unknown. Estimated loss, $10,000. Insurance carried by the New York Shoe Store on the contents, $500.

Boucherville, Que.—January 5—Barn, owned by Charles Normandin, with a large quantity of hay and grain, was destroyed. One death.

Calgary, Alta.—January 3—Building, owned by Guy Bowen, at the corner of Seventeenth Avenue and Tenth Street East, was damaged. The fire started on the main floor, occupied by P. Zulbish, grocery and fruit store. Cause, unknown. Estimated loss, $1,600.

Edmonton, Alta.—January 2—Building at 10,750 97th Street, in Keeler Block, was damaged. The downstairs portion of the building is occupied by the Wildren Manufacturing Co. and E. Prudhomme's millinery shop, and was slightly damaged by smoke and water. Cause unknown. Estimated loss, $2,000.

Galt, Ant.—January 3—The pattern shop belonging to the Katie Foundry Co., situated on North Water Street, was damaged. Loss fully covered by insurance.

Halifax, N.S.—January 11—Warehouse of the Richmond Paper Co., owned by Orr Brothers, on Hollis Street, was damaged. Cause, defective wiring. Estimated loss, $175,000, three-quarters of which is covered by insurance.

Kingston, Ont.—January 3—Residence of Prof. G. B. Reed, 218 Albert Street, with contents, was damaged. Cause, thawing out frozen pipes. Estimated loss, $800. Insurance carried on building and contents.

London, Ont.—January 4—Stables, with motor car and two milk wagons belonging to George H. May, 345 Wharncliffe Road, were destroyed. Cause, unknown. Estimated loss, $3,000.

Lindsay, Ont.—January 10—Residence of Mr. Harry Bryans, situated on Queen Street East, was destroyed. Cause, overheated stove. Estimated loss on house and contents, $1,150. Insurance carried on house, $1,200.

Longue Pointe, Que.—January 7—Building of the Dufresne School, Omar Street, was damaged. Estimated loss, $5,000, covered by insurance.

Medicine Hat, Alta.—January 8—Large storage barn, corner Foundry and Tractor Streets, owned by Anderson Hardware Co., was damaged. The contents, consisting of a valuable horse and a quantity of rags owned by Messrs. Moscovich and Brydges, were burned. Cause, unknown. Estimated loss on building, $300, and on contents, $3,000.

Milliken, Ont.—January 5—A large barn owned by Alexander Macklin, with two silos, the season's crop from 150 acres of land, and some machinery and stock were destroyed. Cause, presumed to have been a spark from threshing outfit. Insurance carried on barn and threshing machine.

Moncton, N.B.—January 5—The power plant and machine shop of the Record Foundry and Machine Company were destroyed. Cause, explosion of oil vat. Estimated loss, $65,000.

Owen Sound, Ont.—January 2—Residence of Alex. Taylor, near Owen Sound was destroyed. Cause, unknown. Partial insurance carried.

Prince Albert, Sask.—December 24—Building of the Prince Albert Trading Co. store with a large amount of goods was damaged. Cause, lighted match carelessly thrown away by some one. Estimated loss, $5,000, covered by insurance.

Quebec, Que.—January 9—Candy factory located on des Courcelles Street, St. Malo, operated by J. A. Lesage, was destroyed. Cause, unknown. Insurance carried on stock, $25,000, partial insurance on premises.

Sherbrooke, Que.—January 5—Beebe Business College of Stanstead was destroyed. Cause, unknown. Estimated loss, $6,500.

Woodstock, Ont.—January 3—Newly remodelled office and warehouse of Mayor Nodden, with stock, was destroyed. Cause, unknown. An occupied building owned by H. Drysdale was also burnt. Estimated loss on building and stock, $5,000. Insurance carried on building, $1,200, no insurance carried on stock.

Waterville, Que.—January 1—Barn with contents, consisting of crops, implements, etc., belonging to Theophile Lemieux, was destroyed. His home was also destroyed the following day. Cause, unknown. Estimated loss, $5,000.

Wiarton, Ont.—January 5—Building of McLaren's Music Store was damaged. Several valuable pianos stored there were destroyed. Cause, unknown. Estimated loss, $2,000.

ADDITIONAL INFORMATION CONCERNING FIRES

Edmonton, Alta.—December 21—Two grain elevators and contents, occupied by the Western Canada Flour Mills Co., Ltd., and owned by the Brackman-Ker Milling Co., Ltd., were damaged. Cause unknown. Estimated loss on stock, $50,000, and on building, $25,000. Fully covered by insurance.

Fredericton, N.B.—December 20—Building and contents of the Gem theatre occupied by F. G. Spencer and owned by Mrs. Loretta G. Richards was destroyed. Cause unknown. Estimated loss, $20,000. Insurance carried, $11,000.

Halifax, N.S.—December 21—Warehouse of the Maritime Telephone and Telegraph Co. was damaged. Cause unknown. Estimated loss, $148,300. Insurance carried, $93,800.

Summerland, B.C.—December 14—Hospital and contents were destroyed. Cause, originated between ceiling and roof in proximity to chimney. Estimated loss, $9,600. Insurance carried in the Liverpool and London and Globe, and British-America Co., $5,000.

St. Catharines, Ont.—December 15—For the year 1919 the total loss was $72,881, $36,913 on buildings and $35,965 on contents. Total insurance carried $189,800. Insurance on buildings $84,400 and on contents $105,400.

NOTICE

is hereby given that the Annual General Meeting of the policyholders and Guarantors of the

North American Life Assurance Company

will be held at the Head Office of the Company, North American Life Building, 112-118 King Street West, Toronto, Ont., on

THURSDAY, 29th January, 1920

at 11 o'clock in the forenoon,

for the reception of the Annual Report, a Statement of the Affairs of the Company, the election of Directors, and the transaction of all such business as may be done at a general meeting of the Company. 61

Fire Insurance In Canada In 1919[*]

Losses Still Heavy, But No Conflagration During Year—Licensed and Unlicensed Business—Downward Tendency of Rates—Investigation of Canadian Fire Underwriters' Association—Fire Preventive Work and Legislation—The Winnipeg Strike.

By CECIL S. WAINWRIGHT.

WHILE 1919 will go down into history as "Peace Year," following the termination of the great war, it has been anything but a year of peace in industry, in business or in politics; on the contrary, it has all over the world been a year of "riots, strikes and civil commotions." Notwithstanding Canada's share of these adverse conditions, it has been a year of great prosperity throughout the Dominion—that is, if a general increase in almost all classes of business, due to advances in values of stocks, building materials, etc., as well as in bank deposits, bank clearings, etc., accompanied by vast expenditures of money by individuals, by municipalities and by governments, can be taken as a criterion of prosperity. The discontinuance of numerous plants formerly engaged in the manufacture of munitions of warfare, and the existence of other post-war conditions, do not seem to have had any general adverse effect. As a matter of fact, a large number of erstwhile munition plants are now being utilized for the manufacture of implements and commodities appropriate to times of peace.

On the whole, it may be said that no single event of outstanding significance or importance to the fire insurance business has occurred during the year—that is to say, nothing unusual has happened to cause any marked change in the methods of conducting the business. This is said, however, with the qualification that hardly a day comes but brings with it some new aspect or phase of the business to be dealt with by fire insurance men. It is only after a retrospective glance over a few years that one remembers and realizes the number and character of these frequently occurring changes, affecting and altering as they do the ways and methods of conducting the business.

Year's Fire-Waste

It is pleasing to be able to record that no serious conflagration occurred during 1919. The value of the property destroyed in Canada during the eleven months ending 30th November is estimated at $21,000,000, so that it is altogether likely that the "fire waste" for 1919 will approximate $23,000,000,[†] as compared with $32,000,000 for 1918 and $20,000,000 for each of the years 1917 and 1916.

It is altogether likely that the year will not be an unsatisfactory one for fire insurance companies generally. There will no doubt be a considerable increase over the previous year in the total amount received by them for fire insurance premiums chiefly due to increased values, etc. In addition they have derived a considerable income from the various "side-lines" that are now being written by most fire companies.

In this connection it is interesting to note that—whereas the Dominion Insurance Act of 1910 permitted fire insurance companies to transact only five of the following classes of insurance, viz., fire, explosion, tornado, inland transportation, sprinkler leakage, hail and weather insurance—under the present act (1917) the superintendent of insurance may, upon the requisite deposits being made, license a fire company to transact ten of the following classes, viz., fire, explosion, tornado, inland transportation, sprinkler leakage, hail and weather insurance, automobile, bond, burglary, credit, accident, guarantee, plate glass, sickness and steam boiler insurance. A fire insurance company, however, cannot also transact life insurance.

Recent Growth of Canadian Premiums

There has been a remarkable growth since 1904 in the (net) premium incomes of the fire insurance companies licensed by the Dominion government as shown below:—

	1904.	1914.	1918.
Canadian Companies	$ 2,681,274	$ 5,016,654	$ 5,570,095
British Companies	8,343,664	13,710,908	18,658,712
American and French	2,144,941	8,771,599	11,725,601
	$13,169,879	$27,499,161	$35,964,408

Unlicensed Insurance

There has also, one regrets to note, been a considerable increase in the amount of insurance placed outside of Canada in companies not licensed to do business in Canada. This business amounted to $318,763,720 (in amounts insured) during 1918 (the latest figures available), as compared with $283,423,680 in 1917. If the average rate paid to the fire companies in Canada for 1918 ((namely 1.06) could properly be used as a basis upon which to estimate the premiums upon this unlicensed insurance (in so far as it has been reported to the Dominion Government), it would appear that these premiums would in 1919 reach no less a sum than $3,378,895. Up to date failure has attended all efforts to make these outside companies bear a fair share of the cost of running the country, which in all fairness they should do—particularly as they escape paying anything for office rents, salaries, etc., in the Dominion.

Increase in Licensed Companies

The following table shows the number of fire insurance companies operating in Canada under Dominion licenses at the close of the years 1904, 1914 and 1918, respectively:—

	1904.	1914.	1918.
Canadian	10	24	28
British	19	24	36
Foreign	9 (a)	34 (b)	50 (c)
	38	82	114

(a) U. S. companies only.
(b) 31 U. S. companies, 3 French companies.
(c) 46 U. S. companies, 4 French companies.

---

[*] From the New York "Journal of Commerce."

[†] This article was written December 30th. According to *The Monetary Times'* estimate the fire losses for the year totalled $23,207,647.

According to the latest official list issued by the Dominion Insurance Department (dated 4th October, 1919) the number of companies now operating in Canada under Dominion fire licenses is 128.

Of the 28 companies operating at the end of 1918 and classified above as "Canadian companies," 11 are owned and operated by British companies. Besides the companies which operate under Dominion licenses, there is a large number which do business in a single province only under licenses issued by that province.

Fire Insurance Rates Steadily Decreasing

In these days when one hears so much about the decrease in the purchasing power of the dollar and the increase in the cost of almost everything purchasable, it is pertinent and enlightening to point out that in Canada to-day the dollar actually buys more fire insurance protection than it did in pre-war days. This is evidenced by the following table, which shows the rates paid in the Dominion during the last five years for each $100 of amount insured:—

1914.	1915.	1916.	1917.	1918.
$1.17	$1.16	$1.09	$1.07	$1.06

It is of even greater interest to glance at similar tables for the ten years preceding 1914, viz.:—

1904.	1905.	1906.	1907.	1908.
$1.60	$1.60	$1.53	$1.50	$1.50
1909.	1910.	1911.	1912.	1913.
$1.41	$1.36	$1.35	$1.29	$1.21

While the chief causes contributing to these remarkable reductions in rates have been the improvements that have taken place in building construction, fire brigades, water-pressure, etc., and the increases that have been made in the number of sprinkler equipments, etc., it cannot be gainsaid that the present rates are inadequate to provide for the ever-growing expenditures for salaries, clerical and other services, supplies, inspections and (heaviest advance of all) the increasing taxes imposed by federal, provincial and municipal governments—and in addition to permit the companies to set aside the reserves which they should be enabled to do to provide for heavy conflagrations. In this connection it may be pointed out that the companies in making up their rates are never able to make any adequate provision for conflagrations. In spite of the comfortable feeling on the part of the citizens of every community that a conflagration will never occur in *their* midst, the dread of such a disaster is ever present in the mind of the prudent underwriter and must be taken into consideration by him when he gives away a portion of his premium to his reinsuring companies for the purpose of covering the excess of his own net lines.

The Strike in Winnipeg

The great strike in Winnipeg which lasted from May 1st to June 25th caused serious concern and great uneasiness to the fire insurance companies. This strike was participated in by street car men, civic and postal employees, railway men, telegraphers, as well as the building and metal and other trades. It is particularly regrettable to have to record that the firemen and policemen also joined in it. For six weeks the citizens of Winnipeg lived in what was nothing more nor less than a reign of terror, as the methods adopted by the strike leaders were most despotic and tyrannical, they undertaking amongst other things to regulate and control the distribution of bread, milk, meat and ice, etc. In fact, the peril run by the city was even greater than that experienced by Seattle, Buenos Ayres and other cities in this hemisphere in which serious strikes have taken place recently. The trial just concluded in Winnipeg showed that the moderate classes of strikers were led away by the more dangerous ones—the exponents of Bolshevical and anarchical doctrines. After a month and a half of the gravest inconvenience and hardships the strike was defeated. It is not going too far to say that the rest of Canada is under a heavy debt of gratitude to the good citizens of Winnipeg for the victory won by them, as had it not been for their vigorous fight, the result might have been calamitous throughout the entire Dominion. Several serious fires occurred during the strike, but excellent work on the part of the volunteer fire brigade, which was composed of inexperienced volunteers recruited from the general body of citizens, prevented any very heavy loss, although one fire threatened, and nearly effected, the destruction of the immense warehouses of the Hudson's Bay Company. No praise can be too high in speaking of the remarkably efficient work these volunteer firemen performed under the most adverse conditions. It is not too much to say that it compared most favourably with that of any professional firemen.

Riots and Strikes Insurance

The Winnipeg strike gave a tremendous impetus in that city as well as at other points in Canada, to the business of insurance against riots, strikes and civil commotions. Only a few of the companies were empowered by their licenses to transact this class of insurance. Others quickly followed their lead and obtained the necessary powers. The net premiums received by the companies after deducting the large amounts returned by them to the assured upon the cancellation of the policies after the expiration of ninety days (when they were cancellable) would not have covered more than a small proportion of the loss that would have had to be paid in Winnipeg, had only one or two of the buildings whose owners were persons *non grata* to the strike-leaders been destroyed by dynamite. It is no wonder, therefore, that many underwriters and others regarded the business of explosion insurance as written in Winnipeg as being more or less of a wild gamble. Even London Lloyds, the initiators of this class of indemnity, would have none of it at the prices and upon the conditions offered by stock companies on this continent.

Legislation

In Ontario an important change was made in the Insurance Act of that province by amending it so as to provide that in the case of the cancellation of a policy the tender shall be made by money, post office order, postal note or certified cheque payable at par. Previously the act provided that the tender must be in money only. The change now makes this provision of the act fair and workable.

No federal fire insurance laws were passed at the recent session of the Dominion parliament.

Canadian Fire Underwriters' Association

The report of the commissioner (the Honourable Mr. Justice Masten) appointed by the Ontario government to inquire into and report upon the rates, practices and methods of fire insurance companies and of the Canadian Fire Underwriters' Association, and also upon the existing laws of Ontario in relation to same, was laid before the house during the year. Amongst other things he recommends:—

(a) Supervision of the underwriters' association to a limited extent by the province.
(b) Prohibition of discriminatory rates.
(c) Power to superintendent of insurance to mediate regarding disputes.
(d) Companies to report annually the results of the various classes of risk.
(e) Stricter rules regarding issuance of agents' licenses with power to superintendent to cancel any license, and agent's fees to be graded from $5 to $100 each.
(f) Limitation of agents' commissions.
(g) A revision of present Insurance Act ((Ontario).

He also reported upon but made no recommendation regarding:—

(1) Tax on unlicensed companies.
(2) Reciprocal or inter-insurance without deposit.
(3) An act respecting individual liability for fire.

He advised against the adoption of the following suggestions:—

(1) Uniform policies throughout all the provinces.
(2) Prohibition of insurance of property in Ontario through agents resident outside of Ontario.

It will be remembered that the commission was appointed as a result of a complaint that the Canadian Fire Underwriters' Association was "arbitrary, autocratic and unfair" in its methods. It is therefore interesting to know that the commissioner comments favourably upon the work of the association, saying amongst other things:—

"I am of the opinion that the operations of the Canadian Fire Underwriters' Association have been and are to the advantage and in the interests of the public and that such a combination tends strongly to maintain the solvency of the companies, to stabilize the rates, to eliminate discrimination, and to assist in controlling the expenses of carrying on the business."

The report advises against the adoption of state compulsory insurance.

Forest Fires—Airplane Patrols, Etc.

While insurance against loss of standing timber destroyed by forest fires is not usually covered by the fire insurance companies, the menace to adjacent towns from these fires, the effect of the latter upon the cost of building materials, etc., and the economic loss to the country entailed by such fires, are matters of considerable interest to them. The loss from these conflagrations year by year is stupendous. No steps thus far taken have been successful in effecting a satisfactory reduction in this waste and nothing should be left undone to bring about better conditions in this respect.

Repeated suggestions to various government authorities to establish airplane fire patrols received scant consideration when first mooted. It is therefore of interest to learn that the value and practicability of such patrols have already been demonstrated during the year in the province of Quebec and also in British Columbia. In the latter province, an aviator, happening to be near Cowichan, discovered an incipient forest fire, marked its exact location and reported it to the forest ranger, who at once dispatched men to the scene. As a result of this prompt action the fire was confined to small proportions. It is of further interest to know that a governmental survey is now being made of the British Columbia coast with a view of establishing airplane and seaplane bases in connection with a proposed forestry patrol by air. The Canadian Forestry Association is also taking up the question of using carrier-pigeons.

Another "Unburnable" Elevator Destroyed

The destruction of the Dominion government's grain elevator at Port Colborne, Ontario, in August, accompanied by a lamentable loss of life, adds one more to the rapidly growing "loss-list" of elevators described as being "the last word in construction," etc. As usual, the cause of the fire was the explosion of grain dust, and the cause of the explosion seems to have been a choked lofter. There was no insurance upon the building, as the Dominion government does not carry fire insurance upon its property. The loss on grain was quite small.

Important Judgment re Explosion Claim

The heavy loss in August, 1917, at Dragon, Que., in the explosives factory of Curtis and Harvey, involving claims against fire companies of some $600,000, will be readily recalled by underwriters. An important decision was rendered during the year, reversing the former judgment, which latter had held that the fire insurance companies were liable. The assured will appeal to the Privy Council in London and the result will be awaited with the deepest interest, as questions of the highest importance to fire insurance companies regarding their ability for loss by explosion under the provincial statutory conditions, and also under the particular conditions of the policies of the interested companies are involved.

Municipal Self-Insurance

It would seem almost incredible after the experience which such cities as Toronto, Baltimore, San Francisco and Chelsea and others have undergone in recent years, that anyone having in his hands the safeguarding of the interests of his fellow-citizens should be so short-sighted as to advocate the sophistical and dangerous principles of municipal fire insurance. Yet from time to time efforts are made to vivify this hardy perennial and during the year advocates of this unsound method of financing have arisen at several points throughout the Dominion. The fallaciousness of the arguments used in support of municipal insurance has been so often exposed that it would be a waste of space to go over them again in an article such as this. When a self-insurance plan so well sponsored and so well supported as that of the two insurance companies organized by the Canadian Manufacturers' Association some years ago (extending as it did over a considerable portion of the Dominion) proved a failure, it is difficult to believe that anyone could expect that any municipality could successfully carry all its fire insurance eggs in the one basket.

Methodist Church and Self-Insurance

The department of finance of the Methodist Church in Canada has this year given a great deal of consideration to the advisability of forming either a mutual company or a joint stock company for the purpose of insuring its churches. Such a plan differs to some extent from self-insurance by a city or town, as the Church's risks are scattered throughout the Dominion. After going very fully into statistics which showed very heavy losses on church property in Canada within a recent period, it was decided to drop the plan of forming an insurance company and to endeavour instead to obtain the agencies of regular fire insurance companies. It is not known what success has attended these endeavours.

It is interesting to learn that in the course of the Church's investigations it developed that in the 28 months prior to May, 1919, there were 160 church fires in Ontario, causing losses of $214,250, of which amount $158,890 was covered by insurance. Of these 160 fires, 49 were in Anglican churches, 43 in Roman Catholic, 27 in Methodist and 22 in Presbyterian. In Nova Scotia and New Brunswick equally heavy losses were sustained on church property. All of which reminds fire insurance men that the day has long gone by when insurance on churches was eagerly sought by the companies as being "the cream of the business."

A number of the suggestions made at the representative meeting convened in Ottawa in December, 1918, under the auspices of the Dominion government, are being followed out. This year October 9th was appointed by the Dominion government as "Fire prevention" or "Clean-up" day, having as its object the removal of any conditions in dwellings, public buildings, stores and factories likely to cause the spread of fires. It is very gratifying to note that the press of Canada gave strong and most valuable support to this plan in their editorial columns.

It is also interesting to note that under an amendment proposed by the Dominion government at the suggestion of its insurance department, the Criminal Code now provides very heavy fines and also a maximum of two years' imprisonment for any person who fails to carry out instructions for improvements received from a proper official, or, for anyone who owns, occupies or controls any premises in which a fire occurs through negligence. This amendment was not passed at Ottawa without considerable opposition. Many people thought it too drastic. The statement has several times been made that the fire insurance companies were responsible for its enactment, but this is not the case. There can be no question, however, but that some strong measures are necessary with the object of preventing the enormous economic waste that takes place every year in the Dominion through preventable fires, and with a view to removing the stigma that now rests upon Canada in having the highest *per capita* fire loss of any country in the world.

Conclusion

Whether the indications of apparent prosperity referred to in the beginning of this article are, or are not, based upon solid ground the next twelve months may show. A great deal depends upon a satisfactory adjustment of labour troubles. To say that fire insurance underwriters devoutly trust that the hopeful expectations of some of Canada's leading financial men in regard to business conditions during 1920 may be abundantly realized "is but to state the obvious."

The Toronto Stock Exchange firm of McMillan, Nicholson and Co. has been dissolved, Mr. Nicholson retiring. The new firm will be McMillan, Guest and Co., with D. F. McMillan and A. B. Guest the members.

PERSONAL NOTES

Mr. L. M. Green, of the Toronto firm of Green, Henderson and Company, has been elected a member of the Toronto Stock Exchange.

Mr. John D. Galloway, of the British Columbia Department of Mines, has become associated with Henry L. Doherty and Company of New York.

Lieut. James Vernon McKenzie, of Toronto, has been appointed Canadian Trade Commissioner at Glasgow by the Civil Service Commission. Mr. McKenzie is a graduate of Toronto and Harvard Universities.

Mr. L. D. Wilgress, special Trade Commissioner at Vladivostok for the Canadian government, is being sent to the Balkans and Southern Russia to make a survey of the existing conditions and to report as to the possibility for trade.

Mr. F. J. Buller has been appointed supervisor in charge of local treasurers and paymasters of the Canadian Northern lines of the Canadian National Railways System. The appointment goes into effect immediately. Mr. Buller's office will be in Toronto.

Mr. L. Percy Lambert, former traffic manager for Lyall Construction Company, and **Mr. James A. McCormack**, who saw service overseas with the Strathcona Horse, and lately with the Dominion Bank, have joined the staff of Bryant, Isard and Company, stock brokers, Toronto.

Mr. Arthur E. Phillips, C.A., who has recently returned to Winnipeg, has entered into partnership with Mr. Richard A. Roberts, C.A. The practice hitherto carried on by Arthur E. Phillips and Company, chartered accountants and auditors will in future be continued under the name of Phillips, Roberts and Company.

Mr. Chas. S. Macdonald has been appointed general manager of the Confederation Life Association. Mr. Macdonald, who is a son of the president, Mr. J. K. Macdonald, has been in the service of the Confederation Life Association for some twenty-one years. He entered the actuarial department of the company in August, 1907, and was appointed assistant actuary, which position he held for some years. In 1914 he was appointed assistant superintendent of agents, and spent several years in field work. For some months he has been acting as assistant to the president.

Mr. C. F. Codere, who has been chief agent in Canada for several years of the St. Paul Fire and Marine Insurance Company, with headquarters at Winnipeg, has been appointed assistant to the president. Mr. Codere who has been nearly thirteen years with the St. Paul Fire and Marine, will be leaving Winnipeg about the first of March to assume his new position. Mr. S. S. Patchell will be successor to Mr. Codere in Winnipeg, as chief agent for Canada, has a long record as a successful fire insurance man, having been for 18 years with the Liverpool, London and Globe, in St. John and Winnipeg.

OBITUARIES

Mr. Geo. W. Gardner, for over thirty years a member of the stock brokerage firm of H. C. Scott and Company, Montreal, died in that city last week.

Mr. Edwin Utley, Fellow of the College of Public Accountants, for many years a well-known chartered accountant in Toronto, died this week at the age of 78. A native of London, England, the late Mr. Utley spent his earlier life as a chartered accountant in England, and before coming to Canada was a Fellow of the College of Chartered Accountants of London.

Mr. R. H. Temple, the first president of the Toronto Stock Exchange, died at his home this week in Toronto, in his 79th year. Born in Quebec in 1841, he studied law there, forsaking it later for the civil service. He resided in Ottawa for some time, and on being transferred to Toronto in 1870, he became a stock broker, retiring from active work some ten years ago.

STANDARD STOCK EXCHANGE

P. W. Cashman

At the annual meeting of the Standard Stock Exchange, Toronto, held on Monday, January 12, the following officers were elected: President, P. W. Cashman; first vice-president, J. P. Cannon; second vice-president, Hamilton B. Wills; secretary – treasurer, L. J. West; directors, J. T. Eastwood, F. Asa Hall, P. G. Kiely, D. G. Lorsch and J. A. McCausland. The business for last year showed an increase of 18,757,594 in shares dealt in and of $5,976,074 in values. The increase in clearings over 1918 amounted to $7,784,793. The Exchange closed its year with a large surplus, almost all of it being invested in Victory bonds.

The new president, P. W. Cashman, is a member of the firm of J. P. Bickell and Co., and is also secretary-treasurer of the Regent Theatre Co. He was born in St. Mary's, Penn., in 1875, and at the age of 15 entered the employ of the Western Union Telegraph Co. From 1894 to 1902 he was with the Pittsburg, Shawmut and Northern Railway Co., from 1902 to 1909 he was engaged in the coal business in Pennsylvania. In 1909 he went to Haileybury, Ont., and in 1911 entered the firm of J. P. Bickell and Co., Toronto, as cashier, being made manager in 1912, and a partner in 1916.

VICTORY BOND TRADING CONTROLLED

Bonds of the 1917 and 1918 Victory loans were removed from the stock exchanges on January 22nd, and trading prices for these, and also for the bonds of the 1919 issue, which were not listed, are now fixed by a committee of the Bond Dealers' Association. This committee, of which G. H. Wood is chairman and R. A. Daly secretary, acted in a similar capacity for a short time after each Victory loan. In explanation, the following statement was issued by the committee:—

"Under an arrangement entered into by the Bond Dealers' Association of Canada and the members of the Toronto, Montreal and Winnipeg Stock Exchanges, all maturities of 1917 and 1918 Victory loans are now placed under the control of the Market Committee, along with the 1919 issue, and trading under the auspices of the committee will commence this morning. This is a resumption of the plan which was so successful following the 1917 and 1918 Victory loans. The bonds now listed on the exchanges will continue to be quoted there, and the records of transactions will appear as before."

The prices fixed for the bonds are as follows: 1922, 100; 1923, 100; 1927, 101½; 1933, 102¼; 1937, 104¼. In selling, a commission of ¼ per cent. is added by the dealer, and in buying, a similar commission is deducted. The latter, however, is turned over to the committee, which in turn pays it to the dealer selling the bonds, so that the total commission on sales is ½ of one per cent.

THE STATE INSURANCE MOVEMENT

TWO moves in the direction of further state insurance are now being made in Canada. J. W. Wilton, member of the Manitoba legislative assembly, will introduce a bill to establish a workmen's compensation board in that province, and to make this form of insurance compulsory. The assembly has not met as yet, and it is not known whether the bill will be introduced as a government measure.

In British Columbia state insurance has been discussed for some time, and one of the private members of the assembly will, it is understood, at the coming session introduce a bill to empower the government to engage in any line of insurance. E. S. H. Winn, chairman of the British Columbia Workmen's Compensation Board, has for some time been urging that a system of compulsory health insurance be adopted; one of his addresses to this effect was printed in *The Monetary Times* of November 14, 1919.

Many advantages of state insurance are obvious, but there are weighty objections which need be carefully considered. Some of these were pointed out by Wm. Thompson, president of the Insurance Federation of British Columbia, in an interview recently. There is, he said, no demand for state insurance. Mr. Thompson continued:—

"As a matter of fact, the insurance companies already doing accident and health insurance are furnishing suitable protection to all provident wage-earners who desire protection of this character. The feature in the proposed bill to which I feel sure every man in British Columbia will take exception, is that of compulsion. This factor is one that will be vigorously resented by the liberty-loving people of a democratic country like our own and, as a matter of fact, it was in order to conserve this liberty that the recent world war was waged.

"So far as mothers' pensions are concerned, I do not know whether this means widows' pensions, but if it does, I think every responsible citizen will be glad to favor any scheme that will enable the widowed mother to stay at home and bring up her children as respected and loyal citizens. With regard to maternity benefits, this is a feature about which I do not know very much, but it would seem to me that the average man in British Columbia is getting a high enough wage to take care of his family and if he does not provide for their proper care steps should be taken to increase his remuneration. So far as public nursing benefits are concerned, it would seem to me that an extension of the present hospital system would take care of this work.

"Then, with regard to old age pensions, I do not know why the government should create an expensive commission to go through the province to find out what demand there is in this connection, seeing that old age pensions can be procured from the post office for any one who is desirous of providing for the later years of his or her life.

"I think that when the public really know what is behind the compulsory state insurance and the autocratic principle involved, they will speak in no uncertain tone to the government, and let them realize that they will not stand for any autocratic legislation of this type which all the important states in America have enquired into and finally decided not to adopt, after seeing that the cost was likely to be so important. The demand exists only in the minds of socialistic agitators and theorists."

SPECULATING IN EXCHANGE

THE effects of the present exchange situation are extensive, but they have probably been felt more intensely in the sphere of capital investments than in any other. Exchange between Canada and the United States, and between Canada and the United Kingdom, has in fact dominated the investment field during the past few months, apart from the Victory loan. Large amounts of Canadian bonds held in the United Kingdom have been repurchased here; some of these and a large proportion of new Canadian issues have again been marketed in the United States. The fact that the larger issues of recent months have been sold directly or indirectly across the line would seem to indicate that the Canadian market is very weak. A comparison of this kind is really a matter of price, however, and when the United States investor can purchase Canadian securities about eight per cent. cheaper than can the investor in this country, and regards them almost as highly as he regards United States securities, the reason for the large sales there is apparent.

Because of this situation, practically every large issue is now made payable, principal and interest, in New York as well as in Canada. This is necessary to make the bonds attractive there. The seller is thereby able to realize a price in New York funds, and obtains about eight points extra in bringing these funds to Canada. On the other hand, the seller must be prepared to meet his payments of interest and principal there regardless of what the exchange rate may be at the time. An element of speculation is thereby involved, and some criticism has been levelled at the Canadian provinces and municipalities which have recently assumed obligations of this kind. As the present exchange rate is decidedly abnormal, however, it would seem to be good business judgment to realize an immediate profit by it, in the expectation that when the principal falls due the premium will at least not be as great as at present. Where bonds are being sold to refund an issue already due and payable in New York, as was the case with the $3,000,000 Ontario issue recently sold, the only alternative would be to lose heavily in transferring Canadian funds to New York.

CO-ORDINATION IN PUBLIC POLICY

So uniform are economic conditions in the maritime provinces, and so difficult is adequate government of such small units as they are at present, that the advantages of a political union are readily apparent. In the matter of road-building alone, Hon. P. J. Veniot, minister of public works for New Brunswick, speaking on January 15, before the Commercial Club of Halifax, pointed out some benefits that could be derived by co-operation. Even though union could not be obtained he said that there should be some union of commercial interests to prevent complete engulfment by the western provinces. Nova Scotia and New Brunswick should walk hand-in-hand and become better acquainted. To do this there was no better way than through good roads.

Mr. Veniot referred to road-building in his province, where there were 17,000 miles of roadways, almost as many as in Nova Scotia, although the population was much smaller. Since 1917, twelve months' actual work had been put in and 1,200 miles of roads had been repaired. This had been effected with the co-operation of the people, the engineers and the New Brunswick Automobile Association. The people had made the government give them good roads, and the people of Nova Scotia should do the same. Three million dollars had been expended in New Brunswick during the past three years, a large portion of it being derived from funding motor fees, which were steadily increasing. He was strongly opposed to standardizing road construction. He advised against building costly highways instead of roads planned to meet the particular traffic to which they were subjected. He hoped for the co-operation of the Nova Scotia government in an attempt which was to be made to have the federal authorities change the federal aid scheme, so that the maritime provinces would receive more advantages.

DEPLETION OF THE FISHERIES

Further evidence of the extent to which the natural resources of Canada have been consumed by unrestrticted "development," is found in a letter recently addressed to Hon. C. C. Ballantyne, minister of marine and fisheries in the Dominion government, by Hon. Wm. Sloan, commissioner of fisheries for the province of British Columbia. The letter says in part:—

"It is time that the government stepped in seriously to protect the fish, eliminate all useless competition, over-equipment and waste, to the end that the people may be able to obtain, at a fair price, one of the natural food products of this province. To permit a further depletion of the salmon fisheries of the province would be a policy which could only be characterized as a criminal policy. The fish of this province, notwithstanding the depletion of both the salmon and the halibut, are still one of its greatest food assets. They are one of the greatest assets the province possesses. With judicious handling the fisheries can be maintained for all time. The depleted fisheries can be built up, but they cannot be maintained if the present methods are to continue."

This is not the first official admission of a serious situation. For several years past it has been only too apparent that Canadian prosperity has to too great an extent been made possible by the using up of nature's gifts. The establishment of a commission of conservation should not mean that that body alone should be charged with the interests of the future. It is the duty of every government department which has to do with natural resources to see that where possible their development is with a view to indefinitely prolonged production. This is possible with the fisheries, the forests, and agriculture, industries which must be placed on a permanent basis if the future growth of this country is to be assured. Prosperity which is based upon prodigality is not worth the having.

MONTREAL CLEARINGS BREAK ALL RECORDS

The annual statement of the Montreal Bank clearing house shows that clearings for the year 1919 exceeded by over $1,400,000,000 the previous record of 1918. Montreal now holds ninth place among the cities of the North American continent as regards bank clearings. Mr. H. B. Henwood, chairman, in his report says:—

"The large increase of $1,400,000,000 over the previous year's totals is equivalent to more than one-half of the entire clearings of the year 1914, and gives indication of the continued expansion and development of Canadian trade and industry, and is to some extent a reflection of the prevailing high prices of commodities, materials and their cost of production, as well as the greater spending power of the Canadian people; it seems wise, however, to reflect that we must not be carried away by the prosperity thus indicated, but rather that we should realize that on the other side of the picture Canada has a great after-war burden to carry which calls for rigid economy and greater production on the part of the Canadian people."

can continent as regards bank clearings. Mr. H. B. Henwood, chairman; J. D. G. Kippen, vice-chairman; M. S. Bogert, C. W. Dean, F. G. Leduc, H. B. Walker, R. J. Ritchie. Mr. G. C. Hart is manager.

RATES UNCHANGED AT PRESENT

Increases in annual assessments were discussed at the annual meeting of the Dominion Commercial Travellers' Mutual Benefit Society, held in Montreal on January 17th. It was decided to leave this matter over for another year, with the understanding that a sufficient number of special assessments should be levied during the coming year to meet all expected claims and provide for an increase in the reserve fund.

The retiring president, W. N. Ahearn, urged that the subject be carefully considered, as it was necessary that the society be in a position to meet all death claims. F. S. Cote, secretary-treasurer, reported that deaths during the year had totalled 30, the largest in the history of the society. The average age of the deceased members was 63½ years, while the length of their membership averaged 26½ years. A small deficit was reported, due in part to the fact that operations had covered nearly thirteen calendar months.

The following officers were elected to constitute the board of management for the coming year: President, John McLellan; vice-president, S. S. Woodward; treasurer, F. S. Cote; past-president, W. N. Ahearn, and secretary, J. F. Garrett. Trustees—Charles Roberts, Maxwell Murdock, P. H. Burns, R. E. Matthews, J. M. S. Carroll, Wm. Blanchard, E. E. Goodenough, J. B. Cullens and E. A. Corcoran.

Messrs. Geo. A. Mann, A. McA. Murphy, Wm. Galbraith, J. G. Watson, J. R. McGregor and R. Laurence were appointed a committee to study the rates question with the officers and trustees.

Trade with the Orient

With correspondents of the highest standing in China, Japan, India and other countries of the Orient, and branches in all the principal ports on the Pacific coast of North America, namely :

Prince Rupert	Portland, Ore.
Victoria	Seattle
Vancouver	San Francisco

this Bank is excellently equipped to serve the interests of Canada's growing trade with the Orient.

THE CANADIAN BANK OF COMMERCE

Paid-up Capital, - -	**$15,000,000**
Reserve Fund, - - -	**$15,000,000**

38A

IMPERIAL BANK
OF CANADA

DIVIDEND No. 118

NOTICE IS HEREBY GIVEN that a dividend at the rate of twelve per cent. (12%) per annum upon the paid-up Capital Stock of this Institution has been declared for the three months ending 31st January, 1920, and that the same will be payable at the Head Office and Branches, on and after Monday, the Second day of February next.

The Transfer Books will be closed from the 17th to the 31st January, 1920, both days inclusive.

By Order of the Board,

W. MOFFATT,
General Manager

—In Canada and Abroad

COINCIDENT with Canada's foreign trade ambitions, we have made remarkable progress toward the fulfilment of our policy to build up an institution of an international character that will provide a financial highway for Canadian trade with foreign countries.

Across Canada there are more than 390 branches of the Union Bank of Canada.

We have our own New York Agency and two branches in London, England.

In addition branches of the Park-Union Foreign Banking Corporation offer direct banking connections in the Orient, at Seattle and San Francisco in the U.S., and in Paris, France.

Resources Exceed $174,000,000.

UNION BANK
OF CANADA

Park-Union Foreign Banking Corporation jointly owned and controlled by National Park Bank of New York and Union Bank of Canada.

Bank of Hamilton

HEAD OFFICE - HAMILTON

Established 1872

Capital Authorized - - - -	$5,000,000
Capital Paid Up (July 31st, 1919) - - -	3,946,220
Reserve and Undivided Profits (July 31st, 1919) -	4,058,224

Directors

SIR JOHN HENDRIE, K.C.M.G., C.V.O., President
CYRUS A. BIRGE, Vice-President
C. C. DALTON ROBT. HOBSON W. E. PHIN
I. PITBLADO, K.C. J. TURNBULL W. A. WOOD

Branches

At Montreal, and throughout the Provinces of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia.

Savings Department at all Offices.
Deposits of $1 and upwards received.

Advances made for Manufacturing and Farming purposes.

Collections effected in all parts of Canada promptly and cheaply.

Correspondence solicited

J. P. BELL - - General Manager

TORONTO GENERAL TRUSTS CORPORATION

Because of its outstanding position among the trust companies of Canada, the financial statement of the Toronto General Trusts Corporation for the year ended December 31, 1919, may be considered as indicating that the year was a good one for business of this kind. This statement will be submitted at the annual meeting to be held on February 4. Gross profits from commissions, interest on capital and reserves, rents from office buildings, deposit vaults, etc., were $757,338, and management expenses totalled $413,354, leaving net profits of $343,983, which is over $20,000 more than last year. In addition to quarterly dividends at 10 per cent. per annum, two bonuses of one per cent. each were declared. The sum of $25,000 was provided for 1919 federal income tax, and $19,767 written off head office building. A balance of $265,529 is carried forward, compared with $152,812 brought forward from 1918.

The balance sheet reflects considerable expansion of business, as is indicated by the following comparisons:—

	1918.	1919.
Assets on capital account	$ 3,759,444	$ 3,882,637
Guaranteed accounts	8,185,883	9,476,559
Estates, trusts and agencies	78,887,301	87,763,834
Total assets	90,832,629	101,123,031
Capital and reserve	3,500,000	3,500,000

BANK BRANCH NOTES

A bill has been introduced into the Quebec Legislature to permit the Merchants Bank to erect a branch at the corner of Sherbrooke and Metcalfe Streets, Westmount. The consent of a majority of the Westmount Council will also be required, because of clauses in the city's charter affecting the site which has been acquired by the bank.

Mr. Guy M. Proud has been appointed inspector of the Union Bank of Canada, to be resident in Edmonton. Mr. Proud's jurisdiction will include part of north-western Saskatchewan, northern Alberta and branches in British Columbia. Previously, A. F. S. Tatum has been inspector for the province of Alberta, and while resident in Calgary, he has divided his time largely between Calgary and Edmonton. Mr. Proud's appointment separates the province into two districts, the north and south. Mr. Tatum will have supervision of southern Alberta and south-western Saskatchewan branches.

The following is a list of branches of Canadian banks recently opened:—

La Romano, R.D.	Royal Bank of Canada
Barranquilla, Columbia ...	Royal Bank of Canada
Bloomfield, Ont.	Bank of Montreal
Cainsville, Ont.	Bank of Montreal
Esquimalt, B.C.	Bank of Montreal
Holstein, Ont.	Bank of Montreal
St. Agathe, Man.	Banque d'Hochelaga
St. Norbert, Man.	Banque d'Hochelaga
Rossendale, Man.	Merchants Bank of Canada
McDonald, Man.	Merchants Bank of Canada
Three Rivers, Que. (corner Maurice St. and Laviolette Ave.)	Canadian Bank of Commerce
New Edinburgh, N.S.	Bank of Nova Scotia
Ottawa, Ont.	Bank of Nova Scotia
Salisbury, N.B.	Bank of Nova Scotia

In connection with the above mentioned branches the Bank of Montreal has announced the following appointments: Mr. R. G. Ross, appointed acting manager at Bloomfield, Ont. Mr. G. C. Chubb, formerly acting manager at Holstein, appointed acting manager at Cainsville, Ont. Mr. E. Stonham, appointed acting manager at Esquimalt, Ont. Mr. G. C. Easton, formerly manager at Bloomfield, appointed manager at Holstein, Ont.

Mr. A. P. Marchand has been appointed manager of the Canadian Bank of Commerce, at Three Rivers, Quebec.

It has recently been announced that the Royal Bank of Canada will open a branch shortly at Trenton, Ont.

RESULTS OF NOVA SCOTIA-OTTAWA MERGER

The annual report of the Bank of Nova Scotia for the year just ended, is the first to be issued since the amalagamation with the Bank of Ottawa, which took place on May 1. Net profits for 1919 were slightly less than the profits of the two banks operating separately in 1918, being $1,925,478, as compared with $1,411,925 for Nova Scotia, and $645,437 for Ottawa the previous year, or a total of $2,057,362. Assets of the Nova Scotia have now reached a total of $238,278,722, as compared with $234,023,908 for the two banks added together in 1918. Deposits for the Nova Scotia have reached the sum of $180,292,607, as compared with $178,338,107, thus showing a slight increase over the deposits of the two banks added together before amalgamation. Commercial loans were $77,868,030, as compared with $75,977,605 for the two institutions a year ago.

Leaving the comparison with the two former banks aside, the Nova Scotia reflected its strong position last year by increasing its dividend from 14 to 16 per cent. The sum of $200,000 was written off bank premises account, as compared with $150,000 for the Scotia alone the previous year, and $100,000 was contributed to officers' pension fund, or double the amount for 1918. The balance carried forward is $704,172, as compared with $749,694 for Scotia alone a year ago. Some of the more important items, with comparisons, the figures for 1918 including the Nova Scotia and Ottawa added together, are as follows:—

	1919.	1918.
Net profits	$ 1,925,478	$ 2,057,362
Total deposits	180,292,607	178,338,107
Total assets	238,278,722	234,023,908
Commercial loans	77,868,030	75,977,605

WEEKLY BANK CLEARINGS

The following are the bank clearings for the week ended January 22, 1920, compared with the corresponding week last year:—

	Week ended Jan. 22, '20.	Week ended Jan. 23, '19.		Changes.
Montreal	$143,692,532	$ 92,371,914	+	$ 51,320,618
Toronto	99,518,491	68,614,191	+	30,904,300

MANITOBA RURAL CREDITS' CONVENTION

Provincial Treasurer Reviews Progress Since Act was Passed in 1917—Bankers Confer With Society Directors—Life Insurance Enhance Farmers' Credit—How Loans are Distributed—Some Legal Aspects

IN addressing the first convention of rural credit societies of Manitoba, in Winnipeg on January 13, 14 and 15, Hon. Edward Brown praised the work which has already been done under the direction of G. W. Prout, M.R.A. Sixty societies have already been incorporated, of which 38 are active. The governement's aim is to have a society in every one of the province's 110 municipalities. With respect to the Act itself, Mr. Brown said that, like all sound legislation, it was inspired by the need that existed. That statement might be called into question by men who had an interest in taking the opposite side, but if evidence were wanted as to the need for the legislation, it was supplied by the rapid growth and popularity of the movement in the province. If the Act had not been needed, it would not have been taken advantage of in the way it had. It might be asked why, considering the fine banking system in Canada, it was necessary to organize rural credit societies for the purpose of lending money to farmers. He was second to no one in his admiration for the Canadian banking system, which was probably the finest in the world, but while it had worked out in a very successful way so far as the commercial life of Canada was concerned, it never was conceived for the purposes of farmers or agricultural districts. Having explained this statement, Mr. Brown said this was why it was necessary to supplement the banking system by adopting a rural credit society system to give financial assistance to farmers.

Local Banks Not Favored

Mr. Brown said there had been a movement in two of the western provinces in favor of establishing unit banks. He had no use for that suggestion at all. The unit bank would only increase the expense of management and would not cheapen money. The rates it would have to charge the farmers would be higher than the rates which the banks were in the habit of charging. He had no sympathy with the suggestion to establish unit banks. In the rural credit societies they had an organization which could link up with the banks, and could, therefore, get the use of the cash resources of the country for the benefit of the farmers. This rural credits Act was designed for co-operation with the banks and to secure their co-operation. He was glad to say that this co-operation had been obtained. He wanted to make that clear. So far as the banks were concerned, the broadest view of the Act prevailed. The banks had come to recognize that while the rate was lower than they would charge in an ordinary way, the risk had been largely eliminated, and that to lend to a group of farmers quite a substantial sum of money where the risk is to be eliminated is more desirable than to lend to individual farmers at a higher rate where there is a modicum of risk.

Six per Cent. Rate Sound

Speaking of the benefits that accrued to the farmers, whether they were men struggling to make a footing or men who had established themselves and were anxious to go in for more development, Mr. Brown described the arbitrary fixing by the government of the rate of interest at six per cent. as the backbone of the Act. It was true that the banks felt that this rate was not sufficient, and that they ought to get a little more. The banks had urged the government to amend the Act by removing this arbitrary ruling. He had stated that before the government would amend the Act in this way it would repeal the Act altogether, because its usefulness would be gone. He would say now, however, that if the banks said the money rates were higher to-day than they had been, the bankers should confer with the directors of the rural credit societies, who were responsible men, and that if, as a result of the conference, it was represented to him that 6½ per cent. were reasonable, he would consider the matter. The bankers considered that a reasonable proposition, and he hoped the directors would confer with them and reach a joint conclusion, whatever that might be.

Banks' "Spread" Not All Profit

"The Growth, Service and Possibilities of Rural Credit Societies to the Farmer, to the Banker, and to the Community" was discussed by G. W. Prout, M.L.A. Mr. Prout's address is given elsewhere in this issue. In referring to the banks, he also remarked that it was "a misconception to say that the cost of deposit moneys to the banks is only three per cent." The banks, he pointed out, had to add the cost of doing business, and it was therefore wholly unfair to say that the entire spread was profit. Mr. Prout was presented with an illuminated address in which much of the progress of the movement was attributed to his efforts.

One of the features of the convention was a prolonged discussion between twelve representative directors of societies and a number of leading bankers in the province, to make the business between the banks and the societies run as smoothly and uniformly as possible. Among the bankers who took part were F. L. Patton of the Dominion Bank, Vere C. Brown of the Canadian Bank of Commerce, Robert Campbell of the Royal Bank, F. W. S. Crispo of the Union Bank, and Mr. Weir, sub-section secretary of the Canadian Bankers' Association. A number of bank managers attended all the convention meetings. Mr. Vere C. Brown also addressed the convention on January 14, and referred to the good feeling which existed between the societies and the banks.

Early Price Decline Not Likely

Speaking on January 14, Professor G. F. Warren, of Cornell University, said that although the pre-war price levels may not again be reached, it seems probable that a very considerable drop will take place in from five to fifteen years. It had been expected that prices would start and fall as soon as the fighting ceased; when this did not happen, the view arose that the present levels would be permanent, which was not necessarily a correct view. The fixed price of wheat was not responsibile for high prices, he said, because the price had been fixed lower than the market price. Profiteering was a result, rather than a cause, of high prices.

The economic value of life insurance was emphasized by C. C. Ferguson, general manager of the Great West Life Assurance Co. The government he said, had not sufficiently recognized this value because they taxed the companies heavily. Mr. Ferguson's subject was "How Life Insurance Strengthens a Farmer's Credit."

How Money is Loaned

E. A. Weir, agricultural director, described "The Rural Credits' Act in Operation." He stated that generally, in spite of drought and hail and other misfortunes, there had not been many loan renewals necessary. Credits had been granted during the past year of $172,532 for the purchase of livestock, $94,155 for purchase of machinery, $278,748 for putting in and taking off crops, $247,691 for breaking new land, $18,865 for farm improvements, and $239,885 for retiring liabilities and sundry purposes. The morale of repayment was very good constructive education in farm finance and management and was an inseparable part of the work of the rural credits' societies. Mr. Weir stated that, when during the farmers' gatherings in Brandon recently, it had been learned he was among the visitors, the most intense interest in the rural credits movement had been shown, and he had been kept busy answering questions from farmers.

Legal aspects of the Act were dealt with in an address by R. G. McWilliams, B.A., LL.B., who had worked with Mr. Prout on the Act and had in fact drawn it up in the first place. In his talk on the security afforded both lender and borrower, Mr. McWilliams pointed out among other things the comfortable feature that the lenders of the money knew the exact nature of the troubles confronting their neighbors, the borrowers, and were in a position to sympathize and co-operate, and thus to smooth out the often rough way of repayment.

SHIPBUILDING CRISIS REACHED

Canadian Plants Unable to Compete Successfully—Government Considering Advisability of Bonusing Industry

(Special to *The Monetary Times*)

Ottawa, January 22, 1920.

THE shipbuilding situation in Canada is now approaching the point where the permanent policy of the government in regard to it will have to be decided. It was the expectation that, if the government placed a fairly large number of orders, the industry would be carried on until it would be, in a sense, self-supporting; that is, it would be able to secure private orders in open competition. This hope has not been realized. This has not been due to any lack of efficiency or energy on the part of Canadian shipbuilders. They have been energetic in seeking orders abroad, and it has been shown that Canadian built ships are the equal of the best; but they have not been at the work long enough to establish their name in the eyes of the shipping world. Under such circumstances, it would seem that, if the industry is not to die just as it is getting on its feet, some system of bounties or other government assistant would be necessary.

The statement was made on behalf of the government in the House of Commons last session, that the whole matter would come up for consideration at the coming session, when the final policy of the government regarding the shipbuilding industry would be announced. It is believed that the Minister of Marine favors the bounty system.

A delegation representing Canadian shipbuilding companies interviewed the government recently, laying the whole position before it, and urging that the bounty system should be established. The government, of course, merely gave the stereotyped answer that "the matter would receive its most serious consideration." In this case there is no doubt that it will receive that.

The government has made a new departure to some extent with regard to it by its offer made to the shipbuilders of British Columbia where it has offered to finance the building of eight wooden ships, at a cost of about two hundred and fifty thousand dollars each, to the extent of about 75 per cent. of their cost. One firm on the Pacific Coast, the Choeberg Co., has taken advantage of this offer and will proceed with the building of four of the ships.

Extent of the Industry

The importance of the industry in Canada is shown by the fact that it now employs over 25,000 men, while the number to whom it gives employment in other industries is very large. With four exceptions, the engines for all the ships of the Canadian mercantile marine have been produced in Canada. The plate mill at Sydney, erected at a cost of five million dollars, for the purpose of producing plates for steel ships, will be ready to produce in a month or two.

The United States is now preparing for a great exhibition to be held in New York in April, in which everything of marine interest is shown, the idea being to popularize their marine among their own people and advertise it to the world. A good suggestion has been made by the deputy minister of marine to the effect that one of the finest of the Canadian ships should be sent on a long voyage, visiting the chief commercial ports of the world, and carrying Canadian made goods. This would constitute at once an exposition of our commerce and ability to build ships. It may be carried out.

The following summary of the government's shipbuilding program, not hitherto published. is of interest:—

Government's Shipbuilding Program

SUMMARY NO. 1

Total number of contracts agreed upon to date	60
Total dead-weight tonnage	359,945 tons
Total value—60 vessels	$69,522,260.00
Average cost per ton	$193.14

SUMMARY NO. 2

Number of contracts agreed upon before date of armistice, 11th November, 1918	45
Total dead-weight tonnage	271,665 tons
Total value—45 vessels	$54,234,635.00
Average cost per ton	$199.63

SUMMARY NO. 3

Number of contracts agreed upon since signing of armistice, 11th November, 1918	15
Total dead-weight tonnage	88,280 tons
Total value—15 vessels	$15,287,625.00
Average cost per ton	$173.17

SUMMARY NO. 4

Number of vessels completed	23
Total dead-weight tonnage	121,275 tons

SUMMARY NO. 5

Number of vessels turned over to Canadian Government National Railways and in commission	19
Total dead-weight tonnage	99,885 tons

The minister of marine has intimated that, the mercantile marine would eventually control 70 vessels, so the program may not stop at the sixty which are now (or soon will be) authorized. About 59 million dollars have already been spent, out of seventy-five millions authorized. The Canadian National Railway is beginning to realize that it may be absolutely necessary for it to have its own passenger as well as freight steamers on both oceans; although the present idea is to make an arrangement with the Cunard line, and the government seems to favor this idea at the present time.

LOAN COMPANY PROFITS SLIGHTLY LOWER

While the earnings of the Landed Banking and Loan Co., Hamilton, for the year ended December 31st, 1919, show a small decrease, other items in the company's statement reflect growth in business. Interest earned, etc., during the year totalled $238,368, compared with $240,171 for 1918. Dividends at 8 per cent. were again paid and $45,000 added to reserve, compared with $50,000 the previous year. Interest on deposits and debentures totalled $72,257, a small decrease, while taxes and expenses of management were slightly higher. The balance carried forward in profit and loss is $2,330 in place of $6,732 brought forward from 1918.

The balance sheet shows total assets of $3,650,662, an increase of about $125,000. Mortgage holdings are lower by almost $100,000, while holdings of government and municipal bonds and of cash increased substantially, as did also loans on stocks and bonds. Deposits, and both currency and sterling debentures outstanding, increased during the year, which is a good showing in view of the keen demand for funds which prevailed.

MONEY MARKETS

Messrs. Glazebrook and Cronyn, exchange and bond brokers, Toronto, report the following exchange rates to *The Monetary Times*:—

	Buyers.	Sellers.	Counter.
N.Y. funds	9 11-32 pm	9 13-32 pm	....

Growth and Possibilities of Rural Credit Societies[*]

Progress Since Act Was Passed in 1917 Has Been Rapid—Societies Also Being Organized in Alberta—Saskatchewan and Ontario Considering Similar Legislation—Relations with the Banks — Will Not Compete for Deposits at Present

By GEO. W. PROUT, M.L.A.

SURROUNDING the city of Winnipeg and in a radius of slightly over fifty miles there are 22 municipalities. I have looked over the statistics covering these local governments and find there are over 3,200,000 acres in these municipalities. Using the latest information provided on the subject I find that 750,000 acres of land are under cultivation showing, if these figures are accurate, and they are approximately so, just two and a half million acres of land within two hours of this city; land which is known to be excellent, never yet been touched so far as cultivation goes by the human hand. If you will look at a railroad map you will notice that the district is excellently served by the railroads. I think it is safe to say that railroad construction in so far as this area is concerned is completed unless there is development in traction lines. The natural advantages of this area are many and not the least among these advantages is the great metropolitan city of Winnipeg, a capital with its every inducement to those who till the soil. It is the great manufacturing and business centre of western Canada. It is a great banking centre and yet right under our noses there is a kingdom never yet touched by man. This fertile territory is not unorganized territory. It has its roads, its school boards, its local councils, but is undeveloped and has been since Mantioba became a province 50 years ago.

To me these figures are eloquent testimony and proof convincing of the need of some new system or new idea to assist us to reduce this area to terms of production of the necessaries of life.

Population Should be Greater

Why if we would only draw on our imagination and reduce it to actual possibilities we would settle on this very land over 10,000 farmers, who, in terms of wheat could produce in any one year over fifty million bushels. Just what that would mean to Manitoba generally, to the farmers themselves, and to the business men, they would have to imagine.

Now there is a reason why these lands adjoining the city of Winnipeg are undeveloped. The reason in my humble opinion is due to the fact that we have neglected to mobilize in the service of the people, and of increased production, the genius, ability, local pride, local knowledge and common sense of the people of the districts affected in the working out and the solving of the problems incidental to their own areas.

What farmer with any sense wishes a neighbor five miles away when he could have one a half a mile away? Is there a farmer who wants a school closer to his farm? Does he need a telephone? Does he need a community hall? Then he needs neighbors to share the expense, to bear part of the overload.

Up to Farmers to Act

In the working out of each one of these community problems I wish to show that the key which unlocks the door to development must be operated by the man on the spot. This is the great underlying reason why the Winnipeg district is undeveloped. Some say it is the speculators. Others say it is the bankers. I say that the development of the Winnipeg area and the Manitoba field is not retarded altogether either by the speculators or the banks. It has been retarded because the residents of municipalities have not appreciated the great truth "that action takes place only when individuals unite for common purposes, put their heads and their knowledge together, and work out their own problems for themselves."

True the business man, the banker, the clergyman, can assist, but action must come from the people themselves, and when that united action comes there is no force or want of force which can impede progress along safe and sane lines.

You have noticed that I have not used all the uncultivated area in Manitoba as my illustration. Figures shown in that connection would be enormous. I am using the front, back and side doors of Winnipeg. As a people we trifle with huge figures. We speak of our marvellous area possibilities and potentialities. Then we go home and carry on in the same old way. If we set our minds on the development of the Winnipeg district only it would just mean an addition to our annual wealth of one hundred million dollars. Multiply these figures by the other undeveloped portions of Manitoba and realize the huge and constructive work ahead of us all to-day.

Work of the Rural Credit Boards

In the upbuilding of this virgin territory and of the other parts of Manitoba, there is a real constructive agency at work. It is the boards of directors of Manitoba rural credit societies. To them is entrusted by the rural credits legislation the right and direction of these societies and of the granting of credit, and the intensive development of their individual districts.

Now just what has the Manitoba Rural Credits Act accomplished? Has its only business been that of lending farmers credit and collecting it? Just what is the average society doing? Is its influence in any way of value to the community? Let us see, and let us deal with facts only. By way of illustration I will take as samples two societies in this province. I wish to go to Freedale in the rural municipality of Lawrence. You will observe that you need to drive for forty miles in a sleigh to get there. I wish to observe in justice to a banker that he could not possibly handle this business except at a great risk and at great cost. This means that prior to the advent of the rural credit society no one in the district received banking accommodation. This past season this society had 79 borrowers who were granted credits of $22,360. You will note that these loans averaged about $289, of these loans 25 per cent. was for new breaking, over 25 per cent. for livestock. Why these loans just enabled these families to stay on the land and improve it faster than they ever did before. It prevented several heads of families from resorting to the practice of working out in the winter in order to get cash to carry on the next summer. This society cannot take care of all the business so another society has been chartered.

Take the case of another society, the Teulon rural credit society which started business in the spring of 1919. It granted credits of $73,200 of which $36,800 was used for new breaking, and $8,500 for livestock purchases. The Teulon district is close to the city of Winnipeg. It is wonderful land. With the credits used there this year by actual count there were 4,000 acres of land broken up with the society's credit. Figure that out in terms of increased wealth for the district and there must be at least 75,000 bushels of wheat grown off these new acres next crop season. I could give you any number of instances of development which has taken place, but I am not going to take the thunder of the boards of directors who are here and who will themselves tell the story of what rural credits has meant to their community and to some of them individually.

In my earlier talk I pointed to the work of these boards and I now wish to pay some attention to this living part of the Rural Credits Act. I made the statement that if you wish the best from a people you must mobolize them. In the settlement of these problems of credit, great credit must be given to the services rendered by boards of directors.

---

Review of Rural Credits Movement

This Act became operative in 1917, in which year the St. Andrews rural credit society started and granted credits of $17,000. The next year ten societies operated with credits $215,000, and this year 38 societies operated with credits exceeding $1,000,000. Analyzing this latter we find over $240,000 for new breaking, or 30,000 acres new land turned to the sun. Livestock over $170,000; crop loans over $270,000 and so on, and this accomplished with a small percentage of the municipalities under the Act.

We are able to show some remarkable growth in certain sections of the province. Take the municipality of Shell River. There the Roblin society operated in 1918 with credits of $50,000. In 1919 a new society was formed, the Silverwood society, and it and the Roblin society granted credits this year of $125,000. Now there are two more societies adjoining these, the Hillsburg society with credits of $40,000 and the Makaroff society, not yet operating, so from one society in 1919 with credits of $50,000 there has grown three new societies with credits this year totalling $165,000. Why the development in the municipalities of Shell River and Hillsburg is just amazing. It is an object lesson of the driving force of the people themselves.

Makes Banker's Work Easier

Now just what assistance are these societies to the banks Take the societies in the Roblin area as illustrations. There is the active and successful reeve, the president of the Roblin society, and seven of the keenest, livest and most successful farmers in the community. Doing what? Granting credits; handing out advice, and laying down the rural credits law to delinquents. Why out of $75,000 credits there is not an overdue note. Why? Because it is a disgrace to be hauled over the coals by your own neighbors. Bill Jones doesn't know enough to meet his note when due. He is ignorant. I could go on and tell you of the personal strength of these boards, but that would be repeating. It is sufficient, however, for me to tell you that the driving force for rural credits in Shell River municipality to-day are boards composed of 25 practical farmers, each in personal contact with most of the borrowers in his area. Why the banker out there at Roblin, a good man too, doesn't any longer wear a haunted look. He knows that these directors are watching their risks, and he is able to sit back and think a little of some of his other numerous problems. The rural credits societies—these community organizations—are responsinble institutions. Its the community credit, and the fly-by night borrower has small chance for consideration.

Farmers Know Neighbour's Credit

The rural credits societies have succeeded in arresting a lot of the criticism which had been hurled at the banks—some of it just, and a very large portion unjust. If a farmer wishes a line of credit and is not satisfied with the way the banker is handling him he can go to his rural credit society and ask for a decision from his own peers. And why should this not be so? Are not the moneys used by the chartered banks community moneys? Boards of societies realize the banker's position, and his lack of personal knowledge of some of his borrowers; they supply that missing link and distribute for the purposes of production, and with safety to the banker, a certain portion of his loans.

I have been asked, and am expected to state, what in my opinion is the future of rural credits in Manitoba and Western Canada. To-day we have in Manitoba sixty societies with an authorized capital of $1,200,000. These societies this year will loan for productive purposes a total of $3,000,000.

Alberta and Saskatchewan

In the province of Alberta, which has adopted the Act, seven societies have been chartered and most of then are loaning. I am told that the neighboring province of Saskatchewan will follow suit, when that event takes place you may look for the following development, three hundred societies in Manitoba and an equal number in Saskatchewan and Alberta, and as a direct result of the activities of these community organizations a tremendous increase in the agricultural production of these western provinces.

From correct observations we wish to make the positive statement that without the increase of one single farmer in this province it is possible to very largely increase production, that the hindrance so far has been want of adequate credit and adequate planning in connection therewith.

Attracts Attention from Abroad

Recently I received a letter from the secretary of agriculture for the United States and the minister of agriculture for Ontario, in the former case admitting the need for short term co-operative credit societies when he made the statement "that in the southern part of the United States sixty per cent. of the credit used was advanced credit" a vicious kind of financing, and in the case of the minister of agriculture for Ontario a statement that the old province of Ontario was working on the Rural Credits Act with action in sight. Favorable communications have come to us from Hawaii and the Australian states, and some individual states of the Union south of us. With all their small banks and machinery and with the large aggregate volume of loans they are all admitting that they need co-operative action in order that all their producers might be working at reasonable capacity.

The Rural Credits Act has always seemed to me just plain commonsense. Our governments in order to be effective divide their responsibilities and delegate. Our provincial government charges the municipalities with local government within their boundaries, because that is the commonsense way of governing, and in this Rural Credits we are just following established practice and delegating to those affected the power to improve their position within themselves.

Rural credit boards are advisory to the farmers, and some farmers need advisers. They ought to counsel with the successful leaders in their respective spheres and this is just what the Rural Credits Act provides for.

Six per Cent. Rate Should Remain

There is a difference of opinion between the bankers and societies as to the interest rate. The bankers are inviting a round table talk with some of your leaders on this matter. I am advised that this is the only cloud on the horizon so far as they are concerned. I feel strongly that the interest rate should be rigidly fixed. Have not deposit rates been rigidly fixed for years, and rightly so. I know that you will approach these matters in the attitude of statesmen, not in a personal way, but in a broad and liberal manner. I think it is well for me to acknowledge the service the bankers have rendered in connection with this development, and I wish to state publicly that we have no intention now of competing for deposits. We wish to continue to provide the best security on earth for our chartered banks and invite their full co-operation. Nay. we invite even more than that. We wish for the day when we will not hear that a local banker is knocking a society, but that in place of that the best friends and boosters for these co-operative organizations will be the local country banker.

Directors and officers, I thank you for your attendance and your great disinterested service in this cause. You, all of you, have the personal satisfaction of knowing that you are giving real public service and lending a helping hand now and then to a brother too weak to stand alone.

At the annual meeting of the Toronto Bank Clearing House on January 15th, Mr. G. G. Adams, of the Bank of Montreal, was elected chairman, and Mr. Herbert D. Burns, Bank of Nova Scotia, was elected vice-chairman.

Negotiations are under way for a settlement of the Ross Rifle Co.'s claim against the Dominion government for expropirating the Quebec factory. Sir Charles Ross demanded eighteen million dollars in settlement of his claim. This was refused, but permission was granted for an application to the Exchequer Court to determine the damages, which were not to exceed three million dollars.

Within Seven Years

the business of this Corporation has doubled in volume. Our constant aim is to furnish a trust company service second to none. Estates which come into our care are managed by officers of wide experience in every department of estate management.

Beneficiaries who have dealings with us are assured of courteous treatment and prompt dispatch of their business.

FINANCIAL CENTRES OF THE WORLD

Next to United States, Canada Has Received Most British Capital—Financial Leadership Follows Industrial Growth

"AMERICA'S apportunity in Foreign Investments" is the title of a booklet just issued by the Guaranty Trust Co., describing how New York has become a world financial centre, like some of the cities of Europe. This is the outcome of rapid industrial growth. "As we are entering this period of development," says the article, "it is well to consider what other countries have done, what methods they have used to obtain outlets for their surplus of capital. As their wealth increased and they were able to lend large amounts, Amsterdam, London, Paris, Brussels, and Berlin became in their turn financial centres, to which all countries, but especially those seeking to develop new sources of wealth, looked for assistance through credit extensions. When the fleets of the Netherlands dominated the seas and the possession of the rich islands in the far east gave them predominance in world trade, Amsterdam was the financial centre of the world. It lost its predominance to London after the Napoleonic wars. Later, the industrial development on the continent of Europe led to the development of important financial centres at Paris, Brussels, and Berlin.

Importance of Foreign Investment

"We must not rest with a passive recognition of the opportunities of America in foreign trade and in the foreign investment field. We individually must do out utmost to induce the public and our financial leaders to play the great part which has been made possible. It takes vision and courage to venture out into new activities which will lead to an expansion of world trade. The American public should understand the necessity of investing in foreign securities and the relation that it bears to our own industrial and economic life.

"For a long time before the war the pre-eminence of London as a financial centre was everywhere recognized. The great trading routes went through English ports. In all the principal markets of the world payments for goods were made by means of drafts on London drawn in pounds sterling and traders considered them as good as gold because of the existence in London of a wide market where they could be disposed of for cash. Through world-wide trade connections the English financiers had developed an international point of view, so that men from every country going to London to seek capital for new enterprises felt sure that their plans would get a sympathetic hearing and that in all probability the money or credit required would be forthcoming.

Security Market International

"This position in finance and trade to which London attained is indicated by the variety of the securities which are listed on the London Stock Exchange. The character and number of foreign and colonial securities listed is as follows—

Colonial and provincial government securities	185
Indian and colonial city securities	176
Foreign cities	76
Foreign government securities	210
Railways in British colonial possessions	110
Indian railways	68
American railroad securities	56
Foreign railways	276
Total	1,157

"The total number of domestic securities of the United Kingdom in these same classes is as follows:—

British funds	72
City and county	176
Public bonds	34
Railway shares, stocks and debentures	361
Total	643

"In addition to these there are many commercial and industrial securities which cannot be readily classified,it being uncertain to what extent they are domestic and to what extent they are foreign, because of the overlapping of the interests which they represent. But the number of foreign and colonial securities is certainly greater than the number of domestic securities.

Began in Sixteenth Century

"Investment in foreign enterprises had begun in a small way in the sixteenth and seventeenth centuries. The industrial revolution in the middle of the eighteenth century created a great demand for capital with which to obtain machinery, to build new factories, and to develop coal mines. The prolonged wars of this period forced the government to borrow heavily from the English people and also from other countries. Money rates were high and Dutch capitalists took advantage of the situation to invest very large amounts in the bonds and notes issued by the British government, in stock of the Bank of England, and in commercial or industrial enterprises. Amsterdan at that time was the chief financial centre of the world. At the end of the century Great Britain was still a borrowing nation.

"During the Napoleonic wars little progress was made by Englishmen in extending their foreign enterprises. All the capital and credit available were needed at home to finance the war, to provide subsidies amounting to $219,859,000 for the country's allies, and to keep up the development of industrial enterprises. This imposed great burdens on the people for a time. Everything in the land was taxed to the limit of endurance, but at the end of the war the industrial capacity of England had been expanded, a sizeable merchant marine had been built, and the people had learned how to save money. There began immediately a rapid development of British foreign investment. Carried forward by the same spirit which had enabled them to overcome Napoleon, the people of the British Isles took the utmost advantage of their expanded productive capacity and of their experience in saving and investing. Important loans were made to the continental countries which had suffered the most from the long years of war and foreign holdings of British bonds and stocks were bought back from the Dutch and others.

"With this effort to get out of debt and to buy into foreign enterprises there went an increase in trading with foreign countries everywhere. This expansion of world trade, which became pronounced about 1820, led to important investments in South American mines, and loans to the South American governments. American canal and railway bonds, as well as bonds issued by various State governments, were readily taken by English investors. French and Belgian railroad securities also found a market in London. The disturbances in Europe and the growth of France and other continental countries led British investors in the latter part of the first half of the century to seek more profitable openings in America. After our civil war, investors turned their attention to the British colonies, to South America, South Africa, and the far east.

Distribution of British Investments

"The foreign investments of Great Britain, as estimated by Sir George Paish in 1913, were mainly in railways and government securities, as indicated by the following table, in which the value of the pound sterling is taken as $4.8665.

Railways	$ 7,402,014,631
Government securities	4,669,518,679
Mines	1,327,527,668
Finance land and investment	1,188,336,035
Municipal	718,037,475
Commerce and industrial	707,258,178
Tramways	378,565,035
Banks	354,811,648

"While there was a wide distribution of British investments throughout the world, the largest amounts were in-

Miscellaneous foreign	339,180,450
Total foreign	$ 9,413,095,756
Grand total	$18,075,441,423

"This total does not include a large amount of capital privately invested abroad and, were this added, the total British investments in the colonies and in foreign countries would amount, as estimated, to $19,466,000,000.

Bases for Wide Distribution

"The wide distribution of securities on the London Stock Exchange has been an outgrowth of Great Britain's extensive trade relations, of British colonial expansion, of the settlement of English-speaking people in many countries, and of the establishment there of institutions similar to those of England. Through the participation of the British mercantile marine in trade with all countries, England became the clearing house and trans-shipping centre for world trade. Out of this trade the imposing structure of British overseas investments developed. Wherever ships went, capital followed, and was invested freely in the enterprises of every nation, thus insuring the continuance of trade and its increase as these enterprises enlarged their activities.

"British investors, compared with investors in other countries, have generally acted as pioneers in discovering and opening up new areas for development. After the enterprise became stabilized it was possible to transfer a part of the capital to other countries, and thus British capital advanced continually into the more distant and less developed parts of the world. These new countries produced raw materials which industrial England needed. Like all new countries, they paid high rates of return on capital invested in their enterprises. They offered opportunities gradually to increase England's control of their trade and industry.

"The investment of capital in other countries, the extensive trade relations of Great Britain with other countries, the reliance upon other markets for the growing output of British industry, and the dependence upon many countries for sources of raw materials, have been bound up very closely with British economic life. The influence of British institutions in civilized countries and the wide-spread settlement of English-speaking people have been in part the outgrowth of Great Britain's policy of economic expansion. It is impossible to picture the conditions of living, the economic life of the British Isles, if business had only been national in scope and there had been no effort to expand their interests beyond their own boundaries."

MIDLAND LOAN AND SAVINGS COMPANY

Earnings of the Midland Loan and Savings Co., of Port Hope, Ont., for the year ended December 31st, 1919, totalled $96,072, to which was added $23,749, brought forward from the year 1918. Interest on deposits and debentures required $38,074. Other items were: Expense account, $8,833; commisison on loans, $1,068; government and municipal taxes, $4,489. Dividends at 8 per cent. required $28,800, $10,000 was transferred to reserve, and a balance of $28,556 was carried forward to the credit of profit and loss.

The balance sheet shows assets totalling $1,582,088; mortgage investments total $900,272; government and municipal bonds, $578,142, and cash on hand and in the bank, $84,781. Deposits outstanding totalled $319,856, and debentures, $574,160. The capital stock paid up is $360,000, and the reserve fund, $285,000.

STERLING EXCHANGE ON CANADA

Explaining how Canadian exporters are affected by the present exchange situation, a circular issued by the Canadian Manufacturers' Association, under date of January 14th. says:—

"On many sides the reduced exchange value of the Canadian dollar, as compared with that of other countries, particularly the United States, is being deplored. The bright side of the question is that it offers distinct advantages in export trading, provided Canadian manufacturers stipulate that their quotations to all customers are made in terms of Canadian dollar values and insist on payment in Canadian funds.

"At the time of writing the Toronto quotation on New York funds is 8½ per cent. premium; demand sterling in Toronto, $4.11; sterling in New York, $3.79. The difference in sterling as between New York and Canada is 32 cents, or 8½ per cent. advance on $3.79. That is to say, sterling is worth more in Canada than in the United States or in any other country whose currency is at or above mint par.. Therefore, your customers in Great Britain do not need to use as much sterling to settle for Canadian commodities if payment is made direct from Great Britain to Canada on the basis of Canadian exchange. For instance, if you sell a bill of goods for which you are satisfied to take one thousand dollars in Canadian currency, on the basis of the above quotations your British customer would require to pay into a bank in Great Britain approximately £244 and 14 shillings, plus bank charges. If your quotation is made on the basis of New York funds, it would cost him approximately £265 and 9 shillings, plus bank charges.

"Similar calculations apply in dealing with many other countries, Great Britain simply being used as an example.

"Ample facilities for the sale of foreign drafts to Canadian bankers and for the purchase of Canadian funds have been arranged for in practically all countries; thus Canadian manufacturers have all necessary facilities for securing a real preference, both in the British Empire and in other continental markets. It is not only to the advantage of Canadian manufacturers themselves to quote in Canadian currency; it is sound national business to do this at the present time. No Canadian manufacturers under present conditions is justified in making his quotations abroad in New York funds."

Subscription Lists will close on or before January 31st, 1920

NEW ISSUE

MONTREAL, January 23rd, 1920

$3,000,000

Canadian-Connecticut Cotton Mills, Limited

8% Cumulative Participating Preferred Shares

Dividends payable quarterly on January 1st, April 1st, July 1st and October 1st

In addition to 8% dividends cumulative from January 1st, 1920, the Preferred Shares are entitled to special dividends to the extent of 10% of the amount of any cash dividends paid on the Common Shares; but such special dividends shall not exceed in any calendar year 2% of the largest amount, par value, of Preferred Shares ever issued, whether or not outstanding. Redeemable as a whole or in part at $101 per share and accrued dividends in 1920, the redemption price increasing $1 per share per annum up to, but not exceeding, $105 per share and accrued dividends. Montreal Trust Company, Trustee. National Trust Company, Registrar.

CAPITALIZATION

	Authorized	Outstanding
Preferred Shares ($100 par value)	$5,000,000	$3,000,000
Common Shares (Class A, $10 par value, Voting)	1,000,000	1,000,000
Common Shares (Class B, $10 par value, Non-Voting)	500,000	500,000

The Company will have no Bonded Debt.

Application will be made in due course to list these Preferred Shares on the Montreal Stock Exchange.

SINKING FUND

Commencing on or before January 1st, 1922, an annual Sinking Fund of not less than $250,000 will buy or call Preferred Shares at not exceeding the redemption price. All shares so acquired will be cancelled.

Complete prospectus (copies will be mailed on request) contains a letter from Mr. Tracy S. Lewis, Treasurer of the Company, from which we summarize as follows:—

1. **Canadian-Connecticut Cotton Mills, Limited,** has operated successfully for the past six years at Sherbrooke, P.Q., a large up-to-date mill for the manufacture of square and cord fabric for automobile tires. The Company is the largest manufacturer of these goods in Canada. At no time since its inception has the Company been able to supply the demand for its products.

A large portion of the proceeds of this issue will be applied toward the construction during 1920 of an additional mill of 30,000 spindles, **practically doubling the Company's output.**

2. **Company's Mill and Properties** are admirably situated with regard to labour and low-cost power supply. Buildings are of brick and wood slow-burning mill construction, equipped throughout with automatic sprinklers. Mill machinery is modern and electrically driven throughout; present installation consists of **31,000 spindles** with complementary equipment. Company's land holdings are sufficient to permit of addition of mill units more than four times the size of the present plant.

3. **Present Annual Capacity—5,000,000** pounds of finished product.

4. **Net Sales** four years ended September 10th, 1919:

1916	1917	1918	1919
$774,657	$1,088,862	$2,535,220	$3,764,881

5. **Total Net Assets** (Total Assets less Current Liabilities) at September 10th, 1919, including the proceeds of this issue, **$5,439,024.58 —or over $181 for each Preferred Share outstanding.**

6. **Net Liquid Assets,** after deducting all Current Liabilities, at September 10th, 1919, (including the proceeds of this issue) **$2,771,145.88—or over $92 for each Preferred Share outstanding.**

7. **Average Annual Net Earnings,** after depreciation and interest, but before taxes, for the years 1917-19 inclusive were **$488,628.41—over double Annual Preferred Dividend requirements.**

Net Earnings for the year ended September 10th, 1919, after depreciation and interest, but before taxes, were **$802,458.60—over three times Annual Preferred Dividend Requirements.**

8. **Estimated Earnings for year ending September 10th, 1920,** after providing for depreciation and interest, but before taxes—**$1,250,000, more than five times total Preferred Dividends.**

This estimate of Earnings takes no account of increased earnings from doubling of plant capacity to be provided from the proceeds of this financing.

The larger portion of this issue has been sold in Canada and the United States. We offer the unsold balance at a price of—

100 and accrued dividends, yielding 8%

Payable as follows: 25% of the par value on application. 25% of the par value on February 16th, 1920.
25% of the par value on March 1st, 1920. 25% of the par value on April 1st, 1920.

The right is reserved to allot none, or a portion only of, the amount applied for. If only a portion of the amount applied for be allotted, the balance of the deposit will be applied towards payment of subsequent instalments. Payments may be anticipated in whole or in part at any time. Interest will be allowed on payments at the rate of 8% per annum. Interest will be adjusted upon final payment.

Application may be made on the accompanying form.

Boards Of Trade Review Year's Business

Efforts of 1919 Have Been Rewarded, but Campaigns of 1920 Will be More Aggressive —Reports of Meetings in Representative Cities of the Dominion — Increased Interest in Organized Efforts of this Kind—Importance of Crops and Transportation.

THIS is the season for board of trade annual meetings and reports indicate the satisfaction felt regarding what was done in 1919 and the confidence with which the present year is looked forward to. Boards of trade in the west look first of all to the crops, for upon them depends principally the volume of business in the cities and towns. Manufacturing possibilities are being appreciated, however, and local fuel supplies, together with the increased cost of hauling freight through northern Ontairo to the distributing centres of the west, have induced some concerns to locate branches there. The western boards are alive to this tendency, and many of them have taken vigorous steps to bring local advantages to the attention of prospective industries.

Reports from the manufacturing centres of Ontario and Quebec are distinctly satisfactory. High prices and a surplus of orders have maintained capacity production. Labor troubles and difficulties of fuel and transportation have been numerous, but in this respect Canada has fared well in comparison with other countries. The number of branches of United States and British manufacturing plants located in cities in these provinces has been unprecedented, and investments of this kind during the year probably totalled not less than $50,000,000.

In the maritime provinces good crops and high prices for fish and lumber brought continued prosperity. Industries which prospered directly from the war have, of course, suffered in some degree; a lessening in the demand for iron and steel and for minerals has caused production to slacken in some mining and manufacturing centres throughout the Dominion.

Several boards of trade have been reorganized, and by membership campaigns have increased their funds for aggressive work. Although business prospects for the current year are very uncertain, most of the boards of trade and chambers of commerce may be relied upon to do their utmost.

Reports are given below of some meetings already held.

MONTREAL BOARD OF TRADE

Officers for 1920 for the Montreal Board of Trade were elected at a meeting held on January 16th as follows: President, George Sumner; vice-president, Sen. Lorne C. Webster; second vice-president, W. M. Birks; treasurer, Arthur Lyman. Council—Graham Drinkwater, Alphonse Racine, Geo. W. Grier, W. S. Leslie, John W. Ross, Walter B. Ramsay, R. E. Calder, Clement H. McFarlane, E. H. Hodgson, H. B. Henwood, A. M. Irvine, H. D. Dwyer, James Carruthers, C. B. Esdaile, J. R. Binning, Arthur J. Hodgson, H. B. Walker, Geo. F. Benson, Robt. W. Reford, Jas. Cleghorn, W. A. Black, Zeph. Hebert, John Baillie, W. A. Coates.

CHARLOTTETOWN HAD PROSPEROUS TIME

In his annual address before the annual meeting of the Charlottetown Board of Trade last week the retiring president mentioned that the district and the province as a whole had closed a most prosperous year. "The harvest has been a bountiful one," he stated, "in almost every respect, was saved in good condition, and has commanded good prices and a ready market. Being an agricultural community, we must, to my mind, give first consideration to the products of the farm and the proper handling and marketing of the same."

In speaking of the subject of industrial promotion, he said:—

"This province or city, because of the geographical position and the absence of many kinds of raw material and labor, is not likely to ever become a large manufacturing centre, and efforts toward this end are likely to result in disappointment. No doubt a number of small manufacturing plants can be operated here to advantage, but they must of necessity be of a more or less local character, but we have one great industry, the most important of all, and that is agriculture.

The election of officers resulted as follows: President, Isaac Carter; vice-president, A. A. Pomeroy; secretary-treasurer, W. L. Higgins; council, R. H. Jenkins, H. V. Buntain, R. E. Mutch, G. D. De Blois, J. O. Hyndman, E. H. Beers, J. J. Hughes, J. A. Messervey, W. H. Aitken, James Paton, N. Rattenbury, H. Haszard, E. T. Higgs, W. F. Tidmarsh.

SOUTHERN ALBERTA HAD TRYING YEAR

At the annual meeting of the Lethbridge, Alta., Board of Trade, held on January 16, the president, G. R. Marnoch, said:—

"Looking backward over the past ten years, Lethbridge and the great districts surrounding the city have passed through all the phases 'from grave to gay, from lively to severe.' The conditions during 1919 have certainly leaned to the severe side in all that concerned dry farming operations. On the other hand, our daily increasing numbers of farmers on irrigated lands have had a very successful season, and their splendid crops have benefited not only themselves, but have helped many of their neighbors over the stile. Our other great industry, coal mining, with the exception of an unfortunate spell of idleness during the summer months, has been very fully employed. The year's production of the excellent domestic coal from the mines close to and surrounding Lethbridge will be between eight and nine hundred thousand tons; while the neighboring mining centres up the Crows Nest Pass in Alberta, with which our merchants and mining supply houses, iron works and machine shops do a daily business will have turned the scales at considerably over a million tons of steaming and cooking coal.

"We started the year's dry farming operations with maybe as short a supply of reserve moisture in the soil as we had ever had; it will be remembered that the ground froze up in November, 1918, with little fall rain stored up; that the snows were late in coming, and did not do much good when they melted. Later on, in the Spring, however, there were enough light rains to give the crops a good start, and to keep them going in promising shape till June; but after that the showers were very few and far between; so that in the end the crop was very light, many farmers getting but little more that their seed back. Conditions were made still further trying by the shortage of pasture, alhough this was relieved a little by the fall rains. Our farmers had been almost unconsciously building up their herds of cattle during the years from 1914 onwards, when they first started in this profitable business; and as the previous year's supply of straw stacks had all been eaten up, there has been considerable difficulty in getting feed in from other quarters for the cattle. Practically the same conditions have prevailed in Alberta north of the city of Calgary to Didsbury and eastwards in a line from there, only one or two small spots having been favored with light rains during the growing season; and the same conditions again were featured in the whole of southern Saskatchewan.

"The Lethbridge district, however, had made a most marked advance in stability after the phenomenal crop that was reaped in 1915, and it is only the number of farmers who had not much acreage in in that year, and the intervening years of good crops, who are now in difficulty and in need of assistance to set them on their feet by the provision of seed grain for 1920. This matter, it is understood, is well in

Ford - Ontario

hand, and will be settled in detail at the sessions of the Alberta legislature in February. Working arrangements for getting supplies of hay in were made by the agricultural department of the Alberta government, assisted by the Canadian Pacific and other railroads, and these are now beginning to work smoothly, although they were at first considerably hampered by the exceptional and very severe winter conditions that came on in October. The spell of mild and spring-like weather that we have had during the last half of December has eased this situation very much.

"The year's business among the wholesale and retail houses in Lethbridge has been brisk, as is clearly indicated by the bank clearings which will total but little short of forty million dollars, against about forty-two millions in 1918. Contributory to this total were the excellent returns from the heavy shipments of wool from the district, which amounted to over a million and a quarter pounds. There have also been some very considerable shipments of cattle and sheep to the livestock markets."

Mr. Marnoch was re-elected president, and the other officers for 1920 are: Vice-president, C. F. Jamieson; secretary-treasurer, J. S. Rose. Chairmen were also elected for the various committees of the board.

WOODSTOCK BOARD OF TRADE

Unanimous appreciation of what had been accomplished in 1919 by E. A. Rea, president of the Woodstock, Ont., Board of Trade, was expressed at the annual meeting of that body on January 9. Mr. Rea was re-elected president, and the other officers for 1920 will be as follows:—

Vice-President, W. A. Smith; secretary-treasurer, H. Sykes; council, F. W. Bean, W. S. West, E. W. Nesbitt, A. W. Muir, Ed. Holden, R. V. Sawtell, A. W. Moore, Mayor Gahagan, J. A. Bain, E. J. Coles, Col. Sutherland, H. M. McIntosh, E. B. Terryberry, A. T. McNeil, H. A. little, E. Likens, C. Lanaway, W. J. Taylor.

In his address the president referred to a number of new industries which had been secured during the year. He said:—

"The Woodstock Paper Box Co. have located in the Stone property on Dundas Street, and are now employing a good number of hands. We expect to see this number largely increased during the present year. The operation of this plant has proved a decided advantage to local manufacturers using their products. The Orange Products Co. have taken over the Tobin Arms Factory, and are now making marmalades. They are employing a good number of hands, and expect to increase this number. The Woodstock Worsted Spinning Co. started operation during the year, and are now employing many hands. The DeLong Hook and Eye Co. have located a branch in the city on the property of Mr. A. Thompson on Finkle Street, and are now employing 15 to 20 hands. If the labor is available they may add considerably to this plant, and decide to locate their Canadian headquarters in Woodstock. Bean and Westlake Ltd., have built an addition to their already splendidly equipped plant. Hosiers Ltd. have built an addition to their factory, and will shortly be employing many more hands. The Harvey Knitting Co. are adding an addition to their already large plant. Hay and Co. have added an addition to their plant, and have. now a larger payroll than ever before in the history of the company. The Linderman Plant, which was closed for some time, is again in operation, and we expect to see this factory employ a large force of highly skilled, well-paid mechanics.

"On the recommendation of the board of trade the city council submitted two industrial by-laws to the ratepayers which were carried by overwhelming majorities, and with the result that we expect to see the Warren and Son Organ Co., Ltd., occupy the Woodstock Lumber Co. building, after making alterations to the factory which will make it thoroughly modern in every respect. They will employ many high paid mechanics. The Brunswick Canadian Products Co., Ltd., will start their large factory just as soon as weather conditions will permit. This will be one of the largest industries in the city, and will employ 200 or more men.

"The electors will be called upon in a few days to vote on a by-law to assist the Karn Piano Co., Ltd. I have every confidence in the men behind this proposition, and hope to see this by-law get as large a vote as was accorded the other two in December last. I am sure it will be a great satisfaction to the citizens to see the Karn-Morris plant again humming with industry, and employing more men than ever before."

OWEN SOUND BOARD OF TRADE

The second annual meeting of the Owen Sound Board of Trade was held last week. President E. W. McQuay was chairman. Several interesting addresses were given including one by Mr. J. S. McLean, manager of the Harris Abattoir, Toronto, on the "Packing House Industry."

GANANOQUE BOARD OF TRADE

The annual meeting of the Gananoque Board of Trade was held last week. The following officers were elected for the ensuing year: President, Clifford Sine; 1st vice-president, W. J. Gibson; 2nd vice-president, Dr. J. P. Sinclair; secretary-treasurer, James Sampson; auditors, L. P. Shortall and W. Balfour Mudie.

FREDERICTON BOARD OF TRADE

Officers for the year 1920 have been elected by the Fredericton, N.B., Board of Trade as follows: President, John A. Reid; vice-president, H. A. Smith; treasurer, J. H. Brooks; secretary, R. H. Simonds; executive, John D. Palmer, Mayor Hanson, H. S. Campbell, John T. Jennings, James S. Neill, Fred B. Edgecombe, C. Fred Chestnut, W. G. Clarke, G. W. Hodge, James M. Lemont, John Neill, C. K. Palmer, Dr. C. C. Jones, R. FitzRandolph, J. J. McCaffrey, A. R. Slipp, R. B. VanDine, John J. Weddall, W. R. Belyea and W. D. Gunter.

In his address at the annual meeting held on January 14, the retiring president, H. S. Campbell, said:—

"During the year that has elapsed since our last annual meeting, the world has been endeavoring to adjust itself to the changed conditions following the great war. Industrial, and political unrest have been evident in every country which took part in the struggle, and while Canada has suffered in this regard less than other nations, she has not been immune from strikes and labor troubles. Fortunately, our city has not been affected to any large degree, and although prices of foodstuffs and other necessities have greatly advanced, the purchasing power of the public has not been lessened, as has been shown by the volume of business during the past year, and especially at the Christmas season, also by the wonderful success of the 1919 Victory Loan.

"The most important event for the city during the year was the completion of the St. John and Quebec Railway, from Centreville to Westfield, and the establishing of through traffic from St. John to Quebec, via Fredericton and McGivney. This was especially gratifying to us, as it was mainly through the efforts of this board that the Valley Railway project came into being. While the service over this road at present is not all that our board desires, it is the beginning of a service which must mean a wonderful development for this city in the near future. Our board has constantly and consistently pressed the claims of Fredericton upon the Canadian National Railway Board, and we may confidently look forward to an era of progress during the next few years. Already plans are about completed for great improvement on the Canada Eastern branch, between this city and McGivney Junction, as well as the construction of a new railway bridge capable of handling heavy traffic. This board will continue to press for the early completion of these and other features until the railway program mapped out by us has been fully carried out."

AUDITORS' CERTIFICATE

We beg to report to the Shareholders of the Banque d'Hochelaga that in accordance with Section "56" of the Bank Act, we have checked the cash and verified the securities of the Bank at the Chief Office as at November 29th, 1919, as well as at another time during the year, and found they agreed with the entries in the books in regard thereto.

We have also examined the accounts and verified the cash and securities at some of the principal branches during the year.

We have examined the books and accounts at the Head Office and have compared the above Balance Sheet with these books and with the certified returns from the branches. In our opinion, the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs according to the best of our information and the explanations given us, and as shown by the books of the Bank.

We have obtained all the information and explanations required by us, and, in our opinion, the transactions of the Bank, which have come under our notice, have been within the powers of the Bank.

S. ROGER MITCHELL, C.A.,
of Marwick, Mitchell, Peat & Company.
GEO. GONTHIER, L.I.A.,
of Gonthier, Midgley,
} Auditors.

Montreal, 16th December, 1919.

FIFTEENTH ANNUAL REPORT
BY THE DIRECTORS OF

THE IMPERIAL GUARANTEE AND ACCIDENT INSURANCE COMPANY OF CANADA

FOR THE TWELVE MONTHS ENDING THIRTY-FIRST DECEMBER, NINETEEN HUNDRED AND NINETEEN.

The Directors have much pleasure in submitting to the Shareholders their Fifteenth Annual Report for the twelve months ending 31st December, 1919.

BUSINESS: The Company issued 21,686 Policies for insurance of $42,091,819.00. The premiums on new and renewed business amounted to $450,570.69, with paid-for premiums of $426,597.63. The increase in premiums on business written was $87,785.04, and on paid-for premiums $71,260.85. The interest earnings amounted to $20,005.07, being in excess of the amount required to pay the regular Dividend.

The Influenza epidemic at the beginning of the year had the effect of abnormally increasing the loss ratio. It is satisfactory to report, however, that the number of sickness claims during the latter part of the year is back to normal.

ASSETS: The Assets of the Company now amount to $513,324.75, and the investments are all first-class securities bearing good interest returns.

SECURITY: After providing $196,434.00 for Unearned Premium Reserve and Reserve for Outstanding Claims; and also providing for other liabilities, the surplus to policyholders is $304,582.81, which, together with the uncalled subscribed Capital of $800,000.00, makes the available security for all contracts $1,104,582.81.

The lines of Insurance now written are: Personal Accident Insurance, Sickness Insurance, Elevator Insurance, Fidelity Guarantee, Plate Glass Insurance, and Automobile Insurance (including insurance of Automobiles against Fire). Application is now being made for a license to extend the Company's operations to Burglary Insurance.

The Certificate of the Auditors is appended to the Financial Statement as to the audit of the Company's affairs.

HERBERT C. COX,
President.

Toronto, 15th January, 1920.

Statement for Year Ending December 31st, 1919.

PARRY SOUND BOARD OF TRADE

The annual meeting of the Parry Sound, Ont., Board of Trade was held last week. W. J. Beatty was elected president; vice-president, G. Moore; secretary, F. Tasker; executive committee, E. J. Vincent, John Perks and J. A. Dwyer.

To represent the board at the meeting of the Associated Boards of Trade of Northern Ontario, to be held at North Bay, on January 21st and 22nd, a committee was appointed consisting of the mayor, the president and the vice-president, and the executive committee. Amongst the subjects which the deputation will be expected to bring forward for discussion at North Bay will be the construction of the proposed railway from North Bay to the Georgian Bay at Parry Sound. The necessity of a proper geologic survey and report of Parry Sound district will also be mooted for presentation to the provincial government.

PORT ARTHUR HAD FAVORABLE YEAR

At the annual meeting of the Port Arthur Board of Trade last week, A. W. Robarts, retiring president, spoke of the satisfactory year the city and district had just completed. He dealt with the development of agriculture, shipbuilding, pulp and paper and other trades during the year.

Mr. Frederick Urry, manager of the Ontario Government's Labor Bureau, was elected president of the board. Mr. Stewart Coulter, manager of Coulter-Johnstone, Ltd., is vice-president. The new executive or council is composed of eighteen men: Joseph Redden, Guy F. Clarkson, W. B. Hurrell, William Scott, W. T. Moodie, F. B. Allen, A. G. Pounsford, John H. Smith, Charles Mellor, Arthur B. Conmee, F. S. Wiley, F. J. Dolan, C. D. Howe, J. A. Macarthur, J. E. Ryan, H. S. Rosevear, J. E. Marks, H. E. L. Owen.

Trade of Canada

For Nine Months Total Increased Over $31,000,000 Compared with 1918—All Classes of Imports, with One or Two Exceptions, Showed Substantial Increases—Good Showing of Exports Offset By Large Reduction in Miscellaneous Products

CANADIAN trade at the close of the nine months ending with December, 1919, showed an increase of $31,580,565 over the nine-month period in 1918. The grand total of Canadian trade for the period just closed was $1,707,597,390 as against $1,676,016,825 for 1918. For December the total was $232,234,749 as against $183,979,787 in 1918.

All classes of imports showed substantial increases for the nine months excepting chemicals and chemical products, iron and steel, non-metallic minerals and products, all of which showed declines. A particularly large reduction in the import of miscellaneous products was recorded. On the whole, however, imports showed an increase of over $24,000,000 as compared with 1918.

All classes of exports showed large increases excepting chemicals and chemical products, and ores, metals and metal manufactures, which showed declines. The good showing of the undermentioned classes was offset by a large reduction of $162,995,438 in miscellaneous products, so that the total of exports as compared with the same period of 1918 only increased by the small amount of $7,453,306. The following is a summary of Canadian trade by classes as prepared by the Department of Customs:—

DESIGNATION OF BENEFICIARY IN INSURANCE POLICY

Manitoba Court Rules that Provincial Act Over-ridden by Regulations of Mutual Benefit Society Incorporated by Dominion

In a recent case before the Manitoba Court of Appeal it was decided that a provincial insurance act which purports to enable an insured to revoke the benefit of insurance on his life made in favor of any person whomsoever, and to divert the insurance to new beneficiaries, does not override the special provisions contained in a policy issued by a Dominion company in conformance with its charter and which limits such powers.

The questions arose in an appeal from a stated case (re Richardson Estate) under the Manitoba Trustee Act, to determine who was entitled to certain insurance moneys. The facts of the case are as follows: On April 6, 1895, a policy was issued to Hugh Richardson by the Independent Order of Foresters by which the order agreed to pay to Elizabeth Richardson, his wife, $3,000. Richardson at the time was living in Saskatchewan, but later moved to Manitoba, dying there on February 7, 1916, and leaving a will by which he bequeathed to his executors, all his residuary estate including "life insurance or the proceeds of any policy of insurance"—one-half of such residuary estate to be paid to his housekeeper, Florence Besley. Elizabeth Richardson claims the insurance as the duly designated beneficiary.

Which Law Should Apply?

The order paid the money into Court and the case contained two main questions, namely:—

1. Whether the proceeds of the said endowment certificate or policy, being the moneys now paid into Court, pass and become payable out to the executors under and by virtue of the said will, or are they payable to the said Elizabeth Richardson as beneficiary named therein?

2. Whether the said Florence Campbell, *nee* Besley, is entitled to any interest in the said proceeds of the said endowment certificate or policy, or moneys now in Court; if so, what share?

The case was heard by Macdonald, J., who directed that the proceeds of the endowment certificate should be paid to the executors and form part of the estate of the deceased for the purpose of distribution in accordance with the provisions of the will. From this decision the appeal was brought. The Court of Appeal reversed this decision with Cameron, J. A., dissenting and agreeing with Macdonald, J.

In the judgment the methods of designating beneficiary as required by the order are set out. Section 4, subsection 5, of the Constitution is,

"(5). The insurance or mortuary benefit of a member shall be paid to the member himself, or to the wife or husband of, or to the affianced wife of, or to the affianced husband of, or to the children of, or to the blood relations of, or to persons dependent upon, such member, who may have been designated, as provided in the constitution and laws, by name, as the beneficiary of such member, or, subject to the approval of the Supreme Chief Ranger, to such other beneficiary as may be permitted by the laws of the province, state or country in which the member resides at the time of making the designation of the beneficiary or beneficiaries." And paragraph (a) of subsection 1, of section 150, states the manner in which the beneficiary may be changed, which is,

"By filing with his court his application for change of beneficiary on form No. 14, fully filled in, signed by himself and properly executed, setting forth fully and clearly the changes he desires to make; provided that a designation of a beneficiary not in conformity with section 4, subsection 5 shall be null and void from the beginning."

Judgment of the Court

The pertinent parts of the judgment were delivered in the following words:—

"The main ground upon which it is argued that the Manitoba law applies is that by the Manitoba Insurance Act, R.S.M. 1913, c. 98, s. 47, where a company is licensed under that Act, the moneys payable under a life assurance policy shall be payable in this province; that the insured having become a resident of Manitoba at the time of his death the laws of that province would govern his life insurance. But under s. 3 of c. 98, that Act does not apply to a company licensed by the Dominion of Canada as is the Independent Order of Foresters. In my view it has not been shown that the law of Manitoba applies in this case.

"If the Manitoba statute applies to such insurance and a member of the society is permitted to change the beneficiary as he pleases, and even to divert the insurance to a stranger as it is contended he may do under section 15, then the purposes and objects of the society may be frustrated and a serious change be effected in its constitution and status as a fraternal society.

"To remove the restrictions placed by the constitution and laws upon the change of beneficiaries and the application of the insurance would be a serious interference with the objects of the society as incorporated by the Act of the Parliament of Canada.

"Section 15 of the Life Insurance Act would not only interfere with the contract itself, but it would seriously affect the constitution and status of the order by controlling and abridging its powers.

"The life insurance in the Order of Foresters, and the proceeds of it, belonged to the testator's wife and was not his to dispose of. He did not attempt to revoke the benefit or appropriation in her favor. He may have referred to policies over which he had a disposing power. When giving judgment in re Cochrane [1908] 16. O.L.R., Boyd, C., said: 'Where a trust is clearly and distinctly expressed on the policy itself in favor of one beneficiary, so that it becomes a vested trust for that person, it should not be displaced or altered except by a document of equal evidential force in clearness and distinctness of designation.'

"For the reasons above set out I think the devise in the will in question did not deprive the testator's wife of her right to the insurance money, as beneficiary under the policy.

"I would answer the first question in the stated case as follows: The proceeds of the endowment certificate, being the moneys paid into Court, are payable to Elizabeth Richardson, the beneficiary designated by the deceased. To the second question I would answer: No."

Dissenting Judgment

Cameron, J. A. (dissenting) in his judgment said:—

"By s. 4, sub-s. 5, of the constitution already referred to, the insurance shall be paid to the prescribed persons who are designated as beneficiaries, or with the approval of the Chief Ranger, to beneficiaries as may be permitted by the laws of the province in which the member resides at the time of making such designation. By s. 150, also already quoted, a member may, subject to the constitution, and if not repugnant to the laws of the province where he has a fixed place of abode, change his beneficiary in the manner prescribed."

In each case reference is made to the province in which the member had a fixed place of abode. "In view of the foregoing stipulations of the constitution and laws of the order, made part of the contract of insurance, payment of this certificate and the person to whom it is to be paid are plainly intended to be determined by the laws of the province where the member had his fixed place of abode at the time of his death.

"I agree with the trial judge that the endowment certificate in question is sufficiently identified in the will; that the will is effective as an instrument in writing, and that the insured has thereby exercised his statutory power in accordance with the provisions of our Life Insurance Act."

G. U. Price and Co., Montreal, have been appointed general agents in the province of Quebec for the Vulcan Fire Insurance Co., of Oakland, Cal., of which T. W. Greer, Vancouver, is chief agent for Canada.

MUTUAL LIFE AGENCY STAFF ANNUAL

A meeting of the agency staff of the Mutual Life of Canada Assurance Co. was held in Montreal last week. It was announced by Wm. Thomas Jones, Montreal manager, that the agency staff had formed themselves into a club of "Mutualists" with the objective of removing difficulties encountered by the agents in their work by co-operation and enthusiasm engendered at periodic meetings.

The association was organized as follows: President, W. J. Brown; first vice-president, A. Paquette; second vice-president, W. S. Langley; secretary-treasurer, Ant. Provost; other chartered members being J. R. Rousso, W. C. Breedlove, Chas. de la Casiniere, G. W. O. Mathews, Geo. Burnett, E. J. Simard, L. V. Rinfret, C. Martel and C. B. Stewart.

DOMINION STEEL TO MANUFACTURE BRICK

Will Spend Over $500,000 on New Plant—Brantford Gets Two Large Industries—Sherbrooke Rejects Offer for Pulp Mill Site

THE Dominion Steel Corporation is planning the erection of a brick-making plant at the works at Sydney, N.S., according to information given out by an official of the company. The plant will cost over $500,000. One of the kilns will burn silicate and the other ordinary fire brick. At present the company makes bricks in a small way, but it is proposed to branch out and supply all its own needs. The bulk of the company's requirements of fire brick is obtained from the United States, particularly the silicates, the cost of which is approximately $70 per thousand laid down in Sydney. Bricks of special pattern are already being manufactured at the plant for use in the new plate mill, and will be utilized in the gutters of the plates on which the ingots will be cast.

There are a large number of deposits, both silicate and common clay in Cape Breton, and it is hoped that in the very near future the company will not have to purchase a single fire brick in any outside market.

Brantford Gets Large Industries

Two important industries are to locate at Brantford, Ont., anouncement was made following a special trip made to St. Louis by thirty Brantford capitalists, that a plant would be established in Brantford for the manufacture of Bluebird electrical appliances. Local capital to the extent of $200,000 already has been subscribed, and the new company promises to employ 1,500 hands within two years. J. B. Detweiler, general manager of the branch of the Steel Co. of Canada in Brantford, will be president of the new company, and will sever his connection with the steel company. The directorate of the Brantford Motor Trucks took the initiative in bringing the new industry to Brantford, and the plant built by the United States government for munitions will probably be utilized.

A new foundry building at a cost of $150,000 will be constructed for the Dominion Steel Products Co., which has been converted to the peace-time manufacture of rolling mill machinery.

Other Developments

Mr. P. Gordon, president of the Bridgeburg, Ont., Manufacturers' Association, has announced that two new factories will be located there, one of which will be by a Cleveland firm.

Messrs. Rosenburg and Applebaum, of Toronto, proprietors of one of the largest white goods manufacturing establishments in the city, will probably transfer their plant to Lindsay, Ont. One reason for leaving Toronto is to cope with the labor situation.

The Liberty Tractor Co. purpose to build an assembling plant at Waterloo, and later would construct a large plant, providing the town can supply the site.

The city of Sherbrooke, Que., is unable to furnish 3,000 horse-power for the running of the newly projected plant of the Howard Pulp and Paper Co. Mr. Howard's request to that effect was therefore rejected on the decision of the city council.

The Jenekes Spinning Co., of Pawtucket, R.I., has decided to erect a large plant in the Eastern Townships, Quebec, to be known as the Jenekes Canadian Co., Ltd. Local interests are involved in the deal, and one million dollars worth of machinery will be imported. More than one thousand hands will be employed in the plant, which will undertake the manufacture of fibre for automobile tires.

Messrs. Marshall-Wells and Co., wholesale hardware merchants of Winnipeg, Man., have purchased a site in Regina, Sask., and will commence building operations this spring on a $200,000 warehouse. The company plans to make Regina its central distributing point for the province and will also serve its western clientelle from that point.

Prices Almost Stationary For Year

Farm Products and Leather Goods Have Made Largest Advances—Metals Have Fallen Greatly—High Level Reached in September, 1919—Price Level Now Three Times Average for Decade from 1890 to 1899.

DURING the period of twelve months from November, 1918, to October, 1919, prices in Canada, as measured by the Department of Labor's index number of wholesale prices, showed a slight increase of about 3 per cent. This refutes the general impression that a large increase has taken place; this opinion probably arises from the attention which has been devoted to certain commodities which have risen considerably, while others which have fallen have been overlooked. Following the armistice, prices fell off somewhat until March, since when they rose to a high level in September, when the index number was 301.5, meaning that prices then were three times the average for the decade 1890 to 1899. The accompanying table gives details as to the wholesale price movements during the twelve-month period.

Grains and fodder rose from 295.7 in November, 1918, to 331.1 in August, 1919, but fell to 318.6 in October. Animals and meats rose steadily each month from 338.8 in November last to 389.7 in July, 1919, but fell off gradually to 324.2 in October, 1919.

In the case of textiles the index number for November, 1918, was 380.4, and for October, 1919, 378.8, the yearly period recording a steady rise and fall each month.

The index-number of all commodities in November, 1918, was 290.9, and in October, 1919, 299.6. The highest point was reached in September when the figure was 301.5.

HEAD OFFICE WINNIPEG

"Solid as the Continent"

The North American Life is high in the esteem of the insuring public. Our representatives are placing unprecedented amounts of new business. Why?

"Solid as the Continent" policies, coupled with liberal dividends and the great enthusiasm of all of our agents is the answer.

If you want to associate yourself with a company that offers its representatives real service, write us. Some good agency openings are available.

Correspond with E. J. Harvey, Esq., Supervisor of Agencies.

HOME OFFICE - TORONTO, ONT

THE FOUNDATION OF A GREAT SUCCESS

The world-famous merchant. John Wanamaker, attributes his phenomenal success to having carried Life Insurance on the endowment plan. This system encouraged him year by year to lay by a fixed amount of money. As means increased, additional policies were taken and as they matured the proceeds were invested in new departures in connection with the business. These endowment policies helped greatly in the accumulation of capital. Every young man should carry Endowment Insurance. It furnishes a motive for saving. Money that might otherwise be dissipated is accumulated—and at good interest. Many have laid the foundation of success, not so notable perhaps as that of the Philadelphia millionaire, through investing in Endowment Policies in the Mutual Life of Canada.

Do not spend your surplus, lay it by for a sunny day by means of a Mutual Life Endowment

The Mutual Life Assurance Co. of Canada

Neglect no longer

to inform yourself of the innumerable advantages of Life Insurance. It is probable that you do not know for how small a sum you may, under the Policies of The Great-West Life Assurance Company, place your family beyond the necessity of appealing to the sympathy of others, should the unexpected happen.

Make these enquiries as a matter of business, not sentiment. It is sometimes necessary to remember that while some wives not only fail to urge Insurance upon their husbands, but actively discourage such provision—there is yet to be found the WIDOW who fails to appreciate the advantage of Life Insurance.

State age, when full details will be mailed of the many attractive Plans issued by

S. May Co., Ltd., $50,000.

In connection with the review of the Merchants Fire Insurance Co. report, given in these columns last week, the present management has been in charge since the organization of the company twenty-two years ago. John H. C. Durham is second vice-president and general manager, and F. P. Wythe is assistant general manager.

COBALT ORE SHIPMENTS

The following were the shipments of ore, in pounds, from Cobalt Station for the week ended January 17th:—Coniagas, 76,262; Peterson Lake, 61,087; Temiskaming, 103,990. Total, 241,349. The total since January 1st is 957,563 pounds, or 473.781 tons.

SASKATCHEWAN WILL LOAN MILLION

To enable the Saskatchewan Co-operative Elevator Co. to almost double its storage capacity at the Port Arthur terminals, the Saskatchewan government proposes to advance the company a million dollars, a bill empowering the government to make this loan being given its second reading in the Saskatchewan Assembly some weeks ago. This will increase the company's previous storage capacity from 2,500,000 bushels to 4,500,000 bushels, giving a total capacity of 5,100,000 bushels, coupled with the hospital elevator already in operation. Repayment will be secured by a mortgage on the entire plant valued at approximately $3,000,000, considerably enhancing the value of the security held by the government on the total co-operative elevator indebtedness. The money will be advanced at cost.

BANQUE D'HOCHELAGA MEETING

The annual meeting of the Banque d'Hochelaga was held on January 15th, and the report for the year ended December 31st, 1919, presented. This report has already been reviewed in these columns. The vice-president, Hon. F. L. Beique, occupied the chair, as the president, J. A. Vaillancourt was absent through illness. During the year 1919 the bank opened 31 branches, distributed in Quebec, Ontario, Saskatchewan and Alberta. Some sub-branches were converted into regular agencies. The address to shareholders reviewed conditions during the year, not only as affecting the bank, but also relating to business conditions as a whole.

It was decided to increase the dividend rate from 9 to 10 per cent. The board of directors was re-elected as follows:—J. A. Vaillancourt, president; Hon. F. L. Beique, vice-president; Hon. J. M. Wilson, A. Turcotte, E. H. Lemay, A. A. Larocque and E. W. Bonner

IMPERIAL GUARANTEE AND ACCIDENT CO.

In its annual report for the year ended December 31, 1919, submitted at the meeting held in Toronto on January 15, the Imperial Guarantee and Accident Co. records a successful year. The company issued 21,686 policies for insurance of $42,091,819. The premiums on new and renewed business amounted to $450,570, with paid-for premiums of $426,597. The increase in premiums on business written was $87,785, and on paid-for premiums $71,260. The interest earnings amounted to $20,005, being in excess of the amount required to pay the regular dividend.

The influenza epidemic at the beginning of the year had the effect of abnormally increasing the loss ratio. The number of sickness claims during the latter part of the year was back to normal, however. The assets of the company now amount to $513,324.

After providing $196,434 for unearned premium reserve and reserve for outstanding claims; and also providing for other liabilities, the surplus to policyholders is $304,582, which, together with the uncalled subscribed capital of $800,000, makes the available security for all contracts $1,104,582.

The lines of insurance now written are: Personal accident, sickness, elevator, fidelity guarantee, plate glass, and automobile (including insurance of automobiles against fire). Application is now being made for a license to extend the company's operations to burglary insurance.

AUDITORS' CERTIFICATE

We have examined the books and accounts of The Bank of Nova Scotia at its Chief Office and have been furnished with certified returns from the Branches, and we find that the above statement of Liabilities and Assets as at December 31st, 1919, is in accordance therewith. The Bank's investments and the securities and cash on hand at the Chief Office and at several of the principal Branches of the Bank were verified by us as at the close of business December 31st, 1919, and in addition we visited the Chief Office and certain Branches during the year, when we checked the cash and verified the securities and found them to be in agreement with the books. We have obtained all information and explanations required, and all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank. And we certify that the above statement of Liabilities and Assets as at December 31st, 1919, is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs according to the best of our information and the explanations given to us, and as shown by the books of the Bank.

GOVERNMENT AND MUNICIPAL BONDS

Toronto Harbor Bonds First Long-Term Issue Since Victory Loan—Offered to Investors at 5.65 per Cent.—Many Western Issues Pending—Brandon to Ask for $450,000

THE province of Manitoba has completed financial arrangements to take care of bonds maturing in the United States by the sale of an issue of 10-year 6 per cent. bonds to the amount of $2,498,000 to a Toronto syndicate. The bonds are payable in New York, Toronto and Winnipeg. An offering of the issue is now being made in the United States at a price of 96.36 to yield investors 6½ per cent.

The Toronto Harbor $2,000,000 4½ per cent. bonds, due September, 1953, which are being offered by Messrs. Wood, Gundy and Co., Toronto, is the first long-term issue since the Victory Loan. The underwriters state that the offering is meeting with a very favorable reception.

Tenders are invited on many issues, as given in the list below, included in which are the offerings of many western municipals. The two most important issues are Greater Winnipeg Water District $1,000,000, and Brandon $450,000.

Borrower.	Amount.	Rate %.	Maturity.	Tenders close.
Yorkton, Sask.	$ 39,500	6	20-instal.	Jan. 27
Brandon, Man.	450,000	5½	20-years	Jan. 30
Sorel, Que.	26,000	5½	10-years	Jan. 30
St. Anne R.M., Man.	57,263	5½	29-instal.	Jan. 31
East Whitby Tp., Ont.	45,000	5½	30-years	Feb. 2
Portage la Prairie, Man.	79,610	6	20-instal.	Feb. 3
Goose Lake C.S.D., Man.	25,000	6	20-instal.	Feb. 13
Greater Winnipeg Water District	1,000,000	5½	20-years	Feb. 16
Charlottenburgh Tp., Ont.	60,000	5½	20-instal	Feb. 16
Dauphin, Man.	35,000	6	30-years	Feb. 20
Lindsay, Ont.	76,276	5½	Various.	......

Sorel, Que.—Tenders will be received until January 30, 1920, for the purchase of $26,000 5½ per cent. 10-year debentures.

East Whitby Township, Ont.—Tenders will be received until February 2, 1920, for the purchase of $45,000 5½ per cent. 30-year school debentures.

Goose Lake C.S.D., Man.—Tenders will be received until February 13, 1920, for the purchase of $25,000 6 per cent. 20-instalment school debentures. (See announcement elsewhere in this issue.)

Portage la Prairie R.M., Man.—Tenders will be received until February 3, 1920, for the purchase of $79,610 6 per cent. 20-instalment "good roads" debentures. (See announcement elsewhere in this issue.)

Ste. Anne R.M., Man.—Tenders will be received until January 31, 1920, for the purchase of good roads debentures amounting to $57,263, with interest at 5½ per cent., and repayable in 29 annual instalments.

Charlottenburgh Township, Ont.—Tenders will be received until February 16th, 1920, for the purchase of $60,000 5½ per cent. 20-instalment debentures. Geo. A. Watson, Williamstown, Ont. (See advertisement elsewhere in this issue.)

Lindsay, Ont.—The town is offering for sale debentures amounting to $76,276 and bearing interest at 5½ per cent. The debentures are for various maturities, and complete information may be had on application to Treasurer F. M. Currie. The debentures will be ready for delivery by February 2, 1920.

Brandon, Man.—Tenders will be received until January 30th, 1920, for the purchase of $400,000 5½ per cent. bonds, dated September 1st, 1919, and due September 1st, 1939. An offering of a $50,000 issue of the same rate and maturity is also being made. Public tenders are not invited, but a certain number of dealers are asked to bid.

Debenture Notes

Halifax, N.S.—The city engineer has recommended the borrowing of $500,000 for public works.

Bancroft, Ont.—A by-law has been passed authorizing the expenditure of $5,000 on sidewalks.

Belleville, Ont.—The board of education will ask the city council for $350,000 toward the construction of a collegiate and technical high school.

Woodstock, Ont.—Mayor Henderson is urging the sale of $12,000 debentures locally, which will likely be issued for a proposed new central school.

Moose Jaw, Sask.—The city is introducing a bill in the legislature to extend the time for two years for the issuing of debentures for $12,985 water, and $17,015 for sewers.

Paris, Ont.—A by-law has been passed authorizing the issuance of debentures for the sum of $25,000 for public school purposes and $35,000 to meet current expenditure.

Hamilton, Ont.—The expenditure of the city this year is estimated at about $5,000,000. The ordinary revenue will be about $3,470,000, and the ratepayers at the beginning of the year passed by-laws authorizing an expenditure of $1,400,000.

Alberta.—The province will be called on to do some heavy financing this year, Premier Stewart states, especially in connection with proposed large extensions of the telephone service throughout the province. Large quantities of copper and iron wire and poles have already been purchased, and a big construction program outlined. Moreover, only about 60 per cent. of last year's telephone construction program was carried out, due to the scarcity of labor, and this has to be taken care of this year. Mr. Stewart, however, anticipates no difficulty in financing the expenditure needs of the province.

Bond Sales

Cobourg, Ont.—Messrs. C. H. Burgess and Co. have purchased a small block of $5,000 5½ per cent. 20-instalment debentures.

Toronto, Ont.—The $2,000,000 4½ per cent. Harbor Commission bonds, due September 1, 1953, which were purchased last week by Messrs. Wood, Gundy and Co., at 80.687, are being offered in Canada at 82.70 and interest, at which price the yield is 5.65 per cent. In offering the issue, Messrs. Wood, Gundy and Co., say:—

"While other borrowing municipalities and governments are issuing securities running for as short a time as possible in order to limit the period during which they will be required to pay the present high rates of interest and to secure full benefit from the prevailing high rate of exchange between Canada and the United States, the Toronto Harbor Commissioners can only issue bonds due in 1953. The trust deed drafted in 1913 when the prevailing rate of interest was in the neighborhood of 4½ per cent., provides, as stated by the city treasurer when calling for tenders on these bonds, that the Toronto Harbor bonds must bear 4½ per cent., and mature 1st September, 1953, and this, of course, prevents the issue of any other form of security."

Saskatchewan.—The following is a list of debentures reported sold from December 15th to 31st, 1919:—

Rural Municipality.—Sasman, $12,500; Harris, Read and Co., Regina.

Villages.—Flaxcombe, $1,000; W. L. McKinnon and Co., Regina. Wilcox, $7,000; Mr. Neitzel, Wilcox.

Town.—Wapella, $8,000; W. L. Martine, Wapella.

School Districts.—Whitfield, $3,400, Uxbridge, $3,500, Ackerman, $2,800, Ormsby, $2,000, Roseneath, $3,200; Waterman-Waterbury Manufacturing Co., Regina. Fairdale, $11,000, Souris Flats, $5,000; Great West Life Assurance Co., Winnipeg. Froude, $1,150; Canada Landed and National Investment Co., Winnipeg. Mount Murray, $400, Rush Lake, $1,000; Regina P.S. Sinking Fund, Regina. Georgovia, $900; C. M. Gripton, St. Catharines. Cherry Grove, $400; J. E. Noonan, Regina.

Telephones.—Bangor, $1,800; R. E. Sparks, Atwater. Creekside, $2,600; R. O. Berwick, Ltd., Regina. Good Luck,

THE

Element of Security

is the predominating feature in the following Municipal Bonds—still, the yield is high.

City of Peterboro

3¾% Bonds, due 1931, Yielding 5¾%

Town of Port Colborne

5½% Bonds, due 1920–39, Yielding 6%

Orders for any amount may be wired or telephoned at our expense.

RSC
INVESTMENT-SERVICE

Super-Safe Bonds for Conservative Investors

To invest in a well-secured first mortgage oneself is sound investment practise—but it involves a great deal of bother and quite often does not work out as well as expected.

But to invest in gilt-edged First Mortgage Real Estate Bonds, offered by an established Investment House such as ourselves—is to hold all the security of a real estate first mortgage without the trouble of being an individual mortgagee.

We are offering a thoroughly secured small issue of such Bonds—to yield 6½%. They are secured by the Drummond Apartment Buildings, Montreal

They will be quickly subscribed—so early application for them is necessary.

Manitoba.—A syndicate comprising Dominion Securities Corporation, R. A. Daly and Co., W. A. Mackenzie and Co., A. E. Ames and Co., Wood, Gundy and Co. and Brent, Noxon and Co. has purchased an issue of $2,498,000 10-year 6 per cent. bonds. The bonds, which are payable in Winnipeg, Toronto and New York, were sold by the provincial treasurer, Hon. Edward Brown, to enable him to complete his arrangements in regard to the maturing obligations in the States shortly. the greater part of which was arranged for recently, when $4,000,000 5-year bonds were disposed of.

The issue of $25,000,000 external gold notes of the government of Belgium, offered in New York last week by a New York syndicate, has been heavily over-subscribed. The unique feature of the issue, according to the underwriters, offers the prospect of unusual profits to holders in the event of the Belgian rate of exchange going up between now and the maturity of the notes.

DOMINION BANK REPORT GOOD

The annual report of the Dominion Bank for the year ended December 31, 1919, shows an expansion in the bank's operations, with increase in profits, deposits, commercial loans, assets and other items, indicating that this has been the best year in the history of the bank. Net profits, after allowing for Dominion and provincial taxation, were $1,169,703, compared with $1,086,498 in 1918. After paying the usual dividends at the rate of 12 per cent. per annum, amounting to $720,000, the bank distributed a bonus of 1 per cent., or $60,000. The amount written off bank premises is $300,000, compared with $250,000 a year ago, and $200,000 two years ago, and it is the largest amount ever written off for this purpose by the bank. The contribution to officers' pension fund is $30,000, compared with $25,000, and after these increased items had been cared for, the bank was able to carry forward to profit and loss account, $495,707, compared with $446,503.

In common with other banks, the Dominion had heavy withdrawals late in the year for Victory Loan payments, but was able to report total deposits of $111,414,057; an increase of $15,307,000 during the year. Commercial loans now amount to $66,400,000, an increase of $2,328,000. There was a large growth in total assets, which have risen to $143,504,919, an increase of $10,000,000 during the year. The bank's immediately available assets have had an advance of almost $7,000,000, being now $70,055,379, or 54 per cent. of the bank's liabilities to the public. The chief items in the quick assets are $8,790,080 in Dominion and provincial government securities, and $13,334,525 in Canadian municipal securities, and British, foreign and colonial public securities, other than Canadian. The net profits last year were 9 per cent. of the bank's capital and reserve, compared with 8.35 per cent. in 1918.

NEWS OF MUNICIPAL FINANCE

Calgary Preliminary Estimates Over $1,500,000—Brandon Tax Collections Improved—Nanaimo Reduces Overdraft—Collections Good in Ottawa

Fort William, Ont.—As a result of a tax sale held last week, the city has disposed of property to the value of $130,000. The total value up for sale was $250,000.

Charlottetown, P.E.I.—Total receipts for the year amounted to $262,003, and total payments, $261,853, leaving a surplus of $150. The city now has $7,015 to its credit in the Union Bank of Canada.

Welland, Ont.—The net overdraft for the city for 1919 was $29,926, according to a statement by City Treasurer Jackson. The gross overdraft is $65,645. The 1919 roll shows taxes outstanding of $21,739 and non-resident taxes and arrears, $12,196.

Summerside, P.E.I.—The total revenue for 1919 was $72,563, and total expenditure, $71,802, leaving a surplus of $761. Of the revenue the largest item was assessment, which amounted to $26,945. The total debenture debt now amounts to $127,000, and the total sinking fund to meet the debentures is $34,450, which amount is invested in Victory bonds at 5½ per cent.

Calgary, Alta.—Preliminary estimates of the amount of money required for running the general business of the city, and the public utilities for the first four months of the year, have been passed by the city commissioners, to a total of $1,568,749. Of this sum a total of $945,530 is for general expenses, debenture interest, etc., and the remainder of $623,219 is for public utilities.

Trail, B.C.—The statement of the city's finances for the year ended December 31, 1919, shows receipts of $98,309, included in which are $42,205 for tax payments and $15,092 water rentals. At the beginning of the year there was an overdraft of $11,603. At the end of the year there was an unpaid loan of $13,000, less $3,535, which leaves the city's net obligations at $9,464.

Brandon, Man.—Tax collections for 1919, according to a statement issued by the city treasurer's department, show improvement over 1918. The amount levied in 1919 was $567,207 and the total payments for the year were $552,333. Percentage of total taxes paid during the year to the current levy was 97.4, which is the highest mark set in many years. The closest approach to this was in 1916 when the percentage was 96.4. The total outstanding taxes for 1919 are $411,700, which is an increase over the outstanding taxes for 1918, when the figures were $396,826.

Nanaimo, B.C.—The following is the comparative bank statement for the past year, which shows that the city has reduced the overdraft by over $22,000;—

	1918.	1919.
Overdraft at bank	$33,726	$13,500
Cash in bank	4,007	6,809
Cash on hand	60	74

Total receipts for the year amounted to $392,355, including $86,621 general taxes, $20,757 tax arrears, $33,551 water rates. The principal items of expenditure were: Streets, $10,217; schools, $45,497; fire and police departments, $13,877; waterworks, $8,666.

Ottawa, Ont.—A good collection of tax and water rates for 1919 is reported by Mr. Wm. Robertson, city collector. The total collections for last year amounted to $3,485,434, an increase over the previous year of $420,472. Of the current taxes, 90.67 per cent. was collected as against a percentage of 81.1 in 1918. Of the water rate charges, 93.01 per cent. was collected as against 91.8 in 1918. The total charges for taxes, local improvements, etc., for 1919, amounted to $3,207,280. Remissions totalled $12,163 and discounts $125,231, leaving $2,770,628 taken in by the city collector and deposited with the city treasurer. The balance unpaid on the 1919 rolls is $299,263. The balances unpaid December 31, 1919, for previous years were: For 1918, $130,258; 1917, $91,644; 1916, $78,140; making a total for the four years of $509,658, of which it is estimated that $135,878 is uncollectable.

Amherst, N.S.—A statement of the town's receipts and expenditures for the year of 1919, shows a bank overdraft of $19,235, and cash on hand of $292. The current year's taxes amounted to $124,182, less $2,351 for discounts, and arrears paid approximated $20,000. The sum of $35,000 was paid from current account to protect the purchase of new war loan, 1919, until the sinking fund investment of the previous loan can be realized on, and current account reimbursed. This item was included in the statement as bank overdraft to cover bonds not delivered. The bank overdraft shows improvement over that of 1918 which was $24,604. Principal items under payments are: Street, fire, water and sewer maintenance, $29,418; debentures, $44,295; deposits on sinking funds, $28,426; accounts and notes payable, $11,318; Victory loan investment, $70,150.

Point Grey, B.C.—An outline of the financial position of the municipality has been given by retiring Reeve Thos. W. Fletcher.

"At the beginning of the year 1915," said Reeve Fletcher, "the financial operations of the corporation were somewhat embarrassed owing to a large accumulation of tax arrears. To relieve this a tax sale was held in that year, followed by others in 1917 and 1919, the result being that a large amount of arrears was paid in each case before the sales, taxes to the amount of $79,000 having been collected by sale, and property carrying arrears to the amount of $116,000 has passed to the corporation. A considerable amount of this has been sold and the amount has been reduced to $60,000.

"The corporation is still carrying a large amount of tax arrears on properties owned by the provincial government which had been sold under agreement. The collection of these taxes is not enforceable, neither are those taxes due by property owners claiming the benefit of the War Relief Act. In spite of these adverse circumstances the corporation has been able to maintain a low rate of taxation and meet its obligations from its current revenue, the only obligation against which at the close of this year being a matter of $30,000 advanced by our bank against the tax arrears on land owned by the government.

"The time for issuing bonds of the corporation has been altogether unpropitious, and only the urgency of meeting the requirements of the growing school population of the municipality has induced the council to raise the money in this manner. This year the taxpayers assented to a bond issue of $165,000 for school purposes at 5½ per cent. interest, of which $82,000 have been sold at 94.22, an admittedly high price, which speaks well for the financial standing of the corporation.

"In the matter of sinking fund investments, the corporation held $130,000 of Victory loan bonds which it disposed of at a premium, investing the proceeds, with an additional $50,000, in the Victory loan issue of the present year."

TORONTO MORTGAGE COMPANY

Expansion in several directions is noted in the annual report of the Toronto Mortgage Co., which has just been sent to shareholders. In addition to the regular dividend of 8 per cent. a bonus of 1 per cent. was paid, and $50,000 was added to the reserve fund as compared with $30,000 the previous year. A new item appears in the credit side of profit and loss account of $25,000, "prior provision for losses not now required." Interest on investments and net rentals from office premises amounted to $213,568 as compared with $206,155, while total assets have risen to $3,249,154 from $3,171,712. Liquid assets form the large proportion of about 70 per cent. of the liabilities to the public. The company's sterling debentures have increased during the year from $1,396,708 to $1,425,429.

INVESTMENTS AND THE MARKET

Howard-Smith Paper Mills Stock Issue—Nova Scotia Steel Not in Reported Merger—Securities of Film Corporation to Soon be Issued

Howard-Smith Paper Mills, Ltd.—A $1,500,000 8 per cent. cumulative participating stock issue of the company is being offered by Messrs. Nesbitt, Thomson and Co., Ltd., at 103, yielding over 7¾ per cent. Of the present issue of $1,500,000 preferred stock, $475,000 is to be exchanged for a like amount of preferred stock now outstanding, and the balance, $1,025,000, is issued for the purpose of acquiring the entire capital stock of the Toronto Paper Manufacturing Co., Ltd.

Nova Scotia Steel and Coal Co.—Speaking of the report regarding the merger of the Scotia company and other steel concerns, President MacDougall said:—

"We are improving our physical condition, and any further new improvements are made possible without outside assistance by our excellent financial position. Nova Scotia is in a position to proceed independently in a most satisfactory manner. We have recently acquired control of the Arcadia Coal Mining Co., and are now studying the question of enlarging production of this as well as other properties of the Nova Scotia Co. The company is negotiating for considerable new machinery for its steel mills. This will increase output and enable us to care for whatever export business we secure in addition to our normal domestic requirements. The outlook for this year is rather encouraging. We had a fair year in 1919, having earned our dividends. During the closing months of last year we accepted some orders close to a cost basis. This was done in order that we might maintain our working organization."

Famous Players' Canadian Corporation, Ltd.—The Royal Securities Corporation announces that arrangements have been made for the formation of the corporation which will operate a chain of large motion-picture theatres from coast to coast. The Famous Players-Lasky Corporation of New York makes a large cash investment in the Canadian company and also grants it a 20-year franchise for first-run exhibition of films produced by the Famous Players-Lasky Corporation of New York and its subsidiaries.

The Canadian company already has in operation approximately 20 motion-picture theatres in Toronto, including six large theatres in Toronto, two in Vancouver, and others in Ontario and the West. Approximately $10,000,000 of financing enters into the transaction, the bulk of which will be expended on the construction of large moving picture theatres in Canadian cities. By the fall of 1920 the Canadian company should have in operation theatres with a total seating capacity of approximately 30,000, and by the spring of 1921 it plans to operate a complete chain of theatres with a total seating capacity of 45,000. The securities of the new company will be offered on very favorable terms in the next few weeks. They will be listed on the Montreal Stock Exchange.

RECENT FIRES

Heavy Losses in Calgary, Glace Bay, Montreal, Ottawa, Parry Sound and Toronto—Defective Wiring a Frequent Cause

Bathurst, N.B. — January 15—Several buildings at Bathurst Mines, near the Grand Falls, where the Bathurst Lumber Co. is carrying on its development of electrical power, were destroyed. Principal losers are as follows: Post-office, S. Goodin's store and other buildings. Estimated loss, $10,000.

Burford, Ont.—January 14—Grain elevator owned by Burford Grain and Coal Co. was destroyed. Cause unknown. Estimated loss, $20,000.

Burton, N.B.—January 15—Residence of James Greer, owned by R. H. Hoben, of Upper Gagetown, with contents, was destroyed. Estimated loss, $2,500, with a comparatively small amount of insurance.

Calgary, Alta.—January 18—Empire Hotel, Grand Central Hotel and three stores were destroyed. Two deaths. Estimated loss, $300,000.

Dresden, Ont.—January 19—Mill, office and machinery belonging to the Lawrence and Wakefield Flour Co. were destroyed. Contents of the mill were saved. Cause supposed to have been from defective wiring. Estimated loss, $20,000.

Edmonton, Alta.—January 13—Grocery store owned by Napoleon Rioux at 11307 89th Street, was damaged. An adjoining house, occupied by E. S. Andrews, was also slightly damaged. Estimated loss, $7,500.

Glen Walter, Ont.—January 14—Frame dwelling-house on the farm of John F. Tyo, on the Paragon Road, north of Glen Walter, with contents, was destroyed. Cause, overheated stovepipes. Insurance carried in the British-Crown Insurance Co.

Glace Bay, N.S.—January 14—Central School, with contents, was destroyed. Cause unknown. Estimated loss, $75,000.

Hatton, Alta.—January 11—General stores of Fred Maier and A. and J. Jahnke were damaged. Slight damage was also done to the hotel and theatre. Cause unknown. Estimated loss, $30,000, two-thirds of which is covered by insurance.

Listowel, Ont.—January 15—Two buildings occupied by Prueter's harness store and the Gable jewellery store on Wallace Street, with contents, were badly damaged. Slight damage done to Karge's shoe repair store. Cause unknown. Estimated loss, $20,000.

Montreal, Que.—January 3—Business block at St. Catherines and St. Timothee Streets, was damaged. Cause, defective wiring. The principal losers were: Liberty Knitting Mills, Ltd., Montreal Moccasin Co., Society Brand Shop and M. Seidman and Co., Ltd. Insurance was carried as follows: On Montreal Moccasin Co., $12,000; Society Brand Shop, $10,000; M. Seidman and Co., Ltd., $10,000.

January 6—Shop of M. Klein and Co., La Demontigny Street, East, was damaged. Estimated loss, $2,500. Insurance carried, $3,000.

January 8—Building of the East End Garage with seventy-five large automobiles situated at 789 and 801 Berri Street was destroyed. Residences and small stores, numbers 777, 779, 783, 785, 787, 803, 805, 788, 792 Berri Street, and the rear of an apartment house at 1040 St. Hubert Street were damaged. Cause, gasoline explosion. Estimated loss, $500,000.

January 18—Several stores were damaged. The losers are as follows: Exclusive Waist Shop, 408 St. Catherine Street West; Strand Photo Studio, 410 St. Catherine Street West; Scott Brothers' men's furnishing store, and A. J. Alexander's fur store, 412 St. Catherine Street West. Cause unknown.

Moose Jaw, Sask.—January 12—Canadian Garage, at the corner of High Street and First Avenue N.E., with contents, was damaged. Cause unknown. Estimated loss, $8,000. Residence of Mr. Hay, 641 Coteau Street West, with contents, was damaged. Cause, defective stovepipe. Estimated loss, $500.

Ottawa, Ont.—January 14—Business block at 419, 421 and 423 Sussex Street was destroyed. The principal losers are: Pedlar People Ltd., National Storage and Packing Co., J. S. Ewart, K.C., Ottawa, and Glyn Osler, K.C., of Toronto, who are partners in the business block. Estimated loss to the Pedlar People Ltd., $25,000, while the National Storage and Packing Co.'s furniture, pianos and rugs sustained a loss of $200. Loss on building, $30,000, with $20,000 insurance.

January 21—Buildings occupied by J. Bambrick, grocer, and the Ottawa Printing Co., situated at the corner of William and George Streets, were damaged. Estimated loss, $140,000.

Parry Sound, Ont.—January 14—Building owned by the local Oddfellows was damaged. The occupants who suffered heavy losses are as follows: E. J. Vincent, dry goods; Canadian Pacific Railway ticket and telegraph office, town treasurer's office, and Dr. M. T. Armstrong's dental studio. Estimated loss, $30,000, most of which is covered by insurance.

Port Dover, Ont.—January 18—Residence of L. G. Morgan was damaged. Cause, presumed to have started from an oil stove.

Port Elgin, Ont.—January 10—Shook mill, two large icehouses, the chicken canning factory and the freezer, owned by Fred Magee, were destroyed. Contents badly damaged. Slight damage was done to the building close by occupied by the Trading Company. Estimated loss, $30,000, with partial insurance.

Sydney, N.S.—January 17—Eastmount School was destroyed. Cause, supposed to have been from burners used in drying out new plaster. Estimated loss, $12,000.

Toronto, Ont.—January 14—Garage and twenty-seven auto trucks of the Wilder Cartage Co., Queen and Rebecca Streets, were damaged. Estimated loss, $15,000.

January 12—Building of the paint and varnish shop, occupied by Lowe Brothers, Ltd., 263 Sorauren Avenue, was damaged. Cause, unknown. Estimated loss, $1,500.

January 13—Stables behind the old Bedford Park Hotel were damaged. Four horses, together with a quantity of pressed hay were burned, and the hotel slightly damaged. Estimated loss on building, $3,000.

January 12—Two frame cottages occupied by Earl Thompson, 47 Erie Terrace, and Mrs. Haines, 51 Earl Terrace, were destroyed. Two others were badly damaged. Cause, upsetting of a coal oil stove. Estimated loss, $3,500.

January 5—Two-story brick building occupied by S. Simmons and Sons, florists, situated at the corner of Yonge and Elm Streets, was damaged. Slight damage was also done to the Elm Billiard Parlor. Cause, defective furnace pipes. Estimated loss, $10,000. Insurance carried, $12,500.

January 9—Building of Creighton's garage, 1244 Dundas Street West, with 140 cars was destroyed. Cause, gasoline explosion. Estimated loss, $120,000. Insurance on building, $15,000.

January 6—Building occupied by Peter Shulman, wholesale grocer, 37 Grange Avenue, was damaged. Cause, unknown. Estimated loss, $1,100.

January 17—Basement of the Bank of Montreal, Bloor and Landsdowne Avenue, was damaged. Cause, match thrown in paper. Estimated loss, $300. Cafeteria, time office and stock room, with contents, owned by the Wm. Davies Co., 521 Front Street East, were damaged. Estimated loss, $30,000, fully covered by insurance. Heavy losses have been sustained by the Wilder Cartage Co. from two fires which occurred on January 14th and 17th. In the latter there were several trucks loaded with merchandise which were badly damaged. Estimated loss to building, $3,000, and to contents, $65,000. Insurance carried in five companies to the amount of $80,000.

January 19—Residence of Sir Clifford Sifton was damaged. Cause, supposed to have been due to defective wiring. Estimated loss, $8,000, fully covered by insurance.

January 20—Building occupied by the Ina Produce Co., situated at 25 Leader Lane, with contents, was damaged. Cause, defective wiring. Estimated loss, $900. Insurance carried, $1,200.

Compensation Act Held Unconstitutional

Manitoba Court Decision Places Provincial Board in Doubtful Position—Manitoba Act Held to be Violation of British North America Act, by Which Judges of Superior Courts Must be Appointed by Dominion—Chief Justice Expresses Regret at Results of Decision.

"EVEN if the Workmen's Compensation Board provided for by the Act is, as was argued, a superior court, its constitution organization, jurisdiction and power is within the competence of the province; and were it not that the power of appointing judges of superior courts is reserved to the Governor-General, by section 96 of the B.N.A. Act, that power would also belong to the province. Then is the board a superior court? If it is, in essence, no matter by what name it may be designated, the appointment of its members, their tenure of office and the payment of their salaries are by sections 96, 99 and 100 of the B.N.A. Act, reserved to the Dominion, and all acts performed by a board whose members were appointed by the lieutenant-governor-in-council would be without jurisdiction."

The above statement of Chief Justice Mathers, of the Manitoba Court of the King's Bench, summarizes the grounds for his judgment issued on January 23, to the effect that the Manitoba Workmen's Compensation Act is unconstitutional and the board therefore without judicial powers. The case under which the judgment was rendered is that of Mike Kohanko vs. Tremblay *et al* in which the plaintiff sought damages against the defendants for a personal injury by an accident sustained by him while in the employment of the Tremblay company. The defendants were contractors for a portion of the pipe line for the Greater Winnipeg Water district, in the execution of which they used and operated a railway. While engaged in hauling material from one part of the work to another on the railway, the locomotive was derailed, and the plaintiff, who was riding thereon, was seriously injured. It is alleged that his injury was due to the negligence of the defendants, in that the locomotive and car used by them were in an unsafe condition and unfit for the purpose for which they were used. In the alternative, it is alleged that the damages were due to the negligence of the defendant's foreman, to whose orders plaintiff was bound to conform and to the negligence of the engineer in charge of the locomotive.

Application and Appeal

After a defence had been entered, the defendants applied under section 13, ss. 2 of "The Workmen's Compensation Act," to the Workmen's Compensation Board for an adjudication and determination of the question of the plaintiff's right to compensation under part one of the Act, and as to whether the action is one the right to bring which is taken away by the Act. Upon this application, an order was made by the Compensation Board on December 5, 1918, declaring that the plaintiff has a right to compensation under part one of the Act by reason of the accident, and that the matter is one in which the right to bring action for or by reason of such accident is taken away by the Act. Following this order an application was made by the defendants to the referee in chambers upon notice to the plaintiff, to dismiss this action, and an order to that effect was made by him on March 21, 1919.

From this last-mentioned order the plaintiff appealed to a judge in chambers. The appeal came on before Justice Galt and by him the plaintiff was allowed to amend his pleading so as to raise the constitutionality of the Act. This amendment was made in the shape of a reply delivered on May 10, 1919. On June 7 following, the defendants amended their defence alleging that the plaintiff on May 29, 1919, shortly after the accident, made a claim for compensation under the Act, which claim was allowed by the board, and that before action he had received compensation to the amount of $187, and that he was now estopped from making any further claim on account of his said injuries. The amended defence also alleged the order made by the board of December 5th, 1918, and they pleaded not guilty by statute alleging 6 Geo. V., Cap. 125, sec. 13.

Attorney-General Intervened

On June 7th, the attorney-general of the province, who was not a party to the action, also filed a statement of defence and counterclaim, alleging the claim made by the plaintiff to the board, its allowance and payment of compensation, and the order made by the board on December 5th, 1918. It was also alleged that the Act is *intra vires* of the legislature of Manitoba and has been adopted, homologated, ratified and sanctioned by the statutes of Canada, 8 and 9 Geo. V., Cap 15. The counterclaim asked for a declaration that the Act is constitutional and valid and that the plaintiff's action be dismissed. It was objected that the attorney-general had no authority to deliver a defence or counterclaim. Section 28 of the King's Bench Act, requires that he be notified before any Act of the legislature shall be adjudged to be invalid and that upon such question he shall be entitled as of right to be heard, notwithstanding that the Crown is not a party to the action. No provision is made for the attorney-general in such a case filing a defence or counterclaim, nor is it necessary that he should do so in order to preserve the rights of the Crown.

Court's Decision

Chief Justice Mathers, in giving his decision, says:—

"In my opinion, the defence and counter-claim of the attorney-general is unwarranted by the practice and should be stricken out. What with the filing of a reply and amended defence raising the constitutionality of the Act after an order had been made dismissing the action and pending an appeal from such order, there is sufficient that is unusual without further complicating matters by a further unauthorized and unnecessary defence and counter-claim. The motion is in form an appeal from the referee, but as the question of the constitutionality of the Act was not before him, but has been projected into the case since his order now appealed from was made, this motion is not in reality an appeal against any decision made by him.

"The first question raised is, Has the plaintiff elected his forum, and thereby estopped himself from bringing this action? The defence alleges that he made a claim for compensation under part one of the Workmen's Compensation Act, that the claim was allowed by the board, and that he has been paid $187 of the compensation so awarded. It seems to me that the question of whether or not the plaintiff has irrevocably elected to proceed under the Act is one that cannot be disposed of by a summary application to dismiss the plaintiff's action. I have no doubt, had the application been made to the learned referee upon this ground alone, he would have refused it, and, in my opinion, he would have been right in doing so.

Constitutionality Attacked

"The next point is as to the constitutionality of the Act, and, after setting out the numbers of the sections which are attacked, it is stated: 'It is objected that the board is, by the Act constituted, *in essencem* if not in name, a superior court, and, therefore, that the appointing of the board and its remuneration is, by sections 96 and 100 of the British North America Act, assigned exclusively to the Dominion, and a board appointed by the provincial government is consequently without jurisdiction. The answer to this question will depend upon the power conferred upon it by the Act.' The judgment then sets out in full the different sections of the Act objected to, and follows this with the sections dealing with the powers of the board, and, after a very exhaustive review of the whole measure, and of the numerous cases cited in connection with the arguments of counsel at the trial of the case, his lordship says: 'In my opinion, sections 11, 13, 28, 52, 55, 57, 58, 59, 61, ss. 4 and 70, are all *intra vires* (within the power) of the province, but it by no means follows that the appointment and payment of the members of the tribunal by which these provisions are to be made effective also belong to the province.

Public Utility Case Similar

"In the Public Utilities case, the jurisdiction of the public utilities commissioner to make orders requiring the Winnipeg Electric Railway Company to so construct and maintain its tracks and system as to prevent damage to the underground cables and watermains of the city of Winnipeg from electrolysis, and to pay the costs of an investigation conducted by the commissioner was attacked on the ground that the commissioner was in effect constituted a superior court and that those portions of the Act, which provided for his appointment and payment of his salary by the provincial government, were contrary to section 96 of the B.N.A. Act. The orders were sustained by an equal division of the court of appeal. Chief Justice Howell and Richards, J. A., were of opinion that the question of *ultra vires* was not open and did not consider that question. On the other hand, Perdue, J. A., now chief justice, and Haggart, J. A., thought the question was open and held that the appointment of a commission, with the jurisdiction conferred upon him by the Act, was *ultra vires* of the province.

"There is this distinction between the public utilities commissioner and the Workmen's Compensation Board, that the former is, by the Act creating it, constituted a court of record, whereas by the Workmen's Compensation Act the board is not in express terms constituted a court. That fact is not, I take it, conclusive, because a tribunal may be a court, if it is vested with the powers and jurisdiction of a court, although not so designated.

"The first section of the Workmen's Compensation Act which it is argued confers upon the board the powers and jurisdiction of a superior court, is section 11. The material part of that section, for the purpose I am now considering, is that which provides that, 'all claims for compensation shall be heard and determined by the board.' That, of course, only refers to claims which come within part one of the Act. Section 4 provides that employers in schedule one shall be individually liable to pay compensation, so that the first question the board must determine is whether the employer belongs to any of the classes named in schedule one. The next question is whether the claimant is a person whose employment is of a casual nature and who is employed otherwise than for the purposes of the employers' trade or business. If he is, he cannot claim under the first part. In either case the claimant would be relegated to whatever rights he might have to compensation apart from the first part of the Act.

Duties of Board

"Before deciding these or any other questions, the board must now, by section 29 added to the Act in 1919, in consequence of C.N.R. vs. Wilson, 29 M.R., 193, give notice of the claim to the employer if he carries his own insurance or to the insurance company or an underwriter. At the time fixed for the hearing, if the employer, insurance company or underwriter, signifies a desire to be present or to give evidence, the board shall 'proceed to hear and determine the matter of the said claim and the amount of compensation if any to be awarded and shall make an order for payment of any compensation awarded as hereinafter provided.'

"Section 52 gives the board the same power as the court of king's bench, or a judge thereof, to compel the attendance of witnesses and their examination under oath; and to compel answers, and the production of books and documents. It seems quite evident that the hearing under section 29 is to all intents and purposes a trial of the questions of law and fact involved upon evidence to be adduced before the board. Some of the questions of law and fact which, in addition to the preliminary questions already mentioned, the board shall so determine, are those involved in section 3. The board must determine whether the accident arose out of and in the course of the employment; whether or not it resulted in death or serious disablement; if not whether it was attributed solely to the serious and wilful misconduct of the workman. The board's jurisdiction upon these questions is under section 57 exclusive, as it is also to determine all the questions set out in ss. 2 of that section.

"Section 3 of the Act is in terms the same as section 1 of the Imperial Act, 1906. The equivalent section of the English Act has given rise to a great deal of litigation, much of which reached the house of lords before final determination. The cases are collected in Knocker's Digest of Workmen's Compensation Law and in Butterworth's Reports.

"Speaking of the English equivalent of ss. 1 of section 3, Dawbam in his book on Employer's Liability says, at p. 292: 'In this part of the section nearly every word is of vital moment and certainly every word has been the subject of discussion which in many cases would fill volumes of considerable size. 'Employer,' 'injury,' 'accident,' 'arising out of and in the course of,' 'workmen,' etc., all have been fiercely fought, and to be correctly understood must be read in the light of the decisions upon them.'

"Under the English Act all these questions are left to the decision of the courts.

Transfers Jurisdiction

"Prior to the enactment of this Act, such question could only be determined by the judgment of this court or of the county court, after a trial. The Act transfers this jurisdiction to the board. If the jurisdiction of the court over this limited but very important field of litigation may thus be taken from the courts and vested in an official or officials appointed and paid by the province, I can see no reason why the same thing may not be done with respect to any other subject matter, and so ultimately the whole jurisdiction now exercised by the court. Before the board the procedure may be less formal, but the essential elements of a trial of the issues of law and fact are the same. There are the parties to the controversy, the claim made for compensation and the denial of liability, the hearing or trial, and the adjudication for or against the claimant, and the formal judgment or order. There seems to be no escape from the conclusion that the board is constituted a superior court for the purpose of administrating this limited but extremely important branch of litigation.

"The order complained of was made under ss. 2 of sec. 13, which deals with the case where an action at common law or otherwise has been brought. The board is empowered to make a final and conclusive 'adjudication and determination' upon the plaintiff's right to compensation under part one of the Act, and as to whether the action is one the right to bring which is thereby taken away.

"Such 'adjudication and determination' involves a decision upon the questions of law and fact involved in section 3. The claimant's right to compensation depends upon a finding in his favor upon all these questions if there is any issue with respect to them. Such findings cannot in my opinion be made except in the exercise of the functions of a superior court judge.

"I come, therefore, to the conclusion that the provisions of the Act respecting the appointment and payment of the salary of the board are *ultra vires* of the province as being in conflict with the powers reserved to the Dominion by sections 96, 99 and 100 of the British North America Act. The defendants and counsel for the attorney-general relied upon the Dominion Act, 8 and 9, section V., c. 15, as amended last year. All that Act does is to place an employee in the service of his Majesty who is injured, or his dependents if he has been killed, in the same situation with respect to compensation as the employee of any other employer, and to provide that such compensation shall be determined in the same manner and by the same board, officer, or authority, as that established by the law of the province for determining compensation in similar cases or by such board, officer or authority, or by such court as the government or council shall from time to time direct. It does not vest, nor would parliament have any power to vest, in the province the appointment and payment of superior court judges.

"I may say that I have arrived at this conclusion only after the most careful and painstaking consideration. I believe the Act is serving a good and useful purpose and I should have felt much better pleased if my deliberation had led me to a different conclusion."

Government Departments Prune Estimates

Finance Minister Asks All Departments to Reduce Expenditure — Reduction in Staffs Necessary — Sound Finance Requires Expenditure be Covered by Revenue—Efforts to Collect Income Tax.

(Special to *The Monetary Times.*)

Ottawa, January 29, 1920.

THE ministers and departmental heads are struggling at the present time with the estimates for the coming year for presentation to parliament. Sir Henry Drayton, finance minister, has intimated in emphatic language, that the revenues and expenditures must balance. If there is a balance at all, it must be on the right side of the ledger. He has sent back the estimates of all the departments for reconsideration; the first figures were so much over the mark, that Sir Henry simply returned them with a notice that they must be cut to fit the cloth.

As a result the cabinet ministers and officials are working overtime in an effort to reduce proposed expenditures for the coming year. However, this is easier said than done. For the past four or five years government activities along every line have been rapidly increasing, and in many departments—not war departments—staffs have been multiplied. The country seems to look more and more to the government to initiate movements, and this all means money. Once staffs and estimates reach a certain figure, it is the most difficult thing to reduce. To add to the difficulties, there are hundreds of returned men, formerly in the government service, and these must all be provided for, no matter whether there is work or not. In one branch there have been some thirty men returned. If these men are to be efficiently employed, and they are in a useful branch connected with the development of our resources, it will mean not a reduction in expenditure, but an increase of some $200,000. There would seem to be only one way to make revenues and expenditures balance, and that is by a cold-blooded reduction in staffs. The government will have to come to it some time, if our war interest is to be paid, pensions met and ordinary expenditures kept within the revenues. Dismissing staffs is not a pleasant thing to do. The government is at present engaged in reducing the staff of the Printing Bureau by 400 and in doing so, has not increased its popularity at the capital at least.

Heavy Fixed Charges

The necessity for the policy of ruthless retrenchment, which Sir Henry Drayton has inaugurated is obvious. The national debt by the end of the fiscal year will be nearly two billion dollars, which involves an annual fixed charge of approximately $138,000,000. This is actually $11,000,000 in excess of our total expenditures on Consolidated Account before the war. Pensions will run $30,000,000 and if parliament gives them another boost, as is quite probable, will total $35,000,000. Then there are new departments growing out of the war, which must be maintained, such as Soldiers' Civil Re-establishment, Soldiers' Land Settlement, etc., which will run fifty to one hundred millions more. Altogether, Sir Henry has to provide for some $200,000,000 to $250,000,000 before he begins to think of the ordinary running of all the government departments. Then there are harbor improvements and public works, and in the background the ghost of a railway deficit to frighten the minister. It is enough to make one turn gray to contemplate them, and it is no wonder that Sir Henry is unmercifully insisting on a slashing of estimates.

That he can keep everything down to the revenues this year is doubtful, no matter how good his intentions. His fixed expenditures are too high to expect in one year to hit a balance. However, he is at least making a start along the right lines, and a good one. Our borrowings for this coming year should be modest, compared with the annual loans during the war.

Revenues Buoyant

One comforting feature, from the standpoint of the finance minister, is the way the revenues have kept up. For the nine months of the fiscal year, up to December 31st, the total revenue was $253,964,722. For the same period of 1918 the revenue was $222,485,552—an increase of over $31,000,000. The revenue for the month of December was $35,937,227. At the same rate for the next few months and the revenue for the year ending March 31st, 1921, will total $390,000,000. This total is perhaps a little high. For next year, Sir Henry is not counting on any higher amount. He is making a big drive to gather in the income tax—the collection of which so far has been apparently haphazard and lax. But any increased revenue from the income tax will be more than offset by the dropping of the business profits tax. Customs cannot be expected to show any increase, while other revenues are about stationary.

Altogether, Sir Henry Drayton has no easy or pleasant duty. Only by sitting on the treasury lid with all his avoirdupois and setting himself boldly at the task of making himself thoroughly unpoular with pork-barrel politicians and grasping municipalities, can he become a successful finance minister.

BANK BRANCH NOTES

The following is a list of branches of Canadian banks recently opened:—

Hamilton, Ont. (Corner Barton St. and Gage Ave.)	Dominion Bank
Pouch Cove, Nfld.	Royal Bank of Canada
Westville, N.S.	Royal Bank of Canada
Briarcrest, Sask.	Home Bank of Canada

New Premises

The Bank of Nova Scotia has purchased the building at the corner of Mill St. and Paradise Row, St. John, N.B.

The Bank of Commerce has bought premises in Albert, N.B., with the intention of opening a branch there.

The Bank of Toronto has purchased a building at the corner of King St. and Court House Ave., Brockville, Ont. Plans are now being prepared for an up-to-date building to replace the present structure, and to be known as the Bank of Toronto Chambers. The entire lower floor space will be used by the bank for the transaction of its business. The two upper stories will be converted into modern offices. The negotiations for this change in property were carried on through Mortimer Atkinson, the present manager of the bank, at Brockville, Ont.

The Bank of Commerce is building a three-story addition to the rear of the branch building at King and Jarvis Streets, Toronto, Ont.

Announcement has been made that High Bluff, Man., is to have a permanent banking institution in a branch of the Bank of Nova Scotia. This branch was opened some time ago, as a branch of the Portage office, but the business increased to such an extent that it has been decided to make it permanent. The bank only has temporary quarters at present, a site has been bought, and it is announced that a bank building will be erected in the spring.

The sub-branch of the Home Bank of Canada, at Everett, Ont., formerly opening three days a week, is now opened daily, with a local manager, A. B. Brown, in charge.

Personal Appointments

Mr. F. W. Simpson, manager of the local branch of the Royal Bank of Canada has been transferred to Bolton, Ont., to open a new branch of the bank in that place.

Mr. B. L. Mitchell has been appointed manager of the main branch of the Royal Bank of Canada at Halifax, N.S. Mr. Mitchell began his banking career in Halifax in the Union Bank, in 1903. After the amalgamation of the Union Bank with the Royal Bank, Mr. Mitchell was made accountant in 1910. In 1915 he was transferred to St. John's, Nfld., and was made manager of the Royal Bank there, until transferred again to Halifax a year ago. Since that time he has been acting manager at New Glasgow.

Mr. J. F. Macdonald, manager of the Vancouver branch of the Home Bank, is leaving the service of the bank after twelve years' connection, to become managing-director of Ward Agencies, Ltd. He succeeds Mr. O. D. Lampman, who goes to Seattle to take charge of the office of W. A. Ward and Co. Mr. F. G. Nickerson, manager of the Moose Jaw branch of the Home Bank, comes to Vancouver, succeeding Mr. Macdonald.

Mr. George Wharrison, manager of the Canadian Bank of Commerce, at Charlottetown, P.E.I., has been transferred to the branch at Stratford, Ont.

The following appointments have been announced by the Union Bank of Canada: To be inspector, G. M. Proud, Edmonton, Alta.; assistant inspector, A. G. Ross, Winnipeg, Man.; audit officer, H. Ostrom, Winnipeg, Man.; to be managers, A. W. Black, Vancouver, B.C. (Cordova St.); G. Branston, Hazenmore, Sask.; W. B. Grant, Cypress River, Man.; A. P. Clark, McCreary, Man.; S. Craig, McAuley, Man.; T. S. Fulton, Dauphin, Man.; W. G. Gross, Strathclair, Man.; W. G. Hart, Spirit River, Alta.; W. L. Heddisheimer, Ogema, Sask.; C. V. Henderson, Asquith, Sask.; S. J. Hopewell, Strongfield, Sask.; G. Kay, Sandy Lake, Man.; J. H. Mason, Minto, N.B.; A. E. Miscampbell, Tessier, Sask.; A. B. Morden, Bounty, Sask.; H. R. McClung, Elm Creek, Man.; J. A. McDiarmid, Elphinstone, Man.; D. R. McDougald, Viceroy, Man.; A. C. McLean, Lang, Sask.; A. H. O'Keeffe, Bruderheim, Alta.; C. Reid, Smithers, B.C.; D. A. Small, Theodore, Sask.; W. B. Steele, Lemberg, Sask.; G. K. Stone, Perdue, Sask., F. J. G. Sutherland, Hartney, Man.; P. G. Wood, Eastend, Sask.

CANADA LANDED AND NATIONAL INVESTMENT

Larger revenue, increased assets, but substantially the same net profits, are reported by the Canada Landed and National Investment Co. for the year 1919. Interest collected and due on current loans amounted to $445,052 as compared with $415,795. The principal change in the appropriation of earnings is in the transference of $150,000 to reserve fund as against nothing for that purpose a year ago. The reserve now amounts to $1,355,000, the capital stock paid up being $2,410,000. This leaves the balance carried forward at $26,221 as compared with $132,987 last year. Dividends on caiptal stock at 9 per cent. per annum were paid, amounting to $108,450 in both years. The cost of management increased from $47,729 to $52,640. Net profits for the year, after deducting expenses of management, interest on debentures and all other charges, amounted to $151,683 as compared with $152,286.

Total assets have increased from $6,422,606 to $6,606,427. Sterling debentures have increased from $3,481,327 to $3,590,487, and currency debentures from $334,767 to $341,267. The character of the company's investments shows some changes which reflect the quiet business experienced by loan companies of late. Loans on mortgage securities are $4,657,839, as compared with $4,801,620 a year ago, while government, municipal and school district debentures have risen to $1,586,521 from $973,568.

WEEKLY BANK CLEARINGS

The following are the Bank Clearings for the week ended January 29, 1920, compared with the corresponding week last year:—

	Week ended Jan. 29, '20.	Week ended Jan. 30, '19.		Changes.
Montreal	$129,845,123	$ 81,953,866	+	$ 47,891,257
Toronto	106,405,344	68,096,616	+	38,308,728
Winnipeg	41,891,351	33,759,119	+	8,132,232
Vancouver	15,032,632	9,288,592	+	5,744,040
Ottawa	7,818,575	6,370,573	+	1,448,002
Calgary	7,361,910	4,810,659	+	2,551,251
Hamilton	5,901,890	4,572,673	+	1,329,217
Quebec	6,154,720	4,290,544	+	1,864,176
Edmonton	4,573,374	2,867,837	+	1,705,537
Halifax	3,664,093	4,026,110	—	362,017
London	3,142,221	2,167,531	+	974,690
Regina	3,156,393	2,707,819	+	448,574
St. John	3,073,710	2,474,657	+	599,053
Windsor	2,532,536	1,290,438	+	1,242,098
Victoria	2,341,956	1,673,645	+	668,311
Saskatoon	1,551,877	1,380,916	+	170,961
Moose Jaw	1,377,605	1,307,298	+	70,307
Brantford	1,126,980	762,617	+	364,363
Brandon	535,227	446,901	+	88,326
Fort William	823,695	558,436	+	265,259
Lethbridge	628,798	581,773	+	47,025
Medicine Hat	404,139	298,933	+	105,206
New Westminster	572,088	409,975	+	162,113
Peterboro	732,055	631,459	+	100,596
Sherbrooke	904,944	624,671	+	280,273
Kitchener	1,080,579	561,765	+	518,814
Prince Albert	367,737	316,010	+	51,727
Totals	$353,001,552	$238,231,433	+	$114,770,119

NATIONAL AND INTERNATIONAL SECURITIES

MORE pessimistic news regarding the financial condition of European countries is reported by Sir George Paish, editor of the London Statist and advisor to the chancellor of the British exchequer. Sir George is now a visitor in Canada, and addressed the Canadian Club in Toronto on January 28th, and the Empire Club, Toronto, on January 29th. A complete breakdown faced these countries, he intimated, if the United States did not come to the rescue by furnishing credits. Similar views have been expressed by outstanding financiers during the past year, though few have gone so far as this distinguished British visitor did in stating that it would be at least five, and possibly ten years before the European countries would be able to pay in kind for the commodities now urgently required.

But Sir George proposes a specific remedy, in the form of securities issued by the newly formed league of nations, by means of which subscribing countries could meet their economic requirements. Such securities would be a medium for the interchange of long term credit. He pointed out that the banking systems were well suited to advance short credits, which was all that was necessary when trade balances were nicely adjusted, but that they failed to meet the present state of dislocation. The sale of national securities is not a satisfactory solution, he said, because the United States is not yet educated to the viewpoint of the international creditor. The speaker supported his view with the warning that if some such arrangement were not made, and a breakdown in Europe followed, America's prosperity would disappear; Europe would be starving for essential commodities, while American industries would be idle and large numbers of workers unemployed.

Sir George Paish's standing has insured him careful attention on this continent, but his opinions as now expressed have not met with entire agreement. In the first place the United States is proud of the speed with which it has reached a leading position as a creditor nation; billions of dollars loaned to European countries justify this pride, and many private investors across the border, and for that matter in Canada itself, are owners of long term foreign bonds. The speaker's criticism on this point, though mild, was not concurred in. In the second place the league of nations, though it may well be the hope of war-ridden Europe, is not exactly regarded as a going concern. Possibly the failure of the United States to ratify the peace treaty, which establishes this league, has something to do with this attitude, but the enormous military programs of Great Britain and France tacitly indicates a similar view.

United States investors and financial institutions have not questioned the security of British, French and other bonds. The pronounced success of the Belgian loan floated in New York this month shows that they also have faith in some of the smaller nations of Europe. Securities of a league of nations would scarcely be accorded equal reception, and it would be desirable that the effectiveness and stability of such a league as a political institution be demonstrated before it enters the financial field.

TORONTO'S STREET RAILWAY PROBLEM

TORONTO, which is a centre of public ownership sentiment in Canada, will shortly make the greatest experiment in municipal ownership thus far attempted in this country. At the January elections the ratepayers approved the proposal to take over the street railway when the company's franchise expires on January 1st, 1921. The company has already been notified of the city's intention, and a bill has been drafted by the city solicitor, to be presented at the coming session of the legislature. There are several points in this draft bill which are not wise in the light of past experience in municipal ownership, and which should be revised before the bill becomes law. Legislation of this kind is necessary before the city can take over the railway, and once the general lines of administration are laid down, changes can be made only by legislative amendment.

The bill provides for the appointment by the city council of a "Toronto Transportation Commission," the members of which are to serve without remuneration. This is in the first instance a mistake; while large salaries for work requiring only a part of the attention of the commissioners would not be necessary, payment should at least be as great as that enjoyed by directors of corporations. The number of commissioners is to be three, and they are to hold office for three years, any one being eligible for re-appointment. Once the railway is acquired by the city, its control, operation and management is to be entrusted to this commission. Any time before this, however, the council may also turn over to it the civic lines already operated. If this were done just as soon as the commission can be appointed, it would ensure that the civic lines could be properly linked up with the main system next January. The commission may also, at the instance of the council, construct, operate and manage underground lines, elevated lines or motor-bus traffic. It is also to be empowered to build cars, plant, and other equipment, in anticipation of the acqusition of the company's assets.

The methods of finance proposed are, to say the least, open to criticism. The funds are to be provided by the city, but inasmuch as the operation is to be vested in the commission, difference of opinion is certain to arise. There is no reason why the commission should not do its own financing, a method which would ensure the soundness of its management and at the same time relieve the city of an enoruous contingent liability. The street railway debt, it must be remembered, according to the draft bill, is not to be included in the corporation's debt in estimating the limit of borrowing power. Such possible liabilities will adversely affect the city's credit.

Control of rates is, moreover, to be entirely in the hands of the commission. The Ontario Railway and Municipal Board was created for this among other purposes, and publicly as well as privately owned enterprises should be subject to its jurisdiction. The rate question is inseparably connected with operation costs, and control of both should be vested in the board. Otherwise, the inception of municipal ownership in Toronto is sure to be followed by radical labor attempts to drain the public purse, in which the political assistance of council members will be enlisted.

COMMERCIAL LOANS MAY BE LESS LIBERAL

INDUSTRIAL concerns have prospered by the reason of the high prices for almost all classes of commodities, and the tendency to continue buying goods on the present basis will be difficult to suppress. This was one of the points brought out by C. A. Bogert, general manager of the Dominion Bank, at the annual meeting of that institution on January 28th. Mr. Bogert was recently elected president of the Canadian Bankers' Association, and his remarks may be considered as representing the views of bankers in this country. While operating expenses have greatly increased, the rate of interest on commercial loans is unchanged. The banks, said Mr. Bogert, do not receive adequate and fair compensation from the public for the facilities they provide and for the risks which they take.

Speaking of the more general economic situation in Canada, Mr. Bogert warned against the dangers of the present widespread extravagance. Economy on the part of the Dominion government was especially desirable, and the taxation policy should be both careful and far-reaching. "Fortunately," he said, "the change from abnormal to normal conditions is slowly taking place, and so far without unfavorable features. We still find extraordinary activity in practically every class of business; a demand for products of every description that cannot be met, and a shortage in foodstuffs, raw materials and manufactured articles. It will certainly take a year or two for supplies to equal demands."

Sir Edmund Osler, president, said the future must cause anxiety to all financial businesses. The exchange conditions are serious, and in Canada we must expect a very large amount of money to be withdrawn which has been borrowed from England and from Scotland by the various mortgage companies. There was no inducement now to send money from England, and there was every inducement, owing to exchange, for the English lenders to have the money sent back. He estimated that between $50,000,000 and $75,000,000 had been loaned to various companies here from Great Britain for investment in mortgages. Some of these companies had already arranged to close up their business and have the money sent back. "No money can be expected from Great Britain for investment in this country until the exchange conditions change," he said.

Vice-president A. W. Austin commended the soundness of Canada's economic and financial position as shown by the success of the recent war loan. Vice-president Sir Augustus Nanton, of Winnipeg, replying to the resolution of the shareholders thanking the directors for their services, spoke of the great farm, coal and oil resources of the west, the last-named being still in the development stage.

CONSERVATION OF THE FORESTS

FIVE thousand saw-mills in the southern United States will discontinue operations within the next three years owing to the decline in the supply of southern pine. This statement of Col. Henry Graves, chief forester of the United States Forest Service, is a startling reminder that the timber resources of America are not unlimited. The men who scoffed at the idea of such depletion occurring at all are being rudely awakened and a national forest policy is being advocated and considered with unusual interest in the United States. The outstanding features of the forest policy recently enumerated by Col. Graves are: First, that the federal, state and municipal governments largely increase the area of public-owned forests either by purchase or exchange for stumpage; second, that federal aid be provided to the states which are willing to provide the necessary machinery for the protection and reproduction of the forests. The scheme also suggests that assistance be given annually to timberland owners who may be prepared to practise forestry on their lands.

The first, and by no means the smallest, obstacle to such proposals is public apathy. A vigorous educational campaign will be necessary to undo the work of those who persistently instilled the idea into the minds of United States citizens that the forests could not be exhausted. The people must be brought to realize the fallacy of such a doctrine, and that only a united nation-wide effort can save a great national industry from decline. As soon as public opinion has been aroused, a complete census of existing supplies will be necessary, for such information has never been brought together in the United States.

Canada is undoubtedly in a better position than the United States because a much larger area of her forest lands are still held under the Crown and exploitation has not proceeded so far. American governments have postponed action so long that the outlay necessary to retrieve their position will be enormous.

DEEP WATERWAYS NEGOTIATIONS

THE first international meeting to discuss the St. Lawrence waterways scheme was held in the Detroit Board of Commerce on January 1, when officials of the newly-formed Canadian Deep Waterways and Power Association met officials of the Great Lakes and St. Lawrence Tidewater Association for the purpose of discussing plans for the furtherance of the project of deepening the St. Lawrence system so as to allow ocean-going vessels to proceed to the head of the lakes. O. E. Fleming, the president, and Major Alex. C. Lewis, the secretary of the Canadian Association, represented that body at the conference, while the American organization was represented by H. P. Gardiner, president, and C. P. Craig, vice-president, and managing director.

The meeting informally discussed the aims of the two associations, and plans for the joint furtherance of those aims. The conference was called because it was felt that in many ways the two organizations, working separately, might follow out plans which were not in the interest of the other association, and one association might to a certain extent undo the work being done by the other.

Trade with the Orient

With correspondents of the highest standing in China, Japan, India and other countries of the Orient, and branches in all the principal ports on the Pacific coast of North America, namely:

Prince Rupert	Portland, Ore.
Victoria	Seattle
Vancouver	San Francisco

this Bank is excellently equipped to serve the interests of Canada's growing trade with the Orient.

THE CANADIAN BANK OF COMMERCE

Paid-up Capital, - -	$15,000,000
Reserve Fund, - - -	$15,000,000

Branches

At Montreal, and throughout the Provinces of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia.

Savings Department at all Offices.
Deposits of $1 and upwards received.

Advances made for Manufacturing and Farming purposes.

Collections effected in all parts of Canada promptly and cheaply.

Correspondence solicited

J. P. BELL - - General Manager

MANITOBA LEGISLATURE OPENS

The 1920 session of the Manitoba legislature opened on January 22nd. In his speech from the throne the Lieutenant-Governor stated that there would be legislation on housing; on larger representation in the Assembly by redistribution; on the question of trading in liquor with other provinces, and resolutions on the transfer of natural resources of the province, and for the completion of the Hudson's Bay Railway.

MONEY MARKETS

Messrs. Glazebrook and Cronyn, exchange and bond brokers, Toronto, report the following exchange rates to *The Monetary Times*:—

	Buyers.	Sellers.	Counter.
N.Y. funds	10⅞ pm	10 15-16 pm	....
Mont. funds	Par	Par	⅛ to ¼
Sterling—			
Demand	$3.8775	$3.8875	....
Cable transfers	3.8875	3.8950	....

Rate in New York, sterling demand, $3.49½.
Bank of England rate, 6 per cent.

MONTREAL EXCHANGE SEATS SOLD

Additional seats on the Montreal Stock Exchange were created a few weeks ago. These have now all been sold, no less than five transactions having taken place since the new year. The sales were as follows:—January 5th, to C. Meredith and Co., acting for Osler and Hammond, Toronto, $31,000; January 6th, to Greenshields and Co., $32,000; January 6th, to Burnett and Co., $32,000; January 8th, to Greenshields and Co., $34,000; January 10th, to McDougall and Cowans, acting for A. J. Pattison, Jr., and Co., $35,000. One of the seats purchased by Greenshields and Co. was for Morris and Wright, Hamilton.

CANADA SECURITY ASSURANCE COMPANY

The above company, with head office at Calgary, was recently acquired by the Norwich Union Fire Insurance Society, and will be operated as an independent company.

The Canada Security will write fire and hail insurance, and automobile insurance in all its branches. The capital of the company has been increased to $500,000, and it subscribed for $250,000 of the last Victory loan. One hundred and twenty thousand dollars has been deposited at Ottawa, and a Dominion license has been issued, so that the company is now ready to arrange for agencies throughout Canada.

The Canada Security will be managed from Toronto, John B. Laidlaw being president and general manager. E. M. Whitley, former manager of the company, will be manager at Winnipeg for both the Norwich Union and Canada Security, while T. B. Redding, formerly secretary of the company, will occupy a similar position at Calgary. The policies of the Canada Security will be guaranteed by the Norwich Union.

CONFEDERATION LIFE ASSOCIATION

Another new record has been established by the Confederation Life Association, as shown by its report for the year 1919. The annual meeting was held in Toronto on January 27. 13,330 applications for a total insurance of $32,852,960 were received. Of these 12,514 for insurances amounting to $30,052,751 were accepted, and policies issued; 253 were deferred for further information and other causes, and 553 were declined as undesirable risks. Inclusive of revived policies of previous years and bonus additions, etc., the total new insurance for the year amounted to $31,268,527. The total insurance in force at December 31st was $112,481,374, a gain for the year of $20,495,209.

The total claims by deaths of insured lives were $879,262, being $309,096 less than in 1918. This amount includes the sum of $45,729 war claims and $173,838 from influenza. Aside from these two items the rate of mortality is favorable. The matured endowments amounted to $669,027, being $58,487 more than for the previous year. The total paid to policyholders during the year was $3,069,826, which is $541,699 greater than in 1918.

Payments on account of principal on mortgages were large, being $954,670, or $402,166 greater than the new investments in this class of security. High prices obtained by a great many of the farmers for their produce, enabled them to pay off their loans. The sum reinvested in mortgages, chiefly on farm securities, was $552,504. The investment in debentures, including government loan, amounted to $2,977,493, while the amount paid off, or sold, was $1,618,218, leaving the net increase for the year $1,359,275.

FIDELITY-PHENIX FIRE INSURANCE CO.

The Fidelity-Phenix Fire Insurance Co. of New York will look back upon 1919 as one of the most prosperous years in its history. The assets of the company shown in the statement of January 1st, 1920, are $25,816,261. The unearned premium liability is $13,620,335, an increase of nearly $2,000,000 over the preceding year. The other chief liability items in the company's statement are: Losses in process of adjustment $1,430,326; all other claims $569,766; reserve for dividends $375,000; reserve for contingencies $150,000. The authorized subscribed and paid-up capital is $2,500,000 and the net surplus $7,270,834, making the surface to policyholders $9,770,834.

LESS SILVER IN SILVER COINS

According to an order-in-council passed recently, the silver content in Canadian silver coins is greatly reduced. On and after January 1st, 1920, the standard for silver coins of the currency of Canada shall be that in one thousand parts by weight, eight hundred shall be of fine silver and two hundred of alloy. The former standard was 925 parts of fine silver and 75 of alloy. The Minister of Finance at Ottawa has announced that this will bring Canadian coinage to the same level as that of many other countries and would check any melting of silver coins for the sake of the silver.

NATIONAL TRUST COMPANY REPORT

Increased net profits and a large increase in assets are shown by the annual report of the National Trust Co., issued January 24. Net profits were $281,140, compared with $266,784, while total assets stand at $88,941,252, compared with $80,091,670. Some changes occur in the appropriation of the profits. The usual ten per cent. dividend, amounting to $150,000, was paid, and $50,000 written off company's office premises, but no addition was made to reserve fund, where $100,000 was applied a year ago, nor for new branches, where $50,000 was set aside last year. The year just closed began with a balance carried forward of $12,182, whereas two years ago the balance forward was $122,398, which permitted of the large appropriations in 1918, which were not possible in 1919. However, this year there is a balance forward of $59,623. Among the assets the chief change is an increase of almost $10,000,000 in estates, trusts and agency accounts, the figures having risen from $69,955,548 to $79,665,410, which is a gratifying growth in business for one year.

PLANS OF HALIFAX BOARD OF TRADE

The annual meeting of the Halifax, N.S., Board of Trade was held on January 20. The president for 1920 will be A. Hanfield Whitman. H. R. Silver, the retiring president, in his address reviewed what had been accomplished in the year just ended and outlined some of the things that the organization hoped to effect in the future for the betterment of Halifax.

The principal speaker was Hon. A. K. Maclean, whose subject was "International Exchange," but who prefaced it with a short introduction in which he hoped that the people of Nova Scotia would establish themselves in international trade—their great opportunity—but said that this must be done through their own energy and enterprise rather than through reliance upon government assistance. In connection with the high rate of exchange, he admonished all Canadians to exercise thrift, and to limit their purchases from other countries.

CANADA PERMANENT MORTGAGE CORPORATION

Loan company statements for 1919 show few changes, and the report of the Canada Permanent, which is the second largest institution of the kind in Canada indicates that while the usual excellent results were obtained, there was no general expansion in business such as has been experienced by banks, insurance and trust companies. Mortgage loans showed a decline of about $100,000, compared with $400,000 the previous year. Net profits were $827,984, compared with $824,532, and $250,000 was again transferred to reserve, after payment of the usual dividends, amounting to $600,000. The reserve now amounts to $5,750,000, the capital stock being $6,000,000. An increase in both sterling and currency debentures is noted among liabilities. Investments in bonds show a large increase, doubtless reflecting the duller times in loaning on real estate, the total being $4,232,768, compared with $2,045,344. Mortgage loans are $26,211,306, compared with $26,318,586.

The following are some comparative figures:—

	1919.	1918.
Liabilities—		
Deposits	6,206,962	5,461,936
Debenture, sterling	10,244,642	9,938,669
Debenture, currency	4,122,278	3,798,058
Debenture stock	427,633	427,632
Capital stock	6,000,000	6,000,000
Reserve	5,750,000	5,500,000
Assets—		
Mortgages	26,211,306	26,318,586
Loans	404,699	502,866
Bonds	4,232,768	2,045,344
Real estate	228,259	311,086
Offices	732,135	628,355
Cash	1,245,070	1.655,148

BANK OF HAMILTON BONUS

The Bank of Hamilton directors have approved of a bonus of 20 per cent. to those who are single and 25 per cent. to those of the staff who are married. This will be paid monthly on their salaries and allowances throughout the year 1920. This is in addition to a general increase in salaries, which have this year been revised two months earlier than usual. Recognizing the difficulties faced by those with small incomes, the bank will also supplement the pensions by paying a bonus of 10 per cent. during the year to its pensioners.

PRINCE RUPERT LOOKS TO GOOD FUTURE

At the annual meeting of the Prince Rupert, B.C., Board of Trade recently, the retiring president, M. P. McCaffery, referring to his recent visit east, said he felt more optimistic than ever respecting Prince Rupert. He felt convinced the time was approaching when trans-Pacific trade would develop and Prince Rupert would benefit materially, particularly in the way of shipbuilding. The election of officers resulted as follows: Hon. president, Col. C. W. Peck, V.C., M.P., and Hon. T. D. Pattullo; president, S. E. Parker; vice-president, Mr. W. E. Williams; secretary, Mr. J. W. Nicholls.

EXCELSIOR LIFE INSURANCE CO.

The annual report of the Excelsior Life Insurance Co., presented at the meeting held in Toronto on January 22, shows large increases in business for the year 1919. Applications for new assurance were received for $10,359,909, an increase of $3,625,907. There was issued and revived a total of $10,013,810, bringing the total assurance in force to $33,735,247. The gain in assurance was 69 per cent. of the new issues, which was an improvement over the corresponding figures for the previous year. The premium for assurance amounted to $1,100,018, an increase over 1918 of $190,711. Total receipts for premiums, interest, rent, etc., were $1,398,962. Payments to policyholders during the year were $474,435. The mortality rate returned to the favorable experience enjoyed previous to the influenza epidemic, actual to expected claims being 54.3 per cent. The average for the past eleven years was 51 per cent. The average rate of interest earned upon invested assets was increased to 6.81 per cent. The unallotted surplus now amounts to $653,401.

Alex. Fasken, vice-president, presided. The only change made in the board of directors was the election of James Leith Ross, of Ross and Holmsted.

TORONTO LIFE UNDERWRITERS' ASSOCIATION

At the annual meeting of the Toronto Life Underwriters' Association, held on January 26th, it was decided to conduct a vigorous membership campaign with a view to placing Toronto at the top of the list of underwriting centres in Canada. W. E. Nugent was appointed to manage the campaign. A tribute was paid to the retiring president, E. W. Pratt, of the North American Life, for his work at the head of the Association during the year, and the following officers were elected for 1920:—

Honorary president; E. W. Pratt; president, O. B. Shortly, Metropolitan Life; vice-presidents, J. T. Boyd, Confederation Life; W. A. Carson, London Life; L. J. Lugsdin, Mutual Life; S. G. Ketcheson, New York Life; G. H. Junkin, Manufacturers' Life. Executive committee—F. J. Stanford, Canada Life; Wm. May, Sun Life; N. H. Brown, Great West Life; H. W. Manning, North American Life; J. B. Hall, Dominion Life. The secretary will be L. W. Dunskill, who is assistant to the general secretary of the Life Underwriters' Association of Canada, with office in Toronto.

ONTARIO HYDRO COMMISSION'S RAILWAY PROJECTS

Some Details Regarding the Toronto–Northeastern, Toronto–Eastern, Toronto–London, Toronto–St. Catharines, Hamilton–Elmira–Guelph and Welland–Bridgeburg Lines

During the six years which have elapsed since the passing of the first Ontario Hydro-Electric Railway Act, the Hydro-Electric Power Commission of Ontario has received requests from approximately 300 municipalities to prepare reports on the construction and operation of electric railways in their localities, and in response approximately 3,000 miles of projected lines have been surveyed. Practically all these lines are located in South-western Ontario, the exceptions being: (1) two short lines in the Muskoka district, (2) lines in the Prince Edward county district, (3) Kingston to Cornwall, and (4) Ottawa to Morrisburg.

Toronto-Northeastern Railway

In October, 1914, municipalities between Toronto, Uxbridge and Port Perry, voted on a 100-mile line, and with the exception of Newmarket and Uxbridge township, all approved by-laws authorizing the construction of the railway. The agreements were ratified by an Act in 1915, and Newmarket, Whitchurch township, Uxbridge township, and the town of Uxbridge were excluded. The line authorized is 72.36 miles long.

This proposed line will start from the eastern limits of the city of Toronto, parallel the C.N.R. for a short distance, turn north and approximately parallel the G.T.R. to Unionville and thence to Stouffville Junction on the Markham-Whitchurch township line. From Stouffville Junction the line will run east through Stouffville and the township of Pickering, to Claremont. The railway will also run east from Unionville to Brooklin, and there join the line running south from Port Perry through the township of Whitby.

From Brooklin the line will parallel the road allowance as far south as the C.P.R. in the town of Whitby, where it will be diverted to Henry street, and thence to the lake front. The estimated cost of this railway is $3,159,234. The Act of 1916, amending the Hydro-Electric Railway Act, forbade construction during the war, and consequently construction has not yet been started.

Toronto-Eastern Line

The Toronto-Eastern line will be 43½ miles long, and the estimated cost is $8,360,734, which includes the construction and equipment of a railway from the proposed Toronto terminal to connect with the Toronto-Eastern right-of-way in Scarboro' township, the extension of construction along that right-of-way to the end of grading near Pickering, and the completing and repairing of the remainder of the line from Pickering to Whitby, Oshawa and Bowmanville.

When the by-laws were passed authorizing the construction of the Toronto-Northeastern railway, the municipalities asked the "Hydro" to endeavor to purchase the Toronto-Eastern from the Mackenzie-Mann interests, but at that time, this could not be effected. The Toronto-Eastern was taken over by the Dominion Government last spring, and the municipalities again asked that the line be acquired. Hon. Dr. Reid, on behalf of the Dominion government, offered that portion of the Toronto-Bowmanville line which had been already constructed, at cost price. Nine of the ten municipalities have voted by large majorities in favor of obtaining control of this line. York township has not yet voted, but will do so next Saturday, January 17th.

The intention of the "Hydro" is to give service this summer over the Toronto-Eastern where it has been constructed. The line must be repaired before this service can be started. It is expected that before the end of this year the whole line will be completed into Toronto as far as Danforth avenue. It will then be extended over the harbor board's property to the centre of the city, and will also provide an entrance for the Markham and Port Perry line.

From the proposed Toronto terminal to be located near the foot of Yonge street, the Toronto-London line will run westerly to Sunnyside, thence to the Humber river paralleling the G.T.R., as at present constructed, as far as Port Credit. From Port Credit the line will run north of Sheridan to Milton. Crossing the C.P.R. west of Milton, the location lies in the general direction of the Eramosa river to Guelph, then westerly to Kitchener, Baden, Stratford and St. Mary's, southwesterly through St. Mary's, Biddulph township, and London township to London. It will cross the Thames river in London to a point on Bathurst street, then easterly along Bathurst street to connect with the London and Port Stanley railway.

Five townships, responsible for only a small portion of the necessary financial guarantee, have not yet submitted the scheme to their ratepayers; three other townships, namely, North Easthope, Waterloo and East Zorra, voted against the by-laws. No construction work on this line will be started until it is known what is to become of the Grand Trunk Ry. Six of the municipalities located between Toronto and Port Credit have passed resolutions agreeing to guarantee 10% more than their share in order to make up for those municipalities that have voted adversely, and have requested that their section be added to the Port Credit-St. Catharines line, which is to be commenced at once so as to give service as soon as possible from Toronto to St. Catharines without awaiting the construction of the whole Toronto-London line. The length of the Toronto-London line is 137 miles, and the estimated cost is $13,734,155.

Toronto-St. Catharines Line

The by-laws authorizing the Toronto-St. Catharines line have been submitted to 16 municipalities,—all that are interested excepting the township of West Flamboro, which has not yet voted on the question. In Hamilton, Nelson and Saltfleet townships the by-laws at first failed to pass, but in March, 1919, a re-vote was taken, resulting in the by-law being carried in Hamilton and Nelson townships, but not in the township of Saltfleet. Fifteen municipalities have agreed to an extra 10% guarantee, or as much of it as necessary to make up for Saltfleet's portion, and debentures are now being issued and final surveys prepared, so as to start construction in the spring.

From a point on the projected Toronto-London line, approximately one mile west of the village of Port Credit, it is proposed to parallel the G.T.R. to Clarkson's, thence to Oakville, and after crossing the Bronte creek to parallel the present Hamilton radial railway to Burlington. Passing through Hamilton, the railway will run near Stony creek, and near Fruitland to Winona and Grimsby, and easterly to Beamsville and Jordan, entering St. Catharines near Victoria and Permilla streets, thence along Permilla street to the west end of the new bridge over the old Welland canal.

The estimated cost of this 60 miles of railway between Port Credit and St. Catharines is $11,360,363. The six municipalities between Toronto and Port Credit which desire to add their financial support to the Toronto-St. Catharines project, are Toronto, Mimico, New Toronto, Port Credit, Etobicoke township and Toronto township. In order to effect a considerable saving and prevent further "cutting-up" of the streets, the city of Hamilton has expressed a desire that the "Hydro" should use the Grand Trunk tracks for its entrance to that city, and the proposed union radial railway terminal.

Hamilton, Elmira and Guelph

The "Hydro" proposes to build a new line from Hamilton, through Dundas, to Galt, connecting at Galt with two Grand Trunk branch lines, one running from Galt through Kitchener to Elmira, and the other from Galt to Guelph. It is also proposed to acquire the Guelph street railway. The total length of track, including spur lines, street railway, etc., is approximately 78 miles, and the total cost is estimated at $6,530,659. In this line 17 municipalities are interested. Three, the town of Hespeler, Puslinch township and Guelph township, have not yet submitted by-laws, but intend to do so in the immediate future. Of the 14 which have voted on the question, including the cities of Hamilton, Kitchener, Galt and Guelph, all carried it by large majorities

with the exception of West Flamboro, which may either re-vote or have its guarantee absorbed by the other municipalities.

Welland-Bridgeburg Line

The proposed Welland-Bridgeburg line will extend from East Main street, Welland, along the east bank of the Welland canal, through Humberstone and Port Colborne. From Port Colborne eastward, the railway will run south of Sherkston, north of Crystal Beach, east of Ridgeway and past Crescent Beach and Erie Beach to Fort Erie, thence northward to Central avenue, Bridgeburg. The length of this proposed line is 28 miles and the estimated cost $2,208,716.

Eight municipalities carried the necessary by-laws in January, 1917, but owing to unnecessary paralleling which would otherwise be caused, no work can be undertaken until the route of the Niagara-St. Catharines line and the disposal of the G.T.R. have been decided.

Sandwich, Windsor and Amherstburg

For three years the municipalities of Sandwich, Windsor and Amherstburg have been trying to persuade the "Hydro" to take over the operation of the Sandwich, Windsor and Amherstburg Railway, but the Detroit United Railway, who were the owners, were not prepared to sell. An attempt was made to effect a deal, but the price asked by the D.U.R. was considered too great. Later negotiations were renewed and the company decided to accept $2,039,000 in 40-year 4½% "Hydro" bonds.

Eight municipalities obtained a large majority in favor of this deal. Anderton township opposed the by-law, but the others have agreed to absorb the guarantee and the "Hydro" is now taking over and will operate the railway.

The "Hydro" has estimated the value of the lighting and power system belonging to the railway as $190,000, and that amount will be charged against the Windsor hydroelectric system and the power placed at its disposal. It is anticipated that $250,000 will soon be spent on improvements to this railway.

Other "Hydro" Railway Activities

Among other radial railway activities of the Hydro-Electric Power Commission of Ontario have been the electrification of the London and Port Stanley railway, the operation of the Peterboro street railway, and the Niagara construction railway. The last mentioned railway is one of the busiest lines on this continent. It consists of nearly 45 miles of tracks, 28 locomotives and 200 large dump cars.

The total mileage of the London and Port Stanley railway is now 44.5 miles, and the cost of rehabilitation, electrification, equipment, new buildings, park improvements, etc., up to June 30, 1919, totalled $1,234,866. This amount was provided through advances of $1,131,000 guaranteed by city debentures, and the reinvestment in the property of $103,866 from the surplus earnings of the railway.

The Peterboro street railway was acquired along with the central Ontario power system. The "Hydro" recently made minor extensions to its trackage.

FIRE COMPANIES MAKE GOOD SHOWING

The Century Insurance Co., Ltd., of Edinburgh, Scotland, closed the year with a successful record, writing approximately $200,000 in premiums in Canada, with a gross loss ratio of 34 per cent. The company operates in all provinces from Quebec to the Pacific Coast, the manager for Canada being T. W. Greer, of Vancouver.

The Pacific Coast Fire Insurance Company, Vancouver, of which Mr. Greer is managing director, wrote net premiums of $45,000 during the twelve months just ended. The net loss ratio incurred was 45 per cent. At a meeting of the board of directors held on January 14th, a dividend of 6 per cent. was declared, the company having earned 11 per cent. net on the paid-up capital. This is the first dividend paid since 1914, the surplus profits during the interval having been used to build up a reserve.

SASKATCHEWAN SUPPLEMENTARY ESTIMATES

On January 16th the Saskatchewan Assembly discussed supplementary estimates for the fiscal year ended April 30th, 1920, and passed some of the items. These estimates total $2,662,645, of which $1,137,465 represents expenditure from revenue account, $1,500,000 expenditure from capital account, and $25,000 under the Agricultural Aids Act.

CONSIDERING $1,000,000 STOCK ISSUE

The application of the Maritime Telephone Co. to issue preferred stock to the amount of $1,000,000 is being considered by the Board of Public Utilities. The money is intended for the 1920 budget of the company, which will cover extensive improvements and additions to the service throughout Nova Scotia. One of the important changes in the Halifax system will be the installation of the automatic telephones in the North End. The company has already in process of construction a modern exchange building at the corner of North and Agricola Streets.

HAMILTON LIFE UNDERWRITERS' ANNUAL

The annual meeting of the Life Assurance Underwriters' Association, of Hamilton, was held recently at Hamilton, Ont. The following officers were elected for the ensuing year: President, A. G. Bradley, Metropolitan Life; vice-president, W. J. Fairley, Dominion Life; secretary, Leo Goodrow, Dominion Life; treasurer, T. E. Holmes, London and Lancashire; auditors, J. Stewart, Prudential, and G. Dawson, Mutual Life of Canada; executive, R. C. Ripley, Sun Life; George Nixon, Canada Life, and N. N. Montray, London Life.

It was decided to inaugurate a new campaign drive for new members. George Nixon, of the Canada Life, and D. A. Mansell, of the Metropolitan Life, were appointed captains.

BRITISH COLUMBIA WORKMEN'S COMPENSATION REPORT

A report of the British Columbia Workmen's Compensation Board made public recently, shows that during the year 1919, 18,185 accidents from various causes were reported by the different industries in the province coming under the jurisdiction of the board, and that of that number 277 were fatal. The loss of life that actually occurred during the year from industrial accidents, however, was only 184, of the total reported there being 93 fatalities that happened during the preceding year, 48 of them being from the Sophia disaster.

During the year 20,766 cheques for payment of compensation to disabled workmen or their dependents were issued by the board, the total amount paid out during the year for partial disability, or permanent disability, or for reserve for dependents of deceased workmen being $1,403,077. For the three years that the board has been in operation the total paid out to workmen for partial disability, permanent disability, or set aside for pensions to widows and dependents of injured workmen was $3,233,009, while the total loss of life through industrial accidents during that time was 734.

Of the total of 277 fatal accidents reported to the board during the year, 137 happened in four disasters, being the sinking of the Sophia, the Crow's Nest disaster at Fernie, the Western Fuel disaster, and the overturning of a boat at Lumby Bay. Despite the steady increasing scope of the board's activities, including the introduction of several accident prevention features, increasing costs, etc., the total cost of administration during the year was slightly lower than for the preceding year. For the year 1918 the cost of administering the funds entrusted to its care was 4.837 per cent., while for 1919 it was 4.781 per cent.

Within Seven Years

the business of this Corporation has doubled in volume. Our constant aim is to furnish a trust company service second to none. Estates which come into our care are managed by officers of wide experience in every department of estate management.

Beneficiaries who have dealings with us are assured of courteous treatment and prompt dispatch of their business.

YIELD AND VALUE OF 1919 CROPS

More Acreage Sown, But Average Yield Was Less—Values Also Show Slight Decreases

THE Dominion Bureau of Statistics issued a few days ago the final estimate of the yield and value of the principal field crops of Canada for the season of 1919 as compared with 1918. Following the plan inaugurated last year of close co-operation with the provinces, the reports of both the Dominion and provincial governments on the yield of crops will be identical.

Yield of Field Crops

The total yield of wheat for all Canada in 1919 was returned as 193,260,400 bushels from 19,125,968 sown acres, an average yield of better than 10 bushels per acre. In 1918 the corresponding figures were 189,075,350 bushels from 17,353,902 acres a yield per acre of 11 bushels. The yield of oats in 1919 was 394,387,000 bushels from 14,952,114 acres, an average of 26.25 bushels as compared with 426,312,500 bushels from 14,790,336 acres, an average of 28.75 bushels per acre. Barley gave a return in 1919 of 56,389,400 bushels from 2,645,509 acres, an average per acre of 21¼ bushels as compared with 77,287,240 bushels from 3,153,711 acres in 1918, an average of 24½ bushels per acre.

Of the remaining crops the total yields in 1919 were in bushels as follows (the figures in 1918 being given within brackets): Rye, 10,207,400 (8,504,400); peas, 3,406,300 (4,313,400); beans, 1,388,600 (3,563,380); buckwheat, 10,550,800 (11,375,500); mixed grains, 27,851,700 (35,662,300); flax, 5,472,800 (6,055,200); corn for husking, 16,940,500 (14,205,200); potatoes, 125,574,900 (104,346,200); turnips, mangolds, carrots, etc., 112,288,600 (122,699,600). In 1919 there was produced 16,348,000 tons of hay and clover as compared with 14,772,300 tons in 1918. Fodder corn gave a yield of 4,942,760 tons in 1919 as against 4,787,500 tons in the previous year. The yield of sugar beets increased from 180,000 tons in 1918 to 240,000 tons. The area devoted to the growing of alfalfa has increased from 196,428 acres in 1918 to 226,869 acres in 1919 and the yield from 446,400 tons to 494,200 tons. The average yields per acre of these crops in 1919 (with 1918 averages in brackets), were in bushels, as follows: Rye, 13½ (15¼); peas, 14¾ (13¼); beans, 16½ (15½); buckwheat, 23½ (20¾); mixed grains, 31 (38¾); flax, 5 (5¾); corn for husking, 64 (56¾); potatoes, 153½ (142); turnips, 354 (377½). Hay in 1919 gave an average yield in tons of 1.55, fodder corn of 9.75, sugar beets of 9.80 and alfalfa of 2.20 tons as compared with 1.40 ton for hay, 9.50 for fodder corn, 10 for sugar beets and 2.25 tons for alfalfa in 1918.

Wheat, Oats and Barley in Prairie Provinces

The total yields in 1919 were: Wheat 165,544,300 bushels from 17,750,167 acres, as compared with 164,436,100 bushels from 16,125,451 acres in 1918, and 211,953,100 bushels from 13,619,410 acres in 1917; oats in 1919 gave a yield of 235,580,000 bushels as compared with 222,049,500 bushels last year and 254,877,200 bushels in 1917; barley 36,682,400 bushels in 1919, as against 47,607,400 bushels in 1918 and 40,384,100 bushels in 1917; and flax 5,232,300 bushels as compared with 5,776,000 in 1918 and 5,835,900 in 1917.

Values of Field Crops

The average values per bushel of grain crops, at point of production, for Canada in 1919, according to the prices returned by crop correspondents, were as follows: Fall wheat $1.97 as against $2.08 in the two previous years; spring wheat $1.86 as against $2.02 in 1918 and $1.93 per bushel in 1917; all wheat $1.87, as compared with $2.02 in 1918 and $1.94 in 1917; oats 80 cents in 1919, 78 cents in 1918 and 69 cents in 1917; barley $1.37 as compared with $1 and $1.08 in 1918 and 1917; rye $1.40 as compared with $1.49 in 1918 and $1.62 in 1917; peas $2.86, as compared with $3 in 1918 and $3.54 in 1917; beans $4.48, as compared with $5.41 and $7.45 respectively in 1918 and 1917; buckwheat $1.50, as compared with $1.58 in 1918 and $1.46 in 1917; flax $4.13, as against $3.13 in 1918 and $2.65 in 1917; and corn for husking $1.30, as against $1.75 and $1.84 in 1918 and 1917 respectively. The price per bushel of potatoes in 1919 as returned on October 31 was 95 cents, as against 98 cents in 1918 and $1.01 in 1917; turnips, etc., are placed at 50 cents per bushel as compared with 43 cents in 1918 and 46 cents in 1917. Hay and clover is valued at $20.72 per ton this year as against $16.25 per ton in 1918 and $10.33 in 1917; fodder corn is priced at $6.92 in 1919 as compared with $6.15 in 1918 and $5.14 in 1917; sugar beets $10.86 per ton as compared with $10.25 in 1918 and $6.75 in 1917. The price of alfalfa in 1919 per ton is $21.85 as compared with $17.84 in 1918 and $11.59 in 1917.

Aggregate Values

The total values on farms in 1919 of the principal field crops are estimated as follows, the corresponding values for 1918 are given in brackets: Wheat, $360,573,000 ($381,677,700); oats, $317,097,000 ($331,357,400); barley, $77,462,700 ($77,378,670); rye, $14,240,000 ($12,728,600); peas, $9,739,300 ($12,899,100); beans, $6,214,800 ($19,283,900); buckwheat, $15,831,000 ($18,018,100); mixed grains, $37,775,400 ($40,726,500); flax, $22,609,500 ($18,951,000); corn for husking, $22,080,000 ($24,902,800); potatoes, $118,894,200 ($102,235,300); turnips, etc., $54,958,700 ($52,252,000); hay and clover, $338,713,200 ($241,277,300); fodder corn, $34,179,500 ($29,439,100); sugar beets, $2,606,000 ($1,845,000); alfalfa, $10,800,200 ($7,963,500).

The aggregate value of all field crops in 1919 was $1,448,153,500, as compared with a total value of $1,372,935,970 in 1918 and of $1.144,636,450 in 1917. Both the acreage under crops and the value of crops produced is the highest on record. The aggregate value of all field crops exceeds that of 1918 by $75,217,530, or 5 per cent., and that of 1917 by $303,517,050, or 21 per cent.

REVILLON FUR STOCK ISSUE

An issue of $2,000,000 8 per cent. cumulative sinking fund preferred stock of Revillon, Incorporated, is being offered by Messrs. Kidder, Peabody and Co., Boston and New York, at a price of 102½ and accrued dividends, to yield about 7.80 per cent.

Revillon, Inc., is a new corporation to take over the American and Canadian interests of Revillon Freres, Paris, who will own the common stock. Revillon Freres, of Paris, have been engaged in the fur business for 197 years. Revillon, Inc., will own the entire outstanding capital stock of Revillon Freres, New York, and Revillon Freres Trading Co., Ltd., Montreal, and the latter company owns all but 350 shares out of a total of 10,000 of the stock of Revillon Wholesale, Ltd., Edmonton.

FARM PRODUCTION INCREASED LAST YEAR

In a summary of production for 1919, the Manitoba Free Press gives the following comparative figures:—

	1919.	1918.	1917.	1916.	1915.
Wheat	$167,645,889	$200,906,151	$238,409.160	$161,389,955	$177,562,688

CANADIAN PACIFIC PROGRAM FOR 1920

Double-Tracking, Sidings, Stations and Other Construction Planned—Record Traffic Expected if Crops are Good

EXECUTIVE officers of the Canadian Pacific Railway met in Montreal recently to decide upon the construction program for the year. In passing through Fort William on his return to the west, D. C. Coleman, western vice-president, gave, in a newspaper interview, an intimation of what this program would be.

The work of double-tracking those portions of the line where traffic is especially dense will be resumed. It is proposed this year to double-track the Molson cut-off from Winnipeg to Molson, Man., and to provide for the handling of all through freight and passenger traffic by that route.

At Fort William work will be started on another unit of the coal-handling plant on Island No. 1, which even now is considered the finest on the Great Lakes. The new unit, which will take the best part of two years to build, will practically double the storage capacity which can be served by the plant. The engine-house capacity at Fort William will also be increased, and additional yard facilities will be provided there and at Port Arthur.

At Winnipeg, block asphalt platforms will be laid to serve the station tracks. A new plant will be put in to provide for the more rapid cleaning and disinfecting of passenger coaches, the freight car shop at Weston will be extended, and provision has been made for many improvements in the other facilities at Weston.

Saskatchewan

At Regina the engine-house will be extended, a new coaling plant will be erected. A further extension to the station will be erected to provide for the constantly increasing express and mail traffic, and a rearrangement to the main building will be made to provide more waiting-room and ticket office accommodation. At Regina Beach additional trackage will be provided to accommodate excursion traffic.

At Weyburn a new building will be erected for the use of the Dominion Express Co., and the engine-house will be extended. At Saskatoon the freight shed facilities will be improved. An electric staff system will be installed in the joint section to Harwood, and at Sutherland the car shop will be completed and the engine-house facilities improved. At Moose Jaw the new station and office building will be proceeded with. The platforms will be reached through a subway from the station, and the layout will be of the most modern type. A central steam heating plant will also be built and the engine-house extended. At Yorkton the trackage facilities will be greatly increased and a new freight shed of much increased capacity will be built. Extensions will also be made to the engine-houses at Wynyard, Sask., and Hardisty, Alta.

Alberta

At Medicine Hat the station facilities will be improved, the engine-house facilities increased and an increase in trackage in the freight yard is in contemplation. At Calgary a new building for the Dominion Express Co. will be erected east of the present Y.M.C.A. building, the capacity of Alyth freight terminal will be greatly increased by additional trackage,. and the ice houses facilities will be extended. At Edmonton there will be a rearrangement of the trackage at the station with a view to increased capacity, and a substantial extension will be made to the freight shed. At Lethbridge and at McLeod also there will be a considerable expenditure for improvement of present facilities.

British Columbia

At Cranbrook, B.C., the engine-house, the machine shops and the ice house will be replaced by new structures. At Revelstoke the engine-house facilities will be improved to handle the constantly increasing fruit traffic. On Okanagan Lake an additional tug and an additional car barge will be provided, and a new tug will also be placed in commission on the Arrow Lakes. At Vancouver work on the new ocean pier will be pressed vigorously, and there will be other improvements undertaken to provide for the handling of the growing traffic of that great port. At Victoria, in connection with our coast steamship service, it is the intention to add to the appearance of the inner harbor by erecting a fine office and terminal building.

New Stations

In addition to the buildings already enumerated, stations will be built at Ludiatt, Harrowby and Schritzer, in Manitoba; at Willows, Corrinne, Insinger, Dafoe and Rutland, in Saskatchewan, and at Metiskow, Cardston and Lochearn, in Alberta.

The increased volume of live stock traffic will be recognized by the construction of twenty-nine additional stock yards.

The housing of employees at isolated points will continue to engage attention, and this year twenty-one additional houses for section foremen and a large number of additional bunk houses for temporary section laborers will be provided.

The building of branch lines to promote settlement and to serve farming districts now without transportation facilities will proceed rapidly, but a defiinte announcement is deferred until the prospects as to labor supply can be gauged a little more accurately.

COBALT ORE SHIPMENTS

The following were the shipments of ore, in pounds, from Cobalt Station for the week ended January 24th:—

Temiskaming Mines, 81,095; Northern Customs, 87,910; Crown Reserve, 39,944; La Rose Mine, 144,186. Total, 353,135. The total since January 1st is 1,310,698 pounds, or 655.349 tons.

INSURANCE COMPANIES TO EXTEND SCOPE

Several insurance companies at the next session of the Dominion legislature will ask for extension of their present powers and other charter amendments. The Western Assurance Co., Toronto, will ask amendments to its charter to extend the scope of the company's business to do all classes and kinds of insurance except life, and to permit the compay to open and maintain a share register or share registers outside of Canada.

The British America Assurance Co., Toronto, will ask amendments to its charter, extending the scope of the company's business and empowering the company to do all classes and kinds of insurance, excepting life, varying the authorized investment, and empowering the company to open a share register in England.

The Pacific Coast Fire Insurance Co. will ask that in addition to its present powers, it may also be enabled to make contracts with regard to the following classes of insurance: Accident, automobile, aircraft, bond, burglary, credit, cyclone or tornado, explosion, flood, guarantee, hail, inland transportation, inland marine, marine, plate glass, sickness, sprinkler leakage, steam boiler, transportation, and weather insurances, and to carry on throughout Canada and elsewhere, business of the above classes of insurance in all their branches and forms.

The Pacific Marine Insurance Co. will ask for an amendment to its charter so that it may in Canada and elsewhere effect contracts of fire insurance, inland transportation insurance, and automobile insurance.

Several others will also ask incorporation. The Armour Life Assurance Co., Edmonton, will ask incorporation.

An act incorporating the Scottish Canadian Assurance Corporation for the purpose of transacting the business of fire, accident, sickness, automobile, burglary and hail insurance will be asked for. Also the incorporation of the Canadian American Fire Insurance Co.

FORTY-EIGHTH FINANCIAL REPORT OF THE

CONFEDERATION LIFE ASSOCIATION

FOR THE YEAR ENDING DECEMBER 31st, 1919

Submitted at the Annual Meeting, Held at the Head Office, Toronto, January 27th, 1920

LETTER TO THE EDITOR

A DEFENCE OF COMMISSION GOVERNMENT

Sir,—I have read with interest the article entitled "The Municipal Manager," by Mr. Angus Lyell. I am sorry I am forced to the conclusion that he has taken up a subject for discussion that he does not seem to be as familiar with, as one should be who undertakes a hand in forming public opinion on municipal government. This is especially true when we pause to think that municipalities are the cradles of political and personal liberties. Municipalities come nearer to being "a government of the people, by the people and for the people," than any other government in existence to-day.

I am writing as one, who, for thirty years before I took any part in municipal politics, excepting to vote, was superintendent, engineer and manager for some of the largest corporations on the continent of America, and who has been mayor of the city of Lethbridge under two forms of civic government—councilmanic and straight commission—continuously from and including 1913 to the present moment. The above statement of service will surely give some weight to what I am about to say.

Evidently Mr. Lyell and myself are in agreement that councilmanic government is obsolete and needs no further support or condemnation.

Whether any form of civic government is good or bad or mediocre is primarily with the people, who are entitled to what they want, but finally is with the men elected to fill city government offices. The whole is centred in the expression "an honest conception of responsibility," or that "a public office is a public trust," but since a city is made up of all degrees of intelligence, morality and opinions in its people, the attainment of the proper medium is difficult and the highest ideal is not possible just yet. The last can only be strived after, and should be strenuously. This in my judgment can only be accomplished by improving the form of civic government.

Many Varieties of Civic Administration

Mr. Lyell seems to regard the evolution of civic government since the Galveston, Texas, disaster, in a light way and jump evidently at the conclusion that the Dayton commission-manager form is the do-all and cure-all system of civic government. But the mere fact, that in the two hundred cities using this form of government there are at least eight modifications of the Dayton form, must give us pause; it must cause us to think that there is lack of even an approach towards perfection.

On the other hand there are over six hundred cities using the straight commission form (which prevails in Lethbridge at the present time) and my close observations show me but few reversions and very few changes either way. That is marvellous to be true, and true it is.

There are hybrid forms of commission government which, in my judgment, is a divided responsibility that has been used as a stepping stone to get by the prejudices against radical changes so characteristic of Britishers and at the same time make progress to a better form. In making this statement, I am, I know, throwing myself open to the rebuke of those who stand for this form of civic government, but to them I say I am only desirous of making a distinct clear cut, showing as between the straight commission government and the commission manager form. I do not wish in any way to deride those people's opinions.

Whatever sentiment or agitation there may be in Lethbridge to-day for a change to the commission manager form of civic government was originated by myself in my 1917 report to the burgesses. In that report I said:—

"While I do not want to put myself on record as advocating a change in the present form of civic government, I do want to point out some of its weaknesses and suggest what might be an improvement. The greatest weakness, but not the only one I have found in the present charter, is that in one passage it says the mayor is the chief executive officer, but he has in reality no legal control over the other commissioners, while he is held by the people to be responsible for the operation of the complete city management. I have no reason to complain personally, because, with very few exceptions, the mayor's advice or suggestions have been received by his co-commissioners in the same spirit as if he had the legal power to enforce them. At the same time if the responsibility had been legally placed upon me my suggestions might have been more numerous and more insistent. The straight commission form, with a 15 per cent. recall petition, is too close to the people and gives a very small fraction, in a small city, an undue influence in critical times. On this account in order to accomplish what a commissioner or the commissioners know to be in the very best interests of the city, politics sometimes have to be played. It is not natural that any man holding public office will deliberately run his head into the noose when by delay and manœuvring he can accomplish the object. The delay caused by this, however, has not been but might be dangerous and the moral influence is bad, very bad."

Authority Should be Increased

The above clearly shows that I am pleading for more power for the head of the house, or in other words, I think the mayor in the straight commission form of civic government in Lethbridge should practically have the powers of a managing director, and be held responsible for these powers, and with a carefully drawn charter it is difficult to see where there could be much improvement gained from present light and experience in municipal affairs in civic government.

By a carefully drawn charter, I mean one that has considered carefully all the phases of civic government, including a reasonable tenure of office, not less than three years, and five years would be better, with recall petition percentage that would not, and could not be used as a by-stick. The recall should require at least 30 per cent. and better 50 per cent. of the vote cast at the last just passed election.

Mr. Lyell says commission plan is not satisfactory, and points to Calgary as his proof. In that statement he is not justified. His whole object seems to be aimed to discredit Calgary's government. At the present moment I do not know of a single city that is getting more to the front and getting over difficulties faster than that same city, that too under a hybrid civic government, half council and half commission. But I think Calgary's government is misnamed. It is really a "council-control" system, in which the controllers—the mayor and two controllers—are called commissioners. Its government is practically the same as Toronto's. There are differences in detail but none in principle.

Mr. Lyell talks of an expert manager at $12,000 per. I do not object to that, but what constitutes the experts, and where are we going to get them? The majority of so-called experts are not worth hall room, and home-grown products, judicially selected, are worth a carload of the imported experts. In forty years I have run into many so-called experts, but generally found that their abilities as to experts ran to foolishly spending other peoples money. Good sound business methods do not necessarily mean experts, but they do mean experience and knowledge of the job on hand. Who that know the three Calgary commissioners and their jobs will say they do not know their jobs?

Men will never be all of the same opinion, and there will, on this account, always be changes, and the city manager may be the "last word" in civic government at the present time, but Mr. Lyell has not proven his case by suggesting the expert. The story of the expert is too old. Good, hard, business sense is what is needed, of which there is always lots at home; it only needs opportunity. To get this installed properly, a buffer may be desirable between it and the people in the management of the peoples own affairs carefully.

W. D. L. HARDIE, Mayor.

Lethbridge, Alta., January 21st.

PRODUCTION OF CANADIAN FISHERIES

Value for 1918 Was $32,741,998—British Columbia is Biggest Producer—Fewer Canneries Than in 1917

A PRELIMINARY report on the fisheries of Canada for the year 1918 has just been issued by the Dominion Bureau of Statistics. The total value of the catch of the sea fisheries of Canada in 1918 to fishermen at the point of landing was $32,741,998 as compared with $29,373,022* in 1917. The quantity and value of the principal commercial fishes landed in 1918 were as follows:—

	Cwt.	
Salmon	1,529,925	$ 9,378,018
Cod	2,206,666	7,867,670
Halibut	207,139	3,131,651
Herring	1,764,223	2,295,611
Lobsters	264,096	2,123,406
Haddock	554,366	1,851,137
Sardines	295,770	1,479,050
Mackerel	196,779	1,354,400

By provinces British Columbia leads with a catch valued at $13,632,828, followed by Nova Scotia with $10,759,974, New Brunswick with $4,241,773, Quebec with $3,285,182, and Prince Edward Island with $822,241.

Fish and Fish Products Marketed

The total value of the fish marketed fresh and prepared for all Canada was $61,363,502, as compared with $52,312,044 in 1917. Of the total value of fish marketed in 1918, the inland fisheries of the provinces of New Brunswick, Quebec, Ontario, the prairie provinces and the Yukon, contributed $6,000,000.

The quantities and values of fish marketed fresh, by principal varieties were:—

SEA FISHERIES

	Cwt.	
Halibut	203,379	$ 6,448,544
Salmon	291,896	3,571,865
Lobsters	59,251	1,273,247
Cod	202,235	1,207,758
Smelts	94,158	1,046,153
Mackerel	106,804	959,302
Haddock	191,596	950,845
Herring	181,576	508,937
Sardines (bbls.)	218,515	1,092,525

INLAND FISHERIES

	Cwt.	
Whitefish	199,623	$ 1,884,728
Herring	201,813	993,293
Trout	72,186	716,882

Canned Fish Products

Canned fish products which totalled 2,107,462 cases, valued at $18,683,759 comprised:—

	Cases.	
Salmon	1,633,849	$14,067,249
Lobsters	107,812	2,244,690
Sardines	177,193	1,227,988
Herring	73,060	421,399
Pilchards	63,693	336,225
Haddock	28,360	227,107
Clams and quahaugs	16,809	101,990
Miscellaneous	6,686	57,111

The principal varieties of fish marketed green-salted, dried, smoked, boneless and pickled, by values were:—

SEA FISHERIES

Cod	$ 8,868,909
Haddock	1,618,219
Herring	2,731,471
Mackerel	960,181
Hake and cusk	791,594
Pollock	544,444

Among the miscellaneous products were 1,317,445 gallons of whale oil valued at $1,175,437, and 457,870 gallons of fish oil valued at $457,483.

The values of fish and fish products marketed by provinces are as follows:—

SEA FISHERIES

British Columbia	$ 28,329,501
Nova Scotia	15,183,949
New Brunswick	6,305,168
Quebec	4,395,756
Prince Edward Island	1,148,201
Total sea fisheries	$ 55,362,575

INLAND FISHERIES

Ontario	$ 3,175,104
Manitoba	1,820,157
Saskatchewan	447,012
Alberta	318,913
Quebec	173,193
Yukon	37,820
New Brunswick	28,728
Total inland fisheries	$ 6,000,927
Total for Dominion	$ 61,363,502

The report shows that 939 factories were in operation in 1918 as compared with 982 in 1917, classified as follows:—

	1918. No.	1917. No.
Lobster canneries	534	610
Salmon canneries	81	89
Salmon canneries	81	89
Clam and other fish canneries	14	12
Whale oil factories	4	1
Fish oil factory	1	...
Fish curing establishments	302	268

NEW STOCK ISSUE OF IMPERIAL OIL

It is stated that 200,000 shares of the unissued capital stock of the Imperial Oil, Ltd., will be offered at $75 per share in the proportion of one new share for every six shares held.

By this plan the issued capital of Imperial Oil will be increased from $30,000,000 to $35,000,000. Through counting the premium the shareholders or other investors will put into the business no less than $15,000,000. The price of $75 per share represents the largest premium at which Imperial Oil stock has ever been issued to shareholders. Including this financing, the shareholders of the company will have since the beginning of 1916 invested in the business in the form of subscriptions to new stock issued at various premiums an amount of $23,000,600. At the present dividend rate the return on the stock will be 4 per cent. per annum.

The books of the company will be closed in January from the 20th to the close of business on February 7th. Holders of share warrants are asked to deposit their warrants at the offices of the company in Toronto or at the National City Bank, New York, before February 7th.

---

*It should be noted, however, that British Columbia fish landed by United States fishing vessels are included with the 1918 total, and not with the figure for 1917. In 1917 halibut to the value of $1,604,081, cod $18,053, and salmon $2,576 were landed by United States vessels and should be added to the total value for 1917 for purposes of comparison with 1918.

Seventy Per Cent. Increase in Surplus to Policyholders

HALIFAX FIRE RATES INCREASED

Underwriters Point Out Proportion of Wooden Buildings, Fire Alarms Out of Order and Water Supply Inadequate

OWING to the unsatisfactory conditions affecting water supply, wiring and buildings, fire insurance rates in Halifax have been advanced approximately 25 per cent. The decision to take this step was taken by the Nova Scotia Board of Fire Underwriters, and the increase is now in force, and affects all mercantile and business establishments. In explaining this increase in rates the board stated that recommendations of the National Board of Underwriters in 1915 have not been carried out by the civic authorities. The per capita loss in Halifax during 1919 was ten dollars a head, as against three dollars per capita in Canada, and the amount paid out in insurance losses during the year was $800,000, a sum greater than during the year of the explosion. So far this year insurance losses have amounted to $150,000, a rate of $1,000 a day.

Wooden Structures Chief Hazard

In a statement handed out by the Board of Underwriters they say that it is a recognized fact among all experts that the city of Halifax is subject to a very serious conflagration. Halifax is one of the last large wooden cities in existence that has not as yet had a huge fire. This may occur at any moment and would undoubtedly wipe out millions of dollars worth of property in addition to a possible loss of life. In December, 1916, the Board of Underwriters brought to the city at considerable expense experienced engineers of the National Board. They inspected the city, including its water, fire-fighting facilities, electrical hazards, etc. Their report was filed with the city and disclosed a most unsatisfactory condition.

Fire Alarms Out of Order

The Board of Underwriters' statement continues:—

"It is not generally known to the citizens that the fire alarm system of Halifax has been out of order since November of last year. The National Board of Fire Underwriters drew attention to this in their report, and recommended that the alarm headquarters be removed from the city hall to a fireproof building. Nothing has yet been done, while recent events have proved the wisdom of the recommendation being immediately carried out. The antiquated electric wiring throughout the city is undoubtedly the cause of a large number of fires, and is something that should receive attention. An inspection of every electrical installation should be insisted on. Moreover, the continuous and regular system of inspection of premises, and especially the cellars, now being made under the fire department, must be rigorously carried out and the various recommendations carried out.

Losses Ten Dollars Per Capita

"The insurance companies have been severe losers in Halifax during the last three or four years. They paid out in losses, due to the explosion, an amount of over $600,000; in 1917 the city's regular fire losses amounted to $800,000; in 1918, $300,000, and in 1919 to $800,000. The year 1920 also began disastrously with losses amounting to well over $150,000 for the first fifteen days. This is a very serious condition for the city. The fire losses per capita for the whole Dominion in 1919 were approximately $3, while for Halifax this average $10. The city of Toronto, with a population of 500,000, had a fire loss of $2 per head, a fact which reveals a very unfavorable record for Halifax compared with the other large cities of the Dominion and with the entire ratio for the whole of Canada.

"Fire insurance companies are among the last of corporations to raise their rates. In addition to the fire losses in Halifax the cost of carrying on business has increased. Replacement values have increased greatly, although increased insurance has not been affected proportionally. Dominion, provincial and civic taxes have been increased, and at the present time there are between five and six per cent. on premiums in this province, not on profits, and are now more than double what they were before the war. Since fire insurance rates have gone up everywhere, Halifax with its conflagration hazard and defective conditions, must have insurance rates advanced also. Whether this is to be a permanent charge to the people will depend on what is done to remedy present conditions.

"The board have decided to rerate this city under a schedule at present being applied very largely throughout Canada. Concerted action must be taken to remedy the existing conditions and bring about a satisfactory solution, especially as regards the water system."

RAISE RATES TO OTHER BROKERS

At a meeting of the Montreal Stock Exchange on January 19th it was decided to charge brokers outside of Montreal the full commission of ¼ of one per cent. on business transacted on the Montreal exchange, instead of ⅛ as has been the practice.

ANNUAL MEETING OF CORNWALL BOARD OF TRADE

The annual meeting of the Cornwall Board of Trade was held at Cornwall, Ont., last week. The following officers were elected: President, E. O'Callaghan; vice-president, Harold A. Smith; secretary, A. G. Robertson; treasurer, J. C. Alguire; auditors, J. E. Snetsinger and R. J. Roth.

SWIFT CURRENT BOARD OF TRADE

At the annual meeting of the Swift Current, Sask., Board of Trade, held on January 13, J. Wood was returned as president by acclamation for the third successive term. A. S. Bennett was elected vice-president, and the following as an executive committee: R. T. Graham, J. E. Hemenway, J. A. Rollefson, W. W. Cooper, A. J. Wigmore, W. W. Smith, D. S. Macpherson, S. R. Moore, J. L. Keeler and H. J. Watson. The board has an ambitious development program under way for 1920.

PRINCE ALBERT BOARD OF TRADE

At the annual meeting of the Prince Albert, Sask., Board of Trade, held on January 14th, the following officers were elected: President, C. F. Clare; vice-president, E. A. Moore; treasurer, J. P. M. Sibbald; and several members of the council whose names follow: L. Campbell, J. S. Fowlie, H. Lacroix, Dr. MacMillan, O. B. Manville, A. McLean Mathieson, N. W. Morton, W. T. Stephens, R. Young, J. E. Arpin, A. I. Wilkinson, R. C. McLean, M. C. Hamilton, J. B. Kernaghan, O. Sharpe, A. H. Logan, A. L. Elliot, F. Riley, R. M. Treen, George Baker, W. E. Bristowe, R. Gordon, F. J. O'Leary, J. A. Stewart, Dr. Bain, C. J. Case, J. H. Lindsay, D. Green, Sr., G. H. Carr, H. L. Agnew.

A great deal of enthusiasm was displayed of the work of the board during the past twelve months and the prospects for the future. Northern Saskatchewan has had the biggest year in history and Prince Albert has shared accordingly, but it is expected that 1920 will be bigger and better than ever. There are some railway developments in progress, and Prince Albert may have two or three new lines tapping well settled areas under construction by the close of the season.

The investment banking firm of Nesbitt, Thomson and Co., Ltd., has opened an office in London, Ont., under the management of E. B. Almon, who has been with the firm in their Hamilton office. M. S. Thomson, who has been representing the firm in Ottawa, has been appointed manager of the Hamilton office. The Toronto office is under the management of D. D. Macleod.

MORTGAGE LOANS SHOULD BE ATTRACTIVE

Alberta Loan Authority Criticizes Recent Legislation—Supply of Necessary Capital Should Not be Shut Off

In his address at the annual meeting of the Calgary Board of Trade, the retiring president, Wm. Toole, criticized recent Alberta legislation affecting mortgage loans. "It is during trying periods like the last season," he said, "when our agriculturists need every dollar they can legitimately borrow to meet pressing requirements and keep their farm and ranch equipments going without sacrifice, until after next harvest, that the serious influence of the hastily enacted legislation of the past few years becomes so glaringly apparent. This so-called advanced legislation has worked, and is working, a serious injury to the province. It has kept much capital from coming into the country—has been the means of several large loaning institutions curtailing their investments, and some have withdrawn. It has prevented private as well as company capital from extending into the newer districts where funds are always urgently needed, and in my opinion has made it decidedly more difficult and expensive for our real pioneer farmers to borrow.

"I am still unable to comprehend the real motives of those who introduced and supported such iniquitous legislation as that which practically did away with the advantages of the personal covenant, and in any event causes a great deal of trouble and expense when legal proceedings become necessary.

Act was Retroactive

"The further deplorable feature of the act was making it retroactive and thereby taking away a most essential element of the security which had been given and accepted in good faith. This exhibition of disregard for vested interests shattered confidence in Alberta securities and the stigma is still in evidence.

"The whole question of legislation as it affects the investment of capital in both our urban and rural securities is of such vital importance to our continued prosperity as to cause serious concern. It is too big a subject to be dealt with in this report—it affects us all—we must have cheap money and lots of it for the upbuilding of our cities, expansion of our industries and development of our varied natural resources. This capital will not come in sufficient quantity until the old time confidence is reinstated. To encourage capital investment for immediate intensified production should be our aim, instead of placing all kinds of obstacles in its way. If our people would display the same interest in establishing a world market for Alberta mortgages as they did for 'Alberta Red' wheat, Alberta oats, Alberta creamery butter and other products, and place our mortgages on the same basis of security as is enjoyed by other parts of this Dominion where such contracts are regarded as sacred, the influx of capital and the influence on the rate of interest in a very few years would be astounding.

Should be Investigated

"I would suggest that the new council consider the appointment of a special committee to investigate this whole situation and endeavor to interest the co-operation of the council of the U.F.A. and other boards of trade in the province so that a strong and united personal appeal can be made to the government to reduce the expenses incidental to mortgage investments in the province, and generally to encourage the inflow and investment of capital. Thought should also be given on account of the adverse criticism to which our mortgages have been subjected during recent years, to some plan for making them an especially attractive security on the money markets of the world. This should not be difficult with government sympathy on account of the continuing improvement of the physical security and the very high morale of our citizens."

Mr. Toole, in the course of his annual report, showed how closely the board had been associated with all matters within its jurisdiction affecting the welfare of the community, and how essential it was to future permanent progress. Incidentally, he mentioned that their organization was not fully appreciated by the citizens generally, but its membership would have been largely increased during the past couple of years were it not that the board considered it advisable to set aside its own appeals and campaigns in favor of those organizations primarily associated with the war endeavors of one kind or another. He suggested, however, that the time was now opportune for an energetic membership campaign to be carried out during 1920.

T. A. Hornibrook was elected the new president for 1920, and J. B. Sutherland, P. L. Naismith, and F. R. Freeze, vice-presidents. The council is composed as follows:—R. J. Lydiatt, C. P. McQueen, Geo. W. Craig, Dr. Egbert F. H. Peters, Lorne E. Glover John Halstead Wm. Toole C. A. Chesterton, A. J. MacMillan, Wm. Pearce, Geo. H. Webster, B. L. Robinson, R. L. Glover, and Alex. Calhoun.

BUSINESS FAILURES IN CANADA

Messrs. R. J. Dun and Co. report the following business failures since the beginning of the year:—

Date.	Ont.	Que.	Man.	Alta.	Sask.	B. C.	N. S.	N. B.	P.E.I.	Total.	1919.

Jan. 9th ..	2	3	2	0	3	1	0	0	0	11	13
Jan. 2nd ..	2	9	0	0	3	0	4	0	0	18	14

WILL TEST LEGAL POWERS

The Board of Commerce has addressed a series of questions to the Supreme Court of Canada regarding its powers, concerning which it apparently entertains certain doubts. These doubts hinge mainly upon two points. The first is the validity of its organization as a court of justice, since the organization of such courts belongs to the several provinces, while the appointment of judges belongs to the Federal government. The second point concerns the fixing of prices, since prices are part of a contract and contracts are part of the civil law.

The board points out in its submission that it has already rendered a number of decisions under the Act, by which it was created, and will continue to do so, but in view of the importance of the issues involved, it desires to have its legal position clearly defined before proceeding further. All persons affected by the decisions so far rendered by the board have been invited to appear before counsel at the hearing, and the attorney-generals of the several provinces have also received copies of the board's submission, with invitations to intervene if they so desire. The hearing will probably take place in Ottawa in February.

RAILROAD EARNINGS

The following are the earnings of Canada's transcontinental railways for the first three weeks of January, 1920, with comparisons:—

Canadian Pacific Railway.

	1920.	1919.	Inc. or dec.
January 7	$3,171,000	$2,856,000	+ $ 315,000
January 14	3,331,000	2,891,000	+ 440,000
January 21	2,837,000	2,949,000	— 112,000

Grand Trunk Railway.

January 7	$1,129,338	$1,003,631	+ $ 125,707
January 14	1,228,846	1,029,578	+ 199,268
January 21	1,056,381	940,925	+ 115,456

Canadian National Railways.

January 7	$1,642,208	$1,294,039	+ $ 348,169
January 14	1,864,220	1,420,433	+ 443,787
January 21	1,599,643	1,541,392	+ 58,251

AGENTS' RIGHTS IN SALE OF PROPERTY

Contracts of Special Agency Require Exact Compliance With Terms—Saskatchewan Court Distinguishes General and Special Agency

IN a recent case coming before the Saskatchewan Court of Appeal it was decided that a land broker could not recover his commission if he had not lived up to the exact terms of the special contract of agency into which he had entered. The case was that of Fitchell vs. Lawton, decided on October 22, 1919.

The facts as reported in Dominion Law Reports are that Lawton listed with Fitchell three-quarters of a section of land at $35 per acre, of which $6,000 was to be paid in cash. The agreement, dated April 18, 1918, provided that the price included the crop then on the land and continued: "I hereby agree to place the above described land with C. D. Fitchell for sale for the next two months and thereafter to give it ten clear days' notice in writing of withdrawal or increase or decrease in price, its commission to be $1 per acre."

Owner Sold to Agent's Client

After making the agreement, Fitchell took a prospective purchaser to see the land but he could not purchase because he could not raise the amount of cash which Lawton wanted. Then in November, after the crop had been taken off and sold by Lawton, the above prospective purchaser bought the land from Lawton for $30 per acre on a smaller cash payment.

It was admitted that Lawton never gave Fitchell any notice as provided for by the contract, consequently on these facts, Fitchell claimed that as Lawton had never withdrawn the listing of the land from him, he was still Lawton's agent and as Lawton had sold the land to a party introduced by him, he was entitled to the agreed commission.

General and Special Contracts

In his judgment the Hon. Mr. Justice Newlands distinguishes a general from a special contract of agency. To explain the former he quotes a paragraph from the judgment in Toulmin vs. Millar (1887) 58 L.T. 96, which is as follows:—

"When a proprietor, with the view of selling his estate, goes to an agent and requests him to find a purchaser, naming at the same time the sum which he is willing to accept, that will constitute a general employment; and should the estate be eventually sold to a purchaser introduced by the agent, the latter will be entitled to his commission, although the price paid should be less than the sum named at the time the employment was given. The mention of a specific sum prevents the agent from selling for a lower price without the consent of his employer; but it is given merely as the basis of future negotiations, leaving the actual price to be settled in the course of these negotiations."

With reference to the special case in which the contract in question was classed as a special contract of agency, His Lordship says:—

"Here the price of $35 per acre is not fixed as a price at which the defendant was willing to negotiate for the sale of his property, it was a specific price which plaintiff was to get in order to earn his commission, and that price was fixed for two months; thereafter the defendant could either withdraw, increase or decrease it. It is obvious that this later provision of the contract was put in because the crop was to be sold with the land, and that its condition at the end of two months would influence the defendant in making a new price. No new price was ever fixed for the land, so that, even if plaintiff's agency was continued over the two months, he had to obtain a purchaser at $35 per acre in order to earn his commission. But no matter what construction is to be put upon these words providing for the notice in writing, it is obvious that the agency terminated on the sale of the crop by defendant, because thereafter it was impossible for plaintiff to sell the land and crop.

"The conclusion I have come to in this case is that the contract was a special and not a general agency; that in order to earn his commission the plaintiff had to obtain a purchaser for defendant's land and crop at $35 per acre, and, as he did not do this, he did not earn his commission.

"As has been said in other cases, the defendant is not to be prevented from selling his land because the purchaser introduced will not pay a price sufficient to pay the agent a commission."

In a somewhat similar case (that of Brown vs. Patchell) before the Saskatchewan Court of Appeal on the same date as the above, the Honorable Mr. Justice Newlands gave a decision to the effect that a land broker is not entitled to commission under an agreement to get a purchaser for land at a certain price per acre, where he introduces a party who has previously negotiated with the owner for a trade, which is subsequently completed.

SYDNEY BOARD OF TRADE

At the annual meeting of the Sydney, N.S., Board of Trade last week the following officers were elected: A. N. McLennan, president; J. F. Miles, vice-president; H. E. Coll, second vice-president. E. E. Shaw, retiring president, in his address outlined the work of the board as satisfactory, although little support had been given by the business people of the city. Arangements will be made for co-operation with the Dominion Steel Corporation.

CALGARY BOARD OF TRADE

The annual meeting of the Calgary Board of Trade was held on January 13th. Routine business was transacted, and the following officers were elected for the coming year: President, T. A. Hornibrook; vice-presidents, J. B. Sutherland, P. L. Naismith, F. R. Freeze. Councillors—R. J. Lydiatt, C. P. McQueen, Geo. W. Craig, Dr. Egbert, Wm. Pearce, Geo. H. Webster, B. L. Robinson, F. H. Peters, Lorne E. Glover, John Halstead, Wm. Toole, C. A. Chesterton, A. J. MacMillan, R. L. Glover, Alex. Calhoun.

TO EXTEND SASKATCHEWAN MORATORIUM

The Saskatchewan moratorium will be extended until January 10, 1921, or at least until July 10, 1920, if a bill introduced by the Saskatchewan government goes into force. This bill was read a second time on January 14. A moratorium Act was passed by the Saskatchewan legislature at an emergency session in 1914, but the government did not put into effect an absolute moratorium as was done in some of the other provinces and in other countries. The existence of the Act, however, enabled the government to relieve conditions in certain sections of the province where there was a crop failure, by negotiation with mortgage companies, implement companies and other concerns, and the work of mediation between debtor and creditor is still being carried on by the department of agriculture.

In moving the second reading of the bill the Hon. Mr. Turgeon, attorney-general, pointed out that during the first few months of the war, protection was conferred upon volunteers and reservists by proclamation, this being supplanted later by the Volunteers and Reservists' Act. The government was also able to relieve conditions in the south-west of the province in 1914 by an agreement with the mortgage companies. A lot of good work had also been done by the department of agriculture in effecting a settlement between farmers and their creditors. This work was still being done and, in fact, was heavier now than at any time since partial moratorium protection was first provided. The experience of the past four years, he declared, was the best guarantee that the government would use its power with discretion. Mr. Turgeon said that in the early stages of the war strong pressure had been brought to bear upon the government to provide an absolute moratorium. This had been done in other provinces and in other countries, and some of them were sorry for it now.

DOMINION DEBT INCREASED $20,000,000

Net Total at December 31st Was $1,838,131,058—Excess of Revenue Over Expenditure, $16,744,000

THE net debt of the Dominion increased during December, 1919, by $20,291,187, and since December, 1918, increased over $500,000,000. The net debt at December 31st last was $1,838,131,058, compared with $1,330,228,898 for the previous year.

Excess of ordinary revenue over ordinary expenditure was in December $1,300,000. In December of 1918 the excess was $12,000,000. For the nine months ending with the close of the calendar year ordinary revenue was $235,964,000 and ordinary expnditure $137,220,000, an excess of revenue over expenditure of $16,744,000. During the corresponding nine months of 1918 ordinary revenue was $222,485,000 and ordinary expenditure $124,539,000, an excess of revenue over expenditure of $97,946,000.

INDEX NUMBERS OF COMMODITIES

For November Prices of Livestocks and Meats Declined—Textiles, Metals, Lumber, Fish and Grain Show Increases

"THE features of the prices movement during the month of November were a continued decline in livestock and meats, and a rise in dairy products, particularly in eggs and butter," states the December issue of the "Labor Gazette." "Both movements usually occur toward the end of the year, but in 1919 they were accentuated by unusual market conditions, especially in supply of feed and export demand. Prices also rose in textiles, metals, lumber, fish, miscellaneous foods and grains."

"In wholesale prices the index number rose to 300.7 for the month as compared with 299.6 for October; 290.9 for November, 1918; and 137.5 for November, 1914. The chief increases occurred in foods, textiles and metals.

"The index number of wholesale prices is based upon the quotations of 271 commodities, one having been dropped in 1915, and is the simple average of the percentages which the current prices of the several commodities bear to their average prices for the base period, 1890-1899, these being therefore made equal to 100.

NEW TRACTOR COMPANY FOR CANADA

Toronto to Be the Headquarters of New Branch of American Company—Other Industrial Notes of the Week

IT is announced that the Chase Tractors Corporation, Ltd., has been formed to take over the business throughout Canada of the Chase Motor Tractor Co., of Syracuse, N.Y., and Toronto will be the headquarters. The company has secured a plant adjoining the Canadian National Exhibition Grounds, which will give it facilities on the main lines of the Canadian Pacific and Grand Trunk Railways and will manufacture tractors for the requirements, not only of the Canadian market, but also for all parts of the British Empire. The new company will have a capital stock of $1,000,000 7 per cent. cumulative preference shares, of which $750,000 will be issued at present, and $1,000,000 of common stock, all of which is now issued. The names mentioned in connection with the corporation are: R. J. Cluff, president; T. P. Birchall and W. J. Cluff, vice-presidents, James Whalen, Senator Curry, R. M. Wolvin and J. W. Norcross, all of whom are prominent Montreal and Toronto men. The The tractor has already been successfully manufactured in the United States, and it is stated that the Canadian company already has orders on hand sufficient to take care of its entire output for several months.

Other Industrial Notes

The Canada Copper Co., at Princeton, B.C., has installed a new concentrating mill.

Property has been purchased at Napanee, Ont., and a joint stock company, headed by W. D. Midner, has been formed for the establishment of a new wood industry. Lumber from the woods will be sawn and waste will be eliminated. Lath and other small articles will be produced, while the waste from the best hardwoods will all go into fish boxes, as there has been used in the past a quarter of a million feet a year in this product alone.

Plans are under way in Toronto for the erection of a silk-dyeing plant. J. M. Lowes and Co., Ltd., also of that city, plan additions to their plant of about $100,000.

Construction will soon be commenced on the first unit of the Britannia Wire Rope Co.'s plant at Vancouver, B.C. As soon as the mill building is completed, it is expected that work will be commenced on the installation of the expensive wire cable-making machinery which was ordered in England some time ago by Robert Gibson, who was largely instrumental in securing the British capital necessary and in bringing about the organization of the Britannia Co.

A partnership has been formed in Sandwich, Ont., and a new company, known as the Canadian Engineering and Tool Co., has opened a plant for the manufacture of tools.

The Starr Co., of Richmond, Indiana, manufacturers of Starr phonographs and Gennett records, has chosen Regina, Sask., as distributing centre for western Canada. The Starr Co.'s factories at Lachine, Que., Toronto and St. Catharines, Ont., have an annual output of 40,000 phonographs and 2,000,000 records.

Timber Deal in British Columbia

A timber deal has just been completed in the East Kootenay District, B.C., whereby the East Kootenay Lumber Co., Ltd., has sold portions of its extensive holdings to the Crow's Nest Pass Lumber Co., Ltd., and to the eastern directors of that company, who will incorporate as a separate company. The holdings sold consist of 10,000 acres of land and timber, and from 15,000 to 20,000 acres of timber in some five blocks, adjacent to Cranbrook, Fort Steele, Bull River and Moyie, and the consideration is between $250,000 and $500,000. The eastern capitalists referred to, who are applying for incorporation, will start a new industry in the Cranbrook district that will mean an investment of at least $1,000,000. It is expected that the portion of the holdings acquired by the Crow's Nest Pass Lumber Co. will be developed in connection with that company's big plant at Wardner, B.C.

DECLINE IN VOLUME OF EMPLOYMENT

Reports from employers to the Dominion Headquarters of the Employment Service of Canada, Department of Labor, indicate that, disregarding loss of time due to strikes, there was, as had been anticipated, a further decline in the volume of employment for the week ending December 27th as compared with the preceding week. Declines were registered in all districts, the most noteworthy decline being reported in Ontario. Substantial declines were registered in the maritime provinces, Quebec, prairie provinces and British Columbia. All groups with the exception of railway operation reported decreases in staffs, the declines being largely attributable to curtailment of staffs with the close of the holiday season and the beginning of the usual stock-taking and inventory period.

Reports for the week ended December 27th were received from 4,553 firms, these firms reporting 649,619 persons on payroll as compared with 665,369 on payroll for week ended December 20th—a decrease of 13,750 persons, or two and one-tenth per cent. A further decline of 674 persons or one-tenth per cent. was anticipated for week ended January 3rd. This would indicate that further large decreases in staffs were not contemplated, indicating, as before mentioned, that much of the decline was of a temporary nature and that further large declines were not anticipated for the week ended January 3rd. The decline of the 27th had been anticipated. Reports from employers for week ended December 20th indicated an anticipated reduction in staff of 3,933 persons or six-tenths per cent., which decline the actual figures for the week of the 27th given above show to have been exceeded.

Plus industries—those that registered net increases in the number of persons employed. The only plus industry for the week of the 27th was railway operation in which an increase in staff of 100 persons was reported. This group, however, anticipated a reduction in staff of two-tenths per cent. during the week ended January 3rd.

Minus industries—those that registered net decreases in the number of persons employed were: Building and construction 10.0 per cent.; commercial and mercantile 3.3 per cent.; lumbering 8.0 per cent.; clay, glass and stone products 2.5 per cent.; chemicals .9 per cent.; food, drink and tobacco 3.8 per cent.; leather and leather goods .7 per cent.; metals .8 per cent.; pulp, paper and printing 1.9 per cent.; textiles 1.5 per cent.; vehicles 1.7 per cent.; woodworking .3 per cent.; quarrying and mining 1.9 per cent.; railway construction 2.9 per cent.; shipping and longshore 5.9 per cent. and miscellaneous .6 per cent. The most substantial decline during the week of the 27th was in lumbering, which registered a decrease of 2,953 persons. Noteworthy decline however, were registered in commercial and mercantile; food, drink and tobacco; building and construction; vehicles; metals; pulp, paper and printing; textiles; quarrying and mining and railway construction. Of these groups the decline in lumbering was largely attributable to the curtailment of activities for the holiday season. This group reported an anticipated increase of 1,500 persons for the week ended January 3rd, indicating an early resumption of activities. The decline in the commercial and mercantile group represents the dispensing with temporary help engaged for the holiday season. This group anticipated a further decline of 334 persons or seventh-tenths per cent. for the week ended January 3rd. On the other hand pulp, paper and printing; vehicles; quarrying and mining and building and construction expected nominal increases during the week ended January 3rd. Clay, glass and stone products; chemicals; woodworking and miscellaneous, all of which groups registered nominal declines during the week of the 27th, anticipated also increases of a nominal character durthe week ended January 3rd. All the other minus industries, namely: Food, drink and tobacco; metals and railway construction anticipated further decreases, the declines in food, drink and tobacco and railway construction being more seasonal in character, as these groups have shown minus tendencies of late. On the other hand, the declines in leather and leather goods; metals and textiles may be attributed to curtailment of operations during the inventory and stock-taking period.

"SOLID AS THE CONTINENT"
HOME OFFICE - TORONTO, ONT

THE FOUNDATION OF A GREAT SUCCESS

The world-famous merchant, John Wanamaker, attributes his phenomenal success to having carried Life Insurance on the endowment plan. This system encouraged him year by year to lay by a fixed amount of money. As means increased, additional policies were taken and as they matured the proceeds were invested in new departures in connection with the business. These endowment policies helped greatly in the accumulation of capital Every young man should carry Endowment Insurance. It furnishes a motive for saving. Money that might otherwise be dissipated is accumulated—and at good interest. Many have laid the foundation of success, not so notable perhaps as that of the Philadelphia millionaire, through investing in Endowment Policies in the Mutual Life of Canada.

Do not spend your surplus, lay it by for a sunny day by means of a Mutual Life Endowment

The Mutual Life Assurance Co. of Canada
Waterloo Ontario

"None but the best
is good enough"—in Life Insurance of all things.

What constitutes the best in Life Insurance?

Low Premiums—high profit returns—a policy simple and clearly worded—no room for misunderstanding.

All hingeing upon progressive methods that ensure a high interest rate on invested funds—with unquestioned safety.

These give "the best" in Life Insurance and these are the features that have given the Policies of The Great-West Life Assurance Company their wide reputation.

Ask for information.

Stein and Co., Ltd., $5,000.

TORONTO RAILWAY WINS APPEAL

The Privy Council has allowed the appeal of the Toronto Railway Co. against the order of the Ontario Railway Board requiring it to supply additional street cars. This order had been confirmed by the Ontario Court of Appeal, and the company fined $24,000, being $1,000 per day. The Privy Council was of the opinion that the board is authorized to impose penalties for non-compliance with their orders, but subject to the condition that such penalties must be imposed for the purpose of enforcing compliance with these orders; and this expression points not to summary imposition of a penalty for a past breach without previous warning, but to the imposition of a penalty in advance and for the purpose of procuring obedience to the order. It cannot be supposed, their Lordships argue, that the Ontario legislature, knowing that a breach of that order had occurred and could not be remedied without some further time allowance, intended to authorize the imposition of a daily penalty, commencing the day following that on which the Act of 1918 became law. In the opinion of their Lordships it was not the legislature's intention that the board should be authorized to impose penalties except after giving the railway warning that penalties would be imposed after a specific period, and giving them an opportunity of avoiding such penalties by compliance with the requirements of the board within that period. Accordingly, the order of April, 1918, was not authorized by the Act.

The judgment goes on to say that apart from the above considerations the Railway Board procedure is open to question. Their Lordships accept the Railway Board's view that the company were not prevented by war conditions from supplying cars, and were, therefore, gravely in default, but, even so, they were entitled to have notice of the claim and an opportunity of meeting it.

The final paragraph of the judgment runs: "The point raised on behalf of the appellants was that, having regard to the powers conferred by statute on the Railway Board, that body must be regarded as a superior Court within the meaning of the British North America Act, and, accordingly, members should have been appointed by the Governor-General and not by the Lieutenant-Governor. This question was fully considered by the Supreme Court, which decided against the appellants, but, in consequence of the view taken by their Lordships on other points, it became unnecessary for them to consider it. Accordingly, it was not argued, and their Lordships express no opinion."

DIVIDENDS AND NOTICES

BANK OF MONTREAL

Notice is hereby given that a Dividend of Three per Cent. upon the paid up Capital Stock of this Institution has been declared for the current quarter payable on and after Monday, the First Day of March next, to shareholders of record of 31st January, 1920.

By Order of the Board.
JOHN AIRD,
General Manager. 72
Toronto, 23rd January, 1920.

YEAR OF PROGRESS FOR THE NATIONAL LIFE

The twenty-first annual report of the National Life Assurance Co. of Canada, which appears elsewhere in this issue, is without doubt the best that that company has ever produced. The year 1919 has been notable for the large increases in all departments, with special reference to the surplus to policyholders, which shows an increase of 70 per cent. over the surplus of 1918. The total income is now well over the million mark, and the new assurances issued and revived amount to $5,240,352, an increase of over one million and a half. The assets show an increase of $618,336. The total insurance in force on the 31st of December, 1919, was $26,806,183, with an annual income thereon of $918,273.

The National Life quite properly prides itself upon its investments, 85 per cent. of which are government and municipal bonds. These bonds are taken into the statement at $270,000 below par value. This substantial amount will eventually come into the surplus of the company as the securities mature.

GOOD NORTH AMERICAN LIFE REPORT

The business of the North American Life is forging ahead, as evidenced by the figures presented in their thirty-ninth annual report. Business issued and revived in 1919, amounting to $22,199,547, was over $8,600,000 in excess of the previous year, and brings the total business in force to $84,597,490, the highest mark yet reached in the history of the company. During the year there was paid to policyholders and beneficiaries over $2,299,000. This amount included $378,265 paid as dividends, while only $6,000 was paid to guarantors. The death losses incurred during the year were $170,000 less than the previous year, and indicates a probable return to pre-war conditions.

The president, Mr. L. Goldman, in his address to the policyholders at the recent annual meeting, made the important announcement that the same scale of dividends will be continued to policyholders in 1920. This is indicative of the fact that the interests of the policyholders are paramount.

GOVERNMENT AND MUNICIPAL BONDS

Manitoba Paid 5.75 Per Cent. for Loan—Regina Takes Stand on Exchange Situation in Paying Interest on Sterling Bonds—Other Debenture Notes

NOTHING of an unusual nature occurred in the bond market this week. A few small issues were disposed of, but the prices received were anything but favorable. Bridgeburg paid 6.15 for its money, while Assiniboia paid over 6½ per cent. A scarcity of Ontario municipals is noticeable, presumably in view of the low prices received by those municipalities which have ventured into the market within the past few weeks. On the other hand, however, western issues will be plentiful, judging from the following list of coming issues:—

Borrower.	Amount.	Rate %.	Maturity.	Tenders close.
St. Anne R.M., Man.	$ 57,263	5½	29-instal.	Jan. 31
East Whitby Tp., Ont.	45,000	5½	30-years	Feb. 2
Portage la Prairie, Man.	79,610	6	20-instal.	Feb. 3
Alberta School Districts	30,350	6½	Various.	Feb. 5
Weyburn S.D., Sask.	80,000	6	30-years	Feb. 11
Goose Lake C.S.D., Man.	25,000	6	20-instal.	Feb. 13
Shawinigan Falls, Que.	50,000	6	20-years	Feb. 13
Greater Winnipeg Water District	1,000,000	5½	20-years	Feb. 16
Charlottenburgh Tp., Ont.	60,000	5½	20-instal.	Feb. 16
Dauphin, Man.	35,000	6	30-years	Feb. 20
Lindsay, Ont.	76,276	5½	Various.	......

Weyburn S.D., Sask.—Tenders will be received until February 11, 1920, for the purchase of $80,000 6 per cent. 30-year debentures. (See announcement elsewhere in this issue.)

Shawinigan Falls, Que.—Tenders will be received until February 13, 1920, for the purchase of $50,000 6 per cent. 20-year school debentures. C. H. Flamand, secretary-treasurer, school commission.

Edmonton, Alta.—Tenders will be received until February 5, 1920, for the purchase of 6½ per cent. rural school district bonds of the province of Alberta to the amount of $30,350 as follows: 10-year debentures—Naemine, $8,000; Flying Shot, $1,800; Tulliby Lake, $500; Purple Springs, $800; Lotus, $1,800; Spirit River, $600; Currie, $1,800; L'Abbe, $1,000; Morrin, $3,000; Zehring, $1,200; Upland, $1,200; Polska, $2,000. 15-year debentures—Snake Valley, $2,500; Pine Grove, $700; Eaton, $2,250. There is also an issue of $1,200 12-year debentures being offered. Tenders in each case should include accrued interest from date of the debenture until date of payment.

Debenture Notes

Galt, Ont.—Money by-laws totalling $39,195, have been passed.

Lennoxville, Que.—The legislature has adopted a bill providing for a loan of $75,000.

Outremont, Que.—A bill has been introduced into the Quebec legislature to authorize the issuance of $400,000 bonds for school purposes.

Debenture Sales

Perth, Ont.—Thos. Farmer, of Perth, has purchased an issue of $18,700 6 per cent. 20-year debentures.

Nanton, Alta.—The town has sold its $6,000 6½ per cent. 10-instalment debenture issue to S. T. Armstrong, of Nanton, at par.

Etobicoke Township, Ont.—Messrs. W. L. McKinnon and Co., have purchased at 101.172, $50,000 6 per cent. 20-instalment debentures.

Dunnville, Ont.—The town has sold to the Canadian Millers Mutual Fire Insurance Co. an issue of $12,500 6 per cent. 30-year hydro-electric extension debentures.

Bridgeburg, Ont.—Messrs. A. E. Ames and Co. have purchased a block of $50,000 6 per cent. 30-instalment debentures at 98.19, which means that the town pays about 6.15 per cent. for its money.

Assiniboia R.M., Man.—Messrs. A. E. Ames and Co. have purchased an issue of $160,000 6 per cent. 20-instalment water works bonds at 94.03. Other tenders were:—

C. H. Burgess and Co.	92.92
W. A. Mackenzie and Co.	92.85
Wood, Gundy and Co.	92.83

Manitoba Paid 5.75 for Money

The Hon. Edward Brown, provincial treasurer, Manitoba, has issued a further statement regarding the sale of the $2,498,000 6 per cent. 10-year bond issue which was sold privately last week. He states that the province disposed of the issue at 101.86, which is on a 5.75 per cent. basis. In commenting on the issue Mr. Brown said:—

"As previously announced the province of Manitoba has maturing in New York City on February 1st next, bonds to the amount of $6,548,000. Of this amount, $50,000 is held by the treasury department, having been purchased as an investment for funds, leaving as a net amount the sum of $6,498,000. Towards meeting this an issue of $4,000,000 5-year 6 per cent. was sold a short time ago, price 102.81, to the Merchants Bank, acting for the following firms: W. A. Mackenzie and Co., R. A. Daly and Co., and Brent, Noxon and Co., all of the city of Toronto. When this sale was made there was a condition that the province should not make any further issues within 30 days. To cover the balance of our indebtedness maturing, an arrangement has now been made, with the consent of the Merchants Bank syndicate, who has since asociated with the the following firms, the Dominion Securities Corporation, Wood, Gundy and Co., and A. E. Ames and Co., all of the city of Toronto, the province has sold to the new syndicate embracing these six firms an issue of 10-year 6 per cent. bonds, amounting to $2,498,000. Price in Canadian funds 101.86, which works out at the rate of 5.75 per cent. per annum, and the proceeds of the issue are to be placed to the credit of the government in New York not later than the 31st inst. The change from 5-year to 10-year was found advisable for two reasons. First: That in the sale of the $4,000,000 5-year 6 per cent., it was found that this amount of 5-year bonds was fully as much as the market would absorb at the present time. Second: It was not deemed advisable to again have such a large sum falling due at any one date.

"The government had first in mind the idea of issuing treasury bills for a short period to provide the balance required, but rates in New York at the present time are exceedingly high, and although it is quite probable that the government could have secured the money by an issue of treasury bills yet, all things considered, it was deemed more advantageous to make a sale and have the matter disposed of. The rate secured compares favorably with any recent sales by any of the provinces of 10-year bonds, and is a slightly better rate, taking into account the term of 10-years, than was secured when we sold the four million issue of 5-year bonds."

Takes Stand on Sterling Situation

In reply to a request from the Bank of Montreal for the city of Regina to reconsider its decision in regard to the payment of sterling debenture coupons, a resolution was passed to the effect that the bank be instructed that the decision already made by the council would be adhered to. The question arose over British investors sending the coupons due January 1 for payment to Canada and New York in order to receive the advantage of the rate of exchange and contending that payment of interest coupons should be made at the same rate as that at which the debentures were sold. An opinion obtained by the Bank of Montreal from Alexander

INVESTMENT-SERVICE

Super-Safe Bonds for Conservative Investors

To invest in a well-secured first mortgage oneself is sound investment practise—but it involves a great deal of bother and quite often does not work out as well as expected.

But to invest in gilt-edged First Mortgage Real Estate Bonds, offered by an established Investment House such as ourselves—is to hold all the security of a real estate first mortgage without the trouble of being an individual mortgagee.

We are offering a thoroughly secured small issue of such Bonds—to yield 6½% They are secured by the Drummond Apartment Buildings, Montreal

They will be quickly subscribed—so early application for them is necessary.

THE DOMINION BANK

The Forty-ninth Annual General Meeting of the Dominion Bank was held at the Banking House of the Institution, Toronto, on Wednesday, the 28th January, 1920.

Among those present were noticed:—

Messrs. R. J. Christie, Joshua C. Moor, F. L. Patton (Winnipeg), E. G. Gooderham, William Logan, W. W. Near, W. Cecil Lee, C. H. Edwards, J. Harry Paterson, F. D. Brown, H. C. Scholfield, William C. Crowther, F. H. Gooch, W. A. Mitchell, Campbell Reeves, Sir Thomas White, Robert S. McLaughlin (Oshawa), Edmund B. LeRoy, James Matthews, A. W. Austin, Edwin Roach, Sir Edmund B. Osler, D'Arcy Martin, K.C. (Hamilton), Charles M. Gripton (St. Catharines), John J. Dixon, A. T. Reid, Rev. T. W. Paterson, William Mulock, R. M. Gray, J. T. Parker, Sir Augustus M. Nanton (Winnipeg), Jesse Ashbridge, William Crocker, H. W. Hutchinson (Winnipeg), William McLeish, C. A. Bogert, W. Gibson Cassels, Frank Arnoldi, K.C., Charles P. Stuart, Nehemiah Hockin, Thomas F. Nivin, G. N. Reynolds, H. G. MacKenzie, Dr. R. M. Bateman, George McDonald, J. White, A. MacPherson, Dr. A. J. Harrington.

It was moved by Mr. R. S. McLaughlin, seconded by Mr. E. B. LeRoy, that Sir Edmund B. Osler do take the chair, and that Mr. C. A. Bogert do act as Secretary.

Messrs. Graham Campbell and W. Gibson Cassels were appointed Scrutineers.

The Secretary read the Report of the Directors to the Shareholders, and submitted the Annual Statement of the affairs of the Bank, which is as follows:—

To the Shareholders:

The Directors beg to present the following Statement of the result of the business of the Bank for the year ended 31st December, 1919:—

Balance of Profit and Loss Account, 31st December, 1918			$ 446,503.22
Profits for the year, after deducting charges of management and making full provision for bad and doubtful debts		$1,256,053.83	
Less:—			
Dominion Government War Tax (on circulation)	$60,000.00		
Taxes paid to Provincial Governments	26,350.00		
		86,350.00	
Making net profits of			1,169,703.83
			$1,616,207.05

Which amount has been disposed of as follows:—

Dividends (quarterly) at twelve per cent. per annum	$ 720,000.00	
Bonus, one per cent.	60,000.00	
Total distribution to Shareholders of thirteen per cent. for the year	$ 780,000.00	
Contribution to Officers' Pension Fund	30,000.00	
Contributions to Patriotic and other Funds	10,500.00	
	$ 820,500.00	
Written off Bank Premises	300,000.00	
	$1,120,500.00	
Balance of Profit and Loss Account carried forward	495,707.05	
		$1,616,207.05

E. B. OSLER, C. A. BOGERT,
President. General Manager.

The Annual Balance Sheet of the Bank as at the close of business on the 31st December, 1919, together with the Profit and Loss Statement should, we consider, be received with satisfaction by the Shareholders.

Since the last Annual Meeting it was considered advisable to open a number of new branches, selected after careful consideration, and the following were established: In the Province of Ontario at Bracebridge, Brantford, Brooklin, Cedar Dale, Fairbank, Harrow, Niagara Falls, Mount Forest, Thamesville, Toronto (Bloor and Runnymede), Walkerville. In the Province of Manitoba at Norwood, St. Boniface, Petersfield (sub. to Selkirk). In the Province of Saskatchewan at Craven (sub. to Regina Branch), Estlin (sub to Regina Branch), Marquis. In the Province of British Columbia at Summerland.

An important extension also took place in the opening of an agency of the Bank in the City of New York in March last.

No branches of the Bank were closed in 1919.

A number of expenditures were necessary in connection with Bank premises account, but a substantial sum—$300,000—has been written off from the year's profits.

At this, the first meeting of the Shareholders since the death of Mr. W. D. Matthews, your Directors wish to record their very deep sense of the loss sustained. As a Director for 36 years and as Vice-President since 1901, he was constantly in close touch with the Bank's affairs, and the benefit of his experience and advice were of inestimable value. His death was a severe loss to the Bank, to his fellow-Directors and to the business community.

Mr. A. W. Austin and Sir Augustus M. Nanton were appointed Vice-Presidents, and a by-law in this connection will be submitted to-day for your approval. Mr. W. L. Matthews was appointed a Director to fill the vacancy on the Board.

The Head Office and all branches of the Bank were inspected during the past twelve months and the certificate of the Auditors, Messrs. G. T. Clarkson and R. J. Dilworth, accompanies the statement.

E. B. OSLER, President.

Toronto, 28th January, 1920.

The Report was adopted.

Messrs. Geoffrey T. Clarkson and Robert J. Dilworth the retiring Auditors, were reappointed for the current year.

The thanks of the Shareholders were tendered to the President, Vice-Presidents and Directors for their services during the year, and to the General Manager and the other officers of the Bank for the efficient performance of their respective duties.

The following gentlemen were duly elected Directors for the ensuing year: Messrs. A. W. Austin, James Carruthers, R. J. Christie, Sir John C. Eaton, E. W. Hamber, H. W. Hutchinson, W. L. Matthews, R. S. McLaughlin, Sir Augustus M. Nanton, W. W. Near, A. T. Reid, Sir Edmund B. Osler and H. H. Williams.

At a subsequent meeting of the Directors, Sir Edmund B. Osler was elected President, and Mr. A. W. Austin and Sir Augustus M. Nanton, Vice-Presidents, for the ensuing term.

AUDITORS' REPORT TO SHAREHOLDERS.

We have compared the above Balance Sheet with the books and accounts at the Chief Office of The Dominion Bank, and the certified returns received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches on December 31st, 1919, we certify that, in our opinion, such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs, according to the best of our information, the explanations given to us and as shown by the books of the Bank.

In addition to the examinations mentioned, the cash and securities at the Chief Office and certain of the principal Branches were checked and verified by us at another time during the year and found to be in accord with the books of the Bank.

All information and explanations required have been given to us and all transactions of the Bank whch haive come under our notice have, in our opinion, been within the powers of the Bank.

G. T. CLARKSON
R. J. DILWORTH } of Clarkson, Gordon & Dilworth, C.A.

Toronto, January 20th, 1920.

GOVERNMENT AND MUNICIPAL BONDS

(Continued from page 42)

Bruce, K.C., supported this contention, but City Solicitor Blair held otherwise. In a letter to the city clerk, Mr. Blair said:—

"That the debentures and coupons call for payment in pounds sterling in London, New York, Montreal, Toronto and Winnipeg. That the bearer is entitled to just what the coupons state—namely, £2 10s. That the pound note and 10-shilling note, which have been legal tender in the United Kingdom since 1914, is the currency which can be made legal tender to the coupon bearers. That technically, the holders of these coupons can refuse English currency, but they have no standing to demand, in lieu of payment in English currency and as an equivalent therefor, four dollars and eighty-six and two-third cents of either American or Canadian money. Their substantial right is limited to demand a sufficient amount in Canadian or American dollars to enable them to buy at the point where payment is required £2 10s. for each coupon."

As to the danger of any prejudicial effect upon the status of Regina in the bond markets, either on this side or across the water, if the city decides to retain what Mr. Blair considers its legal right, he stated there is no fear of the city's bonds becoming unpopular, unless the Bond Dealers' Association was to assume the position that if any city or municipal corporation refused to take its dictation, they would be boycotted, and he did not believe they would openly take that position.

EXCELSIOR LIFE APPOINTMENTS

The board of directors of the Excelsior Life Insurance Co. announces the following promotions in the executive positions of the company: T. A. Dark, F.A.S., secretary and actuary, to be assistant manager and actuary; Charles P. Muckle, A.A.S., treasurer, to be secretary-treasurer.

Mr. Dark, who is an honor graduate in mathematics of Queen's University, Kingston, Ont., and a Fellow of the Actuarial Society of America, has been connected with the company for the past fifteen years, and his promotion commends itself to insurance men generally, by whom he is well-regarded.

GUARANTEE CO. OF NORTH AMERICA

Forty-seven years of business have now been completed by the Guarantee Co. of North America, which held its annual meeting on January 22. The company was founded in 1872 by Edward Rawlings, and is now under the direction of Henry E. Rawlings, president and managing director. Total income for the twelve months ended December 31 last amounted to $711,448, as compared with $492,347 in 1918 and $498,870 in 1917, the latter period having hitherto been the banner one in the company's history, which dates back to 1873. The income for the year was expanded substantially through a new item appearing in the statement characterized as "profit and loss items balance amounting to $173,203." Leaving this addition out of account altogether, however, the 1919 income exceeded that of the preceding year by $45,897 and that of the previous period by $39,374, both premiums and interest and rents showing good increases over the 1917 and 1918 figures.

Referring to the steady growth of the company since its inception, the president pointed out in his annual report that after providing for all liabilities, the payment of a dividend of 12 per cent. and a bonus of 10 per cent. during the year, in addition to setting aside the sum of $100,000 for officers and employees' retirement fund the financial statement showed that the surplus to shareholders had been increased by $140,556 to $1,753,929. Mr. Rawlings expressed the deep regret of the company at the death of E. F. Hebden, for several years an esteemed director of the home office board, and that of T. Hart Givern of Pittsburg, for many years a member of the advisory board in that city.

NEWS OF MUNICIPAL FINANCE

Tax Exemptions in Ottawa Reach Large Total—Calgary Collections Increase—Moose Jaw Assessment Figures—Annexations Increase Montreal Debt by $30,000,000 Since 1905

Truro, N.S.—Taxes collected during 1919 amounted to $99,439, and tax arrears collected amounted to $2,989. The capital account shows a bank credit balance of $3,086. The principal items of the account are: Sinking fund for matured bonds, $44,200; debentures sold, $33,285; Royal Bank loan paid, $35,000; retired bonds, $44,200.

Ottawa, Ont.—The city's total taxable assessment of $120,463,606 for 1920 taxes, as shown by the report of P. H. Veale, assessment commissioner, is made up of $54,454,669 on lands, $46,040,691 on improvements, $10,381,276 on business and $9,586,970 on income. This is a total increase of $6,071,345. The amount of exemptions is heavy, being $41,871,211. The government heads the list with a total value of $23,348,475.

British Columbia.—The Hon. John Hart, Minister of Finance, has issued instructions to his taxation officials to take means provided by the Taxation Act to enforce the payment of arrears of personal property and income taxes, and the filing of required returns of personal property and income against all persons who have not made returns or paid up arrears by February 1st. Mr. Hart is also arranging for the reassessment of all Crown granted timber lands, a step which will result in greatly increasing the revenue from that source, the tax on which is 3 per cent.

Calgary, Alta.—A comparative statement of taxes collected for the years 1918 and 1919 shows that the percentage of collections of both arrears and current taxes is increasing. There were in 1918 arrears of taxes amounting to $3,635,263, of which $692,802 were collected. There were also due in current taxes $3,116,022, of which $2,058,047 were collected, leaving an unpaid total balance of $4,000,454 at the end of December, 1918. In 1919 there were $4,000,434 arrears, of which $779,403 were collected, and $3,503,670 current taxes, of which $2,445,901 were collected, leaving an unpaid total balance of $4,278,801.

Matsqi, B.C.—The municipality has wiped out its debt of $12,500 to the bank. There is also no bonded indebtedness against the corporation. During the past four years no increase in taxes has been found necessary. The total receipts during the year amounted to $69,936, which included $41,580 for taxes, both general and school. Government grants for schools and other purposes amounted to $9,302, while there had been loans from the bank of $11,000. For roads and bridges in the four wards there had been expended $22,851, while for schools there was an expenditure of $22,674. Municipal salaries totalled $1,514, and indemnities amounted to $1,500. Loans to the amount of $13,000 had been repaid. At the close of the year there was a balance left of $1,208.

Moose Jaw, Sask.—According to a statement issued by the city assessor, the city's gross assessment on real property, business and income for 1920 will amount to $27,821,830, inclusive of $4,841,070 exemptions, leaving a balance of $22,980,760 net assessment. The following are the figures:—

Assessment.	Gross.	Net.
Land	$17,496,960	$14,860,865
Improvements	8,013,095	5,808,120
Business tax	2,109,960	2,109,960
Income tax	201,815	201,815
	$27,821,830	$22,980,760
Gross exemption		4,841,070
Total assessment		$27,821,830

The public, separate and Cobourg School assessments amount to $22,980,760. The net assessment in 1919 was slightly over $21,000,000.

Montreal, Que.—Figures submitted by the city to the legislature show that nearly $30,000,000 has been added to the city's debt by the annexations of outside municipalities during the period from 1905 to 1918. The following compilation shows the annexation of various municipalities to the city since 1905 and what debt each municipality brought:—

Year of annexation. Name of municipalities.	Total debt assumed.
1905—Villeray	$ 27,767
1906—St. Henry	1,884,350
1906—Ste. Cunegonde	794,785
1906—Rosemount	2,940
1906—Rosemount	30,000
1908—Notre Dame des Neiges	25,432
1909—Delorimier	824,994
	$ 3,590,268
1910—St. Louis du Mile End	3,175,800
Notre Dame de Grace	1,145,000
Town of St. Paul	399,000
Ahuntsic	100,000
Emard	327,000
Beaurivage	13,761
Longue Pointe	359,045
Tetraultville	14,778
Bordeaux	84,000
Cote des Neiges	15,000
Rosemount	25,000
	$ 5,658,386
1917—Cartierville	653,000
Sault-au-Recollet	1,080,000
	$ 1,733,000
1918—Maisonneuve	18,837,723
	$29,819,377

INVESTMENTS AND THE MARKET

Laurentide Shareholders Favor Reorganization Plan—Gillette Safety Razor Co. Has Good Report—Ontario Steel Products Wipes Out Stock Arrears

Holt, Renfrew and Co., Ltd.—Gross sales of the company for the eleven months ended December 31st last amounted to $3,547,431, an increase of $874,822 over the corresponding period in the previous year.

Ontario Steel Products Co., Ltd.—The directors of the company have decided to wipe out the small balance of arrears in the preferred stock, and have declared a distribution of 1½ per cent., to be paid along with the regular dividend of 1¾ per cent. on the preferred for the quarter ended December 31st, 1919.

Canadian Pacific Railway Co.—Gross earnings for December, 1919, amounted to $17,025,000, an increase of $1,274,000, and working expenses totalled $15,343,000, leaving net profits of $1,682,000, a decrease of $1,128,000. Gross earnings for twelve months totalled $176,929,000, and net profits $32,933,000, a net decrease of $1,569,000.

Canada Pyrofugent Flooring Co.—An order winding up the company has been made by Chief Justice R. M. Meredith, on the application of Hartman Krug and C. Huehn. The company was incorporated at Kitchener in 1911 with a nominal capital stock of $50,000. Its assets are now said to be $15,000 and its liabilities $30,000, while it is indebted to the Bank of Toronto for $19,000.

Hamilton Theatres, Ltd.—An offering of $400,000 7 per cent. sinking fund cumulative preferred shares, par value $100 each, is being made by a syndicate comprising Graham, Sanson and Co., Campbell, Thompson and Co. and Goldman and Co., Toronto. The stock is being offered at par, and with each preferred share there is given a bonus of one $25 common share. The company has purchased a large site in Hamilton, where it plans to erect a modern theatre, to be known as the Pantages Theatre, with a seating capacity of $2,800.

INVESTMENTS AND THE MARKET

(Continued from page 46.)

Canadian Western Steel Corporation.—W. H. McLaws, president of the corporation, has sold his controlling interest in the company to eastern capitalists. The corporation was incorporated by Dominion charter with a capital of $2,000,000, for the purpose of taking over the plants of the Canadian Western Steel Co., Ltd., at Redcliff; the Alberta Rolling Mills Co., Ltd., at Medicine Hat, and William Kennedy and Sons, Ltd., at Collingwood, Ont.

Mr. McLaws has resigned his office as president and director of the company, and new officers have been appointed. The head office of the company has been removed from Alberta to Ontario. The company will, however, have an office in Calgary and the plants in Medicine Hat and Redcliff will be carried on under the new management.

Coniagas Mines.—Shareholders of the company have been notified of a meeting on January 30, 1920, for the purpose of considering, and if approved, ratifying the purchase of the Cobalt property of the Tretheway-Cobalt Co., which has been arranged by the directors.

The Trethewey Silver-Cobalt Mine, Ltd., was incorporated on May 30th, 1906, for the purpose of operating some 43 acres of territory situated in the rich part of the Cobalt camp. The company paid its first dividend on December 20th, since which time a total of $1,151,998 has been paid to its shareholders. A year or so ago, the company acquired an option on the Castle property in the Gowganda district, since which time the control of the property has been definitely taken over by the Trethewey. Operations on the newly acquired property have been satisfactory, and it is in this direction that the Trethewey will concentrate future effort.

Gillette Safety Razor Co. of Canada, Ltd.—The annual meeting of the company was held this week, and a very satisfactory financial report was presented. Net earnings for 1919 were $821,394, compared with $514,436 in 1918, an increase of nearly 60 per cent. A factor in the company's business during the year was a substantial increase in its export trade, especially that with Great Britain and other outlying portions of the British Empire. It was announced at the meeting that negotiations have been completed for the purchase of property adjoining the present premises of the company in Montreal, containing some 13,000 square feet, with the buildings thereon. It is the intention of the executive to further extend its plant capacity.

Officers and directors were re-elected without change as follows: King C. Gillette, president; Thomas W. Pelham, vice-president; Sir Herbert S. Holt, J. E. Aldred, Howard Murray and A. A. Bittues, the latter being reappointed managing director and secretary, with Frank J. Fahey treasurer.

Laurentide, Ltd.—A special general meeting of the shareholders of the company was held this week to consider the reorganization plan laid down by the directors. Not one dissenting vote was recorded. The plan as laid down calls for the taking over of the assets, plants, etc., of Laurentide, Ltd., as a going concern by the newly incorporated company, Laurentide Co., Ltd., capitalized at $35,000,000. The stock of the new company will be distributed to holders of the stock of the old company in the proportion of three new shares for each one of old now held, and it is understood that the distribution of the stock of the new company will be undertaken immediately the old stock is turned over to the Royal Trust Co., which has charge of the operation.

In speaking of the plan, George Cahoon, Jr., president of the company, who occupied the chair, pointed out that the extension of the organization was one that was necessary from the point of further development. He said that the company was a rapidly growing one, and that operations were being further extended, and that the present plan, when adopted, would go far towards allowing for this expansion.

RECENT FIRES

Hatton, Sask.—January 11—General stores of Fred Maier and A. and J. Jahnke were damaged. It was stated in these columns last week that the above fire was at Hatton, Alta., which was an error.

Houlton, N.B.—January 14—Bangor and Aroostook Railroad Co. yards, with one passenger coach, were destroyed. Another coach was badly damaged, together with the roundhouse. Insurance is carried by the government.

Kenmore, Ont.—January 19—Building of the general store belonging to J. H. Conn was damaged. Estimated loss, $25,000.

Moncton, N.B.—January 17—Grand Opera House was damaged. Cause, presumed to have originated from the heating apparatus. Estimated loss, $8,000, fully covered by insurance.

New Westminster, B.C.—January 16—W. A. Fraser's delicatessen shop and the Canada repair shop, situated at the corner of Smyth and Granville Streets, were damaged. Estimated loss to the former, $2,500, and to the latter, $500.

Portneuf, Que.—January 22—Home of Chalegne Page was destroyed. Cause, candles setting fire to draperies. Four deaths.

Quebec, Que.—January 15—Two-story factory of Dombrowski Brothers, Ltd., furniture manufacturers, situated at the corner of St. Dominique and St. Francois Streets, was damaged. Cause unknown. Estimated loss, $2,000. Insurance carried, $1,500.

Riceburg, Que.—January 24—Two barns, owned by Ernest Fournier, together with eight head of cattle, four horses, farm implements and a double wagon, were destroyed. Cause unknown. Estimated loss, $5,000.

St. Stephen, N.B.—January 13—Several buildings in the Toal Block, on Water Street, were damaged. The principal losers are as follows: D. E. Anderson, tinsmith; Casey Brothers, barber shop, and Robert Young, photographer. Estimated loss, $5,000.

Toronto, Ont.—January 23—Basement of Strong's drug store, situated on Dundas Street, was damaged. Cause unknown. Estimated loss, $3,000.

January 26—Building of the mill machinery foundry of W. and J. Greey, Church and Esplanade Streets, was damaged. Estimated loss to building, $25,000, and to contents, $40,000.

Tweed, Ont.—January 22—Building occupied by Mr. Conkwright was damaged. Estimated loss, $5,000. Insurance carried, $1,500.

Verdun, Que.—January 16—Building of the city hall, with contents, was damaged. Cause, presumed to have been from electric wiring. Estimated loss, $500.

Waldron, Sask.—January 22—Several buildings were damaged. The losers are: Finnie's house, J. J. Keith's store and offices, a telephone storehouse, an empty store and the Waldron pharmacy. Cause, presumed to have started from an overheated stove. Estimated loss, $8,000. Insurance carried, $4,000.

Westport, Ont.—January 19—The blacksmith shop and barn, together with contents, owned by James M. Cann were destroyed. Two valuable horses were burned. Loss partly covered by insurance.

Westville, N.S.—January 25—Building owned by Scotia Lodge, I.O.O.F., was destroyed. Estimated loss, $15,000. Insurance carried, $3,000.

Windsor, Ont.—January 17—Building of Sutton's undertaking parlors was damaged. Estimated loss, $3,500. A quantity of lumber owned by the D. M. Ferry Co., situated on McDougall and Sandwich Streets, was destroyed.

January 18—Buildings at 189, 191 and 193 Wellington Avenue, occupied by E. Collard, R. Jones and B. E. Robert, were destroyed.

Winnipeg, Man.—January 15—Frame building, owned and occupied by A. Abrahamson, used as a furniture factory, situated on 605 Dufferin Avenue, was destroyed. Estimated loss, $1,800. Insurance carried, $1,200.

ADDITIONAL INFORMATION CONCERNING FIRES

Chambly Canton, Que.—December 24—The fibreboard mill and counter factory, owned and operated by Messrs. Bennett, Ltd., were damaged. Cause, unknown. Estimated loss, $183,686. Insurance carried in the following companies: Union, of Canton, $3,200; Caledonian, $5,000; North British and Mercantile, $5,000; Commercial Union, $5,000; Royal Exchange, $5,000; Alliance, $2,500; Western, $2,500; Employers, $2,500; Norwich Union, $2,500; Atlas, $1,500, Atlas, $1,500, Atlas, $2,500; Guardian, $15,000; Niagara, $10,000; Insurance of North America, $5,500; Home, $5,000; Sun, $5,000; Providence-Washington , $2,500; Northern, $2,000; Globe and Rutgers, $2,500; British American, $2,500; Guardian, $15,000, Guardian, $600; Continental, $1,700; Northern, $8,000; Continental $1,000; North British and Mercantile, $10,000. Total insurance, $125,000.

Galt, Ont.—January 3—The pattern shop belonging to the Katie Foundry Co., with contents, situated on North Water Street, was damaged. Cause, overheated stove. Estimated loss to building and contents, $6,300.

Manitoba.—The fire commissioners report for the year ended December 31st, 1919, for the province of Manitoba shows that the total amount of fire loss during the year was $1,634,862, or $2.667 per capita, a drop of almost 50 per cent. of that of previous years. Nevertheless, the fire loss still exceeds its just amount by fully 80 per cent., due to preventable causes. The net loss incurred by insurance companies was $937,201, with unadjusted losses in the amount of $164,471, or a total adjusted and unadjusted loss of $1,101,672 for the year, a decrease of $800,221 from that of the previous twelve months, $562,638 from that of 1917, and the lowest loss sustained by insurance companies in any year since 1912.

Milliken, Ont.—January 5—A bank barn, two silos and contents were destroyed. Cause, spontaneous combustion. Estimated loss, $9,418. Insurance carried in the Merchants Co. to the amount of $4,000.

Moncton, N.B.—January 5—The power plant and machine shop of the Record Foundry and Machine Co. were destroyed. Cause, explosion of oil vat. Insurance carried, $85,000. Insurance allowed, $45,650.

January 17—Grand Theatre was destroyed. Insurance carried on building and contents, $15,000. Insurance allowed on building, $9,750; on contents, $3,000.

Moose Jaw, Sask.—January 12—The Canadian Garage, situated at the corner of First Avenue N.E. and River Street E., was damaged. Cause, supposed to have been from spontaneous combustion in sheet celluloid. Estimated loss on building, $3,891. Estimated loss on contents, $6,749. Insurance carried on building, $16,000. Insurance carried on contents, $29,200. The following companies are interested: British American, Canadian Fire, Century, Fidelity Phenix, Home Insurance Co., Occidental, Pacific Coast.

New Westminster, B.C.—January 5—The fire loss during 1919 was $8,866. The property value was $760,000.

Parry Sound, Ont.—January 17—Oddfellows' Hall was damaged. The occupants of the first floor were E. J. Vincent, Ltd., and Dominion Express. Estimated loss, $2,050. Insurance carried, $27,800. Occupants of the second floor, Corporation offices, Dr. M. T. Armstrong's dental studio, rear of I.O.O.F. Insurance carried, $700. The third floor was occupied by the I.O.O.F. Estimated loss, $6,500. Insurance carried, $11,080.

Villages of Rock Island and Stanstead, Que.—January 5—The frame schoolhouse and dwelling combined of the Stanstead Wesleyan College, teachers and students, was destroyed. Cause unknown. Estimated loss on building, $5,764; on contents, $1,650. Insurance carried in the following companies: Royal, $1,000; Union, $1,000; London and Lancaster, $3,000. Total insurance on building, $5,000; on contents, $1,000.

Wiarton, Ont.—January 5—McLaren's music store was damaged. Cause unknown. Estimated loss, $900. Insurance carried in the Globe and Rutgers Insurance Co. of New York, to the amount of $1,000.

Bank Statement Reflects Quiet Month

Loans in Canada Show Slight Increases—Deposits Fail to Recover From Victory Loan Effects — Dominion Government Accounts Show Big Reduction — Circulation, and Holdings of Coin and Notes, Fall Off.

	December, 1918.	November, 1919.	December, 1919.	Year's inc or dec.	Month's inc. or dec.
Deposits on demand	$ 711,034,060	$ 728,657,589	$ 703,329,292	— 1.1	— 3.0
Deposits after notice	958,473,557	1,137,858,277	1,138,086,691	+18.1	+ .09
Current loans in Canada	1,075,640,003	1,189,408,523	1,207,109,046	+12.3	+ 1.0
Current loans elsewhere	119,153,924	149,302,293	168,955,696	+41.2	+12.7
Loans to municipalities	30,684,052	52,703,363	42,635,290	+40.0	—19.2
Call loans in Canada	89,120,423	121,754,469	125,888,760	+40.4	+ 3.3
Call loans elsewhere	150,248,322	169,626,880	172,232,161	+14.8	+ 1.8
Circulation	240,705,540	248,073,385	247,611,079	+ 2.9	— 4.0

THE above are the principal changes shown by the statement of chartered banks for December, issued by the Finance Department. As the changes for the month are not great, the statement appears colorless, but some of the items reveal the early stages of business contraction. Circulation decreased, loans in Canada are about the same, and deposits have failed to recover to any extent.

No new capital has been authorized or subscribed, but small amounts have been added to paid-up capital and reserve, as follows:—

	Capital subscribed.	Capital paid-up.	Reserve.
Merchants	.....	$ 9,130	.....
Provinciale	.....	11,245	.....
Union	.....	12,040	.....
Hamilton	.....	3,560	1,780
Home	.....	87	.....
Sterling	.....	1,242	.....
	.....	$37,304	$1,780

The balance due to the Dominion government is only $224,926,921, compared with $350,381,389 at the end of November. The holdings of Dominion and provincial government securities fell off by over $185,000,000. Both these changes are due, chiefly, to the maturing of four-months' treasury bills, which had been bought by the banks to finance the Dominion during the year, and which were redeemed from the proceeds of the Victory Loan. Balances due to provincial governments show an increase of $1,500,000.

In connection with the deposit accounts, it is interesting to note that while the demand deposits decreased greatly and savings deposits are about the same, those outside of Canada jumped by $15,000,000. Over twelve months the Canadian record is as follows:—

	Deposits payable on demand.	Deposits payable after notice.
1918—November	$666,366,359	$ 939,329,271
December	711,034,060	958,473,557
1919—January	623,919,410	990,000,085
February	566,775,434	1,018,184,512
March	566,797,268	1,037,851,766
April	571,412,857	1,070,985,080
May	$568,730,118	$1,107,983,072
June	605,927,027	1,139,569,570
July	584,176,765	1,175,092,155
August	584,300,855	1,196,632,931
September	650,743,015	1,277,437,715
October	705,280,241	1,262,746,984
November	728,657,589	1,137,858,277
December	703,329,292	1,138,086,691

The course of deposits account during the past six years in shown in the following table:—

Dec.	On demand.	After notice.	Total.
1914	$349,909,953	$ 662,830,037	$1,012,739,990
1915	423,690,384	720,990,267	1,144,680,651
1916	458,208,417	845,006,717	1,303,215,134
1917	569,441,871	995,978,013	1,565,419,884
1918	711,034,060	958,473,557	1,669,507,617
1919	703,329,292	1,138,086,691	1,841,415,983

Turning to the assets' statement, holdings of coin and notes show the following changes for the month:—

Gold and sub. coin in Canada	— $ 614,982
Gold and sub. coin elsewhere	— 3,049,568
Total	— $3,664,550
Dominion notes in Canada	— 5,944,708
Dominion notes elsewhere	+ 28,039
Total	— $5,916,669

The following table shows the course of principal loan accounts during recent years:—

Dec.	Current loans in Canada.	Current loans elsewhere.	Call loans in Canada.	Call loans elsewhere.
1914	$ 786,034,378	$ 43,413,760	$ 68,511,653	$ 85,012,964
1915	775,517,947	58,479,739	84,228,155	137,157,869
1916	820,378,557	76,396,720	82,569,983	173,878,134
1917	858,533,298	111,581,098	71,779,020	134,483,482
1918	1,075,640,003	119,153,924	89,120,423	150,248,322
1919	1,207,109,046	168,955,696	125,888,760	172,232,161

Of the deposit in Central Gold Reserves $10,500,000 is in gold coin; the balance is in Dominion Notes.

T. C. BOVILLE, *Deputy Minister of Finance.*

CANADA TRUST COMPANY

The Canada Trust Co., London, Ont., reports net profits of $140,352 for the year 1919, compared with $140,136 a year ago. The usual 8 per cent. dividend was paid, amounting to $79,992. Dominion taxes amounted to $14,219 and provincial and municipal taxes to $5,235. The amount transferred to reserve was $25,000, compared with $50,000, and the balance carried forward is $20,756, as against $5,601. Assets have increased from $9,910,267 to $10,780,775. The chief change is an increase of $140,000 in mortgages on capital account, which now amount to $838,937, an increase of $220,000 in mortgages in guaranteed funds, a growth of $140,000 in mortgages, bonds and debentures in estate funds, and of $500,000 in unrealized assets in estate funds.

CANADIAN BRITISH AND FOREIGN BANK

Application will be made at the coming session of parliament for an Act to incorporate the "Canadian British and Foreign Bank," according to a notice in the Canada Gazette. Power to carry on banking and financial business of all kinds outside of Canada only is asked, and also to carry on "business as dealers in general merchandise and gold and silver bullion and other metals, and to hold and deal in real estate and the shares and securities of other companies, and to act as trustee for companies and individuals, and to carry on such other businesses and occupations as may be conveniently carried on in connection therewith, and with such other powers and privileges as may be incidental, necessary or useful."

NORTHERN MORTGAGE CO.

The tenth annual shareholders' meeting of the Northern Mortgage Co. was held in Winnipeg, Man., on January 26, and the financial report for 1919 submitted. The report showed that the net profits for the year were $121,781, an increase of $6,921 over the earnings of the previous twelve months. The sum of $94,797 will be divided among the shareholders in dividends. According to the report the company has invested $195,463 in government and municipal bonds, and during the year paid taxes to the amount of $15,881, double the amount paid in 1918.

The election of directors for the ensuing year resulted as follows: J. H. Ashdown, A. Macdonald, G. W. Allan, K.C., J. A. McDougall, W. H. Malkin, C. S. Riley, G. R. Crowe, J. Robinson, G. F. Galt, Capt. W. Robinson and F. W. Stobart.

DOMINION BANK APPOINTMENTS

Following its annual meeting last week, the Dominion Bank announced a number of important appointments. Two assistant general managers are included, one for Toronto and one at Winnipeg. It was also announced that Arthur Pepler, who has been an official at the head office and has been thirty-nine years with the bank, occupying many important positions, retired on February 2, and will take up his residence in England. The new appointments are as follows: Assistant general managers, W. K. Pearce, head office, Toronto; F. L. Patton, Winnipeg; superintendent of branches, E. A. Begg; chief inspector, W. C. MacAgy; eastern inspector, Dudley Dawson; assistant inspector, T. W. Joyce; chief accountant, head office, W. B. Tannahill.

MONARCH LIFE ASSURANCE CO.

Good results were reported at the annual meeting of the Monarch Life Assurance Co., held in Winnipeg, on January 28. In 1919 the applications received for insurance amounted to $8,031,156, as compared with $5,604,180 in the previous year. The total insurance in force at the close of 1919 was reported as $20,129,349, compared with $15,171,809 at the close of the previous year. The total premium income was increased from $422,118 in 1918 to $603,013 in 1919. Total assets were increased from $1,118,510 to $1,359,157. The interest earned on company funds was maintained at the high figure of 7.42 per cent.

W. A. MATHESON

The late J. T. Gordon, who had been president of the company, was succeeded in that position by W. A. Matheson, general manager of the Lake of the Woods Milling Co., who was vice-president for several years. F. W. Adams, formerly second vice-president, is now vice-president. The other directors are W. P. Riley and W. L. Parrish (both newly elected), H. A. Mullins, R. G. Ironside, H. W. Echlin and J. W. W. Stewart, managing director.

WINNIPEG MAY REVIVE EXHIBITION

Plans Discussed at Board of Trade Meeting—West Indies Trade Resolution Adopted

(Special to *The Monetary Times.*)

Winnipeg, Feb. 5th, 1920.

AT the monthly dinner of the Winnipeg Board of Trade on February 3rd, hemp-growing on a large scale in western Canada was discussed and will become a reality. The initiative in this gigantic scheme, which will ultimately mean the establishment of fibre mills in Winnipeg and other western points, is credited to Col. William Grassie, who has the full support of the Winnipeg Board of Trade. Col. Grassie, who has spent about fifteen years in the study and development and adaptation of hemp-growing to Manitoba's soil, explained at some length the prospects of putting it on the market in 1921.

Good Exhibition Wanted

The revival of the Winnipeg Exhibition was also urged by several speakers. W. E. Milner, managing secretary, declared that unless the Winnipeg Exposition is re-established the position of the city will suffer seriously. Mr. Milner dwelt on the need for the revival of Winnipeg's Exposition, and pointed to a way to finance it. He proposes that Winnipeg float bonds to the amount of $1,000,000 to cover these. He says Manitoba could advance $25,000, Winnipeg citizens in a special tax levy $27,000, and the Board of Trade the other $27,000 to make a sinking fund of $81,000, sufficient to meet the debt at maturity. An operating company could be formed with a capital of $200,000.

The quarterly report of the Board of Trade shows excellent financial development in the board, and figures for the past six months showed that receipts had totalled $55,575, expenditures were $35,240, leaving a balance of $20,334.

Trade with West Indies

C. W. Rowley read and moved the adoption of a resolution of the Montreal Board of Trade, advocating closer trade relations with the British West Indies and British Guiana. Geo. W. Markle seconded the motion, and it was adopted. It is being presented to the various members of the Canadian government and will be read at the meeting of the Associated Boards of Commerce of British West Indies and British Guiana at Barbados, February 23rd.

PACIFIC COAST FIRE INSURANCE CO.

In the news item last week referring to the above company, $45,000 was stated to be the net premiums for 1919. The company now advises us that this was the increase in the net premium income.

PORTAGE LA PRAIRIE FARMERS' MUTUAL

The annual statement of the Portage la Prairie Farmers' Mutual Fire Insurance Co. for 1919 shows that the increase in policies issued exceeded any previous year, and that the total insurance in force amounts to $51,556,343. The assets show an increase of $121,119. The company has made a further investment of $10,000 in Dominion war loans and $10,000 in Manitoba Farm Loans Association bonds, making a total investment in bonds of $70,000. Claims have been exceptionally heavy, a total of $137,508, of which fire claims amounted to $96,620, a big percentage of the losses being due to carelessness. Lightning claims were $13,657, and $25,231 was paid for damage done by wind storm. In thirty-six years the company has paid the farmers of Manitoba over one million dollars in loss claims.

TWO NATIONAL RAILWAY SYSTEMS

DIVIDED into two camps on the most important ownership question in this country at the present time, the Canadian people are awaiting the outcome with considerable interest. Two railroads, each national in extent, the one privately owned and the other the property of the people, now serve every important section of the Dominion. Though some look upon this as a permanent arrangement, yet it is at least without precedent in railroad history. The probability is that the situation will be found untenable, and a very few years will probably find some decision reached.

Apparently theoretical discussions did not suffice to decide the question, and a decision of the utmost importance to this country depends on railroad experience during the coming years. Writing in the annual financial survey of the Toronto Globe, D. B. Hanna, president of the National Railways, said that thus far the public system was progressing satisfactorily, that politics were not permitted to interfere with operation or construction, and that the day of the small road was done. In retrospect of the year's operations, he said:—

"The activities of the year have, therefore, been sufficient to test out the management under government ownership. I am glad to state for the information of those who wish us success, but who doubt that this can be achieved, that I have not observed the slightest tendency of officers to become slack, or in any way to lose their interest. Our men are as much on the job as any railway officers I have come in contact with, and, man for man, I do not think the staff of the Canadian National Railways is surpassed anywhere on this continent. We have been watching very carefully the train operation, particularly where the service initially was not satisfactory, and I am glad to say that we see a marked improvement. We shall continue our efforts, and hope that 'national service' will become synonymous with 'good service.'"

Mr. Hanna did not hesitate, however, to appeal for public support, on the ground that it is the people's own road. "When it is realized," he said, "that over 50 per cent. of the country's railway mileage will, with the inclusion of the Grand Trunk lines, be operated by the Canadian National system, it should be appreciated to what a great extent the future welfare of Canada may be affected by the success or failure of the national system, and the public generally should support the line which is national in ownership and extent, and which the management desires should be truly national in helpful identification with Canada's development as a nation." Such an appeal is scarcely in accord with Mr. Hanna's other expressions.

Private ownership advocates are not by any means inactive. Though the general tendency towards public ownership would indicate that the advantage is on that side, yet public opinion is susceptible to sudden change, and it is quite possible that this weighty factor may swing in favor of private ownership. Recent expressions of opinion in the United States show general dissatisfaction with government operation. A government, moreover, always has many enemies, who will not hesitate to divert business from it, while a corporation's enemies are necessarily few.

E. W. Beatty, president of the Canadian Pacific Railway, addressed the Canadian Club in Winnipeg, a few days ago. He referred to an opinion recently expressed by Mr. Hanna to the effect that, "notwithstanding the fact that the Canadian Pacific had occupied a very unique and strong position within the empire, in a few months' time it would be number two instead of number one." "I imagine," said Mr. Beatty, "that Mr. Hanna and myself could ist down to-day and discuss with the utmost candor the general railway situation. Incidentally to that, we could, I think, agree without much discussion as to which was number one and which was number two. I say this without any hesitation or reservation, because I know what a wise and experienced man Mr. Hanna is. I can say with equal confidence, I think, that five years from now Mr. Hanna and I could discuss the question with equal frankness and agree between ourselves as to which was then number one and which was number two. Of course, it would be the same railway, but as I have said, Mr. Hanna is a very wise man. Five years hence he may even be wiser than he is now, but that would not be necessary to enable him to reach a correct conclusion."

"Mr. Hanna has recently adopted the role of prophet for the National Railways. He is a cheerful prophet, and he paints a glowing picture of the future of the properties under his charge. This is as it should be, and he is wise in making it as attractive as possible. He has recently taken his pencil in hand and added together the joint mileages of the Canadian Northern, Intercolonial, Transcontinental, Grand Trunk and Grand Trunk Pacific railways in Canada and the United States; he has likewise added the number of engines and cars of all descriptions, tons of freight carried on all systems and has concluded the National Railways are, or will be, the greatest railway system in the world. I do not dispute his figures as to mileage, and I do not imagine it is of much public importance whether the gross earnings of the combined systems are greater or less than the Canadian Pacific. Up to the present, they are less, although the mileage is greater, but I do say that the test of the best or worst railway is not necessarily determined by mileage, and 'best' and 'biggest' are not necessarily synonymous terms. Companies must stand or fall on the character of the service they render, and if one railway's service is consistently better than another's, if its officers are more efficient, its service more expeditious and its business transactions with the public more satisfactory, it is the railway which will be rightly regarded as the best, whether its mileage be somewhat more or somewhat less than its rival's."

THE "MADE-IN-CANADA" CAMPAIGN

ABOUT one year ago the executive council of the Canadian Manufacturers' Association decided to intensify the "made-in-Canada" campaign which has been carried on for years. The association through its head office and branches, enlisted the co-operation of public bodies and other organizations. Attention was called to the fact that the United States sells Canada nearly double what we sell them, and this condition has an important bearing upon the exchange situation. The association co-operated also with organizations of engineers and architects with a view to encouraging them to specify Canadian material whenever possible in Canadian contracts. Representations were made to the government and to the legislatures urging upon them the necessity of purchasing Canadian goods, so far as practicable, for all government requirements. Various women's organizations passed resolutions urging upon women buyers the necessity of patronizing goods produced in this country. Exhibitions of "made-in-Canada" goods are being promoted at home and abroad. Labor papers also gave strong support to the campaign, advising the purchase of goods made by Canadian workers.

Another appeal is now made to the members of the association, under date of January 28th. Advertisers are requested to indicate that their goods are Canadian made, and to use Canadian products where possible in their own concerns.

CONTROL OF COMPANY PROMOTION

"BLUE sky law," so-called because it aimed to check the sale of corner lots in the blue sky, has been a leading experiment in financial legislation during the past ten years. Its enactment has been the bogy of crooks, but its operation has been the despair of reformers. Experience in this kind of legislation was described by Thomas Mulvey, under-secretary of state for Canada, to the manufacturers of Toronto on January 29th.

The first blue sky law was passed in the state of Kansas in 1911, and provided that the state banking commissioner should pass on the merits of securities before they should be offered. Two questions arise in considering legislation of this kind, said Mr. Mulvey. The first is whether such legislation is founded on good principles; and second, if the underlying principles are sound, whether it can effectively be carried into operation. Referring to the former question, Mr. Mulvey said that it "hits at freedom of contract and individual responsibility and invokes bureaucratic methods which must be intolerable. No doubt great losses are sustained through fraudulent promotions just as there is great distress, misery and want through intemperance, but it is dangerous to introduce measures which, in their operation, may create greater evils than those they are intended to allay."

Mr. Mulvey also showed that in operation, such legislation had been far from satisfactory. The subject was recently investigated by a New York State commission, and the majority report was against any legislation of the kind. It favored, on the other hand, conferring authority on the attorney-general to investigate commercial frauds on the complaint of any one defrauded. A minority report favored regulations similar to those provided in the British Companies Act.

Several provinces in Canada have considered legislation of this kind, and Manitoba has for some time had on its statute books a Sale of Shares Act containing provisions for the examination of companies proposing to offer securities for sale. A bill was introduced at the last session of the Ontario House, but withdrawn when certain difficulties were pionted out. Saskatchewan now has a similar bill under consideration. It is certainly desirable that any legislation of this kind should err on the side of moderation, for the harm that results from hampering legitimate development more than offsets the saving in preventing fraudulent issues.

One thing of which Mr. Mulvey spoke favorably was the issue of shares with no par value. When asked for his personal opinion on the advisability of blue sky legislation, he said he thought sufficient control could be exercised through provisions in the company's acts of the provinces.

ROUNDING OFF BANKING SERVICE

IN this issue of *The Monetary Times* the address given by R. F. McWilliams, of Winnipeg, to the convention of rural credits societies at Winnipeg, is given in summarized form. It may seem that the space given to his movement is out of proportion to the volume of business handled by the rural credit societies, but in view of the continued agitation for a change in the banking system it is desirable to know the possibilities, and also the limitations, of the Manitoba Rural Credits' Act. While G. W. Prout initiated the movement and fathered the act through the provincial legislature, it was Mr. McWilliams who actually drafted it, and he therefore speaks with authority regarding the legal position of lender and borrower under it.

The west is responsible for most of the agitation for banking reform. A resolution was passed by the Saskatchewan legislature in 1916, asking the federal government to enable the formation of agricultural banks. As recently as January 27th Hon. W. F. A. Turgeon, attorney-general for Saskatchewan, spoke in the legislature in favor of jurisdiction being given to the provinces in matters of banking, by amendment to the British North America Act. W. T. Badger, member for Rosetown, Sask., suggested that the provincial government might be a shareholder in such banks to the extent of about fifty per cent. Should a farmers' government come into power at Ottawa, the door would then be open to changes of this kind.

The rural credit societies of Manitoba have proved a fairly effective link between the bank and the agricultural borrower. At the same time no saving in cost is apparent. The assumption of responsibility by the local society makes the security satisfactory to the bank, and an intimate knowledge of the affairs of each borrower is therefore not necessary. Through being relieved of this work, the bank is able to lend at the rate of six per cent. The arrangement is, therefore, a division rather than a saving of work. Similar results might be obtained by the organization of local banks to supplement the chartered banks, but in any case the latter must remain the distributors of funds. That policy which looks to a maximum of safety and profit, applied in competition with the other banks, must result in the most economical distribution of bank funds through the different sections of the Dominion.

Trade with the Orient

With correspondents of the highest standing in China, Japan, India and other countries of the Orient, and branches in all the principal ports on the Pacific coast of North America, namely:

Prince Rupert	Portland, Ore.
Victoria	Seattle
Vancouver	San Francisco

this Bank is excellently equipped to serve the interests of Canada's growing trade with the Orient.

J. P. BELL - - General Manager

PERSONAL NOTES

Capt. W. M. Weir has resigned from the vice-presidency of J. A. Mackay and Co. Ltd., bond dealers, Montreal.

Mr. Frederick Williams, manager in Canada for the Motor Union Insurance Co., has just returned from a trip to England.

Mr. B. Hazen Porteous has been elected a member of the Montreal Stock Exchange. He is a member of Burnett, Porteous and Co., Montreal.

Mr. H. K. Carruthers, has accepted the position of secretary of the Ottawa Board of Trade, and will officially take over his duties on March 1st.

Mr. Colin O. Cameron, of the brokerage firm of Thornton, Davidson and Co., Montreal, has been elected a member of the Montreal Stock Exchange.

Mr. W. P. Hickey has been admitted to partnership in the Montreal Stock Exchange firm of McCuaig Bros. and Co. Mr. Hickey has been with the firm for 11 years.

Mr. C. Hawkes, assistant general manager of the Queensland Insurance Co., Ltd., has arrived in Canada from Australia, and is now on his way from Vancouver to Montreal.

Mr. W. M. Neal, formerly secretary of the Canadian Railway Association, has been appointed assistant general superintendent of the Canadian Pacific Railway Co., with office at Montreal.

Mr. W. T. McKee, formerly director and secretary-treasurer of Imperial Oil, Ltd., has tendered his resignation. Mr. McKee has spent 45 years in the various branches of the oil business.

Mr. J. Byard Warnock has just resigned his position as superintendent of production, Massey-Harris Co., Ltd., (Toronto works), to accept the secretary-treasurership of the Federal Finance Corporation, Limited, Royal Bank Building, Toronto. Mr. Warnock is a native of Galt, Ont., son of the late James Warnock, but has been in the employ of the Massey-Harris Co., in Toronto, for the last eleven years. Mr. Warnock will be more especially concerned with the investigation of proposed issues, in which work his factory experience will be invaluable. The Federal Finance Corporation was organized about six months ago by John W. Garvin, formerly with A. H. Martens and Co., Toronto.

Mr. E. P. Frederick, of Ottawa, who has in the past had wide experience in chamber of commerce work and civic activities, has been selected as secretary-manager of the Belleville Chamber of Commerce.

Mr. Geo. Hadrill, secretary of the Montreal Board of Trade, has resigned after 43 years service. Mr. J. Stanley Cook, who has for many years past acted as assistant secretary, has been appointed to succeed Mr. Hadrill.

Mr. George H. Montgomery, K.C., has been elected a director of the new Laurentide Co., Ltd. Mr. Montgomery for some time past has been closely associated with the Grand'Mere enterprise in the capacity of legal adviser.

Mr. R. G. Ramsay and **Mr. A. N. Mitchell** have been appointed assistant general superintendents of the home office of the Canada Life Assurance Co. Mr. G. H. James has been appointed assistant secretary of the company.

Mr. Cecil Bethune, after twenty-one years service as secretary of the Ottawa Board of Trade, is retiring. On February 3rd last a banquet was held in his honor, during which time he was the recipient of a fine silver tea service.

Mr. J. D. Cherry has been appointed manager of the Montreal Agencies, Ltd., Montreal, succeeding Mr. O. W. Pease, who retired January 1st. The Montreal Agencies are Canadian managers for the Queensland Insurance Co., Ltd.

Mr. V. E. Gray, M.A., LL.D., assistant to R. W. Breadner, commissioner of taxation for Canada, has been appointed superintendent of insurance and loan companies in Ontario. Mr. F. Sanderson, F.A.S., has been appointed consulting actuary.

Mr. Robert Mathison, for 37 years a member of the Independent Order of Foresters, has been appointed to succeed Frederick J. Darch, who died suddenly recently, as supreme secretary of the order. George R. Cottrelle will succeed Mr. Mathison as supreme treasurer and George E. Bailey becomes assistant supreme secretary.

Mr. W. H. Somerville, A.I.A., has been appointed to fill the position of assistant general manager of the Mutual Life Assurance Co. of Canada, which position has just been created. Mr. H. M. Cook, A.I.A., F.A.S., has been appointed to the position of secretary to take the place of Mr. Somerville. Mr. E. W. Smith, formerly chief clerk of the premium department, has been appointed to the position of agency auditor, and Mr. George M. Fisher to the position vacated by Mr. Smith's appointment.

OBITUARIES

Mr. F. J. Darch, supreme secretary of the Independent Order of Foresters, died in Toronto on January 23rd.

Mr. Sydney Hood, assistant financial and commercial editor of the Toronto Globe, died on January 31 last.

Mr. W. M. Fisher, for many years manager of the Canada Permanent Mortgage Corporation in Winnipeg, died recently.

Mr. Fraser C. Mackenzie, Toronto manager of Warwick, Mitchell, Peat and Co., chartered accountants, died on February 3.

Mr. Roland Lewis, assistant accountant of the Trade and Commerce Department, Ottawa, died at Barbados, West Indies, on January 31.

Lieut.-Col. John Knox Leslie, of Toronto, died last week in his 74th year. Colonel Leslie, as a young man, was engaged in the banking business with the Canada Permanent Loan Co.

Mr. Geo. Boyd Wickes, manager of the Empire Life Insurance Co., died in Toronto last week. He came to Canada about thirteen years ago, spending three years in British Columbia and three years in Montreal before coming to Toronto about seven years ago.

Mr. Z. A. Lash, K.C., a prominent Toronto lawyer and financier, died on January 24 last at his home, 59 Admiral Road. For over half a century Mr. Lash was a member of the bar of Ontario. He made a special study of corporation law, not only in the interpretation of it but in the manufacture of it; one of his great achievements was the drafting of the Bank Act as it now stands. Born in Newfoundland in 1846, Mr. Lash came to Ontario for his early education. He was admitted to the bar in his twenty-second year, and at the age of thirty he was appointed as Deputy Minister of Justice at Ottawa. He left the department to associate himself with S. H. Blake, Q.C., who had just returned to the firm which J. A. Boyd, Q.C., had left to become chancellor.

PORTAGE LA PRAIRIE FARMERS' MUTUAL FIRE

Policies issued by the Portage la Prairie Farmers' Mutual Fire Insurance Co. during the year 1919 totalled $22,134,648 compared with $17,700,449 during 1918. Business in force shows an increase of over $7,500,000, and assets now exceed $900,000. The company experienced heavy loss claims, the total being $137,508 compared with $68,477 for 1918.

Total receipts for the year were $259,671, including $74,777 brought forward from 1918, and the 1919 assessment of $153,168. In addition to paying the loss claims, $28,275 was paid out in commission to agents and $20,000 was invested in bonds. The complete financial statement is shown elsewhere in this issue.

STANDARD TRUSTS CO.

Profits of the Standard Trusts Co., Winnipeg, for the year 1919 were $116,645 compared with $120,943 for 1918. Dividends at 9 per cent., the same rate as last year, required $90,000, and a balance of $26,645 is therefore carried forward. The company's assets are now $2,958,741 compared with $2,973,251 at the end of 1918. Trusts assets show an increase of almost $3,000,000, but agency assets are slightly less than last year. The report is given in detail elsewhere in this issue.

One or two changes have taken place in the company's organization, the most important being the appointment of Manlius Bull to the presidency, in succession to the late Mr. Gordon. John McFarland, president of the Alberta Pacific Grain Co., and J. C. Gage, president of the Consolidated Elevator Co., are the new directors, succeeding the late Mr. Gordon and G. F. Stephens (retired on account of ill-health). With regard to the staff proper, M. W. L. Murray becomes the company's secretary in the stead of W. E. Lugsdin, who resigned, and the office of treasurer has been created distinct and apart from the secretaryship, and vested in James Carmichael. Those two officers have been in the company's employ for many years, and have been transferred from Saskatoon office to the head office at Winnipeg. B. S. McNiece succeeds Mr. Murray as the former manager at Saskatoon, being transferred from Edmonton to Saskatoon office, while C. E. Wiggins succeeds B. S. McNiece at the Edmonton office.

HOME INVESTMENT AND SAVINGS ASSOCIATION

A comparison of the balance sheet for 1919 of the Home Investment and Savings Association with that of 1918 shows that assets have increased by $128,000. Mortgage loans, however, have declined by over $200,000, but a new item among the assets, "contracts receivable on real estate fore-closed and re-sold" amounts to the substantial figure of $283,171. Investments in war loans have also been increased from $45,128 to $182,292. Real estate holdings on the other hand have been reduced from $226,643 to $137,579. The liabilities statement shows that while the amount of debentures outstanding has declined by $42,000, deposits on the other hand have increased by $152,000. There is very little change in the liabilities to shareholders.

The results for the year 1919 were discussed by the shareholders at the annual meeting held on February 2nd. Net profits for the year were $101,230, slightly less than last year. After paying taxes and adding the balance brought forward, there was a total of $154,355 available. Dividends at 8 per cent., the same rate in 1918, required $79,357 and a balance of $74,997 is carried forward compared with $68,980 brought forward from 1918. In addressing the shareholders the president, M. Bull, said that owing to the conditions of the money markets the board had decided to retire debentures as they fall due. He also commented upon the reduction in the real estate on hand.

Details of the report are given in this issue.

BRITISH COLUMBIA FOREST FIRES

Statistics covering the forest protection season during 1919 now issued for publication by Hon. T. D. Pattulo, minister of lands in the British Columbia government, disclosed the fact that the number of fires reported in the province, excluding the railway belt, was 1,120. In 1918 the number was 910. The amount of green timber damaged by fire last year totalled 237,000,000 board feet. Out of this quantity it is estimated that 94,000,000 ft. will be salvaged, reducing the net stumpage loss in feet board measure, to 193,000,000 ft. The cost of fire fighting during the season is placed by the minister at $153,000, to which is added the cost of patrol, trails, forest fire pumps, cars, launches and fire fighting tools, bringing the total for the year to approximately $330,000.

TORONTO GENERAL TRUSTS CORPORATION

Because of the fact that it is the oldest trust company in Canada, and on account of the large amount of assets administered, the report of the Toronto General Trusts Corporation is looked upon as typical of trust company experience for the year. The 1919 report, which has already been reviewed in these columns, was presented to the shareholders at the annual meeting held in Toronto on February 4th. No changes took place in the directorate. During the year, it will be remembered, two directors, W. D. Matthews and Hon. Peter McLaren, died, their places on the board being filled by appointment of L. H. Clarke, Lieutenant-Governor of Ontario, and Robert Hobson, Hamilton.

A comparison of some of the principal accounts as at 1919, with the same date in 1918, shows development in all branches of the business:—

	1918.	1919.
Capital paid up	$ 1,500,000	$ 1,500,000
Reserve	2,000,000	2,000,000
Total capital assets	3,759,444	3,882,637
Guaranteed account	8,185,883	9,476,559
Estates, trusts and agencies	78,887,301	87,763,834
Total assets	90,832,629	101,123,031
Gross profits	654,130	757,338
Net profits	321,969	343,983

SUCCESSFUL YEAR FOR TRUSTS AND GUARANTEE

The annual statement of the Trusts and Guarantee Co., Ltd., shows that the company has enjoyed a year during which it steadily expanded its business in all departments. The total guaranteed trust account, including securities on real estate, bonds, debentures, stocks and government, provincial, municipal and rural district bonds, and cash in bank, show a gain to $5,363,413 over $5,182,061 at the end of the previous year.

The steady advance of the estates and agency business is indicated by total mortgages on real estate of a value of $2,194,030 up from $1,636,620, and other securities, including government and municipal bonds and unrealized original assets amounting to $11,619,680, as compared with $10,913,613. With the cash in bank this places the total assets under estates and agency account at $14,046,958 up from $12,783,554. As a result of the increase business during the year the total assets of the company have gained to $22,132,419, as compared with $20,473,199.

The larger business handled has resulted in the company being able to report net profits for the year of $110,175. These profits, added to the balance of profit and loss carried forward from the previous year brought the total amount available for distribution up to $575,419. Of this amount, dividends at the rate of 6 per cent. per annum took $83,856, leaving amount to be carried forward to the new year of $491,563.

Details of the report were given last week.

INCOME TAX MAY BE PRODUCTIVE

Finance Minister Has Been Pushing Collection, and Coming Statement May be Surprise—Example of Australia and New Zealand

(Special to *The Monetary Times.*)

Ottawa, Feb. 5th.

THERE has been much criticism recently of the Department of Finance for alleged laxness in the collection of the business profits and income tax. It is claimed that the law is not being vigorously or generally enforced, and that there is a large and expensive organization which is not getting anywhere. There is talk of additional income tax, and those who have paid their share to the government are kicking to the finance minister against further burdens until those whom they claim have evaded the law are made to put up.

Difficulties to be Surmounted

The criticisms may be uncalled for. A statement is being prepared for parliament, and it is intimated that this document will prove a surprise. There is no doubt that there has been a big improvement during the past year. One of the first things Sir Henry Drayton did when he became finance minister was to lay down the law to his officials in charge of the collection of taxation that some ginger must be put into the department. The claim of the department is that income tax is a new thing in Canada, and that the country is tremendous in size and thinly settled. It is claimed that in New York, Philadelphia, or a half dozen American cities, there is more taxable wealth than the whole of Canada. It is aserted that it was five years before the United States government was able to get adequate returns on its income tax collection, and that it took Great Britain fifty years to build up its present organization through which the number escaping is reduced to a minimum.

As an argument that Canada is not adequately collecting the income tax, critics of the department are pointing to what New Zealand and Australia have done since the war. New Zealand, from 1915 to 1918 inclusive, collected in income taxes a total of $55,085,620. New Zealand's population is only about one-eighth that of Canada's. On the basis of population Canada should have collected over four hundred thousand dollars, when the actual collection for income and business profits taxation was only about thirty-two millions for the same period.

The 1919 figures for New Zealand are not yet available. The income tax in Canada was first reported in 1919, when $9,349,719 was collected. The collection of the Business Profits Tax so far as announced have been as follows: 1916-17, $12,506,516; 1917-18, $21,271,083; 1918-19, $32,970,662; total, $66,748,862.

IMPORTANT ONTARIO APPOINTMENT

Following the resignation some weeks ago of A. R. Boswell, superintendent of insurance in Ontario, V. E. Gray, M.A., LL.B., has been appointed to the post. Mr. Gray will also be superintendent of loan companies. Mr. Gray is a university graduate and a lawyer by training. He was with the Trusts and Guarantee Co., Toronto, for four years, until a few years ago he was appointed assistant tax commissioner in the Dominion government.

Dr. Frank Sanderson, F.A.S., will be consulting actuary to the department. Mr. Sanderson was formerly joint general manager and chief actuary of the Canada Life Assurance Co. He is a graduate of Toronto University, a past-president of the Insurance Institute of Toronto, a fellow of the Actuarial Society of America and of the Faculty of Actuaries of Scotland. Since 1913 he has been practising as a consulting actuary.

Mr. Will J. Vale remains in his position as assistant superintendent and registrar of friendly societies.

Saskatchewan's Revenue, Expenditure and Estimates

Surplus for Last Fiscal Year — Expenses of Present Year High, and Absorbed Part of Previous Surplus—Revenue is Good, But Provinces Must Not Allow Dominion to Encroach on Sources—Will Borrow Nearly Ten Million.

FINANCES of the province of Saskatchewan, and the general economic position of the province, were set forth clearly by the provincial treasurer, Hon. C. A. Dunning, in the legislature on January 27th. A surplus of $877,593 was reported for the fiscal year ended last April. Estimates for the fiscal year ended April 30, 1921, are now being taken up. Mr. Dunning expressed fear that an endeavor might be made to invade provincial and local fields for additional sources of revenue for the federal government. He quoted figures to show that the cost of provincial and municipal and other local services to the people of Saskatchewan was double the amount per capita of that afforded by federal departments. He expressed the opinion that before any attempt of this nature was made the matter should be given grave consideration by the federal authorities in consultation with provincial and municipal representatives. Better results might accrue if overlapping of federal and provincial services of an identical character were eliminated by the Ottawa authorities.

Dealing with agricultural production, Mr. Dunning quoted the number of acres seeded, the average yields and the total production of the principal grains and vegetables. Every kind of livestock except hogs also showed increases. Dairy production was also increasing, and furs and game probably yielded $2,000,000. The figures, he said, indicated that despite hard conditions in considerable areas of the province, the province as a whole was going straight ahead. The time was past when there was any need to fear any calamity affecting the whole of the people of the province. The past three years had demonstrated that the areas of the province were sufficiently large and diversified to ensure that even if one or more sections suffered there was no need to fear that any combination of circumstances would bring disaster to the whole province. This was an important fact not only to the province but to all local bodies who had to go outside for credit. This fact was recognized, and credits in Saskatchewan were becoming more settled.

Revenue Exceeded Estimates

Turning to the finances of the government, Mr. Dunning said that he was able to report a substantial surplus for the fiscal year. The receipts over expenditures including a surplus brought forward amounted to $877,593. From this should be deducted value of stocks on advances amounting to $184,226, leaving a net cash surplus of $693,293. This surplus was brought about by an increase in revenue over the amount estimated of $410,612 and a reduction in expenditure below that provided in the estimates of $736,552.

Present Year Difficult

Ths surplus had been disposed of by assisting current year's revenue to the extent of approximately $232,000, to pay school and hospital grants, provision is also being made to pay the debt due the federal government on account of 1915 seed grain distribution, amounting to $106,859. It had also been used to retire treasury bills of $60,000, being the balance of the cost of royal commissions. This left a net amount of $194,369 to carry forward. The present financial year had been financially a stormy one. There had been unforeseen contingencies in the grasshopper pest and in the necessity of providing free freight on fodder. After careful survey of the situation he was of the opinion that the balance would come out on the right side during the present fiscal year, as revenues were more buoyant than at any time during the war.

Owing to the general lack of knowledge as to the sources of government revenue and where the money went to, Mr. Dunning announced he intended to make a new departure for a budget speech and give the assembly a summarized idea of the distribution of revenues and expenditures. The revenues were derived as follows: —

Source.	% of total.	Amount received.
Dominion government	32.34	$2,307,147
Provincial taxation	34.76	2,479,708
Licenses	13.72	979,155
Fees	12.88	918,672
Repayment of advances and loans	1.54	110,438
Institutional revenue	1.76	125,929
Fines, forfeits, etc.	1.40	100,219
Miscellaneous	1.55	110,697
	100.	$7,131,968

Expenditures were treated in the same manner. The total expenditures were divided under five heads, according to services performed, including in each case interest on public debt chargeable to that service.

Source.	% of total.	Amount spent.
Administrative	6.01	$ 397,485
Legislative	2.43	160,897
Protective	19.20	1,268,213
Developmental	52.93	3,496,279
Patriotic purposes	12.49	825,468
Miscellaneous	6.91	456,455
	100.	$6,604,798

Under protective services are included such items as police courts, jails and land titles offices. Developmental services include education, public health, neglected children, promotion of agriculture and commerce, highways. Education was the largest item of expenditure, the proportion being 20.99 per cent. This did not include the supplementary revenue which would add nearly another five per cent. Mr. Dunning questioned whether any province in the east spent a similar proportion of its revenue in education.

Public Debt

Gross public debt for the fiscal year was $34,946,404. or $41.95 per capita. This represents an increase of $2.12 per capita over the preceding year. He did not attach much importance to the gross debt, because a very large proportion was self-sustaining. The net debt now stood at $17,742,236, or $21.30 per capita. Last year the net per capita debt was $22.14, so that the year showed a decrease of 84 cents. The fact that the gross debt had increased and the net debt was reduced was brought about by the fact that during the year the debt consisted largely of self-sustaining items. The self-sustaining items were comprised in the telephone system, loans to the Saskatchewan Co-operative Elevator, to the co-operative creameries, cyclone loan to the city of Regina and other advances, all of which carry their own interest charges.

School Lands Trust Fund

School lands trust fund was one of the sources of revenue. For years the legislature had been protesting to induce the federal authorities to increase the interest rates which they are paying over three per cent. and had also endeavored to secure for the province the administration of the lands and the trust fund. So far as the latter was concerned he was unable to report any progress in his negotiations with Ottawa. A year ago he had reported that he had succeeded in inducing the federal government to invest half of the fund in its own securities, bearing interest at five per cent. He was now able to announce that Sir Henry Drayton had consented to invest the whole amount in

Dominion securities yielding five per cent. This, however, might be looked upon as only a temporary arrangement, as the securities mature in 1922. It was possible, however, that by then a government might be in power at Ottawa which would be ready to turn over the entire trust fund to the province. He estimated receipts from this source for the next fiscal year was $897,600.

Farm Loans Board

The provincial treasurer dealt at some length with the finances of the farm loans board, stating that despite the difficulty of securing five per cent. money, the board had to date loaned a total of $3,960,000 to 2,100 borrowers, representing an increase of over $2,100,000 in loans during the calendar year, and 1,100 borrowers. He was glad to say the borrowers had a high conception of their obligations to the board. While it had been a hard year for many of them, they had paid by December 31, one month after the due date of instalment, 60 per cent. of the total amount of interest including arrears, a very creditable showing when it was remembered that the bulk of the loans were made in districts which were hard hit. He expected, however, that the board would be compelled to carry a number of borrowers over till next year. On a revenue basis, the board has made a profit of $10,800, reducing the original loss from $16,000 to $6,000. This vindicated the policy of the government in providing cheap money for the farmers, and indicated that in a few years the board would be able to repay the money loaned for organization purposes. The work of the board had already had a noticeable effect on other mortgage companies. In some select districts the companies were now willing to loan at seven per cent.

Dealing with the methods of financing the board principally through sale of bonds, Mr. Dunning said that there was still outstanding $1,692,000 in bonds held by the people. The board's revenue was supplemented by farm loan stock from the provincial sinking fund of $925,000, and $1,000,000 federal loan, making a total revenue of $3,617,000.

Provincial Treasurer Dunning briefly outlined the state of the general sinking fund. The standing of the fund was now $961,131, practically all of which was invested in farm loans, stock, 30 years debentures. The source of the fund was moneys constituting repayments of loans. The policy of reloaning the money to the farm loans board enabled the dollars to go on working for the agricultural interests of the province.

Two Bond Issues Made

During the year, two large bond sales had been made by the government. The first was an issue of $3,000,000 of five per cent. debentures, maturing 1931. They were sold May 1, 1919, at 95.07, or a cost of 5.40 per cent. to a Toronto syndicate. The issue was made to redeem $2,500,000 of 6½ per cent. debentures sold to the federal government during the war. The redemption of this issue resulted in a saving of $27,500 per annum of interest charges. The other sale was that reported a few days ago. Referring to the government's policy in connection with bond issues, Mr. Dunning emphasized that tenders were opened in public, and added that there was no patronage list in this province, and challenged any opposition member to get up in his seat and back up the insinuations of the opposition papers in this regard.

New Estimates

Dealing with the estimates before the House, Mr. Dunning announced that they showed a total increase in revenue expenditure of $404,582 over the preceding year. Everything, he said, was going up and it would be strange if the cost of government did not go up as well. He was glad to say, however, that there would be no necessity to introduce new taxation to meet this increase. Dealing with new sources of revenue, Mr. Dunning said that the Dominion government did not perform anything like the volume or value of services to the people of Saskatchewan as did the provincial government and other local bodies, such as the municipalities and school boards. A great deal was being said just now in connection with finding new sources of revenue for the federal government but they should be very careful before they allowed the federal authorities to invade the fields of revenue hitherto sacred to provincial and municipal bodies.

In support of his contention the speaker quoted figures showing that in Saskatchewan the total cost of provincial and local government for the fiscal year 1918-19 was $44,181,000 or $59.38 per head of population, whereas the federal services in this province involved a per capita cost of $26.34. In comparing the needs of the federal government as opposed to the provincial and local authorities, he pointed out that an increased population meant an increased revenue to the federal government, but an increased expense for the province. He further suggested that before any invasion of the provincial tax field be made there should at least be a conference in which the provincial and local authorities were represented. The necessities of the local services were too great to be invaded by the Dominion without very serious consideration. He was of the opinion that something better might be done if the federal authorities were to cut out some of the overlapping services. Many of the federal departments were rendering services exactly similar to those rendered by the province and this was particularly true in the department of agriculture.

Increased Expenditure

Dealing with a few of the important increases in the estimates, Mr. Dunning pointed out that the appropriations for education had been increased from $1,324,050 in the current fiscal year to $1,966,576 in the estimates for the next fiscal year, an apparent increase of $642,526. This amount, however, was partly accounted for by the new practice authorized this session of including supplementary revenue grants under the education vote in order to give a true account of educational expenditures. Deducting $450,000 for supplementary revenue grants, left an actual increase for education out of current revenue of $192,526. Agriculture required apparently only half the sum voted for the current fiscal year. It would be remembered, however, that $380,800 was asked for in the supplementary estimates to cover the cost of the government's free freight policy for fodder and for grasshopper destruction. The bureau of labor and industries vote, a new vote under legislation of this session included in addition to the ordinary items $20,000 for surveys and investigations of natural resources.

Capital Expenditures

Under capital expenditures, the provincial treasurer made reference to an appropriation of $1,800,000 for housing. This would be available to municipalities which wished to take advantage of the federal housing scheme and would not be a charge against the provincial resources. There was also $3,000,000 appropriated for the farm loans board; an increase of $205,000 was provided for for telephones, the total vote for telephones being $1,500,000 was provided, due to the fact that the government was being continually inundated with requests for new telephone lines and additions to existing lines. The war memorial museum vote of $200,000 was a revote; $350,000 was set aside for the university, principally for a new physics building and an extension to the engineering building. They were asking the assembly to revote $250,000 for a new normal school at Saskatoon. Provision was made for $300,000 for court houses and land titles offices in pursuance of the policy of building two new court houses each year until the province had caught up with its requirements. Capital estimates provided for a new jail at Prince Albert at a cost of $100,000; $600,000 for the new mental hospital at Weyburn, none of last year's vote having yet been used. There was also a vote of $60,000 for an institution for incurables. The total vote for highways amounts to $1,679,836, or an increase of $260,000 for the current year.

It would be noticed, Mr. Dunning said, that the contemplated capital expenditures totalled $9,313,000. This might appear a large sum but it did not necessarily mean that the government intended to expend all that money dur-

ing the year. They wish, however, to be in a position to take advantage of money if it could be secured at a reasonable rate. The proportion of the program to be undertaken would also depend to some extent on prevailing conditions with respect to cost of material and labor and other circumstances.

Everything looked bright for the province of Saskatchewan, said Mr. Dunning in conclusion. The figures, which he had quoted at the outset in connection with the agricultural wealth of the province, indicated the great possibilities in Saskatchewan. It could hardly be expected that after three years of adversity that the province would suffer short crops again this year. He referred to the prediction that a winter of plentiful snowfall presaged a bountiful chop.

Estimates for Next Year

Estimates of revenue and expenditure for the fiscal year 1920-21 were also presented in the House. They show an estimated revenue of $9,500,000 on current account, $1,800,000 from telephone system, and $473,500 under the Agricultural Aids Act. Expenditures provide for sums to be voted for public services, chargeable to current expenditure, of $11,648,034 and for $9,313,000 chargeable to capital account. Included in the proposed expenditure are sums of $4,717,691 for public works and improvements, $1,500,000 for telephones, $5,100,000 for miscellaneous, made up in advances to the Co-Operative Elevator Company for drainage, and $1,800,000 for loans under the federal housing scheme, also $3,000,000 to provide for advances to the Saskatchewan farm loans board. The principal capital votes are $600,000 for normal school and university extensions at Saskatoon, $445,000 for provincial office building and war memorial museum and others at Regina, $25,000 for the mental hospital hospital at Battleford, and $250,000 for the mental hospital at Weyburn.

The estimated revenue is made up as follows:—

Dominion subsidy	$ 1,753,075
School lands fund	897,600
Treasury department	3,684,802
Attorney-General's department	1,174,000
Provincial Secretary's department ..	1,400,000
Insurance department	59,850
Public Works department	135,000
Highways department	112,000
Education department	39,000
Agriculture department	56,000
Bureau of labor	22,520
Municipal department	16,000
Legislative assembly	1,100
King's printer	24,000
Public health bureau	31,000
Superintendent neglected children	7,000
Estimated recenue from telephone system	1,800,000
Estimated revenue under Agricultural Aids Act	473,500
	$11,686,447

A summary of the estimated expenditures shows that civil government will require $525,673; public debt, $2,129,454; administration of justice, $1,055,720; legislation, $171,490; provincial secretary's department, $60,690; insurance department $13,500; public works (income), $901,855; public improvements (income), $1,102,836; education, $1,966,576; agriculture, $234,900; bureau of labor and industries, $85,590; public health and vital statistics, $435,000; neglected children, $120,000; municipal, $37,450; miscellaneous (income), $204,800; administration farm loans act, $311,000; telephone expenditures, chargeable to income, $17,000; making a total of $9,374,534 chargeable to income. In addition the estimates provide for capital expenditures of $9,313,000 as follows: Public works construction, $2,136,000; public improvements, $577,000; miscellaneous, $5,100,000; telephone extension and improvements, chargeable to income, $1,500,000, or a total expenditure in both capital and income of $20,961,034.

MONTREAL TRUST COMPANY

Net profits of the Montreal Trust Co. for the year 1919 were $175,722, the largest in the company's history. The balance forward from 1918 amounted to $78,311, leaving the surplus available for dividends at $254,053. From this was deducted dividends at the rate of 8 per cent., or $80,000; special war taxes, $12,318; and $100,000 was transferred to reserve account, which now amounts to $1,000,000.

The following directors were elected: President, Sir Herbert Holt; vice-president, A. J. Brown, K.C.; executive: Sir Herbert Holt, A. J. Brown, E. L. Pease, C. E. Neill, George Caverhill and P. G. Donaldson, together with Robert Adams, J. E. Aldred, Lord Beaverbrook, Hon. N. Curry, Hon. R. Dandurand, G. H. Duggan, F. P. Jones, Wm. Molson Macpherson, Hugh Paton, James Redmond, T. Sherman Rogers, K.C., F. W. Ross, Hon. W. B. Ross, A. Haig Sims and Stuart Strathy.

TRUST AND LOAN CO. OF CANADA

Plans for the exchange of shares of the Trust and Loan Co. of Canada, for new shares of uniform denominations, have been completed, and are presented to the shareholders in a circular issued from the head office in London, England, under date of December 9, 1919. The circular, which is signed by R. Kingdon, secretary, says:—

"In accordance with the promise given at the last general meeting of the company, my directors have been considering a scheme for the reorganization of the capital of the company. The engagements entered into by the company towards the holders of the debentures and debenture stock preclude the calling up of more than £5 per share except for purposes of liquidation. This undertaking had to be carefully borne in mind by the directors. The problem was to keep faith with the debenture and debenture stockholders, and at the same time to reduce the liability on the shareholders. My directors accordingly have prepared the following plan:—

"At the present time the capital consists of £3,000,000, viz.: 100,000 £20 shares, £5 paid; 25,000 £20 shares, £3 paid; 25,000 £20 shares, £1 paid. The £3 and £1 paid shares have been from time to time issued *pro rata* to the existing shareholders, and the board have received repeated requests from shareholders that all the shares should be brought to the same denomination. They accordingly propose that the first step should be call up £2 and £4 on the £3 paid and £1 paid shares respectively, making the capital of the company £3,000,000 in 150,000 £20 shares, each £5 paid up, or a paid-up capital of £750,000.

"The next step would be to reorganize the capital as follows: (a) Make the capital £3,600,000 in 1,800,000 shares of £2 each. (b) Issue these 1,800,000 shares of £2 each with 8s. 4d. per share (or £750,000 in all) credited as paid up thereon, in exchange for the 150,000 shares of £20 each £5 paid, at the rate of 12 shares of £2 each (8s. 4d. paid) in respect of each £20 share (£5 paid). (c) Capitalize £600,000 from the statutory reserve fund, and apply it in crediting the further sum of 6s. 8d. per share as paid up on each of the 1,800,000 shares of £2 each in the company, making 15s. paid in all.

"The effect of this scheme will be that, though the uncalled capital of the company will remain at the same figure as before, all the shares will be of the same denomination, and the liability on each share will be reduced. It is believed that this change will be of advantage to the shareholders, whilst the security of the debenture-holders will be in no way diminished, but, on the contrary, increased by the addition of £150,000 new money. The paid-up capital of the company will be increased from £600,000 to £1,350,000, and it is on this sum that dividends will have to be calculated in future, if the scheme is carried through.

"The changes, if approved by the shareholders, will have to be carried out by an Act of the Canadian parliament, and the necessary resolutions will be submitted to the shareholders at a meeting which will be convened at an early date."

MAY TRANSFER GRATUITY AT PAR

An arrangement has been made whereby Canadians who served in the Imperial forces, navy, R.A.F., etc., shall suffer no loss through the depreciation of sterling. Members of these services can now get through the banks the difference due to exchange on all cheques, money orders, etc., representing pay, allowances, gratuity and pensions. It is also announced that forms are now available to these men of the Imperial services to bring their gratuity up to the amount which would be payable had their service been in the C.E.F.

NEW ANNUAL TRADE REPORT

The annual report on the trade of Canada just issued by the Dominion Bureau of Statistics is the first detailed statement of trade covering the whole period of the war. It is a book of a thousand pages and its contents were prepared by the External Trade Division of the Bureau from returns of the Department of Customs. Every detail of Canadian trade for the fiscal years 1915 to 1919, inclusive, is shown. As the Canadian fiscal year ends on March 31, the commencement of the war occurred in the fiscal year ending on that date in 1915, and the conclusion of hostilities was in the fiscal year ending March 31, 1919.

The main tables of this report give details of the trade under every item of the import and export classifications for the five years, every country of origin or destination of goods being shown. The items are grouped according to the classification in use by the Bureau of Statistics up to the fiscal year 1919, so that this annual report corresponds in arrangement with the monthly reports issued during the period covered.

Other tables give the gross trade with every country of the world under various handy arrangements of imports and exports, also historical reviews of trade from Confederation to date. There is a comparative table showing both imports and exports by separate articles as well as tables detailing the trade under the British preferential and French treaty tariffs, illustrating the effect of those measures.

TORONTO BOARD OF TRADE ANNUAL

The annual meeting of the Toronto Board of Trade was held on Monday, January 26th. Officers for the year were elected as follows: President, C. Marriott; W. H. Alderson, 1st vice-president; to the council of the board were elected Messrs. A. R. Auld, Hugh Blain, W. F. Cockshutt, M.P., K. J. Dunstan, R. W. Eaton, Arthur Hewitt, A. O. Hogg, W. H. Lamont, Hugh Munro, J. S. McLean, Fred. L. Ratcliff, Victor Ross, F. M. Sloan, R. A. Stapells and Jas. D. Tree. The selection of representatives on the Canadian National Exhibition Association resulted in the election of Messrs. E. F. Crossland, D. O. Ellis, K. R. Marshall, S. McBride and Alfred Rogers.

In his annual address, Mr. Kenneth Dunstan, retiring president, declared that general public extravagance was responsible for the depreciation of the Canadian dollar in the United States. With high standards of living and high cost of commodities it had resulted in the expenditure of an immense amount on imported articles and on imported raw materials entering into home manufacture. He urged upon Canadians a policy of economy and increased production.

General business conditions throughout the year had been good, Mr. Dunstan stated. In its industrial activities the province of Ontairo would prove the principal source of tonnage for the great national system of railways. "To a great extent," he said, "success or failure of this great public ownership undertaking rests with the people, and optimisim is predicated on the maintenance of freedom from political interference. If this basic condition can be assured the location and excellent character of the lines, the equipment and organization which will obtain when the various units comprising the great system are co-ordinated, and dead wood cut out, should justify the high hopes of the country."

ORILLIA BOARD OF TRADE

The annual meeting of the Orillia Board of Trade was held last week. Among various matters discussed was the formation of a board of commerce, which item was held over. Officers for the year were elected as follows: J. H. Eaton, president; W. W. McBain, vice-president; G. J. Overend, secretary.

WATERLOO BOARD OF TRADE

The following are the officers of the Waterloo Board of Trade for 1920: President, Allan Bechtel; first vice-president, Edgar Bauer; second vice-president, C. W. Wells; secretary, E. Haberer. Council—J. H. Roos, J. A. Harper, C. A. Boehm, A. Bauer, H. Sturm, G. Diebel, Thos. Hillard, A. H. Snyder, H. M. Snyder, F. A. Smith, A. A. McIntyre, E. Haberer, R. V. Wilson, S. B. Bricker, W. S. Weichel, H. G. Mistelle, Geo. Grosz, Mayor Bohlender.

SASKATCHEWAN MUNICIPAL HAIL ASSOCIATION

The annual meeting of the Saskatchewan Municipal Hail Insurance Association will be held in Saskatoon on Tuesday, March 9th, the day preceding the opening of the annual convention of the Rural Municipalities Association. Complete information has not yet been received by the management as to the number of rural municipalities which will be operating under the Municipal Hail Insurance Act this year, but it is anticipated that there will be a few less than last year. The association has been notified of the withdrawal of three municipalities. Last year the total number of municipalities operating under the Act was 125.

SHOE MANUFACTURERS' CONVENTION

The first annual convention of the Canadian Shoe Manufacturers' Association was held recently in Quebec. The following officers for 1920 were elected:—

Honorary presidents, Messrs. Geo. A. Slater and A. Brandon; President, Mr. E. S. Scott (re-elected); vice-presidents, Messrs. J. Daoust and J. D. Palmer. Executive committee—J. Leckie, Vancouver, B.C.; Arthur Sutherland, Amherst, N.S.; H. V. Gale, Quebec; —. R. Worrington, Quebec; Albert Tetrault, Montreal; J. E. Samson, Quebec; T. H. Rieder, G. A. Slater, W. F. Martin and Ralph Locke, Montreal; A. Brandon, Brantford, Ont.; G. W. MacFarland, Brampton, Ont.; G. M. Ainsley, Perth, Ont.; G. S. Coxson and H. G. A. Blachford, Toronto, Ont. Secretary-treasurer, Henri Viau, Montreal.

QUEBEC MUNICIPAL STATISTICS

A report on Quebec municipalities for 1918 has just been issued by the provincial government. The report states that the high cost of materials was responsible in 1918 for a falling off in the building of dwelling-houses and factories, there being 2,887 dwelling-houses built, with a value of $5,339,973, and 176 factories, with a value of $4,309,368.

In the matter of valuation, out of 24,317,662 acres, 20,562,111 acres are taxable with a valuation of $1,377,225,464, an increase of $5,184,692. In the case of the municipalities which failed to report the 1918 figures, the bureau has taken the previous year's figures. The assets of the municipalities amounted to $150,930,866, including sinking funds, and the liabilities amounted to $185,640,500. The value of public utilities owned by the municipalities is $58,039,194, of which $49,055,018 is comprised of water works and sewers, $5,183,279 of electric plants, etc. It is to be noted that the municipalities have practically gone out of the telephone business.

The Great-West Life Assurance Company

Condensed statements for 1919 as announced at the Annual Meeting, held February 3rd, 1920:—

New Business Issued - -	$ 51,577,899
Exceeding 1918 by...............	20,918,342
Business in force - -	212,560,276
Increase in business in force.....	41,696,603
Income (Premiums and Interest) - - - -	8,598,394
Increase for the year............	1,469,288
Assets - - - - -	31,260,347
Increase for the year............	3,479,925
Surplus Earned in 1919 (the largest in the Company's history) - -	1,320,520

The expense rates were again lowered in 1919, and the interest rate earned was 7.08 per cent., excluding profits from securities sold. Including this item, the gross interest yield was 7.68 per cent. The rate of mortality has fallen to 51 per cent. of the expected—practically the pre-war basis.

These splendid results have enabled the Company to make its yearly apportionment to policyholders on the usual generous scale.

A 1920 RESULT

Life 20 Payments. Age 35. $1,000. Premium $33.75. Policy issued in 1900, maturing in 1920.

Total Cash Value available in 1920........ $894.00

Trade and Exchange

Since 1915 the total foreign trade of the Dominion of Canada has been showing a large excess of exports over imports. But while this balance in the aggregate is very much in Canada's favor, the situation is reversed in our trade with the United States, which, with contributing factors, is responsible for the decline in the value of the Canadian dollar at New York.

Every business man and investor will be interested in a chart which we present in our January Review showing these contrary trends and their effect on our exchange rate.

We shall be pleased to mail a copy on request

WORKING OF THE RURAL CREDITS ACT*

Rate of Interest is Fixed, But Banks Do Not Have to Lend—How Loans are Made Safe to the Banks, in Return for Low Rate

By R. F. McWilliams
Thomson, Jameson and McWilliams, Winnipeg

To understand the questions which arise in connection with the securities provided for under this act, it is necessary to have an understanding of the purpose of the act and of the conditions out of which it arose, and of the method by which it was sought to meet these conditions.

At the time of the passing of the act there was throughout the prairie provinces a vigorous and constantly growing agitation against the banks. Farmers constantly complained that they were unable to borrow money with which to carry on their business at times and on terms suitable to their operations or in sufficient amounts, and that what money was secured had to be paid for at extravagant rates. It was also alleged that it was practically impossible for poor men striving to get on their feet to secure any accommodation. The results were that the farmers were buying everything on credit and paying greatly increased prices in consequence. The agitation was rapidly growing into a demand for the establishment of local banks as in the United States or of special agricultural banks as in several other countries. The banks denied that there was just ground for these complaints and declared their willingness to give farmers all reasonable advances. It became evident to those who studied the question that there was a real difficulty which would never be overcome without finding a means of bridging the gap between our existing banking system and the needs of the farming community.

Banks Want Quick Turnover

The Canadian banking system is generally regarded as one of the best in the world, and it is doubtless so, when viewed from the standpoint of its service to a commercial community. But the principle of rapid turnover which is of the essence of commercial life and the customary principle of the banks is inapplicable to farming needs and if the banks are to serve the agricultural interest it is necessary for them to adopt rules and methods different to those applied to commercial businesses. The whole training of banks staffs, with few exceptions, is in the direction of city conditions and few country managers have the training or knowledge of the local conditions and people to enable them to judge adequately of the loaning needs. The process of centralization which has been so marked a feature of banking development in recent years has aggravated greatly the difficulties of the farmers in obtaining necessary facilities.

Rural Credits Fills Gap

It was the purpose of the Rural Credits Act to create an institution which should be a link between the banks and the farmers and should fill the gap which unquestionably then existed and prevented satisfactory operation of the credit system. It aimed to find money for farmers by finding security for bankers. It accepted the view that our banking system is in every way preferable to the American system of local banks and sought to find the means by which this banking system could be made to serve the farming interest in a way suitable to its peculiar conditions. It sought to head-off the agitation against the banks by eliminating the ground of complaint. If the plan succeeds in the long run as it has so far, it will greatly serve the interest of the entire country. If it should fail from any lack of co-operation on the part of the banks there will be an irresistible demand for a change in the banking system.

Briefly stated the plan of the act is to create co-operative groups of farmers who will pass on applications for loans and if approved will guarantee the payment of the loan to the bank or other lender. In return for the service rendered by the society in inspecting and approving the loan and guaranteeing payment the bank agrees to lend the money at a fixed low rate.

Advantages to Borrower

The security which the act affords may be considered from the respective angles of the three parties concerned—the borrowers, the society and the lender.

To the borrower there are two primary advantages of the system. In the first place he knows in advance the rate of interest he shall have to pay and is not subject to any extortionate terms real or imaginary. In the next place the poor man with little or no capital or credit is able to secure advances which no bank would give him in the ordinary course. In certain parts of the province a large part of the money has been loaned to men struggling to get on their feet, with very little capital except honesty and industry and the degree to which these loans have been repaid has abundantly justified the societies in guaranteeing the advances. Further the borrower knows that he has to depend for getting his credit not upon a bank manager, who is a stranger to him and who in many cases is a stranger in the district and unfamiliar with its local conditions or people, but upon a committee of his neighbors who are quite as conversant with his conditions and his chances of making good as he is, and also with him personally and with all the elements in his character which enter into the making of a loan. He is further free from the danger of arbitrary action by the bank manager or his head office or by a private money lender.

Societies' Legal Standing

The rural credit society possesses the usual securities and also a number of extraordinary ones. Its rights may be classified as follows:—

(1) The ordinary security of the borrowers undertaking to pay and his note for the amount with, if thought necessary, an endorser.

(2) A lien upon all the chattels purchased with the money secured for him by the society and upon the proceeds of such loans, as for example, the increase of animals or crops produced by moneys advanced for that purpose.

(3) By registration in the county court the society may secure a lien on all the personal property of the borrower in the district, thus preventing any disposal of the property to a third party except in the ordinary course of business.

(4) The society and its officers and also the lender and its representatives have at all times during the currency of the loan a right of inspection of the borrowers premises to satisfy themselves that the moneys borrowed are in fact being used for the specific purposes for which the loan was made.

(5) In the event of the death or insanity of the borrower or of his leaving the premises or of his failing to carry out the purpose of the loan, the society may make a summary application to a judge of the county court who may place the agent of the society in possession of all the property of the borrower in which the society is interested, together with any other property necessary for the care or use thereof.

(6) No sale can be made by the borrower of his chattels in bulk, except under the provisions of the Bulk Sales Act, which insures the payment of all claims against the chattels by the purchaser if he does not take care that such claims are paid out of the purchase moneys. A case has just arisen in which this remedy has saved the society from loss and the borrower is being proceeded against criminally for fraud by the purchaser.

(7) The society may take any further security desired from the borrower at the time of the loan or later and frequently does so. It can take security on real property by

The Toronto General Trusts Corporation

Report of the Proceedings of the Thirty-Eighth Annual Meeting

Total Assets Now Exceed Over One Hundred Millions

The thirty-eighth Annual Meeting of the Shareholders of The Toronto General Trusts Corporation was held in the Board Room of the Corporation's Head Office, corner of Bay and Melinda Streets, Toronto, on Wednesday, the Fourth of February, 1920.

The President, Hon. Featherston Osler, K.C., D.C.L., took the chair, and Mr. W. G. Watson, Assistant General Manager, acted as Secretary of the meeting.

Mr. A. D. Langmuir, General Manager, submitted and commented upon the financial statements showing the operations of the Corporation for the year ended 31st December, 1919.

The Report to the Shareholders was then read as follows:—

To the Shareholders:

Your Directors have pleasure in submitting the Thirty-Eighth Annual Report of the Corporation, together with the usual statements showing its operations for the year ended the 31st of December, 1919.

The gross profits for the year, after providing for all ascertained or anticipated losses, amount to $757,338.05. The administration expenses, including salaries, Directors' and Auditors' fees, advertising, rent, taxes, etc., amount to $413,354.16. This, as you will observe, makes our net profits for the year $343,983.89. To this amount must be added $152,812.13 brought forward on the 1st of January, 1919, making a total of $496,796.02, which has been dealt with by your Directors as follows:—

To payment of four quarterly dividends at the rate of ten per cent. per annum	$150,000.00	
To payment to the Shareholders of—		
One per cent. Bonus on 2nd July, 1919	15,000.00	
One per cent. Bonus on 2nd January, 1920	15,000.00	
		$180,000.00
To amounts subscribed as follows:—		
Repatriation Campaign	$ 5,000.00	
Salvation Army	1,000.00	
Navy League of Canada	500.00	
		6,500.00
To amount provided for 1919 Federal Income Tax (payable in 1920)		25,000.00
To amount written off Head Office Building		19,767.00
To balance carried forward to credit of Profit and Loss		265,529.02
		$496,796.02

The Assets and Liabilities Statement shows an increase of assets over the preceding year of $10,290,401.71, making the total volume of assets now in the hands of the Corporation $101,123,031.51.

The subscriptions to the Repatriation Campaign, Salvation Army, and Navy League of Canada, which the Board of Directors have made on your behalf, will be submitted for confirmation at the Annual Meeting.

It is with regret your Directors have to report the death during the year of Mr. W. D. Matthews and Hon. Peter McLaren, two valued members of the Board. The vacancies on the Board have been filled by the appointment of Hon. Lionel H. Clarke, Lieutenant-Governor of the Province of Ontario, and Mr. Robert Hobson, of Hamilton.

All of which is respectfully submitted.

A. D. LANGMUIR, General Manager.
FEATHERSTON OSLER, President.

Toronto, January 20th, 1920.

AUDITORS' REPORT

We, the undersigned, beg to report that we have made a full examination of the books, accounts and vouchers of the Toronto General Trusts Corporation to 31st December, 1919, and find same to be correct, and properly set forth in the above statements of Profits and Loss and Assets and Liabilities. We have examined, and find in order, all the mortgages, debentures, bonds and scrip of the Corporation, as well as those negotiated for the Supreme Court of Ontario, and Trusts, Estates and Agencies in the Corporation's hands, and we have checked same with the mortgage and debenture ledgers and registers. The Trust investments and funds are kept separate from the Corporation's own securities and funds, and all securities are so earmarked in the books of the Corporation as to show the particular Estate, Trust or Guaranteed Account to which they belong. The Banker's Balances, after deducting outstanding cheques, agree with the books of the Corporation. All our requirements as Auditors have been complied with. We have also examined the reports of the Auditors of the Winnipeg, Ottawa, Saskatoon and Vancouver Branches, and find that they agree with the Head Office books.

After due consideration we have formed an independent opinion as to the position of the Corporation. In our opinion so formed according to the best of our information and the explanation given to us, we certify the above statements set forth fairly and truly the state of the affairs of the Corporation, and are in accordance with its books. All transactions for the Corporation that have come within our notice have been within the powers of the corporation.

R. F. SPENCE, F.C.A. "Can."
J. GEORGE, F.C.A. "Can."
Auditors.

Toronto, January 20th, 1920.

The President, Hon. Featherston Osler, K.C., D.C.L., in moving the adoption of the Report, which was seconded by Brig.-Gen. Sir John M. Gibson, K.C., K.C.M.G., addressed the Shareholders as follows:—

The Profit and Loss Statement and the statement of Assets and Liabilities which have been placed in the hands of the shareholders inform them more pointedly than any extended explanation of mine could do of the remarkable growth and solidity of the business of the Corporation. The volume of the assets in their charge and under their management now exceeds $101,000,000.00, an increase of assets over those shown in the preceding year of over $10,000,000.00. The paid-up capital and reserve are represented by the figures of $3,500,000.00, and a substantial increase in the earnings of the year has enabled the Directors, after providing for an inevitable increase in the expense of management, to maintain the usual dividend of 10% and to pay, in addition, a half-yearly bonus of 1 per cent., and to carry forward a balance of $265,929.

The Directors thought it desirable to carry forward this balance instead of transferring any part of it to the Reserve Fund, which already exceeds the Capital Account by $500,000.00.

The Directors cannot but feel gratified at being in a position to present such a statement to the shareholders, and trust that it will meet with their acceptance and approval.

I have alluded to the inevitable increases in the expense of management, and it is but right to say that a substantial item under this head consists partly in increases of salary and partly of bonus, which the Directors thought under present conditions was but reasonable to give to those who have served the Corporation devotedly and well.

Many of us, no doubt, have observed that the Legislature, prompted probably by exposures of mismanagement in the care of some institution, has endeavored to protect the public by certain requirements designed for the greater security of shareholders and investors. In substance all these requirements had already been observed in the ordinary business of this Corporation and, so far as they were merely formal, have occasioned us no inconvenience beyond the additional labor imposed upon the staff.

The continued confidence of the public in the administration of estates by the Corporation is illustrated by the increase in the number of estates placed in its charge, and this is a subject to which I again invite the attention of the shareholders, every one of whom, if satisfied by the result in his own case with the management of the Corporation, can aid in extending its business and increase its influence.

You will be asked to approve of certain grants which the Directors have thought it right to make in your name, and to confirm a By-law of the Directors relating to the execution of instruments in the course of business.

I cannot without regret refer to the loss the Corporation and the Board sustained during the year by the death of the late Mr. Matthews, whose advice and assistance were much valued by the Board. The illness of another Director, the late Senator McLaren (resulting in his death), and the distance he lived from Toronto, prevented him from giving that assistance which his business experience could otherwise have offered. The places of these two Directors were filled by His Honor the Lieutenant-Governor, Lionel Clarke, and Mr. Robert Hobson, of Hamilton.

You will now listen with interest to the report and observations of the General Manager.

The President then called upon Mr. A. D. Langmuir, the General Manager, to address the Shareholders.

Mr. Langmuir said:—

It is with a great deal of pleasure and no little amount of pride that your Directors are to-day able to report to you that we have succeeded, during the past year, in registering another milestone in the history of the Corporation, in the fact that our assets have now crossed the One Hundred Million Dollar mark. In this connection it is interesting to note that it took thirty-one years to acquire the first Fifty Million Dollars of assets, and only seven years to accumulate the second fifty million. While it has taken thirty-eight years to accomplish this result, in doing so there is another factor to be taken into consideration—something very much more important than the accumulation of the hundred million dollars of assets—which is, that in building up this large Trust Estate business, the policy of the management of the Corporation from its inception has been dictated by a high sense of its paramount obligations as a Trustee. It has not used its high powers except as incidental to the purpose for which it was created. It has not risked its character and capital, or its fiduciary interests by assuming business of a hazardous nature, but has consistently endeavored in all its aims and undertakings, to build up a reputation that would inspire the confidence of the public, and establish the fact that a responsible and well-organized Trust Company—in preference to an individual—is the safest, most economical, and in every other way, the most satisfactory Executor or Trustee to administer estates, and invest and manage Trust funds.

Trust Companies were brought into existence primarily because of the difficulty in obtaining Trustees and Executors having sufficient time at their disposal to accept such responsible positions, and also because, even if such people could be found, there was no certainty of permanency. Such reasons hold good just as strongly to-day as ever before; in fact, one might say, even more so. To-day, business men in all walks of life, recognize that a new era has opened up in the world's history. During the year great things have been accomplished as a result of the efforts for a reconstruction of old-time methods and understandings, and as a consequence of these new conditions, the time, attention and consideration of individuals towards their own personal affairs will be required more than ever.

It should, therefore, be expected that the demand by the public for the services of a Trust Company for the management of its affairs will show a steady increase.

Primarily, the functions of Trust Companies may be described under two categories:—

(a) Those relating to the management and realization of estates, payment of debts, etc., which, speaking generally, are the duties of an Executor;

(b) Those relating to the care, management and investment of Trust funds, which are the duties of a Trustee.

Under the first come such duties as renting houses, making collections, repairs, placing insurance, paying taxes, effecting sales of real estate, realizing assets, conducting businesses, etc., etc., and the distribution of Capital and Income to beneficiaries.

And in the second case, the investment and management of Trust funds, collection and disbursement of income pending the arrival of the period when the distribution of Capital takes place in accordance with the terms of the Will or Trust Deed under which the Trust Company acts.

In the selection of an Executor, Trustee, or Agent, to fill these duties, too much importance may be given by the person considering the appointment of a Trustee, to the matter of charges for compensation, inasmuch as such fees are not different from those that are allowed by the Courts to individuals. The important point to be determined by the Testator or Settlor is that in the selection of his Trustee he may feel assured that he has fully protected the interests of his family and estate, and that such Trustee can be faithfully relied upon to carry out the conditions and terms of the Will or Trust Settlement Deed. In this connection it should be remembered that a Corporate Executor and Trustee in touch with the market at all times, and being in a position to acquire investments in large amounts, may frequently effect a considerable increase in the revenue of the estate in this way, as well as in making advantageous sales of assets that would go a long way in offsetting the Trust Company's remuneration.

While on this subject it will be of interest to the public to learn that the Public Trustee in England, whose fees a few years ago, were fixed at what was considered a cost basis, has found that, in order to take care of the bare expenses of the department, the charges for the administration of Estates, care and management of Trusts, etc., must be very considerably increased. In his published report for the year ended the 31st of March, 1919, he shows a deficiency of £52,990 or, in other words, that the expenses of his department exceeded his income in one year, on the basis of the fees fixed, by nearly $250,000. It is now found necessary to very greatly increase the original tariff of fees under which it was hoped that the Department might be administered; indeed the suggested new rates, together with the cost to the estates of the work that is farmed out to real estate and other agents, in accordance with their practice, and the charges made for special services such as inspecting property, registration and enquiry fees, etc., will, as we estimate, bring the cost to the estates under the care and management of the Public Trustee up to a figure that will exceed the cost of administering similar estates in Canada under our Trust Company system. The report of the special committee appointed by the Lord Chancellor to enquire into the organization of the office of the Public Trustee in England, as recently presented to Parliament, provides interesting information on the subject of estate administration, as well as upon the cost connected therewith.

In the administration of a large volume of assets, comprised of almost every class of security in which are interested a great number of people, it would not be surprising if differences of opinion sometimes arose between Trustees and beneficiaries in the construction of documents, or in respect to matters of detail connected with the administration of some estates. Such instances, I am glad to say in the experience of the Corporation, have been very few in number.

At the date of our last Annual General Meeting of Shareholders an Armistice had been arranged between those conflicting antagonists who for nearly four years had been carrying on a War, the nature of which had never previously been experienced in the world's history. A full year has since elapsed, during which interval protracted negotiations have been carried on by the representatives of the nations interested, looking to an arrangement for a settlement of peace terms and conditions that would insure safety and tranquility for future generations. It is a cause for thankfulness to know at this time that such arrangements have been completed, and the Treaty signed, and that the nations of the world may again resume their peaceful pursuits. Concurrently with these negotiations, the world has been undergong a period of unrest, a result, no doubt, of the war, and the culmination of those differences which have racked the social and industrial life of the world, and which gave so much dissatisfaction before the war, and, indeed, are still causing anxiety in our financial, social and industrial life. Nevertheless, great strides have been made during this year of reconstruction towards finding solutions of these difficulties through the good common sense exercised by those saner representatives of the contending interests, who realize that we have entered upon a new era in the world's history; that a new state of society exists, having different ideals, and with a very much broader and more generous appreciation of the requirements and necessities of that class of our people who form the greatest bulk of humanity, and upon whose industry and contentment the happiness of the world is dependent. It is to be hoped when our next Annual Meeting takes place that the world will again have become normal, producing the necessaries of life and materials that are so absolutely necessary to relieve the burden of debt which has been inherited as a result of four years of destruction.

The detailed and very full statements connected with the different departments of the Corporation's operations which have been explained to you to-day, I am sure will have been received not only with satisfaction, but with an appreciation that in the conduct of the business, the nature of the investments made, and securities held, the affairs of the Corporation are in an excellent position, not only for yourselves as Shareholders, but also for that large clientele whose estates and interests are under our management.

It is usual on occasions such as the present, when Shareholders meet together, to receive an account of the stewardship of their Directors and management, to direct one's remarks principally to results of operations as they affect their more special interests, but as this Company is something of a Public Utility Corporation, it will be in order, before taking up the Assets and Liabilities, and Profit and Loss statements to digress a little and refer to some matters that have a bearing on those liabilities of the Corporation which form such an important part of the Corporation's operations, namely, the affairs of the Estates and Agencies under its control.

The Estate assets now under management of the Corporation aggregate the large sum of $87,763,834.26. Of this amount, investments have been made by the Corporation to the extent of $26,831,455.33. The character of these investments is set forth in the Assets and Liabilities statement, and the balance of the Estate assets is comprised of securities in the original state of investment or condition in which they were taken over, amounting to $59,878,042.27, and are of the following nature:—

Mortgages	$ 6,188,573.29
Stocks and Bonds	35,932,750.83
Real Estate	14,147,787.90
Miscellaneous Securities	3,608,930.25
Total	$59,878,042.27

In most cases, in connection with these original assets, authority is vested in the Corporation by the terms of the documents under which we act, to retain or realize upon them as the Corporation in its discretion may determine. Of course, this is a very great responsibility, requiring close and constant attention to all the different classes of securities affected. In some instances, the Corporation's responsibility in exercising this discretion depends on receiving the consent of certain of the beneficiaries interested.

It might be interesting to mention that realizations on account of original assets were made during the year just closed of the following classes of securities:—

Real Estate	$1,412,233.94
Mortgages	1,427,731.63
Stocks, Bonds and Debentures	5,861,094.27
Miscellaneous Assets	1,190,513.44
Total	$9,891,573.28

The realization of such assets receives the most careful consideration of the Management and Heads of Departments, who are experts in their knowledge of these different classes of securities, as well as the personal consideration of your Directors, on all important matters.

The profits of the year, while almost equal to our best year, notwithstanding the increased cost of administration, and no doubt satisfactory to the Shareholders of a conservatively managed financial institution in connection with which large profits are not usually looked for, are nevertheless very moderate when it is remembered that assets aggregating over $100,000,000 are under administration, or in view of the fact that the net profits are only 9 per cent. on the combined Capital and Reserves, which represent the amount the Shareholders have under investment in the Corporation. Too frequently the public get the impression that large financial institutions or corporations organized to conserve the property or assets of others, or to gather up the savings from many people to lend again on farm or city property, or to governments or municipalities, are reaping rich harvests for their shareholders, when, as a matter of fact, their stock is only attractive to investors of a most conservative sort, who are looking for safety rather than large profits. Such institutions never can be sources of great wealth, either for the shareholder or the Government Treasury Department looking for income.

INVESTMENTS.

The investments negotiated by the Corporation now aggregate the large sum of $39,213,884.21, being an increase over the preceding year of $3,418,236.15.

While during the past year there has been evidence of an improved demand for mortgage loans, the repayments made continue abnormally large, but with the tide of immigration again commencing to flow towards Canada, and building operations becoming more active, a very substantial improvement should be experienced in the demand for this class of investment.

In this connection, however, too great caution cannot be exercised at the present time in scrutinizing values placed upon farm lands in the Western Provinces. With the high prices prevailing for farm products at the present time, and the inflow of people from the south with greatly enlarged ideas of farm land values, an enormous expansion in values is taking place in these Provinces as a result of such influences; and while at the present prices of farm produce such values might be upheld, judging by past experience, we must in time look for more normal conditions, and very considerably reduced prices for all those commodities, the sale of which at the present time is bringing to our farmer friends such substantial profits.

REAL ESTATE.

With regard to real estate conditions which have prevailed throughout Ontario during the year 1919, I may say that not for many years has there been such an active demand for residential property, due, of course, entirely to the lack of building during the war period. Every advantage was taken of these conditions to dispose of estate properties which were held for sale by the Corporation. With regard to business property conditions were not so favorable, particularly in the early part of the year, and some difficulty was experienced in keeping space fully occupied. A distinct improvement developed during the year, however, so that at the close of 1919 there was little or no warehouse or office space available in Toronto for rent. The indications are that this coming year, in view of the difficulty in finding suitable locations, an active market may be looked for in all branches of real estate.

GUARANTEED INVESTMENTS.

Our plan of Guaranteed Investments has met with much favor during the past year, the amount entrusted to the Corporation for investment in this plan having been increased over that of last year by $1,290,675.61.

I have no hesitation in recommending this form of investment to all people who have surplus funds for investment. The rate of interest return is equivalent or better than that received from Dominion of Canada War Bonds, and investors are relieved from all care and responsibility of any description in connection with the investment.

SAFE DEPOSIT VAULTS.

The demand for compartments in the Corporation's vaults and for storage facilities has been satisfactory, so much so that orders for additional nests of compartments to be installed have been made, in order to keep up with the demand.

In conclusion, I desire to thank the members of the Advisory Boards at Ottawa, Winnipeg and Vancouver, for the great personal interest they have taken in the matters brought before them for consideration, and for advancing the interests of the Corporation.

I also am greatly appreciative of the loyal, conscientious, and efficient manner in which the officers and members of the staff of the Corporation have discharged their duties during the past year. At the same time I wish to express to all of those who went overseas and have returned how thankfully we welcome them home again, and to feel that they have taken up again their duties in the office so satisfactorily.

The Report was unanimously adopted.

On motion the following Shareholders were elected Directors for the current year, namely: Hamilton Cassels, K.C., LL.D., Hon. Lionel H. Clarke, Hon. W. C. Edwards, Wellington Francis, K.C., Brig.-Gen. Sir John M. Gibson, K.C.M.G., LL.D., Arthur C. Hardy, Robert Hobson, John Hoskin, K.C., LL.D., Lieut.-Col. R. W. Leonard, Thomas Long, J. Bruce Macdonald, Hon. Sir Daniel H. McMillan, K.C.M.G., Lieut.-Col. John F. Michie, E. T. Malone, K.C., Sir Edmund B. Osler, Hon. Featherston Osler, K.C., D.C.L., J. G. Scott, K.C., Sir Edmund Walker, C.V.O., LL.D., E. C. Whitney, H. H. Williams.

At a subsequent meeting of the Directors the following officers were elected: President, the Hon. Featherston Osler, K.C., D.C.L.; Vice-Presidents, Hamilton Cassels, K.C., LL.D., and Brig.-Gen. Sir John M. Gibson, K.C.M.G., LL.D.

BRANDON BOARD OF TRADE

At the annual meeting of the Brandon Board of Trade on January 29th the following officers were elected: President, P. A. Kennedy; first vice-president, F. W. Hobson; second vice-president, J. D. Kennedy. Council—A. E. McKenzie, J. S. Wilmott, Rev. J. George Miller, N. W. Kerr, J. S. Maxwell, R. Crawford, M. Donaldson, C. S. Unicume, E. Bolton, G. F. Doig, A. R. McDiarmid, A. F. Campbell, George Nearing, Willard Hughes, J. E. Matthews and F. H. Johnson.

In his annual address Mr. Kennedy spoke of the wide activities of the board during the year. He urged closer co-operation between the Wheat Board and farmers and more active encouragement to wholesale houses to locate in Brandon. He stated that 400,000 tons of freight were shipped into Brandon in 1919, and recommended that transportation facilities be increased, and thus give the city an opportunity to bid for further freight traffic.

A very interesting address on "The Deepening of Great Waterways" was delivered by Major A. C. Lewis, of the Toronto Harbor Commission.

That the transportation facilities of this country have reached their limit, and that the system is now almost obsolete, is the firm belief of Major Lewis. The time is ripe for reorganization, he stated. The matter of wheat leaving western Canada affects every municipality west of the Great Lakes. Taking 155,000,000 bushels as the average crop per year for Canada, Major Lewis stated that only 50,000,000 of this amount was used at home and the remainder was shipped out of the country. From 55 to 66 per cent. of the grain shipped to Europe to-day from Canada finds its way through American ports.

WORKING OF THE RURAL CREDITS ACT

(Continued from page 26)

way of additional security only, its powers in this respect being identical with those of a bank.

Lender's Security

To the lender who may be a private person as well as a bank, there are a number of substantial advantages in loaning under this system beyond those enjoyed in ordinary commercial loans:—

(1) The bank has in effect a local advisory board, composed of picked men familiar with the neighborhood, who both pass on the loan before it is made and continue as an inspection committee during its currency.

(2) This committee acts for the lender, not only without pay but with a measure of guarantee on the part of every member as well as on each of the members of the society for whom they act.

(3) The bank has a guarantee fund contributed to by the provincial government and the municipalities, as well as by members of the society, many of whom are substanital farmers who do not require the assistance of the society in borrowing but have joined the societies to help their poorer neighbors.

(4) The lender has the advantage of all the extraordinary remedies vested in the society by the act.

(5) There is a constant supervision of the operations of every society by officers of the provincial government who are both agricultural experts, competent to advise borrowers in the best methods of making a success of their business and business men trained to judge of the loans made and alert to protect societies from any losses which might bring discredit on the system.

Bank's Concession

In return for all these advantages, the banks are bound to lend at a rate of six per cent., plus an additional one per cent. paid by the borrower towards the expenses of the society. The bank is under no compulsion to lend but if it lends at all through a rural credit society it must lend on these terms. This provision for a fixed rate of interest is the key of the whole act. It is of secondary importance what the rate is and financial conditions may develop which would warrant an increase or a decrease in the rate, but it is of vital importance that there should be no variation from the fixed rate. With all the additional securities given by this act the banks ought to be willing to lend at the present rate particularly in view of the fact that the success of these societies means an incalculable assistance in the development of the country and a strengthening of the position of every other customer of the banks. To the farmer, it means that he can secure money on the same terms as the capitalist and if he can be satisfied that he is receiving such terms his antagonism to the banks will cease and he will become an ardent supporter and co-operator with the Canadian banks.

GREAT WEST LIFE ASSURANCE COMPANY

The Great West Life Assurance Co. had a large increase in business in 1919, as shown by their statement presented at the annual meeting in Winnipeg on February 3rd. New business issued amounted to $51,577,899, an increase over 1918 by $20,918,342. The company's business in force now amounts to $212,560,276, an increase of $41,696,603 during the year. The income last year from premiums and interest amounted to $8,598,394, an increase of $1,469,238. Assets now stand at $31,260,347, an increase during the year of $3,479,925. Interest rate earned was 7.08 per cent., excluding profits from securities sold, or, including this item, the gross interest yield reported at 7.68 per cent. The rate of mortality has fallen to 51 per cent. of the expected, which is practically the pre-war basis.

Estabilshed in 1892, the Great West Life is now one of the largest Canadian insurance companies. Its agency force extends over the whole Dominion, and also into the United States, and by means of a thorough mortgage loaning organization in the west it is able to earn a high rate of interest on its investments.

A number of new appointments at head office were made recently as follows: Comptroller, A. J. D. Morgan; superintendent, group insurance, M. H. Bingeman; assistant actuaries, C. C. Sinclair, F. D. MacCharles, H. G. Hurd.

SUCCEEDS WILLOUGHBY-SUMNER, LTD.

On January 1st, 1920, Arch. J. Trotter, who for the past eight years has managed the affairs of the firm of Willoughby-Sumner, Ltd., in Saskatoon, Sask., took over the real estate, loan and insurance agency business of the aforesaid firm, and in company with Donald Stewart will carry on these branches of the business.

Mr. Trotter was a director and member of the local board of Willoughby-Sumner, Ltd., in Saskatoon, and has also a wide circle of business acquaintances in Winnipeg and Montreal. Mr. Stewart, who will continue in charge of the casualty branch of the firm's insurance business, was for some time with the General Accident Assurance Co. in Perth, Scotland, and is well known in the business circles of Saskatoon and Toronto. He went overseas with the 28th battalion, but resumed his duties recently on being discharged from active service with the Canadian Expeditionary Force.

The firm of Willoughby-Sumner, Ltd., was first formed in 1900 by Dr. J. H. C. Willoughby, and in 1912 the firm, then known as J. H. C. Willoughby-Sumner Co., was joined by Mr. Trotter, then chief inspector for the Royal Exchange Assurance. At that time Dr. Willoughby went to reside in Ontario, where he is now engaged in farming. Shortly after Mr. Sumner went to London, England, where he formed the firm now known as Willoughby-Sumner, Ltd., who will continue to carry on their business as stock and grain brokers. and will also retain their large real estate holdings.

A LARGER, steadier volume of production, lower operating costs, smaller depreciation charges, fewer expensive repair bills—all can be obtained by the thorough, systematic lubrication of your power equipment.

But this is only possible when the proper lubricants are used—lubricants best suited to the individual requirements of each mechanical operation and each service condition.

Imperial Lubricants are carefully formulated, tested and graded. They offer a "just right" lubricant for every lubrication requirement. Uniform and dependable, they are recommended by experts everywhere.

Your automobile and motor truck, too, will give better service if you choose your motor lubricants from the Imperial Polarine line. Imperial Kerosene Tractor and other farm lubricants are meeting farm lubrication needs perfectly; and Imperial Household Lubricant has a hundred uses in your home.

Imperial Lubrication Engineers will gladly advise you on anything relating to lubrication. Write to us at 56 Church St., Toronto, or any of our branch offices.

CANADA PERMANENT MORTGAGE CORPORATION

ANNUAL MEETING

The Annual Meeting of Shareholders of the Canada Permanent Mortgage Corporation was held at the Head Office of the Corporation, Toronto Street, Toronto, on Friday, January 30th, at twelve o'clock noon.

The chair was taken by the President, Mr. W. G. Gooderham. The Assistant General Manager, Mr. George H. Smith, having been appointed Secretary of the meeting, read the Report of the Directors for the year 1919, and the Statement of Assets and Liabilities, which are as follows:—

REPORT OF THE DIRECTORS

It is with much pleasure that the Directors present to the Shareholders the Annual Statement of the business of the Corporation for the year 1919, which has been duly certified by the Auditors.

The net profits for the year, after deducting interest on borrowed capital, expenses of management, all charges and losses, together with War Taxes and sundry contributions to Patriotic Funds, amounted to...	$ 827,983.51
The balance at the credit of Profit and Loss at the beginning of the year was	172,509.77
Making available for distribution	$1,000,493.28
This sum has been appropriated as follows:—	
Four quarterly dividends of Two and One-half per cent. each on the Capital Stock......	$ 600,000.00
Transferred to Reserve Fund	250,000.00
Balance carried forward at credit of Profit and Loss	150,493.28
	$1,000,493.28

All of which is respectfully submitted.

W. G. GOODERHAM,
President.

Toronto, January 14th, 1920.

R. S. HUDSON,
Vice-President and Joint General Manager.
JOHN MASSEY,
Joint General Manager.

We beg to report that we have examined the foregoing accounts together with the books and vouchers of the Corporation, and that we have obtained all the information and explanations we have required. In our opinion the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Corporation's affairs, according to the best of our information, and as shown by the books of the Corporation, and that all transactions of the Corporation that have come within our notice have been within the powers of the Corporation.

A. E. OSLER,
HENRY BARBER, Auditors.
Chartered Accountants.

Toronto, January 12th, 1920.

In moving the adoption of the Report of the Directors, the President, Mr. W. G. Gooderham, said:—

I am sure the Report and Financial Statement which the Assistant General Manager has just read has afforded the Shareholders the same satisfaction and pleasure which your Directors have in being able to present so gratifying an exhibit of the Corporation's affairs.

After paying the usual quarterly dividends at the rate of ten per cent. per annum, a quarter of a million dollars have again been added to the Reserve Fund, which now amounts to $5,750,000, in addition to which there are unappropriated profits amounting to $150,493.

A comparison of the General Statement with that of a year ago will disclose evidences of progress made during the year in every department. Not only have gratifying increases taken place in the amount of our deposits and of our debentures payable in Canada, but, as I expressed the hope a year ago, the money obtained in Great Britain on the security of our Sterling Debentures does not this year show any diminution.

While we are desirous of maintaining the amount of our capital borrowed in Britain at not less than its present level, the adverse exchange rates render it impossible to bring money to Canada, and as long as this condition continues, no considerable increase in our Sterling Debentures may be looked for. In the meantime, therefore, it is necessary to look to Canada for the funds with which to supply the demand for loans. Our Shareholders can materially further the interests of the Corporation in this direction by their influence as well as by making it the depository of their savings.

The amount of high-class negotiable securities actually owned by the Corporation is considerably greater than at the end of 1918, due to further investments in both British and Canadian War and Victory Loans, and to increased holdings of stock in The Canala Permanent Trust Company. The latter Company's paid-up stock is now one million dollars, and during 1919 its net profits were in excess of seven per cent. on the average capital actually paid-up. It was considered advisable to transfer one hundred thousand dollars from the Profit and Loss account of our Trust Company to establish the beginning of a Reserve Fund for it.

Notwithstanding the larger investments in Bonds and similar securities, the Corporation's mortgages on real estate, which are always its chief and most desirable form of securities, amount to the large sum of $26,211,306.42. The total Assets have increased from $31,461,387.24 to upwards of Thirty-three million dollars.

Some time ago the Directors decided that it would be advisable to have a Branch Office for the Province of Nova Scotia in Halifax, instead of, as hitherto, transacting all the business arising in the Maritime Provinces in Saint John. Our office building in Halifax was completed last month, and the new Branch was opened on the first business day of this year.

I believe a brief review of the progress made by the Corporation since 1905 will be of interest to the Shareholders.

At the close of the year 1905 the Reserve Fund and unappropriated profits totalled $2,244,708.50, while during that and the two years following the Shareholders received dividends at the rate of six per cent. per annum. Beginning in 1908 the dividends were gradually increased, and for the past seven years have been at the rate of ten per cent.

At the close of 1919 our Reserve Fund amounts to $5,750,000, in addition to unappropriated profits of $150,493, making a combined surplus of $5,900,493. The average annual increase during the fourteen years was $261,127. While not attempting to prophesy, I think it may reasonably be expected that at the end of the present year we shall attain the goal towards which we have long been aiming, a Reserve Fund equal to our paid-up Capital. When that objective has been reached, the Directors may not consider it necessary to appropriate so large a portion of the annual profits for further additions to that Fund.

I have confined my remarks entirely to the business and affairs of the Corporation of which we are Shareholders, and in which I have taken a deep personal interest from the day I became associated with it. For sixty-five years the Canada Permanent has occupied a prominent and honorable position among our leading and most responsible financial institutions. From my close association with and personal knowledge of its affairs, I have no hesitation in reiterating that its position to-day is even more firmly established than it has ever been.

The death during the year of Mr. W. D. Matthews took from us one who has filled a large place not only in the affairs of this Corporation but in many large institutions of great importance to our Country. Mr. Matthews had been associated with the Canada Permanent as a Director for twenty-five years, and as a Vice-President since 1905. His death is deeply regretted by his colleagues on the Board and by the Shareholders, among whom he was widely known. The vacancy thus created has been filled by the appointment of Mr. George W. Allan, K.C., M.P., of Winnipeg, who is well known to many of you and a man of wide experience, especially in the Western Provinces.

Without detaining you further, I beg to move, seconded by the Vice-President, that the Report of the Directors be received and adopted, and, together with the General Statement, be printed and a copy sent to each Shareholder.

The motion was seconded by the Vice-President, Mr. R. S. Hudson, who said:—

Before seconding the President's motion that the Report just presented be received and adopted, I wish to say that I think the record of the past fourteen years, to which the President has specially directed your attention, is one that cannot but inspire the fullest confidence of the Shareholders and of the public generally.

In considering the results of the past few years it should be borne in mind that, in addition to having to contend with many difficulties directly attributable to war conditions, both with respect to the procuring of funds for loaning purposes and the loaning of the money when obtained, the profits shown have been the net earnings after the deduction of large and increasing payments for special war taxation. In the past three years the amount paid to the Dominion Government in settlement of these new taxes, and the amount contributed for patriotic purposes, have aggregated $126,921.14. This is in addition to the taxation imposed by the various Provinces, which existed previous to the war, but has since been on an increasing scale. How long these various forms of taxation will be continued we do not know, but it will be seen that but for them the Corporation's profits would have been even more satisfactory.

I can well remember when the margin between the cost of money and the rates we obtained was very much larger than it is at present. Under existing conditions, such results as those the President has mentioned can only be attained by the most careful management.

I shall not detain you with any lengthened remarks, except to say that I can assure you, as one who knows every detail of this business, that the Assets as presented are realizable and are only incorporated in the Statement after the most careful revision.

A strong Reserve is of the most vital interest to a financial institution which obtains money from the public, as it increases the security of the Debenture holders and Depositors and inspires their confidence. We have all been looking forward for some years to the time when our Reserve Fund would equal the paid-up Capital. Now that, as the President has indicated, the goal is in sight. I think the Shareholders may be justified in expecting that thereafter so large a proportion of the net profits may not necessarily be devoted to augmenting the Reserve.

Without further remarks, I beg to second the motion to adopt the Report.

The motion to adopt the Report of the Directors was then presented to the meeting and unanimously carried.

The election of Directors for the ensuing year resulted in the unanimous re-election of Messrs. W. G. Gooderham, R. S. Hudson, Col. Albert E. Gooderham, J. H. G. Hagarty, John Campbell, S.S.C. (Edinburgh), John Massey, F. Gordon Osler, E. R. C. Clarkson, William Mulock, and George W. Allan, K.C., M.P., of Winnipeg.

Messrs. Henry Barber and A. E. Osler, Chartered Accountants, were re-appointed Auditors for the current year.

At a subsequent meeting of the Board, Mr. W. G. Gooderham was re-elected President, and Mr. R. S. Hudson, Vice-President.

The London Joint City and Midland Bank, Ltd., reports that net profits for the year ended 31st December last, after making provision for all bad and doubtful debts, amount to £3,079,460, which, with £675,098 brought forward, makes £3,754,558 for appropriation as follows: For dividends for the year 1919 at the rate of 18 per cent. per annum, less income tax, £1,052,503; for salaries and bonus to members of the staff with His Majesty's forces and bonus to other members of the staff, £475,203; for special "peace" bonus to staff, £250,000; to reserve for depreciation of war loans and future contingencies, £1,000,000; to bank premises redemption fund, £250,000, and to carry forward, £726,852. The dividend was at the same rate for 1918, with appropriations of £1,839,132, and carry forward, £675,098.

The Standard Trusts Company

The Seventeenth Annual General Meeting of the Shareholders of The Standard Trusts Company was held at the Head Offices of the Company in Winnipeg on Thursday, the 29th day of January, 1920. There was a good attendance of Shareholders, and the following report and financial statement were submitted and adopted:—

REPORT BY THE DIRECTORS

TO THE SHAREHOLDERS OF

THE STANDARD TRUSTS COMPANY

For the Year which ended 31st December, 1919

To the Shareholders:—

There is submitted herewith the Financial Statement of the company showing its operations during the year just ended.

After providing for all expenses of investment and management, income and war taxes, interest on guaranteed investment certificates and depreciation of securities consequent upon the aftermath of war and other causes, the balance at the credit of Profit and Loss, or Revenue Account, including the sum of $5,640.79, brought forward, is............	$116,645.34
From which there fall to be deducted Dividends Nos. 30 and 31 at the rate of 9 per cent......	90,000.00
Leaving to be carried forward	$ 26,645.34

Interest has not been as well met as in former years.

Commenting on the year 1918, you will recall your Directors drew attention to certain unfavorable crop conditions, and unfortunately a repetition of the same, but in a rather more serious degree, occurred again in 1919, the districts affected being chiefly in Southern Alberta and Southern Saskatchewan, with parts also of southwestern Manitoba, and as your Directors have pursued the policy of making their investments throughout all three provinces to spread and minimize the risk, the area adversely affected by the drought and rust was comparatively large, and the Company's returns were correspondingly lowered, and, while the gross revenue is slightly greater than that of a year ago, and a corresponding increase appears in the expenditure, the Company is, at the same time, paying a dividend on a greater capitalization.

The reserve fund remains the same and intact.

The provincial and federal taxation is becoming a serious factor with companies of a trust and investment character, where rates have remained stationary, where remuneration for trust service is also still on a pre-war basis, with a constant and steady uptrend in the cost of management difficult to control.

Your Directors look forward to a better agricultural season in 1920, all reports received indicating that in August and September last as much moisture fell in the drought-stricken areas as had fallen in the entire preceding twelve months, the same succeeded by good snow falls.

On account of exchange working arbitrarily against importation of British money, no new investments on behalf of Old Country clients have been possible during the greater part of the past year, shutting off a former source of profit alike to Company and client.

Your Directors announce with deepest concern and regret, the death of Mr. J. T. Gordon, who passed away on Sunday, 31st December last. He presided over, and guided, the Company's affairs most successfully from the formation of the Company, nearly eighteen years ago, to the time of his passing. Another Director, in the person of Mr. G. F. Stephens, was compelled on account of ill-health to relinquish the duties of his office. In both instances the Company suffers. Their places have been respectively filled by the appointment of Mr. J. C. Gage, President of The Consolidated Elevator Company, Winnipeg, and Mr. John McFarland, President of The Alberta-Pacific Grain Company, Calgary, both gentlemen widely known, highly esteemed and deemed by your Directors eminently fitted and qualified to fill the vacancies so created.

All your Directors, in accordance with the Company's by-laws, retire, but are eligible for re-election.

Your Auditors, John Scott & Company, also retire, and offer themselves for reappointment.

Respectfully submitted.

E. S. POPHAM,
Vice-President.

Winnipeg, 22nd January, 1920.

AUDITORS' CERTIFICATE.

We beg to report to the shareholders that we have audited the Books and Accounts of The Standard Trusts Company at its Head Office and Branches for the year ending 31st December, 1919, and hereby certify that the above Balance Sheet is, in our opinion, properly drawn up so as to exhibit a true and correct view of the Company's affairs, according to the best of our information and the explanations given us, and as shown by the Books of the Company. All loan balances have been checked with the Mortgage Ledgers, and the Securities covering such loans have, as in previous years, been duly inspected and the cash and bank balances verified. All our requirements as Auditors have been complied with.

JOHN SCOTT & CO.,
Chartered Accountants,
Scotland and Manitoba.

Winnipeg, 20th January, 1920.

Messrs. John Scott & Co. were reappointed Auditors, and the following Directors were re-elected to serve on the Board during 1920:—

Messrs. Wm. Harvey, E. S. Popham, M.D.; John A. Girvin, Kenneth MacKenzie, John Persse, John Stovel, Manlius Bull, W. A. Matheson, P. C. McIntyre, W. R. Bawlf, Hon. W. B. Willoughby, K.C.; John McFarland and J. C. Gage.

At a subsequent meeting of the Directors, Mr. Manlius Bull was elected President, Mr. Wm. Harvey and Dr. E. S. Popham, Vice-Presidents, while the working or Executive Committee were elected as follows: Messrs. M. Bull, Wm. Harvey, E. S. Popham, M.D.; John A. Girvin, P. C. McIntyre, and W. A. Matheson, with Mr. Bull as Chairman.

The Twenty-Seventh Annual Meeting of

The Home Investment and Savings Association

The 27th Annual Meeting of the Shareholders of the above Association was held at the Head Office, Winnipeg, on Monday, February 2nd, 1920, at four o'clock p.m. The President, Mr. M. Bull, acted as Chairman, and the Managing Director, Mr. W. A. Windatt, as Secretary. The Directors' Report and Financial Statement, with Auditors' Certificate as follows, were presented.

To the Shareholders:—

Your Directors beg to submit herewith the Balance Sheet and Profit and Loss Account showing the result of our operations for the year ended December 31st, 1919.

Owing to the condition of the Money Market Overseas which demands high rates for Debenture money, your Board has decided on a policy of retiring our Debentures as they fall due. For this reason the total amount of our assets has not increased materially.

The sale of a considerable proportion of the securities acquired by foreclosure, and the consequent material reduction in the "Real Estate on Hand" item are very satisfactory and we expect still further progress in this way during the year 1920.

The payment of interest on our loans has, on the whole, been satisfactory.

The Mortgages and other securities of the Association have been examined by the Inspection Committee, whose report we submit to you.

M. BULL,
President.

We have to report to the Shareholders that we have audited the Books of The Home Investment and Savings Association for the year ended December 31st, 1919.

We hereby certify that the accompanying Balance Sheet and Profit and Loss Account are in accordance with the books, and, in our opinion, are properly drawn up so as to exhibit a full and fair statement of the financial position of the Association as at December 31st, 1919, and the result of the operations for the year ended that date. All our requirements as Auditors have been complied with.

MARWICK, MITCHELL, PEAT & COMPANY,
Chartered Accountants.

Winnipeg, Man., January 30th, 1920.

REPORT OF INSPECTION COMMITTEE.

To the President and Directors of The Home Investment and Savings Association:—

Your Committee, appointed to inspect all the loan accounts in the ledgers of the Association, beg to report as follows:—

All accounts were most carefully scrutinized, and we have no hesitation in stating that the improvement in our loans noted last year is even more marked in this year's inspection. We are still of the opinion that any possible losses in current loans are amply provided for in the "Contingent Fund" created for that purpose.

It is pleasing to note the evidence of determination on the part of many returned soldiers to resume payments on their loans.

There is a very satisfactory decrease in the number of properties in the hands of the Association, the sales, which have been at fair prices, greatly exceeding the number of properties taken over during the year.

There has been a gratifying increase in the rentals received from properties on hand, showing an appreciation in values and improved prospects of sale.

The list of loans in arrears which may require special attention is herewith submitted for your consideration.

We wish to express our appreciation of the efforts of our office staff to keep arrears of payments as low as possible, and of the cheerful assistance given your Committee in their work of inspection.

P. C. McINTYRE,
F. H. SCHOFIELD,
Inspection Committee.

Winnipeg, January 21st, 1920.

The President announced that as in the opinion of the Directors the time had arrived when the Association should own its own home, efforts had been made to find a suitable site, and that as a consequence they had since the end of the year purchased the property on Main Street known as the Baker Block. This he considered a very desirable location. The Association will continue to occupy its present office until the termination of the lease, after which it will move into its own premises which in the meantime will receive necessary alterations.

The retiring Directors, Messrs. M. Bull, P. C. McIntyre, W. A. Black, F. W. Drewry, F. H. Schofield, H. Byrnes, W. H. Cross and W. A. Windatt, were re-elected. At a subsequent meeting of the New Board, Mr. M. Bull was re-elected President, Mr. P. C. McIntyre, Vice-President, and Mr. W. A. Windatt, Managing Director.

The annual meeting of the Yarmouth Board of Trade was held on January 29th. The following officers were elected: President, J. D. Kirk; vice-president, Dr. A. Fuller; secretary-treasurer, G. A. Langtry. Council—L. T. Porter, G. H. Allen, J. W. Lonergan, W. M. Caldwell, A. K. Van Horne, G. P. Baker, R. W. E. Landry, E. K. Spinney, M.P., L. M. Trask, Capt. Fred. Ladd, J. E. Hopkins, S. C. Baker, H. S. Crowell, E. B. Ehrgott, J. M. Walker.

CANADA PERMANENT ANNUAL MEETING

At the annual meeting of the Canada Permanent Mortgage Corporation, held in Toronto on January 30, the report was presented to the shareholders. W. G. Gooderham president, pointed out that the exchange situation prevented any increase in British investments here, although the amount already borrowed should be retained. Funds for mortgage loans must, therefore, be raised here. Referring to the company's statement, he expressed the opinion that the Canada Permanent is more firmly established than ever before.

Vice-president R. S. Hudson pointed out that the profits shown had been the net earnings after the deduction of large and increasing payments for special war taxation. In the past three years new taxes had been paid to the Dominion government and contributions made for patriotic purposes aggregating $126,921. That was in addition to taxes imposed by the various provinces, which are on an increasing scale. The situation, therefore, called for careful management.

The former board of directors was re-elected, including George W. Allan, K.C., M.P., of Winnipeg, who, during the past year, took the place on the board of the late W. D. Matthews.

HURON AND ERIE MORTGAGE CORPORATION

The Huron and Erie Mortgage Corporation, London, Ont., reports successful results from 1919. Net profits were $535,610, an increase of $61,000. Assets grew by more than $2,000,000 to $20,435,520, and deposits rose by nearly $1,000,000, being now $4,054,841. The usual dividends at the rate of 12 per cent. per annum were paid, amounting to $300,000, while the principal other item in the profit and loss account was the transfer of $200,000 to reserve fund, the same as in 1918. Dominion taxes amounted to $27,288 and provincial taxes to $11,585. No appropriation was made for pension fund this year. The balance carried forward is $16,374, compared with $22,337.

Cash value of mortgages stands at $13,466,042, compared with $10,471,100. On the other hand, investments in Canadian municipal, school district and rural telephone debentures have been reduced from $2,709,498 to $2,222,197 during the year, and bonds of Great Britain, Dominion of Canada and its provinces or guaranteed thereby, have dropped from $2,241,101 to $1,548,483, and other bonds have increased from $87,894 to $277,462. These figures indicate a gradual transfer of the company's money into the mortgage business, which is its main function. There is little change in sterling debentures, which stand at $3,821,520, but Canadian debentures have increased from $5,215,130 to $6,326,129.

EQUITABLE TRUST COMPANY ANNUAL

At the anual meeting of the Equitable Trust Co., held in Winnipeg on January 27, the board of directors was elected as follows: E. E. Hall, president and managing director; Arthur Congdon, first vice-president; John T. Haig, second vice-president; Isaac Pitblado, Dr. J. N. Hutchinson, W. P. Riley, W. L. Parrish, Johnson Douglas, F. S. Harstone, J. L. Bathgate and W. S. Fallis.

The shares of this company are widely held throughout Winnipeg. The subscribed capital is $1,058,200, of which $535,277 is paid up. Dividends have been passed through the war period, and drastic pruning of profits which looked sure in 1914 have been made. This year the statement submitted to the shareholders shows that the directors have taken the final step of withdrawing all uncollected interest revenue from the balance sheet, and setting aside a further contingent reserve of $100,000 to provide against possible losses. "The time has now come," said Mr. Congdon, retiring president, in presenting the report and recommendation of the directors, "to look to the future, undertake an aggressive policy, and resume constructive activity."

BANK OF NOVA SCOTIA DIRECTORS RETIRE

The annual meeting of the Bank of Nova Scotia was held on January 28 at Halifax, N.S., and it was decided to reduce the personnel of the directorate from twenty-one to nineteen. John Y. Payzant, Halifax; Sir George Burn, Ottawa, and Hon. Sir George H. Perley, of London, England, retired. Hon. R. M. McGregor, of New Glasgow was elected a director in place of John Y. Payzant. At a subsequent meeting of the directors Charles Archibald was re-elected president and George S. Campbell and J. Walter Allison, vice-presidents.

LAMBTON COUNTY LOAN AND SAVINGS

In its annual report for 1919, the Lambton County Loan and Savings Co., of Sarnia, Ont., reports profits of $114,735. Of this amount two half-yearly dividends at the rate of 8 per cent. per annum, together with a bonus of 2 per cent., was paid to the stockholders, amounting to $78,957, the balance being carried on the reserve, which amounted to $35,760. The total assets of the company are shown to amount to $3,351,000. N. S. Gurd, David Milne, John Webster and J. H. Kittermaster were re-elected to board of directors, and at a subsequent meeting of the directors, N. S. Gurd was elected president and David Milne, vice-president.

BRITISH MORTGAGE LOAN COMPANY

At the annual meeting of the British Mortgage Loan Co., held in Stratford, Ont., January 22, the report for the year ended December 31, 1919, was taken up. Net profits were $82,953, and a balance of $7,298 was brought forward from 1918, making a total of $90,251. Dividends at 12 per cent. required $60,000, $20,000 was transferred to reserve, and a balance of $10,251 was carried forward.

Assets of the company now total $2,973,817, represented chiefly by mortgages, $1,676,008, and government and municipal bonds $1,212,830. Debentures with interest total $1,164,194 and deposits $839,372; the paid-up capital is $500,000 and the reserve $430,000.

PEEL FARMERS' MUTUAL FIRE

The annual meeting of the Peel Farmers' Mutual Fire Insurance Co. was held in Brampton, Ont., on January 31st. The company paid $33,113 in losses during the year, increased their insurance risks by $750,000, and have a total insurance of $13,000,000. The net surplus over all liabilities is $23,392. The following officers were elected: President, Thos. McCartney, Caledon East; vice-president, Moses Johnston, Malton. Directors—Alex. Armstrong, Claude James Laidlaw, Brampton; H. A. Walker, Malton; John Gardhouse, Weston; Thos. Bryans, Malton; R. J. McGregor, Inglewood; John Cunningham, Norval. Secretary-treasurer, J. J. Stewart, Brampton.

CANADIAN MORTGAGE ASSOCIATION

The Credit Foncier Franco Canadien has taken over the assets of the Canadian Mortgage Association, amounting to some $10,000,000. This transaction has increased the total Canadian assets of the Credit Foncier to approximately $65,000,000, and placed it in an outstanding position among purely loan companies.

The Canadian Mortgage Association was organized in western Canada by a group of Paris capitalists about nine years ago. Under the supervision of the Canadian advisory board, consisting of Sir D. H. McMillan, W. R. Allan, G. M. Black and Theodore Revillon, it had a prosperous career. Its head office for Canada was in Winnipeg, J. W. Logan being general manager.

FIRST AND THIRD MORTGAGES

Mortgagor Liable on Third Mortgage After Foreclosure of First—Saskatchewan Court Holds Mortgagor Liable Under Covenant for Payment

IN the recent legal case of Isman vs. Sinnott the question came up whether a mortgagee, holding a first and third mortgage, and who foreclosed under the first mortgage, could then recover the amount of the third mortgage under the covenant for payment. The Saskatchewan Court of Appeal in the above case decided that the wiping out of the indebtedness on the first mortgage did not deprive the mortgagee of his right to proceed on the covenant to pay in a later mortgage in which he was also mortgagee.

The facts of the case are as follows: Isman purchased from Sinnott the Kamsack Hotel. As part payment he transferred to him two mortgages on the King's Hotel, these mortgages being a first and third mortgage made by one John D. Yandt to Isman. Collateral to these two mortgages, Isman gave Sinnott a second mortgage on the Kamsack Hotel, this mortgage containing the following provision:—

"Provided and it is hereby agreed and understood that this mortgage is collateral to two other certain indentures of mortgage dated May 29, 1913, and made between John D. Yandt of Winnipeg in Manitoba, gentleman, as mortgagor and the said Charles Isman as mortgagee, and that payment in full or in part by the said John D. Yandt under the said two mortgages shall constitute payment in full or in part of this mortgage, and that upon payment of the said mortgages either by the mortgagor therein or by any other person the mortgagor herein shall be entitled to a discharge of this mortgage, and upon default in payment by the said John D. Yandt under the said mortgages and in the event of the mortgagor herein making the payment in full under the said mortgage to the said Jacob Sinnott as provided therein, he shall be entitled to a re-assignment of the said mortgages and to a discharge of this mortgage."

Neither Mortgage Paid

Yandt did not pay either of these mortgages, assigned to Sinnott, and Sinnott then took proceedings in the Land Titles Office for a sale of the said King's Hotel under the first mortgage, but not being able to find a purchaser, he foreclosed under the Act. After the completion of the foreclosure proceedings and the issue of a certificate of title to him, he first mortgaged and afterwards sold the premises and a certificate of title was issued to his purchaser.

Isman then brought action for a declaration: (1) that the mortgages on the King's Hotel transferred by him to Sinnott had been paid; (2) that the mortgage given by him to Sinnott in the Kamsack Hotel had been paid and satisfied by the foreclosure and sale of the King's Hotel; and (3) that the said mortgage should be removed from his certificate of title as being a cloud on his title.

Isman claimed that as the third mortgage in this case was held by Sinnott and as Sinnott foreclosed the first mortgage he also foreclosed the third mortgage and having done so, his subsequent sale of the property—which put it out of his power to return it to the mortgagor—prevented him from recovering on the personal covenant of the mortgagor in either mortgage.

Third Mortgagee Still Has Rights

In his judgment, the Hon. Mr. Justice Newlands says:—

"It is well settled that the foreclosure by a first mortgagee does not affect the right of a subsequent mortgagee to recover on the personal covenant in his mortgage, even though the first mortgagee has disposed of the property to a third person after foreclosure.

"The defendant could not have foreclosed under the third mortgage except subject to the second mortgage. In order to get his rights under his first mortgage he had to foreclose under it, and thereby free the title he would obtain under the proceedings, from the second mortgage, and this, necessarily, freed it from the third mortgage also, because there is no such thing as tacking under the Land Titles Act. It is true he would be a consenting party to the wiping off the title of both the second and third mortgages, and he would take title under the foreclosure proceedings 'free from all right and equity of redemption on the part of the owner, mortgagor or encumbrancer, or any person claiming through or under him subsequent to the mortgagee, the mortgagee being in this case the first mortgagee.'

"In a similar case it has been held that even though the subsequent mortgagee consented to the order for foreclosure, this did not affect his right to sue on the covenant to pay. Now if defendant can still sue on the covenant in his third mortgage on the King's Hotel, it cannot be considered as paid, and it was only in the event of both mortgages being paid that he was to be entitled to have the mortgage to defendant on the Kamsack Hotel removed.

"The plaintiff has, therefore, failed to make out his case for a removal of the mortgage from his certificate of title, and his action should have been dismissed with costs."

COBALT ORE SHIPMENTS

The following were the shipments of ore, in pounds, from Cobalt Station, for the week ended January 31st:—

Dominion Reduction Co., 58,000; Hudson Bay, 61,610; O'Brien, 64,030; Coniagas Mine, 175,630; total, 396,270. The total since January 1st is 1,706,968 pounds, or 853.484 tons.

FRENCH WAR BOND BARGAINS

Because of the very low quotations for francs, French war loan bonds can now be purchased at bargain prices. In their latest financial review, Edward Cronyn and Co., Toronto, say:—

"With the further break in French and English exchange, the purchase of these bonds becomes more attractive, and if, as we firmly believe, France comes through her troubles successfully and is able to meet her obligations, then these bonds certainly afford a very profitable opportunity. The French War Loan of 1917 can now be bought at $76 (Toronto money) per thousand francs. If France has succeeded in reestabilshing her credit at the maturity of these bonds, holders will receive payment at the rate of approximately $193 per thousand francs, besides getting the coupons as they fall due. These they can cash by sale at the then current rate for French funds. The increase in capital would under the above conditions be about $117 for each $76 invested, or almost 160 per cent."

WORKMEN'S COMPENSATION IN QUEBEC

The scale of payments under the Quebec Workmen's Compensation Act will probably be increased, although the high payments asked in some quarters are not favored. In discussing this subject in the legislature on January 23rd, Hon. A. Galipeault, Minister of Public Works and Labor, pointed out that the Act had been drawn up with the primary intention of protecting laborers and small-paid men. Statistics showed that in only 40 per cent. of the cases were the workmen responsible for accidents to themselves, and if expert workmen were considered, the percentage would be much less. Therefore, in the majority of cases, workmen in general getting higher wages could recover damages under the common law. Raising the maximum means that higher-priced workmen are brought under the law, and thereby lose action under the common law and higher damages when they are not responsible for the accidents themselves, and only a small percentage of the skilled higher-priced men are responsible for accidents to themselves.

TRADE OF CANADA INCREASES

Figure for 1919 Shows Favorable Change of $80,000,000 Compared With 1918—Total, However, Still Under That of 1917

TRADE of Canada for the year ended December, 1919, exceeded that of the previous twelve months by about $80,000,000. Imports during the year totalled $941,007,700, as compared with $910,149,140 in 1918. Exports increased by over $50,000,000, the figures being $1,294,920,372 for 1919, and $1,243,729,772 for 1918.

Although imports and exports exceeded those of 1918, they were well under the total for 1917, the figures for that year being $1,006,030,869 for imports and $1,593,496,049 for exports.

From the United States in 1919 the imports were $740,580,225, and the exports to that country $454,686,294, leaving a balance against Canada of $285,893,931, as compared with $308,154,155 in 1918 and $428,366,460 in 1917. Imports have declined from $829,845,747 in 1917, to the present level, while exports to the United States have steadily increased from $401,479,287 in 1917.

Exports to the United Kingdom in 1919 totalled $528,035,514 and imports $87,516,819, making a favorable trade balance of $440,518,695, more than wiping out the unfavorable trade balance with the United States. The only countries with whom Canada has an unfavorable balance of trade are: The British East Indies, from which Canada buys $13,411,325 and sells, $6,508,196; British Guiana from which we get goods valued at $8,065,019 and export goods worth $2,925,728; British West Indies, with which imports and exports, respectively, total $10,544,539 and $11,321,072; Cuba, $12,565,712 and $5,642,675; Japan, $12,697,203 and $7,569,410; and the United States.

The following is the official statement of Canada's trade:—

GOVERNMENT CURRENCY

The Dominion statement of circulation and specie for December, 1919, shows that gold held by the Minister of Finance at the end of that month totalled $119,211,834, compared with $128,212,310 at the end of the previous month. Gold held for the redemption of Dominion notes amounted to $114,821,962 at December 31st. Dominion notes outstanding at the end of December, 1919, totalled $154,237,000, as compared with $162,957,000 in November. The following is the official statement of all government currency:—

FARMERS ENTER INSURANCE FIELD

Final arrangements for business were made at the first annual meeting of the Agricultural Insurance Co. of Saskatchewan, Ltd., held in Regina on January 23. The directorate elected is as follows: Hon. C. A. Dunning, Beaverdale; P. L. Craigen, Vanguard; R. E. Drennan, Canora; Geo. M. Bell, Francis; James Robinson, Walpole; R. McSweeney, Cupar; W. J. Orchard, Tregarva; J. M. Lamb, Ogema; and Hugo E. Meilicke, Dundurn. At a meeting of the directors, G. M. Bell was elected president, Hon. C. A. Dunning vice-president, and J. H. Mitchell secretary.

The company decided to increase the authorized capital from $500,000 to $1,000,000, and to proceed at once to do a hail, fire and general insurance business. It was also decided to place the stock still unsold in districts of the province which have so far not been organized with the view to eventually having shareholders in every farming community of Saskatchewan. In connection with opening a head office, it was agreed that the board of directors should decide the question of appointing Bell and Mitchell, Western Trust Building, Regina, general agents for the company. This firm has been established for several years in the insurance brokerage business and by making use of their facilities and connection, it was thought that the company would be saved the usual heavy overhead expenses incidental to the entering of a new company in the insurance field.

About 100 shareholders attended the meeting. The secretary's report showed that over 700 shareholders were now interested in the company, owning 2,717 shares. Stock had been subscribed for to the amount of $271,700. The organization expense, together with some further expected expense in this connection, was estimated at about $1,300. As the stock had all been sold at a small premium, it was shown that the premium had been sufficient to pay all organization expenses, thus leaving the full amount of subscribed capital intact for business operations, and in addition $6,020 of a surplus from premiums in the bank.

News of Industrial Development in Canada

Firms Preparing Construction Programs for the Coming Season — Contractors Anticipate Hindrances in Their Trade—Toronto Landed Many Industries in 1919

WITH the approach of the building season, industries are completing plans for their construction programs. Industrial committees of the different communities are receiving inquiries from various firms which are anxious to locate branch plants.

Regarding the building part, it appears that a little trouble is anticipated. Contractors speak of the difficulty to secure material in sufficient quantities, and also of the high costs of labor. They admit, however, that building must go on to keep pace with the increase of business, but the abovementioned factors, combined with other arising difficulties. will to a certain extent cause stoppage in work.

Developments in Ontario

A foundry company of American and Canadian capitalists, of which J. Gill Gardner, of Brockville, is the president, will, next spring, commence a plant on the Murray property, Brockville, which is to become an industrial area. At the start 125 hands will be employed.

The Toronto Paper Co. has let a contract for the construction of a new pulp mill at its plant near Cornwall with a capacity of sixty tons a day. The mill is expected to cost nearly $500,000, and to give employment to seventy-five hands.

The Synthetic Rubber and Tire Co. of Canada, Ltd., Toronto, is going to move its plant from that city to Owen Sound. The company will manufacture a preparation known as rubberair, which is for the purpose of substituting for air in motor tires.

A new industry will locate in Ingersoll shortly, known as the Canadian branch of the A. I. Root Co., of Medina, Ohio, said to be the largest manufacturers of bee supplies in the world.

The Wood Hydraulic Hoists and Body Co., of Detroit, will build a plant in Windsor in the coming spring. Plans for the factory are not yet complete, although it is understood that two large buildings will be erected, one for the purpose of manufacturing hydraulic hoists and the other truck bodies.

The industrial committee of the Guelph Chamber of Commerce has received applications from six American firms who are anxious to locate their Canadian branches in that district.

A new industry for the manufacture of oxygen gas has been formed in Canada. The Dominion Oxygen Co., a subsidiary of the Union Carbide and Carbon Corporation, has been organized in Toronto, and has a building program which includes the erection of five plants, one of which will be located in Toronto, together with a number of warehouses and service stations, through which the smaller cities will be supplied. The establishment of this concern is a result of the huge demand for oxygen which has developed out of the rapid expansion of the oxy-acetylene industry during the past five years. Its charter includes, in addition to the manufacture of the gas in question and of nitrogen, argon and other gases, the development of mines, gas and oil lands, hydraulic, mechanical and electric power. It will have its headquarters at Toronto, and will commence operations immediately.

Western Industry

The Swift Canadian Co., meat packers, have purchased property in Regina, and propose the erection of a $250,000 cold storage plant and distributing warehouse in the spring. The company intends to make Regina the mid-west distributing point. The company now distributes from Moose Jaw, Saskatoon and Regina, but in no one of these places have they a warehouse.

The Miner Rubber Co., of Granby, Que., will erect a $50,000 warehouse in Regina in the spring. Regina in the future will be the central distributing point for the company in the west, and a large staff will be employed there. The company has been doing business in Regina in a small, rented warehouse space, but as this was not suitable for the purposes of the company, it was decided to build this year.

A sawmill is to be erected at Port Kells, B.C., in the spring by Booth and Robers to take care of the increasing lumber trade in that district.

According to a statement from Vancouver, pulp and paper from Kootenay timber may soon be a new industry for the interior of British Columbia. It is one of the projects which W. A. Anstie, manager of the Forest Mills, Ltd., has in outline plan for his present mission to London, where he has gone to interview his principals for the complete reorganization of the concern, whose timber holdings are the largest held by one company in the upper country of British Columbia. Mr. I. R. Poole, secretary of the Mountain Lumber Manufacturers' Association, with headquarters at Nelson, B.C., stated that it was a very likely development in the interior.

Toronto Harbor Report

The annual report of the Toronto Harbor Industrial Department shows that that department during 1919 located on Toronto harbor property industries with a total capitalization of $15,000,000 and employing 3,000 hands.

The following industries have been located on city properties:—

Blatchford Calf Meal, Pelham Street; Canadian John Wood Manufacturing Co., Hillington Avenue; Chase Motor Truck Corporation, 28 Atlantic Avenue; Clark Dental Manufacturing Co., 1229-31 Queen Street West; Columbia Graphophone Co., 54-56 Wellington Street; Consolidated Wafer and Cone Co., Ltd., 107 Front Street East; Crane, Ltd., 88 Teraulay Street; Diamond State Fibre Co., King Street West; General Fire Extinguisher Co., Chelsea Avenue; Great Lakes Oil Refining Co., Ltd., Excelsior Life Building; Alfred Herbert Co.; the Charles E. Hires Co., Ltd., 47 Davies Avenue; International Metallurgical Co.; Reinhardt Brewery, Don Esplanade; Larned, Carter and Co., 102 Atlantic Avenue; Merchandise Sales Co., 345 Adelaide Street West; National Electric Products, 295 Dufferin Street; Neptune Water Meter Co., 1195 King Street West; Select Lingerie Co., 53 Richmond Street East; Sims Till Manufacturing Co., 98 Vine Street; Sunbeam Chemical Co. of Canada, Ltd., 90 Jarvis Street; Taylor Instrument Co., 110 Church Street; Veterans' Manufacturing Supply Co., Ltd., 56 Noble Street; Ward Baking Co., Dupont and Manning Avenue; Wolverine, Ltd., 32 Mercer Street.

"Thirteen of the above firms," says the report, "have furnished us with the amount of their capitalization, which totals $3,910,000. The balance of these concerns, namely, eleven, have for various reasons refused to give this information at this time as their plans were not sufficiently advanced to provide us with accurate information. These firms, in the initial stages of their establishment, will employ approximately 1,100 hands."

The following have been located on harbor properties: Anthracite Briquette, Commissioner Street, 1.144 acres; Baldwin Canadian Steel Corporation, Commissioner Street, 47.0 acres; Barrett Co., Ltd., Keating Street, 4 acres; Canadian Ice Machinery Co., 2.49 acres; Coleman Lamp Co., Don Roadway, 8 acres; E. Fielding and Sons, Villier Street, .757 of an acre; Fish Coal Co., .624 of an acre; Nukol Co., Ltd., Villier and Cherry Streets, 1.627 acres; Ontario Oakoal Co., 2 acres; Peckover, Ltd., foot of Spadina Avenue, 3.22 acres; Wm. F. Sparling and Co., 120 Bay Street, 115 feet; Toronto Structural Steel Co., Commissioner Street, 2.924 acres. Nineteen of the firms have headquarters in the United States.

"Solid as the Continent"

The North American Life is high in the esteem of the insuring public. Our representatives are placing unprecedented amounts of new business. Why?

"Solid as the Continent" policies, coupled with liberal dividends and the great enthusiasm of all of our agents is the answer.

If you want to associate yourself with a company that offers its representatives real service, write us. Some good agency openings are available.

Correspond with E. J. Harvey, Esq., Supervisor of Agencies.

HOME OFFICE - TORONTO, ONT

THE FOUNDATION OF A GREAT SUCCESS

The world-famous merchant, John Wanamaker, attributes his phenomenal success to having carried Life Insurance on the endowment plan. This system encouraged him year by year to lay by a fixed amount of money. As means increased, additional policies were taken and as they matured the proceeds were invested in new departures in connection with the business. These endowment policies helped greatly in the accumulation of capital. Every young man should carry Endowment Insurance. It furnishes a motive for saving. Money that might otherwise be dissipated is accumulated—and at good interest. Many have laid the foundation of success, not so notable perhaps as that of the Philadelphia millionaire, through investing in Endowment Policies in the Mutual Life of Canada.

Do not spend your surplus, lay it by for a sunny day by means of a Mutual Life Endowment

The Mutual Life Assurance Co. of Canada

"None but the best

is good enough"—in Life Insurance of all things.

What constitutes the best in Life Insurance?

Low Premiums—high profit returns—a policy simple and clearly worded—no room for misunderstanding.

All hingeing upon progressive methods that ensure a high interest rate on invested funds—with unquestioned safety.

These give "the best" in Life Insurance and these are the features that have given the Policies of The Great-West Life Assurance Company their wide reputation.

Ask for information.

HAWKESBURY BOARD OF TRADE

The annual meeting of the Hawkesbury, Ont., Board of Trade was held last week. All the officers were re-elected by acclamation as follows: President, Dr. T. W. Smith; vice-president, Eugene Paquette; secretary, Denis Paquette; treasurer, F. B. Bowden. Executive committee—H. W. Lawlor, W. A. McCrea, F. X. Bertrand, J. O. Bertrand, J. M. Bertrand, A. Lax, J. H. Laurin, W. G. Dickson, Omer Laurin, James Ross, L. P. Pattee, L. Lapointe, Ad. Legault, J. O. Paquette, F. W. Banford.

SUMMERSIDE BOARD OF TRADE

The annual meeting of the Summerside, P.E.I. Board of Trade was held last week. J. Le Roy Holman, in his address, reviewed the activities of the board. Mr. Holman was re-elected president, and T. D. Ramsay was re-elected vice-president for 1920. R. H. McDonald was again appointed secretary, and a recording secretary, W. D. McNeill, was appointed. The following councillors were elected: Dr. E. T. Tanton, G. W. Phillips, H. J. Holman, L. R. Allen, Chas. Hensley, Creel McArthur, J. E. Campbell, W. J. Lidstone, John Grady and P. G. Clark.

KITCHENER BOARD OF TRADE ANNUAL

At the annual meeting of the Kitchener Board of Trade last week the following officers were elected by acclamation: President, R. D. Lang; vice-president, Dr. J. F. Honsberger; E. W. Lamprey, treasurer; E. J. Payson, secretary. Mr. Lang informed the members that he would not be able to take up the duties as president, and wished his resignation to take place immediately. It was decided that a meeting be held in the near future when nominations will be in order for the vacancy created by the resignation.

YORKTON BOARD OF TRADE OFFICERS

At the annual meeting of the Yorkton Board of Trade last week the following officers were elected: J. F. Reid, M.P., honorary president; T. H. Garry, M.L.A., honorary vice-president; R. Barbour, president; J. A. Graham, vice-president; J. M. Clark, secretary-treasurer. Executive—Mayor Gibson, J. E. Peaker, J. Macdonald, W. D. Dunlop, S. N. Wynn, T. D. Ross, Major Bradbrooke, Col. Pawlett, H. Crawford, H. Bronfman, A. O. Whitman, F. J. Carpenter, H. N. Louth, W. T. Moore, H. K. Moberly, M. A. Eby, D. A. Sands, W. R. Parsons, E. Poulter, J. Caldwell, H. W. Purvis, J. L. Magrath, C. A. Mercer, W. M. Doidge, F. J. Moritz, J. W. Ewen

LONDON AND CANADIAN LOAN

A good year's business is reported by the London and Canadian Loan and Agency Co. There is a slight increase in net profits, which amount to $188,118, compared with $174,981 a year ago. Net earnings represent 13.05 of the capital and 7.50 per cent. of the capital and reserve. Gross revenue was $389,892, compared with $363,496. The company was able to increase its dividend by giving a bonus of 1 per cent. in addition to the usual 8 per cent., and transferred $50,000 to rest account, the same as in the previous year. The rest account now amounts to $950,000, or 76 per cent. of the paid-up capital.

The total assets of the company are now $5,085,872, compared with $4,855,958. Loans on mortgages and interest stand at $4,381,380 as against $4,272,142. Investments in municipal and other negotiable debentures, including Canadian war bonds, show a slight increase at $461,332, compared with $443,119. Debentures and certificates have risen from $2,185,817 to $2,345,155.

GOVERNMENT AND MUNICIPAL BONDS

Prices Remain About the Same—Brandon Paid Over 6½ Per Cent. For Its Money—Regina to Sell Over the Counter

THIS week revealed little change in the situation in the bond market. Prices were about the same. Brandon, Man., borrowed at the expensive rate of 6.55 per cent, wnile East Whitby township got its money for about 6 per cent. Some municipalities are endeavoring to overcome the present situation by offering their bonds outside of the usual channels. Lindsay, Ont., has been offering its bonds locally, while Hamilton is doing the same. In the west, Regina is applying to the Local Government Board of Saskatchewan for permission to sell 6 per cent. bonds over the counter at par, while Edmonton and Calgary have been considering the same plan for some time past.

There are a few municipalities who in the past have sold their bonds to local citizens successfully, but dealers are rather doubtful as to others, particularly in the west, where the situation differs materially from that of investment centres in Ontario.

The following is a list of bond offerings of which mention has been made either in this or previous issues:—

Borrower.	Amount.	Rate %.	Maturity.	Tenders close.
Hamilton, Ont.	$ 385,000	5	Various.	Feb. 10
Weyburn S.D., Sask.	80,000	6	30-years	Feb. 11
Goose Lake C.S.D., Man.	25,000	6	20-instal.	Feb. 13
Shawinigan Falls, Que.	50,000	6	20-years	Feb. 13
Greater Winnipeg Water District ..	1,000,000	5½	20-years	Feb. 16
Woodstock, Ont. ...	100,000	5½	30-instal.	Feb. 16
Charlottenburgh Tp., Ont.	60,000	5½	20-instal.	Feb. 16
Dauphin, Man.	35,000	6	30-years	Feb. 20
Penticton, B.C.	75,000	6	20-years	Feb. 25
Lindsay, Ont.	69,000	5½	Various.	......

Bond Offerings

Penticton, B.C.—Tenders will be received until February 25, 1920, for the purchase of $75,000 6 per cent. 20-year electric light debentures. (See announcement elsewhere in this issue.)

Woodstock, Ont.—Tenders will be received until February 16, 1920, for the purchase of $100,000 5½ per cent. 30-instalment sewerage improvement debentures. F. H. Down, city treasurer.

Hamilton, Ont.—Tenders will be received until February 10, 1920, for the purchase of $385,000 5 per cent. debentures, for various maturities, to yield the purchaser 5½ per cent. Interest payable half-yearly, May and November. W. R. Leckie, city treasurer.

Lindsay, Ont.—The town is still offering for sale 5½ per cent. debentures to the amount of $69,000. The debentures may be had in terms of various maturities, from one to twenty years. Some small blocks of 5½ per cent. debentures, totalling $7,276, have been disposed of. F. M. Currie, town treasurer.

Bond Sales

Cobden, Ont.—Messrs. W. L. McKinnon and Co. have purchased $9,500 6 per cent. 30-instalment debentures.

East Whitby Township, Ont.—A block of $45,000 5½ per cent. 30-instalment bonds has been purchased at 94.66, by Messrs. A. E. Ames and Co. The township paid about 6 per cent. for its money.

Brandon, Man.—Messrs. W. A. Mackenzie and Co. have purchased an issue of $450,000 5½ 20-year bonds at 88.27, at which price the city pays about 6.55 for its money.

Debenture Notes

Elgin County, Ont.—The county council has voted $100,000 to be expended on the construction of good roads.

Middlesex County, Ont.—The county council passed a by-law providing $207,735 for county and suburban roads this year.

Vancouver, B..C—The city will borrow $2,500,000 from the city's bankers as an advance against taxes for this year, to meet current expenditures.

Carleton County, Ont.—The council has decided to raise $200,000 as an emergency fund in connection with the expropriation of toll roads in the county.

Toronto, Ont.—The legislation committee of the city council has approved the spending of $200,000 for two stadiums, without the consent of the ratepayers.

Montreal, Que.—The Montreal Catholic School Commission's request to borrow $2,000,000 was refused in the legislature, and the amount reduced to $1,000,000.

Quebec, Que.—The Quebec Protestant School Board has been authorized by the Lieutenant-Governor to issue bonds for a loan of $35,000 to pay the debts of the former board.

Sherbrooke, Que.—Property holders will be requested to sanction the issue of $600,000 bonds. It is intimated that during the year bond issues to cover improvements will total about $1,000,000.

Portage la Prairie, Man.—The highest bid received on the $79,610 6 per cent. 20-instalment bonds was 99.05 from W. L. McKinnon and Co. It is not known whether the issue has been taken or not.

St. Anne R.M., Man.—Messrs. W. L. McKinnon and Co. also bid the highest on the $57,263 5½ per cent. 29-instalment bonds of St. Anne, but it is not known whether the sale has been made. The bid was 93.85.

Fort Garry, Man.—Ratepayers will vote on two money by-laws on February 20. One is for $200,000 30-year debentures for improvements, and the other is for $21,000 25-year debentures for a bridge over the La Salle River.

Leeds and Grenville County, Ont.—The council of the United Counties of Leeds and Grenville at its session just closed passed a by-law to raise by debentures the sum of $366,653 for the construction and maintenance of county roads.

Oak Bay, B.C.—It was stated inadvertently in these columns recently that the tenders were rejected on the $68,000 5½ per cent. 20-year bond issue. Municipal clerk, O. W. Ross informs *The Monetary Times* that tenders were not called on this issue but may be shortly.

Montreal, Que.—The Montreal City Commissioners have authorized a new issue of a million dollars treasury bonds, to bear interest at 5½ per cent., payable from February 1st, 1920, and thereafter monthly up to the date of redemption. The issue authorization is in favor of the Bank of Hochelaga and the Bank of Montreal in half a million dollars each. This is part of the $8,000,000 loan to be raised to apply exclusively to the payment of expenses authorized by the city budget of 1920.

Regina, Sask.—At the meeting of the special committee of the city council held last week a resolution dealing with the new debenture issue covering the Cyclone loan $30,000, spur track crossing $14,000, light and power extension $40,000, sewer construction $2,800 and water connections $4,200, totalling $91,000, was passed as follows: "That the committee report to the council recommending that the city commissioner be authorized to obtain permission from the local government board to change the rate of interest on the debentures mentioned from 5½ per cent. to 6 per cent., and that the commissioner be further authorized to take whatever steps are necessary to sell debentures to citizens over the counter at par."

REPORT OF THE PRESIDENT AND DIRECTORS

For the Year Ending, 31st December, 1919

BOARD OF DIRECTORS.

President, SIR WILLIAM MACKENZIE.
Vice-President, LT.-COL. THE HON. FREDERIC NICHOLLS.
BRIG.-GEN. SIR HENRY M. PELLATT, C.V.O.
HON. C. P. BEAUBIEN. E. R. WOOD.
GEO. H. SMITHERS. HUGH MACKAY, K.C.
HERMAN H. PITTS.
FRANK W. ROSS.
R. J. FLEMING, *General Manager*.
J. C. GRACE, *Secretary-Treasurer*.

To the Shareholders:

Your Directors present herewith the Twenty-Eighth Annual Report, together with Balance Sheet and Profit and Loss Account of the Company, for the year ending 31st December, 1919.

It will be noted by reference to the comparative statement in the report that the gross revenue increased over the figures for 1918 by $708,593.01, while there remained only $13,274.49 of such increase to be carried forward. The higher wages paid to employees and increased cost of materials, account for this very small balance.

The Gross Earnings amounted to		$7,234,895.38
Charges for operating, maintenance, etc.		5,655,658.57
NET BALANCE FROM OPERATION		$1,579,236.81
Distributed as follows:—		
Bond Interest, etc.	$128,432.85	
War and Provincial Government Taxes	39,059.51	
		$ 167,492.36
Payments to City:		
Percentage on Earnings	$1,152,515.43	
Pavement Charges	98,793.60	
General Taxes	147,160.93	
		1,398,469.96
Balance carried forward		13,274.49
		$1,579,236.81

The gross earnings amounted to $7,234.895.38, or an increase of $708,593.01 over the earnings of the previous year.

The payments made to the City of Toronto amounted to the sum of $1,398,469.96, which amount when compared with payments made during the previous year, shows an increase of $97,203.78.

The agreement with the employees expired in June last, when new demands were submitted which the Company could not grant, and negotiations for an amicable settlement being fruitless, the Company applied for a Conciliation Board under the Labor Act. The Board was appointed by the Government, but while it was sitting the men resorted to a strike which continued for twelve days. During the strike, the Conciliation Board made unsuccessful efforts to effect a settlement and the Ontario Railway and Municipal Board, under its powers, took over the property, making two offers to the men, both of which were refused. The Conciliation Board then made an interim report, suggesting an increase in wages and changes in operating conditions contingent upon an increase in fare being granted by the City. The Railway Board thereupon made an offer to the men of these rates of wages and conditions, but stated that they had no power to change rates of fare. The men accepted the offer and returned to work. There was then no course open to the Company but to carry out the undertaking of the Railway Board.

The obligations imposed upon the Company by the action of the Conciliation Board and the Ontario Railway and Municipal Board involved an increase of sixteen cents per hour in wages, together with a reduction in the working day to eight hours; overtime after eight and a half hours and special rates for Sundays and holidays; the cost to the Company amounting to approximately $1,500,000 per annum. It is to be noted that we have paid the increased rates for only half the current year, or, to be exact, from July 4, 1919, when the strike ended, the men returned to work. Next year the increases will have to be paid for the full year.

Your Directors desire to state that the reason why dividends have not been declared this year is due entirely to the abnormal increase in wages during the past few years, combined with a rapidly increasing cost of materials. In the year 1916 we were paying a maximum rate of wages of 27½ cents per hour. In 1917 an Arbitration Board increased this rate to 37 cents per hour; and before the agreement had expired, the men sought a Conciliation Board and secured a war bonus of two cents per hour, bringing the rate up to 39 cents. In 1919, under the action of the Conciliation Board and the Ontario Railway and Municipal Board, the maximum rate was fixed at 55 cents and the length of the working day reduced from ten to eight hours, with provision for overtime rates as above mentioned. Thus, in a period of three years, the rates of wages of employees have doubled, making the additional annual cost to the Company approximately $2,500,000. During the same period, materials have increased in price from one hundred to three hundred per cent. In consequence, the money that would otherwise have gone towards improvement of the property and into dividends, has been swallowed up by increases in wages and increased cost of materials.

And it must be remembered the Company has had to face these expenditures with revenues drawn from rates of fare fixed twenty-eight years ago, the average fare being 3.9 cents per revenue passenger, the lowest rate of fare on the continent for a city of Toronto's size. With the object of meeting the increase in wages, the Company applied to the City Council for permission to increase the fare, pointing out that about four hundred roads in North America, many of them with agreements similar to ours, had obtained increases in rates of fare, but the City refused to alter the agreement. Your directors also approached the Ontario Government, seeking relief, but secured no assistance. The Company then offered to make an immediate sale of the property to the City, upon the terms set forth in the franchise agreement for sale in September 1, 1921, but Council would not favorably consider the offer.

The ninth drawing of the Company's currency and sterling bonds, under the terms of the mortgage deed dated 1st September, 1892, took place on the 24th day of June. Under said terms the Company draws annually during the last ten years of its franchise, five per cent. (5%) of the amount of bonds issued, thus reducing, during the ten years mentioned, the outstanding bonds to fifty per cent. (50%) of the original issue, and all bonds so drawn are to be redeemed on or after the 31st day of August following the date of drawing, from which date no interest is payable on bonds so drawn. There has been drawn to date a total of $2,047,413.30.

A regular monthly audit and verification of the books, accounts and vouchers was made by W. S. Andrews & Company, Chartered Accountants, and their certificate has been attached to the Company's Balance Sheet.

Respectfully submitted,

WILLIAM MACKENZIE, *President*.

THIRTY-SIXTH ANNUAL REPORT

Portage La Prairie Farmers' Mutual Fire Insurance Company

JANUARY 1st, 1919, TO DECEMBER 31st, 1919

OFFICERS—President, Wm. Fulton; Vice-President, E. H. Muir; Inspector and Valuator, T. H. Lamont; Manager and Secretary, Stratton Whitaker; Treasurer, A. H. Freudemacher.

DIRECTORS—William Fulton, E. H. Muir, M. G. Tidsbury, Jas. Trimble, Jas. McKenzie, P. D. McArthur, Jos. W. Yuill.

DIRECTORS' REPORT

The Directors have pleasure in submitting herewith their Thirty-sixth Annual Report, showing statement of the Receipts and Expenditures of the Company as at 31st of December, 1919, together with the Assets, Liabilities and Summary of Business for the year ending on that date.

NEW BUSINESS—During the year applications were received and policies were issued for $22,134,648.00, being an increase over the year 1918 of $7,622,582.00. This increase again exceeds that of any previous year; thus maintaining the progressive record of the Company.

BUSINESS IN FORCE—The total insurance in force now amounts to $51,556,343.00.

THE ASSETS—The Assets of the Company show an increase of $121,119.93 for the year, now making a total of $910,616.91.

INVESTMENTS—The Company has again made a further investment of $10,000 in Dominion War Loans, and $10,000 in Manitoba Farm Loans Association Bonds, making a total investment in Bonds of $70,000. This investment of the Company's funds was absolutely necessary to maintain the cash reserve required by the Government.

LOSS CLAIMS—Claims have been exceptionally heavy for Fire, Lightning, and Wind Storm, making a total of $137,508.88; of this fire claims amounted to $98,620.00, and we find that a big percentage of these losses was caused by carelessness and smoking in barns and out-buildings. Policy-holders should use every care, and do their utmost to reduce this terrible waste. Lightning claims amounted to $13,657.52, and we paid $25,230.36 for damage done by Wind Storm. The Wind Storms during the past year have been the worst ever recorded, so we feel that the amount paid out is not excessive under the circumstances.

WILLIAM FULTON, President.

NEWS OF MUNICIPAL FINANCE

St. John Budget Over $1,000,000—Winnipeg Capital Expenditure for 1920 Totals Nearly $2,000,000—Vancouver to Take Advantage of Exchange Rate

St. John, N.B.—The city council has finally passed the estimates for 1920. The total budget is $1,186,974, as compared with a total of $909,603 for last year.

Edmonton, Alta.—The following expenditures have been outlined by mayor Clarke, totalling $1,150,000: Power house, $500,000 ;telephone department, $400,000; exhibition grandstand, $150,000; city incinerator, $100,000.

Moose Jaw, Sask.—Tax assessment exemptions under the city assessment for 1920, amount to $2,204,976, according to the statement given out by city assessor W. J. Moffat, government buildings and schools being the most favored.

Winnipeg, Man.—Capital expenditures totalling $1,676,062 will be required to be made by the three civic departments during 1920 as follows: Light and power, $1,275,000; waterworks, $47,010; and engineer's department, $354,052.

Charlottetown, P.E.I.—A statement of the city's receipts and expenditures for the year of 1919, shows a surplus of $149. The amount balance at the credit in the bank on December 31st, was $6,866. The debenture debt of the city now amounts to $730,299.

New Westminster, B.C.—The net taxable assessment of the city is a little more than $10,000,000, which is more than $2,500,000 less than the assessment of 1919. Assuming that the city council continues to tax land values only, it will take a forty-mill rate to yield the same revenue as was obtained last on a rate of thirty-two mills.

Vancouver, B.C.—The city has taken advantage of the exchange rate in paying the interest on the sterling bonds. The sum the city had to send to England was £85,265, being the half-yearly interest on the bonds of the city outstanding in England. The sum of $341,485 was sent. Had the exchange situation not existed, the city would have been under the necessity of sending approximately $415,000.

Simcoe County, Ont.—A statement of the receipts and expenditures for the year 1919, shows a balance of $31,185 in favor of the receipts. The county now has a total debenture debt of $61,495, but the surplus is $79,331, sufficient to provide for all the debentures and still leave a margin. The $79,331 is the total of three surpluses. In 1917, $23,737; 1918, $24,352; and the 1919 surplus.

West Vancouver, B.C.—The financial statement of the municipality shows 1919 assessment of $3,662,081, and statutory borrowing power of $732,416. The general debentures debt totals $642,000, including bonds issued $582,175, and authorized issues awaiting sale, $59,825. The local improvement debt is $100,000, and the school debenture debt $38,200. The excess of assets over liabilities is $296,263. Total sinking fund amounts to $52,873, which is short of requirements by $38,750, which amount is still to be deposited from arrears of taxes.

Total taxes collected during the year amounted to $106,123, including arrears and interest amounting to $46,697. Loans from the bank to the amount of $100,700. including $25,700 for 1918, were repaid during the year.

Saskatoon, Sask.—As in the case of other western cities, the question of paying interest on the civic debentures held by English investors, is causing considerable trouble. The matter is not a pressing one in Saskatoon, as it is in the other western cities at the present time. City bonds are not due to yield interest until April 1st, when the question may possibly come up for consideration. The amount involved is not a large one, and although the question has not yet been decided, it is open for argument, whether or not the city is compelled to pay the interest at the same rate at which the bonds were sold. Locally, however, it is felt that it would not be good business to seek to take advantage of the exchange rate even though it were technically possible. The city officials are aware that many of the Saskatoon bonds have been sent over to Canada and the interest will be payable in this city instead of in London on April 1st. In Saskatoon it has been the policy to pay the interest charges at the normal rate of exchange, and so far no opinion has been expressed that any departure will be made from this rule.

Toronto, Ont.—Another report has been made by Finance Commissioner Bradshaw regarding the city's debt, in which he points out the necessity of making drastic changes in the method of financing various works and undertakings. In the past, he said, it had been the practice, an indefensible one, of issuing debentures for the longest period possible, to raise funds to pay for various works and improvements. This was done in order to make posterity pay some share of the cost of permanent improvements and to keep the present tax rate down. The result of this policy has been to pile up the annual debt charges until they reach a formidable amount, and, what is worse, to increase the original cost of the works, which in many cases have had to be renewed before the original debt was liquidated. In future, he said, payments for improvements must be made within the probable life of those works. In the present unsettltd condition of the world's financial markets, having in mind the very large amount of capital which it will be necessary for the city to raise in connection with the taking over of the street railway and for extensions to the system, Mr. Bradshaw does not want to be obliged to raise moneys for other undertakings, except such as are of absolute necessity.

INVESTMENTS AND THE MARKET

Algoma Steel to Build $7,000,000 Mill at Sault Ste. Marie—Toronto Railway Had Good Year—Winnipeg Electric Case in the Courts

Quebec Street Railway.—The Quebec city council has approved the motion that instructions be given to the city attorneys to take immediate steps to annul the contract between the city of Quebec and the Street Railway Co. by which the company is authorized to charge increased fares. The reason given for the action is that the company has failed to fulfil its contract with regard to the operation of its service on Beauport Road.

Dominion Steel Corporation.—The announcement was made last week of the listing on the Montreal Stock Exchange of $7,000,000 6 per cent. preferred stock and $5,902,300 new common shares. The preferred stock is the original issue made many years ago which was never listed. So far as the new common stock listed is concerned, $902,300 of this issue remains in the treasury, the balance of $5,000,000 having been issued to the British interests in connection with their recent deal.

Algoma Steel Corporation.—Arrangements have now been completed for the immediate commencement of construction of a new structural steel mill by the corporation at Sault Ste. Marie, Ont., at the cost of about $7,000,000. The product of this new mill is expected to replace the greater part of the present imports of this material. About 90 per cent. of the consumption in Canada of structural steel is now imported, and it is the hope to supply that, or the greater part of it, from the Sault mills. Work will begin at once, and the construction is expected to take a little over a year. The corporation already has four blast furnaces, which will furnish much of the steel necessary for the new mill. It is expected that 500 men will be required for the construction work this winter, to be increased to 1,000 in the summer, and when the mill is completed it will require 600 operatives. The immediate financing of the venture is provided by the possession of ready cash and other liquid funds of the corporation. The last annual report shows current assets of $13,834,842, while the current liabilities were only $2,449,790.

INVESTMENTS AND THE MARKET

(Continued from page 54)

Canadian Car and Foundry Co.—At the meeting of the company last week the executive of the enterprise underwent reorganization, and the personell is now as follows: W. W. Butler, president of the Car company; W. H. Woodin, president of the American Car and Foundry Co. and a member of the board of the American Locomotive Co., chairman of the committee; Francis H. Clergue, to whose efforts were largely due the affiliation of the Canadian and United States interests; H. W. Beauclerk and Senator C. P. Beaubien.

Under the new reorganization Mr. Butler and his associates on the executive will have the benefit of the direct influence and assistance of the American Car and Foundry and American Locomotive companies in their efforts to extend the export field of the Canadian enterprise.

Mr. Woodin announced this week that the American Car Co. had also purchased a substantial interest in common and preferred stock of the Canadian company, and that he had been elected chairman of the executive.

Toronto Street Railway.—The following are the principal figures from the financial report of the company for the year 1919:—

	1919.	Increase.
Number of fares	180,000,000	13,500,000
Passenger revenue	$7,175,000	$650,000
Payments to city	1,396,000	95,000
Bonded debt reduced	227,000	....
Note obligatioin reduced	340,000	....

The company's bonded indebtedness now stands at slightly over $2,500,000, and at the rate it is being paid off will be about $2,050,000 when the franchise expires. The million dollars' worth of short-term gold notes which in 1918 replaced the million and a half then outstanding are, if possible, to be entirely wiped off before the franchise expires, so that the company's liabilities in September of 1921 will include:—

Capital stock	$12,000,000
Bonds	2,050,000
Mortgage	70,000

and whatever deficit may have accrued on operating account between now and then.

The year 1919 was the biggest in the company's history, so far as business and revenue are concerned.

Winnipeg Electric Railway Co.—The case of the city of Winnipeg vs. the Winnipeg Electric Railway Co. in regard to the increased fares has been carried to court. The city is seeking an injunction to restrain the company from collecting the increased fares, as ordered by the Public Utilities Commissioner, P. A. Macdonald. T. Hunt, K.C., representing the city, argued that the Public Utilities Commission had no power to authorize a raise in fares, and that the whole Public Utilities Act is unconstitutional. The argument, it is understood, is based in part on the judgment of the Manitoba court, reported in these columns last week, declaring the provincial Workmen's Compensation Board to be without judicial authority.

An increase of $633,000 in the receipts of the Winnipeg Electric Railway for 1919 over the receipts for 1918 was reported to the city finance committee. The report which, under the charter, must be submitted yearly, showed that the total earnings of the company were $2,796,703.09. Five per cent. of this was to be paid to the city on February 1st. The city's share will be $139,825, instead of $106,000, as was estimated. This includes $39,000 tax on the cars.

Receipts fell to almost nothing during the strike period, and it was estimated by H. C. Thompson, city treasurer, that if the receipts for these months had been normal, the company's earnings would have been over $900,000 more than in 1918. T. Hunt, city solicitor, estimated at the beginning of the year that the company's increase following the new fares would be $1,000,000. Cars in use by the company number 328, according to the report.

Carriage Factories, Ltd.—Although figures from the financial statement of the company for the year ended July 31st last show a loss, Mr. James Tudhope, president, points out that the situation is not as bad as seems indicated. The loss for the twelve months, after providing for depreciation and bond interest, amounted to $88,926. This was due to the fact that $245,367 was deducted to cover adjustments. The company has been practically reorganized under the general managership of Mr. H. Tudhope, of Orillia, and the shareholders have approved the transfer of the head office from the city to that town. In this one item alone $40,000 will be saved annually in administration charges. The company's assets total $4,153,970, including $556,246 in accounts receivable, $965,567 in raw materials, $947,933 in fixed assets as per appraisal, and $1,360,981 in goodwill.

The company has orders on the books aggregating $2,750,000, but, as the firms for which the work is being done are obliged to provide a portion of the materials, the net costs to Carriage Factories will not reach nearly that figure. Practically only labor and lumber are involved in the charges upon Carriage Factories. President Tudhope says that the company, which formerly turned out between sixty and seventy classes of vehicles, is now centring its efforts upon fifteen or twenty, with a consequent saving in operations. Efforts are being made to branch out into subsidiary lines, such as are involved in the making of parts for automobiles, and it is hoped that the work for this kindred industry will prove immensely profitable in years to come.

Canadian Collieries, Ltd.—A circular will be issued to holders of the 5 per cent. first mortgage gold bonds of the company by the bondholders' committee, setting forth a scheme of reconstruction. As part of the arrangement made in 1915, a bondholders' committee was appointed, and the control of the committee was placed in their hands through deposit of a majority of the shares in a voting trust in their favor. During the war the company's earnings have not sufficed to provide any interest on the bonds. During the first part of the war the company was actually working at a loss, owing to the falling off in the bunker trade on the Pacific Coast. In the latter part of the war the bunker trade revived, and the company was able to make a better showing, but the scarcity of labor and its abnormally high cost both reduced the company's output and continued to keep the margin of working profit down to a low figure, while the depreciation of the plant and the upkeep of the mines absorbed considerable sums, leaving no surplus available for interest on the bonds. Although results have been better recently, the outlook for the company must remain uncertain for some time to come. While the company has very large coal areas available for exploitation, the cost of obtaining the coal is exceedingly high, and the market for it is fluctuating, both as to demand and price.

The committee has prepared, after careful consideration, a plan for the reorganization of the capital of the company, the principal features of which are as follows: The capital will be reorganized by cancelling the whole (£2,054,000) of the first mortgage gold bonds and all arrears of interest, the second mortgage debenture stock, and the three-year notes and $3,500,000 of the $5,000,000 preferred stock, and $9,900,000 of the $10,000,000 common stock, and by creating £1,027,000 5 per cent. non-cumulative "A" income debenture stock, £1,027,000 5 per cent. non-cumualtive "B" income debenture stock, $3,400,000 new preferred stock, and $1,027,000 new common stock. The holders of the present bonds will receive in place of each £100 of bonds now held £50 "A" debenture stock, £50 "B" debenture stock, $100 preferred stock and $50 common stock, and so in proportion for amounts less than £100. The holders of the £50,000 three-year notes issued (for which the second mortgage debenture stock is held as collateral security) will receive $250,000 of the preferred stock, leaving $1,096,000 preferred stock unissued.

DIVIDENDS AND NOTICES

BANK OF MONTREAL

Notice is hereby given that a Dividend of Three per Cent. upon the paid up Capital Stock of this Institution has been declared for the current quarter payable on and after Monday, the First Day of March next, to shareholders of record of 31st January, 1920.

Montreal, Que., January 16th, 1920. 67

THE QUEEN CITY FIRE INSURANCE COMPANY

The Annual General Meeting of the Shareholders of this Company will be held, pursuant to the Act of Incorporation, on Wednesday, the 25th day of February, 1920, at 11 o'clock a.m., at the Company's office, 32 Church Street, Toronto, to receive the Report of the Directors for the past year, to elect Directors for the ensuing year, and for the transaction of such other business as may be transacted at a General Meeting of Shareholders.

By Order,
HUGH F. CRIGHTON, Secretary.
Toronto, February 3rd, 1920. 73

THE CANADIAN BANK OF COMMERCE

Dividend No. 132

Notice is hereby given that a dividend of Three per cent., upon the capital stock of this Bank, being at the rate of twelve per cent. per annum, has been declared for the quarter ending 29th February next, and that the same will be payable at the Bank and its Branches on and after Monday, 1st March, 1920, to shareholders of record at the close of business on the 14th day of February, 1920.

By Order of the Board.
JOHN AIRD,
General Manager. 72
Toronto, 23rd January, 1920.

UNION BANK OF CANADA

DIVIDEND No. 132.

Notice is hereby given that a dividend at the rate of 10% per annum upon the Paid-up Capital Stock of the Union Bank of Canada has been declared for the current quarter, and that the same will be payable at its Banking House in the City of Winnipeg, and also at its branches, on and after Monday, the 1st day of March, 1920, to shareholders of record at the close of business on the 13th day of February next.

The Transfer Books will be closed from the 14th to the 28th day of February, both inclusive.

By order of the Board.
H. B. SHAW,
General Manager.
Winnipeg, Jan. 20, 1920. 79

RECENT FIRES

Cold Weather Resulted in Many Fires Originating in Heating Apparatus—Halifax, Montreal, Toronto and Walkerville Had Heavy Losses

Beaver River, N.S.—January 29—Home of John Wetmore was destroyed. One death.

Belleville, Ont.—January 29—Residence of J. A. Berkley, Victoria Avenue, was damaged. Caused from thawing out pipes. Estimated loss, $1,000. Slight damage done to roof of Steel company plant.

Chesley, Ont.—February 4—Two stores situated on Main Street, occupied by Ross and Warmington, tailoring and men's furnishings, and by B. Wright, furniture and undertaking, were destroyed. Estimated loss, $25,000.

Dominion, N.S.—January 27—Five housese and a general store were destroyed. The buildings burned were two rows of houses inhabited by Italian miners. Part of one of them also housed the Italian co-operative store. Cause unknown. Estimated loss, $5,000, covered by insurance.

Glenbush, Sask.—January 27—Residence of G. H. Reynolds, in the Battleford district, was destroyed. Cause, defective stovepipe.

Halifax, N.S.—February 1—Oxford Street Methodist Church was destroyed. Estimated loss, $55,000. Insurance carried, $12,000.

Hamilton, Ont.—January 26—Building of the Canadian Shovel and Tool Co. was damaged. Several thousand gallons of oil were destroyed. Cause, lighted candle held close to an oil tank.

Joliette, Que.—January 31—The presbytery of the parish of St. Paul wes destroyed. Loss partially covered by insurance.

Lake Megantic, Que.—January 23—Canadian Pacific Railway station, with a large number of customs records, was destroyed. Cause unknown. Estimated loss, $10,000.

London, Ont.—January 27—Canadian Pacific Railway station was damaged. Estimated loss, $4,000.

January 29—Plant of the Western Ontario Electric Co., 526 Adelaide Street, was damaged. Estimated loss, $1,000, covered by insurance.

Lyn, Ont.—February 4—The parsonage of the Methodist Church, with outbuildings occupied by Rev. Geo. Mossop, was destroyed. Cause unknown.

Milverton, Ont.—February 2—Home of Dr. P. L. Tye, situated on Main Street, was damaged. Estimated loss, $1,000.

Montreal, Que.—January 24—Two buildings, situated on Craig Street West, were damaged. The first building, which bears the Nos. 308, 310 and 312, occupied by the Commercial Printing Co., Morgan-Worsnip Signs Co. and Evariste Pelletier, was damaged. The second building, Nos. 327, 329, occupied by the Hamilton Brass Works, Campbell, Smibert and Co., Packard Brothers, Edinburgh Roperie and Sailcloth Co. and the Parisian Corset Manufacturing Co., was damaged. Slight damage was also done to the plant of the Financial Times Co., 331 Craig Street West. Estimated loss, $50,000.

Montreal, Que.—February 3—Plant of the St. Lawrence Welding Co. Ltd., situated at 138-140 Inspector Street, was damaged. The storeroom, the carpenter shop and other small departments were destroyed. Cause unknown. Estimated loss, $20,000, covered by insurance. Slight damage by smoke and water to the Canadian Metal Manufacturing Co., 144 Inspector Street.

Morrisburg, Ont.—January 26—Cameron Block, housing the Cameron bakery, Fisher's butcher shop, Stata's barber shop and W. Shannette's residence, was destroyed. Damage was done to plate glass windows across street. Estimated loss, $30,000.

Ottawa, Ont.—January 31—A two-story building at 282-284 Bank Street was destroyed. Estimated loss, $1,000, covered by insurance.

Port Credit, Ont.—February 4—Three frame houses situated on Lake Street, and occupied by A. Peer, H. Ryers and J. Scott, were destroyed. Cause, supposed to have been from an overheated stove. Estimated loss, $7,000.

Sydney, N.S.—February 1—The Sydney and Louisburg roundhouse was destroyed. Cause unknown. Estimated loss, $10,000.

Sidney Township, Ont.—January 29—Farm and some live stock belonging to G. A. B. Gay, situated in Sidney township, was destroyed. Three silos adjoining the barn were also destroyed. Cause unknown. Estimated loss, $18,000. Insurance carried, $14,000.

Stouffville, Ont.—January 25—Presbyterian Church was damaged. Cause originated in the furnace-room.

Taber, Alta.—January 23—The tailoring establishment of J. H. Dudde, the office of J. H. Layton, the Wong Lee Laundry and the old Palm Theatre were destroyed. Estimated loss, $7,000.

Thorold, Ont.—January 31—Hendershot Building, situated on Ormond Street, was destroyed. Cause, presumed to have been from overheated stovepipes. Estimated loss, $10,000.

Toronto, Ont.—January 30—The Westminster Presbyterian Church, with contents, was destroyed. Cause, supposed to have started from an overheated furnace. Estimated loss, $125,000. Insurance carried, $36,500.

Winnipeg, Man.—January 28—Drug store occupied by Connell and Co., situated at the corner of Main Street and Bannatyne Avenue, with contents, was damaged. Estimated loss, $5,000. Insurance carried in the North West Fire Insurance Co.

January 28—The old, historic hermitage, Headingly, ten miles west of Winnipeg, owned by ex-Reeve W. C. Hall, of Charleswood, was destroyed. Four deaths.

Martock, N.S.—January 27—Barn owned by Geo. Dorman, a resident of Martock, four miles from Windsor, was destroyed. Cause, supposed to have originated from hot coals which were used to thaw out pump in barn.

Walkerville, Ont.—February 2—Garage of Walkerville Brewing Co. and the section of the brewery building used for bottle storage were destroyed. Estimated loss, $25,000.

.ADDITIONAL INFORMATION CONCERNING FIRES

Abbey, Sask.—January 5—Building, with all its contents, occupied by Cuthbertson and Thomson, owned by Frank Newby, was destroyed. Cause unknown. Estimated loss to contents, $14,396. Insurance carried by Cuthbertson and Thomson in the following companies: British America, $2,000; Occidental, $8,150; Retail Merchants' Association (Saskatoon), $2,000; Rochester Underwriters, $1,000; total, $13,150. Estimated loss to building, $6,000. Insurance carried, $4,800.

Burford, Ont.—January 14—Grain elevator and chopping mill, occupied by the Burford Coal and Grain Co., owned by N. A. McCallum, was destroyed. Cause, supposed to have been from motor or wiring. Estimated loss, $10,000. Insurance carried in the following companies: Economical, Merchants, Wellington and Waterloo Mutual to the amount of $6,500.

Edmonton, Alta.—January 13—Grocery store owned and occupied by N. Rioux at 11307 89th Street damaged. Cause unknown. Estimated loss, $7,500. Insurance carried, $7,000.

Montreal, Que.—January 3—Building of the Society Brand Clothes, Ltd., owned by Valiquette, Ltd., was damaged. Estimated loss, $9,000. Insurance carried in the following companies: Yorkshire, $5,000; Rochester Underwriters, $2,500; General of Perth, $2,500; total, $10,000.

Exchange Situation Affecting Canadian Trade

Present Levels, Resulting from New Trade Relations, Must Soon Alter Course of Commodities — Could Loans be Arranged Through Banks? — Plan to Restore Exchange by Barter in Russia—Position of United States and Canada

By A. B. BARKER.

ONE result of the changes in our habits of trade, due to the war and the exchange situation, will be the realization that, after all, trade consists in exchanging goods for other goods. This has always been admitted in the abstract, but the working of our complex commercial machinery has rather obscured the fact, until the general belief appeared to be that the exchange was for money. This view has been fostered, unconsciously, perhaps, in the trade journals, where the chief stress is laid on selling ability, the production being apparently created for the salesman, not the salesman for the production.

Money is a measure, the price of the goods exchanged being quoted in terms of money as a convenient method of stating the value in exchange. That the goods are primarily exchanged for money does not alter the fact that in the final analysis the goods are exchanged for other goods. Nations do not trade with each other as nations. Trade is between individuals, and the total of the transactions between the individuals in one country with those of another make up the volume of the trade between the two countries. Usually there will be a balance one way or the other as the shipments vary, and this balance must be settled in money, in normal times gold, that being the accepted medium between nations.

The Trade Triangle

Canada's trade has been chiefly with Great Britain and the United States. We sold more to Great Britain than we bought from her, and bought more from the United States than we sold. Owing to the latter being indebted to Great Britain, we were able to settle our debt to the United States by transferring to her the balance coming to us from Great Britain by selling sterling in New York.

The war has changed all this. On account of the strain of that struggle Great Britain is no longer a creditor of the United States, but a debtor, for the food and munitions supplied to her and the allies for four years, and is unable to settle the enormous balance against her in gold. As a consequence, sterling in New York is at a discount of 30 per cent. She is also unable to settle in gold the balance due Canada. Before the war Canadian securities were sold in Great Britain in large amounts, and the funds obtained thereby also helped to make up the sterling sold by us in New York to offset the balance in favor of the United States against us for goods purchased. The London market is now closed to us and this supply is shut off. We have continued to purchase heavily in the United States, however, and as we are unable to settle, our funds have fallen to a discount of between 8 and 10 per cent., which is the market estimate of the chance of eventual payment.

Premium Must Reduce Imports

This discount increases the price we must pay for every article we buy in the United States, and will in time reduce the volume of trade with that country. This prospect is not pleasing to the business community over there, as it means the disappearance, or at least the reduction, of profitable trade.

A recent cartoon depicted Uncle Sam, with a market basket, crossing a dollar bridge to Canada, and the typical American business man, in a high hat, with an axe, labelled "premium on New York funds," chopping the bridge. It was clever, but hardly fair. The bridge is being damaged, but the destructive force is economic law, not the American business man, who is only acting according to his training, and ours. As a matter of fact, he is genuinely anxious to save it, but, as he has grown accustomed to selling on his own terms, the change in conditions is not yet appreciated. He is a salesman, and his whole trade organization is built up on that hypothesis. He frankly tries to discourage purchases from other countries, by means of a tariff, just as we in Canada do, in order to protect home industries from outside competition.

Economic pressure, such as is now being exerted by adverse exchange rates, works slowly, necessarily, as it means changing the habits of a nation, but it works surely, and steadily, and in the end our most cherished theories go down before it. Just now it looks as if this pressure would force us to buy from Europe, and sell to the east, unless, of course, some arrangement is made with the United States in the way of tariff concessions on both sides, but that is another story.

Borrowing in United States

Investment by Americans in our securities, or direct loans, will help to keep our trade to the old channel for a time, and there are reports, in the American papers, that Canadian business organizations have already been negotiating for advances in that market. If this is done, it will necessitate new arrangements with the Canadian banks, as one of the axioms of our banking system is that a customer shall keep his whole account with one bank. However, it may work out by means of the trade acceptance system, developed by the new Federal Reserve Banks in the United States, and changed conditions, of course, will modify theories.

Trade Without Money

According to the latest press despatches from Europe, arrangements are now being made for the resumption of trade with Russia by barter—the exchange of goods for other goods without the intervention of the modern mechanism of credit. It is interesting to note that the methods proposed are almost identical with those used by the Hudson Bay Co. in their dealings with the Indians in our own northwest. Chen the Indian trapper brought in the result of his winter's work to the Hudson Bay post, the value of the skins was reckoned in counters, or tokens. With these he paid the debt which the company had allowed him to outfit at the beginning of the winter, and the balance he could use in trade at the company's store. The plan was simple and effective, and, unless unforeseen circumstances arise, there is no reason why a similar plan should not work at the present time, in Russia.

The president of the foreign board of the Russian Co-operative Union, Mr. Berkenheim, outlined the plan as follows:—

"It is very simple. We have in Russia great stocks of wheat, cereals, cattle, and flax, which, owing to the complete suppression of exportation during the last few years and the record crop of 1919, are now larger than Russia ever disposed of previous to the war. This is especially true in the interior of Russia, where consumption has also diminished. . . . .

"We require in return farming and agricultural implements, cloth, shoes, locomotives, motors, automobiles, and medical supplies. Ship-tonnage must be furnished by the allies, as Russia's shipping has completely disappeared. We must import first in order to export. Ships may enter Black, Baltic, and White Sea ports loaded with goods needed by Russia, and may return with our exports. . . .

"Imports will come to Russia consigned to us. They will be distributed to our stores throughout the country, and we will purchase grain and cereals from peasants, paying them in rubles at a fixed rate. We will also give them scrip entitling them to purchase from our stores imported goods for the identical amount of rubles we paid them when they were selling their own stock. All dealings must be done through our co-operative societies. . . . ."

The opinion in the United States appears to be that one reason for the attempt to trade in this way, is that if the stores of grain, known to exist in Russia, can be utilized to fill the demand for foodstuffs in western Europe, they will reduce the amount, which would otherwise be required from this continent.

Markets Closed to U.S.

The rate of exchange between the United States and Europe at present, makes any purchase in the former country an appalling price, when translated into local currency abroad, and if a supply of grain can be had in direct exchange for goods, as suggested, this excessive price will be avoided, for a considerable part of their requirements at least.

The effect on the export trade of the United States will depend, of course, on the extent of this barter of goods for grain, between the European allies and Russia. The United States cannot share in it directly, as the commodities which Russia will supply are not wanted in that country. It will also affect Canada, as these commodities, chiefly foodstuffs, are those we ourselves have a surplus of, and for which we depend on Great Britain for our market. It certainly looks as if both the United States and Canada would learn some bitter economic truths in the near future.

AFRICAN BANKING CORPORATION, LTD.

Fifty years of business have been completed by the African Banking Corporation, Ltd., the annual meeting was held on January 15, in London, England, and the report for the year ended September 30, 1919, submitted. This report shows a gross profit of £463,486. Dividends at 9 per cent. required £90,000, £30,000 was added to reserve, £10,000 to premises account, £20,000 to pension fund, and a balance of £37,665 carried forward, compared with £36,013 brought forward from 1918 (included in gross profits).

The balance sheet shows assets totalling £11,731,653, made up as follows: Coin, notes and balances at call or short notice, £3,131,996; government bonds and other securities, £1,048,255; bills of exchange purchased, £2,148,929; bills discounted, loans and advances, £5,105,154; liability of customers for acceptances and endorsements, £102,813; bank premises, £194,503. Deposits and current accounts total £9,491,526. Capital is £1,000,000 and reserve £360,000.

U.S. VIEWS ON BRANCH BANKS

"While in the past attempts to obtain necessary authority to establish branch banks of the type so familiar in Canada have been generally discouraged in the United States, recently there has been evidence on the part of some American bankers to change their opinion in regard to the branch banking system," says A. G. Sclater, manager of the statistical department of the Union Bank of Canada, New York Agency, writing in the February issue of the Union Bank Monthly. Citing steps which have been taken to introduce branch banking in the U.S., and the failure to get Congress to adopt legislation with this aim, Mr. Sclater says: "The average American banker fears that the adoption of a branch banking system similar to Canada's would threaten his own interests. The country banker fears the competition of large city banks and his client the power which parent banks might wield politically.

"Whatever view Canadian bankers may take of the objection to the estblishment of a branch banking system, there can be no question that the opposition rests to a great extent upon tradition. In all stages of the history of the U.S., there has been strong opposition to the passage of legislation permitting branch banks." Following an outline of various movements in this connection, Mr. Sclater tells of the actual attempts of American bankers themselves to forward the branch bank idea.

PERSONAL COVENANT NOT ABOLISHED

Mortgagors in Alberta did not lose the protection of the personal covenant, through recent legislation in that province, according to a statement issued a few days ago by Hon. J. R. Boyle, attorney-general. Mr. Boyle says:—

"No such legislation was ever passed. There is no province, state or country in the world where the personal covenant of the mortgagor to repay the money loaned and secured by mortgage is more binding and valid than in Alberta. The legislature has never interfered so as to release the mortgagor from his personal obligation to pay. In fact, the law in Alberta goes further in securing the mortgagee in this respect than in most places, for our Land Titles Act not only makes the original mortgagor responsible personally for the debt, but if he should sell the mortgaged premises the purchaser, upon registering his transfer, also becomes personally responsible for the repayment of the debt.

"What the legislature did was to settle the court procedure in foreclosure on sale under a mortgage requiring that the mortgagee in case of default on the part of the mortgagor shall enforce his remedies under the mortgage by way of sale of the property, and then if the property does not bring the full amount of the mortgage debt he may issue execution against the mortgagor for the deficiency and have the sheriff distrain and seize any other goods or lands owned by the mortgagor and recover the full amount of the debt.

"The procedure laid down by the legislature is the practice which has always been followed by all the reputable loan companies in recovering under mortgages, and I do not think that many such companies object to the procedure being made uniform and general. The law does not prevent the mortgagee from realizing through the sheriff upon any or all of the assets of the mortgagor not included in the mortgage. He still has that privilege; it merely requires that he shall realize first upon the lands included in the mortgage and then upon the debtor's other assets for any deficiency.

"False statements to the effect that the Alberta legislature had abolished or invalidated the personal covenant in mortgages have been widely circulated not only in Alberta but in eastern Canada and in England, and has done the province considerable harm, and I am surprised to find a number of people in Alberta, who should know better, still circulating the report"

SALES UNDER CANADIAN CREDITS

Five Countries of Europe Have Purchased Around Forty Million of Canadian Goods Under Government Credit

(Special to *The Monetary Times.*)

Ottawa, Feb. 12th, 1920.

A POLICY of extending credits to European nations for the purchase of goods in Canada was approved by Sir Thomas White after the armistice was signed. Such a policy, he claimed, would keep Canadian factories and industries going during the difficult reconstruction period, would open new foreign markets for Canada, and would be a real assistance to our allies at a time when they most needed help.

There are now available the official figures as to the products sold to each of the four countries to which credit was extended, namely, Roumania, Greece, Belgium and France.

Sales to Roumania

The largest sales have been to Roumania, where a credit of $25,000,000 was extended. There has been sold to Roumania goods to the value of $22,019,711, including $1,576,072 shipping charges. These are divided as follows: Manufactured products, $13,637,411; foodstuffs, $3,324,085; raw materials, $3,482,142. Of the manufactured products, the largest part consisted of textiles. There were sold in Roumania no less than $3,183,814 of woollen goods. There has also been sold shirts and overalls to the value of slightly over $1,700,000. Men's suits, placed in Roumania, totalled $1,813,371; socks and stockings, $901,123; hose and sweaters, $698,902.

The Canadian woollen manufacturers were the first Canadian industry after the armistice was signed to make a drive after European trade. An agent was sent to Europe, and the enormous orders placed in Roumania are largely the result of his activities. Outside of textiles, the chief sales in Roumania have been in hardware and farm implements. A big business has been done in binders and binder parts. There was sold in Roumania binders to the value of $636,000. Binder twine also benefited, and goods to the value of $940,996 were sent there from Canada. There was a big sale of axes, saws, picks, etc., totalling some $137,000. Other big sales were: Roofing, $327,000; nails, $353,774; steel rails and accessories, $545,482. The foodstuffs sold to Roumania consisted entirely of wheat, although Roumania is ordinarily a wheat exporting country. The total value of the wheat exported was $3,324,085.

Small Sales to Belgium and France

The Belgian credit was $25,000,000; but of this amount very little has been used. The total sales of manufactured products to Belgium have been $1,457,963. This is divided as follows: Boots and shoes, $385,466; sweaters, $113,086; socks, $213,936; cotton pants, $183,872; steel rails, etc., $561,601. The foodstuffs sold to Beligium totalled $277,671. The largest part of this was for bacon, $185,943; and cheese, $77,620.

Sales to France were entirely for foodstuffs. France has consistently refused to purchase manufactured products in this country. The foodstuff consisted of wheat to the value of $2,333,333, and flour $3,185,714.

Greece Wanted Manufactures

To Greece, there have been sold manufactured products to the value of $8,119,347. Apparently, the larger part of the sales to Greece have consisted of army goods, which were in the hands of the militia department when the war was over. The sales largely consist of such articles as curry combs, revolver holsters, ankle boots, blankets, haversacks, waist belts, packs, water bottles, ammunition pouches, ect. The latter to the value of $200,000 were supplied. The largest sales were for frieze to the value of $2,400,000 and serge, $2,091,870. Sole leather was included in the list to the value of $436,000 and upper leather, $500,000.

Greece also made an arrangement through the Canadian trade mission in London, to take her entire supply of wheat for one year, ending June 30th, 1920, from Canada; but this was not under the credit, as she was paying cash for the same. The total amount would be, roughly, about 300,000 tons, or about 12,000,000 bushels. Of this from one-half to two-thirds has been supplied. There is now some difficulty over the price to be charged for this wheat, the price having been advanced and the Greek government having protested. The matter is now under the consideration of the government.

MONTREAL CITY AND DISTRICT SAVINGS BANK

At the annual meeting of the shareholders of the Montreal City and District Savings Bank, held February 9th, the retiring board of directors was re-elected, while at a meeting of the board following the annual meeting, Hon. Raoul Dandurand was elected president and Richard Bolton vice-president, for the ensuing year.

The annual report presented to shareholders showed net profits in 1919 of $240,590, and the balance brought forward from 1918 account $243,943, making a total of $484,533. From this amount was paid four quarterly dividends to shareholders and $5,100 was contributed to various charitable and philanthropic funds, leaving a balance at credit of profit and loss account to be carried into 1920, of $280,222.

The balance sheet shows some interesting changes. Total assets at the end of 1919 amounted to $45,154,851, as compared with $41,178,120 at the end of 1918, while security holdings have undergone some changes, including a new item in the assets of bonds of school municipalities $497,236. On the liabilities side of the account, there has been a withdrawal of the special deposit without interest, shown last year at $3,484,034, while the amount due the receiver-general is up to $1,354,920, as compared with $520,452 last year.

UNION TRUST COMPANY SHOWS INCREASES

Shareholders of the Union Trust Co. received from the directors, at the hands of President Henry F. Gooderham, a good statement of last year's operations, at the annual meeting held February 12. The capital assets have increased $54,130 during the year, and amount to $1,596,162. The guaranteed investment account totals $5,278,876, having increased $60,855 over the previous year. The largest increase, however, appears in the trusts and agencies account, which has reached the total of $6,718,996, or $615,509 more than at the close of 1918.

Net profits for the year amounted to $113,574, being $2,348 over those shown in 1918. Dividends, taxes, etc., took up $80,971 and the amount in profit and loss account carried forward is now $76,668, having been increased by $32,603.

REGINA BOARD OF TRADE

The following officers were elected at the annual meeting of the Regina Board of Trade on February 6, 1920: Hon. pres., J. A. Allan; pres., Major F. J. James; vice-pres., E. B. Gass; second vice-pres., Robert Martin; sec.-treas., L. T. McDonald; council, D. M. Balfour, F. F. Causey, F. G. England, W. Armour, P. Arnott, F. L. Bastedo, E. B. Smith, J. F. Galloway, A. L. Wheatley, Burford Hooke, F. Turnbull, H. A. Knight, Dr. Low, P. McAra, E. A. McCallum, R. G. McCuish, E. S. Miller, C. M. Moore, Geo. Cushing, J. A. Regan, J. Gilhooly, A. J. Simmonds, J. A. Strathdee, W. G. Styles, W. G. Van Egmond, W. J. Webster, A. E. Whitmore, Thos. Wilkinson, W. S. Yule, Dr. Stapleford.

As a means towards adjusting Canada's adverse trade balance, a resolution was adopted endorsing the action of the Montreal Board of Trade in initiating a movement for closer trade relations between this country and the British West Indies. Efforts to provide a water supply for southern Saskatchewan were also approved.

BRITISH NORTHWESTERN FIRE

The British Northwestern Fire Insurance Co., Winnipeg, will be purchased by the Eagle, Star and British Dominions Insurance Co., if approval is given to an arrangement which has now been completed. J. H. Riddell, manager for Canada of the Eagle, Star and British Dominions, is at present in Winnipeg. It is understood the price will be $75 per $40 share.

The principal officers of the British Northwestern Insurance Co., which was originally incorporated in 1906 as the "Freehold Fire Insurance Co.," are Hon. Edward Brown, president, E. E. Hall, vice-president, and F. K. Foster, managing director. It does business under a Dominion license and has assets of about $375,000.

TRAVELLERS LIFE OF CANADA

The annual report of the Travellers Life of Canada reflects great credit on those in charge of the company's affairs. New policies issued and revived in 1919 aggregated $3,158,566, being an increase of more than one million over the previous year. Though less than 10 years in existence the net premium receipts amount to the respectable total of $274,882, having been increased during 1919 by 34.7 per cent. Mortality during 1919 was only 42.28 per cent. of the expected. Further details of the report will be found elsewhere in this issue.

The directors of the company are: Hon. George P. Graham, J. N. Greenshields, K.C., Hon. Lorne C. Webster, Jas. W. Pyke, Sir William Reid, William Lyall, Hon. N. Curry, Hon. D. O. L'Esperance, J. E. McConnell, Hon. A. K. Maclean, S. W. Jacobs, K.C., M.P., J. Ambrose O'Brien, C. G. Pennock and J. F. Cairns.

The officers are: President, Hon. George P. Graham; vice-presidents, J. N. Greenshields, K.C., Hon. Lorne C. Webster; secretary and actuary, Arthur P. Earle, A.I.A.; auditors, Riddell, Stead, Graham and Hutchison; chief medical adviser, A. E. Garrow, M.D.

BRITISH COLUMBIA BOARDS OF TRADE

The twentieth annual convention of the Associated Boards of Trade of Eastern British Columbia opened in Trail, B.C., on February 3, with Trail, Rossland, Nelson, Revelstoke, Creston, Slocan, Grand Forks and Princeton represented by delegates or resolutions. President Binns, of Trail, appointed a special committee to report upon the official report of the Dominion committee of inquiry into smelting rates.

The Associated Boards went on record against the engineers' incorporation bill, after a discussion in which S. G. Blaylock, general manager of the Consolidated Mining and Smelting Co. of Canada, and J. W. Mulholland, president of the British Columbia Prospectors' Protective Association, led the attack, and S. S. Fowler, a leading member of the Canadian Mining Institute, was almost the sole defender. The ground on which opposition was based was the restriction on foreign capital.

A proposal to affiliate with the Mainland Associated Boards of Trade seemed to have a great weight of opinion against it on the ground that the upper country would be submerged, but the question is still being thrashed out, and a limited affiliation may be adopted.

Resolutions were adopted for the completion of the trans-provincial highway by the southern route, the linking up of the Dominion telephone systems in the interior, an interior ore test plant under the Dominion, approval of daylight saving and the American rule of the road.

Officers for 1920 will be: President, Noble Binns, Trail; vice-president, F. A. Anstey, Revelstoke; secretary, J. R. Hunter, Nelson; commissioner, Fred Starkey, Nelson; advisory board, I. F. Poole, Nelson; Guy Constable, Creston; L. A. Campbell, Rossland, and the president.

MUTUAL LIFE INSURANCE CO.

The oldest life company in America, the Mutual Life Insurance Co., of New York, experienced a great increase in business in 1919. The volume of insurance placed was $354,422,133, as against $208,920,387 in 1918. Its total insurance in force on the last day of the year reached the enormous sum of $2,089,171,357. The Mutual Life does no business in foreign countries, its writings being confined to the United States and Canada. Since the company writes no group insurance, no industrial insurance and no substandard insurance, but confines itself strictly to standard business of the highest class, the great increase in the amount it issued in 1919 was the more remarkable.

The company, as its name implies, is purely mutual, and in 1919 it paid to policyholders in dividends, the sum of $22,407,417. Since the beginning of its business in 1843, these dividends to policyholders have aggregated $313,398,317. Payments for death claims and matured endowments in 1919 were $38,156,350. Death claims included, of course, a large sum which was due to the excessive mortality in the early part of the year caused by the influenza epidemic.

HURON AND ERIE MORTGAGE CORPORATION

A particular feature in the Huron and Erie Mortgage Corporation's 1919 report is the increase in currency or Canadian debentures. This corporation has always been successful in securing funds in this country, but the fact that its Canadian debenture business was raised from $5,215,130 to $6,326,129, an increase of $1,110,999 under conditions which prevailed in the investment market during 1919, will be regarded as remarkable in financial circles. Further, an increase of over $949,000 in savings deposits is worthy of special mention. The reserve fund was strengthened to the extent of $200,000, the paid-up capital and reserve now amounting to $6,000,000. Assets were increased during the year from $18,207,750 to $20,435,520, a gain of $2,227,770, the greatest in the corporation's history.

The Huron and Erie is steadily extending its business. A third London branch was opened to the public in August last. A Toronto branch, under the management of J. M. McWhinney, opened for business in the Canada Trust Building at 14 King Street East, on January 2nd. A new branch is shortly to be established in Chatham, and in Winnipeg, where the two companies have outgrown their present offices. The Huron and Erie will soon share with the Canada Trust Co., the commodious ground floor offices in the Northern Crown Bank Building recently purchased by the Huron and Erie Mortgage Corporation.

The directors for the year are: T. G. Meredith, K.C., president; Hume Cronyn, first vice-president; F. E. Leonard, second vice-president; and Messrs. George T. Brown, F. R. Eccles, M.D., LL.D., Robert Fox, H. E. Gates, A. H. M. Graydon, Philip Pocock.

CANADA LANDED AND NATIONAL

At the annual meeting of the Canada Landed and National Investment Co., held on February 11, it was announced that the dividend would be increased from 9 to 10 per cent., commencing April next. John Hoskin, president, pointed out that reserve now exceeds paid-up capital. He also stated that provision had been made for the appointment of a committee of three directors to annually inspect the securities of the company, other than mortgages. D. E. Thomson, vice-president, said that the demand for mortgage loans in Canada had improved very little.

The paid-up capital of the Canada Landed and National Investment Co., Toronto, is now $1,205,000, not $2,410,000, as stated in our issue of January 30th. The addition of $150,000 to reserve, which has just been made, now makes the reserve total $1,355,000, exceeding paid-up capital by $150,000.

THE CONSUMER AT FAULT

THE Board of Commerce was instituted to protect the consumer against supposed profiteering in the necessities of life. Its investigations have already covered a wide field, and if one conclusion can be reached as a result of the evidence obtained, it is that the blame for the cost of living rests first of all with the consumer. In food, clothing, and other essentials it was shown that the general public demand the highest priced products on the market, in spite of the fact that the real value obtained in these products is proportionally less than in the case of lower priced goods. The manufacturer, wholesale and retailer, if they are to remain in business, must supply what the buyer demands, and each class has shown in turn that the average cost of production and the average profit is not too high, considering present economic conditions.

Governor W. P. G. Harding, of the Federal Reserve Board of the United States, emphasized the necessity for individual economy in a speech in Toronto recently. "We have got to get back to the war time principal of exercising strict economy," he said. "By refusing to pay some of the exorbitant prices that are demanded of us and by self-denial we will show to the slacker that the great community at large wants to get back to a firm basis." In this connection he pointed out that exchange rates, the same as prices, automatically adjust purchasing to producing power. Our imports from the United States greatly exceed our exports to that country, and as a consequence United States money is at a substantial premium in Canada. The obtaining of credits merely aggravates this condition, because not only principal but also the interest on borrowings must ultimately be repaid. Great Britain has recognized this principal by limiting its credits in the United States as far as possible, and allowing the pound to fall until it has reached a discount of about 30 per cent.

Unfortunately the Board of Commerce is making an abortive effort to fix profits and prices in retail trade. Its orders so far have certainly not been drastic, but just to the same degree they are also ineffective. Retailing is distinctly a competitive branch of production; it requires very little training, and is open to anyone with small capital. If temporary circumstances produce high profits then large numbers are immediately attracted into the occupation, and competition restores profits to a normal level. The fixing of a margin of profit may in fact be more injurious than beneficial, for most merchants will regard the fixed margin as a standard rather than a maximum. The same thing is true also in manufactures and wholesaling, provided a combine has not been found to exist.

THE BANKER AND THE MERCHANT

BUSINESS failures in Canada have been remarkably few in number during the past few years. Rising prices and good demand for all classes of goods have made it very difficult to fail. Now that the corner has been turned, purchasers are more cautious, and prices of some commodities have already fallen. This is a time when bank managers should use their influence on the side of caution, and warn merchants against carrying more stock than is absolutely necessary. A restriction in credit has been intimated by several heads of Canadian banks this year. In this way the local manager can help to moderate an epidemic of business failures, which is sure to accompany a drop in prices.

As is pointed out in an article in the February "Teller," issued by the Sterling Bank, failures which are due to bad management are frequently due to other causes. The article says:—

"When asked recently by the National Association of Credit Men what in their opinion was the chief cause of business failures, 10,000 merchants replied almost to a man: 'Failure to keep books.' About the same time, another investigation among 6,000 merchants, taken at random from all parts of the country, showed that only 10 per cent. kept records that told them: What they had in stock; what profit they were making; what their expenditure was for selling, advertising and other items of overhead; what particular part of their business was profitable or unprofitable.

"In the face of such conditions, it is not surprising that approximately 90 per cent. of those who engage in business ultimately fail. And to make the situation still worse this loss falls largely on the smaller merchants—those who have an investment of $5,000 or less, and are least able to recover from business failure.

"Every time a merchant fails the court records show practically the same conditions: That is, the retailer didn't know what he was doing, and furthermore he didn't know how badly he didn't know until the crash came and it all came out in the bankruptcy court. To obtain real business success every merchant must observe certain fundamental laws of business. A recent summary made by Bradstreets showed that a vast number of failures was due largely to a lack of education in the part of the merchants themselves."

MUNICIPAL COMPETITION FOR INDUSTRIES

FEW industries have been arriving in Canada in unprecedented number, during the past year, but this same development has emphasized the folly, from a national point of view, of competition on the part of municipalities for these industries. American concerns looking for sites here have not been slow to take advantage of this tendency, and have systematically canvassed for concessions. In some cases, the concessions granted have been more than the advantages of having the industry. Boards of trade are becoming impressed with the necessity for some uniformity of practice, and the subject has been appropriately discussed at conventions of municipal unions.

Quebec city has discussed this question considerably, and in connection with this discussion a letter from F. Maclure Sclanders was received a few days ago by the Quebec Telegraph. Mr. Sclanders is industrial commissioner for the Border cities, Ontario, which have expanded greatly during the past year. He says:—

"The writer is vehemently opposed to the whole principle of inducements to industries which, in his opinion, is fundamentally wrong. It may be necessary for certain pseudo-industrial centres to grant more or less unintelligently generous inducements with a view to building up their industrial life; but, as a rule, the industry, whose location depends on the attractiveness of the bonuses, exemptions, etc., is not of a very desirable or substantial character. At the same time, during my twelve years' experience of this work, I have more than once been thoroughly astonished at the absolutely unscrupulous way in which very large and very wealthy corporations seeking a new location have played one point against the other for all they were worth. In such cases, the corporations in question knew beforehand the point at which they really wanted to locate; but they approached that point last of all, and used for their own fullest, meanest advantage, all the offers made them by points which they never really had any intention of locating.

"I cannot believe that any responsible, substantial industrial concern will be really influenced in the selection of a location by inducements of merely preliminary character, such as exemption, free taxation, bonus, free sites, etc. In my respectful opinion, the compelling factor must always be the volume of business which can be expeditiously and economically handled from a given point.

"However, there is one way in which industrial centres could be of great assistance in the development of their industrial life: This, by providing an industrial nursery, i.e., a building in which infant industries can be conveniently and cheaply accommodated until they have succeeded sufficiently to go outside and erect premises of their own. The industrial life of every country has invariably been a matter of very small beginnings. We have a power house, or industrial nursery, at Walkerville. It has been full since its erection a good many years ago; and it is truly remarkable the number of concerns now occupying large factories which had their inception in the Walker power building.

"You are probably aware that in western Canada the giving of inducements to industries became such an abuse that in Saskatchewan, for instance, a Provincial Act was passed some years ago, prohibiting the granting of inducements of any kind by any municipality."

HEALTH INSURANCE INVESTIGATIONS

VARIED evidence and some lack of harmony characterized the first two sessions of the British Columbia Commission inquiring into the advisability of state health insurance. E. S. H. Winn, chairman of the commission, is a strong advocate of such a measure, and some witnesses opposing it maintained that they did not get a fair hearing. Labor representatives supported the proposal, and women's representatives urged mothers' pensions. The medical profession, while not taking a stand either way, wants to be consulted if any action is taken, and urged that their fees should not be reduced. The attitude of the fraternal societies was disclosed in a resolution urging that if the scheme is adopted, the medium of administration employed be the approved fraternal societies where such existed. In other places government agents are recommended. If the principle is adopted in any other form the fraternal societies are opposed to it.

Wm. Thompson, president of the Insurance Federation of British Columbia, argued that compulsory health insurance would not improve public health, because it did not get at the root of the evil. Legislation to improve living and working conditions would accomplish in the cheapest and most direct way all that was claimed for health insurance without the enormous cost and enslavement of the people, which must come from such paternalistic measures.

Dr. J. W. McIntosh, M.L.A., representing the United and Public Service Council, which speaks for a membership of 15,000 labor men and veterans, spoke in favor of the whole four proposals at the evening session. Health insurance should be compulsory where the cost is borne by employers and employees in industrial concerns, and voluntary as to individuals, he said. He urged a small start by mere basic insurance, followed later on by cash benefits as the move establishes itself. He favoured free choice of medical attendance, but said eventually he believed the medical service would be salaried from the government. This would not be a suitable basis for a beginning, he contended, however. As a feature of the plan he urged health education through a small paid medical staff, who should also be responsible for signing all certificates. Some doctors might be easy, he thought. If fraternal societies were used for administration purposes the idea of special lodge doctors would have to be abandoned, he claimed. He thought the insurance scheme should utilize the hospitals and laboratories to insure correct diagnosis in every case. He opposed the medical society proposal that the scheme be limited to communicable diseases and occupational diseases. Every disease could be traced to occupational origin by an astute arguer, he contended, and the dividing line was difficult to draw.

SHIPS BUILT FOR BRITAIN

WITH the delivery of the steamships War Vixen and the War Magic at the port of Halifax, N.S., in January, there was completed the Imperial government's shipbuilding program in the Dominion of Canada, under which there were turned out 46 wooden vessels of 142,600 tons deadweight and 42 steel vessels of 206,563 tons deadweight, making a total of 88 vessels and a total of 349,163 tons deadweight. Great secrecy was observed in the filling of these contracts, and this is the first survey of the operations of the Imperial Munitions Board in Canadian shipyards that has been made public.

At the last session of parliament, Hon. C. A. Fournier made a speech on the railway proposals, which was almost *verbatim* translation, into oratorical style, of an article by W. T. Jackman, M.A., in *The Monetary Times* of May 2, 1919. The address was well received, but would have carried still greater weight had the speaker quoted his authority.

Trade with the Orient

With correspondents of the highest standing in China, Japan, India and other countries of the Orient, and branches in all the principal ports on the Pacific coast of North America, namely:

Prince Rupert	Portland, Ore.
Victoria	Seattle
Vancouver	San Francisco

this Bank is excellently equipped to serve the interests of Canada's growing trade with the Orient.

THE CANADIAN BANK OF COMMERCE

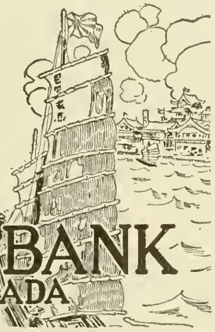
Tokyo

JAPAN'S increasing foreign trade is characteristic of the intelligence and energy of the nation.

Canada's trade with that picturesque country has increased rapidly and continues to expand.

Tokyo, the capital of Japan, home of the Mikado, is in touch with every corner of the Japanese Empire, thus Canadians having trade relations with the Japanese will find the Tokyo branch of the Park-Union Banking Corporation of far-reaching service.



UNION BANK OF CANADA

Park-Union Foreign Banking Corporation jointly owned and controlled by National Park Bank of New York and Union Bank of Canada. 406

Bank of Hamilton

Dividend Notice

NOTICE is hereby given that a Dividend of Three Per Cent. (Twelve per cent. per annum) on the paid up capital of the Bank, for the quarter ending 29th February, has this day been declared, and that the same will be payable at the Bank and its branches on 1st March next, to shareholders of record at close of business February 18th.

By order of the Board,
J. P. BELL,
General Manager.

Hamilton, 26th January, 1920

PERSONAL NOTES

Mr. W. J. Healy, associate editor of the Grain Growers Guide, has been appointed provincial librarian for the province of Manitoba.

Mr. Theo. A. Hunt, K.C., for the past fourteen years city solicitor of Winnipeg, has tendered his resignation to take effect in March. Mr. J. H. Prudhomme, his assistant, will succeed him.

Mr. J. H. Domelle has been appointed an assistant secretary of the Canada Life Assurance Co. This is in addition to the appointment of Mr. G. H. James to a similar position, as mentioned last week.

Mr. A. W. Baldwin of the Guelph Street Railway has tendered his resignation to take effect the last of February. Mr. Baldwin has accepted a position with one of Guelph's manufacturing concerns, and will commence his new duties the beginning of March.

Mr. Thomas H. McAuley, who has been manager of the construction and operation of the Calgary Municipal Railway since 1909, has accepted the position of general manager of the New Brunswick Power Co., St. John, N.B., and will take up his new position on February 15.

Mr. G. Osler, of Toronto, has been appointed to succeed the late Z. A. Lash on the board of the Bell Telephone Co. of Canada, and Mr. Geo. D. Milne, of New York, has been appointed to succeed the late N. C. Kingsbury. Mr. Milne is treasurer of the American Telephone and Telegraph Co.

Major Hume Cronyn, M.P., London, vice-president and general manager of the Huron and Erie Mortgage Corporation and managing director of the Canada Trust Co. was on February 5, elected president of the Mutual Life Assurance Co., to succeed E. P. Clement, K.C., who because of continued ill-health has resigned from that position. Major Cronyn has been a director of the Mutual Life for over twelve years and is well qualified for so important a post. He received his education in Galt, Ont., and at Toronto University from which he graduated with the degree of B.A. Having qualified for law, he received the degree of LL.D. from the latter institution in 1889, in which year he was called to the Bar. For the next eighteen years he practiced law in London, Ontario. In 1907 he gave up his practice to accept the post of general manager of the Huron and Erie Mortgage Corporation. This well known institution increased its assets from $18,207,750 to $20,435,520 during 1919.

Mr. Charles Cambie, London, Eng., manager of the Canadian Bank of Commerce, and Mr. S. H. Logan, supervisor of the foreign department, have left for France, Spain, Portugal, and Italy to look into prospects of development of Canadian trade. Through their London offices all the Canadian banks have been taking much interest in the possibilities of commerce with the continent.

Mr. Thomas Long, who has been president of the London and Canadian Loan and Agency Co., since 1907, announced at the annual meeting on February 11, that, owing to failing health, he would retire from that position. Mr. Casimir S. Gzowski, who had been vice-president, was elected to the presidency, and was in turn succeeded as vice-president by Mr. Charles C. Dalton, vice-president of the Manufacturers' Life Insurance Co., and director of the Bank of Hamilton.

Mr. T. P. Birchall is vice-president of the Chase Tractor Corporation, Limited, a newly organized company which has acquired the rights of the Chase Tractor throughout the world. The company's new plant at Toronto has been in successful operation for several months past and is turning out the first all-Canadian high class motor tractor placed on the market. Mr. Birchall is president of the Canada Industrial Bond Corporation, Limited, Montreal; Loew's Montreal Theatres, Limited; Loew's Ottawa Theatres, Limited; and Loew's Metropolitan (Montreal) Limited. He is also a director of Loew's Theatres, Limited, and the Galt Brass Company, Limited.

Major S. C. Norsworthy, D.S.O., M.C., inspector of the Foreign Department of the Bank of Montreal, has left for Jamaica, where he will be joined by C. H. Hewitt, general manager of the Colonial Bank, to discuss banking requirements to meet Canada's increasing business with the West Indies. Major Norsworthy will visit the principal points in the West Indies before returning to Montreal and the question of increasing the facilities of the Colonial Bank will then probably be considered if it be found that Canada's expanding trade with the West Indies and South America is not amply served through the Colonial Bank's present branch system.

Mr. Charles Stuart Malcolm has been appointed assistant manager for Canada of the Norwich Union Fire Insurance Society. Mr. Malcolm entered the Toronto office on August 17th, 1903, working through various departments, until in July, 1910, he was appointed inspector with another company in the northwest. He filled that position for a short time, when he decided to resign, and was invited to return to the society. Shortly after an opportunity arose to appoint Mr. Malcolm as the society's inspector in the northwest provinces and British Columbia, and he travelled throughout that territory until a branch was opened in Winnipeg on January 1st, 1918, when he was appointed branch manager.

Mr. Evan J. Edwards has been appointed to act in the Senior trade Commissioner post of Canada at Montreal, vice G. T. Milne, O.B.E., who has been appointed commercial secretary to the British Legation in Cuba. Mr. Edwards has had a large and varied business experience in various parts of the British Empire, recently holding the post of manager of sales (home and export) for a large manufacing firm in the United Kingdom. For several weeks he has been busy at the Department of Overseas Trade, making himself conversant with the general conditions in Canada and the methods by which he will apply his past experience to this work. Capt. Edwards is leaving England immediately to take up his duties at Montreal.

THE STERLING BANK

NATIONAL TRUST COMPANY

How funds are to be obtained for the erection of houses, both in the city and in the country, was one of the points discussed by W. E. Rundle, general manager of the National Trust Co., at its annual meeting held in Toronto, on February 4. The National Trust Co. itself, he pointed out, has now $20,000,000 invested in mortgages, representing trust funds principally. As the British market is not now available for borrowing, and as the United States does not purchase very many foreign securities of this kind, it is therefore necessary that a good market be built up in this country.

Another subject discussed by Mr. Rundle was the agitation for the appointment of a public trustee. Experience with such an office in Great Britain had not been entirely satisfactory, he said, and annual deficits had to be met. The trust companies of Canada are already rendering excellent service, and no need for an office of this kind seems apparent.

Mr. Rundle's remarks will be found in some detail elsewhere in this issue. The company's statement for the year, which was highly satisfactory, has already been reviewed in these columns.

CONTINENTAL LIFE INSURANCE CO.

Policies issued and revived to a total of $4,068,930, an increase of $1,122,168 over 1918, indicate the progress made in 1919 by the Continental Life Insurance Co., which held its annual meeting in Toronto on January 28. Insurance in force at the end of the year totalled $15,027,412, a gain of $2,240,628. The annual premiums on the business in force are now $557,210. Total income for the year was $664,769, net premiums income after deducting premiums for reinsurance being $524,481. Payments to policyholders and annuitants, including death claims, matured endowments, dividends on policies, and surrender values, were $249,746. The total death claims notified during the year were $88,470, under 56 policies.

The net reserves held by the company for its policies and annuity contracts now amount to $2,433,373. Assets of the company, including first mortgages on real estate, policy loans, bonds and debentures, and the company's head office building were $2,727,456, at the end of the year.

The board of directors was re-elected.

TORONTO MORTGAGE COMPANY

The Toronto Mortgage Co., in its report for 1919, submitted at the annual meeting held in Toronto on February 11, reports interest on investments and net rental from office premises to a total of $213,568. This is an increase of over $7,000 compared with 1918. There was also a balance of $39,449 brought forward from 1918, and $25,000 "prior provision for losses not now required," making a total of $278,018 at the credit of profit and loss for 1919. Interest on sterling and currency debentures were $75,282 and $12,614 respectively; interest on deposits $3,440; charges on moneys borrowed and lent $5,115; cost of management $21,298; special war taxes $5,643; dividends on capital stock at 8 per cent. $57,964; and bonus on capital stock at 1 per cent. $7,245. The sum of $50,000 was transferred to reserve, and a balance of $39,412 carried forward into 1920.

The balance sheet shows total assets of $3,249,154, compared with $3,171,712 at the end of 1918. The principal changes are a decrease of $67,675 in mortgage loans, an increase of $134,713 in holdings of government and municipal bonds and stocks, and an increase of $34,964 in call loans. Debentures outstanding, both sterling and currency, increased slightly, but deposits decreased. The company's reserve is now $670,000, and the paid-up capital $724,550.

Watt and Watt, stockbrokers, have purchased the Merchant's Hotel on Jordan St., Toronto, and will remodel it for office premises.

DOMINION LIFE ASSURANCE COMPANY

The annual report of the Dominion Life Assurance Co. published elsewhere in this issue reveals the fact that its ratio of actual to expected mortality was only 38 per cent. A saving of 62 per cent. of the mortality provided for in its premiums will mean very large additions to the surplus funds of this company. Another remarkable feature of the report is the great increase in new business, the policies issued and revived exceeding those of the previous year by 87 per cent. The interest rate was again high—7.4 per cent. Expenses were light in view of the large amount of business added. Reserves show an increase from $3,959,391 to $4,497,788. Taken altogether the report gives evidence of 1919 having been one of the best years in the history of the Dominion Life.

TRAVELLERS' INSURANCE AND TRAVELLERS' INDEMNITY

The annual statements of the Travellers' Insurance Co., and of the Travellers' Indemnity Co., both of Hartford, Conn., shown in some detail elsewhere in this issue, both reflect very satisfactory results for 1919. Both these companies do business under Dominion licenses here, the chief agent for Canada being G. T. Foster, of Montreal. The assets of the former company now reach the substantial total of $170,579,918, and the capital and surplus is $15,197,852. The Travellers' Indemnity. which handles the automobile, steamboiler, engine, burglary, plate glass and aircraft lines, has assets totalling $5,881,263 and capital and surplus of $1,425,761.

As the figures given elsewhere in this issue show, business in 1919 increased greatly. The comparison of the growth of the Travellers' Insurance Co. over a fifty year period shows remarkable development, and indicates the high regard with which the company is looked upon. A feature of the Indemnity Company's report is the expenditure of $1.411,044 for the prevention of accidents.

The directors of the Travellers' Insurance Co. recently decided to recommend an increase in the capital stock of $1,500,000, making the total issued $7,500,000. This will come before the shareholders for ratification on February 27.

LONDON LIFE INSURANCE CO.

A gain of $16,577,208 of business in force is registered by the London Life Insurance Co. in its report for the year 1919, submitted at the annual meeting held last Monday. Some comparisons showing the growth of the company over a twenty-year period will be found elsewhere in this issue. Income, assets, surplus and insurance issued also showed substantial gains for the year. Profits on participating policies in the London Life have yielded well over 50 per cent. more than estimated.

John McClary, who has been president for twenty-five years, has retired from that position, but will maintain his connection in the capacity of honorary president. His successor, Dr. A. O. Jeffrey, K.C., has been identified with the London Life almost since its inception, and recently has been vice-president. Two vice-presidents have now been elected, in the persons of W. M. Spencer and John G. Richter, the general manager. All of the directorate reside in London, and this company is one of the financial institutions which have given that city its reputation as an investment centre.

The Home Bank has completed arrangements with an insurance company to write group insurance covering every member of the staff, without cost to the insured. This insurance will be scaled on length of service and will cover every member of the Home Bank staff regardless of whether or not they have every been rejected on account of physical disability.

OBITUARIES

Mr. David Murray, until recently manager of the Royal Bank, Kingston, Ont., died on February 7.

Mr. W. J. McKenna, chief accountant of Montreal customs, died in Montreal on February 10, at the age of 51 years.

Mr. Gordon B. Forsyth, a member of the Montreal stock brokerage firm of H. C. Scott and Co., died on February 6, from pneumonia.

Mr. E. S. Anderson, at one time manager of the Windsor branch of the Dominion Bank, is dead at Lindsay, where he had been stationed since 1915. Mr. Anderson was manager of the St. Thomas branch for a number of years, having succeeded, in that city, Mr. W. K. Pearce, now assistant general manager.

Capt. David Kyle, vice-president of the Algoma Steel Corporation, died at Sault Ste. Marie on February 7 last. Capt. Kyle was a Scotchman by birth and came to Canada about ten years ago to work for the Steel Corporation in an executive capacity. He served overseas with an Imperial regiment, and returned to Sault Ste. Marie in 1916 to take over the general managership of the corporation.

Mr. George Creak, a resident of Montreal, died on February 8 in that city. It was in 1879 that Mr. Creak came from his birthplace, London, England, to Montreal, where he became and continued for a long period secretary- treasurer of the Merchants Cotton Co. In 1895 he engaged in business on his own account as a chartered accountant, establishing the George Creak Audit Co., which later gave place to the present firm of Creak, Cushing and Hodgson. He was a member of the Association of Accountants, Montreal, and a fellow of the Dominion Association of Chartered Accountants.

The annual meeting of the Life Underwriters' Association, of London, Ont., was held recently. M. C. Folmar was elected president.

BANK BRANCH NOTES

Several Banks Plan New Branch Premises—Bank of Montreal to Have New Building in Halifax

ONLY one branch opened was reported this week. This was the Dominion's new branch at Trenton, Ont.

New Buildings Planned

The Royal Bank plans to erect bank at Heroit and St. Cyrille Rd., Drummondville, Que. Announcement has also been made by the Royal Bank of their intention of opening branches at Bradalbane and North Wiltshire, P.E.I., at an early date.

The Imperial Bank has received a permit to build a bank building on the southwest corner of Kingston Rd. and Balsam Ave., Toronto, Ont. Cost, $10,000.

The Bank of Montreal, which already owns the Bank of British North America building on Hollis Street, Halifax, has purchased the corner formerly occupied by W. and C. Silver, as well as the brick building adjoining on George St. The bank's business has outgrown the Duke Street office. It is understood, that the present building will be replaced by a suitable banking office in which the Bank of Montreal will have a permanent Halifax home.

The Imperial Bank of Canada is building a new branch building at Windsor, Ont. It is expected that the building will be ready for occupation by the spring. The Imperial Bank has had a Windsor branch for some years past, but has not occupied its own building. During the past few months the bank has been energetically developing the district, and recently opened new branches at Walkerville and Sandwich. Branches have been in operation for some time at Amherstburg, Essex and Harrow.

The Canadian Bank of Commerce announces the opening of a branch office at 304 Notre Dame Avenue, Winnipeg. It will be in charge of J. McL. McGowan.

The Home Bank's new premises at 72 James St. North, Hamilton, Ont., formerly the Sun Life Building, were opened on February 11th.

Personal Notes

B. Walker is at present acting as manager of the Sterling Bank in Montreal, in place of H. W. Bodman, who has been granted leave of absence on account of sickness.

W. H. Halloran has been appointed manager of the Sterling Bank at Mille Roches, Ont. G. M. Phemister has been made manager of the Sterling's branch at St. Williams, Ont.; A. A. Williamson and R. H. Touchbourne have been made managers of the branches at Kinmount, Ont., and Eden, Ont., respectively.

F. G. Nickerson has been appointed manager of the Home Bank of Canada at Vancouver, B.C., to succeed Mr. J. F. Macdonald. Mr. Nickerson was formerly manager of the Home Bank at Sintaluta, and at Moose Jaw, Sask. He has been branch manager with the Home Bank since 1909.

MONEY MARKETS

Messrs. Glazebrook and Cronyn, exchange and bond brokers, Toronto, report the following exchange rates to *The Monetary Times*:—

	Buyers.	Sellers.	Counter.
N.Y. funds	15 15-32 pm	15 19-32 pm	....

Financial Position of the Railways*

Greater Revenue Required to Meet Costs—Competition Between Two Roads Must be Fair—Outlook for the Year—Roads Must be Well Maintained to Properly Serve Industries of the Dominion

By E. W. BEATTY.

SINCE I had the pleasure of visiting western Canada in May last, a very important change in the transportation situation has taken place through the sudden consummation of a plan for the acquisition of the Grand Trunk and Grand Trunk Pacific Railway companies with a view to their incorporation into the system of the National Railways. In due course, when the legal and other formalities have been fulfilled, this consolidation will take place and the test of the possibility of successful administration of a vast system of railway under the aegis of the government will be made. It is probably the most ambitious and comprehensive task which any government or any people has taken upon themselves, except temporarily and in emergent necessity. It may be a test over a period of years and the results may be expensive, but under honest management with independent and non-political administration, and above all with accurate information supplied to the public as to the result of these operations, the people of this country will be able to determine for themselves whether that system is the best and if not what improvements should be made in it.

I make no comment on the wisdom or otherwise of this further extension of government ownership of railways in Canada. The matter has been settled by the representatives of the people. I am sorry, however, that a little more time and information were not given both to the people themselves and their parliamentary representatives, because I would have been better satisfied that the decision then represented the view and desire of the vast majority of the people of this country, especially of the business communities, who have a particular stake in the railway situation, and a particular knowledge of what constitutes efficient railway service. The decision has been taken, however, and the consolidated system will be administered by a board selected by the government, with experienced railway operators and executives in immediate charge of the property, with parliament, as is inevitable, in full control of the financial support to be given, and the government of the day with full responsibility for the expenditures of the monies voted for such purposes. The results of this means that the railway situation in Canada is now completely changed, and the country must depend for some time at least for additional railway facilities, where needed, upon the National Railways or the Canadian Pacific, because with preponderating mileage under the control of the government, it is not likely that much capital would be attracted to new railway enterprise for the rewards which such investments might bring. Therefore, I think it may be fairly stated that such additional construction as takes place within the next few years will depend upon the willingness of the National Railways and the Canadian Pacific to appreciate these needs and their financial ability to meet them.

Means Keen Competition

This is a situation which is without parallel any place in the world where a government-owned and operated railway and a privately-owned and operated railway not greatly different in the matter of mileage, both with, of course, adequate credit, have in their hands the almost exclusive right to remedy transportation insufficient at most places throughout Canada. It is true, I think, that this will provoke a highly competitive condition. How effective this competition will be will depend upon its honesty and its fairness. If political methods are to be introduced into the competition, and facilities provided in accordance with political expediency, or if political rewards follow the extent of the support or otherwise which is granted by shippers to the National Railways, then I should say the competition would be unfair and of doubtful commercial or national value.

During the course of the year, the railway companies of Canada had to meet a great many problems, due to the emergencies which prevailed, which were unusual and of great importance, and which required new methods to secure their being dealt with competently. For that purpose the Canadian Railway War Board was constituted and through it the efforts of all railways were co-ordinated to meet the extraordinary demands through the movement of war traffic and soldiers. The work was well and efficiently done; was so well done, in fact, that not one hour's demurrage was caused to Atlantic shipping by delays on Canadian railways. I have recently received a letter from Sir Joseph Maclay, Briitsh Minister of Shipping, in which he points to this fact as a conspicuous example of the effective way in which the work of the Canadian railways was performed.

Since the war, there has been constituted the Railway Association of Canada, whose executive comprises the presidents of the principal railways in Canada, and in the organization of which is contained various committees from the operating, financial and traffic officers of the companies, who are constituted to act jointly, when joint action would be in furtherance of the traffic necessities of the people or of the railways. Mr. Hanna and myself sit on the executive committee, and I am very hopeful that with the experience he there gains, he will be confirmed in his original decision to be a railway man and not a politician.

Public is Exacting

The National Railways and ourselves are confronted with conditions of operating which are almost without precedent, and which, with the largest measure of support we can both receive, still render these operations extraordinarily difficult. We both appreciate that the public is a jealous and exacting mistress, but we also know that the public is a generous and persistent friend, once its confidence is secured. We know, too, that no sentiment will control the success of our efforts.

Heretofore in Canada there has been, I think, a prevailing decency in competition, which has been encouraging. I have no reason to expect that that will change, or that the methods and measures taken by the National Railways to further its interests and extend its business will be any less reputable than those taken by the Canadian Pacific or by the Canadian Northern, the Grand Trunk, or any other system, which is now consolidated or to be consolidated into the National Railways, but there is always the danger of political methods being adapted to the business of railroading and political influence being used where business methods fail to accomplish the desired result. I was very glad to read Mr. Hanna's strong plea for independent administration, which means business administration, because I would dislike to see post offices, docks, and public works and institutions of all sorts made dependent upon whether the community desiring them gave support to the National Railways. If that happened we might have to establish libraries, hospitals, theatres and parks in order to meet that new and peculiar political-railway competition.

The foundation of competition should be the same. The legislative control of parliament, the regulatory control of the Dominion Railway Commission should be the same in respect of all railways operating under the federal jurisdiction. This is not the case as yet, the government having reserved by statute special rights to the National Railways

---

not enjoyed by private companies and withheld it in certain particulars from the jurpisdiction of the Board of Railway Commissioners, but I am hopeful that in time this will be remedied. The accounting methods and financial returns of all companies should likewise be absolutely identical. Given these essential premises and the National Railways the independent administration which their officers desire and you will see railways competing in this country under conditions which will stimulate their efforts and redound to the advantage of all those who do business with them. Whether these conditions will prevail, I cannot say, because the almost irresistible inclination of those who supply the money is to demand a voice in its expenditure and in the management of the institutions for the financing of which they are responsible.

More Revenue Needed

I do not pretend to speak for the National Railways, but no doubt, as in the case of the C.P.R., large sums of money are required to complete work that has been heretofore impossible to undertake, and to extend facilities to meet the rapidly increasing needs of the country. Neither of us can stand still; we must progress if we are to receive our fair share of the country's prosperity. In order to do this we must have money, and money can be obtained only in two ways, by stock or bond issues, or by revenue. Operating increases cannot be taken care of by the former. The extraordinary recent costs of maintenance and operation can be met only in one way and that is by increased revenue to the companies, and in this we need the sympathetic support of the people who demand a high standard of railway operation and railway service which can be secured only, in view of the prevailing high prices, by paying a transportation charge at least equal to the increased cost of operating. You are all aware that in 1918 railway wages were increased in Canada by an amount aggregating $77,000,000, an amount greater than the interest on the whole of the war debt of Canada; the rates were at the same time increased and they brought in $43,000,000 additional revenue to the companies; in other words, the increase in rates failed to equal the increase in wages by the enormous sum of $34,000,000.

There can be only one end to that condition, unless the revenues are readjusted to meet these increasing costs. While rates will have to be again increased, they cannot be increased indefinitely and our great struggle from now on will be to reduce costs in order that in time rates themselves may be lowered. There are only two ways of reducing railway rates, and one is by large increase in the volume of traffic and the other is by decreased cost in the carrying of traffic. No ordinary increase in business will be sufficient to take care of the extraordinary increases in the cost of labor and material which the railway companies have experienced in recent years.

I know that you, gentlemen, are very well informed on the subject of railroads. I know that many of you are, or have been, persistent users of the railroads, that you are competent critics, and that you have come in contact with their operations in a more intimate way than most citizens of this country. You will, I think, be the first to appreciate the accuracy of my statement, when I say, that at no time in the history of this country has there been more need for an appreciation of the problems of the railways and more need for support to the railways than now.

Public Opinion Adverse

There is always in the minds of some people a mystery in the existence and operation of any large corporation, whether government owned or privately owned. It is supposed to conceal within the walls of its offices machinery for many things not directly connected with its enterprise. Nothing could be further from the facts. Being public utilities, they are open to more criticism than other institutions. Their affairs are more public, and their officers better and more widely known. They are easier to understand though they are huge in size, and their ramifications are great. Since 1904 the railways of Canada have been required to justify every rate, act and practice which affected the public or the public interest. Can this be said of any other enterprises?

The problem of increased costs practically brings the railway companies in common position with other citizens of Canada. The cure for it is greater production and trade expansion, hard work and thrift. It sometimes seems to me that we lose sight of the very fundamentals on which the prosperity of this country has been heretofore based. The foundation of our economic stability rests upon perseverance, work and the rewards which come from it. We have no more right to expect to receive high wages and high compensation unless we can give an adequate return in service, than we have a right to expect to appropriate and keep what does not belong to us. The necessity is preached from one end of the country to the other, and it cannot be preached too often, because unless it is practiced this country will not enjoy its share of the world's prosperity, and will not be able to meet the very disquieting conditions which have resulted from the economical upheaval of the last five years. Heads of financial interests see it, and advise economy of all kinds. Individuals appreciate it and to some extent are practising it. Governments, federal, provincial and municipal must also see it, and practice it, or else hard times will succeed our present era of prosperity.

Difficulties of the Future

It has always seemed to me that hard times do succeed any era of great spending or extravagance, and it is a serious commentary on the common sense and sanity of people that it is necessary for the realization of these consequences to be obtained by experience instead of by a careful appreciation of the trend of events and by modification and prudence anticipate and prevent the natural consequences of extravagance and imprudence. I am an optimist; I do not see how anyone could be anything else, so far as Canada is concerned, with its natural wealth and the virility of its people, but with great optimism can go equally great discretion, and the fact that a man or a nation, is full of hope and confidence does not mean that he should disregard the warnings of the times, or with his eyes on his own future fail to observe the economical pitfalls immediately in front of them.

In conclusion, I would seriously urge upon you all the paramount necessity of quiet sane consideration of Canada's economic problems as they develop. It is, I think, now conceded that most of the errors made in past years have been due to a too ready acquiescence in ill-considered policies and a serious indifference by the people as a whole to the correctness or otherwise of the conclusions reached. I am, I think, quite within the mark in saying that our principal railway and economic mistakes have been due to the lack of keen appreciation in those whose concurrence permitted the adoption of these policies. There is no time in the history of this country when the views of extremists should prevail as little as now. The difficulties which confront us are not insurmountable if the solution of them are given the moderate and sane consideration which is indispensable to a correct conclusion. Appeals to prejudice and traditional hostility are fruitless of permanent good. Given the proper recognition of the diversity of economic necessities which inevitably exists in a country the size if Canada, and a serious and single desire to meet and dispose of them in the interests of the country as a whole, and I would have every confidence that our errors would be reduced to a minimum and the economic strength of the country increased beyond the possibility of serious setback.

The Kitchener Bank Clearing House Association held its annual meeting on January 22nd, at which the following officers were elected for 1920: President, J. H. Dobbie; vice-president, A. C. Milne; secretary, A. J. Cundick, managers of the Bank of Hamilton, Union Bank and Bank of Nova Scotia, respectively.

IMMIGRATION INTO CANADA LAST YEAR

Americans Predominate, and Bring Wealth and Experience With Them—Large Numbers Rejected and Deported

IMMIGRATION to Canada for the calendar year, 1919, totalled 117,633, an increase of 67,393 over 1918, or 134 per cent. Of the 117,633 new settlers who entered the Dominion last year, 57,251 were from the British Isles and principally soldiers' dependents; 52,064 from the United States, and the balance of 8,318 from other countries. In 1918 the totals were: British Isles, 4,484; United States, 40,194; other countries, 5,592.

Americans Good Class

Immigrants from the United States, the majority of whom were of the farming class, brought with them into this country cash and effects amounting to $18,419,406, compared with $7,351,047 in 1918. Of the Americans who took up residence in Canada last year, Alberta attracted more than any other province. The number who went there was 13,883; Ontario got 12,093; Saskatchewan, 8,672; Quebec, 6,617; Manitoba, 4,465; British Columbia, 3,601; Maritime Provinces, 2,593; and the Yukon Territory, 140.

Ontario was the favorite province for the British settlers last year, receiving a total of 23,914; British Columbia came next with 8,346; then Manitoba with 5,908; Alberta, 5,867; Quebec, 5,513; Saskatchewan, 5,087; Maritime Provinces, 2,609; and Yukon Territory, 7.

Rejections and Deportations

The vigilance of the officials of the Department of Immigration and Colonization is reflected in the figures for rejections and deportations at ocean ports and points along the international boundary. Last year at the latter 20,211 persons were rejected as unable to comply with the Immigration Regulations. The increase in rejections at border points was 132 per cent. over 1918. At ocean ports the rejections last year were 497, compared with only 53 in the previous year. These rejections were made chiefly on the grounds that the prospective immigrants were likely to become a charge on the Canadian public or were either mentally or physically defective, and that they had not the necessary funds on landing that the law demands.

Deportations at points on the boundary, between Canada and the United States, fell off last year, the figures being 288 in 1919 and 371 in 1918. Criminality was the principal ground for these deportations. At ocean ports there were 203 deported in 1919, as against 130 in 1918, an increase of 56 per cent. Criminals, insane and charges on the public made up almost the entire total of 203.

EDMONTON BOARD OF TRADE

At the annual meeting of the Edmonton Board of Trade on January 27th last the following officers were elected: W. J. Thompson, acting president during the last half of 1919, was elected president by acclamation, while G. B. Chadwick assumed the office of first vice-president without opposition. In the ballot taken during the afternoon, Percy W. Abbott and Frank Pike were elected second and third vice-presidents, while the council of seventeen also was elected.

In his annual address Mr. Thompson spoke of the developments during the past year. He dwelt for a considerable length on the subjects of transportation, agriculture and industrial publicity. In speaking of the business conditions during the year he said:—

"Looking back over the year, I can in all sincerity extend congratualtions to the business men of Edmonton on the measure of success which has attended their operations during 1919. Notwithstanding unfavorable climatic conditions, which resulted in total or partial failure of agricultural operations over a considerable portion of the province and in the neighboring states, the territory tributary to Edmonton achieved results which were, on the whole, satisfactory."

MONTREAL BOARD OF TRADE

New officers, the names of which have already been given in these columns, were installed at the annual meeting of the Montreal Board of Trade held on January 27th. John Baillie, the retiring president, reviewed conditions during the year. The annual report also deals with developments during the year, of which the most important was the stand taken in opposition to the purchase of the Grand Trunk Railway. In this the Montreal Board of Trade stood practically alone, most of the other boards of trade throughout Canada having either approved the scheme of nationalizing the Grand Trunk, or expressing no opinion. Another important matter mentioned in the report as having been taken up by the council during the year was the improvement of trade between Canada and the British West Indies. The position taken by the board was strongly in favor of doing everything possible to bring about such improved trade relations. It was stated that the board now has a strong committee working on this question.

Two important resolutions were passed, as follows:—

"That the Montreal Board of Trade, in annual meeting assembled, endorses the action of the council of the board on the 10th of December last, in appointing a special committee with regard to the question of 'Our relations with the British West Indies.'

"That this board is strongly in favor of the establishment of closer trade relations between Canada, the British West Indies and British Guiana, and hereby urges the government of Canada to confer with the governments of the various West Indian colonies with a view to agreeing upon the most desirable and effective manner in which, by mutual co-operation, closer trade relations may be secured between Canada and those colonies.

"That this meeting, being well aware that the desired increase of trade between the West Indian colonies and Canada must largely depend upon the provision of a first-class and regular steamship service between those colonies and Canada, gratefully recognizes the action of the Canadian government in placing some of the vessels of the government merchant marine in the West Indian trade sailing from Montreal during the season of open navigation.

"That this resolution be communicated to the premier, the minister of trade and commerce, the minister of marine and fisheries, the leading Canadian boards of trade, the chambers of commerce in the British West Indies and British Guiana and the associated chambers of commerce in the British West Indies and British Guiana meeting in Barbados on the 24th of February proximo."

The second resolution referred to the Business Profits Tax:—

"That the Montreal Board of Trade in annual meeting assembled, emphatically endorses recent representations of the council of the board stating that in case the government has any idea of renewing the business profits war tax, the council is unanimously opposed to the continuance thereof, for the reason that its purpose has ceased to exist, and that by curtailing the expansion of industrial business enterprises said tax operates inimically to the development of this country.

"That the business profits war tax was at its inception loyally accepted by this board and by the business community generally, and that the only representations made at that time by the council were with regard to minor details, at a confidential interview with the minister of finance, though later on, when war requirements made necessary an increase in the tax, the council informed the government that it was strongly of opinion that the needed extra revenue should not as under the law providing for this taxation be derived from but a small section of the community, but that the taxation should apply to large classes of the population who under that law entirely escape, save in a very indirect manner, contributing towards the extra revenue required.

"That this meeting therefore prays the government to secure any extra revenue required by some more general method of taxation."

Pulp and Paper a Leading Industry

Figures for 1918 Show Capital Investment of $241,344,704, and Annual Pay-Roll of $26,974,226 — Production Valued at $119,000,000 — Quantity of Wood and Fuel Used.

STATISTICS for the year 1918 of 37 pulp mills, 31 paper mills and 26 pulp and paper mills, indicate the extent and importance of this industry in Canada. These figures have just been completed by the Dominion Bureau of Statistics:—

Capital Investment

The total capital invested in the industry was $241,344,704, of which $12,520,765 was invested in paper mills, $71,708,223 in pulp mills and $157,115,716 in pulp and paper mills. Classified by items of capital, land, buildings and fixtures amounted to $118,805,581, machinery and tools to $60,627,266, materials on hand, stocks in process, etc., $39,652,078 and cash, trading and operating accounts and bills receivable to $22,259,779. By provinces, the amount invested was: British Columbia, $42,705,988; Ontario, $88,576,807; Quebec, $101,456,296; New Brunswick, $7,852,225; and Nova Scotia, $753,388.

Employees, Salaries and Wages

The number of persons employed, male and female, by classes of employment and the amounts paid to each were as shown in the following tabular statement:—

	Male.	Female.	
Officers, superintendents and managers	462	2	$ 1,807,469
Clerks, stenographers and other salaried employees	1,164	301	1,888,151
Employees on wages, aver No. . .	23,086	848	23,278,606
Totals	24,712	1,151	$26,974,226

The number of persons employed in paper mills was 1,775 male and 531 females, with payments of $2,050,615; in pulp mills the number was 7,328 males and 105 females, with payment of $7,508,834; and in pulp and paper mills 15,609 males and 515 females, with payment of $17,414,776.

Fuel Consumption

The quantity and value of fuel used in the industry, by classes, are given below:—

	Origin.			
	Canadian.		Foreign.	
Kind.	Quan.	Value.	Quan.	Value.
Bituminous coal, slack	11,388	$ 84,832	212,938	$1,650,682
Bituminous coal, lump	2,972	30,711	255,960	1,880,239
Bituminous coal, run of mine	128,979	1,981,579	399,362	3,523,480
Lignite coal	788	7,410	43	832
Anthracite coal, lump	...	....	162	1,762
Anthracite coal, dust	...	....	12,174	90,090
Coke	...	....	36	676
Gasoline (gals.)	91,451	22,002	......	......
Oil fuel (gals.)	1,820	373	13,947,600	519,390
Wood (cords)	53,296	356,753	......	......
Other fuel (not specified)	....	17,914	......	22,539
Total fuel		$2,501,394		$7,689,690

Miscellaneous Expenses

The total cost of miscellaneous expenses for the year amounted to $13,425,547, and comprised the following principal items:—

Rent of offices, works and machinery	$ 268,224
Rent of power	1,429,873
Insurance (premiums only)	694,510
Taxes (internal revenue, war, etc.)	872,880
Taxes (provincial, municipal, etc.)	700,080
Royalties, use of patents, etc.	12,181
Advertising expenses	60,301
Travelling expenses	362,178
Ordinary expenses to buildings and machinery	3,116,042
All other miscellaneous expenses	5,908,678

Materials Used

The quantity and value of materials used in the manufacture of paper were as follows:—

	Tons.	Value.
Ground wood pulp	679,395	$14,215,895
Sulphite fibre	242,685	13,665,361
Sulphate fibre	35,587	2,260,443
Soda fibre	4,775	397,621
Other chemical fibre	2,419	219,654
Rags	20,138	1,412,367
Old or waste paper	47,350	1,320,338
All other paper stock	8,764	634,149
All other materials	......	3,423,508
Total cost of paper materials ...		$37,549,336

The quantity and value of materials used in the manufacture of wood pulp, by kinds of wood, were:—

	Cords.	Value.
Spruce	1,638,733	$18,887,125
Balsam	447,243	4,604,987
Hemlock	89,007	1,038,867
Poplar	9,885	100,987
Jack Pine	25,851	254,384
All other	25	125
Totals	2,210,744	$24,886,475
Other materials used	......	4,938,667
Total cost of wood pulp materials		$29,825,142

Production

(a) Paper—The production of paper by kinds, quantities and values during the year was:—

	Tons.	Value.
Newsprint	734,783	$46,230,814
Book and writing paper	48,150	10,732,807
Wrapping paper	61,180	7,341,012
Boards	87,749	551,409
Other paper products	35,862	3,267,502
Other miscellaneous products	......	3,577,369
Total		$76,700,913

(b) Pulp—The quantity and value of wood pulp by kinds, manufacture for sale or for export was:—

	Tons.	Value.
Ground wood pulp	273,180	$ 7,133,711
Sulphite fibre	318,882	22,464,063
Sulphate fibre	144,547	11,705,108
Other miscellaneous products	......	1,305,639
Total		$42,608,521

JANUARY BOND SALES

Three Provinces Made Successful Loans Last Month—Total Swelled by Issue of Canadian Railway Notes—Municipal Issues Scarce

CANADIAN bond sales in January, 1920, according to the record of *The Monetary Times*, totalled $20,504,077, as compared with $11,712,555 in December, and $23,960,587 in January a year ago. The following is the summary:—

Provincial	$ 8,950,000
Municipal	3,404,077
Corporation	650,000
Railroad	7,500,000
	$20,504,077

Provincial financing reached a high total last month, British Columbia, Ontario and Saskatchewan all making successful loans. A sale of $2,498,000 of Manitoba bonds was also arranged, but has not been completed because of a legal difficulty.

Only one corporation issue was made during the month and one railroad issue, viz., Drummond Apartment Buildings, $650,000, which was disposed of chiefly in Canada, and Canadian Northern trust certificates, $7,500,000, which was disposed of across the line.

Municipal issues were scarce in January, municipalities deeming it advisable to hold their issues off in view of the low prices received by those which had ventured upon the market, and wait for more settled conditions. The total of municipal bond sales was $3,404,077, the principal issue of the month being the $2,000,000 Toronto harbor bonds. The following is the summary by provinces:—

Ontario	$2,268,002
Quebec	275,000
Manitoba	610,000
Alberta	6,000
British Columbia	225,000
Saskatchewan	20,075
	$3,404,077

While some of the new issues were sold in Canada, the chief attraction has been the repurchase of sterling bonds originally sold in Great Britain. These are for the most part high-grade municipals, and a continual flow of these securities in this direction has depressed the market throughout the month. The exchange situation continues to be the weightiest factor in the market.

BRITISH MANUFACTURERS IN CANADA

At the annual meeting of the Montreal branch of the Canadian Association of British manufacturers, held in January, the following officers were elected: H. W. Weller, president; F. I. Spielman, vice-president. Executive—A. K. Drury, W. T. Evans, F. H. Scott, J. T. Farmer, H. Ritchie, H. W. Smyth, T. Hampton. A secretary will be appointed. The Toronto branch held its meeting on January 28th and elected the following: President, G. A. Marshall; vice-president, J. Harris. Council—A. S. King, C. W. Beal, G. Haywood, R. D. Harling, Harold Wilson and J. Wilson, the retiring president. The secretary is W. Bunney. Subjects of interest to the representatives were discussed at both meetings, and emphasis laid on the importance of the connection with the Federation of British Industries.

Canada Must Look to Herself To Supply Money for Mortgage Loans

Sir Joseph Flavelle, at Annual Meeting of National Trust Company Shareholders, Pays Tribute to the late Mr. Z. A. Lash. Mr. W. E. Rundle, General Manager, Discusses Mortgage Loan Situation and Reviews Report of Royal Commission on Office of English Public Trustee.

Aspects of Company's Business Discussed

Assets Under Administration, Increased by Nearly $9,000,000. Now Stand at More Than $88,900,000

That Canadians must for some time to come look within their own country for the great bulk of the money Canada will require for mortgage loans and to finance building operations, was the view expressed by Mr. W. E. Rundle, Vice-President and General Manager of the National Trust Company, at the annual meeting of the Company's shareholders on February 4th. Mr. Rundle said in part:—

"We now hold almost twenty million dollars of mortgage loans, representing investments mainly of Trust funds. There is a feature of the mortgage loan business which is, I think, of interest just now, not only to our shareholders, but to the public generally. It concerns the problem as to where Canadians in the immediate future are to get money for farm and residential loans. Our cities and towns are now short of houses—a condition apparently world-wide and due to the cessation of building operations during the war. Moreover, an increased demand for money may come through the opening up by Canada of more agricultural lands to supply Europe with the additional foodstuffs she will need from abroad for many years. Unless the funds are forthcoming as required, the development of the country in these directions will be retarded.

"Before the war Canada received from Great Britain and Europe, through the agency of her Loan Companies and her Trust Companies, amounts aggregating several millions annually for investment in mortgage loans, while British Life Insurance Companies also made similar investments in the Dominion. The war completely cut off Britain and Europe as a source of supply. It was hoped that when the war came to an end Europe would resume her export of money to Canada. But the rapid decline of European exchanges has had an opposite effect. Because of the handsome profits induced by the rates of exchange, Canada is now engaged in actually exporting capital to Europe to no small extent. This exported capital is used in buying up investments of Canadian concerns heretofore held in Europe—mainly, of course, in Great Britain. Then again, aside altogether from rates of exchange, Europe will probably need her own capital for some time to come to assist in her reconstruction.

"With Europe closed to us, can we look to the United States? I believe we can, but to a very limited extent. We cannot hope that the United States will send us for mortgage loan purposes anything like the amount Europe was accustomed to do. The people of the United States, with but comparatively few exceptions, are not investors in foreign securities. It will likely take generations to make them such. Before the war, European countries like Britain, France, Belgium and Holland were born and brought up on foreign securities. It was well they were for these very securities enabled the Allies during the war to finance themselves through critical periods.

"It would seem to me that the Canadian people must for some time to come look to themselves to supply the great bulk of the money Canada will require for mortgage loan purposes. This is yet another challenge to Canadians to develop their self-reliance."

Report on British Public Trustee's Office

Speaking of recent agitation in the various provinces for the appointment of a Public Trustee, Mr. Rundle presented some interesting facts about the working of the English Public Trustee's office in England. He said:—

"Those who have favored such an appointment have been insistent in citing the example set by England. Many of us who had kept in close touch with the situation knew, however, that the office of the English Public Trustee was meeting with anything but unanimous approval, to say the least of it, on the part of the British public. Questions had been raised in Parliament regarding the Office and severe criticisms passed upon it. Finally, the Lord Chancellor appointed a Royal Commission to investigate the matter. The Report of the Commission was recently made public and laid before the British Parliament. It reviews the administration of the Office, now twelve years old, and makes certain criticisms and suggestions.

"The chief criticisms which the Commission has to offer are as follows: In the first place they find that the arrears of work in the office of the Public Trustee were very serious. For instance, they were informed that in September, 1918, there were, in addition to other arrears, fifty-seven trusts accepted before the 31st March, 1916, of which no account had been prepared. In the second place they reported numerous complaints of inefficient co-ordination among the different branches into which the Public Trustee's office was divided. The report states that complaints are frequent of contradictory letters being received by a beneficiary from different departments of the office. This was in spite of elaborate attempts at co-ordination of the various departments by forms which one member of the Commission describes as 'appalling to the unofficial mind.' In the third place, notwithstanding that under the Act creating it the office was to charge fees arranged so as to pay expenses, the Commission had to make provision for a deficit, which increased from £3,922 in 1916 and 1917 to £23,328 in 1917 and 1918, and to £52,990 ($257,884.67) in 1919. The Commission has found it necessary to recommend drastic increases in the fees, although they fully recognize that by so doing they run the risk of reducing the new business coming to the Trustee.

"We have always felt that in Canada, where the field is already covered by the private corporate trustee, the only ground for the institution of a Public Trustee would be that he could give more efficient service. The report to which I have just been referring seems to make it, to say the least, very doubtful whether a public office is suited to this particular kind of work. It seems difficult, if not impossible, for public officials to achieve that close personal touch with beneficiaries without which the services of a trustee or executor must be greatly handicapped."

International Aspect of Company's Work

Dealing more specifically with the Company's own affairs, Mr. Rundle pointed out that the assets now under administration by the National Trust Company have increased during the past year by $8,849,581.54 and now stand at $88,941,252.28, and that this increase is made up entirely of new estates and agencies for which the Company has been called upon to act as executor under will, administrator or trustee.

"These large figures," said Mr. Rundle, "evidence in a striking manner the confidence which the public reposes in the Company."

The shareholders had their attention drawn also to the large business of the Company which does not appear in the balance sheet.

"In recent years," Mr. Rundle remarked, "our work has taken on an international aspect due to the expansion of our business as Trustee for bondholders. In addition to acting as Trustee for many Canadian bond issues, we are Trustee for companies doing business in foreign countries, many of whose bondholders reside in Great Britain, France, Belgium, Norway and other European countries. In several cases we have been asked by these European bondholders to intervene on their behalf to protect their investments. This we have been able to do through securing the Court appointment of Receivers who conduct the enterprises concerned and keep in touch with us as representatives of the bondholders. Thus we have been brought into contact with financial centres like London, Paris, Brussels and New York and have established connections which should be of value in securing trusteeships for the Company and in getting money for investment in Canada when times have become normal. For the past three months one of our Trust Officers has been in Europe attending meetings of Bondholders' Committees and of Bondholders themselves."

Canadian Trust Companies' Earnings Relatively Small

The Company's net earnings as shown by its statement lately issued amount to $281,140.18, which is 18.74 per cent. upon the capital or 9.06 per cent. upon the combined capital and reserve. On this point the General Manager remarked:—

"You will have noticed that the net earnings given above in spite of their amount are small in relation to the enormous volume of business handled by the Company. Our net earnings last year in respect of almost Ninety millions of assets amounted to Two hundred and eighty-one thousand dollars.

"This relative smallness of earnings is true of all Canadian Trust Companies, and it seems to me inevitable when the character of a Trust Company's business is considered. A Trust Company is a Trustee, and the duty of a Trustee is to handle other people's affairs so as to secure the largest returns consistent with conservative investments. The returns, of course, belong not to the Trustee but to the beneficiary, the Trustee receiving only its remuneration for services rendered."

Staff Pension System to be Established

Mr. Rundle advised the shareholders also that the Board of Directors has recently appointed a Special Committee from among their number to consult with the General Manager and a Committee of the Staff with a view to considering the establishment of a Staff Pension Fund. Progress has been made in the matter, but it is not sufficiently advanced to enable the Directors to present a final scheme for the ratification of the shareholders. This will come later.

Tribute to the Late Z. A. Lash, K..C

Before proceeding with the business of the meeting Sir Joseph Flavelle referred to the recent death of Mr. Z. A. Lash, K.C., LL.D., and spoke as follows:—

"It is fitting that the first order of business should be in reference to the recent lamented death of one who was very dear to all our hearts, and whose connection with and interest in the affairs of the Company have been of incomparable advantage to its shareholders.

"The late Mr. Z. A. Lash, K.C., LL.D., was identified with the National Trust Company as Director, Vice-President and Counsel from its inception. Throughout the twenty-one years of his association with the Board and staff, his relationship with the administration was of the most intimate character. To the interests of the Company he brought an enthusiastic and whole-hearted devotion which never waned or halted. Connected as he was with so many important enterprises, some of them nation-wide in their scope, and with his extensive professional connection as eminent counsel and legal adviser, he was able to contribute a great amount of most valuable business to the administration of the Company. His share in building up its success has indeed been notable and worthy of our most grateful acknowledgment. As Vice-President and General Counsel, his services have been invaluable. With his extraordinary knowledge of affairs, his intimate acquaintance with business of every class and description, and his unsurpassed capabilities as a lawyer, he occupied a place in our administration which it will indeed be difficult to fill.

"On the personal and human side, he was the most enjoyable of associates and warmest of friends. In the midst of the heaviest duties and responsibilities, he had the heart of a boy at play. His fellow-members of the Board and the Executive and other officers of the Company, will miss and sincerely mourn the man of whom more than of any other it may be said he was their guide, counsellor and friend."

Sir Joseph referred with regret also to the death of the late Mr. J. Harrington Walker, of Walkerville, formerly a Director of the Company, and drew attention to the recent election to the Board of Directors of Sir Thomas White. He announced that the names of Messrs. Miller Lash, Harrington E. Walker and Norman J. Dawes would be submitted to the shareholders for election to the Board. These gentlemen were unanimously elected by the meeting and the members of the present Board were re-elected for the coming year.

MANITOBA PUBLIC UTILITIES COMMISSION

The eighth annual report of the Manitoba Public Utilities Commission for the year ended November 30, 1919, was made public on February 6th. The report embodies the various decisions and orders made affecting public utilities throughout the province, and the measures adopted for their betterment in the public interest.

Under the Sale of Shares Act, 12 general certificates were issued, and three refused. Special certificates to the number of 12 were issued. Several mechanical and engineering propositions from outside the province were not considered. The report announces that the commission has approved of the shares and stocks listed on the Montreal, Toronto and Winnipeg stock exchanges. Every possible vigilance is being exercised by the commission, the report declares, to prevent undue or misleading statements being published regarding mines. Many mining companies have been incorporated, the report adds. Numerous foreign companies have been prevented from getting schemes before the public which the commission found as undesirable.

The report congratulates residents of the Greater Winnipeg Water district on the completion of the system. The various water district questions which came up during the year are alluded to in the report. Reference is made to the Winnipeg Electric Railway valuation and the expert investigation of its financial position in connection with the temporary permission to increase fares. Optimistic reference is made to the progress on the briquetting plant near Bienfait. That it will point the way to private enterprise is the hope expressed in the report.

NORTHWESTERN LIFE PREMISES

The Northwestern Life of Winnipeg announces that a block of property has been purchased at 166 Donald Street, measuring 50 ft. frontage by 120 ft. deep, as a site for their home office building. The company has not announced the price paid for this property, but as frontage in this locality has changed hands and is listed at from $500 to $700 per foot, it is presumed that the price paid was around $30,000 to $35,000. Plans for the building are being prepared and the intention is to commence building operations at once.

National Trust Company, Limited

TORONTO MONTREAL WINNIPEG SASKATOON EDMONTON REGINA LONDON, ENG.

MUTUAL LIFE OF CANADA

The closing year of a half century of business, was an unusually good one for the Mutual Life of Canada, which held its annual meeting in Waterloo, Ont., on February 5. Over $40,000,000 of new business was written, bringing the total business in force up to more than $170,000,000. A new president was elected in the person of Major Hume Cronyn, M.P., of London, Ont. For some months the president, E. P. Clement, K.C., had been ill, and recently felt impelled to tender his resignation. A second important appointment was made at the same time, when C. M. Bowman, ex M.P.P., was made chairman of the executive committee. In his inaugural address Major Cronyn thanked his fellow-members for the honor done him.

Mr. Chas. Ruby, the general manager of the company, reviewed the financial situation and was followed by C. M. Bowman, who gave a clear and interesting analysis of the investments of the Mutual Life of Canada. W. G. Watson, of Toronto, one of the more recently appointed directors of the company, gave a congratulatory address in which he honored the high ideals of the company, maintained without relaxation for 50 years. Four of the retiring directors were re-elected—namely, E. P. Clement, K.C., Hume Cronyn, M.P., W. G. Watson and Sir Lomer Gouin. An interesting incident in connection with the day's proceedings was the unveiling of the portrait of the late C. M. Taylor, of Waterloo, the organizer of the company and familiarly known as the "father of the Mutual."

SOVEREIGN LIFE ASSURANCE CO.

The report of the Sovereign Life Assurance Co. for 1919, shows that the general expansion of life insurance in 1919 has been shared by it. Policies issued and revived totalled $4,357,401, an increase of $1,230,663, and policies in force increased by 30 per cent. to $12,305,211. Payments to policyholders were slightly over $200,000, a decrease compared with 1918. The surplus at the end of the year was $106,491, compared with $104,015 at the end of 1918; this surplus is in addition to special reserve funds amounting to $70,000.

The report of the actuary, M. D. Grant, stated that the cost of doing business, according to one commonly used test, decreased by about 13 per cent. The gross rate of interest earned on invested funds was 6.22 per cent., compared with 6.34 per cent. in 1918. The reserve, he points out, is largely in excess of that required by the Dominion Insurance Act.

REGINA TRADING COMPANY'S BONDS

The Regina Trading Co. is offering $160,000 7 per cent. debentures. The money is being raised for the purpose of erecting a store building on Scarth Street and Twelfth Ave., Regina, Sask., four stories in height, of steel or reinforced construction, estimated to cost about $150,000. Messrs. Bell and Mitchell, Regina, brokers, are handling the issue.

H. L. DOBLE, Director.

Packing

THE packing industry has always held and deserved the highest rank among industries for financial stability and for the safe and profitable investment of money.

¶ Opportunities for investment in this industry are rare.

¶ We are about to offer the 7% cumulation participating preferred stock of one of Canada's largest packing concerns at an attractive price. There are no bonds ahead of this issue; net assets are in the proportion of 3 to 1, and net quick assets alone amount to $157 per preferred share.

¶ A remarkable investment opportunity for those who need over 7% income and who can judge real security.

¶ As this, like all of the preferred stock issues in which we have recently been associated, will probably be oversubscribed, we would ask those interested to write for particulars at once.

ECONOMICAL MUTUAL FIRE INSURANCE

The annual meeting of the Economical Mutual Fire Insurance Co was held in Kitchener, Ont., on February 6th. The report for 1919 shows a balance of $679,353 brought forward from 1918; premiums on cash system, $131,976; premiums on mutual system, $68,591; interest and rent $32,194; total receipts, $949,508. Losses were $70,117, commissions $32,006, reinsurance premiums $25,157, salaries, directors' and auditors' fees $24,743. These and other expenses totalled $187,081, leaving a balance of $762,426. The balance sheet shows a surplus over all liabilities of $887,649.

MONTREAL FIRE INSURANCE ASSOCIATION

A comprehensive program for the present year is being carried out by the Fire Insurance Association of Montreal. In addition to educational work, a series of weekly addresses are being given on subjects of interest to fire and casualty underwriters. The program is as follows: January 7, F. J. Laverty, K.C., "Law of Fire Insurance"; 14th, Geo. H. Greenfield, "Fire Prevention"; 21st, J. D. Simpson, "Wordings and Warranties"; 28th, J. A. Ewing, K.C., "Legal Aspects of Fire Losses"; February 4th, C. L. Scofield, "Automatic Sprinklers"; 11th, John Jenkins, "Automobile Insurance"; 18th, J. B. Laidlaw; 25th, Dr. J. E. Gendreau, Ph., D.L.Sc., "Electricity and Lightning"; March 3rd, Lewis Laing; 10th, Geo. C. Morris, "Loss Adjusting and Adjustments"; 17th, Peter Bercovitch, K.C., M.L.A., "Fire Conditions."

In his address on January 14th, G. H. Greenfield, who is fire prevention and safety engineer for the Canadian Car and Foundry Co., Montreal, dealt especially with cleanliness, and the use of first-aid appliances, as methods of preventing fires. Cleanliness, he pointed out, is not easily achieved, and many factory superintendents regard their premises as free from dangerous rubbish, when in reality the danger is very great. With reference to fire fighting apparatus, Mr. Greenfield urged that it be kept in good working order.

MANUFACTURERS' LIFE REPORTS GAINS

The thirty-third annual report of the Manufacturers' Life Insurance Co., presented at the annual meeting, held on February 5th, shows that the year 1919 was the best in the company's history. New insurances, issued and revived, amounted to $40,171,220, an increase of $21,035,470 over 1918, which in itself was a banner year. The gain in insurance in force was $30,814,028. The business in force on December 31st, 1919, was $139,386,731, while the January business was again the largest on record.

The income has now passed the seven million dollar mark. The new premium income was $5,477,556, while the income from interest and dividends was $1,578,580. The assets of the company amount to $29,355,629, being an increase over 1918 of $2,607,237. During the year the company followed its usual practice of investing its funds in government and municipal bonds and first mortgages. Its subscription to the Victory loan of $6,000,000 was the fourth largest. Notwithstanding large purchases of government bonds, the average rate of interest earned was slightly over 6½ per cent.

The reserves for the protection of policyholders now amount to $24,670,825. The net surplus earned amounted to $774,471, as compared with $599,349 in 1918.. The payments to policyholders aggregated $2,843,086, of which $1,281,688 was paid for maturities, annuities, etc., $1,124,094 for death claims, and $437,303, dividends to policyholders. The mortality experienced was 41 per cent. less than provided for. After setting aside a special contingency reserve of $300,000, together with $75,000 for unreported claims and $379,571 for dividends payable to policyholders in 1920, the surplus, according to the company's standard, is $2,517,316. The company's standard is considerably in excess of the requirements of the Insurance Act.

LIFE UNDERWRITERS' MEMBERSHIP CAMPAIGN

As previously mentioned in these columns, a national membership campaign is being undertaken by the Life Underwriters' Association of Canada. This campaign commenced February 1st, and will last until February 14th. In a circular which has just been issued, the objects of the association are described and the benefits to be derived from membership in it are pointed out.

The organization in charge of the campaign is as follows: E. S. Miller, president; Geo. L. Goodrow, honorary secretary; and J. B. Hall, chairman executive committee of the Life Underwriters' Association. Campaign committee, Wm. May, Jr., chairman, J. B. Hall, H. W. Manning, E. S. Miller, O. B. Shortly, F. T. Stanford, John A. Tory. Divisional captains, J. T. Fahay, British Columbia; C. P. McQueen, Alberta; S. J. Adler, Saskatchewan; W. T. Hart, Manitoba; T. J. Patton, Central Ontario; T. B. Parkinson, Western Ontario; W. Lyle Reid, Eastern Ontario; C. C. Gauvin, Quebec; R. C. Cruikshank, New Brunswick; G. E. Archibald, Nova Scotia; E. R. Brow, Prince Edward Island; J. A. Mackenzie, Newfoundland; J. H. Castle Graham, general secretary-treasurer, L.U.A.C.

BRITISH COLUMBIA PERMANENT LOAN

The report of the British Columbia Permanent Loan Co. for the year 1919, shows total earnings of $224,729, an increase of $16,160. Interest on mortgages amounted to $171,178, the balance coming from other investments, rents, property sales, bond sales, etc. Expenses totalled $65,454, and interest charges $67,485, leaving a net profit of $91,789 to be added to the balance of $102,902 brought forward from 1918. The sum of $28,156 was transferred to reserve fund, $5,000 to contingency fund, $1,429 set aside for interest on terminating stocks and the balance of $160,106 carried forward as unappropriated profits.

The balance sheet now shows assets totalling $2,908,445. First mortgage loans outstanding total $1,439,564, property acquired under foreclosure and sold under agreement, $322,800, and the Vancouver and Victoria premises are valued at $500,000. Holdings of war bonds amount to $354,760. The company's paid-up capital stock is now $923,290, and reserve fund, contingent fund, unappropriated profits and accrued interest receivable total $831,141.

CROWN LIFE INSURANCE CO.

New policies issued by the Crown Life Insurance Co. during 1919 totalled $6,226,761, having increased by over 70 per cent., compared with 1918. The total insurance in force increased by over 22 per cent., and now stands at $21,338,339. At the annual meeting held in Toronto on February 2nd, the directorate was re-elected, and the same officers appointed for 1920. H. R. Stephenson, formerly assistant manager and actuary, was made general manager last year.

During 1919 the premium income increased in even greater proportion than the volume of insurance. First-year premiums paid in cash totalled $199,379, being an increase of over 82 per cent., compared with 1918. The total amount of premiums paid in cash increased by over 28 per cent. and totalled $774,638. Interest, rents and profit on sale of securities amounted to $141,959, making the gross cash income $916,598. Cash payments to policyholders and beneficiaries in 1919 were $228,224. In addition the sum of $394,199 was transferred to policyholders' reserve and $3,366 to policyholders' surplus, making a total of $625,790 paid or credited to policyholders. The policyholders' reserve fund now stands at $2,650,323.

Death claims for the year were $138,850, which was considerably lower than in 1918, and the expense ratio was 10.9 per cent., compared with 12.7 per cent. in 1918.

The Toronto Mortgage Company

The Annual General Meeting of the Shareholders of the Toronto Mortgage Company was held at its offices, 13 Toronto Street, at 12 o'clock noon, Wednesday, February 11th. On the motion of Hon. Mr. Henry, seconded by Mr. T. H. Wood, the President, Mr. Francis, took the chair, and the Manager acted as Secretary. The Secretary read the notice calling the meeting, after which he read the minutes of the last Annual Meeting, which were confirmed. The Secretary then read the Financial Statement, the Profit and Loss Account for 1919, and the Annual Report. The Financial Statement and the Profit and Loss Account follow:—

W. GILLESPIE, *Manager.*

W. FRANCIS, *President.*

We have audited the Books and Accounts of the Toronto Mortgage Company for the year ending 31st December, 1919, and have verified the cash, bank balances and Securities of the Company. After due consideration we have formed an independent opinion as to the position of the Company. In our opinion, so formed, and according to the best of our information and the explanations given to us, we certify that, with the reservations provided, the above statements set forth fairly and truly the state of the affairs of the Company and are in accordance with its books. All transactions of the Company that have come within our notice have been within the powers of the Company.

TORONTO, 12th January, 1920.

E. R. C. CLARKSON, F.C.A., } *Auditors.*
J. HARDY, F.C.A.,

REPORT OF SCRUTINEERS.

TORONTO, 11th January, 1920.

We hereby certify that the following gentlemen have been unanimously elected Directors of the Toronto Mortgage Company at the Twenty-first Annual Meeting, held at the offices of the said Company this day, at 12 o'clock noon:—

Wellington Francis, K.C., Thos. Gilmour, C. S. Gzowski, Hon. Geo. S. Henry, Herbert Langlois, Thos. H. Wood, Walter Gillespie.

(Signed) EDWARD R. GREIG, } *Scrutineers.*
(Signed) WALTER B. COWAN,

At a subsequent meeting held by the Board, Mr. Wellington Francis, K.C., was re-elected President, and Mr. Herbert Langlois, Vice-President.

THE
"Old Huron & Erie Mortgage Corporation"

Increased its assets by $2,227,770

Canadian Debentures, which at the close of 1918 amounted to $5,215,130 advanced to $6,326,129. This gain in the Debenture Department of $1,110,999 is the greatest in the Corporation's history.

$200,000 was added to Reserve Fund, thereby increasing the Paid-up Capital and Reserve to $6,000,000.

DIRECTORS' REPORT

The Directors of **The Haron and Erie Mortgage Corporation** have pleasure in submitting herewith their Fifty-Sixth Annual Report, showing the result of the Corporation's operations for the past year, accompanied by the balance sheet to December 31st, 1919, duly audited.

After defraying the expenses of management and all other charges, and making allowance for actual and possible losses, the balance available for distribution is $558,948.17, as follows:—

Brought forward from the previous year's account	$ 23,337.54	
Net profits upon the past year's business	535,610.63	
		$558,948.17

of which the following disposition has been made:—

Four quarterly dividends of 1½ per cent. each	$300,000.00	
Dominion Taxes	27,288.74	
Provincial Taxes	11,585.39	
Set aside for Transfer to Canadian Red Cross Fund, etc.	3,700.00	
Transferred to Reserve Fund	200,000.00	
Balance carried forward	16,374.04	
		$558,948.17

The sum of $3,700.00 has been set aside for Patriotic purposes as above noted. The Shareholders will be asked to approve this transfer.

The Corporation has no real estate on hand other than office premises, all properties which have come into the possession of the Corporation by foreclosure, failure to obtain purchasers under power of sale, or otherwise, having been sold.

The Directors desire to bear testimony to the very efficient manner in which the Officers of the Corporation have discharged their respective duties.

All of which is respectfully submitted.

T. G. MEREDITH, President.

London, Ontario, January 27th, 1920.

Statement for Year Ending December 31st, 1919

HUME CRONYN, General Manager.

AUDITORS' REPORT

We hereby certify that for the year ending December 31st, 1919, we have audited the Books and Accounts and have verified the Cash, Bank Balances and Securities of The Huron and Erie Mortgage Corporation, except those of its branches at Regina, Winnipeg and Edmonton.

All our requirements as Auditors have been complied with, and in our opinion the above statements are properly drawn up so as to exhibit a true and correct view of the state of the Corporation's affairs as shown by its books. All transactions that have come within our notice have, we believe, been within the powers of the Corporation.

The Books and Accounts of the Branches at Regina, Winnipeg and Edmonton have been audited and the Securities there have been examined by Mr. J. C. Pope, C.A., and by Messrs. F. C. S. Turner & Co., C.A., and by Messrs. Baldwin, Dow & Bowman, C.A., respectively, and the results as certified to by them are incorporated in the above statements.

M. H. ROWLAND,
F. G. JEWELL, F.C.A., Auditors.

London, January 27th, 1920.

The following Directors were re-elected for the ensuing year:—

T. G. MEREDITH, K.C., President.

HUME CRONYN, First Vice-President. F. E. LEONARD, Second Vice-President.

GEORGE T. BROWN F. R. ECCLES, M.D., LL.D. ROBERT FOX H. E. GATES A. H. M. GRAYDON PHILIP POCOCK

Head Offices - London, Canada

Branch Offices—London (three), Toronto, St. Thomas, Chatham, Windsor, Winnipeg, Regina, Edmonton

The Canada Trust Company

Increased its Assets by over $870,000

The Reserve Fund, which is now $625,000, is equal to 62½% of the Paid-Up Capital of $1,000,000

DIRECTORS' REPORT

The Directors of The Canada Trust Company have pleasure in submitting their Eighteenth Annual Report, together with the Financial Statement for the year ending December 31st, 1919.

After defraying the expenses of management and other charges, and making allowance for actual and possible losses, the balance available for distribution is $145,953.50, as follows:—

Brought forward from the previous year's account	$ 5,601.36	
Net profits upon the past year's business	140,352.14	
		$145,953.50

of which the following disposition has been made:—

Two half-yearly dividends at 8 per cent. per annum	$ 79,992.00	
Dominion Taxes	14,219.34	
Provincial and Municipal Taxes	5,235.97	
Set aside for Transfer to Patriotic and Red Cross Fund	750.00	
Transferred to Reserve Fund	25,000.00	
Balance carried forward	20,756.19	
		$145,953.50

The Reserve Fund now amounts to $625,000.00 or 62½ per cent. of the Company's Paid-up Capital.

The sum of $750.00 has been set aside for Patriotic purposes as above noted. The Shareholders will be asked to approve this transfer.

The accounts, vouchers and securities have been duly examined by the Auditors whose report is appended.

The Directors desire to bear testimony to the very efficient manner in which the Officers of the Company have discharged their respective duties.

All of which is respectfully submitted.

T. G. MEREDITH, President.

London, Ontario, January 31st, 1920.

LONDON BANK STOCK ISSUE

An agreement for a fusion of interests between the London Joint City and Midland Bank and the Clydesdale Bank, both of London, England, has been reached. The shares of the latter are to be acquired by the former, and in addition, a new issue of shares in the Midland Bank will be made.

GRAND TRUNK SHAREHOLDERS TO MEET

Shareholders of the Grand Trunk have been summoned to meet in London, on February 19, to ratify the agreement between the government and the company for the acquisition of the system. From information received by the government it is believed that the agreement will be sanctioned.

WESTERN ONTARIO UNITED BOARDS OF TRADE

Taxation, forms of civic government, methods of securing new industries, and other subjects of common interest were discussed at the second annual convention of the Western Ontario United Boards of Trade, held in London, Ont., February 5 and 6. Special features were addresses by Dr. L. D. Upson, of Detroit, on "Commission-Manager Form of City Government," and by Hon. F. C. Biggs, minister of public works for Ontario.

A resolution was passed to the effect that the Dominion government should relax the business profits tax. The claim was made that under the law as it has heretofore been enforced business initiative has been impeded and courageous development of industry penalized. The clause especially objected to is that under which the government has seized the profits secured through the use of credit.

Another proposal to levy a prohibitive tax on the importation of American magazines, was rejected. The claim of the Brantford Board of Trade was that American advertisers in such publications are given opportunity to place their wares before the Canadian market, while Canadian manufacturers are unable to stand the expense of the use of such mediums, because they are primarily intended for American reading. The suggestion of the Brantford proposers of the tax was to allow the importation without restrictions of magazines which would insert a supplementary section in which Canadians could secure space at nominal cost. Major J. K. Jordan, of Brantford, placed the scheme before the convention. He was opposed by Arthur Dunn, of Chatham, who argued that American advertisers develop a market through the use of such publicity and then established in Canada the branch factories for which the Associated Boards of Trade are striving. This view prevailed.

The convention also defeated a scheme offered by Goderich Board of Trade. The proposal was to have the provincial government appoint a Commission to interview firms in the United States and to compile a list of those considering opening branches in Canada. This list, it was suggested, could be made available to all Ontario municipalities. The opposition carried the point that the majority of such companies prefer to have their negotiations carried on in secret. Others contended also that the boards of trade do not desire to lean on the government.

The proposal to establish a uniform rate for Hydro in all parts of each Hydro zone was filed without discussion. It was sent from the last convention to a committee, but it has not since been passed.

The Royal Financial Corporation, Ltd., of Vancouver, B.C., has opened a branch office in Toronto, at Room 631, Bank of Hamilton Building. F. C. Gowan, who is in charge of this office, says the corporation is in the market to purchase British Columbia municipal bonds.

BRITISH COLUMBIA MINERAL OUTPUT IN 1919

A decrease in value of the mineral output of British Columbia last year of $8,361,141, or 20 per cent. under that of 1918, is shown in the preliminary report of the Department of Mines just issued. The following is the statement:—

	Quantity.	Value.	Inc. or dec. compared with 1918.
Gold, placer, oz.	14,325	$ 286,500	— $ 33,500
Gold, lode, oz.	141,769	2,930,365	— 473,447
Total gold	....	$ 3,216,865	— $ 506,947
Silver, oz.	3,667,516	3,871,063	+ 655,193

Total production	....	$33,421,333	— $8,361,141

In his report covering the conditions existent in the mining industry in the province last year, W. Fleet Robertson, provincial mineralogist, sets forth the reasons for the decrease in output, chiefly in copper. He says: "This decrease in production, as compared with the preceding year, loses its adverse significance when it is considered that the 1919 production is still materially greater than that of any year prior to 1916, and that the larger production of the years 1916-17-18 were due to the stimulus of war and the inflated metal prices attendant thereon. So that any feeling of regret at this year's output being less than that of the previous three years is completely obliterated by the consideration of the removal of the cause of the abnormal outputs of those three years—the war—and it becomes a matter of congratulation that, with the return of something approaching normal conditions, we should still find this year's mineral output showing a very material increase over those of former normal years."

INDUSTRIAL DEVELOPMENT OF PETERBOROUGH

At a recent meeting of the Peterborough Board of Trade, the subject of discussion was the industrial development of the city. Mr. George A. Gillespie made the first address on "Industry in Peterborough," speaking from the business man's point of view and basing his remarks upon the theory that to be successful, industry, business and labor must be developed as factors in city growth by "clear thinking proper planning, honorable purpose and the will to do." Mr. Gillespie said that during the past one hundred years there has been established in Peterborough, in the neighborhood of 80 manufacturing plants. The majority of them are still doing business, under their original names, or having become amalgamated with other companies, have become greater industries.

Mr. W. H. Pretty, the second speaker, in his address, began by alluding to the great need for husbanding our natural resources in view of the pressing need for reconstruction, and said that to-night he would only deal with one of our great natural resources, "power." He spoke on the need for the proper harnessing of this power for the service and convenience of the human race. He said that each community must solve its problems in accordance with local conditions for present and future economic requirements, and decide the relative importance of each of the items, light, heat, power and rule themselves accordingly.

COBALT ORE SHIPMENTS

The following were the shipments of ore, in pounds, from Cobalt Station, for the week ended February 7th:—

La Rose, 63,200; McKinley-Darragh, 170,412; total, 233,612. The total since January 1st is 1,940,580 pounds, or 970.29 tons.

SERVICE IN BANKING

"Service in Banking," is the title of a little book just issued by the Home Bank for distribution among its staff. "This booklet," says J. Cooper Mason, the general manager, in a foreword, "is a collaboration of the remarks and suggestions on service that have emanated from the head office of the Home Bank during the past several years. The material is now presented in a new form to attest the continued interest of the management in the subject, and to place in the hands of every member of the staff a memorandum that may contribute to enliven their resolve to maintain during nineteen-twenty an appreciable measure of service in the various departments of banking."

BANK BRANCHES IN DECEMBER

During December, 1919, there were forty-five branches of Canadian banks opened, of which sixteen were sub-branches. The number is distributed as follows: Royal, 6; Merchants, 6; Standard, 6; Hochelaga, 6; Commerce, 4; Imperial, 3; Nova Scotia, 2; Montreal, 2; Hamilton, 2; Sterling, 2; Nationale, 2; Dominion, 1; Union, 1; Molsons, 1; Home, 1.

Six branches were closed, of which three were sub-branches, and they are as follows: *Artland, Sask., Merchants Bank of Canada; *Bremmer, Sask., Merchants Bank of Canada; Kedgewick, N.B., Provinciale Banque; *Lemsford, Sask., Royal Bank of Canada; Scott, Sask., Union Bank of Canada; Whitecourt, Alta., Imperial Bank of Canada.

---

*Sub-branches.

CANADA CEMENT COMPANY'S REPORT

The annual report of the Canada Cement Co. for the year ended December 31, 1919, shows net earnings of $766,176. For the payment of the 6 per cent. dividend, the company drew on the surplus account to the extent of $43,824. In his address to shareholders, President Wm. C. Edwards said:—

"The demand for cement during the past year was better than in 1918, but was far below normal, and the results of the year's business are not gratifying. Referring to the financial position of the company, after providing for interest on bonds, dividends on preferred and common stock and ordinary reserves, the surplus account has been reduced by $1,252,786. This is accounted for by the transferring of $1,011,119 to reserve for fire insurance, and by drawing on the surplus to the extent of $241,666 for depreciation. We are pleased, however, that the company's financial position is strong, current assets, including investments and call loans amounting to 7.74 times the current liabilities." The

loans amounting to 7.74 times the current liabilities."

The principal items of the balance sheet compare as follows:—

	1919.	1918.
Property account	$28,172,180	$29,807,889
Investments	3,602,611	1,648,836
Current assets	2,655,211	4,646,435
Current liabilities	839,920	1,287,358
Reserves	2,215,319	1,325,000
Surplus	1,424,857	2,677,643

CANADIAN MORTGAGE ASSOCIATION

The shareholders of the Canadian Mortgage Association are summoned to an extraordinary general meeting to take place on March 15, 1920, in Paris, France, to the effect of deliberating on the following matters:—

(1) Ratification of the agreements relating to the cession of company's assets in Canada to the Credit Foncier F.C.; (2) eventual liquidation of company; (3) resolution to be taken according to dispositions provided by article 51 of the company's by-laws.

MONTREAL FINANCIAL FIRM RECEIVES CHARTER

A company under the name of H. L. Coombs and Co., Ltd., with a capital of $250,000, has been organized in Montreal and chartered to take over the stock, bond and real estate business of H. L. Coombs, which was established in 1901.

The new firm will make a specialty of dealing in all kinds of Canadian, American, British and foreign stocks and bonds, foreign exchange, real estate in all its branches, insurance and loans. The underwriting of enterprises will be undertaken, principally those of a co-operative nature, such as community housing plan and chain store enterprises.

CANADIAN MORTGAGE INVESTMENT CO.

The annual statement of the Canadian Mortgage Investment Co. for 1919 shows little change from the preceding year. Net income amounted to $97,800, compared with $104,070. The usual dividend at 6 per cent. per annum was paid, amounting to $72,572. Dominion of Canada war taxes amounted to $4,092, and the sum of $12,170 was reserved for 1918 and 1919 income taxes. The balance carried forward is $42,084, as against $33,118 a year ago. There was a slight increase in the amount of loans on first mortgage, which stand at $2,061,788, compared with $2,053,457. The assets are now $2,386,927, compared with $2,406,613.

FAMOUS PLAYERS CANADIAN CORPORATION

Definite details are now available regarding the organization and financing of Famous Players Canadian Corporation, recently formed to acquire and control a chain of 30 motion picture theatres throughout Canada. The board of directors includes Sir. Herbert S. Holt, president, Royal Bank of Canada; W. D. Ross, director, Bank of Nova Scotia; and I. W. Killam, president, Royal Securities Corporation. Lord Beaverbrook is also believed to be interested. The corporation will have as its president Adolph Zukor, president, Famous Players—Lasky Corporation of New York—the Canadian organization holding a twenty-year franchise for the first run in Canada of the films of the New York corporation, which is perhaps the strongest single factor in the world's motion picture industry. N. L. Nathanson, of Toronto, has been appointed general manager of the new Canadian organization.

The new corporation has been capitalized at $15,500,000 under Dominion laws, and Royal Securities Corporation are offering $4,000,000 of 8 per cent. cumulative first preferred shares. There is no bonded debt, the preferred shares being a first charge on both assets and earnings. The new financing is for the purpose of building and acquiring 15 large theatres in addition to the 16 already controlled, which early in 1921 will give the new combination a seating capacity of 45,000, and earnings which are expected to exceed 10 per cent. on the common shares. The new preferred and common shares will be listed on both the Montreal and Toronto Stock Exchanges.

Ratio of actual to expected mortality only 38 per cent.

FURTHER INCREASE IN VOLUME OF EMPLOYMENT

Reports from employers to the Dominion Headquarters of the Employment Service of Canada, Department of Labor, indicate that, disregarding loss of time due to strikes, there was, as had been anticipated, an increase in the volume of employment as compared with the preceding week. The actual increase again greatly exceeded the anticipated one and would indicate that the recovery from the very considerable losses reported during the holiday and inventory season is progressing satisfactorily. With the exception of the maritime provinces, increases were registered in all the provinces, that in Quebec being the most substantial. For the week ended January 24th, Quebec and the prairie provinces anticipated having slight declines. Increases, however, were expected in the remaining provinces but were all of a nominal character.

All groups with the exception of building and construction, commercial and mercantile, quarrying and mining and railway operation, reported increases in staffs. These groups expected further declines and together with three others, clay, glass and stone products, woodworking and miscellaneous, were the only ones to anticipate reductions in staffs for the week of the 24th.

Reports for the week ended January 17th were received from 4,348 firms. These firms reported 638,120 persons on their payrolls as compared with 631,166 persons on payroll for week ended January 10th, an increase of 6,954 persons or one and one-tenth per cent. These same firms anticipated increasing their staffs by 375 persons or one-tenth per cent. for the week ending January 24th. The inrcease for the week ended January 17th had been anticipated. Reports from employers for the week ended January 10th indicated an increase in staffs of 6,927 persons or one and one-tenth per cent. and an anticipated increase of 3,369 persons or five-tenths per cent. during the week of the 17th, which increase the actual figures for the week of January 17th given above showed to have been greatly exceeded.

RAILROAD EARNINGS

The following are the earnings of Canada's transcontinental railways for the month of January, 1920, with comparisons:—

Canadian Pacific Railway.

	1920.	1919.	Inc. or dec.
January 7	$3,171,000	$2,856,000	+ $ 315,000
January 14	3,331,000	2,891,000	+ 440,000
January 21	2,837,000	2,949,000	— 112,000
January 31	4,330,000	4,101,000	+ 229,000
	$13,669,000	$12,797,000	+ $ 872,000

Grand Trunk Railway.

	1920.	1919.	Inc. or dec.
January 7	$1,129,338	$1,003,631	+ $ 125,707
January 14	1,228,846	1,029,578	+ 199,268
January 21	1,056,381	940,925	+ 115,456
January 31	1,639,469	1,428,095	+ 211,374
	$5,054,034	$4,402,229	+ $ 651,805

Canadian National Railways.

	1920.	1919.	Inc. or dec.
January 7	$1,642,208	$1,294,039	+ $ 348,169
January 14	1,864,220	1,420,433	+ 443,787
January 21	1,599,643	1,541,392	+ 58,251
January 31	2,161,491	2,531,653	— 370,162
	$7,267,562	$6,787,517	+ $ 480,045

The Brandon Bankers' Association has elected its officers for the coming year as follows: President, G. P. Worsley; vice-president, W. T. Fyfe. Executive committee—Messrs. W. L. Birnie, H. J. Pugh and James Walker. The manager of the clearing house will be L. V. Ray.

Full Annual Report on Request

Head Office: - - - WINNIPEG, CANADA

MORE MONTREAL EXCHANGE SEATS

Memberships on the Montreal Stock Exchange were increased on January 29 from 75 to 85. The ten new seats are to be sold at not less than $35,000 each. One of them has already been sold to Thornton, Davidson and Co., for L. A. Wyse, one of the members of the firm, at $36,000. This purchase gives Thornton, Davidson and Co., three memberships. A second seat was purchased by L. J. Forget and Co. at the same figure.

NEW BRUNSWICK FINANCE

The statement of the revenue and expenditure of the province of New Brunswick for the year ending October 31st, 1919, has been issued. The revenue amounted to $2,168,822, of which $637,976 came from the Dominion of Canada, $860,795 from territorial revenue, and $315,305 from provincial taxes. The expenditure is given as $2,496,508. Of this, bond and bank interest amounted to $531,300, public works took $727,934 and education $291,269. There is a deficit on the face of the accounts on the year's operations of $327,686.

TRUST COMPANY PURCHASE ABANDONED

Negotiations which have been under way for the acquirement of the Imperial Trusts Co. by the Colonial Investment and Loan Co. have fallen through. The matter was considered at a meeting of the directors of the Colonial Investment Co. about a month ago, and an adjournment was made to allow time to go further into the matter. This adjourned meeting was held on January 30, with the above result. It was felt that the price asked for the controlling interest of the stock of the Imperial Trusts Co. was too high, and as a result of this their offer was withdrawn.

GUNNS, LIMITED, STOCK ISSUE

An offering of $1,500,000 7 per cent. cumulative first preferred and participating stock of Gunns, Ltd., is being made by the National City Co., Ltd., and Greenshields and Co. at 96 per share ($100 par value), yielding 7.29 per cent. Dividends are payable quarterly on February, May, August and November, and the shares are redeemable, in whole or in part, at the option of the company at 110 and unpaid dividends on any dividend date after thirty days' notice.

Gunns, Ltd., have an authorized capital of $5,000,000 and outstanding capital of $3,260,350. There is no bonded indebtedness. Morris and Co., one of the three largest packing companies in the world, recently acquired a substantial common stock interest in the company, the purchase price being par. It is considered that the Morris connection with the Canadian industry, which has recently doubled its capacity, will materially increase its volume of business and net earnings.

J. H. Ewart and Co., Toronto, insurance brokers, have issued a calendar, which possesses some unique features. It consists of twelve good size sheets with figures discernible at any reasonable distance. At the top of each sheet is a concise statement concerning some branch of insurance. Each statement is crowded with business sense, to set readers thinking seriously along the line of insurance protection.

Recent fires in garages, extending to dwelling houses, and causing loss of lives as well as financial losses in property, have caused Chief Chevalier, of the Montreal Fire Department, to appeal to the administrative committee to pass a special by-law to enforce that all garages constructed shall be fireproof. The chief also asked that the new by-law would stipulate that there must be special places in connection with the garages for storing gasoline, oil and other inflammable material.

(A Gain of $8,385,195)

Insurance in Force: $76,381,638
(A Gain of $16,577,208)

Profit Scale Maintained

Profits Exceed Estimates by 70 Per Cent.

Surplus on basis Dominion Government Standard, $1,155,898—a gain of $229,293 for the year.

Items From Report

	1918.	1919.	Increase.
Income	$ 2,782,540	$ 3,452,768	$ 670,228
Assets	9,189,657	10,810,543	1,620,886
Surplus (including Paid Capital $50,000) Standard of Dom. Insurance Act)	926,605	1,155,898	229,293
Insurance Issued	16,433,580	24,818,776	8,385,196
Insurance in Force	59,804,430	76,381,638	16,577,208

Notable Features

SAFE INVESTMENTS—No losses on investments during the year. Overdue interest at end of year considerably less than at the end of the previous year. No speculative securities of any nature held.

PROFIT SCALE MAINTAINED—Emergency Funds held have been amply sufficient to meet the extra strain of the War and the Epidemic and the Company is, therefore, able to maintain its very liberal scale of profits, with only slight adjustment at the older ages, to maintain equity between Policyholders. The following example shows actual payments due in 1920, as compared with estimates issued when present rates were introduced.

Estimated and Actual Results

Age 25. 20-Payment Life. $10,000. Premium $300.00.

Policy issued in Year.	Profits Payable End of	Original Estimates of Profits For 5 Years.	Actual Profits Payable.	% Actual to Estimated.
1915	5th Year	$172 50	$317 20	183.9%
1910	10th Year	270 00	464 30	172.0%
1905	15th Year	397 00	634 00	159.7%
1900	20th Year	510 00	818 00	160.4%

QUALITY BUSINESS—In every respect the Company's business continues to be of a very high standard. Endowment Plans comprise over three-fourths of the total business issued and the total Business in Force. The Liabilities, as provided for on the Company's own standard, make full provision for profits accruing but not due, Investment Reserve and Accruing Commissions Accounts and for every ascertainable liability. On the great bulk of the business the Reserve Liabilities on an interest basis ½% higher than required by the policy guarantees.

The normal mortality for the year was only 36.8%, the total mortality, including epidemic claims, being 54.8%.

Statement Showing Company's Progress

Year.	Income.	Assets.	New Business.	Business in Force.
1899	$ 268,140	$ 875,422	$ 1,712,922	$ 5,778,622
1904	429,826	1,643,183	2,080,150	8,200,297
1909	754,305	2,927,053	4,812,652	14,189,613
1914	1,464,819	5,294,262	9,619,219	30,849,326
1919	3,452,293	10,810,543	24,818,776	76,381,638

A more detailed statement of the Annual Report will be mailed to every Policyholder in due course and to others upon request.

At a meeting of the Board of Directors held subsequent to the Annual Meeting, Mr. John McClary was elected Honorary President; Dr. A. O. Jeffery, K.C., President, and Messrs. W. M. Spencer and J. G. Richter, Vice-Presidents.

JANUARY BANK CLEARINGS

Total ..	$1,639,274,939	$1,190,532,352	+	$448,742,587

FARMERS' MUTUAL HAIL INSURANCE CO.

The annual meeting of the Farmers' Mutual Hail Insurance Co. was held in Regina, Sask., on January 27th. The president, S. V. Linton, of Arcola, said that the company had successfully come through the disastrous 1919 hail season. The directors' report showed that the company's business throughout the province had increased by over 40 per cent., the total amount of hail insurance at risk being $1,244,000. The average policy this year was $925. In comparing the season of 1918 with the season of 1919, it was found that it took 58 per cent. of the premium income to pay the losses in 1918, while 88 per cent. of the premium income was required to pay the losses in 1919, being an increase in losses of over 50 per cent. over the preceding year. It was also shown that whereas in 1918 only 10 out of each 100 assured had been hailed, that in 1919, 16 out of each 100 assured were hailed. The company withstood 77 distinct hailstorms which affected its risks throughout the province in 1919, against only 32 storms in 1918. The number of quarter sections hailed in 1919 were 4,008, against only 168 in 1918. The total income of the company, including cash and note premiums, interest on Victory Bonds, hail notes and trust account at the bank, totalled $67,565, which still left a reserve on hand, after the payment of all losses and expenses, of $1,501.

The following is the board of directors: S. V. Linton, president; John Worden, vice-president; J. G. Kerr, W. M. Nicol, M. J. Olsen, E. Kraehling, James B. Shearer, E. M. Young, J. E. R. Hodder, Robert H. Cook, manager.

The January meeting of the Winnipeg Life Underwriters' Association, held on January 24, was addressed by J. B. Hugg, K.C., who described the recent international labor conference at Washington, and by F. P. Kuhn, of the McKim Advertising Agency, who described methods of advertising life insurance.

WILDER'S' BLEURY BONDS

The unsold balance of a total issue of $350,000 6½ per cent., first mortgage gold bonds of Wilder's Bleury Street Building Co., amounting to $125,000, is being offered by Messrs. Hew R. Wood and Co., Montreal.

FARMERS' MUTUAL FIRE INSURANCE CO.

The 12th annual meeting of the Farmers' Mutual Fire Insurance Co. was held in Regina, Sask., on January 27th. M. J. Olsen, the president of the company, occupied the chair, and Robert H. Cook, manager, acted as secretary. In opening the meeting, Mr. Olsen referred to the fact that during the past two years the fire insurance in force from the farmers of the province had doubled in volume, and that the general progress of the company was, therefore, satisfactory. He also referred to the fact that, in his opinion, no better service in the line of fire insurance could be offered the farmers of the province than was now being given by the Farmers' Mutual Fire Insurance Co.

The directors' report showed business now in force $3,928,000, and that the company's surplus to policyholders was now $33,574. The company had 25 losses in the year of 1919, totalling $8,774, being more than double the total losses for the year 1918. The noticeable increase of losses by lightning and defective chimneys was noticed. Notwithstanding these losses, however, the company's position at the end of 1919 was stronger than at the end of any previous year. These reports were then approved by the meeting. The following is the board: M. J. Olsen, president; John Worden, vice-president; Ed. Kraehling, R. T. Young, W. B. Empey, J. G. Kerr, J. E. R. Hodder, E. M. Young, S. V. Linton, Robert H. Cook, manager.

INSURANCE LICENSES ISSUED

The Canada Security Assurance Co., has been registered for the transaction of fire, hail and automobile insurance in Ontario.

The British General Insurance Co., Ltd., has been registered for the transaction of fire insurance in Ontario.

The Occidental Fire Insurance Co. has been licensed to transact the business of automobile insurance in the province of British Columbia.

The Yorkshire Insurance Co., Ltd., has been licensed to transact in Canada the business of automobile insurance in addition to the classes for which it is already licensed.

The National Surety Co. of New York, has been licensed to transact the business of burglary insurance throughout the province of Quebec. The chief agent is A. D. Taylor, 9 St. John St., Montreal.

The North Empire Fire Insurance Co. of Winnipeg, has been licensed to transact the business of fire insurance in the province of Quebec. The chief agent is W. M. McCombe, Canada Life Building, Montreal.

The Hudson Bay Insurance Co. has been licensed to transact in Canada the business of fire insurance. This license replaces license No. 628 previously held by the company.

The Continental Casualty Co. has been licensed to transact in Canada the business of accident, automobile and sickness insurance.

The National Surety Co. has been licensed to transact in Canada the business of Forgery insurance in addition to the classes for which it is already licensed.

The Royal Scottish Insurance Co., Ltd., has obtained a license to write fire insurance throughout Canada. The policies of the Royal Scottish are guaranteed by the Northern Assurance Co., Ltd., of which company G. E. Moberly is chief agent for Canada.

JANUARY FIRE LOSSES HEAVY

Many Large Conflagrations During the Month—Cold Weather Resulted in a Number Originating in Heating Apparatus

The Monetary Times' estimate of Canada's fire losses during January, 1920, was $2,637,850, compared with $3,915,290 in January, 1919, and $2,047,496 in December, 1919. The following is the estimate of January losses:—

Fires exceeding $10,000	$1,980,000
Small fires reported	157,850
Estimate of unreported fires	500,000
Total	$2,637,850

The Monetary Times' record of the past four years shows the following monthly losses:—

Month.	1917.	1918.	1919.	1920.
January	$ 1,918,660	$ 2,688,556	$ 3,915,290	$ 2,637,850
February	2,009,953	2,243,762	1,091,834	....
March	2,050,650	1,682,286	2,154,095	....
April	1,317,714	3,240,187	1,080,070	....
May	1,163,110	3,570,014	1,785,030	....
June	1,184,627	3,080,982	3,337,530	....
July	1,101,734	3,369,684	1,118,377	....
August	1,230,183	3,110,445	1,374,495	....
September	1,301,700	917,286	1,940,272	....
October	704,605	5,119,145	1,023,288	....
November	959,049	1,059,580	2,339,870	....
December	5,144,100	1,733,917	2,047,496	....
Totals	$20,086,085	$31,815,844	$23,207,647	$ 2,637,850

Large Fires Last Month

The following is a list of fires at which the loss amounted to $10,000 and over:—

Abbey, Sask., Jan. 5, business block, $25,000.

Brandon, Man., Jan. 4, New York Shoe Store and adjoining building, $10,000.

Halifax, N.S., Jan. 11, warehouse of the Richmond Paper Co., $175,000.

Moncton, N.B., Jan. 5, plant of the Record Foundry and Machine Co., $65,000.

Quebec, Que., Jan. 9, candy factory of J. A. Lesage, $25,000.

Bathurst, N.B., Jan. 15, several buildings at Bathurst Mines, $10,000.

Burford, Ont., Jan. 14, grain elevator of the Burford Grain and Coal Co., $10,000.

Calgary, Alta., Jan. 18, Empire Hotel, Grand Hotel and three stores, $300,000.

Dresden, Ont., Jan. 19, buildings of the Lawrence and Wakefield Flour Co., $20,000.

Glace Bay, N.S., Jan. 14, Central School, $75,000.

Hatton, Sask., Jan. 11, general stores of Fred. Maeir and A. Jahnke, $30,000.

Listowel, Ont., Jan. 15, Pructer's harness store and Gable jewellery store, $20,000.

Montreal, Que., Jan. 8, East End Garage, seventy-five automobiles and other buildings, $500,000.

Ottawa, Ont., Jan. 14, business block on Sussex Street, $30,000.

Ottawa, Ont., Jan. 21, buildings of J. Bambrick and Ottawa Printing Co., $140,000.

Parry Sound, Ont., Jan. 14, Oddfellows' building, $10,000.

Port Elgin, Ont., Jan. 10, buildings of Fred. Magee, $30,000.

Sydney, N.S., Jan. 17, Eastmount School, $12,000.

Toronto, Ont., Jan. 14, garage of Wilder Cartage Co., $15,000.

Toronto, Ont., Jan. 5, building of Simmons and Sons, florists, $10,000.

Toronto, Ont., Jan. 9, Creighton's garage, $120,000.

Toronto, Ont., Jan. 17, stockroom of Wm. Davies Co. and adjoining building, $30,000.

Kenmore, Ont., Jan. 19, general store of J. H. Conn, $25,000.

Toronto, Ont., Jan. 26, building of W. and J. Greey, $40,000.

Moose Jaw, Sask., Jan. 12, Canadian Garage, $10,000.

Lake Megantic, Que., Jan. 23, Canadian Pacific Railway station, $10,000.

Montreal, Que., Jan. 24, business buildings on Craig Street West, $50,000.

Morrisburg, Ont., Jan. 26, the Cameron Block, $30,000.

Sidney Township, Ont., Jan. 29, farm buildings of G. A. B. Gay, $18,000.

Thorold, Ont., Jan. 31, Hendershot Building, $10,000.

Toronto, Ont., Jan. 30, Westminster Presbyterian Church, $125,000.

Fires from Heating Apparatus

The following structures were destroyed or damaged last month: Post-offices 2, stores 26, residences 21, barns 8, business buildings 14, plants 7, warehouses 4, stables 2, schools 2, factories 4, college 1, grain elevator 1, hotels 2, flour mill 1, business blocks 4, garages 4, theatre 1, railway stations 2, churches 2.

Among the causes reported were: Defective chimney 1, defective wiring 6, thawing frozen pipes 3, overheated stove 4, spark from thrashing outfit 1, explosion of oil vat 1, carelessness with matches 2, overheated stovepipe 1, origination from furnace 1, gasoline explosions 2, defective stovepipes 2, oil stove origination 2, defective furnace pipes 1, carelessness with candles 2.

Although the above are only a small per cent. of the causes reported, they are fairly representative of the whole total. It is estimated that over 50 per cent. of the fires last month originated from heating apparatus. Carelessness, thawing frozen pipes and defective wiring were also responsible for a large percentage of fires.

Many Fatalities

The following is a list of fires at which fatalities occurred last month:—

Regina, Sask., Jan. 12, trapped in burning house	1
Calgary, Alta., Jan. 18, trapped in burning hotel	3
Port Dover, Ont., Jan. 18, trapped in burning house	1
Elmira, Ont., Jan. 17, trapped in burning house	3
Canton, Ont., Jan. 199, trapped in burning house	1
Portneuf, Que., Jan. 22, trapped in burning house	4
Toronto, Ont., Jan. 25, trapped in burning house	1
Montcarmel, Que., Jan. 23, trapped in burning shack	1
Cornwall, Ont., Jan. 27, fire from kitchen stove	1
Headingly, Man., Jan. 28, trapped in burning building	4
Beaver River, N.S., Jan. 29, trapped in burning house	1
Sandwich, Ont., Jan. 29, fire from coal stove	1
Total	22

WESTERN EMPIRE LIFE MAKES PROGRESS

The report of the Western Empire Life Assurance Co., which appears elsewhere in this issue, shows that this young western company had a successful year in 1919. There were policies issued amounting to $1,444,900, and a gain of insurance in force made amounting to $900,000, bringing the total business in force up to $4,701,963. The premiums collected were $117,997, and the sum of $21,176 was received from interest, the interest earnings being 6.72 per cent.

The Western Empire Life has now completed its eighth year of operation. Though it was barely under way when the war commenced, it has successfully passed through the difficulties of recent years. Miles M. Dawson, consulting actuary for the company, comments in his report on the fact that assets increased in 1919 from $410,415 to $500,704, the surplus to policyholders was increased by $41,027 and the expenses in relation to the volume of business, were decreased.

PUBLICATIONS RECEIVED

"Before the Bar."—By J. A. Stevenson (J. M. Dent and Sons), $1.35. The author discusses in an unbiased manner a question which is rarely debated except controversially, prohibition. More than this, he gives a fair and comprehensive account of the movement, which is now over one hundred years old. This question is not yet settled, and his book will assist many to form an intelligent opinion.

Heaton's Annual.—Heaton's Agency, Toronto. 546 pages; $2. The 1920 edition of this useful annual has just appeared, and is up to the standard of previous years. The book has become well known as a work of reference because of its summaries of industrial conditions and opportunities in cities and towns; rates under the Canadian customs tariff; section on natural resources; financial information and directories of government offices, etc.

Commercial Research.—By C. S. Duncan, Ph.D. Macmillan Co. of Canada, Toronto. 385 pages; $2.50. This book contains a discussion of scientific principles for the solving of commercial problems and is a guide to their application. In untechnical language, devices by means of which the manager may most quickly and accurately visualize his problems, are described. The significance of business facts is emphasized, and methods for collecting, analysing and presenting them, and for their interpretation into a business policy.

Concordance of the Railway Act.—By A. H. O'Brien, M.A. Canada Law Book Co., Toronto. 184 pages; $6. The passing of the Railway Act at the 1919 session of parliament gave Canada a new railway law, no less than 16 previous acts being repealed, either in whole or in part. This volume is a new edition of "Currie's Concordance," and gives, in addition to the text and a thorough index of the Railway Act, 1919, an index to all acts of parliament affecting railways, an account of the Board of Railway Commissioners and an index to its regulations and forms, and considerable other useful information.

Business Law.—By Alfred W. Bays. The Macmillan Co. of Canada, Toronto, 311 pages, with index; $1.50. This book is intended for those who desire a brief exposition of the underlying principles of the law governing business transactions. The author is professor of commercial law in the Northwestern University School of Commerce, and is therefore well qualified to write upon the subject. After introductory chapters on the nature, sources, etc., of law, the book proceeds to discuss general principles of the law of contract, relations of principal and agent, sales of goods, negitiable paper, business associations, law of property, and other branches of the subject.

Stabilizing the Dollar.—By Irving Fisher, Professor of Political Economy in Yale University. Macmillan Co. of Canada. 305 pages, with index; $4. By his former short articles and speeches Professor Fisher has already aroused interest in his plan for stabilizing the monetary unit and thereby avoiding violent fluctuations in the prices of goods. His plan is, briefly, that the quantity of gold in the dollar be varied in accordance with changes in the general price level, as measured by an index number. This would still permit the price of any commodity to increase or decrease through new conditions of production, but would prevent a wholesale rise or fall through a decrease or increase in the supply of gold, paper money or credit. This volume fully describes the plan, discussing the need for it, objections to it, and alternative plans which have been proposed to accomplish the same purpose. Numerous charts prove to what extent price changes have been due to variations in the monetary unit, rather than in the price of the commodity itself as measured by general price levels.

HOWARD SMITH PAPER MILLS, LIMITED

Announcement has been made that the $1,500,000 offering of 8 per cent. cumulative participating preferred stock of the company has been fully subscribed. The public offering was made at a price of 103 by the Montreal Stock Exchange firm of Greenshields and Co. and the investment house of Nesbitt, Thomson and Co. The proceeds of the issue are to be employed to retire $475,000 old preferred stock outstanding, and the balance used to acquire the entire capital stock of the Toronto Paper Manufacturing Co., taken over by the Howard Smith concern several months ago.

MONTREAL AND QUEBEC SAVINGS INSTITUTIONS

Returns of the Montreal City and District Savings Bank and of La Caisse d'Economie Notre-Dame de Quebec, submitted to the Department of Finance as at December 31st, 1919, show few changes of any significance, as compared with the previous month. Under liabilities, the most important change was in Dominion government deposits payable on demand, the November total for the two institutions of $3,432,390 being reduced to $1,777,800 in December. Other deposits payable after notice increased over $1,000,000 for the month. On the whole, however, liabilities were about the same. Under assets no changes of any importance were recorded. The following is a summary of the statements supplied by these institutions to the Finance Department as at December 31st:—

News of Industrial Development in Canada

Canadian General Electric Plans Large Extensions—Hamilton to Get Brass Foundry—New York Financier Wants to Locate $5,000,000 Steel Mill at Victoria.

NOTWITHSTANDING anticipated set-backs, the building trade promises to be brisk during the coming season. The rapid expansion of Canadian and American industries demands this. Hindrances in various forms, however, will hold up to a certain extent any boom in the industrial construction line.

The greatest difficulty to be met with is the scarcity of skilled labor, which is affecting many industries whose plants are in active operation on increasing orders. The advancing cost of building materials is also a big problem. One official of a prominent construction company states that the only things that will influence a reduction in building material costs are increased production, and greater labor efficiency in factories and on the jobs.

Exchange is a dominant factor which is being felt by Canadian manufacturers who are dependent upon the United States for materials. The Hamilton Bridge Works Co. which gets immense quantities of raw materials from across the line may be compelled to close down as a result of the present situation, and other companies are in a similar plight. It is stated that no anthracite coal will be imported from America if the unfavorable rate of exchange continues, which means considerable to Canadian industries.

General Electric Plans Extension

The Peterboro city council met Senator Frederic Nicholls, head of the Canadian General Electric Co., last week, in regard to the plans of the company to expend in the city on new buildings and equipment between $600,000 and $1,000,000. This will include a moulding shop. Work is to commence on the new buildings in June, and when completed will add between a million and a million and a half to the company's Peterboro pay-roll. In consideration for these extensions the company is seeking a ten-year extension of its present fixed assessment of $150,000. In the past twenty-five years the company's pay-roll had averaged $500,000 a year, and at present the pay-roll amounted to a rate of $1,500,000 a year. The company would not expend the money they proposed to expend unless they expected to increase their pay-roll by at least $1,000,000 a year. The buildings alone would cost between $300,000 and $500,000, with a minimum of $300,000 on buildings, and their program, which might not be carried out this year, included an expenditure of $1,000,000.

Two years ago the company contemplated building a foundry in Peterboro, but the council did not see fit to carry out the arrangement that they had agreed to and the foundry went to Montreal.

Other Industrial Notes

A deal has been completed whereby a group of men have purchased a site on Mercer St., Windsor, Ont., for the purpose of erecting a factory for the manufacture of scales. A permit has been granted the Burroughs Adding Machine for the erection of a $200,000 factory in Windsor.

The by-laws have been passed giving fixed assessments to the Circle Bar Knitting Co., and the Dominion Oil Co., which companies intend to locate at Owen Sound, Ont.

It is reported that American and Canadian financiers are about to take over the present pulp mills at Riviere du Loup, Que., formerly owned by the Riviere du Loup Pulp Co., but is now operated by the Trust and Guarantee Co. The plant employs at present about 50 hands, but the new owners would employ 1,000 and make very extensive improvements.

The Peterson Core Oil and Manufacturing Co., of Chicago, has decided to locate its Canadian factory in Hamilton, according to Industrial Commissioner Kirkpatrick.

The Canadian Wilson Co., packers, Chatham, Ont., is preparing to make extensive additions to its plant in the coming spring. The plant will be enlarged to provide facilities for killing cattle, hogs and sheep.

It is the intention of the Perfect Knit Mills, of Listowel, Ont., to erect a large plant for the manufacture of cloth. The difficulty is to get the men to do the work and provide housing accommodation.

A large American concern manufacturing and jobbing drugs, extracts and stock foods will erect a $300,000 factory in London, Ont., next summer. This branch in London will be only the beginning of a large factory and warehouse there, that will eventually give employment to between 400 and 500 men and women.

Another big industrial concern has completed plans to establish modern plants at Hamilton, Ont. It is the Canadian Nathan, Ltd., which will be backed by a group of leading Canadian and American industrial interests and will be closely associated with the Nathan Manufacturing Co. of New York. It is understood that the Canadian Nathan Co., Ltd., has already completed arrangements to take over the extensive plants of the Canadian Chadwick Metal Co., Ltd., of Hamilton. The entire plant will be remodelled and equipped with machinery to handle the various products of the new company. The Canadian Nathan Co., Ltd., will specialize in the manufacture of brass and metal specialties, including the well-known line of "Nathan" injectors, ejectors, lubricators, boiler chucks, and a complete line of valves, etc., for locomotives, marine and stationary boilers. It is also planned to carry out a general brass foundry business. The company will also manufacture the Paxton-Mitchell superheat piston rod and valve steam packing for locomotives.

The St. Hyacinthe, Que., chamber of commerce intend to engage a permanent secretary to attend to requests for information, and assist in securing industries. Meanwhile, G. A. Oliver is temporary secretary.

For the establishment of a woodworking factory to manufacture sashes, doors, hardwood flooring, etc., Gordon G. Scott, who now operates mills at Upper Cross Creek and Westfield, N.B., has applied to the Fredericton City Council for a lease of the old Estey Mill site and adjacent ground, extending from Queen St. to low water mark and as far west as Smythe St.

Want Steel Plant at Victoria

A proposition has been placed before the Victoria Board of Trade by A. P. Gillies, New York financier, for the erection of a $5,000,000 steel plant. Mr. Gillies has asked the city to guarantee the interest on the capital. Attracted by the large amount of magnetite ore in Canada and especially on Vancouver Island, it was stated by the financier, a company was formed in New York some time ago with a view to exploitation of the deposits. The company would be known as the Canada Electric Steel Products, Ltd., with headquarters at Suite 140, 61 Broadway, New York. It is said to be incorporated with a capital of $5,000,000 and a bondage of $5,000,000, the stock having been taken in one block by J. K. White and Co., 36 Wall St., and the patents of the Hamilton and Hansell Incorporated have been obtained, according to Mr. Gillies. All factories owned by the new company would be supervised by experts from the Hamilton and Hansell Co., who are said to have twelve mills now working, most of which are in Norway and Sweden, with a few in the United States.

One plant in Victoria would take care of the whole Pacific Coast, Mr. Gillies said, and the allied industries that would spring up as a result of the establishing of rolling mills would be an even greater asset than the parent company.

"Solid as the Continent"

The North American Life is high in the esteem of the insuring public. Our representatives are placing unprecedented amounts of new business. Why?

"Solid as the Continent" policies, coupled with liberal dividends and the great enthusiasm of all of our agents is the answer.

If you want to associate yourself with a company that offers its representatives real service, write us. Some good agency openings are available.

Correspond with E. J. Harvey, Esq., Supervisor of Agencies.

North American Life Assurance Company
"SOLID AS THE CONTINENT"
HOME OFFICE - TORONTO, ONT

THE FOUNDATION OF A GREAT SUCCESS

The world-famous merchant, John Wanamaker, attributes his phenomenal success to having carried Life Insurance on the endowment plan. This system encouraged him year by year to lay by a fixed amount of money. As means increased, additional policies were taken and as they matured the proceeds were invested in new departures in connection with the business. These endowment policies helped greatly in the accumulation of capital Every young man should carry Endowment Insurance. It furnishes a motive for saving. Money that might otherwise be dissipated is accumulated—and at good interest. Many have laid the foundation of success, not so notable perhaps as that of the Philadelphia millionaire, through investing in Endowment Policies in the Mutual Life of Canada.

Do not spend your surplus, lay it by for a sunny day by means of a Mutual Life Endowment

The Mutual Life Assurance Co. of Canada
Waterloo Ontario

"Old Age Pension"

To obtain Life Insurance is to take advantage of the surest preventive of poverty civilization has produced.

Some think of Life Insurance as benefitting others alone. The first idea is to protect dependents, but this is by no means the only benefit. There is no better way of caring for one's own future, no better "old age pension" fund, the payments for which are largely at one's own disposal during the whole period of payment.

The Great West Life Policies provide protection on most attractive terms. They are inexpensive, clearly-worded, liberal and profitable. Ask for information, stating age.

MAY TAX PROPERTY OUTSIDE PROVINCE

Supreme Court Decision May Have Effect of Making Property Subject to Double Succession Duty in Some Cases

SUCCESSION duties may be levied by a province on property situated outside it, according to the decision of the Supreme Court of Canada, in the important case of Barthe vs. Alleyn, just made public. It had already been established by legal decision that property situated within a province but belonging to a testator domiciled elsewhere, could be taxed by it, but the powers of a province over property situated outside it but belonging to a testator resident in it, were not definitely settled. The present decision reverses the finding of the Court of Appeal at Quebec, and upholds the previous decision of Chief Justice Sir Francois Lemieux, of the Quebec Superior Court.

Much Property Outside Province

The Hon. John Sharples, member of the legislative council of the province of Quebec, died in Quebec city, where he was domiciled, on July 30, 1913. He willed his property to his wife, Dame M. Alleyn, who accepted the succession. The estate included stocks and shares to the total value of $213,039. This was stock of companies whose headquarters were situate in every instance in other provinces of the Dominion or in the United States. J. H. Ulric Barthe, in his quality of collector of provincial revenue for the district of Quebec, instituted an action in the Superior Court against Mrs. Sharples, alleging that she was liable to pay the six and one-half per cent. on this moveable property belonging to the succession. The amount of tax thus claimed was $13,847, to which was added $980, representing five per cent. interest on the tax as from November 30, 1913, to April 30, 1915, making a total sum of $14,828 sued for in this action.

It was submitted in defence that the provincial authority had no constitutional right to impose this tax upon the property in question or upon its transmission to the defendant, in the light of the fact that it was situate outside the province.

Chief Justice Lemieux gave judgment maintaining the action and holding that Act 4, George V., chapter 10, passed on February 19, 1914, upon which this action was based, was valid and *intra vires*. Therefore, defendant was condemned to pay the amount sued for, with interest at the rate of five per cent. per annum and the costs.

Appeal was made to the Court of King's Bench, sitting in appeal at Quebec, and by three to two, Justices Cross, Pelletier and Martin against Chief Justice Lamothe and Justice Carroll, the Bench reversed the judgment of first instance and dismissed the action.

Then followed appeal to the Supreme Court of Canada, whose judgment has been rendered upholding application in the instance of what is known as the *mobilia* rule, and reaffirming the judgment of the Superior Court condemning Mrs. Sharples to pay tax to the amount above stated on succession to the shares in question, plus interest and costs.

GORE DISTRICT MUTUAL FIRE

The 81st annual meeting of the Gore District Mutual Fire Insurance Co. was held in Galt, Ont., on February 2. The statement of receipts and expenditures showed a credit balance of $75,524, and the balance of cash assets over all liabilities is $655,216. The business of the company for the year 1919 showed an increase of 838 in number of policies and $2,819,364 in amount of risk. At the close of the year there were 19,359 policies in force, insuring $36,003,381.

The retiring directors, Robert Scott (Galt), Lincoln Goldie (Guelph), James D. Allen (Galt) and W. K. George (Toronto), were re-elected, and at a subsequent meeting of the board C. R. H. Warnock was re-elected president for the current year, Charles Turnbull vice-president and J. N. Mac Kendrick, secretary-treasurer.

Union Trust Company Limited

HEAD OFFICE - TORONTO

Nineteenth Annual Report

Adopted by the Shareholders, February 12th, 1920

To the Shareholders of The Union Trust Company, Limited:—

Your Directors submit herewith the Balance Sheet of the Company as at the close of the financial year ended December 31st, 1919, together with Statement of Profit and Loss Account.

The profits for the year, after payment of interest on Guaranteed Funds, cost of management, and all other expenses, amount to $113,574.04, to which must be added the sum of $44,066.64, the balance in Profit and Loss Account brought forward from the preceding year, making a total of $157,639.68, which your Directors have appropriated as follows:—

To payment of Quarterly Dividends aggregating	$ 70,000.00
To Contributions to patriotic and other relief funds	525.00
To Taxes and Registration Fees Paid to Dominion and Provincial Governments and Municipalities	10,446.04
To Balance carried forward	76,668.64
	$157,639.68

The values of the securities held by the Company are again set down in the Annual Statement on a sound and conservative basis.

All funds belonging to estates in the Company's hands for administration, and funds entrusted to the Company through its Trusts Savings Department, have been kept separate from all other funds in the Company's business and the investments representing these funds have been carefully made and are in excellent condition.

A continuous audit of the Company's accounts has been maintained throughout the year, and the Certificate of Messrs. Price, Waterhouse & Co., auditors of the Company, has been appended to the statement.

The Directors have pleasure in recording their appreciation of the efficient and loyal services rendered by the staff at the Head Office and the Branch Office in Winnipeg, and by its representatives in London, England.

All of which is respectfully submitted.

HENRY F. GOODERHAM,
President.

Toronto, January 24th, 1920.

AUDITORS' CERTIFICATE

To the Shareholders:—

We have audited the books and accounts of The Union Trust Company, Limited, at the Head Office in Toronto, and Branch Office in Winnipeg, for the year ended December 31st, 1919, and find that the above statements of Assets and Liabilities and Profit and Loss are in accordance therewith. We have verified the securities and cash balances either by actual inspection or by certificates from the depositories. The Company's investments are carried at market values where such values have been obtainable and the remaining investments and loans are included at values which the Directors consider to be fair and reasonable. The trust funds and investments are kept separate from the Company's own funds and investments, and are shown on the books as belonging to the several trusts, estates and agencies.

We have formed an independent opinion as to the position of the Company, and according to the best of our information and the explanations given us, certify that the foregoing statements set forth fairly and truly the state of affairs of the Company. All transactions of the Company that have come within our notice have been within the powers of the Company.

Toronto, January 24th, 1920.

PRICE, WATERHOUSE & COMPANY.

GOVERNMENT AND MUNICIPAL BONDS

Edmonton Sells $3,000,000 Issue in Vancouver—Bonding Scheme Proposed for Irrigation in Northern Alberta—New Brunswick Will Make Loan Shortly—Manitoba Deal Postponed

CONDITIONS in the Canadian bond market remain unchanged. The exchange situation continues to be the dominating factor and no alteration is in sight. Municipal bonds are in demand, and it looks as though they will be for some time.

Bond dealers were somewhat surprised by the sale of $3,000,000 Edmonton tax arrears debentures. The price was 90.67, which is on about a 6.80 per cent. basis, and it is considered that, in view of present conditions, the deal could have been a great deal worse.

The following is a list of offerings of which mention has been made in this or previous issues:—

Borrower.	Amount.	Rate %.	Maturity.	Tenders close.
Greater Winnipeg Water District	$1,000,000	5½	20-years	Feb. 16
Woodstock, Ont.	100,000	5½	30-instal.	Feb. 16
Charlottenburgh Tp., Ont.	60,000	5½	20-instal.	Feb. 16
Dauphin, Man.	35,000	6	30-years	Feb. 20
Penticton, B.C.	75,000	6	20-years	Feb. 25
Renfrew County, Ont.	150,000	5	20-years	Feb. 18
Nokomis, Sask.	20,000	7	15-years	Apr. 1
*Victoria, B.C.	20,065	6	Various.	......

---

*Offered locally.

Nokomis, Sask.—Tenders will be received until April 1st, 1920, for the purchase of $20,000 7 per cent. 15-year electric light debentures.—W. A. Armour.

Renfrew County, Ont.—Tenders will be received until February 18th, 1920, by Robert J. Roney, county clerk, Pembroke, Ont., for the purchase of $150,000 5 per cent. 20-year debentures. The total debenture debt of the county is $232,769.

Victoria, B.C.—The city of Victoria has for sale the following debentures: $456.59, due 15th September, 1929; $3,000, due 15th September, 1930; $10,000, due each year, 15th September, 1931, to 15th September, 1938 (both inclusive); $6,608.93, due 15th September, 1939. The debentures bear interest at the rate of 6 per cent. per annum, payable half-yearly in London, New York, Montreal, Toronto or Victoria. The price is par and accrued interest, payable at Victoria, B.C.

Debenture Notes

Smiths Falls, Ont.—A by-law to raise $5,574 by debentures for sewer extensions has been passed.

Lachine, Que.—The city council plans filtration plant and waterworks improvement at the cost of $300,000.

Edmonton, Alta.—The fair board is asking permission to issue debentures to the amount of $150,000 for a new grand stand.

Kitchener, Ont.—Mayor Eden has announced that Kitchener debentures will be put on the market for local citizens to purchase about May 1.

Quebec Province.—A bill has been introduced into the legislature authorizing the provincial treasurer to issue debentures to an amount not exceeding $5,000,000 for the purpose of assisting colonization in the province. The house has already approved of the government's proposal to borrow $10,000,000 under the Good Roads Act, to supplement the $20,000,000 already spent.

Lethbridge, Alta.—Landholders in the northern Lethbridge district are asked to vote on the proposed bonding of land at the rate of $50 per acre in connection with the irrigation scheme. This rate is $10 over the previous estimate, explains Chairman G. R. Marnoch, of the Irrigation Development Association, which addition is necessary for the purpose of paying carrying charges for three years and other costs of organization.

Winnipeg, Man.—A by-law to raise $1,500,000 for ten new public schools and a high school to relieve the congestion in the Winnipeg schools will be put to the vote of citizens shortly, according to a decision reached at the Winnipeg School Board meeting this week. This will mean a great impetus to building activities. A recommendation from the finance committee to raise this amount by the issue of bonds was adopted, and additional accommodation of ninety rooms must be ready by September 1st to take care of the present overcrowded condition of Winnipeg schools. No provision had been made for expansion in school accommodation during the years of war.

Saskatchewan.—The following is a list of authorizations granted by the Local Government Board from January 2nd to January 26th, 1920:—

Schools.—Waterbury, $4,000 10-years 6 per cent. annuity; Avon Heights, $1,000 10-years 8 per cent. annuity; Wilcox, $24,000 20-years 6¼ per cent. annuity; Saskatoon, $210,000 30-years 5½ per cent. straight term; Flaxhill, $800 10-years 8 per cent. instalment.

Village.—Loreburn, $2,000 10-years 8 per cent. instalment, for drilling well.

Rural Municipalities.—Wallace, $3,000 10-years 6 per cent. instalment, for bridges and culverts; Estevan, $2,600 10-years 8 per cent. instalment, for municipal hall.

New Brunswick Loan Shortly

New Brunswick.—At a recent meeting of the provincial government an order-in-council was passed authorizing the comptroller-general to arrange for the purchase and refunding of at least £600,000 of the St. John and Quebec Railway debenture stock. If this amount can be purchased the government will reduce the public debt incurred by the construction of the railway by about $1,000,000. The outstanding amount of the stock, which is about £800,000, is guaranteed by the province, and was issued and sold in London, Eng., in 1912, bearing interest at 4 per cent.

By taking advantage of the low rate of exchange between Canada and the United Kingdom and the present market value of the stock at about 75, it is proposed to purchase and refund as large a portion of the outstanding amount as can be obtained at a favorable rate. In the last week the first purchase has been completed, and which netted a reduction in the debt of the province of $166,000. From time to time blocks of New Brunswick registered stock have also been purchased, and the result of all purchases to date by the government represents a decrease in the public debt of $240,000 in addition to the above amount.

A refunding bond issue will be made in due course and the people of the province afforded an opportunity to invest in tax-exempt provincial bonds.

Bond Sales

Saskatchewan.—The following is a list of sales by the Local Government Board from January 2nd to January 26th, 1920:—

Schools.—Wolff Valley, $2,000; Regina Public School Sinking Fund Trustees. Walton, $1,025; G. A. Ferguson, Stoughton. Chamberlain Village, $11,500; Great West Life Assurance Co., Winnipeg. Sunny Knoll, $2,950, Balmoral, $600, Canada Landed and National, Winnipeg. Duck Lake, $2,000; Cross, Jonah, Hugg and Forbes, Regina.

Villages.—Pelly, $1,000; W. L. McKinnon and Co., Regina. Kinistino, $1,000; H. H. Heycock, Regina.

Edmonton, Alta.—The city has sold the issue of $3,000,000 5½ per cent. 10-year consolidated tax arrear debentures to the National Bond Corporation, of Vancouver, at 90.67, which is on about a 6.80 per cent. basis. The city council voted to this effect last week. Alderman Martin opposed the sale, and declared that the city did not need the money till July, and he felt that a better price could be obtained, but the majority was in favor of the deal. The bonds are to be released in blocks, and the entire issue is to be taken up within sixty days. The city is to deposit the bonds and legal

Security and Income

should be the principle factors in your decision to invest. You can have absolute assurance on both points when you purchase Government or Municipal Bonds.

Just now these bonds can be secured at prices which make the income yield more attractive than the average.

INVESTMENT-SERVICE

To Investors with Vision

Next to the automobile industry the Motion Picture Industry of recent years has shown the most amazing growth.

The reason is clear. The appeal of the "movie" is universal, its interest never-ending, and its cost to patrons reasonable and therefore often repeated.

So it is that far-sighted Investors will vision both the security and profit offered by the 8% Cumulative Preferred Shares of Famous Players Canadian Corporation, Limited.

That is why there is an active and popular demand for these shares. Wire or write immediately for advance prospectus and terms.

opinion with the Merchants Bank of Canada, Vancouver, with instructions to the bank to release them to the buyers in blocks. Mayor Clarke stated that some of the outstanding notes could be taken up in February. Also, as the firm wanted delivery in Vancouver, it was assumed that the finance commissioner, and possibly the city treasurer, would take the bonds there. This would cost less than sending them by express.

Portage la Prairie, Man.—Messrs. W. L. McKinnon and Co., have purchased the $79,610 6 per cent. 20-instalment bonds at 99.05. They also purchased the $57,263 5½ per cent. 29-instalment bonds of the rural municipality of St. Anne, Man., at 93.85.

Manitoba Issue

Manitoba.—The arrangement to sell $2,498,000 of the province's bonds to a Toronto syndicate in January has fallen through. According to a statement of W. A. Mackenzie and Co., one of the members of the syndicate, the bonds were not in accordance with the order-in-council authorizing the issue. When this was discovered, Hon. Edward Brown left for the east, where further negotiations were carried on. It is understood that he has made arrangements to secure the money in New York, at a price which, in Canadian currency, would be about 105.

The province had bonds to the amount of $6,500,000 maturing in New York on February 1, and a heavy loss on account of exchange would have been incurred had money been sent from Canada to refund these securities. Temporary arrangements were made with banks, however, and an effort is being made to avoid the exchange difficulty. The treasurer and other members of the government have expressed themselves in favor of raising money within the province when possible. In this case, Mr. Brown stated that it would be necessary to give a rate of interest of at least 6 per cent. and it would also cost at least one-half of 1 per cent. to float the loan. This would not be as profitable to the province as the present method. Referring to the reissuing of the $6,500,000 loan within the province, he said that owing to the fact that the loan had to be met in New York, February 1 of this year, it would have been impossible to float the loan in time to meet the payment when the bonds matured.

RAILROAD EARNINGS

The following are the earnings of Canada's transcontinental railways for the first week of February:—

Canadian Pacific Railway

	1920.	1919.	Inc. or dec.
February 7	$3,298,000	$2,579,000	+ $ 709,000

Grand Trunk Railway

February 7	$1,178,184	$ 905,449	+ $ 272,735

Canadian National Railway

February 7	$1,545,473	$1,503,137	+ $ 42,336

CANADA TRUST COMPANY'S REPORT

Profits of the Canada Trust Co. for the year slightly exceed those of 1918, although Dominion, provincial and other taxes were over $7,000 greater than for the previous year. The reserve fund was augmented by $25,000, thus increasing it to $625,000, equal to 62½ per cent. of the paid-up capital of $1,000,000. The greater portion of the company's assets is composed of first mortgage securities which increased in volume in a gratifying manner during 1919.

At the New Year, a Toronto branch was opened in the Canada Trust Building at 14 King Street East. The company reports that prospects for future business are quite encouraging. A bond department has been established at this branch for the purpose of buying and selling high-grade bonds of government and municipal issues. J. Ross Mitchell, formerly with the Dominion Securities Corporation is manager of this department.

A new branch is shortly to be established in Chatham. In the city of Winnipeg the Canada Trust Co., which has outgrown its present offices, will soon share with the Huron and Erie Mortgage Corporation, the commodious ground floor offices in the Northern Crown Bank Building recently purchased by the Huron and Erie.

The following directors have been elected for the ensuing year: T. G. Meredith, K.C., president; F. R. Eccles, M.D., LL.D., and George T. Brown, vice-presidents; and Messrs. George H. Belton, H. S. Blackburn, Hume Blake, I. Campbell, K.C., John Cowan, K.C., H. E. Gates, Hume Cronyn, A. H. M. Graydon, N. R. Howden, F. E. Leonard, Hon. F. G. MacDiarmid, J. B. McKillip, R. O. McCulloch, Philip Pocock.

GOVERNMENT BOND QUOTATIONS

THE CONTINENTAL LIFE
INSURANCE COMPANY

Record Figures for 1919. Increases in Income and Insurance in Force Greater Than For Any Two Years Previous.

The financial statement for 1919 shows the largest increases in all departments, except that of mortality, of any year in the history of the Company, as follows:—

	1918	1919	INCREASE
Policies Issued and Revived	$ 2,946,762	$ 4,068,930	$ 1,122,168
Total Income	554,673	664,769	110,096
Total Insurance in Force	12,786,784	15,027,412	2,240,628
Increase in Amount Gained	755,633	2,240,628	1,484,995
Death Claims Accrued	150,120	88,470	(decrease) 61,650
Total Assets	2,515,305	2,727,457	212,152

It is interesting to note the large percentage of gains made in Insurance in Force, New Business Issued, and Total Income. Also the large decrease in Amount of Death Claims.

If contemplating the necessity of more Insurance, send for booklet, "OUR BEST ADVERTISERS"; then see our nearest Agent, or write to Head Office for full particulars, stating your age at nearest birthday.

NEWS OF MUNICIPAL FINANCE

London Assessment Increased $5,000,000—Winnipeg Overdraft of $2,000,000—Moose Jaw Estimates Increased —Saskatoon's Interest on Sterling Bonds

Meaford, Ont.—The finance committee has fixed the tax rate for the present year at 40 mills on the dollar, which is two mills higher than last year. The increase is due to the extra sum of money required by the school boards to pay the higher salaries demanded by the teachers.

Winnipeg, Man.—The city's overdraft on the Bank of Montreal now amounts to more than $2,000,000. The school board annual levy of $1,521,000 and the municipal commissioner's levy of $563,500 are the two largest sums charged up, totalling $2,084,500. Under the by-law passed last council meeting, the city is authorized to overdraw to the extent of $4,000,000. This sum will allow for current expenses until such time as the tax collections are made, when the overdraft will be taken up again.

Moose Jaw, Sask.—The 1920 civic estimates call for a net budget of $610,000 for the year. The net expenditure of the city for 1919 was $487,205, or $123,292 lower than the estimated net expenditure for this year. The 1920 budget of the school boards is $282,650, or $101,650 more than last year. With the assessment of 23 million dollars these two budgets alone will require a tax rate of 38.83 mills. To this must be added the two mills that is always levied for provincial government purposes, which will bring the public school supporters' tax rate up to 40.83 mills.

London, Ont.—The present total assessment of the city is given at $44,121,915, an increase of $5,000,000 over that of 1918. The taxable land assessment for the city is $17,017,027. The per capita assessment on land value is $287.94. Buildings are assessed in the city at $20,686,436. This does not include real exemptions from taxation valued at $6,869,507, with other exemptions given as $742,590. Value of real property in the city is given as $37,703,463 and the per capita average of real property owned is $637.96. The business assessment of the city totals $3,849,117. Income assessment amounts to $2,569,335. The average wealth of London per capita is $748.

Red Deer, Alta.—The annual report for the year ended December 31, 1919, shows that the city has reduced the floating debt by $8,000 since 1918, and has reduced the debenture debt by over $56,000 since 1914; all debentures and treasury bills, presented to date, and all public school demands have been paid. "In 1919 tax collections were the best in the history of the city, points out City Commissioner Stephenson, and we expect to do better this year. The tax rate for 1920 has been struck at 40 mills, an increase of 10 mills over last year. This will provide a surplus of over $20,000 to take care of uncollected taxes. We do not expect to issue any debentures or treasury bills this year. All our efforts for the past few years have been directed to reducing our debt and running the city with the minimum of expenditure."

Saskatoon, Sask.—Contrary to previous reports, the city will take advantage of the exchange situation in paying interest due in London. A statement has been issued by the city commissioner which reads as follows:—

"As approximately £20,000 is due in London for interest on consolidated stock the question arises whether the city should, as it did last year, take advantage of the low rates of exchange and forward to London at this date the necessary amount to cover payment on the 1st of April, or take a chance on the fluctuation of exchange. The saving which will be effected as compared with par of exchange is $18,133. There is a movement on foot at the present time to stabilize exchange between Canada and Great Britain, and if this is brought about before April 1 the city will stand to lose a large sum of money if it does not take advantage of the present rate of exchange."

ALBERTA COAL PRODUCTION

Alberta's coal production for 1919 is likely to reach a total of about 4,700,000 tons, it is estimated by John T. Stirling, chief of the mining branch. The complete figures will not be in hand for some time yet, but at the rate of production of the past few weeks it is thought that the end of the year will bring a total of about that volume. It will represent a falling off, as compared with 1918, of some 1,500,000 tons, accounted for by the fact that for four months of the year the mines of the province were idle because of a general strike. The output will be about the same as in 1917. Three hundred mines have been operated this year, including a number of new ones opened up in different parts of the mining field. Most of these mines are now in good running order, it is stated, the effects of the strike having been largely overcome. At Drumheller, for instance, the mines are working at capacity and are producing at present at the rate of 7,000 tons per day, which is the highest record they have ever made.

BRITISH COLUMBIA HAD CURRENT SURPLUS

Public accounts for the fiscal year ended March 31, 1919, were placed before the British Columbia legislature by the minister of finance a few days ago. Hon. Mr. Hart's statement was delayed owing to the fact that under the existing system the public accounts for any fiscal year are not issued until a year after that twelve months period elapses. It would be, he was sure, gratifying to members of the House to know that the government's administration of affairs has produced such a favorable outcome. The figures show that the current revenue for that year aggregated $10,931,279, and the current expenditures, $9,887,744. Outlays on capital account totalled $2,224,541, making a total expenditure for all purposes of $12,112,285. The estimated revenue was $9,900,055, and estimated expenditures, $9,882,552, so that actual revenue exceeded the estimated revenue by $1,031,224 and actual outlays were approximately $5,000 in excess of the estimate.

Revenues and expenditures were as follows:—

REVENUE

Department of Agriculture	$ 58,737
Department of Attorney-General	898,222
Department of Education	4,043
Department of Finance	6,609,830
Department of Fisheries	37,037
Department of Lands	2,831,615
Department of Labor	3,082
Legislation (Private Bills Fees)	3,365
Department of Mines	129,026
Department of the Procincial Secretary	278,978
Department of Public Works	43.087
Department of Railways	34,252
Total revenue	$10,931,279

EXPENDITURE

Public debt	$ 1,413,725

SEVENTY-FIVE YEARS IN TRADE

The Toronto Board of Trade celebrated its 75th anniversary on February 10. Many past presidents attended, and C. Marriott, president for 1920, reviewed the board's record. Hugh Blain, senior past president, mentioned the Toronto harbor development scheme, and the Dominion Board of Railway Commissioners, as two instances of the board's activities.

Reference was also made to the coming convention of overseas' chambers of commerce in Toronto, September, 1920. Sir James Woods said in this connection:—

"The chamber of commerce gathering in September will of itself make the year 1920 a momentous one for this board. The discussions of the board will be fraught with the greatest of interest for Canada and for the Empire. I believe that the board of trade of the city of Toronto is highly honored in having that congress here, and that we should do, and I know we will, do everything in our power to make it a complete success, and to see that this is the finest of all the congresses that have ever been held."

HUNTSVILLE BOARD OF TRADE

At the annual meeting of the Huntsville, Ont., Board of Trade on February 10, the following officers were elected: Hon. president, J. W. White; president, H. E. Rice; vice-president, W. J. Abraham; secretary-treasurer, Mackie Kinton. Council: A. C. Bernath, L. H. Ware, J. E. Fisher, Rev. A. A. Wall, A. G. Tipper, C. W. Ardell, J. C. Parker, A. E. McGregor, E. Basett, R. F. Grant and A. E. Callahan.

INVESTMENTS AND THE MARKET

International Nickel Profits Lower—Belding-Paul-Corticelli Presents Good Report—Asbestos Corporation Has Very Successful Year

Whalen Pulp and Paper Co.—During January the company produced 4,500 tons of high-grade pulp, 3,000,000 feet of lumber, 6,000,000 shingles and 200,000 boxes, the largest monthly production in its history.

Wayagamack Pulp and Paper Co.—At the annual meeting of the company on February 11th, the following directors were elected: Norman J. Dawes, G. H. Duggan, Hugh Mackay, K.C., Alex. Maclaren, Sir William Price, James W. Pyke and C. R. Whitehead. At a subsequent meeting C. R. Whitehead was elected president and James W. Pyke vice-president.

International Nickel Co.—Net profits for the nine months ended December 31st, 1919, after charges and war taxes, amounted to $1,799,957, compared with $5,072,458 for the same period of 1918. Gross earnings were $4,326,897 in 1919, compared with $10,988,140 in 1918. Administration and general expenses and United States and foreign taxes decreased by over $3,000,000 in 1919.

Paramount-Oshawa Theatres, Ltd.—Messrs. Goldman and Co. are offering an issue of $125,000 7 per cent. cumulative preferred stock of the company. The company has been organized to build a modern theatre at the corner of King and Victoria Streets, Oshawa, to have a seating capacity of 1,200. The price is $100 per share, each share carrying 25 per cent. bonus of common stock.

Southern Canada Power Co., Ltd.—The following is the earnings statement of the company for the month of December, 1919:—

	Dec., 1919.	Increase.
Gross	$57,184	$6,093
Operating expenses and purchased power	27,925	276
Net earnings	$29,258	$5,816

Belding-Paul-Corticeli, Ltd.—The annual report of the company shows net profits for the year, after deducting all items, including dividends on the preferred stock, amount to $210,353, as compared with $68,337 in 1918, this being equivalent to 28 per cent. earned on the outstanding common capitalization as compared with 9.1 per cent. in 1918, and 2.9 per cent. in 1917.

Current liabilities amounted to $649,876, and current assets to $1,500,216, leaving balance of working capital of $850,340, against current liabilities a year ago of $630,522, current assets of $1,395,169, and working capital of $764,647.

Detroit United Railway.—The annual report of the company, just issued, shows the close of a successful year. Net earnings from operation were $4,890,509, as against $4,255,678 in 1918, an increase of $634,831. Income from sources other than operating was $546,406, or $96,669 greater than similar income in 1918. Deductions for interest charges on funded and floating debts and for taxes amounted to $2,868,250, an increase of $257,419 over the similar item of $2,610,831 in 1918. From net income there was appropriated $2,150,000 for reserve, Federal taxes and dividends in contrast with $1,950,000 in 1918. The balance of net income offered to surplus account was $418,665, or $274,000 greater than the amount so transferred at the end of 1918.

British Columbia Electric Railway.—The annual statement of the company for the year ended June 30th, 1919, made public in London recently, shows that, after making provision for depreciation, sinking fund and renewals and addition to capital amortization fund, the ordinary net revenue from all sources amounts to £224,601, to which is to be added profit on exchange in remitting earnings from Vancouver to London and moneys formerly set aside for contingencies and now no longer required for such, £138,419, and the balance brought forward, £6,085, making in all £369,104. The directors recommend a dividend on the deferred ordinary stock of 3 per cent. for the year, and a bonus on the deferred ordinary stock of 3 per cent., leaving to carry forward £6,257.

Quebec Public Service Corporation of Quebec. — The second annual statement of the company shows earnings, after bond interest, amounting to $77,862, or slightly more than 4 per cent., on the company's $1,600,000 of capital. Gross revenue increased by $21,000 to $263,405, while operating expenses, including general expenses, insurance, taxes, offices, etc., increased by $10,000 to $160,000, leaving a balance of $102,862, as compared with $91,621 in 1918. After bond interest, amounting to $25,000, the balance at $77,862 compared with $66,621 the previous year. This, added to the 1918 surplus of $17,520, brought present surplus up to $95,382, which was apportioned as follows: To depreciation of plant, etc., $30,000; reserves for repairs to steam plant, etc., $11,000; reserve for income tax, $6,000; reserve for dividend, etc., $32,000; surplus carried forward, $16,382.

The corporation is a subsidiary of the Shawinigan Water and Power Co.

Asbestos Corporation of Canada.—The annual statement of the company for 1919 shows gross profits of $1,473,752, compared with $1,177,179 in 1918 and $506,522 in 1917. Net profits amounted to $1,008,072 in 1919, compared with $801,927 in 1918 and $253,789 in 1917.

Including the dividend on the common stock, which was begun at the end of 1918, and dividend on preferred, with bonuses, etc., the disbursement account to shareholders increased from $190,000 in 1918 to $530,000 last year. The deduction of dividends left the surplus account slightly more than $100,000 under the surplus at the end of 1918, the figures being $478,072, against $611,927 and against $93,789 in 1917. This, added to the previous surplus, from which was deducted $97,500 paid in dividends for the year end, brings present surplus up to $1,568,391, against $1,205,819 a year ago, the surplus now being equal to 22.7 per cent. on the combined preferred and common capitalization.

The current assets for the past year amounted to $3,480,831, against current liabilities of only $489,103, which represented a reduction of $80,000 from 1918. Current assets, therefore, show an increase of $660,000 over 1918 and of nearly $2,000,000 over 1917. In the corporation's balance, total assets showed an increase of, roughly, $390,000. Property account decreased by about $200,000, now standing at $8,749,548. On the asset side of the account, investments increased about $100,000, trust deposit by $36,000, inventories were reduced by $130,000, accounts receivable were increased by $52,000, and the cash item by $530,000. Investments amount to $1,613,923, cash amounts to $774,098, and inventories to $394,640.

WANTED.—Inspector for large English Casualty Company to cover Province of Ontario. Reply stating experience and salary expected to Box 271, *The Monetary Times*, Toronto.

RECENT FIRES

King's College, Windsor, N.S., is Destroyed—Heavy Losses at Halifax, Montreal, Moose Jaw and Port Arthur

Aurora, Ont.—February 5—Frame mill and storage buildings of the Baldwin Flour Mills on Wellington Street were destroyed. Cause unknown. Estimated loss, $40,000.

Campbellford, Ont.—February 9—Barns belonging to M. Mullhearn, with four motor cars, were destroyed. Loss partially covered by insurance.

Galt, Ont.—February 10—The Henry Block was damaged. The loss has been estimated at about $12,000, made up as follows: Loss to building, $2,000, covered by insurance; George Henry, grocer, $3,000, insurance $1,500; Robert Wilson, contents, $300, no insurance; I.O.O.F. lodge, $400, covered by insurance; J. C. Kreig, $2,000, covered by insurance; George Hudson, Hespeler Herald, $4,000, partly covered by insurance.

Halifax, N.S.—February 5—Two houses situated on Westmount Street were destroyed. One death. Cause, using oil in kitchen stove.

February 8—Building occupied by the Halifax Herald Co., Evening Mail Co., Sunday Atlantic Leader Co., and the Royal Printo and Litho., Ltd., was damaged. Estimated loss, $100,000.

Hantsport, N.S.—February 2—Candy and chocolate factory, owned by George H. Yeadon and Sons, on William Street, was badly damaged. Cause unknown. Loss covered by insurance.

London, Ont.—February 7—Egerton Street Baptist Church, situated at corner of Hamilton Road and Egerton Street, was destroyed. Cause unknown. Estimated loss, $50,000.

Lulu Island, B.C.—January 31—Barn at James McCullough's ranch, No. 19 Road, owned by Mr. Nelson, of New Westminster, was destroyed. Cause, explosion of a lamp. Estimated loss, $10,000.

Medicine Hat, Alta.—February 1—The Alderman Thomas Montgomery Block was damaged. Estimated loss, $1,000.

Montreal, Que.—February 4—Paint shop of the Blain Carriage Works was destroyed. Three deaths. Cause unknown.

February 8—Havelock Building, Union Avenue, occupied by the Rice studio, was destroyed. Cause, explosion of chemicals. Estimated loss, $25,000. Other firms who suffered loss were Bell's Galleries, Ltd., and the department store of Henry Morgan and Co., Ltd.

Moose Jaw, Sask.—February 9—The Moose Jaw Hardware building, occupied by J. E. Over's cigar store; Morrison and Blackwood, wholesale hardware; Moose Jaw Hardware Co. and F. Wilson, jeweller, was destroyed. Estimated loss, $50,000.

New Lowell, Ont.—February 10—Grain elevator, with several thousand bushels of grain, belonging to John A. Bell and Son, was destroyed. Cause, explosion of gasoline tank. Estimated loss, $13,000. Insurance carried, $6,000.

Port Arthur, Ont.—February 10—The Walsh Block was damaged. Estimated loss, $80,000. The principal sufferers were the Wright Furniture Co., the Dunn Hardware Co., Gavin Shoe Store and several offices.

St. Gervais, Que.—February 4—Presbytery, near the church, was badly damaged. Cause, presumed to have been from a defective chimney.

Toronto, Ont.—February 9—Premises occupied by the Walter Dean Canoe and Boat Co., owned by the Toronto Canoe Club, were badly damaged. Cause, presumed to have been from a defective wire. Estimated loss on building, $5,000; on contents, $10,000, covered by insurance.

February 10—Three houses and frame building, occupied by the Hope Sash Manufacturing Co., Hope and Banff Avenues, were damaged. Estimated loss, $45,000. Insurance carried on factory, $14,000. Gold Medal Manufacturing Co., College Street, was damaged. Estimated loss, $1,300.

Wolfville, N.S.—February 4—Building, including Delaney's hardware store, offices of the Western Union and the Telegraph Co., were destroyed.

Windsor, N.S.—February 5—University of King's College was destroyed. Estimated loss, $200,000. Insurance carried, $45,000.

ADDITIONAL INFORMATION CONCERNING FIRES

Belleville, Ont.—January 29—Residence of J. A. Beckley was damaged. Cause, thawing frozen water pipes. Estimated loss, $900. Insurance carried, $2,000.

Chesley, Ont.—February 4—Clothing stock belonging to Ross and Warmington was damaged. Cause, from stove in rooms above the store. Estimated loss, $8,500. Insurance carried in Mount Royal, Dominion and Merchants to the amount of $6,000.

Hull, Que.—The annual report of the fire department shows that the fire loss has increased by $11,000 over the figures for last year. This is due in the main to the big fire last summer which destroyed the Dorin Block on Main Street with a damage of over $11,000 and the loss of three lives, and two fires at the plant of the Hull Iron and Steel Foundries, the fire loss at which is placed at $34,031, of which $27,583 was covered by insurance.

Moose Jaw, Sask.—January 20—The per capita fire loss in Moose Jaw during 1919 was $1.51, as compared to $2.69 in 1918, $2.18 in 1917, and $2.75 in 1916, according to the annual report of Fire Chief George W. Baines. The total fire loss for the year was also greatly lower than in 1918, the building loss being $7,869 and the damage done to contents $22,386, a total of $30,255. In 1918 the loss in buildings was $24,654 and in contents $29,267, a total of $53,921. The average loss per fire was $444. The 1919 fire loss was 55 per cent. of the property at risk; in 1918 but 2.18 per cent. of the property at risk, and in 1917 4.78 per cent. of the property at risk.

Ontario.—The fire loss in the province for the month of November was $724,675, according to the fire marshal's report. The insurance loss was $606,050, and the loss not covered by insurance, $118,625. The total for the eleven months was $4,649,610; insurance loss, $5,692,746, and the loss not covered by insurance, $2,956,864.

Ottawa, Ont.—The total loss by fire in 1919 is placed at $174,280, but a large percentage of this amount is constituted in three large fires—viz., the McDougal's, Ltd., fire, where the loss was $38,355; the McGiffin fire $16,033, and the Shephard and Morse lumber yard blaze last summer $11,000. On the total loss, insurance to the amount of $3,506,343 was carried.

Quebec, Que.—January 16—Factory owned by Mrs. A. E. Hookes and occupied by Dombrowski Brothers, Ltd., was damaged. Estimated loss, $2,400. Insurance carried, $3,200.

Riceburg, Que.—January 10—Two barns, owned by Ernest Fournier, together with stock and implements, were destroyed. Cause unknown. Estimated loss, $5,525. Insurance carried, $1,300.

Vancouver, B.C.—Fire Chief Carlisle has submitted the following report of fire losses for the month of December, 1919:—

The total loss sustained by fire for the month of December was $27,907, of which amount $27,317 was covered by insurance, leaving the property loss above insurance at $590. The total value of the property at risk was $756,322.

The following shows the cause of fires: Backfire, carburetter, 2, carelessness with cigarettes 1, defective chimneys 4, defective stovepipes 1, electric iron left on switch 1, electric origin (defective wiring, short circuits) 5, false alarms 11, firecrackers 1, gasoline (carelessness with) 3, gas exploding in chimney 1, gasoline torch exploding 1, hot poker placed in wooden box 1, matches left in clothes near radiator 1, overheated stovepipes 1, rubbish fires 1, sparks (flying) 3, spontaneous combustion 2, thawing water pipes with blowtorches 7, thawing water jackets (ranges) 3, unknown 5.

Coming Session Has Many Problems

Political Developments Anticipated—Union Party Must Have Solid Platform and Active Leadership to Survive—Direct Taxation, the Tariff and Labor Questions Are Among Subjects for Legislation

(Special to *The Monetary Times.*)

Ottawa, February 19, 1920.

PARLIAMENT will open in another week under peculiar and interesting circumstances. The prime minister will be absent and in his place will be an acting premier without his authority; back of him will be a more or less divided and restless party. The government has been weakened since the last session by the loss of two of its strongest members, Hon. F. B. Carvell and General Mewburn, while there is good reason to believe that before the house opens there will be the announcement of the retirement of a third. The house is opening on a session which, from the standpoint of political excitement, has infinite possibilities. However, there is no use predicting what will happen. For the past three years political prognosticators at the opening of parliament have confidently announced that the government was on the point of dissolution and that it could not possibly last out the session. It has wound up each session possibly stronger than at the opening.

Parliament Buildings Not Ready

Parliament will meet in the new buildings. Unless miracles are performed in the next week, the conditions will be far from comfortable or satisfactory. A small army of workmen are strenuously endeavoring to get a semblance of order and to smooth out the ragged edges of an uncompleted contractors' job, but at best the two chambers will meet amid the grime and dust and noise of work. It cannot be otherwise unless the contractors' cease all operations as long as the house is in session. It is candidly admitted now that a huge mistake was made in moving into the new building this session. It will be two years yet before the contractors and architects hand over a completed job to the government.

Union Platform May be Presented

This session will, undoubtedly, see a final decision as to the future of the Union party, and as to the selection of a leader. Both Liberal and Conservative Unionists are demanding that some decision should be reached. It is realized that the present unsatisfactory conditions cannot long prevail. The first question to be settled is that of a platform. The great trouble with the government at present is that it has no policies. No one is sure just what it stands for, and a party as well as an individual without guiding principles, is steering for the rocks. It is understood that the cabinet has been working on a platform which may be submitted to an early caucus.

Tariff May be Chief Issue

On most questions there will be little difficulty in reaching an agreement. The stumbling block, if any, will be the tariff. However, the majority of the cabinet and probably the majority of the government's parliamentary following, are apparently prepared to unite on a policy of moderate protection, with a tariff revised after careful inquiry, upon scientific lines with a view to protecting our industries and raising revenues and yet not extending special privileges to any industries. Hon. Arthur Meighen has been making speeches along these lines, and while he was probably voicing only his own personal views at the time, as far as can be learned, it is about the opinion of the majority of the government. Such a policy will not satisfy extreme protectionists or some of the government's western following. The former will make a group of their own and the latter will probably be driven to join the cross-benches. If the platform is not acceptable to the government caucus, then disintegration will rapidly follow and the old Conservative party will be resurrected.

Government Leader Also Uncertain

The platform approved, the next question will be that of leader and this is even more involved. Of course, until Sir Robert Borden actually retires, nothing can be done. It is rumoured that his resignation is all written out ready to be handed to the Governor-General if so desired. When he left Ottawa his health was such that not even his closest and best friends ever expected to see him in his office again. He is reported, however, to be much improved in health and if the cabinet and the party fail to agree on a leader and at present there is no Elisha in sight, he may remain at his post. Whatever happens, unless there is a real crisis, he will not be in Ottawa this session.

Finance Minister's Policy

Interest of the session will, of course, centre around the budget speech, both from a political and business standpoint. It will be the first budget of Sir Henry Drayton and will be one of the most important in the history of the country. Sir Henry, from the time he took the portfolio, has taken the stand that the first essential was strict economy and that current expenditure and revenue must balance. Revenues for this past year have been buoyant and will run nearly $350,000,000. The estimate for the coming year will not be less. This means that expenditures will have to be kept to this sum if there are not to be heavy borrowings. With fixed expenditures running to some hundred and fifty millions or more through interest, pensions, etc., it is no easy task to pare the expenditures down to this sum. Salary increases will run into millions, while the government service is constantly expanding. The estimates have been sent back a couple of times for revision and the ministers are still worrying with their officials on the subject.

It is intimated that there will be no drastic tariff changes this session. Until the party adopted some policy this is self-evident. Here will come the big tug of the session as the cross-benches led by Hon. T. A. Crerar are certain to call for a general revision downwards, while in view of the Liberal platform, Hon. Mackenzie King cannot sit quiet.

Income and Business Profits Taxes

There is much interest as to whether the business profits tax will be retained, the income tax increased or new taxation imposed. There is much guesswork at Ottawa, but it is nothing but guesswork and the chances are that nothing will be known definitely until Sir Henry makes his budget speech.

There will be labor legislation this session. How important it will be is hard to say. It is intimated that there will be some sort of naval program, although this will be submitted to caucus for approval. It is not believed it will be an extensive program for the present. It is possible some German ships, dry docks, dredges, etc., may be turned over to Canada. It is correct that they have been offered.

Manitoba Assessment and Taxation Commission

Report to Government After Hearing of Much Evidence Recommends Numerous Reforms—Income Tax on "Ability to Pay" Basis is Favoured — Want More From Dominion — Permanent Commission Proposed.

ADMINISTRATION of assessment law by a provincial commission is probably the most important recommendation of the Manitoba Assessment and Taxation Commission, which has just presented its report to the government. Other features of the report are recommendations favouring an income tax for cities, towns and villages, a business tax levied on net profits, a heavier succession tax on large estates and abolition of the amusement tax. The commission also recommends that the poll tax be abolished and that a levy be substituted for statute labour in rural municipalities. It is strongly urged that the establishment of municipal rural school boards be made compulsory instead of optional. In the matter of tax exemptions, it is recommended that the exemption of church property in urban municipalities be limited to the church building itself and the land upon which it stands; and that the exempted portion be liable to be sold along with the non-exempted portion of the site for arrears of taxes upon the latter; also, that in the case of creameries and cheese factories the exemption be limited to $5,000; and that hereafter no exemptions of any kind can be granted by municipalities without a vote of the ratepayers as on money by-laws.

The Manitoba Assessment and Taxation Commission was appointed on July 26, 1918, and held sessions to receive evidence in various parts of the province. It was composed of eighteen members, representing the government, the city of Winnipeg, Manitoba university, and other interests. The report is signed by only twelve of the members, including E. M. Wood, deputy municipal commissioner, who was chairman.

Summary of Report

The recommendations, as summarized by the commissioner, are as follows:—

1. That except as may be hereinafter provided, the present incidence of municipal taxation in the province be not altered.

2. That all real property in the province be assessed. Land at its value; buildings and other improvements at two-thirds of their value. (a) Land, as distinguished from buildings, shall be assessed at its value at the time of assessment. (b) In the case of land having buildings thereon, the value of the buildings be the amount by which the value of the land is thereby increased. (c) In assessing land having buildings thereon, the value of the land be set down in one column. In another the sum representing two-thirds the value of the buildings. The value of the lands and buildings together to form the total assessment of the property.

3. That in urban municipalities, comprising cities, towns and villages, the basis of taxation shall be:—(a) The assessment value of real property. (b) Business. (c) Income. (d) Special franchises. (e) Licenses.

4. That in rural municipalities taxation be on the assessed value of land only, in the case of farm land; and on the assessed value of both land and buildings and on net profits of business and on incomes, in unincorporated village areas in rural communities, where lands are not used for purely agricultural purposes.

5. That for the purpose of widening the base of taxation an income tax be introduced in the urban municipalities of the province, as well as in those portions of rural municipalities having urban characteristics. The tax to be on all incomes of persons over certain fixed amounts.

6. That for the period of at least one year, the prevailing provisions regarding the imposition and collection of the business tax and the personal property tax be continued, and that thereafter, as soon as possible, the tax imposed and to be collected in such cases, be on the basis of net profit of business.

7. That a tax commission be constituted at the earliest possible date, with sufficiently wide powers as will enable said commission to fully and effectually perform its functions, comprising in part:—(a) The active co-operation with local assessors, not including cities, respecting the preparation of municipal assessments with the view of improving the same. (b) The administration of any income law that may be enacted; also that relating to a business tax. (c) The preparation, whenever required, of equitable equalized assessments relating to the several municipalities of the province, upon which to fairly apportion between municipalities the annual statutory levies of the municipal commissioner.

Provision for Road Improvements

8. That the statute labour provisions of "The Assessment Act" be repealed and that there be substituted therefor the power, and only the power, to rural municipalities, to levy for a limited amount annually against all ratable property within their respective limits for expenditure on road improvements where most needed in the opinion of councils.

9. That the poll tax provisions of "The Assessment Act" be absolutely abolished at the end of the year 1920.

10. (a) That the School Act be amended making the taxation unit for rural schools correspond in area with that for municipal purposes. (b) That the establishment of municipal rural school boards be made compulsory instead of optional (as is now the case) throughout the entire organized rural portions of the province. (c) That in the election of trustees to said boards, a fair method be provided to govern in all cases. (d) That when school districts provide the plant equipment for secondary education, the departmental grants to such be equal to, or at least 80 per cent. of, the entire cost of operation.

11. That the exemption of church property in urban municipalities be limited to the church building itself and the land upon which it stands; and that the exempted portion be liable to be sold along with the non-exempted portion of the site for arrears of taxes upon the latter.

Tax Exemptions

12. (a) That in case of creameries and cheese factories, the exemption provision contained in "The Assessment Act" in such cases be restricted to $5,000 of the assessed value thereof, and that they be taxed on any excess capital over that limit. This provision to be applicable to all existing creameries and cheese factories in the province. (b) That

hereafter the power of municipal councils to exempt property of any kind from taxation be conditional upon the by-law or by-laws being first submitted to and receiving the assent of the duly qualified ratepayers, as in the case of money by-laws.

13. That as regards the apportioning of the cost of sewers, sidewalks, pavements and street openings, effect be given in such cases as outlined in our report under the heading "Local Improvements," believing that the suggestions offered will result in an equitable distribution in such cases of the charges in proportion to the benefits received.

Lands Sold for Taxes

14. That in connection with applications by municipalities for titles to lands purchased at tax sales, the procedure be simplified, and the cost reduced in such cases in land titles offices.

15. That the provisions of sections 129 and 144 of "The Assessment Act" be amended so as to do away with suit and distress for taxes in cases where the owner of land has a title thereto in fee simple.

16. That "The Succession Duties Act" be so amended as to ensure greater revenues from larger estates.

17. (a) That we approve of the following as being proper sources of provincial revenue:—Corporation taxation, railway taxation, succession duties tax, supplementary revenue tax, unoccupied lands tax, automobile tax, the amusement tax. (b) As regards the amusement tax, we recommend that this form of taxation be abolished so soon as the government sees its way clear to substitute other sources of revenue to take its place. (c) That the annual revenue from automobile licenses be earmarked for expenditure upon roads constructed under the provisions of the Good Roads Act.

Investments and the Market

Shredded Wheat Gross Earnings Increased -- Laurentide Power Company's Income Reduced—Shawinigan Power Earned 7.3 Per Cent. on Common Stock -- Gain in Receipts of Mackay Companies Offset by Higher Operating Expenses—William A. Rogers' Report Reflects Recovery

Dominion Power and Transmission Co.—At the annual meeting of the company in Hamilton on February 16, gross earnings were reported as $3,477,386 and operating expenses $2,287,704. The surplus earnings were $700,750. Col. J. R. Moodie, president, said that the company expected to increase its waterpower development to 135,000 horse-power. The following directors were re-elected: Sir John Gibson, Col. J. R. Moodie, James Dixon, W. C. Hawkins, Lloyd Harris, Charles E. Neill, C. A. Birge, W. E. Pinn, Robert Hobson and John Dickenson.

Shredded Wheat Co.—The financial statement of the company just issued shows that gross earnings in its last fiscal year exceeded $2,000,000 and the net $1,378,450. The latter was an increase over the previous year of more than $450,000. The balance sheet shows a gain in cash of some $22,000, a decrease of about $240,000 in the amount invested in securities and a corresponding increase in the amount invested in subsidiary companies. The surplus shows a gain of nearly $470,000 as a result of the year's operations. Investments in stock showed a decrease of nearly $250,000, as compared with the preceding year, while investments in subsidiary companies increased over $250,000. Total assets in 1919 were $11,691,207, as compared with $11,433,623 in 1918. Reserves increased nearly $100,000 last year.

Shawinigan Water and Power Co.—The financial report of the company for 1919 has just been issued, and shows that earnings on the common stock of $20,000,000 amounted to 7.3 per cent., as compared with earnings on the $16,342,500 common stock in the preceding year of 8.8 per cent. Gross earnings increased about $100,000 to $3,727,045, expenses increased $10,000 to $1,296,187, leaving a balance after depreciation and reduced bond interest of $1,473,743, as compared with $1,410,093 in 1918. The surplus after dividends and reserves amounted to $12,841, which added to the previous surplus of $17,710 brings present surplus up to $30,551.

The balance sheet of the company shows that the capital stock has been increased from $16,342,500 to $20,000,000. The $3,582,900 notes have been retired, and there is a slight increase in general reserves, including sinking fund reserves. On the assets side of the balance sheet there is a small increase in property account, also in the value of transmission lines, machinery, etc., and accounts receivable are down over $1,300,000 to $1,571,379, while the cash item has increased by $220,000 to $525,228. On the liabilities side of the account, accounts payable are $220,000 lower at $730,224.

In speaking of the financial position of the company, President J. E. Aldred stated that both note issues and the entire issue of debenture stock has been retired, and that there remained outstanding only the amount of the newly authorized bond issue, and something less than $4,000,000 of the original issue of first mortgage bonds.

Mackay Companies.—The annual report of the company which was presented to shareholders at the annual meeting at Boston this week, showed receipts of $5,021,094, compared with $4,695,496 in the previous year. This gain in revenue was almost entirely off-set by higher operating expense, which amounted to $644,883, as against $301,120. Dividends amounting to $4,355,988 were paid, compared with $4,388,677, and the balance carried forward was $20,223, compared with $5,698. The balance-sheet shows total assets of $93,324,774, compared with $93,304,551. In accordance with the usual custom of the company, no details are given beyond the statement that investments comprise $93,294,192, and cash $30,581 of the assets. The liabilities are: Preferred shares, $50,000,000; common shares, $41,380,400, both unchanged from last year; and surplus, $1,944,374, compared with $1,924,151. A change has been made in the trustees. The Canadian trustees now are Lord Shaughnessy and Sir Edmund Osler. It is understood that Sir Vincent Meredith has resigned.

President Clarence H. Mackay, in his report, reviews the relations between the Mackay Companies and the United States government with reference to the government operation of telegraph, cable and telephone systems during a part of the year. The dispute over the earnings of the telegraph and telephone systems has been considered closed, and the company does not intend to report its cable earnings and expenses.

Ritz-Carlton Hotel Co., Ltd.—At the annual meeting of the company in Montreal, President Chas. R. Hosmer, in his address to shareholders said:—

"The improvement in the receipts of the hotel, which started at the time of the declaration of the armistice, continued throughout the current year, and, although the cost of conducting the business in every department was largely increased, the net results must be considered satisfactory. Your directors, believing that the hotel was firmly established on a paying basis, entered into negotiations with the holders of the first and second mortgage bonds, the interest upon whose securities has not been paid for some years, resulting in an agreement being made by which the holders of the first mortgage bonds of the company would receive second mortgage bonds to cover interest on their securities from the 1st of December, 1913, to the 30th November, 1918, and a cash payment to cover the interest due on the 1st June, 1919,

(Continued on page 58)

TRADE AND COMMERCE OVERSEAS DEPARTMENT

Succeeds Canadian Trade Mission in London—W. C. Noxon and Harrison Watson are Chief Officials—Purposes of the Branch

THE Canadian Trade Mission in London, England, has been succeeded by a special trade commission, which will be a branch of the Trade and Commerce Department, and will be under the direction of W. C. Noxon, who was chief assistant under Lloyd Harris. With Mr. Noxon will be associated Harrison Watson, chief trade commissioner in the United Kingdom, who will co-ordinate the work of associated trade commissioners with the overseas branch.

It will not be the duty of the overseas branch to make sales or purchases or negotiate contracts for individuals or corporations. This must be left to their own resources and efforts. The aim of the overseas branch will be:—

1. To provide a convenient commercial meeting-place for Canadians visiting London for business purposes, where they will be made welcome and can find men ready and willing to give them advice and information.
2. To have at hand full and permanent information as to conditions of trade, openings for business, demands for Canadian supplies and possible contracts; to facilitate conferences with business firms, manage introductions to business houses and in every legitimate way aid Canadians to extend trade.
3. Conversely, the overseas branch will be a Canadian bureau of business information as to Canadian products, where persons desirous of doing business with Canadians may find ready answers, careful directions and sound, reliable counsel.
4. To give reasonable and uniform publicity to Canadian resources and productions and opportunities.
5. To establish a wideawake and efficient commercial liason office between Canadian producers and world buyers in London, and to that end the overseas commercial branch in London will keep in close touch with the commercial intelligence branch of the Department of Trade and Commerce.

It is emphasized that the trade mission was designed to fill an emergency, and was never intended to operate permanently on the basis laid down for its temporary activities. The chief business of the mission was to procure contracts for Canadian producers, supervise them and distribute them in Canada. A small commission was charged to the parties receiving the contracts. This feature will disappear. It is considered inadvisable and impracticable on the part of a government in the normal processes of purchase and sale. Under the new system, the activities of the whole body of Canadian trade commissioners in Europe will be linked up.

WESTERN ASSURANCE BUILDS UP RESERVE

An increase in the fire business, but a large reduction in marine business is indicated by the report of the Western Assurance Co. for 1919. Fire premiums were $3,286,282, compared with $3,213,537 in 1918, and the marine were $2,024,105, compared with $3,298,193. Interest and rents increased by over $40,000, and $2,312,911 was brought forward from 1918, as against $1,920,911 brought forward into that year's account, but the total income for 1919 is $5,533,994, a reduction of $1,100,000 compared with last year. Reductions in losses, however, more than offset these differences. In the marine department the losses and expenses for 1918 had been more than the premium, but this year they are slightly less. Fire losses have also been reduced, and total income for both lines exceeded expenditure by $770,000.

Most of the large balance in profit and loss account is now set aside as unearned premium, to the amount of $2,436,199. Dividends were paid on the preference stock, $125,000 provided against unreported losses, and a balance of $365,097 carried forward.

Assets show an increase from $7,157,538 to $8,337,953, mainly in additions to holdings of securities, and in agents' balances. The reserves formed by transfer of funds from profit and loss are now, of course, shown on the liability side.

LONDON GUARANTEE HOLDS STAFF MEETING

The London Guarantee and Accident Co. has started a series of talks between the male members of the head office staff in Toronto, with a view to closer co-operation along educational and administrative lines. The first meeting of this kind was held on January 16th. The general manager, George Weir, recounted a remarkable development in the business of the company during the past ten or twelve years and also outlined certain aspirations and ambitions for the future. After his address he called upon members of the staff to freely express their views and comments incidental to the further progress and efficiency of the company.

BRITISH-AMERICA ASSURANCE CO

Total income of the British-America Assurance Co. for 1919 was $3,813,169, exceding expenditure by $390,740; the corresponding excess in 1918 was $251,345. Fire, hail and automobile premiums have been increased from $2,798,291 to $2,924,327, and losses and expenses on the other hand have been reduced by over $50,000. The greatest changes are in the marine department, however, where premiums were cut down to $775,893, from last year's figure of $1,211,503, and losses and expenses to $964,056, from $1,347,120.

A balance of $1,525,268 brought forward from 1918 has been increased to $1,772,144, after paying dividends on preferred stock, and providing against unreported losses and taxes. Apart from this, there is very little change in the balance sheet. Cash on hand and holdings of bonds have been increased, while agents' balances show a reduction.

STANDARD BANK MAKES GOOD SHOWING

Profits of $776,310 are reported by the Standard Bank for its financial year ended January 31, 1919, compared with $697,443 for the preceding year. Adding a balance of $227,326 brought forward from 1918, a total of $1,003,637 was made available for distribution. Dividends at 13 per cent. required $455,000, $25,000 was contributed to officers' pension fund, $75,000 applied to reduction of bank premises account, $35,000 set aside for war tax on bank note circulation, and $45,000 for Dominion income tax. This leaves a balance of $360,000 carried forward into the current year.

Assets have increased by approximately $10,000,000, to $93,405,405, an increase of $7,000,000 in current loans representing most of the difference. On the liabilities to the public, circulation and demand deposts show a little growth, but savings deposits rose from $42,563,695 to $49,940,378. Acceptances under letters of credit are $1,726,921, against $272,259 on January 30, 1919. Paid-up capital remains at $3,500.000 and reserve at $4,500,000, the surplus profits being carried forward as such.

GOVERNMENT BOND QUOTATIONS

The following quotations of active bonds are supplied by the National City Co., Ltd., and are in New York funds:—

	Bid.	Offered.
Anglo-French 5% (Oct. 15, 1920)	94¼	94½
United Kingdom 5½% (Nov. 1, 1921) ..	93⅜	93⅝
United Kingdom 5½% (Nov. 1, 1922) ..	90¾	91¼
United Kingdom 5½% (Aug. 1, 1929) ..	90⅝	91⅛
United Kingdom 5½% (Feb. 1, 1937) ..	85¾	86
City Paris 6% (Oct. 15, 1921)	89¾	90¼
French Cities 6% (Nov. 1, 1934)	90	90½
Dominion Canada 5½% (Aug. 1, 1921)	96⅝	97⅜
Dominion Canada 5½% (Aug. 1, 1929)	92¾	93¼
Russian Govt. Ext. 5½% (Dec. 1, 1921)	27	30
Russian Govt. Ext. 6½% (July 10, 1919)	27	30
Swedish Govt. 6% (June 15, 1939)	91	92
French Govt. 4% (Jan. 1, 1943-44)	52	53
French Govt. 5% (Jan. 1, 1931)	63	64

PROTECTION TO MORTGAGE LENDERS

LEGISLATION aimed at protecting Alberta borrowers has retarded development in that province, by preventing the investment of new capital in mortgages. This is the contention of mortgage lending institutions, and numerous cases of loss incurred because of this legislation indicate that the new regulations for the collection of such loans when due are not satisfactory. Funds for investment will naturally seek the protection of laws which enforce the fulfilment of contracts, and which empower the lender to take such steps as are recognized as necessary to protect him against defaulting borrowers.

In his address as retiring president of the Calgary Board of Trade, William Toole, who is honorary president of the Mortgage Loans Association of Alberta, referred to the injurious effects of such measures, and also pointed out that the new procedure must be observed by private lenders as well as by the companies.

The feature to which objection is particularly taken is that referring to the personal covenant, which is the part of a mortgage enabling the mortgagee to proceed against other property of the mortgagor if the pledged security is not equal to the amount of the debt. The provincial attorney general, Hon. J. R. Boyle, as quoted in *The Monetary Times* last week, maintains that lenders have not lost this protection. In a later interview, however, he intimated that some modification in the law might be made to provide for exceptional cases, and that the government would likely introduce the subject into the house.

Mortgage companies take a different view as to the security now afforded. In an interview with *The Monetary Times* this week, the president of the Dominion Mortgage and Investment Association said:—

"Literally, Mr. Boyle's statement is quite true, but he does not go far enough. He states 'there is no province, state or country in the world where the personal covenant of the mortgagor is more binding and valid than in Alberta. The legislature has never interfered so as to release the mortgagor from his personal obligation to pay.' That is quite true, but while the obligation to pay remains the legislature interfered by laying down new statutory conditions applicable to existing contracts, and the government of which Mr. Boyle is a member, countenanced procedure, which made it practically impossible for the mortgagee to exercise the remedies given to him by the mortgage contract made in compliance with the statutes of Alberta prior to April 19th, 1916.

"The result of such legislation which Mr. Boyle laconically terms, 'settling the court procedure in foreclosure on sale under a mortgage' is that mortgagees have greater difficulty in recovering overdue advances in Alberta, than in any other province of the Dominion. This condition is not due altogether to the inability of the debtors to pay, or to general conditions, but to the shelter which that province's legislation affords those who are unwilling to pay so long as they can take advantage of that shelter. The 'personal covenant,' or the obligation to pay, is not eliminated by the text of the statute, but its practical value from the mortgagee's standpoint is certainly eliminated. No one realizes the truth of this better than mortgagees who have attempted to secure the payment of advances long overdue.

"We cannot, of course, speak as to all the so-called 'false statements' to which Mr. Boyle referred, but a large number of statements which have come to our notice, have been without exception substantially accurate. It is very regretable that Alberta's credit should have been damaged by legislation which Mr. Boyle sponsors, and for which there was no call, or condition, which justified it.

"Let us give you one example which has been brought to the attention of our association. A loan of $1,000 was made on a store building in Alberta in 1910. In 1917, the loan being overdue, the lender was compelled to take action, but sale proceedings proved abortive. The lender's solicitors in Alberta advanced the opinion that under the amendment to the Land Titles Act, foreclosure proceedings could be taken to obtain title to the property, and then for any balance due, the debtor could be sued. The solicitors stated that while they believed they would be successful in such a course, no such action had at that time been tried. Instructions were finally issued to commence suit, but before action had gone very far, the last amendment to the Act had been passed, under which the taking of title was made tantamount to full settlement of the debt. The debtor was considered quite able to pay the $1,200 due, but as further litigation was regarded as hopeless, the property was sold for $500, and the mortgagee on this small loan lost $700. This is not an exceptional case, and represents a loss to a lender due entirely to interference by the Alberta legislature in the terms of an existing contract."

EXCEPTIONAL INVESTMENT OPPORTUNITIES

THROUGH an unusual combination of factors, Canadians are offered a wide range of investments at bargain prices. In the United States the prices of securities are, of course, still lower, by approximately the amount that it costs to send money there, for the markets in that country for stocks, and to a lesser degree for bonds and mortgages, controls the market here. Nevertheless, it can safely be said that, apart from temporary periods when near-panic conditions reigned, the opportunities have never been so favorable in Canada.

Governments, municipalities and corporations, after keeping out of the market so far as possible during the war years, have found it necessary to borrow to meet maturing obligations and to keep up with the demand for new works and larger production. The war loans floated on an attractive basis and with the assistance of a patriotic appeal, effectively drained the supply of funds for high-grade securities. The most important factor in depressing prices of securities in recent months has, however, been the low rates prevailing for exchange on European countries. This has made possible the repurchase of large amounts of bonds and stocks held there, brokers being able to offer the owners a good price, sell here at a low figure, and still reap a substantial margin of profit.

Bonds of the Dominion of Canada are offered in the market to yield from 5¼ to 6 per cent. While the tax-exempt war loans have advanced to a premium, compared with the issue prices, there is still a good demand for them, because of increasing income taxes. The higher yielding bonds are those issued by railways and guaranteed by the Dominion, but the attitude of the government on the railway question makes it certain that these obligations will be fully recognized. Many of these bonds have been brought over from Great Britain, as well as bonds of the provinces and municipalities, which have also been forced to come into the market for new borrowing. While some of the provinces are threatened with large contingent liabilities, and quite a number of municipalities are in financial difficulty, yet the great majority of these bonds are unquestionably secure. The market for corporation bonds has also been depressed by the exchange situation, and 6 to 7 per cent. may be obtained on the best.

These are the securities of the highest standing. Coming to stocks, the opportunities are less promising, because of the probability that a decline in commodity prices will seriously affect industrial profits. The stock markets have, as a matter of fact, been going down for some months past, and there is a general tendency to liquidate stock holdings and reinvest in securities of assured income. While a decline in costs of operation should be beneficial to public utility corporations with comparatively fixed business and revenue, the business depression which must accompany such a decline would be distinctly unfavorable to other industries.

Speculation in European exchange is also going on to a considerable extent. Tempted by sterling at 75 per cent. of its par value, francs at 65 per cent., and lire and marks at still lower figures, there are many private investors buying to hold for some time. The readjustments in trade which these rates are bound to bring, certainly should restore the exchanges more nearly to their normal levels.

EDUCATING THE PUBLIC ON BANKING

THE safety, stability and excellent service rendered by the Canadian banks were emphasized by Frank Pike, manager of the Merchants' Bank in Edmonton, Alta., in an address before the Women's Institute of that city in January. "It is an easy thing to destroy and tear down," said Mr. Pike in his opening remarks, "any ignorant, indolent or insane person can do it, and there never was a time when saneness and common sense were more needed than at present. The essential stimulus of unrest is misunderstanding, and I doubt if there is any institution more abused or more misunderstood than the banking system of Canada."

Mr. Pike then described the operations of banking in Canada, showing how legislation and banking practice protected the depositors and note-holders. He also outlined the procedure for organizing a new bank. To illustrate the fact that the banks are really institutions of the people, the speaker said:—

"The proprietors, or owners, of a bank are not a few wealthy capitalists,—on the contrary, bank shares usually represent the savings of hard-working, thrifty, honest people. To illustrate this, I would like to use as a reference the Merchants Bank of Canada, as I know more about this institution than any of the others. It is owned by 2,700 shareholders, more than 50 per cent. of whom are women or executors of estates who hold shares in trust for widows and orphans. The average number of shares held by our shareholders is 26, with a par value of $2,600. The highest number of shares held by any one shareholder is 1,750, and we have only three or four shareholders who hold 1,000 or more shares. It cannot be said that an institution is owned and controlled by capitalists, whose shareholders number 2,700, and their average holdings only 26 shares. It will also probably be a surprise to you to know that the large total of our deposits belongs to so many thousands of depositors that the average holding is only about $500. Surely such shareholders and depositors are not capitalists; therefore, it would be most unfair to accuse us of being prejudiced in favor of great capitalists."

Such misunderstanding as that to which Mr. Pike refers, and to which other financial institutions as well as the banks are subject, is regrettable. A policy of too great secrecy is partly responsible for it, but it is only an illustration of the public tendency to view with suspicion all large institutions, including governments elected by popular vote. In any case, bankers have now an excellent opportunity to perform a public service by availing themselves of opportunities such as that presented to Mr. Pike, to help remove misconceptions like these.

THE RENTAL VALUE OF PROPERTY

REDUCTIONS in the value of the dollar have made it necessary for property owners to seek compensation in higher rentals. Nevertheless, the fact that rents, and therefore property values, should rise in accordance with the increases in commodity prices, has not been generally recognized. Looking upon such increases in rents as unfair, associations of tenants have been formed in several Canadian cities. In Montreal, there is a Tenants' Protective Association, and in Quebec, on February 12th, a similar organization was formed for that city. Agitation against the attitude of landlords in Winnipeg and in Toronto has also resulted in organized action in those cities.

These associations are interesting in so far as they are examples of consumers' unions. Just why such movements should be directed against rentals rather than against commodity prices, where the increases have been much greater, is not apparent. There is a view that interest return on investments of this kind should remain fixed, in spite of the fact that the purchasing power of such return has been greatly reduced. Property values do not determine rentals, but are arrived at by capitalizing net return at the current rate of interest. Rentals, therefore, are the controlling factor, and these are fixed by relation between supply and demand. To limit rentals in times when property appears scarce would make it necessary for some guarantee of a fair return during periods of depression, to be made.

The proportion of tenants to the total population of our cities is increasing, and recognizing their political power, efforts are being made to elect civic officials pledged to their platform. This movement is a subject of concern on the part not only of property owners, but of mortgagees, including loan and trust companies who have large sums, representing the savings of the people, invested in this way.

Trade with the Orient

With correspondents of the highest standing in China, Japan, India and other countries of the Orient, and branches in all the principal ports on the Pacific coast of North America, namely:

Prince Rupert	Portland, Ore.
Victoria	Seattle
Vancouver	San Francisco

this Bank is excellently equipped to serve the interests of Canada's growing trade with the Orient.

J. P. BELL - - General Manager

PERSONAL NOTES

Mr. Sydney H. Matcham has been appointed manager of the life department of Kern Agencies, Ltd., of Moose Jaw.

Mr. H. Gooderham has been appointed president of the Union Trust Co., and Dr. J. H. McConnell, vice-president, in the place of the late Mr. H. S. Strathy.

Mr. L. L. Theriault, who for the past three years has been in the New Brunswick Department of Public Works, has been appointed town manager of Edmundston, N.B.

Mr. Thomas Bradshaw, Commissioner of Finance, Toronto, and Mr. J. H. Gundy, of Wood, Gundy and Co., have been elected to the directorate of the Dominion Life Assurance Co., Waterloo, Ont.

Mr. J. O. Turnbull has retired from the position of inspector in the insurance department of the Manitoba government, which he had creditably filled during the past seven years, to accept an appointment as agency director of the North-Western Life Assurance Co.

Mr. E. J. Beauvais, who was previously connected with the Liverpool and London and Globe Insurance Co., for many years, latterly as the company's inspector for Montreal, has been appointed assistant to Mr. F. J. Knox in the insurance department of the Montreal Securities Corporation.

Mr. J. W. Norcross, president and managing director of Canada Steamship Lines, Ltd., has been elected a director of the Dominion Steel Corporation. The vacancy filled by the election of Mr. Norcross was caused through the retirement from the directorate of Mr. J. K. Ross more than a month ago.

Mr. W. C. Noxon, Canada's new trade representative in London, England, is well known in financial circles here. He has been for more than ten years a member of the firm of Brent, Noxon and Co., bond dealers, Toronto, though in recent years he has not taken an active part in the business. Mr. Noxon kept in close touch with financial conditions in Great Britain, and was instrumental in bringing considerable old country capital to this country in the prewar days. He is also a director of the London and Canadian Loan and Agency Company, Toronto. Mr. Harrison Watson, who will be associated with Mr. Noxon, has for some years past been chief Canadian government trade commissioner in the United Kingdom, with headquarters in London.

Mr. G. H. Belton, of London, Ont., has been elected to the directorate of the Canada Trust Co. He is president of the George H. Belton Lumber Co., vice-president of the South-Western Ontario Lumber Dealers' Association, and a director of the Northern Life Assurance Co. Mr. Hume Blake, B.A., vice-president of the Manning Cold Storage Co., and a director of the Union Bank of Canada, has also been elected to the directorate.

Mr. William Mackay, manager for Canada of the Royal Insurance Co., and the Queen's Insurance Co. at Montreal for 15 years, and also president of the Hudson Bay Insurance Co., is retiring from these companies on May 1st next. He is to be succeeded by Mr. J. H. Labelle, who is at present assistant manager. Three assistant managers are to be appointed: Mr. R. A. Mannings, at present resident secretary of the life department, Royal Insurance Co.; Mr. F. J. Walker, office manager of the Royal, and Mr. A. Glover, inspector of the Royal.

Mr. A. T. Barlow, supervisor, Continental Casualty Co., of Chicago, U.S.A., has just been put in charge of the Canadian head office of the Continental, situated at 47-51 King St. West, Toronto. He is putting on an intensive campaign for general and local agents. This is one of the largest casualty insurance companies in the United States, having been founded in 1885. Last year it wrote over $10,000,000 of business, and its capital and surplus are $1,000,000, and assets over $5,000,000. The Continental Casualty Co. was founded in 1885 and incorporated in 1897. For many years it specialized in accident and health insurance, but is now writing other casualty lines. The president, H. G. B. Alexander, was a native of England, and has a high standing in insurance circles in the United States. In connection with their Canadian business, the company has already announced the appointment of Dale and Co., Montreal, as general agents for Quebec, and of Jones and Proctor Bros., Toronto, for Ontario.

Mr. J. H. O'Reilly, B.C.E., graduate of the University of Manitoba, and associate member of the engineering institute of Canada, has been appointed secretary of the Research Bureau and Civics Bureau of the Winnipeg Board of Trade. The new secretary has had extensive experience in Winnipeg and the west, as a surveyor and engineer, being latterly employed with the Winnipeg Electric Railway Co. as assisting appraisal engineer.

OBITUARIES

Mr. O. F. Rice, a former manager of the Toronto branch of the Imperial Bank of Canada, died last week in his 66th year.

Mr. W. L. MacKenzie, president of the wholesale firm of W. L. MacKenzie and Co., Winnipeg, Man., died on February 17th last, at the age of 88 years.

Mr. E. Sheppard, manager of the Montreal branch of the American Bank Note Co., died last week. Mr. Sheppard has been Montreal manager of the company for fifteen years.

Mr. Richard Brown, for sixty years president of Brown Bros., Ltd., manufacturing stationers, died at his home at 446 Jarvis St., Toronto, last week. He was 86 years of age, and was born in Newcastle, England.

Mr. E. F. Slack, president of the Canadian Press, Ltd., and general manager of "The Montreal Gazette," died on February 15th, at his residence, 658 Grosvenor Avenue, Westmount, Que. He was taken ill with influenza a couple of days ago, and this developed into double pneumonia, to which he succumbed.

GUELPH LIFE UNDERWRITERS ASSOCIATION

The following officers for 1920 were elected at a meeting of the Guelph Life Underwriters Association on February 10:—President, M. J. Barry, Imperial Life; vice-president, D. P. Griffin, Northern Life; secretary-treasurer, R. P. Brydon, Monarch Life; executive committee: F. B. Hilliard, Prudential Life; E. Menzies, Metropolitan Life; P. J. Bolger, Excelsior Life; T. A. Elliott, Dominion Life; W. P. Davis, Canada Life; W. J. Sheridan, Excelsior Life; Robt. Grundy, Prudential Life. The president was elected a member of the Dominion Underwriters' Executive Committee.

CANADIAN GUARANTY TRUST COMPANY

Assets of the Canadian Guaranty Trust Company at the end of 1919 totalled $2,638,312, compared with $1,921,606 at the end of 1918. Capital assets increased from $244,256 to $439,517, trust, guarantee and agency accounts from $263,498 to $285,988, and trusts, estates and agencies from $1,413,852 to $1,912,806. These and other figures indicate the progress made during the year.

Profits for the year were $17,761, as compared with $15,396 for 1918, and the dividend rate was increased from 5 to 6 per cent. Dividends therefore required more in 1919, but $5,000 was as usual transferred to reserve and $5,610 carried forward in profit and loss. The company has built up an excellent business in the province, under the management of John R. Little, and shares in the increasing appreciation with which trust institutions are regarded.

WESTERN LIFE ASSURANCE COMPANY

An increase of $691,237 in business in force, and of $49,912 in assets, is recorded by the Western Life Assurance Company in its report for 1919. This is one of the younger Canadian companies, having been incorporated in 1914, and commenced business early in 1918. At the annual meeting held in Winnipeg on January 29, the retiring directors were re-elected. A. E. May, of Edmonton was appointed president, a position from which he voluntarily retired last year. Adam Reid is managing director of the company.

The company's paid-up capital is now $126,600, and after providing reserves on policies, etc., a surplus of $70,718 to policyholders remains. The investment policy is indicated by the fact that out of total admitted assets of $296,430, $213,025 were in the form of bonds and debentures, valued at market value; the balance included a few mortgages, outstanding and deferred premiums, etc. Other assets, not included in the ordinary balance sheet, are valued at $29,739, bring surplus to policyholders, as shown by the company, up to $100,457.

CANADA NATIONAL FIRE INSURANCE COMPANY

Some figures from the report of the Canada National Fire Insurance Company, given elsewhere in this issue, indicate good results for 1919. The loss ratio for the year was 33.45 per cent., compared with 43.79 per cent. for 1918 and 46.65 per cent. for 1917; the average for all companies operating in Canada in 1918 was 50.63 per cent. A conservative policy has been pursued during the past few years, and risks have been carefully selected, but the gross amount in force has nevertheless risen to $31,754,334.

The company's assets consist principally of first mortgages on city and farm properties, but bonds and stocks to the amount of $679,296 are also held, and head office and other real estate is valued at $404,564. The mortgage investments are about equally distributed throughout the four western provinces, and the company looks for an active demand for money for loaning purposes. Most of the bonds and stocks held are government war bonds, and regarding the head office premises, the company reports that these were fully occupied during the year.

COBALT ORE SHIPMENTS

The following were the shipments of ore, in pounds, from Cobalt station, for the week ended February 13:—

McKinley-Darragh, 83,460; Temiskaming Mines, 63,720; Coniagas Mines, 64,000; total, 211,180. The total since January 1 is 2,151,760 pounds, or 1,075.88 tons.

GODERICH BOARD OF TRADE

The following officers have been elected for the Goderich Board of Trade for 1920:—President, R. J. Megaw; vice-president, G. L. Parsons; secretary, F. Woollcombe; treasurer, W. Campbell; executive council, Messrs. Charles Wurtelle, T. G. Connors, J. P. Hume, B.A., H. J. A. MacEwan, C. K. Saunders, Geo. William, M. G. Cameron, K.C., and W. R. Sherman.

SASKATOON BOARD OF TRADE OFFICERS

The following are the names of the officers of the Saskatoon Board of Trade for 1920:—President, J. D. Millar; vice-president, S. W. Johns; treasurer, G. H. Harman, manager of the Saskatoon branch of the Bank of Montreal. M. Isbister is honorary president.

LONDON AND CANADIAN LOAN

Interest earnings, etc., of the London and Canadian Loan and Agency Co. for 1919 were $364,911, compared with $341,499 for 1918. A balance of $24,981 brought forward, made a total of $389,892 available for distribution. Expenses, commissions, etc., were about the same as in 1918, and $50,000 was transferred to reserve. In addition to paying the regular dividends at 8 per cent. during 1919, a bonus of 1 per cent. was also paid. A balance of $25,618 is carried forward in profit and loss for 1920.

Reference has already been made in these columns to the increases shown in the balance sheet. Compared with 1918, the position of the principal accounts at the end of 1919 was as follows:—

	1918.	1919.
Loans on mortgages & interest	$4,272,142	$4,381,380
Bonds and debentures	443,119	461,332
Call and short loans	8,794	5,293
Cash in bank in Canada	81,971	131,560
Cash in bank in Britain	49,930	106,395
Paid-up capital	1,250,000	1,250,000
Rest account	900,000	950,000
Debenture stock	414,445	414,445
Debentures and certificates ..	2,185,817	2,345,155

MIDLAND LOAN AND SAVINGS CO.

Both earnings and assets of the Midland Loan and Savings Co. increased in 1919. The forty-seventh annual meeting of this old financial institution was held at the office in Port Hope, Ont., on February 3. As with many other loan institutions, part of the investments were transferred from mortgages to bonds; holdings of the latter are now $578,142, and of mortgages $900,272. The total assets are $1,582,088. Deposits in the company increased from $303,162 to $319,856, and debentures outstanding increased from $560,543 to $574,160.

Earnings also increased from $89,280 to $96,072, and after paying interest, expenses, taxes and dividends at the usual rate of 8 per cent., $10,000 was transferred to reserve fund. This fund is now $275,000, the paid-up capital being $360,000. The balance carried forward in profit and loss is $28,556, compared with $23,749 brought forward from 1918.

Shareholders of the Grand Trunk Railway Co., at a meeting held in London, Eng., yesterday, approved of the agreement to sell the railway to the Dominion government.

CREDIT SOCIETIES MAY RECEIVE DEPOSITS

Manitoba Legislature Refuses to Increase Rate to Banks, So Gives Societies Power to Compete—Also Takes Step Towards State Insurance

(Special Wire to *The Monetary Times.*)

Winnipeg, Feb. 19th, 1920.

RURAL credit societies of Manitoba, of which there are about sixty in the province, are being granted power at the present session of the legislature to take deposits. Up to the present time the societies have been opposed to taking deposits. The idea has been that it was undesirable to duplicate machinery and to try to do work which is at the present time being very acceptably done by the banks. The rural credit societies were supposed to form a link between the chartered banks and borrowers who were not personally known to the managers of the banks.

The banks have, however, not been fully satisfied with the rate of interest which the societies have been paying for money. The members of the legislature are said to be a unit against an increase in the rate at the present time, and rather than agree to increase the rate it is proposed to give the societies power to take deposits.

It is not yet known whether the societies will use this power. If the various chartered banks are disposed to continue to co-operate as they have up to the present, giving not only money, but the very valuable aid and assistance of their branch managers, the movement will go on in the future as it has in the past. If the banks refuse to co-operate on the present basis, the societies will begin to take deposits on such terms and conditions as may be arranged.

The movement in connection with the rural credit societies continues in full force, and probably between two and three million dollars will be needed this year. The work will be greatly facilitated if the cordial relations which existed with the banks in 1919 are continued in 1920.

Extend Workmen's Compensation Act

Miles M. Dawson, actuary, of New York, and F. W. Hinsdale, who has been in charge of the administration of labor legislation in British Columbia, where he is secretary of the Provincial Workmen's Compensation Board, were in Winnipeg this week consulting with the government of Manitoba regarding state insurance. They have brought in a report recommending its adoption. These gentlemen, as a joint committee with members of the legislature, has been considering suggested amendments to the Workmen's Compensation Act. The proopsal of Messrs. Dawson and Hinsdale was that, to carry out the scheme, a board should be appointed consisting of a commissioner and two directors, one director, representing labor, to be trained in mechanical operation, and the other, representing the employers, to be a man experienced in office management.

In regard to the amount of compensation, the recommendation was that it be increased from 55 to 66⅔ per cent. of the earnings, and that the allowance of widows be increased from $20 to $30 per month and of children from $5 to $7.50. The experts claimed that this could be done under state insurance without increasing the rates, but in the case of self-insurers, such as the Canadian Pacific Railway, it was stated it would likely mean an increase of about 25 per cent.

EXCHANGE ON EUROPEAN COUNTRIES

Wordings and Warranties*

More Important Wordings in Fire Insurance Policies are in Brokers' Hands—Supervision of Canadian Fire Underwriters' Association—General and Blanket Wordings—100 per cent. Co-Insurance Should be Required.

By J. D. SIMPSON
Liverpool and London and Globe Insurance Co.

ON this wide and important subject little seems to have been said of public note beyond an able paper by Mr. Jones, C.F.U.A., Toronto. Under the title of policy drafting there appears a contribution in one of the Federation journals in England. Hine's "Book of Forms" represents the American contribution. Co-insurance and average has, of course, been widely written of and discussed. Although the field is so wide, I do not propose to do anything more than touch an occasional point, here and there. This paper is no complete compendium for brokers and agents who want the latest. Nor is it intended to be the junior officials' "Vade Mecum." More than likely, it will not contain a single idea which is new. Rather, it is meant to quicken our interest in and focus attention on a subject that seems to have suffered by neglect.

After all, the making of our more important wordings is left largely in the brokers' hands supervised by the C.F.U.A. The wording frequently contains undesirable features. Sometimes the company does not get all it deserves; sometimes the insured suffers; and on the whole there are many wordings regarding which one feels that the further away from court they remain the better. I think it is no small tribute to the liberality and broad-mindedness of the companies that so few cases fail to be decided by the courts. Nevertheless, that is tribute which should not be levied. Wordings and warranties should receive sufficient care and attention to keep them beyond the bounds of all controversy. The responsibility for payment of the loss rests with the company. The agent no doubt feels it his duty to protect his client. The C.F.U.A. are concerned purely with the observance of their rules; but it is with the company and on the company alone that the question of liability and payment depends. Much may be done, collectively, by the creation of a healthy general opinion, amongst officers, underwriters, brokers and the insuring public. In the formation of this opinion the first step is a clear understanding by the staffs of the companies of the precise requirements for each case. It is not enough to say "we cannot accept this" or "we must decline" that. Mere negation will not do. We must and ought to be able to put our finger on the weak spot and at the same time say what ought to be substituted. Like a doctor, we must follow our prognosis and diagnosis with treatment and cure.

In writing a policy the first point is the name of the insured. I do not propose to enter into the niceties of insurable interest. That is a subject for a lengthy paper in itself.

Particulars About the Insured

After the name, I would like to see set out in full, the trade or business of the insured. One realizes from the name itself the business of say the Canada Cement Company, the Maple Leaf Milling Company or such representative concerns; but there are others, and their number is legion, where the name of the insured in no way indicates the trade or business. Take the following examples:—John Jones,—"Fish, Fruit, Vegetable, Poultry, Game and Provision Dealer;" William Smith,—"Builder and Contractor, Plumber, Tinsmith, Electrician, Paper Hanger, Painter, Decorator." Set out in full the whole business of the insured immediately following his name, and the remainder of the wording is much simplified. No need to introduce such phrases as "on stock consisting chiefly of ______________" "in their business of ___________" "in their premises occupied as ___________" Brokers or inspectors drafting such wordings will usually find a complete note of an insured's business printed on his bill heads. An underwriter looking over such a form sees at a glance the class he is insuring, and knows what to expect. That idea may not be new, it is an innovation in our present practice which would tend to simplicity and improvement.

Consider for a moment the question of insurable interest. The chief source of difficulty is the partial owner under mortgage, deed of sale, collateral security, and all the variations, including agent, bailee and warehouseman, with which we are more or less familiar.

The Mortgage Clause

The mortgage clause is another subject on which we shall hope to have an address before this association. Whilst mortgagees as a class, in regard to fire insurance, seem greatly favoured, the privileges granted in the mortgage clause have been remarkably free from abuse. There is one point in some clauses (they vary, of course, according to taste) which refers to contribution between companies. The usual clause reads:—"In the event of the said property being further insured with this or any other office on behalf of the owner or mortgagee, the company shall only be liable for a ratable proportion of any loss or damage sustained." But sometimes an effort is made to apportion the total loss between insurances actually payable to the mortgagee and bearing the mortgage clause. There are some arguments which may be advanced in favor of such a change; but between companies, I think there are more arguments "con" than "pro."

The point becomes an active issue when some violation of condition has arisen, at, or previous, to a loss. The mortgage clause protects the mortgagee but should there be some additional insurance written without that clause, the company issuing that insurance may be disposed to take advantage of the breach of conditions. Policies on the same risk should wherever possible be concurrent in every sense.

Use of Term "Ratable"

As a point of academic interest you observe the use of the word "ratable" in the mortgage clause. In other places the word has been a storm centre of argument, and I refer you to the works of Mr. Hore and Messrs. Laird on loss adjustment, if you feel sufficiently interested to follow the various contentions. The contribution clause in the Quebec Act says "ratable, without reference to dates of the different policies."

One rather peculiar case of partial owner or excess insurance arises in covering whiskey in bond. The warehouseman insures his responsibility, which may cover up to the amount of his receipt. The excess or increased value between date of bonding and time of fire may be covered by the owner as an excess insurance. A special clause in the policy would read somewhat as follows:—"It is declared and agreed that the insurance hereby is limited to the excess value only of the said stock in trade, that is the difference between the invoice value for which the distillers or warehousemen having custody of the said stock in trade are responsible and the market value at the time of the fire, and it is further hereby declared that if in the event of fire there be paid by this or any other company to such distillers or warehousemen on any of the above whiskey any sum exceeding the original invoice price thereof, then this company shall be liable only for the difference between the actual market price of such whiskey and the amount paid as aforesaid."

---

General Wordings

The wordings most frequently used are those for stores and dwellings. Within recent months there have been prepared by the C.F.U.A., a series of "uniform forms" of wording, uniform in the sense that their use is common to the tariff companies. In many ways this is a step forward, apart from the question of economy and convenience, in their production and use. It would be well to make a careful scrutiny of each of these forms as they differ in some respects from those of many individual offices. For example, the words emphasized as very desirable by Mr. Laverty "only while occupied as" and "only while contained in" are found in the building and contents forms. The removal endorsement covers both locations for five days subject to distribution. The transfer of interest forms for absolute transfer, mortgage interest, and collateral, are merged into one, which will, I think, prove ultimately unfortunate. Insurances on building specify "on the building only of the ___________ dwelling—store—factory," removing the doubt as to whether we cover building or contents or both when the policy reads "on the ____________ dwelling—store—factory. Additions are restricted to "communicating and in contact therewith." Detached outbuildings have been held to be additions, but it could not possibly be so under our wording. The vacancy permit says "vacant or unoccupied."

But these are after all details; the principle is excellent and one would like to see it extended and applied to manufacturing and mercantile risks. For example, in British Columbia there is a special tariff wording for printers and lithographers. Every trade has its peculiarities and we hope to see a special, mandatory, form of tariff wording for each trade or business with a well-expressed definition of each item covering building, machinery, stock, etc. Speaking of British Columbia, you will find the Mainland Board Tariff Book worth perusing.

Blanket Wordings

Now gentlemen, I am somewhat at a loss how to deal with this particular item. Like the poor, I am afraid we shall always have it with us, and, therefore, let us see if anything can be done by way of improvement, in wording or rate. A blanket rate, in the minds of some people, is confused with a reduced rate. Theoretically, that is incorrect, because at the time the rate is issued the average values of and in the different buildings are taken separately and the rate fixed therefor charged on these stated values. (Please note I am not now referring to completely sprinklered plants. These latter are a law unto themselves.)

In actual results I think it would not be difficult to prove that these blanket rates, according to our general practice of to-day are actually cheaper to the insured. The insured's statement of values in each building is furnished the C.F.U.A., and seldom, if ever, reaches the companies. When the loss occurs the adjuster's report, giving values on which claim is based, is sent to the companies and the two statements are seldom, if ever, compared. In one case recently, when the fire occurred in perhaps the most highly rated and hazardous building of the whole risk it was found on comparison (it chanced that in this case the original values had been secured by the company) that as compared with the insured's statement on which the rate was based the values in the building affected by the loss had almost trebled; the rate remained the same but the loss had to be paid in full. Of course, the rating statement was some years old. But no amount of explanation will put premium in the company's revenue after a loss which, because of our system of rating, is allowed to remain uncollected. I think you will on careful study and reflection agree that blanket insurance costs the companies annually many thousands of dollars in premiums.

The remedy is simple. A periodical statement of values should be required from all insured who hold blanket policies, monthly, quarterly or semi-annual, and the rate for the succeeding year revised before renewal. The average of these monthly or quarterly statements would probably give a much fairer basis for rating. If a firm's insurances fall due at a time when their stocks are high in a hazardous part of the risk they may be penalized unfairly, whilst if the contrary is the case the companies may get a less rate than they are entitled to.

Proportion of Co-Insurance

One other point, I do not think that 90% co-insurance is sufficient. 100% should be required; it would be just as easy to get as 90%. And further, the use of the 5% waiver (for in practice it is just as complete a waiver as the 2%) should be discontinued or a limit of amount introduced. Some of our present day schedules run to two, three or four millions of dollars; in the case of a million-dollar blanket wording we permit a $50,000 loss without ascertaining precisely whether the co-insurance clause has been complied with. Where there is anything like protection it almost savours of specific insurance.

It seems useless to dwell on the extension of cover to 100 feet beyond the risk itself. I suppose we have to be thankful on the whole it is no worse, and that we do not have to grant, as some of our competitors from other countries make a practice of doing, tornado, windstorm, sprinkler leakage or automatic reinstatement (up to a limit) free of charge.

The customary permission for oils, materials and supplies is granted "on the premises." Would it not be better to restrict supplies of oils to the oil house or engine room?

Negation of Principles

The following efforts at negation of the principles of policy writing seem just as choice as I have yet seen, written, no doubt, with the intention of handing the insured something tangible in the form of "service."

"It is understood and agreed that the conditions of this policy relating to matters before the happening of any fire, breach of which would disentitle the assured to recover, shall be read distributively, so that, in the event of fire, breach of such conditions in any portion of the property, neither damaged nor destroyed, shall not disentitle the assured to recover in respect of claim for loss to other portions of the property hereby covered that are damaged or destroyed by said fire, but in which no breach of such conditions have occurred.

"It is understood and agreed that any error in the description or location of above described property shall not work to the prejudice of the assured. Also, that the vacancy or inoccupancy of any building insured under this policy shall not vitiate the insurance on same."

Breach of warranty occurring at any time prior to the date of fire on the premises hereby insured shall not be held to prejudice the interests of the insured.

Quebec statutory condition 7 is sometimes singled out for special notice and these words included in the wording "including property excepted by statutory condition 7." You remember condition 7 refers to plate glass, etc., uncoined gold or silver, works of art, etc. As to whether the above reference is sufficient to include these articles in the insurance is doubtful. The condition says they are not included unless specially mentioned. Above, the condition is merely referred to.

MANITOBA FARM LOANS' ASSOCIATION

The Manitoba Farm Loans' Association has $3,086,961 out in loans, according to the report for the year 1919. This figure, however, includes also the interest which has been paid back on loans. An increase of over one million dollars was shown in the report over that of 1918. During the past year there were 795 applications received, aggregating a total of $2,532,900, of which $668,900 were turned down.

The annual report of the Manitoba government telephones shows a deficit of $25,691. This figure includes the sum of $22,138 paid on the military service payroll to the wives and dependents of men formerly in the employ of the government telephones who enlisted. The actual deficit was slightly more than $3,000

Canada's Foreign Trade Balance

Unfavourable Balance With United States Largely Offsets Favourable Balance With Other Countries—Seasonable Movements Illustrated—Important Effects on Banking and Investment Accounts—Remedy Lies in Trade Adjustment.

CONTRASTING features in the general trend of the Dominion of Canada's foreign trade in the past five years, are brought out in the accompanying chart, reproduced from "Investment Suggestions" for January, published by Greenshields and Co. The black area shows impressively the substantial balance in favor of the Dominion in its total foreign trade. The white area, on the other hand, shows the large balance against the country in its trade with the United States. This adverse balance in our trade with the United States is the controlling influence in the present depreciation of the Canadian dollar at New York. The seasonal movements in the figures are interesting. The deficiency in our balance is usually greatest in the winter months, which suggests that we are probably at the peak, or near the peak, of the current rise in New York funds here. The country's best effort is called for to increase our exports to the United States, while holding our imports in check. Discussing the subject of trade balances, an accompanying article says:—

"It is essential that we keep clearly in mind that if sterling is at a discount in New York, it is at a premium in practically every important centre in Europe. If London could transfer its Continental credits to New York, sterling would be quickly re-established at par in that market. Similarly, if our credits on London could be converted into exchange on New York, our current indebtedness at that centre could be easily settled, and the Canadian dollar would be worth its face value. For reasons of political and economic policy, Great Britain has been selling to a considerable extent to Continental Europe on a credit rather than on a cash basis, just as Canada has been selling to Great Britain. Obviously, the ability of London and Montreal to make cash settlements in New York is restricted to the extent of this acceptance of promises to pay from other countries. That would be depressing on the rates for sterling and Canadian dollars at New York even if British and Canadian purchases in the United States merely balanced off sales to the United States. The depression is acutely accentuated when there is a large surplus of buying over selling in each case.

"The ramifications of the situation are many and interesting. It is not generally appreciated that financial and commercial interests in Canada are carrying abnormally large balances in London to-day—either in bank deposits or in temporary investments. They cannot afford to take the loss involved in transferring these funds to Canada via the only medium of transfer, New York. Ordinarily, their sales of sterling would be a considerable factor in replenishing the New York balances on which Montreal draws, so supporting the value of our dollar. And while the low level of sterling in this way is checking a certain normal flow of funds into Canada, it is conversely stimulating a certain abnormal outward flow. Our repurchases of Canadian securities from London have been on a very heavy scale since the decline in sterling has made such buying so profitable. Added to this has been an outflow of funds for the purchase of British, French and other European securities offering at low prices in New York because of the depreciation in the exchanges of those countries. In the aggregate these tendencies become important factors in the scarcity of and the demand for remittances to New York, aggravating a situation which originates in our adverse balance of trade with the United States.

Reducing our Debit with U.S.

"As the chart suggests, a narrowing of this adverse balance is the readiest means at our command for restoring the dollar to par at New York. The immediate trend of the figures, on the surface, is not encouraging. In periods of trade uncertainty such as the late autumn of 1914 and 1918, our imports from the United States were reduced to a volume approximating our exports. As soon as business revived, imports expanded sharply, with a relatively slight increase in our exports.

"It is well to bear in mind, however, that the high premium on New York funds since the rate passed 5 per cent. in the past summer has not had time to exert much influence on the latest trade returns available, those for October. Current imports to a large extent were contracted for before the rate became seriously oppressive, and American goods will continue to come into Canada for some months yet under these old contracts.

"As there are no signs of a slackening in national prosperity, it is too much to hope the population of Canada will be seriously deterred from the buying of goods, necessary to our well-being or otherwise, by the greater cost imposed by the exchange rate. Only a period of depression which would reduce current income and draw on accumulated savings could bring that about. The shopper in the city stores is buying what he wants without questioning the source

of supply. If he protests against the higher cost, instances are negligible where he associates the increase with the exchange rate or reasons that his purchase of foreign goods is tending automatically to raise prices on what he will buy in the future.

Corrective Influences

"The adjustment that will narrow the margin between our imports from and our exports to the United States is proceeding from within business itself. As a corrective for an adverse exchange rate, it is vastly more to be desired than a temporary expedient such as heavy borrowing from American bankers, with attendant dangers of inflation and extravagance and disastrous reaction later. Indications that natural remedies, as they should, are becoming effective are decidedly encouraging. Our manufacturing industries are systematically broadening and diversifying their output to take advantage of the higher cost of imported goods. Conversely, the effort to enlarge our export market is being notably quickened by the premium to be realized on sales paid for in American dollars. Granted a year or two more of similar conditions, with no drastic disturbance in the customs tariff, a prediction that the line of our exports will presently cross the line of our imports in trade with the United States is not unduly optimistic. The expanding absorption of our pulp and paper products by the American market, once more or less self-contained in that respect, will be duplicated in other directions.

Immense Market at Hand

"We lay much stress on our great wealth in natural resources without emphasizing as much as we might the fact that no country in the world can lay claim to so convenient and so promising a market for the exploiting of its resources as Canada has in the United States. If Canada, with its 8,500,000 population, is so excellent a market for the United States as to rank third among the trade customers of that country, the United States, with its population of 100,000,000, is that much the better market for Canada. The resourcefulness and the common sense of the Canadian people have been overrated, if they cannot turn the situation to great advantage, and more quickly than is presently anticipated. The start made in the past year is encouraging. We doubt very much whether, in the year of reaction after the war, any country has applied itself more steadily and consistently to work than Canada, or has been freer from the unsettling influence of social unrest."

SECURITY LIFE INSURANCE COMPANY

After numerous difficulties, including losses from the war and the influenza epidemic, the Security Life Insurance Co. is now able to report progress towards a good volume of business. The statement for 1919, presented at the meeting in Toronto on February 10th, showed that policies to the amount of $1,738,500 were issued or revived, bringing business in force to over $3,000,000. Total business in force of $5,000,000 is the objective set for 1920. The increased volume of business written lowered the relative cost of doing business, and the reduction in losses, which were $15,592 as against $29,550 in 1918, enabled the company to carry $37,736 to investment account. The gross cash premium income was $83,480, an increase of $37,003.

Sir Henry M. Pellatt, president, compared the position of the Security Life, now eight years old, with that of well-established companies when they were of the same age, and the comparison indicated that the Security Life was making satisfactory progress. The general manager, J. O. McCarthy, emphasized the fact that every liability, direct or indirect, was provided for in the balance sheet. Comparing agency expenses, less renewals, he found those of the Security Life, which were 80.2 per cent. of first year premiums, lower than in the case of seven others. The board of directors was re-elected.

WHOLESALE PRICES STILL RISING

Department of Labour Figures for December Show Increases in All Commodities Except Hogs, Hog Products, Fresh Fruits and Hides—Movement for 1919

According to the Labour Gazette, wholesale prices are still rising. In December, 1919, the index number of all commodities stood at 322.7, as compared with 307.7 for November and 288.8 for December, 1918. With the exception of a few, all commodities showed increases. Those showing decreases were:—Hogs, hog products, fresh fruits and hides. The principal increases were:—Dairy products, iron and lumber, grains, fodder, livestock and meats.

The Department of Labour also gives an interesting review of wholesale price movements for the year of 1919 and since the early days of the war. The figures show that prices had risen regularly and steeply from the autumn of 1916 until the end of 1918, when the cessation of hostilities led to a decrease in the prices of lines most affected by war conditions. Some of these had eased off in October when it appeared that an armistice was a possibility. From November, 1918, until March, 1919, the general level of prices, as indicated by the wholesale prices index number falling from 290.9 in November to 277.4 in March.

The following is the statement of index numbers for December, 1919, with comparisons:—

(DEPARTMENT OF LABOUR FIGURES)	No. of Commodities	Index Numbers		
		*Dec. 1919	*Nov. 1919	*Dec. 1918
I. GRAINS AND FOODERS:

Attractive Investments

CANADIAN
GOVERNMENT, MUNICIPAL and CORPORATION
SECURITIES

In the matter of public financing, there has been offered during the year over $900,000,000 of Canadian securities, of which Canadians have absorbed 75%. Moreover, during the year bank deposits increased from $1,839,000,000 in 1918 to $2,137,000,000 in 1919. These facts indicate great reserve buying capacity in Canada.

Now that War Loans, in the matter of amounts, will remain practically stationary, attention is necessarily turning more and more to other government, provincial and municipal securities. In view of the investment power proven so markedly during the war and this now-widening interest, it is only reasonable to expect that the present exceptionally low prices cannot continue indefinitely.

Closing Sessions of Quebec Legislature

Montreal to Have New Form of Government—Housing Responsibility Thrown on Municipalities—Cash Grants to Railways Authorized—Quebec Public Utilities Commission Reorganized.

THE last few days of the 1920 session of the Quebec legislature, which closed February 14, saw practically all the government bills passed. One of the most important was the amendment to Montreal's charter. This amendment provides for the appointment of a commission to frame a new system of city government. It reads in part as follows:—

"Notwithstanding any law to the contrary, there will be no general elections for the changes of mayor and aldermen of the city of Montreal in 1920, and the term of office of the mayor and aldermen now in office, and of anyone who may be appointed to fill a vacancy created amongst them, shall end on the first of April, 1922.

"It is provided that a commission known as the Commission of the Charter of the City of Montreal, will be created, and that it will consist of sixteen persons, appointed two each by the following corporations or associations:—The Municipal Council of Montreal; the Administrative Commission of Montreal; the League of Proprietors; the League of Tenants; the Council of Trades and Labour; the National Catholic Labour Union; the Montreal Board of Trade; the Chambre de Commerce of Montreal.

"The appointments shall be made inside of thirty days after the enactment of this law, but the Lieutenant-Governor-in-Council shall have the right to make himself any appointment which during the said delay will not have been made by the persons or bodies above mentioned. Should a member die, or neglect or refuse to act or become incapacitated, or tender his resignation, his seat becomes vacant, and the body which appointed him must fill the vacancy inside of fifteen days, failing which the Lieutenant-Governor-in-Council shall have the right to appoint a successor. In any case a vacancy cannot be a cause of dissolution of the commission. The services of the members are unremunerated.

To Draft New City Charter

"The commission will prepare a charter embodying all that may be deemed necessary for the maintenance of peace, and order, and the good government of the city, which must be submitted to the legislature at its next session, under the law governing private bills. Should the next session open only after the first of January next, the proposed charter shall not later than that date be submitted to the Lieutenant-Governor-in-Council.

"The commission shall elect a chairman from amongst its members, and may appoint a secretary who is not one of its members, whose salary it may determine, and replace him at its own discretion. Before assuming his duties, each member of the commission, as well as the secretary, shall take oath before the city clerk of Montreal. The quorum of the commission shall be seven members. In all cases the decision of the majority shall govern. In the absence of the president, an acting president shall be selected from those present. The president or the acting president has a vote as commissioner, besides a casting vote.

Power to Obtain Evidence

"The commission is authorized to retain the services of any persons it may deem advisable, and to determine their salary or indemnity, to summon witnesses, to cause to be produced papers, documents or archives under the control of the city council, the administration commission, the recorders' court or its officers and the president or his substitute is authorized to swear any person and examine on any point considered of importance.

"The commission may, when deemed advisable, form a committee of three of its members, to which it will add two lawyers of this province who are not members of the commission, for the preparation, in all or in part, of the charter of the city, and determine their remuneration.

"The expenses of the commission and the salaries and remunerations it shall have to pay shall be approved by the commission before being paid by the city. The treasurer of the city is authorized to pay with the city's funds the amounts required for the payment of the approved charges, without any prejudice to any claim that may be entered in law by any person entitled to such payments."

Housing Legislation

A new housing act was also passed, making new regulations for the spending of the federal appropriation. The new act permits the construction of a tenement consisting of say three dwellings at a total cost of $13,500. Mr. Mitchell explained that this was done at the request of the city of Montreal, which was not clear what a dwelling was under the law, and feared that it meant a self-contained house, or a semi-detached, not "flats." Mr. Mitchell said that the federal interpretation of a dwelling permitted of the tenement type of building, but to reassure Montreal the law was being amended.

The provincial government drops the control it had provided for last session in the appointment of Dr. Emile Nadeau as provincial director of housing, to whom were subject all applications for loans. Dr. Nadeau's letter of resignation has been in the hands of the government for some time. He had built up an extensive machinery for doing the work, there being provision for a technical commission to draw up all the plans, the cost of which commission was to be borne by the municipalities paying 2½ per cent. of the loans for such upkeep. This is all abandoned, and the municipalities will spend their own allotments.

Mr. Mitchell explained in the house that the bill makes the advance to the municipalities direct, and leaves each municipality the absolute control of the construction of the dwellings and the full responsibility. The government felt, said Mr. Mitchell, that it would be a big task to look after the construction of houses in perhaps 100 or 200 cities and towns, and that it would be almost impossible for the government to do so. The government will advance sums of money to the municipalities, in return for which the municipalities will give the government its bonds at 5 per cent., taken at par.

Provision is made in the bill whereby the municipalities, for their greater protection, may have the land on which individuals are to construct houses transferred to the municipalities. The bill adds:—"Such transfer may be made as a condition to a loan of money, providing the municipality agrees to re-convey the said land and said buildings to the borrower when the latter shall have repaid to the municipality 25 per cent. of the amount of the loan." Provision is made whereby a municipality may appoint a commission to do the work for any length of time, and delegate to such commission all or part of its powers. There is a clause affecting Montreal only, stating that in case Montreal appoints a commission, the acts of the latter do not require the approval of the provincial director of housing.

Cash Grants to Railways

Large grants of cash and of land are to be made to railways, according to legislation introduced by Hon. A. Galipeault, and passed. Provision is made for a subsidy to the Canadian Pacific Railway Company of $1,600 per mile for sixty-six miles of new railway from a point at the present terminus at or near Temiskaming or Kipawa, and from there in a northeasterly direction to the Riviere des Quinze by way of Ville Marie. In case the Canadian Pacific Railway does not get a grant from the federal government for the building of this line, the provincial government will grant the company an additional subsidy of $6,400 per mile. This is the

much-talked of railway in the county of Temiskaming which the government has been promising for some time, and about which Sir Lomer Gouin made a definite promise during the last election, to the effect that if a company could not be persuaded to build the line, the government itself would do so. In addition to the cash grant, the Canadian Pacific Railway will receive a subsidy provided by an act passed at the last session, which is 4,000 acres of land per mile. The law passed last session provides that such a land grant would be made to any company building the line described.

Hon. Mr. Gallipeault's bill provides for other subsidies. To the Quebec, Montreal and Southern Railway Company is granted 2,000 acres of land per mile to contribute towards extending its line from Ste. Philomene de Fortierville in the direction of Levis, a distance of 52 miles. To the Quebec Central Railway Company there is granted a subsidy of 2,000 acres per mile towards the expense of extending its line from St. Lucie de Beauregard, Lac Frontiere, in Montmagny county, to St. Pamphile, in the county of L'Islet, a distance of 25 miles. To the Montreal, Joliette and Transcontinental Junction Railway a subsidy of 4,000 acres of land per mile is granted towards the expense of a line from a point in Mercier-Maisonneuve ward, Montreal, thence running northward across the counties of Hochelaga, Assomption and Montcalm to a point at or near the city of Joliette, thence in a northwesterly direction to a point at or near the village of St. Michel des Saints, in the county of Berthier, and thence by the most feasible route to a point on the Transcontinental Railway at or near Parent, a distance of 60 miles.

In addition there are grants in general to unnamed companies. One is of 4,000 acres of land per mile towards a line from a point at or near Malbaie, Charlevoix county, to Ha Ha Bay, a distance of about 75 miles, and a similar grant towards a line from a point on the Quebec and Lake St. John Railway Company, near Chicoutimi, to a point at or near St. Felicien, to the west of Lake St. John, running through the region situated east and north of Lake St. John, as well as for building branch lines, the length of the main line and branches to be 120 miles. This granting of subsidies to unnamed companies is really in the nature of throwing out bait for what it may bring. All grants of land are not convertible.

Other Legislation

One million dollars is to be granted to McGill University, spread over a period of years. The new Companies Act, already mentioned in these columns, the act to incorporate the general accountants association of the province of Quebec, and several other private bills were passed. Third reading was also given to Hon. W. Mitchell's bill regarding provision for a pension, under the regular system of pensions for civil servants, for a law officer for the treasury department, to go back to the time of appointment of such official as an employee of the outside service. The idea is that an employee of the department, not included in the civil service, is to be brought to Quebec as law officer, and Mr. Mitchell wishes to grant him the civil service privileges as if when first appointed he had been included in the civil service. This official, however, must pay to the government, with compound interest, over a period of ten years by monthly instalments, an amount equal to the whole of the amounts which he would have paid had he been at appointment part of the civil service. This is similar to the provision made for pension for Dr. Pelletier, the agent-general of the province in Britain.

A bill which had passed its second reading, and provided that money borrowed by a farmer for drainage purposes should come ahead of a first mortgage as to priority, was stopped by the premier at that stage.

Although the application of the civil servants for a bonus this year, the government increased the sessional indemnities of members of both the legislative council and assembly from $1,500 to $2,000. The treasurer pointed out that the former amount had been fixed over ten years ago, and during the interval the duties of the member have greatly increased, while his expenses have risen rapidly. The yearly salary of the premier was also raised to $12,000.

Quebec Public Service Commission

Important changes were made in the bill to create a public utilities commission. The name is changed to "The Quebec Public Service Commission." The commission is to hear expropriation matters, but it is to be the president alone, Col. F. W. Hibbard, who is to hear such cases, or in his absence the acting president. The president is to give his attention exclusively to the work of the commission and the duties of his office, and must not practise any other profession or follow any other occupation whatever. He is to receive a salary of $7,000. The other two commissioners, Sir George Garneau and C. E. Laberge, are to receive $3,500, but do not have to give all their time to the work. Expenses are to be fixed by the Lieutenant-Governor-in-Council, instead of a stated sum of $10 per day.

Another clause provides that "If at the time of his appointment a commissioner possessed, or if, after his appointment, he acquires any such thing, or any interest therein as above mentioned, he shall be bound to dispose of the same at once." This means any interest in any bonds or security of a public utility. When the commission sit in the chief place of any judicial district, the sheriff is bound to provide suitable quarters, and elsewhere the commission is entitled to the use of the circuit court room.

It is provided that "No public service, unless authorized by an act now in force, may increase its present rates without having obtained the authorization of the commission to that effect." Other new powers given the commission permit it to make such order as may be necessary when a municipality collects taxes on immovable property and refuses to furnish the owner with sewers, water, sidewalks or any other public municipal service. The commission is to hear such complaints from any municipal elector. The commission is also to delve into questions relating to municipal administration when the Lieutenant-Governor-in-Council deems it expedient. It is to have power to deal with complaints in regard to the rights of floating timber down any river or stream, and fix conditions.

Notwithstanding any provisions of the charters of Montreal and Quebec, the commission is to handle all expropriation proceedings and fix the compensation.

Another important clause provides that "when any public service applies to the commission for an exchange of service with other public service of the same kind, the commission may make such order as it judges to be in the public interest as to connection of lines, transmission of messages, right of way for trains or other facilities, and may determine the compensation and other conditions for such exchange of service."

The Lieutenant-Governor-in-Council is to make the tariff of fees which the commission will charge in connection with any matter submitted to it.

CANADIAN PULP AND PAPER ANNUAL

The annual meeting of the Canadian Pulp and Paper Association was held in Montreal on January 30. Among the special features were addresses by Sir Lomer Gouin, who stated that Quebec has more than half the pulpwood supply of the Dominion, and that it was the intention of the government to support the manufacture of these products within the province; by James Bothwell, president of the association, who criticized the government control of paper prices during the past three years, which control, he pointed out, is to expire in June, and by Sir Andrew MacPhail, who discussed methods of conserving the rapidly decreasing supplies of pulpwood. Officers elected for the year were:—President, George Cahoon, Grandmere; vice-president, Howard Wilson, Montreal, and secretary-treasurer, A. L. Dawe, Montreal.

The Bankers Trust Co., of Montreal, a subsidiary of the Merchants Bank, opened an office in Regina this week. The manager is J. J. Galloway, who is manager of the Merchants Bank in Regina.

Canadian Guaranty Trust Company

ANNUAL REPORT

Statement for 12 months ending December 31st, 1919.

The Tenth Annual General Meeting of the Shareholders of the Canadian Guaranty Trust Company was held in the Board Room of the Company, 1031 Rosser Avenue, Brandon, on Wednesday, the 4th day of February, 1920. Those present were: A. A. Cameron (Oak Lake), J. S. Maxwell, D. A. Reesor, J. K. McInnis (Regina), William Ferguson, John R. Little, Thomas Beattie, S. Robinson, V.S., H. L. Adolph, A. C. Fraser, J. C. B. Inkster, A. W. H. Smith, F. S. Booth, George Cheasley, Clifton Watkins (Forrest), John A. McDonald, Col. A. L. Young (Souris).

The following reports were presented:—

TO THE SHAREHOLDERS,
CANADIAN GUARANTY TRUST COMPANY:

The Tenth Annual Report herewith submitted is the most satisfactory in the history of our Company. After the trying experiences of the last five years consequent on the conditions produced by the war, it is especially gratifying to your Directors to be able to present to the Shareholders a report so convincing of the continued growth and prosperity of our young Company.

As shown by the Financial Statement, we have increased the dividend to six per cent., added the usual amount to our Reserve Fund, and maintained a sum in excess of the previous year in our Undivided Profits Account.

A call of 10% on the subscribed capital stock of the Company was made towards the end of the past year. This call has been met in a very satisfactory way by the shareholders. The additional capital thus secured will be of advantage in increasing the earning powers of the Company and in establishing it still more strongly in the confidence of our clients and the public generally.

On behalf of the Board of Directors.

Brandon, January, 1920.

A. C. FRASER, President.

NO BONDS

Banking and investment circles have always considered the packing business with confidence. Dealing in the necessities of life, the business has a stability, the history of which has proven that its securities afford safety, even during periods of financial depression.

The following information is summarized from a letter from Brigadier-General John A. Gunn, President of the Company:—

1. Net tangible assets of $294.00 per share.
2. Net liquid assets of over $157.00 per share.
3. Strict provisions against the ratios going below $275.00 and $125.00, respectively.
4. Sinking fund provision for the gradual redemption of the preferred stock.
5. No mortgage indebtedness permitted to be issued ahead of the preferred stock, except with the consent of seventy-five per cent. of the preferred shareholders.
6. The stock will participate in increased earnings to the extent of 1% before the common stockholders receive more than 8% in any one year.
7. The income from preferred stock dividends is free from normal tax.
8. Exceptional security, with ample earnings, assuring the investor a return of over 7%.

During 1919, interests associated with Morris and Company, of Chicago, one of the largest packing companies in the world, acquired a substantial common stock interest in Gunns Limited, the purchase price being par. The importance of this alliance is appreciated when consideration is given to the value to the Company of Morris and Company's experience and close co-operation. It is expected that this affiliation and a recently doubled plant capacity will materially increase the volume of the Company's business and its net earnings.

We offer you this stock after a most complete investigation at:—

$97.50 per Share ($100 par value) yielding 7.18%.

and recommend it as a well-secured investment.

Temporary Certificates will be ready on or about February 16th

The National City Company, through its experts, has made a careful analysis of the official statements, earnings and values of the properties of this Company, and while it does not guarantee them, it believes the statements in this advertisement to be correct and has itself acted upon such information.

The Ontario Loan and Debenture Company

The Forty-ninth Annual General Meeting of the Shareholders of this Company was held on Wednesday afternoon, 11th instant, at the Company's Offices, London, Ontario.

The chair having been taken by the President, Mr. John McClary, the Accountant, Mr. T. H. Main, who acted as Secretary, read the notice calling the meeting and the minutes of the last Annual Meeting, which, upon motion, were confirmed.

The Annual Report was then presented, as follows:—

To the Shareholders:—

The Directors of your Company take pleasure in presenting herewith the forty-ninth Annual Report of its affairs.

The exceptional real estate activity in many parts of the country together with the steadily rising cost of building, both almost entirely a consequence of the War, have so enhanced prices of real estate as to call for particular care in making mortgage loans. On this account and as the demand for the better class of these loans has continued moderate notwithstanding the active real estate market, investments in the unexcelled security of our Government and higher class Municipal Bonds have increased.

As values become stabilized and greater demand develops for mortgage loans which can be safely made, the maturing investments in these Bonds and Debentures can be used to take advantage of it and to further the interests of the country in that respect.

Payments on mortgages have been exceptionally well met and instalments of principal apart from the loans paid in full have furnished considerable sums for re-investment.

Your Company's earnings have again been satisfactory, but it might be pointed out the Dominion Government Income War Tax is now a large factor. The Revenue Account herewith shows that after payment of Provincial and Municipal Taxes, Interest, Expenses, and Charges, and making provision for possible losses and contingencies, the

Net earnings for the year 1919 are		$270,837.09
Balance brought forward from previous year		43,942.05
From this Total available		$314,779.14
Dividends (Quarterly) at the rate of 9% per annum have been paid	$157,500.00	
Transferred to the Reserve Fund	100,000.00	
		$257,500.00
Balance		$ 57,279.14
Grant to the Canadian Red Cross	$ 1,500.00	
Dominion Government Income War Tax	23,155.43	
		$ 24,655.43
Balance carried forward		$ 32,623.71

The usual continuous audit of the accounts and transactions of the Company has been carried on throughout the year and your Auditors' report is appended to the financial statement presented herewith.

Your Directors desire to acknowledge the very satisfactory manner in which your Company's interests in connection with their Sterling Debentures have been looked after by your valued representatives in Edinburgh.

Your Directors also wish to record their entire satisfaction with the manner in which their respective duties have been discharged by the Officials and Staff of the Company.

All of which is respectfully submitted.

JOHN McCLARY, President.

A. M. SMART, Manager.

To the Shareholders of The Ontario Loan and Debenture Company:

We hereby certify that we have audited the books and accounts of The Ontario Loan and Debenture Company for the year 1919, including a monthly cash audit and the verification of the entries and balances in all the Company's books, and we find the whole correct. We have also verified the cash, bank balances and securities and find all in order.

All our requirements as Auditors have been complied with and in our opinion the above statements are properly drawn up so as to exhibit a true and correct view of the state of the Company's affairs, as shown by its books. All transactions that have come within our notice have, we believe, been within the powers of the Company.

F. G. JEWELL, F.C.A., } *Auditors.*
J. F. KERN, }

London, Ontario, 26th January, 1920.

The President, Mr. John McClary, in moving the adoption of the Report said in part: It is my privilege to again move the adoption of such an annual report and financial statement as I feel sure will prove very satisfactory to you.

After paying the usual 9% dividend and the now very substantial Dominion Government War Income Tax our profits were sufficient by drawing somewhat upon the undivided balance brought forward to allow of our again placing the handsome sum of $100,000 to Reserve Fund.

Our Reserve Fund is now the splendid amount of $2,150,000 or almost 125% of our paid-up Capital, and with the Capital forms a total of $3,900,000, which is substantially more than our entire liability to our Depositors and Debenture holders without taking into account at all the uncalled liability of the shareholders in respect to the partly paid stock and premium thereon. I know of no other Company in as strong a position, and the Depositors and Debenture holders of The Ontario Loan and Debenture Company have reason for congratulation on the exceptional margin of protection their funds enjoy.

In view of the figures recited and now that definite peace have been declared and readjustment is proceeding satisfactorily without any sign that your Company's affairs have been seriously effected by the vicissitudes of the war or its after results, I think we need not be concerned to always make such substantial additions to our Reserve as we have been doing. No doubt the shareholders will concur with me in this.

In the absence of the Vice-President, Mr. Smart, through illness, the adoption of the Report was seconded by Mr. M. Masuret, who said: The statements before you show another successful year's business. Notwithstanding the heavy withdrawals from our Savings Department for subscriptions to the Victory Loan, the total of Deposits shows a substantial gain, and there is also a very gratifying increase in the amount of our Currency Debentures. All our investments are in excellent shape, and the percentage of arrears of Mortgages was lower at the end of 1919 than has been the case for many years. I agree with the President that the Directors should not now consider it necessary to add to the Reserve quite such a large proportion of each year's surplus profits.

The Report was then adopted unanimously.

The Scrutineers were then appointed and the election of Directors proceeded with, Messrs. John McClary, A. M. Smart, Lieut.-Col. William M. Gartshore, John M. Dillon, M. Masuret, C. R. Somerville and J. G. Richter being re-elected for the ensuing year.

It was moved by Mr. George C. Gunn, seconded by Dr. Henry T. Rea, that Messrs. Frank G. Jewell, C.A., and John F. Kern be and are hereby re-elected Auditors of the Company. Carried.

The meeting then adjourned, and at a meeting of the Board of Directors held subsequently, Mr. John McClary was re-elected President, and Mr. A. M. Smart, Vice-President of the Company.

THE
Security Life Insurance Company
OF CANADA

Synopsis of Annual Report for 1919

The applications received during the year for New Insurances and Revivals amounted to $1,916,500. Policies for $1,738,600 were actually issued or revived.

The gross insurance in force at December 31st, was $3,009,937. The gain for the year in Insurance in force was $1,351,650, being over 78 per cent. of the New Business issued.

The largely increased volume of business and the small lapse rate, indicate both the satisfactory character of the Company's policies, and the efficient work of the Agency Staff.

The Cash Statement for the year and the Balance Sheet as at December 31st, 1919, are submitted herewith.

The gross Cash Premium Income for the year was $83,480.30, an increase over the previous year of $37,003.03.

The Cash Receipts for the year from all sources were $121,598.76, while the total outgo for Death Claims (net), Re-insurance Premiums, Surrender Values and Expenses was $83,851.46, leaving $37,747.31 to be carried to Investment Account. An immediate result of the larger volume of business was that the ratio of Expenses to First Year and Renewal Premiums was greatly reduced in 1919.

The Death Claims (net) for the year were for $15,692 as against $29,660 for the year 1918.

In the Balance Sheet additional Reserves are provided for all excess guarantees under the Company's policies, and the Reserves provide for all Liabilities direct or indirect to Policyholders. If the business of the Company had been on participating plans, the extra premiums collected from Policyholders in the last four years alone would have been $38,245, and the surplus would be that much greater, but in turn there would be at least an indirect liability for the same amount with interest. The Reserves for the security of Policyholders increased during the year from $106,261 to $163,783.

The vacancy on the Board of Directors caused early in the year by the death of Mr. Waddington, was filled by the election to the Board of Mr. H. J. Daly, President of the Home Bank of Canada.

The London and Canadian Loan and Agency Company Limited

FORTY-SIXTH ANNUAL MEETING

The Forty-sixth Annual General Meeting was held in the Company's Head Office, 51 Yonge Street, Toronto, on Wednesday, February 11th, at 11 a.m.

The President, Mr. Thomas Long, occupied the chair, and the Secretary, Mr. William Wedd, acted as Secretary of the meeting. Messrs. D'Arcy D. Grierson and W. Ridout Wadsworth were appointed Scrutineers.

The Annual Report was unanimously adopted, and also the statements for the year ending 31st December, 1919, as presented by the Manager, Mr. V. B. Wadsworth. The report was as follows:—

The Directors have pleasure in submitting to the Shareholders the 46th Annual Report of the Company and the Statement of Accounts for the year ending 31st December, 1919, the result being as follows:—

The gross revenue, including the balance ($24,981.03) brought forward from last year, amounted to	$389,892.72
And, after deducting the cost of management, interest on Debentures, Dominion, Provincial and Municipal Taxes (including War Tax) and other charges, amounting in all to	201,773.75
There remains a net profit of	$188,118.97
Out of which four quarterly dividends have been paid at the rate of 8 per cent. per annum, and a bonus of 1 per cent., amounting in all to	112,500.00
Leaving a balance of	$ 75,618.97

Of which $50,000 has been transferred to the Company's "Rest Account" and $25,618.97 is carried forward at the credit of "Revenue Account" to next year.

The Rest Account now amounts to $950,000, being 76 per cent. of the subscribed and fully paid-up Capital Stock of the Company.

During the year applications for loans on mortgages were accepted and renewed to the amount of $745,670 on real estate valued at $1,817,000.

The total assets of the Company are now $5,085,872.

The business of the past year proved satisfactory, and shows a considerable increase in mortgage and other investments. Interest rates were well maintained, giving very profitable returns for the year.

A By-law for increased remuneration of the Directors will be submitted to the Shareholders for ratification.

The Directors desire to acknowledge the continued valuable services of the Scottish Board and Agents.

The various officers of the Company performed their duties faithfully and to the satisfaction of the Directors.

The books, accounts, vouchers and securities have been duly examined by the Auditors, and their certificate of audit is hereto appended.

THOMAS LONG, President.

Toronto, January 20th, 1920.

J. GEORGE, F.C.A. (Can.),
RUTHERFORD WILLIAMSON, C.A., } Auditors.

The Shareholders adopted a resolution ratifying a by-law to provide for an increase in the remuneration of the Directors.

The Auditors, Lieut.-Col. James George, F.C.A. (Can.), and Mr. Rutherford Williamson, C.A., were reappointed.

The following gentlemen were elected Directors for the ensuing year: Thomas Long, C. S. Gzowski, A. H. Campbell, C. C. Dalton, Goldwin Larratt Smith, Colin M. Black, W. S. and W. C. Noxon.

At a subsequent meeting of the newly-elected Board Mr. Thomas Long, who has been President of the Company since 1907, announced that, owing to failing health, he would no longer be able to serve in that capacity. Mr. Casimir S. Gzowski, the former Vice-President, was thereupon elected President, and Mr. Charles C. Dalton, Vice-President.

EIGHTH ANNUAL REPORT

The Western Life Assurance Company

Head Office - WINNIPEG, Man.

Your Directors have pleasure in submitting to the Shareholders and Policyholders their report of the Company's business for 1919.

ASSURANCES—New Policies were issued and revived amounting to $1,211,447, so that the total insurance in force now stands at $3,458,939, an increase over 1918 of $691,237. The increase in business in force is 57 per cent. of the new business issued.

INCOME—The gross cash revenue from premiums and interest amounted to $124,498.56, which together with an increase in the outstanding and deferred premiums of $7,013.03, shows a total income of $131,511.59. To this add an increase in the Interest Due and Accrued, which is also a true income, of $2,269.66, which makes the earning power of the Company for the year $133,781.25.

ASSETS—The Assets of the Company have now reached the total of $326,169.67. The increase in Admitted Assets was $49,912.84.

SURPLUS—The Assets exceed the total Liabilities to Policyholders by $100,457.65.

POLICY RESERVES—The Reserves held for the security of Policies in force, computed on the Om (5) Table of Mortality, with interest at three and one-half per cent., being in accordance with the Dominion Insurance Act, now amount to the sum of $211,497.00, an increase of $58,442.00 over 1918.

DEATH LOSSES—During the year Death and Disability Claims paid amounted to $16,308.00, of which $5,340.85 occurred in previous years. The total claims incurred during the year were $13,000.

ADAM REID, President.

DECEMBER BUILDING PERMITS

Decrease Compared With November, But Total is Three Times Permits for December, 1918

EMPLOYMENT in the building trades as indicated by the value of building permits issued in 35 cities, according to the Labor Gazette, showed a decrease during December as compared with the preceding month, the total value of building permits falling from $6,936,438 in November to $4,945,539 in December, a decrease of $1,990,899, or 28.7 per cent. Nova Scotia was the only province to record an increase in this comparison.

As compared with the corresponding month in 1918 there was an increase of 201.1 per cent., the value for December, 1918, being $1,642,362. In this comparison all the provinces recorded substantial increases.

Of the larger cities, Montreal, Toronto, Winnipeg, Edmonton and Vancouver recorded declines as compared with the preceding month. In comparison with December, 1918, these cities reported large increases. Of the smaller centres, Halifax, Sydney, Moncton, Sherbrooke, Westmount, Kingston, London, St. Thomas, Moose Jaw, Saskatoon and Victoria all recorded substantial increases both as compared with November, 1919, and with December, 1918.

The following are the details:—

Two million dollars has just been paid by the Dominion government to Sir Charles Ross for compensation for the expropriation of his rifle factory and plant at Quebec, under the War Measures Act, in March of 1917. The case was pending in the Exchequer Court and was to have come up for hearing this spring, the court's award being limited to a maximum of three million dollars, according to the terms of the order in council granting the fiat. Sir Charles Ross agreed to waive and accept the two million offered by the government.

TENTH ANNUAL REPORT OF

The Strathcona Fire Insurance Company

Head Office - 90 St. James Street, MONTREAL

A. A. MONDOU, N.P.,
President and General Manager

J. H. OLIVIER, N.P.,
Vice-President

JACQUES MARCHAND, Assistant General Manager

DIRECTORS:

H. SCHETAGNE, N.P.
F. A. LABELLE, N.P.
E. SYLVESTRE, N.P.
J. L. DOZOIS, N.P.
F. S. MACKAY, N.P.
H. O. ROY, N.P.
F. G. FORTIER, N.P.
M. P. LABERGE, N.P.
M. A. L. AUBIN, N.P.

Auditor: ALFRED CINQ-MARS, C.A., F.C.A. (Can.).

Report of Directors

To the Shareholders:—

Gentlemen,—Your Directors have much pleasure in presenting herewith the Tenth Annual Report, covering the year ending December 31st, 1919, together with the usual cash statment and balance sheet of Assets and Liabilities, duly certified by the Auditor. You will be pleased to note therefrom the continued growth and prosperity of the Company, and that the operations and results for the past year were the most successful ever reported to you.

The premium income was $341,683.56, being an increase of $78,643.46, over last year. The profit for last year's operations was $51,511.69 carried to the credit of Profit and Loss Account. The amount of risk now stands at $30,842,116.00. The number of policies in force is 29,117, and the average risk per policy is $1,060.00.

The expense ratio for 1919 was 42% of the net premium income, against 45% in the previous year, included therewith all Government and Municipal Taxes. The fire loss ratio was 35% against 42% in 1918.

This very favorable record is accounted for, in part, by the fact that the Company's risks are mostly on residential property in Cities, Towns and Villages, and it has therefore escaped loss from most of the destruction of industrial plants.

The profits represent 42% on the paid Capital Stock.

The special Fund deposited with the Quebec Insurance Department now stands at $59,000.00—and is the largest made by any Provincial Fire Insurance Company, furthermore, it is in excess of the Statutory Requirements.

At a meeting of the Board of Directors held to-day, a first Dividend of 6% (payable 3% the First of June and 3% the First of December) was declared on the Paid Capital Stock.

The books, vouchers and securities of the Company were continuously audited and checked during the year. The affairs of the Company are in a very healthy condition, and there is not a doubtful debt or asset of any kind carried on the books.

All of which is respectfully submitted.

A. A. MONDOU,
President.

Montreal, February 12th, 1920.

The Canada National Fire Insurance Company

HEAD OFFICE, - - - - WINNIPEG, MAN.

Ninth Annual Report of the Directors

To the Shareholders:—

It is with pleasure that your Directors beg to submit for your consideration their Ninth Annual Report, as well as the Statement of Assets and Liabilities and Revenue and Expenditure Accounts for the year ended December 31st, 1919, duly certified by the Company's Auditors.

Last year was a most unique one in many respects. The war had come to a close in the latter months of the preceding year, and there was naturally a feeling of buoyancy and optimism prevalent at the opening of the new year. It was not generally expected, however, that, after a period of about five years of war, general conditions would return to anything like normal in the short space of one year. History has simply repeated itself, in that, after all great and prolonged conflicts, a large degree of unrest has followed. It would be superfluous to enlarge on this phase of the conditions as existed in 1919. Suffice it to say, that the general unrest, accompanied by labor disturbance in various parts of this country as well as in other lands, had a very marked influence on business generally.

Consequently, while the year opened up under rather favorable auspices, the curtailment of building operations, partial failure of crops in certain portions of the west and other adverse features marred to a considerable extent the operations of the year, not only as to the volume of new fire insurance, but in many other lines of business also. Notwithsanding all this, however, your Directors are able to present to you to-day a most encouraging and gratifying statement of the Company's affairs.

The volume of business written in 1919 was about the same as the preceding year, which was the second largest in the history of the Company. Unless something unforeseen transpires, your Directors anticipate a larger volume of business this year than in any preceding year. Present indications point to an active renewal of building operations, in which this Company will no doubt benefit through the large amount of new fire insurance which will be written.

The Company's gross premiums on business written in 1919 were $287,377.55, being a slight increase over 1918. Reinsurance premiums amounted to $102,412.51. Gross insurance in force at December 31st, 1919, was $31,754,334.00, the premiums thereon being $455,892.24. Re-insurance in force at the end of the year was $8,907,048.00, the premiums on which amounted to $119,174.73. Net insurance in force at December 31st, 1919, was $22,847,287.00, on which the premiums were $336,717.51.

As regards "fire waste" in Canada, the year 1919 showed an improvement over the previous year, the estimated total losses in the Dominion being $23,207,647.00, as compared with estimates of $31,875,844.00 in 1918 and $20,086,085.00 in 1917. Last year, however, from the standpoint of forest fires, was one of the most disastrous in a period of over twenty years.

Now, with respect to this Company's experience last year, your Directors are pleased to report that the fire loss ratio reached the very low level of 33.45 per cent., as compared with 43.79 per cent. in 1918, which was considered a good showing when contrasted with the average of other companies operating in Canada, which, for a period of fifty years, from 1869 to 1918, amounted to 59.46 per cent. The Company's net fire losses for 1919 were $61,883.96, or $21,325.98 less than in 1918.

In some respects, last year was a precarious one for fire companies, as it was an unusually hot and dry summer, and this, combined with strikes and widespread labor unrest, when several of our largest Canadian cities were without adequate fire protection for certain periods, created most unusual conditions, so that it is a matter for congratulation that the year's record as a whole was so satisfactory. More than usual precaution was exercised during the year in the selection of risks, and this no doubt shows in the low loss ratio in our Underwriting Department.

Referring to the Company's securities, it will be observed that they are comprised in a large measure of mortgages. These mortgage loans are upon the security of city and farm properties, and totalled at the close of the year $1,434,103.89. Steady improvement was experienced throughout the year in the matter of loan payments, and is an indication of returning prosperity.

The previous year's statement showed a considerable amount yet unpaid on account of the Company's purchase of Dominion Government Victory Bonds. These bonds are now fully paid and amount to $555,000.00.

In the matter of stocks, bonds and debentures, this account stood at December 31st, 1919, at $679,296.97, an increase of $232,256.85 over last year. With the large amount of liquid assets possessed by the Company, it maintains a very strong financial position, and is readily able to meet any contingenices.

The reserve for unearned premiums showed an increase of $2,092.62, now amounting to $144,486.28. Re-insurance premiums (held on deposit) with reference to our foreign treaty companies, totalled $63,819.23, as against $61,012.44 in 1918.

Revenue from mortgages, stocks, bonds and miscellaneous sources was $152,230.63; and net fire premiums, after deducting cancellations, rebates and re-insurance, amounted to $184,965.04, or a total revenue for the year of $337,195.67.

The Company paid the usual dividend of six per cent., amounting to $109,278.66, an increase of $1,903.29 over 1918. After providing for all management expenses, fire losses and sundry other charges, there remained surplus profits for the year of $51,747.09, which were added to the net surplus, bringing that amount up to $297,585.42. This is a very satisfactory increase in net surplus for the year. The net surplus to shareholders, combined with the Contingent Fund of $100,000.00, make a total of $397,535.42, or, in other words, 21.77 per cent. of the paid-up capital.

As regards surplus to policyholders, this important item has now reached the large total of $2,123,543.62. As mentioned from time to time in the Annual Reports of the Company, our surplus to policyholders ranks amongst the highest of Canadian fire companies, and it is a matter for favorable comment that this Company offers such excellent security to its policyholders.

The progress made by this Company since its inception cannot but be favorably regarded, both by the shareholders and the general public. If good progress has been made during the last five or six years, in many respects the most strenuous period in the history of the country, surely it is not unreasonable to expect a much larger measure of success for our Company in the more prosperous years yet to come.

Notwithstanding the unsettled condition in Europe and other parts of the world, the prevailing sentiment in Canada to-day is that this country is about to enter a period of prosperous times, and if these hopes are realized, and there are many good reasons why we may expect a return to normal conditions in the comparatively near future, then, in the general development of our country, this Company, with its well-established agencies extending from ocean to ocean, should make very substantial progress.

Your Directors take this opportunity to thank the Shareholders and all those who have extended their patronage to the Company and contributed to its material welfare.

It is most gratifying to your Directors to be able to refer to the loyal devotion and efficient services of the officers and staff, and, at the same time, they desire to thank the numerous agents of the Company for their continued confidence in and their hearty support of the Company during the past year.

J. H. G. RUSSELL,
President.

Winnipeg, February 11th, 1920.

The election of Directors for the current year resulted as follows: J. H. G. Russell, Dr. A. D. Carscallen, Major D. E. Sprague, W. T. Alexander, W. J. Boyd, E. L. Taylor, K.C., F. H. Alexander, S. D. Lazier, Belleville, Ont.; Col. the Hon. A. C. Rutherford, Edmonton, Alta.; F. N. Darke, Regina, Sask.; Thomas S. McPherson, Victoria, B.C.; Andrew Gray, Victoria, B.C.

At a subsequent meeting of the new Board, Mr. J. H. G. Russell was elected President; Major D. E. Sprague and F. H. Alexander, Vice-Presidents, and W. T. Alexander, Managing Director.

AUDITORS' REPORT.

To the Shareholders:—

We beg to report that we have audited the Books and Accounts of the Canada National Fire Insurance Company for the year ending 31st December, 1919, and have found them properly stated and sufficiently vouched. We have verified the Cash on Hand and in Banks and the Mortgages and other Securities. In our opinion the Balance Sheet presents a correct view of the state of the Company's affairs as at 31st December, 1919, according to the best of our information and the explanations given us, and as shown by the Books of the Company.

(Signed) D. A. PENDER, SLASOR & CO.,
Chartered Accountants.

Winnipeg, 7th February, 1920.

Trade of Canada Shows Marked Increase

January Figures Shows Increase of $26,000,000 Compared With Last Year—Slight Decrease in Export of Manufactured Products—More Food Products and Textiles Imported

CANADA'S trade in January totalled $225,096,920, compared with $199,096,153 in January, 1919, an increase of about $26,000,000. In January, 1920, imports for consumption were valued at $103,579,349; those in January, 1919, amounted to $73,761,397. Exports of domestic merchandise in January, 1920, were valued at $117,948,674; those of January, 1919, at $116,358,387. The balance of exports of domestic merchandise over imports for the month was $14,369,325, as compared with a favourable balance of $42,500,000 in January, 1919.

For the ten months ended January 31, the trade of the Dominion totalled $1,932,694,310, as compared with $1,875,112,978 for the same period ended January 31, 1919. Exports of domestic merchandise in the ten months just closed were valued at $1,059,794,049, as compared with $1,063,633,743 in the previous corresponding period. Merchandise entered for consumption was valued at $834,521,948, as against $780,576,737 in the earlier ten-month period. The balance of domestic exports over imports for the ten months ended January 31 last thus was $225,272,101, as compared with $283,057,000 in the ten months ended January 31, 1919. Customs duties were collected in January to the amount of $18,083,915, and in the ten months' period to the amount of $148,017,955.

In the column of imports the principal increases were in food products and textiles and textile products. Imports of agricultural and vegetable food products rose from $7,590,000 in January, 1919, to $13,440,000. Imports of animals and animal products from $3,340,000 to $9,500,000. Imports of fibres, textiles and textile products rose from $14,207,065 in January, 1919, to $30,168,301 in January, 1920.

The following is the summary of Canadian trade:—

CANADIAN STOCKHOLDERS IN FOREIGN CORPORATION

Shareholder Subject to Double Liabilty for Investment in Minnesota Manufacturing Concern

A RECENT case which came before the Court of King's Bench for Manitoba was that of Allen vs. Standard Trust Co., in which Mr. Justice Galt decided that a British subject, who had bought and received shares in an American company was liable under the double liability clause which it was claimed obtained in the case.

The relief claimed was $5,000, being the par value of 50 preferred shares of the O. W. Kerr Co., held by the late Sir William Whyte. The plaintiff Allen sued as the receiver of the O. W. Kern Co., which is a foreign company, incorporated in the State of Minnesota, head office in Minneapolis, and doing business as vendors and purchasers of real estate; the Standard Trust Co. is the executor of Sir William Whyte's estate. The basis of the plaintiff's claim consisted in a double liability alleged to attach in favor of creditors to every share of stock issued by a corporation, which has become insolvent. In defence it was claimed among other things: (a) That the late Sir William Whyte had for 20 years past been domiciled in Manitoba and was not subject to the laws of Minnesota, nor has the plaintiff any cause of action against the defendant in Minnesota; (b) that the defendant was not a party to the proceedings in which the plaintiff was appointed receiver.

Law Where Contract Made

Mr. Justice Galt in his judgment on the case, referred to the law applicable to the questions in dispute, and stated that under the principles of international law a contract made in one country is often by the comity of nations enforceable in other countries. Referring to decisions in a number of cases, he quotes as follows from the decision in Capin vs. Anderson (1874): "(1) That the defendant was holder of shares in a French company having its legal domicile in Paris, and became thereby subject by the law of France, to all the liabilities belonging to holders of shares, and, in particular, to the conditions contained in the statutes or articles of Association."

The present case was argued by the defendants mainly on the ground that the plaintiff was seeking to enforce against the defendant a personal judgment obtained in Minnesota against the late Sir William Whyte, a non-resident and without notice. But the action was not upon any personal judgment nor were the appointment of the receiver nor the assessment levied on shareholders carried on without notice, for the manager of the defendant company produced papers showing: (1) That notice of a special meeting of the Kerr Co. to consider its financial difficulties, was sent to Sir William Whyte; (2) the receipt of a copy of an order from a Minnesota Court regarding the appointment of a receiver for the company; (3) that a copy of an order made by the Minnesota Court in regard to the enforcement of double liability on the shares in question was received. Thus notice of all proceedings was given Sir William Whyte.

Double Liability

In regard to the double liability question the Court is quoted as follows:—

"The liability sought to be enforced against the estate of the late Sir William Whyte is a constitutional liability, expressed in the statutes as follows: 'Each stockholder in any corporation, excepting those organized for the purpose of carrying on any kind of manufacturing or mechanical business, shall be liable to the amount of stock held or owned by him.' (See R.S. Minnesota, 1905, p. 1186.) This law is still in force as appears from the Revised Stats. of 1913, and by oral expert evidence. The construction placed upon this provision by the Supreme Court of the United States, and now applied by the Courts in Minnesota, is that it is a provision intended to protect the creditors of companies and that it imposes upon all shareholders a liability over and above any balance remaining due upon their shares, to the full extent of the par value of their shares. It operates as a double liability.

"The wording of the section does not clearly to my mind express a double liability. We have in Canada a liability of this kind in the Bank Act, 3-4 Geo. V., 1913, c. 9, s. 125. It is expressed in our statutes as follows: 'Insolvency—In the event of the property and assets of the bank being insufficient to pay its debts and liabilities, each shareholder of the bank shall be liable for the deficiency, to an amount equal to the par value of the shares held by him, in addition to any amount not paid up on such shares.' But if the law of Minnesota be taken to be the proper law of the contract, the interpretation of it cannot depend upon the view taken of it by any particular Judge or Court here in Manitoba."

Some Companies Excepted

"It is true that stockholders in any companies organized for the purpose of carrying on any kind of manufacturing or mechanical business are excepted from the double liability and Mr. Williams points out that under the powers conferred upon the company by its certificate of incorporation, the company has power amongst other things to sell and dispose of grist mills, flour mills, etc., and to do and perform all things necessary in connection therewith; but Mr. Morphy, on behalf of the plaintiff, showed very clearly that this exception is confined in Minnesota to companies *exclusively* carrying on a manufacturing or mechanical business, which cannot be said of the O. W. Kerr Co."

Minnesota Law to Govern

Mr. Justice Galt sums up his decision in six statements, the most important of which are briefly:—

(1) That the O. W. Kerr Co. was duly incorporated in Minnesota.

(2) That Sir William Whyte bought 50 preferred shares of the company and received dividends thereon.

(3) That Sir William Whyte was a British subject and a non-resident of Minnesota, and he purchased the shares in question in Winnipeg; but, in my opinion, the proper law of contract in question, in so far as the rights and liabilities of the late Sir William Whyte are concerned, is the law of Minnesota.

(4) Finally, I find that when Sir William Whyte became a shareholder of the O. W. Kerr Co., in the year 1911, he agreed by implication that his rights, liabilities and status as a shareholder in that company should be governed by the laws of Minnesota, and that under these laws the defendant company, as executors of the estate of Sir William Whyte, are now liable for the relief claimed (see Pickles v. China Mutual Ins. Co. (1913), together with interest at 6 per cent. in accordance with the law of Minnesota.

EASTERN TOWNSHIPS ASSOCIATED BOARDS

The annual meeting of the Eastern Townships Associated Boards was held in Sherbrooke, Que., February 10. Addresses were given by E. L. Stewart-Patterson, on "Exchange"; Hon. Sydney Fisher and Mr. Parmelee, on "Educational Problems"; Dr. John Hayes, on "Industrial Opportunities," and J. W. McKee, on board of trade mission in the smaller communities. The following officers were elected:—President, P. C. Duboyce, Richmond; vice-presidents, L. M. Thomas, Coaticook, and A. A. Paradis, Victoriaville; secretary, C. E. Soles, Sherbrooke; treasurer, W. M. Hillhouse, Sherbrooke.

The annual meeting of the Eastern Townships Immigration Society was held on the same day, and the following officers elected:—President, H. A. Best, Bedford; vice-presidents, C. H. Lalonde, Drummondville, and W. S. Armitage, Sherbrooke; executive committee, L. W. Farwell, V. E. Morrill, C. H. Lalonde, P. C. Duboyce, J. E. Poutre, Wm. Morris, K.C., R. C. Wilkins.

News of Industrial Development in Canada

West Taking Prominent Part in Developing Canadian Industry—Victoria to Ask Legislature for Aid in Providing Steel Smelting Plant—Gillies Proposal Not Favored — London to Get Large Metal Plating Plant

THE west promises to take an important part in Canada's industrial program this year, according to reports received from various centres. A greater development of flour milling, creamery products, livestock products, and other manufacturing based upon local raw materials, is expected, besides the increased development of cities for distributing centres of American and Eastern Canadian manufactures. In regard to the latter case, Regina, Saskatoon, Moose Jaw and Edmonton are becoming prominent, while boards of trade of the smaller localities are taking vigorous steps for development along this line.

The Brandon board of trade has started an active campaign to make the city attractive for industries. Many inquiries have been received recently regarding inducements which the city has to offer to factories and industries, and the board intends to assist in every way possible to get many eastern manufacturers there. The Air Craft Manufacturing Company, of Montreal, and a large knitting concern in Toronto were two parties making inquiries with a view to locating in Brandon.

New Industries for West

A new wholesale plumbing firm is to be located in Regina, Sask. Messrs. Crane, Limited, of Winnipeg, Man., have closed a deal for the purchase of a site on Eighth Avenue and Broad Street. Crane, Limited, is the largest concern of its kind on this continent and sells plumbing, heating and engineering supplies. It has been in existence sixty-two years and the headquarters of the west is at present located in Winnipeg, with the Canadian factory and head office in Montreal, with branches at Halifax, Toronto, Calgary and Vancouver in addition to the places named. F. R. Agnew, who has been western representative of the firm for the past seven years, said that he considered Regina as the logical distributing point for Saskatchewan. Crane, Limited, has been supplying most of the power plants in Canada, including the new Regina power plant, with material.

Many industries plan new buildings in Edmonton, Alta., this year. Among the most important are:—Quaker Oats Company, large factory; Beatty Bros., $200,000 warehouse; Marshall, Wells Company, new building on south side of 101A Avenue; Edmonton City Dairy, new plant on 105th Street; Ashdown's, of Winnipeg, hardware warehouse, approximate cost, $1,000,000.

Messrs. Bloedel, Stewart & Welch, Limited, of Vancouver, B.C., have purchased for approximately $500,000 a tract of timber land in the Nelson district, Vancouver Island, containing over 6,000 acres. This is claimed to be one of the finest tracts of timber at the coast, is situated within a distance of three miles from Union Bay, and is practically level, or sufficiently so to enable the operation of a logging railway on comparatively easy grades. The limits are said to contain from 350,000,000 to 400,000,000 feet of excellent fir, spruce, hemlock and cedar. The fact of its being crown granted means freedom from all government royalties and export duties, and this, together with its close proximity to tide water, and the low cost of operation, makes it one of he most desirable logging propositions in the coast country. It is understood that the purchasers have already commenced the construction of a logging railway and a dock at Union Bay, and within two months will be in a position to begin active operations. It is likely that the greater portion of the logs will be taken to Bellingham, Washington, and there manufactured at the mill of Mr. Bloedel, one of the members of the company.

The city council of Victoria will urge provincial aid in placing the iron and steel industry on its feet. This decision was reached following the discussion of a scheme put forward by A. P. Gillies, of New York, for the establishment of a $5,000,000 steel plant in Victoria, the government to guarantee the interest. The meeting at which the matter was debated was attended by representatives of several of the city's public organizations, and very little interest was shown in the Gillies proposition, which was mentioned in these columns last week, the contention being that instead of encouraging foreign capital to exploit the province's resources, the government itself should step in and develop the industry or else assist British enterprise in accomplishing the same end.

Ontario Industries

Several announcements have been made within the past week of the establishment of new industries in Ontario and the extension of those already existing. London will get the Canadian branch of the Detroit Gartley, Weston Company, of Detroit, manufacturers of metal plating, which will employ about 500 men when their plant opens in the near future. The officers of the company will be as follows:—Robert I. Towers, of the legal firm of Cowan & Towers, Sarnia, president; P. C. Gartley, Detroit, vice-president and director of sales and advertising; Malcolm Mackenzie, formerly of Mackenzie, Milne & Company, of Sarnia, vice-president and treasurer; Frank J. Weston, Detroit, secretary, and James F. Perkins, of Detroit, production engineer.

Negotiations have been commenced to locate two large coke companies in the harbour industrial area, Toronto. Another industry, it is expected, will be located in a flat of a building at the foot of York Street.

Extensions to the mills of the Dominion Foundries and Steel Company, Hamilton, are being rapidly pushed ahead. All told, there is in the neighborhood of one million dollars being spent on plant extensions. The plate mill is well under way, and is expected to be operating within the next six or eight weeks.

The Champion Spark Plug Co.; has opened a factory at Howard and Hanna Streets, Windsor, for the manufacture of all parts of the spark plug, with the exception of the porcelain. This is the first factory of its kind in Canada, all spark plugs having been formerly imported from America.

Large Steel Plant Bought

The sale has just been completed at Collingwood of the Northern Iron & Steel Company's plant to steel interests from the United States represented in the negotiations by M. J. Shaw, a Toronto broker, and R. J. Courtney, of Buffalo. The price is said to be $200,000. Informal discussions have taken place between the purchaser and town officials, and it is understood the plant will be continued as an active concern. The Northern Iron & Steel Company was originally promoted by Col. J. A. Currie, M.P. It was bought during the war by Wm. Kennedy & Sons, Limited, of Owen Sound, and D. J. Kennedy acted as manager. Munitions and billets were made, but the plant has been closed for the past few months. Subsequently the Western Canada Steel Corporation, which has plants at Calgary, Medicine Hat and other points, with headquarters in Calgary, took it over, and by them the sale was made this week to the American interests.

A new industry is about to start in Renfrew, under the name of the Renfrew Yarn Company, which will manufacture yarn for domestic purposes. The new industry is to be housed, temporarily at least, in the machinery hall at the fair grounds.

A paper mill is proposed for Brockville, on the Wood property, at a cost of $400,000. A large plant is also to be erected by Machinery & Foundries, Limited, on the former Murray property adjoining the Grand Trunk Railway.

THE FOUNDATION OF A GREAT SUCCESS

The world-famous merchant, John Wanamaker, attributes his phenomenal success to having carried Life Insurance on the endowment plan. This system encouraged him year by year to lay by a fixed amount of money. As means increased, additional policies were taken and as they matured the proceeds were invested in new departures in connection with the business. These endowment policies helped greatly in the accumulation of capital. Every young man should carry Endowment Insurance. It furnishes a motive for saving. Money that might otherwise be dissipated is accumulated—and at good interest. Many have laid the foundation of success, not so notable perhaps as that of the Philadelphia millionaire, through investing in Endowment Policies in the Mutual Life of Canada.

Do not spend your surplus, lay it by for a sunny day by means of a Mutual Life Endowment

The Mutual Life Assurance Co. of Canada
Waterloo Ontario

"Old Age Pension"

To obtain Life Insurance is to take advantage of the surest preventive of poverty civilization has produced.

Some think of Life Insurance as benefitting others alone. The first idea is to protect dependents, but this is by no means the only benefit. There is no better way of caring for one's own future, no better "old age pension" fund, the payments for which are largely at one's own disposal during the whole period of payment.

The Great West Life Policies provide protection on most attractive terms. They are inexpensive, clearly-worded, liberal and profitable. Ask for information, stating age.

NEWS OF MUNICIPAL FINANCE

Victoria Estimates Over $2,000,000—Revision of Toronto Assessment—Moose Jaw Debt $500,000 Under Borrowing Power—Penticton Has Favourable Year

Moncton, N.B.—The city estimates for 1920 total $367,471. The principal items are:—City government, $11,529; sinking fund, $12,925; debentures, $10,500; interest, $45,763; schools, $141,419; streets and sewers, $40,000; fire department, $37,607.

Victoria, B.C.—A draft of the city estimates, which total over $2,000,000, has been submitted to the city council as follows:—City debt, $489,406; municipal council, $7,000; legal department, $8,300; civic salaries, $34,802; city institutions (police, parks, library, etc.), $384,560; buildings, $2,000; miscellaneous, $91,300; education, $439,841; board of health, $42,340; works department, $321,901; waterworks, $281,578; total, $2,103,030.

Toronto, Ont.—Assessment Commissioner Forman announces that active work has been commenced on the revision of the assessment for the year. Although the assessors have not yet started upon their rounds a great deal of valuable work has been accomplished in the revaluation of lands in various parts of the city and it is anticipated a large advance in values will be made when the assessment rolls for the several wards are returned. The aim of the department for some time past has been to bring about such changes as will remvoe all cause for complaint regarding the equitableness of the assessments.

Moose Jaw, Sask.—A statement just issued by the city commissioners shows that the city's net debt at the end of 1919 was $4,060,271, and but $539,728 less than the city's net borrowing power. At the end of 1918 the net debt was $4,021,557. The statement shows that the gross debenture debt was $6,058,487, less unsold debentures, $103,000, library debentures, $76,956, and other deductions totalling $1,818,259, including $864,683 for sinking fund. The total borrowing power of the city is $4,600,000.

London, Ont.—It is expected that the tax rate this year will be about 38 mills which is a considerable increase over last year. Referring to the increase Mayor Little said:—

"It is preferable to have a high rate and something accomplished with it than to keep the rate lower and have nothing done. We must do a certain amount of paving and there are other necessary improvements that must be done this year. These are bound to bring the rate higher than it has been for some time. Personally, I think that the general public will agree with this principle."

This opinion is held by the majority of the members of the council. While they all are bound to keep down any extravagant expenditures, on the other hand they are determined to do what is necessary for the progress of the city.

Brandon, Man.—At a special meeting of the city council last week, when several questions for which legislation will be asked were up for discussion, a proposed amendment to the assessment act was defeated. The proposed amendment provided that the amount of an assessment should not be varied on an appeal if the value at which it is assessed bears a fair and just proportion to the value of the land in the immediate vicinity of the land in question. Legislation which will allow the city to levy a rate sufficient to pay all the debts falling due within the year, notwithstanding that such rate may exceed two cents on the dollar, is being asked for, but the legislation which would provide commissioners for the city was referred back, as was also the power to enable the city to extend the time for payment of taxes in arrears from time to time as they see fit.

Penticton, B.C.—In submitting the annual financial statement of Penticton for 1919, Reeve Smith said:—"The finances of the town are in a more satisfactory state than for some years past. Partly owing to the general prosperity and partly owing to the substitution of a penalty for a rebate, a much higher proportion of the taxes was paid in 1919 than in previous years, making it possible to bring the sinking fund up to date. The small deficit is due to sums having been withdrawn at various times to redeem debentures that have occaslonally come on the market. As over three-quarters of the sinking fund is invested in securities bearing a higher rate of interest than that allowed for in the schedule of bonded indebtedness, this deficit will automatically disappear in the course of three or four years. The fact that the sinking fund charges to date have been met places the credit of the town once more on a firm basis.

"Of the arrears of taxes due on December 31, 1918, there have been collected $26,754. Land carrying tax charges to the amount of $1,531 has been assumed by the municipality at a recent tax sale."

The balance sheet of the town shows excess of assets over liabilities of $142,213. On the assets side the principa items are:—Arrears of taxes, $35,708; other arrears and debtors, $61,443; unsold debentures, $75,000; sinking fund $75,555. On the liabilities side the principal items are:—Debenture liability, $605,000; bank loan on electric light debentures, $30,000; amount due sinking fund from taxes $3,743.

Red Deer, Alta.—The balance sheet of the city, which is printed elsewhere in this issue in detail, for the year 1919 shows capital assets of $478,712 and capital liabilities of $313,561, leaving a capital surplus of $165,150. The principa items on the assets side are: Equipment, $11,120; real estate and buildings, $231,003; construction, $236,588. On the liabilities side: Debenture debt, $76,973; construction, $236,588

The revenue account shows a surplus of $7,962, receipts being $165,357, and expenditures $157,395. The principa items under expenditures are: Cash on hand and in bank $6,900; total arrears of taxes, $124,918; lands sold, $8,430 Under expenditures the principal items are: Overdraft, $1,282; accounts payable, $5,734; bills payable Imperial Bank of Canada, $59,907; treasury bills, $43,000. As mentioned in these columns last week, the city tax collections for the year were the best in its history, and the floating debt was substanitially reduced.

Hamilton, Ont.—City Treasurer Leckie has just issued a report of the city's revenue and expenditure for 1919. The report shows that the city collected $132,778 more than was estimated in the previous year. The estimated revenue was $3,710,521, and the actual $3,845,300. Taxes were collected to the amount of $2,952,176, compared with the estimate of $2,928,160.

OBJECT TO BUSINESS PROFITS TAX

The Canadian Manufacturers Association is asking for evidence from its members in support of its arguments against the renewal of the business profits tax. In a circular under date of February 11, the general manager of the association says:—

"The objections which have been offered are as follows:—(1) That it checks enterprise and does not encourage the investment of capital; (2) that it prevents plant expansion; (3) that it has resulted in increasing prices from the raw material to the distributor.

"It has been pointed out that it is unfair to firms with new business and a lower basis of pre-war profits; that its continuance means that Canadian business houses will be at a serious disadvantage in meeting United States competition, and, finally, that its discontinuance would mean a substantial expansion of business, lowering of prices and an increase in revenue to the government through a readjustment of the income tax."

The Ontario Hydro-Electric Power Commission will take over the Guelph Street Railway on July 1st. The formal arrangements have now been completed.

The Ontario Mining Association was organized in Toronto a few days ago to look after the interests of the mining industry as a whole. The officers are as follows: President, A. D. Miles, of the International Nickel Co.; first vice-president, F. L. Culver, president and general manager of the Beaver and Kirkland Lake Gold Mines; second vice-president, G. C. Bateman, general manager of the La Rose Mine; secretary, B. Neilly, M.E.

MONTREAL CITY AND DISTRICT BANK

Changes similar to those experienced by the chartered banks are indicated in the report of the Montreal City and District Savings Bank for 1919. These were referred to in *The Monetary Times* last week. Deposits increased from $33,808,573 to $40,213,589, though an item of "special deposits without interest" shown separately last year and apparently included under the general heading this year, probably accounts for part of the increase. The amount of cash on hand and in chartered banks has been decreased from $8,586,768 to $6,782,375, but holdings of bonds, and call and short loans, more than make up the difference.

While the expansion in business has been great, profits, although a little higher, have not increased in proportion. The same tendency is found in the reports of almost every other bank for 1919. The Montreal City and District's profit for 1918 was $234,642, and for 1919 $240,590. Dividends at the usual rate were paid, and a balance of $280,222 carried forward in profit and loss, compared with $243,942 brought forward from 1918.

Condensed Advertisements

The cumulative preferred shares are preferred as to both assets and dividends. Dividends will be payable quarterly and the stock ranks for dividends as soon as issued.

Where owners of stock reside in countries other than Canada, dividends will be paid at par of exchange in such countries, provided the premium involved does not exceed 5%. Where the premium exceeds 5% the holder will be given the benefit of 5% premium.

ASSETS

Land Valuation (National Trust Co., Valuation January 27th, 1920)	$306,000
Cost of Building will exceed (Statement of C. Howard Crane, Architect)	400,000
Total Valuation	$706,000
Mortgage	250,000
Representing an equity, after deducting mortgage of	$456,000

Or over $130 for each preferred share issued.

EARNINGS

A careful and conservative estimate of earnings made by Messrs. Jule and J. J. Allen, and based on actual results obtained by Allen Theatres under similar conditions, is as follows:—

Gross revenue from operation	$468,000
Cost of operation, depreciation, etc.	253,000
Surplus available for dividends	$215,000

Representing 60% earned on preferred stock or 7½ times dividend requirements.

Bankers:
The Canadian Bank of Commerce

Auditors:
Clarkson, Gordon & Dilworth

Transfer Agents:
The Toronto General Trusts Corporation, Toronto
The Bankers Trust Company, Montreal

Valuators:
The National Trust Company, Montreal
C. Howard Crane, Theatre Architect, Detroit

The Allen chain of theatres in Canada now seat 48,932 people, will have about 13,900 more seats in 1920, and a grand total of 100,000 in 1921, if present plans are carried out.

Probably the best assurance as to the proper and efficient management of this theatre is the remarkable success which has attended the Allen Theatre enterprises throughout Canada. Close affiliation with both British and American Film Corporations assure their obtaining the best and newest productions at all times.

The Allen Theatre Co. operating theatres in Calgary and Moose Jaw paid 12% in 1918, 15½% in 1919, and total dividends to end of 1919 of 67½%.

Allens down-town theatre in Toronto inaugurated dividends on the Common Stock six months after starting in operation, paid 10% during the following year on these shares, and is now earning 1% monthly. Allens Danforth Theatre, Limited, Toronto, opened on August 19th, 1919, and in addition to paying the dividends on the Preferred Stock to date, started on November 1st to pay dividends on the Common. A similar stock record has been made by Allen Theatres in other parts of Canada, and we believe that the Common Shares now being given as a bonus with the Preferred Stock should be a big earner in the future.

No Director's fee or remuneration will be paid to the Directors or Officials of this Theatre, their entire interest being in the common stock of the Company and their ability to earn dividends.

PRICE: Par, with 25% Bonus of Common Stock

Fractional Shares of the Common Stock will be adjusted on the basis of $50.00 per share, at the option of the purchaser.

Government and Municipal Bond Market

New Brunswick Makes a Favorable Loan—Price Paid for $500,000 5½ Per Cent. 20-Year Issue Was 95.15—Very Little Change in Prices of Ontario Municipals—Greater Winnipeg Water Bonds Did Not Receive Favorable Reception

THIS week was featured by the sale of $500,000 5½ per cent. 25-year province of New Brunswick bonds to Messrs. J. M. Robinson and Son, and the Eastern Securities Co., Ltd., at 95.15. At this price the province paid about 5.85 for its money and in view of present conditions, the deal is considered a good one on the side of the province. The other provinces which have borrowed this year, including Saskatchewan, British Columbia and Ontario, paid about 5½ per cent. for their money. The above issue is for the purpose of refunding 4 per cent. debenture stock of the St. John and Quebec Railway Co., now held in London, Eng., and it is expected that it will be disposed of locally.

The offering of the Manitoba $2,498,000 6 per cent. 10-year gold bonds in the United States is being watched with interest from this side. The syndicate handling the issue is composed of J. P. Morgan and Co., National City Co. and Harris, Forbes and Co., and the offering price is 94.62, to yield about 6¾ per cent. Dealers expect to be able to judge the powers of absorption in the American market for Canadian securities, by the reception it receives.

Up to the time of going to press no definite information has been received regarding the Greater Winnipeg Water District $1,000,000 5½ per cent. 20-year bonds, although it is stated that only one tender was received, and that it was not altogether favorable in the eyes of the commissioners. Bond dealers are doubtful as to the successful absorption of the issue in the Canadian market under present conditions, and with 6 per cent. 10-year bonds selling in the States around 6¾ per cent., it is improbable that a long-term issue, such as the Greater Winnipeg Water bonds, would make a very attractive offering there.

Prices of Ontario municipals appear consistent with the present conditions of the market, and very little change is visible. Carleton County was sold on a basis of about 6.05, while Renfrew County sold at about 6.20. Woodstock bonds brought a price of 93.39, which is on about a 6.28 basis.

Coming Offerings

The following is a list of offerings, of which mention has been made in this or previous issues:—

Penticton, B.C. ....$	75,000	6	20-years	Feb. 25
Renfrew County, Ont.	150,000	5	20-years	Feb. 18
Thorold, Ont.	7,832	6	30-years	Mar. 1
Moose Jaw, Sask. .	91,000	5½	Various.	Mar. 6
Nokomis, Sask.	20,000	7	15-years	Apr. 1
*Victoria, B.C.	20,065	6	Various.	....

---

*Offered locally.

Thorold, Ont.—Tenders will be received until March 1, 1920, for the purchase of $7,832 6 per cent. 30-year debentures. D. J. C. Munro, treasurer.

Moose Jaw, Sask.—Tenders will be received until March 6, 1920, for the purchase of four blocks of 5½ per cent. debentures as follows: $16,000, bridge, 10-years; $13,000, station, 30-years; $40,000, waterworks, 30-years; $22,200, 15-years, sidewalks. (See notice elsewhere in this issue.)

Debenture Notes

Bifrost R.M., Man.—Ratepayers will be asked to vote on the issuance of $8,500 debentures on March 6.

Vancouver, B.C.—Ratepayers will be asked to approve the expenditure of $300,000 for waterworks improvements.

Windsor, Ont.—The local hydro commission will ask the city council to prepare and issue debentures to the amount of $150,000 for hydro-electric improvements.

Brandon, Man.—The hospital board has received the assurance of the government that it will guarantee bonds to the extent of $200,000 for a proposed new hospital.

Sherbrooke, Que.—Ratepayers will be asked to vote on the issuance of $577,000 bonds on March 3. The bonds will bear 6 per cent. interest, and will be issued in a series of from one to fifteen years.

Edmonton, Alta.—City capital expenditures this year total $1,983,500. It is probable that they will be cut down to a certain extent, but an issue of $1,250,000 securities will be required to take care of the most essential items.

Winnipeg, Man.—Debentures totalling $493,039 mature and will be paid this year by the city. The debentures are in two issues, one of $129,202, falling due April 30, and the other $363,837, due May 15. Sinking fund moneys will take charge of the issues, as they are presented to the city treasurer. The rate of interest is 4 per cent. By-laws for the expenditure of $425,000 for improvements to King George hospital, for the reconstruction of the Maryland Street bridge and for the expenditure of $1,500,000, may be submitted to the electorate this April.

Lethbridge, Alta.—The provincial government is working out a plan of financial assistance to irrigation projects in Southern Alberta, which will be based on a proposal to create an "Assurance" fund, capitalized at possibly 6 per cent., on $2,000,000, with which to guarantee a limited amount of interest. The gist of the proposal is that the provincial government would provide a fund of about $600,000, sufficient to guarantee to purchasers of the bonds that the interest would be paid during any period of temporary reverse to the irrigation enterprise. In the event, for instance, of a receiver having to be appointed in the case of some miscalculation, mismanagement, or over-estimate of construc-

RSC INVESTMENT-SERVICE

220,000 Cash Customers Every Day

The seating capacity of the 31 Famous Players Canadian Corporation's theatres will be 45,000. This means about 220,000 patrons a day, for 313 days a year. Every customer pays cash. No bad debts.

And remember, hard times do not affect motion picture patronage. They stimulate it. Human nature seems to drive people to "movies" in days of depression. War proved this.

This is important when weighing both the security and the earning-power of the 8% Cumulative Preferred Shares of Famous Players Canadian Corporation.

A Substantial Bonus of Common Shares is being given to original investors in these Preferred Shares. The potentialities of profit through appreciation in value of the Common Stock Bonus are strong.

Write now for full particulars.

tion, such a fund, it is argued, would provide for emergency payments of interest on bonds, and at the same time leave sufficient money on hand to provide necessary maintenance and any repairs that might be required to make the system successful. This, in effect, is the compromise proposal of the Alberta government to the proposal of the Dominion government, that the latter will provide the cash for irrigation development on condition that the province guarantee the bonds.

Bond Sales

Carleton County, Ont.—Messrs. R. C. Matthews and Co., have purchased the $40,000 6 per cent., debentures at 99.12, which is on a basis of about 6.05 per cent.

Renfrew County, Ont.—Messrs. Wood, Gundy and Co. have purchased $150,000 5 per cent. twenty-instalment debentures at 90.57, which is on about a 6.20 basis.

Spirit River, Alta.—Messrs. W. Ross Alger and Co., have been awarded the $30,000 6 per cent. 15-year road and bridge debentures at 95.08 and accrued interest. Messrs. Brent, Noxon and Co., bid 93.43 and accrued interest.

Woodstock, Ont.—The $100,000 5½ per cent. 30-instalment sewer debenture issue has been awarded to the Dominion Securities Corporation at 93.39 and accrued interest, which is on about a 6.28 per cent. basis.

ONTARIO LOAN AND DEBENTURE

The report presented at the annual meeting of the Ontario Loan and Debenture Company in London, Ont., on February 11, was a favourable one, profits being about the same as last year. Currency debentures have grown from $1,027,320 to $1,327,536 within the year, while deposits have increased from $825,413 to $900,872. The reserve fund was increased by $100,000, and now stands at $2,150,000. Mortgages on real estate have decreased from $5,214,704 to $4,761,802, while government bonds, municipal debentures and stocks owned show an increase from $1,422,794 to $2,319,634. The usual dividends of 9 per cent. per annum were paid, amounting to $157,500. Net earnings show little change at $270,837, as against $268,390. The balance carried forward is $32,623, compared with $43,942.

In his remarks to the shareholders, the president, John McClary, said:—

"In addressing you last year I ventured the opinion it would be at least a year before we could hope for a return to a normal basis of affairs in this country. Though good progress has been made in many respects, the very great scarcity and consequent high prices of all materials for home making both on the farm and in the town has prevented anything like a return to normal conditions for mortgage loaning.

"We have found the demand for a good class of mortgage loans light and believe mortgage companies in general will do so until such time as building materials become plentiful and as a consequence more reasonable in price. Many of those who now apply for mortgage loans wish to base them entirely on the present high building costs. In the same way many farm loans are applied for on the basis of land values influenced by the present exceptionally high prices of food products and are expected to be liquidated by continuance of these exceptional returns. It must be recognized mortgage loans are for a term of years and can only be safely based on values which as far as can be foreseen will not be less at maturity of the loans than when same are first granted."

Announcement has been made by the National Appraisal Co. that they are opening offices in the Royal Bank Building. Toronto. The Toronto office will be under the management of H. G. Meir, former Canadian general manager of the Lloyd-Thomas Appraisal Co., of Chicago.

ANNUAL MEETING OF

The Montreal City and District Savings Bank

SEVENTY-THIRD ANNUAL REPORT

To the Shareholders: MONTREAL, February 9th, 1920.

Gentlemen:

Your Directors have pleasure in presenting the Seventy-third Annual Report of the affairs of the Bank and the result of its operations for the year ending December 31st, 1919.

The net profits for the year were $240,590.01, and the balance brought forward from last year's Profit and Loss Account was $243,942.90, making a total of $484,532.91. From this amount have been paid four quarterly dividends to our Shareholders and $5,100.00 has been contributed to various charitable and philanthropic Funds, leaving a balance at the credit of Profit and Loss Account of $280,222.27 to be carried forward to next year.

For the accommodation of our clients in Maisonneuve, a new branch has been opened at the corner of Lasalle and Adam Streets.

As usual, a frequent and thorough inspection of the books and assets of the Bank has been made during the year.

The report of the Auditors and the Balance Sheet are herewith submitted.

R. DANDURAND, *President.*

Statement of the Affairs of the Montreal City and District Savings Bank on the 31st December, 1919

A. L. LESPERANCE, *General Manager.*

Auditors' Report

Having obtained all the information and explanations we have required, and having satisfied ourselves of the correctness of the Cash Balances, and examined the Securities held against the Money at Call and Short Notice, and those representing the investments of the Bank, and having examined the foregoing Balance Sheet and compared it with the Books at the Head Office, and with the Certified Returns from the Branches, we are of opinion that the transactions of the Bank have been within its powers, and that the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs as shown by the Books of the Bank.

A. CINQ-MARS, C.A.,
C. A. SHANNON, L.I.A., } *Auditors.*

MONTREAL, February 5th, 1920.

CORPORATION SECURITIES MARKET

Preferred Stock Issue of Gunns, Ltd. Being Offered—Otherwise Market is Quiet

ALTHOUGH considerable trading in outstanding issues is taking place, very few new issues of corporation bonds or stocks are being underwritten at the present time. The low rates of exchange, although they have affected government and municipal bonds and the stock markets more strongly, have also depressed prices for industrials. Dealers, therefore, prefer to handle day to day trading business, rather than risk further declines by undertaking to market new issues.

As mentioned in these columns last week, an issue of $1,500,000 of cumulative preferred stock in Gunns, Ltd., one of the largest and oldest Canadian packing houses, is being offered by the National City Co. and Greenshields and Co. In accordance with recent tendencies in the packing industry, Gunn's became associated last year with Morris and Co., of Chicago, one of the largest packing companies in the world. As there are no bonds, and this is the first issue of preferred stock, the security is excellent, and at the offering price of 97.50 per share the stock will yield 7.18 per cent.

An issue of $350,000 of 8 per cent. cumulative preferred stock of Allen's Montreal Theatre, Ltd., is being offered by Housser, Wood and Co., at par, with a bonus of 25 per cent. common stock. The company will operate a new theatre on St. Catharine St., Montreal, with a seating capacity of 3,000.

An issue of $2,500,000 of convertible debentures of Granby Consolidated Mining, Smelting and Power Co., may also come on the market shortly. Large capital outlays have been made during the past two years, says President Nichols, chiefly for the purpose of providing the company with its own coal and coke facilities. The new debentures will be to extinguish current liabilities incurred in this way.

An issue of 8 per cent. preferred stock of the Oak Tire and Rubber Co., Ltd., Toronto, will probably be placed upon the market shortly to finance additions recently made to the factory and equipment. It is also understood that an issue of Paramount Pictures Corporation stock will be offered soon.

LISTED STOCKS HAVE HEAVY TONE

New York Market Takes Further Drop, but Partially Recovers—Many Declines Registered on Canadian Markets, With Few Advances

DURING the week ended with the close of business on Wednesday, stocks on the New York market declined rapidly, and although the last two days saw some recovery, prices still remained comparatively low. The accompanying chart reproduced from the "Analyst," of New York, illustrates the sharp turn taken by New York stocks in November. There is no doubt now as to which way the market is headed, and the question is only how far the movement will continue.

On the Canadian exchanges, Atlantic Sugar common was one of the features of the week; trading in this stock totalled 29,070 shares in Montreal, and 5,432 in Toronto, and an advance of about seven points was made. Brazilian was also active, but with little change in price, and Montreal Cottons common, following the increase in dividend from 5 to 6 per cent., registered a small advance with considerable trading.

Dealing in bonds was much lighter than last week. The 5½ per cent. war loan due 1923 and 1937 were particularly active, 167,600 shares of the former, and 774,450 trading hands in Montreal during the week, compared with 142,850 and 147,400 respectively, during the week ended February 11th.

THE MOVEMENT OF NEW YORK STOCK MARKET AVERAGES

The black line shows the closing average price of fifty stocks, half industrials and half railroads. The black area shows for each week the highest and lowest daily average price of the twenty-five industrials and the white area the corresponding figures for twenty-five rails.

INVESTMENTS AND THE MARKET

(Continued from page 7)

and the 1st of December, 1919. The holders of the second mortgage bonds waived all interest due on their security up to the 31st December, 1919, which amounted to a considerable sum. Not one of the holders of both these securities during the extended period their interest remained in default, made any demand upon the company for its payment."

The following directors were elected: Charles R. Hosmer, president; J. M. Mackie, vice-president; Sir Herbert S. Holt, Sir Charles Gordon, Charles Meredith, William Harty, Jr., Sir Montagu Allen, J. K. L. Ross, Hartland B. MacDougall, H. V. Higgins. Frank S. Quick continues as general manager and F. E. McNally as secretary-treasurer.

Laurentide Power Co., Ltd.—The annual report of the company presented to shareholders on February 17, showed that the net profits applicable to common stock amounted to $283,950, and the dividends at the rate of 4 per cent., amounted to $420,000, leaving a deficit of $136,050. In his address, President J. A. Aldred said: "Your directors recognized this condition, but knowing that in July, 1920, the blocks of power taken by the Laurentide Co. and the Shawinigan Co. would materially increase the income of the Laurentide Power Co., they felt justified in paying the regular dividend. The financial condition of the company subsequent to July 1st, 1920, will be excellent, due to the increased revenue which becomes effective on that date.

"The gross revenue for the year fell by $18,000 to $837,737 owing to the termination of the war and the reduction of the excess power loads, which the Laurentide Power Co. was supplying over and above firm contracts. Expenses were cut by nearly $10,000 to $176,769, leaving net earnings at $671,075, as compared with $686,767 the preceding year. With the deduction of bond interest amounting to $375,000, and last year with exchange on bond interest amounting to $12,125, the amount left for dividends on the $10,500,000 capital stock was $283,950. The payment of $420,000 in 4 per cent. dividends required the withdrawal of $136,050 from the treasury, leaving a deficit after income tax of $142,614, so that the total surplus, amounting to $162,420 at the end of the preceding year was reduced to a present surplus of $19,806."

Among the more important items in the balance sheet, accounts receivable show a decrease of $180,000 at $76,322, and investments are down $20,000, while the cash item also has been reduced by over $30,000 to $198,260. On the liabilities side of the account, accounts payable have been increased from $244,328 in 1918 to $258,680.

Maritime Telephone and Telegraph Co.—At the annual meeting of the company last week, President S. M. Brookfield, in presenting the report to shareholders, said:—

"The increase in subscribers during the year was 1,770, the number of owned stations on December 31st, was 26,406, and the number of connecting stations 5,139. At the present time we have some hundreds of orders on hand for additional telephone service, all of which we hope to take care of within the next few months. Your company has now under construction a new brick building for the Lorne Exchange, Halifax, to replace the old wooden building, which was so badly damaged by the explosion in December, 1917. The switchboard in this exchange has reached its maximum capacity, and, on completion of the new building, there will be installed an automatic switchboard of the most modern type. The automatic system is much more expensive in first cost than the manual system, but the additional interest charges are offset by the saving in operators' wages.

"Outstanding Federal taxes for 1917 and 1918, amounting to $12,067, have been paid and charged to the surplus account. This has practically wiped out our surplus, but the Public Utilities Commission has allowed us a contingent reserve of $50,000 to cover losses during the year, etc., so that the company's actual position is much stronger than appears by the statement.

"In order to furnish the necessary additional plant to properly take care of the rapidly growing business of the company, it will be necessary to dispose of the $1,000,000 of 7 per cent. preferred stock authorized at the last annual meeting. This stock will be offered to the shareholders at once, and your directors trust that every shareholder will take up the allotment, in order that the operations of the company may not be handicapped for want of capital."

Woods' Manufacturing Co., Ltd.—The annual financial statement of the company for 1919 shows profits of $639,812, as compared with $824,201 in the preceding year and $770,816 in 1917. The balance for dividends, however, at $608,662, was higher by about $6,000 than in the preceding year, this being made possible by a reduction of nearly $2,000 in bond interest, nearly $7,000 in donations of various kinds, by no provisions for taxes, as compared with $200,000 in 1918 and $110,730 in 1917. The amount left for common dividends was $500,407, as against $494,121 the preceding year, and after dividends the surplus amounted to $294,175, as compared with $287,900 in 1918 and $313,891 in 1917. This, with the previous surplus, brings the present surplus up to $2,385,615, as compared with $1,091,440 the preceding year, after $200,000 had been set aside for rest account, nothing being set aside last year.

The company's balance sheet shows a slight increase in inventories of $3,661,090, a slight decrease in accounts receivable to $1,017,634, nearly $100,000 increase in investments to $433,886, and a contraction in the cash account from $105,000 to $781. On the liabilities side of the account, the retirement of $30,000 of bonds reduces the indebtedness by that amount, a bank loan of $469,000 has been added to the company's debts, accounts payable have been reduced by more than a million to $1,095,147, goods in transit have slightly increased to $1,374,755, the reserves have been increased by about $150,000, and this year's account shows $500,000 in rest account, with nothing the preceding year.

William A. Rogers, Ltd.—In the annual report of the company, President S. J. Moore speaks of the recovery from war-time depression in the silver trade. He said: "This is much the best year in the company's history, and the recovery from a $5,208 loss in 1918 to a profit of $526,382 in 1919, indicates the rapid manner in which the silverware industry has revived from its war-time handicaps. The directors have decided to resume payment of the regular quarterly dividends on the preferred shares, beginning with April 1. It is likely that during the year a part at least of the 14 per cent. of arrears of dividends on the preference shares will also be paid. The improvement in the company's business was progressive throughout the year, and has continued into 1920. The present outlook is very good.

"During the year $35,000 was paid to Canadian Wm. A. Rogers, Ltd., covering guarantee of that company's preference stock dividend for year ended April 1, 1919. The Canadian company has continued to make steady progress, with satisfactory profits for the calendar year 1919. There is good reason to expect that hereafter this company shall not have to make any further contributions under the guarantee agreement. To provide further capital for the Canadian company, it is proposed to receive $175,000 (equal to the amount paid out for dividends for the Canadian company in the past five years) of 7 per cent. cumulative convertible preference stock of the Canadian company at once, and to subscribe for an additional $75,000 at par, and surrender 2,000 shares of the 2,500 shares of common stock of the Canadian company owned by Wm. A. Rogers, Ltd. It is believed that this capitalization of the money advanced to the Canadian company will work to advantage in both companies. This will be submitted to the shareholders on March 2 for ratification."

Total assets of the company now amount to $4,583,436, as compared with $4,239,230 a year ago, the principal change being in accounts and bills receivable, which now stand at $679,110, as compared with $387,773.

DIVIDENDS AND NOTICES

BANK OF MONTREAL

Notice is hereby given that a Dividend of Three per Cent. upon the paid up Capital Stock of this Institution has been declared for the current quarter payable on and after Monday, the First Day of March next, to shareholders of record of 31st January, 1920.

PENMANS, LIMITED

BONUS ON COMMON STOCK

Notice is hereby given that a Bonus of Two per cent. (2%) has been declared on the Common Shares of the Capital Stock of this Company, payable February 28th, 1920, to Shareholders of record of February 16th, 1920.

By Order of the Board.
C. B. ROBINSON,
Secretary-Treasurer.
Montreal, February 6th, 1920. 85

THE OGILVIE FLOUR MILLS COMPANY, LIMITED

DIVIDEND NOTICE

Notice is hereby given that a quarterly dividend of one and three-quarters per cent. has been declared on the Preferred Stock of The Ogilvie Flour Mills Company, Limited, payable Monday, the first day of March, 1920, to Shareholders of record, at the close of business Monday, the twenty-third day of February, 1920.

By Order of the Board.
G. A. MORRIS,
Secretary.
Montreal, Feb. 10th, 1920. 84

DEBENTURES FOR SALE

DEBENTURES FOR SALE

NOKOMIS, SASK.

The Town of Nokomis, will receive tenders until April 1st, 1920, for the purchase of $20,000.00 7% fifteen-year electric light debentures.

W. A. ARMOUR,
81 Secretary-Treasurer

CITY OF MOOSE JAW

SALE OF DEBENTURES

Sealed tenders endorsed "Tender for Debentures," will be received by the City Commissioners up to noon of the 6th day of March, 1920, for any or all of the following issues of debentures of the City of Moose Jaw.

All debentures are on the Sinking Fund plan bearing interest at the rate of 5½% per annum, payable semi-annually.

(a) $16,000.00 debentures for repairs to Fourth Avenue Overhead Bridge, repayable at the end of ten years.

(b) $13,000.00 debentures for the purpose of building a Public Comfort Station in the City, repayable at the end of thirty years.

(c) $40,000.00 debentures for the purpose of carrying out extensions to the waterworks system at Britannia Park, repayable at the end of thirty years.

(d) $22,200.00 debentures for the purpose of building cement sidewalks in the City, repayable at the end of fifteen years.

Full particulars may be had on application to the City Commissioners. The highest or any tender not necessarily accepted.

S. A. HAMILTON,
Mayor.
GEO. D. MACKIE,
City Commissioners.
11th February, 1920. 83

RECENT FIRES

Toronto, Rigaud, Que., and Bassano, Alta., Suffered Heaviest Losses this Week—Number of Fires Not so Great

Bassano, Alta.—February 10—Electric light plant of the United Electric and Engine Co., Ltd., was destroyed. Cause, explosion. Estimated loss, $25,000.

Charlottetown, P.E.I.—February 15—Garage belonging to Arthur Campbell, was damaged. Estimated loss, $3,000.

Edmonton, Alta.—February 8—The Great West Garment Building, corner of 105th Ave. and 97th St., was destroyed. Part of the building was used as a motor trades' school. Cause unknown.

Hull, Que.—February 17—Match factory of the E. B. Eddy Co. was damaged. Cause, presumed to have been due to a defect in the electric wiring.

Longueuil, Que.—February 10—Home of Mrs. J. R. Bournet, 6 Labonte St., was badly damaged. Estimated loss, $2,500, covered by insurance.

Montreal, Que.—February 10—Buildings occupied by Brocton Shoe Co., 441 St. Lawrence Boulevard; Sam Harrison, dry goods, 441a St. Lawrence Boulevard; and the printing plant of the New York Press, 1 Demontigny St., were damaged. Cause, originated in the cellar of the printing plant.

February 17—Three-story building, occupied by West End Laundry, Cleaning and Pressing Co., 1488 Queen St. W., was damaged. Estimated loss, $3,000.

Port Colbourne, Ont.—February 12—Corona Theatre was destroyed. Cause unknown. Estimated loss, $10,000, partly covered by insurance.

Port Lambton, Ont.—February 12—Residence of James McMillan was destroyed. One death.

Rigaud, Que.—February 12—Building of the Burnett and Crampton Foundries was destroyed. Cause unknown. Estimated loss, $25,000.

Toronto, Ont.—February 14—Building situated at 10 Front St. East, was damaged. Cause unknown. Estimated loss, $75,000.

February 16—Building of the Canadian Transfer Co. with contents, was damaged. Cause, by the engine of an auto truck firing while the gasoline tank was being filled. Estimated loss, $1,500. Premises of T. M. Brown Co., phonograph manufacturers, 485 King St. W., was damaged. Cause unknown. Estimated loss, $5,000, covered by insurance.

Vanguard, Sask.—February 11—Vanguard bakery, Keefner garage, Murray Hall's house, G. S. Smaill's insurance and real estate office, moving picture building and the old Union Bank building, were destroyed. Cause unknown.

Woodstock, N.B.—February 13—Hayden-Gibson theatre block in the main street, including Gibson Tailoring Co., Ltd., Steven Bros., druggists, T. Bradley, fruiterer, and Dents' Bakery, was destroyed. Estimated loss, $100,000, covered by insurance.

ADDITIONAL INFORMATION CONCERNING FIRES

Belleville, Ont.—According to the report of Fire Chief W. J. Brown, the total fire loss in this city for the past year was only $10,014. The value of property endangered was $117,860. The figures were somewhat lower this year than last.

Brandon, Man.—The fire loss for Brandon during the year 1919 was only $9,346, according to a report of the fire department submitted to the city council. This is about $4,000 less than the amount that the fire commissioner gave as his figures of the loss by fires in Brandon last year. Explaining this, Chief Melhuish said that the figures given by his department were as close as they could be obtained from information given in this city and that the losses given by the fire commissioner may possibly include some fires in the district surrounding Brandon. The total loss for the year by fire and water, as estimated amounts to $9,346. The chief states that this may not compare with the fire commissioner's report, but follows the procedure pursued for a number of years by submitting approximate estimates of loss. The largest loss in any one fire was that of the C.N.R. storehouse, entailing a loss of $2,500.

Fredericton, N.B.—The fire chief's annual report is as follows: There were thirty-eight actual fires, some of them very serious, entailing very heavy losses. The most serious fires were those in the VanBuskirk residence, Kirk Apartments and Gem Theatre, the losses on which, with their contents, amounted to $39,963. Insurance losses for the year were: On buildings, $38,282.50; on contents, $16,197.30. Total, $54,479.80. Total insurance on buildings where fires have occurred: On buildings, $94,050; on contents, $31,000. Average insurance loss for the past thirty-six years, $8,783.

Hamilton, Ont.—January 26—The cement oil tank and portion of forge room belonging to Canadian Shovel and Tool Co. were damaged. Cause, watchman's lantern placed too close to oil tank. Estimated loss, $3,000. Insurance carried in the following companies: Guardian, $72,000; Continental, $55,000; Canadian, $10,000; Law Union and Rock, $15,000; Queen, $15,000; Atlas, $15,000; London Guarantee and Accident, $8,000. Total, $190,000.

London, Ont.—February 7—Egerton St. Baptist Church was destroyed. Estimated loss, $30,000. Insurance carried, $20,000.

Port Dover, Ont.—January 18—Residence of L. G. Morgan was damaged. Cause unknown. Estimated loss, $750. Insurance carried in the Monarch Fire.

Saskatchewan.—Fire was responsible for property loss totalling $1,240,000 and 73 human lives, in addition to 24 people being severely burned in Saskatchewan during the first six months of 1919, according to statistics compiled by A. E. Fisher, fire commissioner for Saskatchewan. The property loss is about the average, said Mr. Fisher. A feature of the fire losses for the period is the large proportion of big conflagrations. There were no less than 15 grain elevators destroyed, involving a loss of $118,000 and extensive fires occurred at the following points: Brock, $43,000; Delisle, $35,000; Southey, $34,000; Herbert, $35,000; Swift Current, $56,000; Fiske, $80,000; Sceptre, $39,000; and the Quaker Oats Co.'s plant, Saskatoon, $425,000. The fire losses were divided among the different classes of municipalities as follows: Cities, $571,512; towns, $181,826; villages, $362,500; rural, $124,027; total, $1,239,865.

St. Gervais, Que.—February 4—Presbytery and residence were damaged. Cause, defective chimney. Estimated loss, $750. Insurance carried in the Strathcona Fire Co., and the Mutual des Fabriques, on residence $1,500, on presbytery, $3,000; total, $4,500.

Toronto, Ont.—Fire losses for the city during January amounted to $421,989, $205,375 of which was for buildings and $216,890 on contents. This includes the Westminster church fire. Total insurance carried amounted to $223,600. The losses in January, 1919, were only $32,968. During the month the firemen responded to 243 calls, three of which were outside the city. Children playing with matches caused five fires, hot ashes 8, cigars and cigarettes 3, gas and curtains 4, sparks 4, gasoline 5, autos 7, spontaneous combustion 5 and rubbish 9. Dwellings damaged numbered 90, as compared with 46 in October and 79 in December; stores numbered three, stores and dwellings 17, warehouses 20, factories 8, churches 1, schools 4 and garages 9.

It was stated in error last week that the building of the Gold Metal Mfg. Co. was damaged. The item should have read as follows: Building of the Pure Gold Mfg. Co. was damaged. Estimated loss, $10,000. Insurance carried in about twenty-five companies.

Westport, Ont.—January 11—Blacksmith shop and barn, owned by Jas. E. McCann, were destroyed. Cause unknown. Estimated loss, $2,000. Insurance carried in the Guardian Assurance Co., $300.

Restrictions on Import of Securities

Financial Firms' Action Taken After Consulting Government—May be Followed by Restrictions on Import of Commodities — Object is to Maintain Prices Here—Issue of New Securities May be Controlled

BY an agreement among the Canadian banks, bond dealers, and stock brokers, reached after consultation with the Dominion government, the importation of securities from outside Canada ceased yesterday. There is, of course, no restriction upon margin trading. In an explanatory statement the Bond Dealers' Association says:—

"The bond dealers and stock exchanges have been in conference to-day with regard to the proposal of the minister of finance concerning the importation of securities into Canada, and have reached a decision to grant the minister's request and to co-operate to the fullest extent. The decision has been made necessary by reason of the great quantities of Canadian securities coming over from Britain, which has been financing Canada for the last fifty years. The drop in sterling exchange made it possible to ship these securities to Canada at prices that were very attractive, as compared with other Canadian securities, including Victory bonds.

"The first step taken by the minister of finance was when he realized that, if the market committee was to continue to distribute bonds on the same satisfactory manner as in the past, the prices of those bonds should be brought into line with market conditions. This was done by the reduction in price of Victory bonds; in fact, many people think that these prices, as readjusted, are really lower than they should be.

"The next step was to request the bond houses and stock brokers who have been bringing securities from Great Britain not to continue this activity, and the banks were requested to co-operate in this direction. The members of the Bond Dealers' Association and the Montreal and Toronto Stock Exchanges have all met and, while it means a serious loss of business to the bond houses and also to the stock brokers, all these bodies have agreed to meet the request of the finance minister to the fullest possible extent.

"It is obvious that this embargo will make serious inroads into the business of Canadian financial houses, and it is, therefore, hoped that, while they willingly give their efforts to meet the suggestions of the minister of finance, that conditions will change and that it will not be necessary to long continue these restrictions.

"There is a very strong feeling among the financial people that the restrictions placed upon the imports of securities, can only be justified providing the government follows them up vigorously with similar restrictions against the importation of non-essentials, especially from the United States, where the balance of trade is so heavily against us. It is also a part of the understanding that issues of securities for non-essential purposes in Canada will be discouraged. The actual administration of the plan of the minister of finance, as outlined above, is in the hands of the banks, but in view of the many difficulties involved, it has been arranged that representatives of the stock exchanges and the bond houses will be available for consultation in the working out of the matter in the principal centres."

This action is not, of course, in the form of legislation, or even of orders-in-council, as it is at least doubtful if the Dominion government has power to issue an order of this kind. It is entirely a voluntary arrangement, entered into by the Bond Dealers Association, the Montreal and Toronto stock exchanges, and the Canadian Bankers' Association. The Bond Dealers' Association includes all the larger firms, and many of the smaller ones. There are still many dealers in bonds and stocks who do not belong to the above-mentioned organizations, but their business is only a small fraction of the total. Moreover, the banks, by refusing to finance any further transactions of this kind, will prevent the majority of these firms from making such purchase, as they usually depend upon bank funds to carry the securities.

C. A. Bogert, who is president of the Canadian Bankers' Association and general manager of the Dominion Bank, said in an interview:—

"The present abnormal British exchange situation lends itself to speculation in Canada in securities held overseas with resultant aggravation of Canadian finances. At the request of the government, in order to minimize and prevent this speculation, bankers will take measures to discourage such transactions until conditions improve, and in co-operation with brokers and bond dealers will use every legitimate means of accomplish the end in view."

In an interview with *The Monetary Times* as to the position of the banks on the question, Henry T. Ross, secretary of the Canadian Bankers' Association, stated, while the banks would carry out any commitments already made, they would not, in accordance with the finance minister's request, assist in further transactions of the kind. He emphasized the fact that the move did not initiate with the bankers, who had merely entered into the arrangement upon request. Mr. Ross also pointed out, however, that there were other considerations than the purely investment side, as the present low rates for Canadian exchange in New York, worked much hardship in necessary business transactions.

While no announcement has been made regarding the bond dealers' suggestion that this action be followed up by restrictions on imports, such restriction is being seriously considered. Our heavy adverse balance with the United States is probably the chief reason for the low quotation of the Canadian dollar in New York. For the twelve months ended December last, we imported $740,580,225 of goods from that country, and exported $454,686,294 of goods to it, leaving an adverse balance of $285,893,931. For 1918 the figures were: Imports, $741,336,304; exports, $433,182,149; balance, $318,154,155, and for 1917, imports, $829,845,747; exports, $401,479,287; balance, $428,366,460.

One objection which has been raised to such an embargo on imports is, that it might lead to raising the prices of similar goods made in Canada. The Board of Commerce is the body here which would have jurisdiction over questions of this kind, but thus far the Board's efforts have not been very successful, and its standing is doubtful, especially in view of the resignation of the chairman, H. A. Robson.

Special Dominion Subsidies to Provinces

Education, Housing and Road Construction Have Been Bonused by Dominion, Through Provincial Machinery—Difficulties in Controlling Expenditures—Almost Half of Housing Funds Paid Out.

(Special to *The Monetary Times.*)

Ottawa, February 26, 1920.

DURING the past few years there has developed a policy of closer co-operation between the provinces and the Dominion. The policy has been subject to some criticism on the ground that it makes the provincial government more dependent financially upon the federal administration, and gives the opportunity where both governments are of the same political stripe to build up a powerful machine. However, as it has worked out, this argument is largely theoretical and the advantages of the plan as a whole are many.

There are now no less than four lines of work in which the Dominion grants loans or makes subsidies to the provincies under agreements and with federal supervision. These are for agricultural education, better housing, technical education and the building of highways.

Grants for Education

The start of this policy was made by Hon. Martin Burrell when he was minister of agriculture. In 1913 he introduced a measure called "The Agricultural Instruction Act," which provided for the expenditure of $10,000,000 spread over a period of ten years, for the purpose of agricultural and instructional and educational work. The bill provided for a straight grant of $20,000 to each province, irrespective of population, the remainder of the annual grant to be divided in proportion to population. Agreements were made with each province as to just how the money was to be expended, and there is a certain amount of supervision to see that the money is expended as appropriated. The bill provided for an allotment of $700,000 the first year to be increased by $100,000 annually until 1917, from which year until 1923, $1,100,000 is to be voted yearly. On the basis of the bill the amounts have been divided among the provinces as follows, with the exception of the additional $20,000 to each province irrespective of size:—

	1913.	Yearly increase.	1917-23.
Prince Edward Island ..	$ 26,529.85	$ 1,306	$ 31,753.73
New Brunswick	44,509.93	4,902	64,117.87
Alberta	46,094.95	5,219	66,970.91
British Columbia	47,334.76	5,467	69,202.57
Manitoba	51,730.05	6,346	77,114.09
Nova Scotia	54,288.45	6,858	81,719.21
Saskatchewan	54,296.29	6,859	81,733.32
Quebec	159,482.40	27,896	271,068.32
Ontario	195,733.32	35,147	336,319.98

Public Highways

Following the passage of the Agricultural Act, a similar measure for the construction of better highways was introduced. This measure has had, however, a stormy passage. The building of roads has been in the past a favorite method of provincial political corruption. Provincial governments wanted complete control of the expenditure of the money and the bill became a political football. It was not until last session it was finally passed. It provides for the expenditure of $20,000,000. Each province irrespective of population gets $80,000 annually. The remainder is to be allotted in proportion to population spread over a period of ten years. A Dominion Commissioner of Highways has been appointed and he must approve of all specifications and agreements and expenditures. When an agreement is to be reached as to the erection of a highway, the Dominion in no case will pay more than 40 per cent. of the cost. The clause of the bill reads:—

"The aid to be given in any case shall be forty per cent. of the amount which in the opinion of the minister is the actual, necessary and reasonable cost of the construction or maintenance of such highway as the case may be."

This first year is being devoted to organization purposes, for which $25,000 has been appropriated. The payments for actual work under the Act starts this coming year, when agreements will be signed with the various provinces.

Housing Appropriations

The aid for housing, instead of a subsidy, has been in the form of a loan of $25,000,000, divided among the provinces pro rata as to population. Only four of the provinces have availed themselves of the privilege to any extent, Ontario, Manitoba, New Brunswick and British Columbia. The two first-named provinces have borrowed to the full extent of the appropriation. The share of each province and the amount they have borrowed is as follows:—

	Share.	Paid out.
Ontario	$ 8,753,291	$ 8,750,000
Quebec	6,949,255	60,000
Nova Scotia	1,707,931	......
New Brunswick	1,220,710	600,000
Manitoba	1,580,534	1,580,000
British Columbia	1,361,521	750,000
Prince Edward Island ...	325,000	......
Saskatchewan	1,708,257	......
Alberta	1,299,714	......
Total	$25,000,000	$11,740,000

Technical Education

Finally, there was passed last session, the Technical Education Act, which provides for the expenditure of $10,000,000 in subsidies for the development of technical education. It provides for $10,000 for each province, irrespective of size, and $700,000 for the first year, increasing to $1,100,000 annually until 1929. The only proviso is that the grant paid to any province will not exceed the amount that province itself spends on technical education.

RETAIN SUPPLEMENTARY REVENUE TAX

The Alberta government is standing by its decision to retain the supplementary revenue tax, the repeal of which has been urged by the United Farmers of Alberta. In a recent interview Hon. Chas. Stewart, the premier, said that this year the tax rate will not be increased, but it certainly will not be wiped out, as the farmers would like, nor even reduced. Mr. Stewart points out that the need of the revenue continues quite as urgent as ever, and the likelihood is that the tax will remain in force for several years and may indeed be made permanent. The impression that this revenue is being raised ostensibly for patriotic purposes, the need of which has ceased to be, is quite in error, the premier states. The tax was put on for general purposes, of which a payment into the patriotic fund during the first year of its operation was but one item, and the proceeds, which go into the general revenue of the province, are now applied to various departments of the public treasury account.

MANITOBA'S SURPLUS LARGEST IN ITS HISTORY

Revenue is $8,986,076, and Surplus $441,285—Gross Debt is Large—Treasurer Opposes Measures to Remedy Exchange Situation

(Special to *The Monetary Times.*)

Winnipeg, February 25th, 1920.

HON. EDWARD BROWN, Provincial Treasurer of Manitoba, presented his budget on Tuesday for the past year, giving a most comprehensive address on the finances of the province. Mr. Brown announced the largest surplus in the history of Manitoba, amounting to $441,285 at the end of the fiscal year on December 31st last. The revenue for the year was $8,986,076, which exceeded the estimate by $535,676, the chief increases being $147,878 in school lands, $104,000 in automobile licenses, and $120,000 in telephones.

Gross and Net Debt

The gross debt of the province is now $39,820,877, but when there is deducted from this, the provincial treasurer pointed out, the revenue-bearing debt to the extent of $22,647,510 and unexpended capital and investments, the net debt is $12,769,672.

In speaking of foreign exchange Mr. Brown pointed out that the premium on American money would cost the government $600,000 this year, and the people of the province still more. The government hoped to offset the loss by interest payments in London, and by continuing its policy of buying at a discount its sterling securities in London. During the past year trust funds had been used to buy in at 30 per cent. discount $123,000 of debentures, which, with the previous mobilization of securities in London for the benefit of the British treasury, had reduced the debt of the province by about $480,000.

General Depreciation of Currency

Mr. Brown drew attention to the favorable position of the United States and Japan owing to their huge gold reserves, and of Mexico and India due to the appreciation of silver, he showed that all other countries' currency was at a discount. This was due to inflation, to depletion of gold reserve, and making little or no provision for war debts from taxes during the war. Russia and Germany were the worst offenders. France had made an effort and her franc was steadily improving in value, while England was best off because she had maintained the value of the pound sterling during the war and taxed her people 20 per cent. of the cost. A dollar would only purchase its actual value in goods, and if it was not worth 100 cents and still passed for such the difference must be added to the cost of goods. He deprecated any drastic steps in Canada by legislation to remedy the situation, but suggested a cure in increasing gold production, contracting our note circulation and buying less in the United States. The exchange situation had its advantages to England, as it was enabling her manufacturers to recover the ground lost during the war to the United States.

Briefly reviewing conditions in the province, Mr. Brown said that with the exception of 1915, this had been the most prosperous year in its history. Credit was due to the farmers for this. He instanced the growth in various parts of the province, and especially in the district between the lakes and Swan River country. Manufacturing industries had suffered from the industrial unrest, which had meant a serious loss to both capital and labor, but a kindlier disposition for each other now prevails and promises more stable conditions and better understanding. He referred to the new vista opened by natural resources of hidden wealth of minerals, fur, lumber, and our great spruce timber areas and water powers.

Application is to be made by the Canadian Pacific Railway Co. to the government to change the maximum number of directors from fifteen to eighteen.

NORTHWESTERN LIFE INSURANCE CO.

In addressing the annual meeting of the Northwestern Life Insurance Co. in Winnipeg, on February 20, F. O. Maber, the secretary, dealt at some length with the subject of dividends. Some of the conservative shareholders, he said, wished to postpone any payments of this kind for an indefinite period, while others were anxious that they should commence as soon as possible. "Personally," he said, "I think it more important to know that we are earning them, and to be sure, when we do start the distribution of profits, that the dividend will be regular from year to year and of increasing amount."

Another subject dealt with by Mr. Maber was the huge policy and group insurance. "I believe," he stated, "that the issuance of such policies constitutes a very great evil in the life insurance business, and is likely, sooner or later, as the true nature of the case becomes recognized by our various legislative bodies, to lead to restrictive legislation." He pointed out that such large contracts are quoted at rates lower than the regular term rate upon a single life, and oftentimes below the actual cost price; such special benefits upon special groups were a burden on the ordinary policyholder.

BRITISH COLUMBIA ELECTRIC'S POSITION IMPROVED

As a result of the granting of a six-cent fare in Vancouver, the financial results of the British Columbia Electric Railway for 1919 were much better than those for 1918. Net revenue was £224,600, compared with £203,607 for 1918. An interesting point in connection with the profits was the additional amount of $138,419, acquired partly in remitting earnings to London and partly by appropriating funds set aside for contingencies for which provision is no longer considered necessary. This improvement in the company's position enables it to pay fair dividends to the shareholders. The chairman, R. M. Horne-Payne, also referred in his address at the annual meeting in London on February 3rd to developments in connection with regulating the rates. Following upon the temporary increase to six cents granted in June, 1918, the British Columbia public utilities commissioner was instructed to enquire into the subject, but it was found that new legislation, passed by the Dominion in July, 1919, removed this control to the Board of Railway Commissioners for Canada. This board approved of the six-cent fare, but the company is now subject to dual authority, the Dominion one regulating rates, and the provincial one controlling property. This is considered unsatisfactory, and an effort is being made to bring it back under provincial jurisdiction exclusively.

The British shareholders continue to take an active interest in their property, and this year one of the directors visited British Columbia to examine the situation. A fair return upon capital is, of course, expected. "So long as your company receives fair treatment," said the chairman in speaking to the shareholders, "we have nothing to fear for the future, and there is no reason to expect that British Columbia, which needs capital to develop her resources, will treat otherwise than fairly our splendid enterprise, with which the credit of the province is identified in the investing centre of the world."

BOWMANVILLE CHAMBER OF COMMERCE FORMED

A Chamber of Commerce was organized in Bowmanville, Ont., on February 20th, and the following officers were elected: Honorary president, John Elliott; president, Geo. L. Hall, manager Standard Bank; vice-president, Willard Stevens, farmer and orchardist; secretary, Charles H. Mason; treasurer, Norman S. B. James. Executive council—J. L. Howard, A. M. Hardy, J. B. Mitchell, W. H. Cooke, William Cann, James Carruthers, Dr. James C. Devitt, George W. James, Thomas H. Knight, Milton J. Elliott.

MUTUAL FIRE UNDERWRITERS' ASSOCIATION

Ontario Losses Compared—Use of Lightning Rods May be Compulsory—Increased Values Require Additional Insurance

THE annual meeting of the Mutual Fire Underwriters' Association of Ontario was held in Toronto, February 24 and 25. E. P. Heaton, fire marshal of the province, showed that fire losses for 1919 had been reduced by 40 per cent., compared with 27 per cent. for the Dominion and 15 per cent. for all North America, under the losses for 1918. Danger of fires from motor cars and gasoline engines on the farm were discussed, as well as carelessness in the use of matches around houses and barns. Mr. Heaton emphasized the fact that while the law imposed a penalty of two years' imprisonment for negligence, there was no one to take action.

V. E. Gray, superintendent of insurance for the province, stated that no amendment to the Insurance Act would be made this year. He agreed that differentiation in insurance rates should be made by mutual companies, according to the precautions taken by farmers. He suggested that a group of companies should join together to spread the outlay and prevent one company taking unfair advantage of the differences in rates. Some mutual companies, it transpired, are allowing their farmer members from 10 to 25 per cent. discount on their premiums for rodded buildings.

Make Lightning Rods Compulsory

The deputy fire marshal, G. F. Lewis, said the clean-up week organized some time ago, was a success and did a lot towards educating the people. He severely condemned the so-called heaters for motor cars and said they caused a lot of fires. He paid a big tribute to the work being done by the Ontario Fire Protection League. Mr. Lewis also stated that a bill has been drafted which will make compulsory the installation of lightning rod equipment on practically all barns, elevators, mills and other buildings housing foodstuffs which might be erected in the province in the future. Provision is made also to prohibit the sale and installation of lightning rods except under a license. The fees derived from the licenses issued to agents, etc., it is expected will bring in a revenue of about $8,000, which will enable the employment of a number of inspectors to see that all equipment is kept properly.

Enhanced Values a Problem

The problem presented to mutual fire insurance companies, through the unprecedented increase in the value of livestock, buildings, etc., during the last few years, received consideration. The need for inducing owners of cattle to place more insurance on their herds was urged strongly by J. N. McKendrick, secretary of the Gore Mutual Insurance Co., Galt, and by other delegates in attendance. It was pointed out that owing to the increase in value losses on animals killed by lightning or through other causes, had become a serious matter and it was felt that on most of this business the insurance companies were making little, if any, profit. Mr. McKendrick stated, by increasing the insurance to a fair proportion of the value of the animals covered, herd owners would have a much more adequate protection against loss, while this class of business would be made profitable for the insurance companies. The speaker said that values of almost everything on the farm had been enhanced greatly during recent years, buildings and machinery, besides cattle, being worth far more than before the war. This point was referred to by another delegate, who declared that damages now amounted in almost every case to the full sum of the insurance carried.

Officers for 1920 are as follows: President, W. A. Galbraith, Iona Station; 1st vice-president, George B. Webster, St. Marys; 2nd vice-president, George L. Miller, Jarvis; secretary-treasurer, J. J. Stewart, Brampton; executive committee: James Ross, Waterford; Thomas Hoskin, Cobourg; T. M. Cayley, Norwich; J. Stauffer, Waterloo; and T. J. Harkness, Owen Sound. T. B. Harvey and A. W. Hilborn were elected auditors.

NORTHERN LIFE ASSURANCE CO.

Substantial increases in new business, in income, etc., are reported by the Northern Life Assurance Co., London, Ont., for 1919. Policies issued and revived totalled $3,411,300 in 1918 and $6,294,139 in 1919, an increase of almost 85 per cent. This brings the business in force up to $17,879,907, an increase of 30 per cent. The income increased from $684,544 to $792,420, or by 15.8 per cent., while payments to policyholders rose from $248,354 to $279,188, or by 12.4 per cent., indicating that losses in proportion to the volume of business were not as heavy as in 1918.

Although its business is widespread, the Northern Life is a western Ontario institution, all of the directors, excepting W. S. Calvert, of Toronto, being located there. The president is T. H. Purdom, K.C., of London, the actuary W. G. Fitzgerald, B.C., A.I.A., and the secretary J. W. Purdom. Its investments are about equally divided as between mortgages and bonds and stocks, and its dividend record is good.

DOMINION FIRE INSURANCE CO.

The statement of assets and liabilities of the Dominion Fire Insurance Co. published in this issue, shows an increase in assets of $247,662, bringing the total as at January 1st, 1920, to $934,076. The policyholders' liabilities, including reserve for unearned premiums, amount to $618,227, which gives a surplus to policyholders of $315,848. The gross premiums from all sources amounted to $806,311; rebates and cancellations $82,521; premiums on business reinsured, $148,531; losses, $303,047; recovered from reinsurance companies, $74,441. The assets, it will be observed, are of an exceptionally liquid nature, which is desirable in a fire insurance company, on account of the conflagration hazard, where exceptional calls are liable on this account at any time.

The following directors were elected at the annual meeting: President, Major Robert F. Massie, Toronto; vice-president, Philip Pocock, London; R. A. Brock, Montreal; R. S. Cassels, K.C., Toronto; George J. Cuthbertson, Montreal; R. J. Hutchings, Calgary; Emile Ostiguy, Montreal; Neil W. Renwick, Toronto; Dr. Thaddeus Walker, Walkerville.

LARGE REDUCTIONS IN DEMAND DEPOSITS

The bank statement for January, just issued, shows an increase in saving's deposits and a decline in demand deposits. Current loans both in and outside Canada are higher. The principal figures are:—

	Jan., 1920.	Dec., 1919.
Reserve fund	$ 124,724,985	$ 124,712,670
Note circulation	216,691,916	232,486,736
Demand deposit	521,408,024	703,392,204
Notice deposit	1,163,297,037	1,138,086,691
Deposit out Canada ..	285,203,939	275,342,645
Current coin	80,895,052	80,088,103
Dominion notes	181,018,036	172,964,172
Deposit C.G.R.	103,200,000	125,800,000
Call loans Canada ...	132,015,334	125,888,760
Call loans out	170,206,805	172,232,161
Current loans Canada	1,226,962,963	1,207,109,046
Current loans out	182,533,124	168,955,696
Total liabilities	2,644,392,838	2,706,715,918
Total assets	2,911,853,848	2,965,375,675

With a view to obtaining lower insurance rates on municipal property in Cobalt, Ont., the town council has delayed renewing the premiums on the existing policies. Instead of the town continuing to pay from 3 to 4½ per cent., it was suggested by Councillor McCampbell that a rate of less than 2 per cent. might be obtained. The policies expire February 27th. The annual premiums are $1,088.62.

RESTRICTIONS HARMFUL AND UNFAIR

JUST why restrictions should be placed upon the repurchase of Canadian securities held abroad has not been made plain, but a virtual embargo on transactions of this kind has been arranged. British holders of Canadian bonds and stocks were taking advantage of the excellent opportunity to dispose of their securities at good terms, and investors on this continent were, in turn, buying them up at bargain prices. This country never had such an excellent opportunity to redeem some of the billions of dollars of debt abroad, and the British investors were glad to transfer their funds to domestic securities. No one suffered except borrowing provinces and municipalities in the Dominion, who found it impossible in recent months to secure even fairly good prices because of the flood of repurchased securities. But, for years past, the policy of economy has been preached in Canada, and many regrets expressed that public bodies persisted in extravagance. Circumstances were now forcing such economy, and a distinct improvement in provincial and municipal finances would follow if such conditions continued for some time.

The arrangement now made means that the supply of securities from abroad will be practically shut off, and the prices here will be to a corresponding extent sustained. There are, of course, arguments in favor of it. The minister of finance is understood to have looked with great concern at the fall in the price of the war loans, more especially as the price of the 1919 bonds has fallen below par before the payment of the instalments is completed. He considered that, while it was no doubt desirable to reduce our debt abroad, the present low rates for sterling exchange were bringing securities back in such large volume that it was quite beyond the power of the market here to absorb them so rapidly. British investments in Canada aggregate several billions of dollars, in proportion to which the accumulation of wealth in Canada is naturally slow. Not only were new issues almost entirely prevented, but prices of older issues in Canada, including the war loans, have been going down rapidly. The time had, therefore, been reached, he thought, to take action.

Consideration should be given, however, to possible buyers of bonds and stocks as well as to those who are obliged to sell. Investors who have money accumulated for investment will be unfairly treated by the new arrangement, as it prevents them from investing in the most desirable securities available at present. When prices rise abnormally high the investor must take the best yield he can get; similarly, when they are unusually low, he should be able to take advantage of the market conditions.

It is also certain that British holders of our securities will look upon this move with extreme disfavor. They will still be able to sell in the United States, however, in which direction a similar movement of securities has taken place, and the result will be that our debt to that country will be increased. It would be distinctly preferable if as much as possible of our external debt were absorbed back in Canada, where it would be subject to taxation, and if, in the meantime, Canadian borrowers were subjected to economy of the strictest kind. From the British point of view our action in this connection is distinctly more arbitrary than in the case of the acquisition of the Grand Trunk, which has been severely criticized on the other side. Before many years we may again be going to Great Britain as borrowers rather than lenders, and the action being taken now will greatly damage Canada's credit there for many years to come. Regulation of commodity prices has proved more harmful than beneficial, and the restrictions now being placed upon investments are equally injurious and devoid of good result.

CONFIDENCE IN ESTABLISHED INSTITUTIONS

THE present Dominion government does not represent the wishes of the people, nor does the press of Canada give them information in the way they want it, according to Professor W. F. Osborne, of the Unviersity of Manitoba. Several other institutions came in for criticism in his address before the Canadian Club, Montreal, last Friday. If the government which limits our activities, and the press which moulds our opinions, are astray, it is probable that many other defects may be found abroad in the land. Might not the professor have extended his attack to provincial and municipal governments, to business institutions and labor organizations, and even to the very educational organizations which he represents? Possibly the Union government has outlived its mandate, but surely all the papers of Canada are not muzzled, nor do they altogether fail to represent the opinions of their subscribers. Such wholesale criticism as that indulged in by Professor Osborne is not justified, nor does it help to offset the lack of confidence in established institutions which is now so prevalent.

VICTORY BOND TRADING

REDUCED prices for Victory bonds and an increased margin of profit were announced this week by the committee in charge. The change was made, says a despatch from Ottawa, in line with the policy of making the Dominion's bonds the most attractive investments obtainable in Canada. But charging a margin of one per cent. between buyer and seller, when other bonds are traded in on the stock exchanges at a margin of one-quarter per cent., has the opposite effect, and if the Dominion government gives its approval to such a restriction in trading it is not acting in the best interests of those who have invested in its securities. Moreover, the increased margin, which was arranged to enable the dealers to put more effort into selling the bonds, stimulates the demand for them to a corresponding degree, and thereby maintains the price and makes the securities less attractive than would otherwise be the case.

There is no reason why an association of dealers, who do not enjoy a monopoly, should not make any arrangement they may see fit to make with reference to handling any security. Bond dealers recognized by the Bond Dealers Association, and members of the Montreal and Toronto stock exchanges, subscribed to the arrangement made in January, but there are others who operate independently, although their prices are largely governed by those fixed by the committee.

FINANCING IRRIGATION IN CANADA

FURTHER contingent liabilities should not be assumed by the Canadian provinces, or by the Dominion, when the finances of these governments are already severely strained in an effort to meet their present obligations. Interest charges are one of the most important items in these obligations, and numerous guarantees of railways and other projects have had to be made good by the public. These guarantees were extended by the Dominion and by western provinces with a view to assisting in development, but it was not anticipated that they would fail to meet their obligations. Had the projects in question been financed solely on their own credit, they would have been subjected to a careful examination by investors, and some of the poorer ones would never have been undertaken. In the desire for development, the fact has been overlooked that industries which cannot pay their own way are worse than useless.

Some irrigation plans, involving large expenditures of capital, are at present being made in Alberta. It is probable that about $50 per acre will have to be borrowed, and an effort is being made to have the province, and possibly the Dominion, guarantee the securities. In the provincial legislature on February 20th, the premier, Hon. Chas. Stewart, outlined a plan for financing the work in northern Alberta. First, the government would ask the legislature to provide authority for the creation of a council or irrigation commission with the most drastic control over the entire project, including construction, the sale of bonds, assessment of the district, and the fixing of the tax rate. It was estimated, in the case of the Lethbridge Northern, that the construction would require two years, and the financing plan contemplated no interest charge during that period. All the figures obtained were the utmost maximum, the premier having previously stated that these were based on an estimate of $50 per acre. "We will then ask the legislature," said the premier, "to set aside a sum to guarantee, if need be, the interest payable upon the bond issues. This sum will be used, if need be, for two purposes—to guarantee the interest, and to provide funds for necessary construction work for an official trustee, if he should be put in charge." This fund, which in this particular instance would be about $500,000, could be expended by order-in-council through an official trustee who would be installed in place of the regular trustees for the district. When questioned as to whether it constituted a guarantee of the bonds, he maintained that it did not.

While it is necessary that the government create the organization of such districts, and empower them to levy taxes to ensure the revenue, any borrowing should be strictly on the merits of the works themselves, and no guarantee, either Dominion or provincial, should be extended. Construction costs are at a maximum at present and any project involving heavy capital outlay will find its interest charges a severe burden in future years, even if the work itself is economically sound. The western provinces, as they now find, viewed railway development with too great optimism, and a venture into the irrigation field will not benefit their credit; moreover, a beneficent Dominion government may not always be willing to assume guarantees extended by the provinces.

Some irrigation schemes in the United States failed, and investors lost money, but many of them succeeded. There is no reason why the bonds of a Canadian irrigation district, properly planned, and with adequate taxes to be levied under provincial authority, should not enjoy a good market, second only to that for municipals, in the United States and Canada. Eugene B. Favre, of Murphey, Favre and Co., Spokane, who was in Alberta a few days ago looking over the plans there, expressed the view that in irrigation bonds are a safe investment, and that $50 per acre was not high compared with the rate at which similar schemes in the United States are bonded.

CONTROL OF MUNICIPAL EXPENDITURE

PRESSURE is being brought to bear upon municipal councils in all parts of Canada towards raising expenditures to new levels based upon present inflated values. Considering the fact that cities are faced with a severe business depression, which will be accompanied by falling real estate values, reduced revenue, and much unemployment, a strengthening in municipal finances is much more important at the present time. Public works undertaken now would mean abnormally high interest charges over a difficult period. Municipal employees, in a spirit of opportunism, are trying to establish permanent wage scales at present levels, and have not hesitated to use their extensive political influence in this direction. It is usually overlooked that wages prevailing in industry vary more than those of public officials, and that while they have risen more rapidly than have the latter, they will also fall more quickly and to a corresponding extent. Public expenditures are reduced only with great difficulty, and municipal councils should, therefore, strive to prevent their rise.

The difficulty is aggravated in some cities by the delegation of too much authority to bodies other than the council, where such bodies are not required to submit their estimates in detail, the best practice in public finance is violated. In national government in Great Britain, the United States and Canada, and in states and provinces on this continent, detailed estimates are placed before the legislature, which is thus enabled to reduce appropriations to amounts suitable to the wishes of the taxpayers. Municipal councils are just as competent in proportion to their responsibilities, and methods which have worked so well in national and provincial governments are equally applicable in the municipal sphere. In Toronto, the board of education and the board of police commissioners, the finances of which are not subject to a detailed examination by the council, have submitted estimates for greatly increased expenditure, including new wage scales which are even higher than wages paid for similar work elsewhere, yet the most the city council can do is endeavor to have the totals reduced. It is to be expected that such bodies should be in sympathy with their employees, but the final decision on questions of expenditure should rest with the elective council which is looked upon as being responsible for the tax rate, and which, therefore, best expresses the wishes of the electors.

Trade with the Orient

With correspondents of the highest standing in China, Japan, India and other countries of the Orient, and branches in all the principal ports on the Pacific coast of North America, namely:

Prince Rupert	Portland, Ore.
Victoria	Seattle
Vancouver	San Francisco

this Bank is excellently equipped to serve the interests of Canada's growing trade with the Orient.

PERSONAL NOTES

Hon. Senator Wm. Proudfoot has been elected to the directorate of the Colonial Investment and Loan Company, Toronto.

Mr. F. G. Osler, of Messrs. Osler and Hammond, Toronto, has been elected a member of the Montreal Stock Exchange.

Mr. R. C. MacKnight, formerly treasurer of the Northern Life Assurance Company, has been appointed assistant manager of the company.

Mr. G. A. Bagshaw, a member of the brokerage firm of F. C. Sutherland and Company, Toronto, has resigned on account of serious illness.

Mr. H. A. Robson, formerly public utility commissioner of Manitoba, who has been chairman of the Board of Commerce, since its inception, has resigned as head of the latter body. Mr. Robson was born in England in 1871, and came to Canada in 1882. He was called to the Northwest Territories Bar in 1892, and to the Manitoba Bar in 1899. He was a member of the firm, Aikins, Robson and Company, Winnipeg, from 1899-1910, created K.C., Manitoba, in 1909, and appointed Judge, Court of King's Bench, June, 1910, which position he resigned in June, 1912, to accept the position of public utilities commissioner of Manitoba. Mr. Robson is chief counsel for the Union Bank of Canada. His resignation is understood to be due to additional work delegated to the board, not considered as being among its functions when it was first organized.

Mr. W. R. Leckie, city treasurer, of Hamilton, Ont., has announced his intention of retiring. He has been in the city's employ for twenty-seven years.

Mr. Alfred H. Cox has been elected to the directorate of the Toronto Savings and Loan Company. He is already a director of the Central Canada Loan and Savings Company, president of Cox and Cummings, Limited, and vice-president and managing director of the Provident Investment Company.

Mr. W. K. Pearce has been appointed an assistant general manager of the Dominion Bank. Entering the services of the bank as a junior, Mr. Pearce has advanced successively to positions of increasing importance. He was at one time manager at Seaforth, Ont., and later at St. Thomas, Hamilton, and the main Toronto branch. Other assistants to C. A. Bogert, the general manager of the Dominion Bank, are A. Pepler and E. A. Begg.

Mr. Robert Drummond, who has had an active career in British banking circles, is now acting comptroller-general of Manitoba. He came to Canada in 1906 and obtained a position in the Union Bank of Canada at Smith's Falls, Ont. In 1910 he joined the government of Manitoba, and after five years as assistant accountant in the treasury, he was made chief accountant in the comptroller-general's office in 1916, which position he held until his present appointment.

SASKATCHEWAN FARMERS' MUTUAL FIRE

$31,357,755 is the very creditable total of insurance in force which has been built up by the Saskatchewan Farmers' Mutual Fire Insurance Co., of Saskatoon. This figure is as at December 31, 1919, and represents an increase of $7,368,793 over the preceding year, the total insurance written in 1919 being $13,554,397. The assets statement shows residue of premium notes $276,305, investments $68,404, Saskatoon building $19,000, assesments outstanding $22,816, and other items, bringing the total up to $390,523. Otuside of $57,480 reserve for unearned premiums, there are practically no liabilities.

The financial results for 1919 show losses paid amounting to $66,702, expenses of management $48,547, and investments $36,000. Cash premiums totalled $44,504, and assessments $59,910. The sum of $32,593 was also received from the sale of securities, and from interest upon investments. The Saskatchewan Farmers' Mutual Fire has built up quite a large business in the province and the management has reason to feel proud of its success. Further details of the company's affairs are shown elsewhere in this issue.

NORTH WEST FIRE INSURANCE CO.

Assets of the North West Fire Insurance Co., Winnipeg, have now increased to $387,738, of which $315,154 is invested in debentures and mortgages, these items not being shown separately in the balance sheet. After providing a reserve of $117,869 for unearned premiums, there is a surplus of $158,329 over and above the paid-up capital stock of $100,000.

Net premium income for 1919 was $145,760, and receipts from interest $18,659, making a total of $164,420. Losses for the year were $71,647, or 49 per cent., expenses were $50,711, or 34.8 per cent., leaving a balance of $42,061. The North West Fire has now completed thirty-six years of business, the present heads of the company being G. R. Crowe president, T. L. Morrisey general manager and Thos. Bruce deputy manager.

OBITUARIES

Mr. E. McClary, of the McClary Manufacturing Company, died at London, Ont., on February 21, at the age of 56.

Mr. L. Mathewson, who for many years was connected with the City Bank, Montreal, died in Ireland a few days ago.

Mr. Frederick Shaw, who has been for the past eight years on the staff of Messrs. Oldfield, Kirby and Gardner, Winnipeg, Man., died last week at the age of 28.

Mr. E. L. Goold, a well-known manufacturer of Brantford, Ont., died in that city on February 16th, at the age of 50 years. He was president of the Goold, Shapley, Muir Co., Ltd., president of the Brantford Oven and Rack Co., and several other manufacturing interests. His chief interest was the manufacturing of agricultural implements.

Mr. J. Douglas Wells, a prominent citizen of Montreal, died in that city on February 20. After leaving the college he went to Montreal, and shortly afterwards entered the insurance business, forming a partnership with the late Thomas E. Foster. Later the firm was dissolved, and Mr. Wells went to New York, where he became connected with the Mutual Reserve Life Insurance Company, ultimately becoming vice-president of the company, and he represented it for a number of years at London, Eng., as their European agent. He resigned this position about twenty years ago, and returned to New York, where he was appointed New York manager of the North American Life Insurance Company, which position he held with much success for a number of years.

TO EXTEND NIPISSING CENTRAL

According to George Lee, acting chairman of the Timiskaming and Northern Ontario Commission, an extension of the Nipissing Central Electric Railway, controlled by the Commission, from New Liskeard, Ont., to North Timiskaming, will be undertaken as soon as the M. J. O'Brien interests commence work on the paper mill they propose erecting at the latter point. The extension will be for a distance of 13 miles east from the station at New Liskeard. The commission has purchased 40 acres of land adjoining the depot, and will use part of the property for the location of the new freight sheds to be erected this spring.

CROWN TRUST COMPANY

Net profits of the Crown Trust Co. for the year 1919, after paying all expenses for rent, taxes, salaries, staff bonuses, advertising, directors' fees, etc., were $44,326, to which is added $55,102, brought forward from the previous year, making a total credit to the profit and loss account of $99,428, which. after all expenses, etc., left an amount to be carried forward to the credit of profit and loss of $15,288. The net profits of $44,326 compare with $34,754 for the year 1918. The aggregate assets as at December 31st, 1919, were $4,655,725, as compared with $3,054,567 a year ago.

All of the retiring directors were re-elected. Irving P. Rexford, manager of the company, was a new director elected. At a subsequent meeting, Colonel William I. Gear was re-elected president; Major-General Sir John W. Carson, C.B., and S. H. Ewing, vice-presidents, and the following directors were elected members of the executive committee: Colonel William I. Gear, Major-General Sir John W. Carson, C.B., H. B. Henwood, W. W. Hutchison, Colonel John McKergow, E. C. Pratt and Brig.-General Jas. G. Ross, C.M.G. Irving P. Rexford was appointed general manager, John E. Armour was appointed secretary, and W. Hespeler Jackson was appointed treasurer.

MANITOBA SALE OF SHARES ACT

A bill to amend the Manitoba Sale of Shares Act has been introduced at the present session. Referring to subsection 3 of section 10 (a), it requires that "certificates for shares offered for sale pursuant to the provisions of this section shall have conspicuously written or printed on the face of them the words 'development stock.'" Giving evidence before the law amendments committee on February 20, S. Hart Green, representing the Manitoba branch of the Canadian Mining Institute, stated that the effect of the proposed amendments would be to prohibit people who bought development stock in a mine, from selling their stock until the mine had paid a dividend. Supposing that the sale of the original stock showed an increase in price, said Mr. Green, the buyers who had purchased before this increase had gone into effect, would be unable to sell their stock. Citizens of Manitoba, said Mr. Green, would not invest in mines if these regulations were passed. He suggested that the legislature should make it compulsory on mine owners to assure their stockholders that all the money invested went into development work and leave it at that.

W. F. Howell stated that the Act should be left as it stands at the present time. Mining, he said, was a speculation and not an investment. He thought that the provincial legislature should establish a censorship on the advertising of mining investments and safeguard the public in that way. William Crichton stated that the amendments would mean the closing of the industry if they were passed into law. J. T. Huggard stated that there was a real necessity for the amendments. The general public would be afforded the protection they ought to have, he said, because of the fact that amendments would make watered stock and the activities of promoters impossible. The amendments were held over for further consideration.

WINNIPEG LIFE UNDERWRITERS' ASSOCIATION

Through the co-operation of Manitoba University, the Winnipeg Life Underwriters' Association has arranged an educational campaign for March 16th, 17th and 18th. W. T. Hart, of the Policyholders' Mutual, is chairman of the committee, and agents will, it is expected, be present not only from throughout Manitoba, but also from Saskatchewan. Darby A. Day, general agent of the Mutual Life, of New York, will be one of the chief speakers.

MOTOR UNION INSURANCE COMPANY

The report of the Motor Union Insurance Co. for the year ended December 31st, 1918, shows premium income as follows: Fire insurance account, £134,847; accident, £11,200; employers' liability, £10,802; general, £227,878; marine, £1,379,662; life, £1,466. Appropriations from these accounts, with interest, etc., of £81,589, and £180,615 brought forward from 1917, made a total of £426,892 in profit and loss. Shareholders received £93,855, additions were made to reserves, and a balance of £245,835 carried forward. Assets totalled £2,124,883, of which investments at cost comprised £1,145,150. The caiptal issued is £274,543, and the funds, including the profit and loss balance, total £1,212,647.

EASTERN CANADA SAVINGS AND LOAN

Business in every department of the Eastern Canada Savings and Loan Co. has been increased over 50 per cent. in the last five years. The report for 1919, submitted at the annual meeting held in Halifax on February 17th, shows that 458 applications for loans were received, amounting to $1,275,100, and $774,687 was advanced, chiefly on Halifax property. In addressing the shareholders, the president, S. M. Brookfield, pointed out that arrears of principal and interest were only $4,000 on nearly $2,000,000 of business. New securities of the company were sold to the amount of $192,000. The paid-up capital is being gradually increased, and it is expected to have it fully paid, to the amount of $750,000, by July 2nd, 1921.

LONDON MUTUAL FIRE INSURANCE CO.

Premiums, both gross and net, of the London Mutual Fire Insurance Co. showed a substantial increase during 1919, and losses were, on the other hand, reduced. Gross premiums were $783,738, compared with $729,377 in 1918, and net premiums $525,184, compared with $398,247, adding interest, rent, etc., the total net income for 1919 was $542,629. Losses were $226,495, a reduction of $28,000; expenses have increased, however, from $157,363 to $206,518. After allowing for depreciation, $59,083 was added to reinsurance reserve and $45,807 remained as profit for 1919.

Assets of the company now total $819,069, an increase of $180,000. Almost all of the new assets have been invested in bonds of the best character, the total holdings of this kind being $370,473. Contingent portion of premium notes has been reduced from $155,826 to $150,947. The liabilities this year include a new item $85,588, "held on account of reinsurers." Reserve for reinsurance, at the full government standard, has been increased from $275,491 to $334,575, and the total surplus to policyholders is now $358,322, compared with $320,144 at the end of 1918.

Control of the London Mutual Fire was acquired last year by A. H. C. Carson and F. D. Williams, who had been the active heads of the company in Canada for several years. Mr. Carson is president and managing director, Mr. Williams is vice-president and A. V. Stamper secretary. The company's agency connections include Carson and Williams Bros., Winnipeg, Hobson and Co., Vancouver, and W. J. Cleary, Montreal, who is manager of the Quebec branch.

BANK BRANCH NOTES

The following is a list of branches of Canadian banks recently opened:—

St. Thomas, Ont. (Cor. Talbot and Horton Sts.)	Dominion Bank of Canada
Bedford Park, Ont.	Standard Bank of Canada
Birch Hills, Sask.	Union Bank of Canada
Cardale, Man.	Union Bank of Canada
Carmel, Sask.	Union Bank of Canada
McConnell, Man.	Union Bank of Canada
*Caistorville, Ont.	Union Bank of Canada
Corunna, Ont.	Royal Bank of Canada
Sprucedale, Ont.	Royal Bank of Canada
Whitemouth, Man.	Royal Bank of Canada
Kenilworth, Ont. (sub-branch)	Dominion Bank of Canada

---

*Agency, under the supervision of the Canfield, Ont., branch.

It has been announced that the agency of the Union Bank, at Mimico, Ont., is now independent with B. T. Sparham in charge. The branch at Hamilton, Ont., east end, will in future be known as Hamilton, Ont., Barton and Ottawa Streets branch.

The Bank of Commerce has sold the Ein block on Commercial Street, Glace Bay, N.S., to J. F. Merchant and Sons, and has purchased the McQuarrie block at the corner of Commercial and Marconi Streets. The old building on the McQuarrie property will be destroyed and a new one erected.

The Union Bank of Canada has purchased property on the corner of Lutes and Main Streets, Moncton, N.B., from L. H. Higgins. It is the intention of the bank to erect a large building in the near future.

The Bank of Montreal has bought from the Phoenix Lodge, I.O.O.F. the southeast corner of Prince and Forester Streets, Truro, N.S., and will shortly erect a bank building.

WEEKLY BANK CLEARINGS

The following are the bank clearings for the week ended February 26, 1920, compared with the corresponding week last year:—

	Week ended Feb. 26, '20.	Week ended Feb. 27, '19.	Changes.
Montreal	$131,772,654	$ 82,259,174	+$ 49,513,480

Totals	$340,608,354	$226,902,619	+$113,706,735

MORTGAGES BROUGHT BACK TO CANADA

"The condition of the foreign exchanges has made it profitable to resell in Canada securities which had been placed in the United Kingdom and in European countries, and large transactions of this kind are taking place," says the Bank of Commerce Commercial Letter for February. "Continental holders of mortgages are also taking advantage of the situation. One Belgian group disposed of $4,500,000 to Canadian insurance companies, and a French institution has sold mortgages amounting to $8,500,000 to Canadian interests. However, it is understood that only a part of the latter amount will be available for remittance to France."

EXCHANGE QUOTATIONS

Messrs. Glazebrook and Cronyn, exchange and bond brokers, report the following exchange rates to *The Monetary Times*:—

	Buyers.	Sellers.	Counter.
N.Y. funds	15 30-32	16 1-32	....
Mont. funds	Par.	Par.	⅛-¼
Sterling:			
Demand	3.9425	3.9475	....
Cable transfers	3.95	3.9550	....

Rate in New York for sterling demand, $3,39⅞.
Bank of England rate, 6 per cent.

New York quotations on European countries, furnished by the National City Co., Ltd., as at February 26, 1920, are as follows: London, cable, 338½, cheque, 337¾; Paris, cable, 14.20, cheque, 14.22; Italy, cable, 18,20, cheque, 18.22; Belguim, cheque, 13.63; Swiss, cheque, 6.20; Spain, cheque, 17.40; Holland, cheque, 36.80; Denmark, cheque, 14.85; Norway, cheque, 17.20; Sweden, cheque, 18.60; Berlin, cheque, 1.05; Poland, cheque, .75; Greece, cheque, 11.35.

EUROPE'S PROSPECTS NOT BRIGHT

The supervisor of the foreign department of the Canadian Bank of Commerce, who is now visiting Europe, cables that he finds business conditions in England satisfactory, that the labor situation is improving, and that production and trade are developing well, the prospects for the future being unusually bright. In France, however, he finds the bankers pessimistic and the people war-weary, with the result that reconstruction is being carried on slowly. Owing to the fact that a very important part of the country, which includes the chief manufacturing section, has been devastated by the war, he does not look for an early rehabilitation of the franc. Raw materials are greatly needed, and these must now be purchased, if possible, from countries where exchange is more favorable to France than Canada or the United States. The new government is expected to take aggressive action with regard to taxation, which will help to check extravagance, but the outlook for the next couple of years is not promising, and it is feared that the franc may suffer still further depreciation.

PROVINCE TO FINISH HUDSON BAY ROAD

Appropriation for the construction of a railroad from The Pas to the Copper Lake gold district will probably be made at the present session of the Manitoba legislature. The sum involved for the road is $2,500,000. Actual construction of the road will not be proceeded with until the Flin Flon mine and other properties have been purchased by a firm who intend to develop the mines and assure the government of tonnage sufficient to operate the railway successfully. An agreement is about reached between the Canadian National Railway system and the provincial government to have that line lease the road. The government of Manitoba is opposed to taking the responsibility of operating the road itself, it is understood.

Much New Legislation In Saskatchewan

More Loans to Assist Agriculture are Authorized—Extension of Moratorium—Relief for Districts Which Suffered From Drought —Hail Insurance Legislation — Water Supply and Irrigation.

(Special to *The Monetary Times.*)

Regina, February 21, 1920.

DURING its session lasting from November 27, 1919, to early in February, the Saskatchewan legislature placed many new laws upon the statute books. In *The Monetary Times* of January 2, several of the bills of financial importance were mentioned; these included the new seed grain bill; amendments to the Town Act, and to the Rural Municipality Act; the new Village Act; the Saskatchewan Loans Act; the Sale of Shares Act; and the Attachment of Debts Act. The treasurer's budget speech was reported in the issue of February 6.

New Succession Duties

Several other measures affecting provincial revenues were passed during the session. One of the most important of these provides an entirely new scale of succession duties. Hitherto estates under $25,000 in valuation willed to closest relatives were exempt from death dues. The new scale provides for exemption of estates up to only $10,000. The duty from $10,000 to $15,000 is now one-half of one per cent. and from $15,000 to $25,000 one per cent., with increasing rates for larger sums. Other scales are provided according to degree of consanguinity of the beneficiary with variations according to location of residence within or without the province.

To assist the wild lands tax commissioner in making assessments an advisory board of two members of the executive of the Saskatchewan Association of Rural Municipalities was created, the legislation being brought down following objections voiced at the last annual convention of that body to the effect that the responsibility for the assessment of the entire province was too much to place in the hands of one man.

Moratorium Extended

General moratorium powers vested in the government at the outbreak of the war by the assembly were extended for a further period until February 1, 1921. While the government has held this authority no general moratorium was proclaimed at any time, though, it is stated, the existence of the statute has had a salutary effect in enabling the government to arrange for suspension of legal proceedings against hard pressed debtors in areas which have suffered from crop failure.

Saskatchewan Loans Act

To enable the government to take advantage of any favourable opportunities which may present itself to secure money a bill was passed giving authorization to borrow requirements in advance of the fiscal year, and this provision will also be used to enable the government to buy materials and supplies before they are actually required when such policy is advantageous.

More Contingent Liabilities

The government's contingent liabilities have been incurred principally for the advancement of agricultural interests. Considerable sums of money have been loaned to such institutions as the Saskatchewan Co-Operative Elevator Company, the Saskatchewan Co-Operative Creameries, Limited, the Saskatchewan Farm Loans Board and others of a like character in addition to self-sustaining utilities such as the government telephone system. Further powers were given by the assembly during the session to provide additional assistance to the Saskatchewan Co-Operative Elevator Company and the Saskatchewan Creameries, Limited. It is proposed to loan $1,000,000 to the elevator company for the completion of its terminals at Fort William and security will be taken in the form of a first mortgage on the entire plant, valued at $3,500,000. In the case of the Saskatchewan Co-Operative Creameries, Limited, provision is made for loans for the construction of public cold storage warehouses to the extent of 75 per cent. of the cost of such buildings and to a maximum of 100 per cent. where these buildings are being erected for the benefit of a colony of returned soldiers. These loans will all be secured by a first mortgage and valuations of the buildings will be determined by government officials.

Sale of Liquor

Of outstanding interest was the assembly's action in the direction of prohibition of liquor. A resolution was unanimously adopted asking the federal government to take a plebiscite in the province on the question of prohibiting the importation of liquor for beverage purposes under the provisions of the Canada Temperance Act, and in anticipation that the people will vote for prohibition, a new act to regulate the sale of liquor for medicinal, sacramental and commercial purposes was placed on the statute books to replace the existing Saskatchewan Temperance Act on proclamation of the Lieutenant-Governor-in-Council.

Bureau of Labour and Industry

In the commercial and industrial realm a number of important measures were approved. The status of the bureau of labour was enlarged to include industries and was raised to that of a department with a commissioner at the head directly responsible to the minister of agriculture. The bureau of labour and industries will conduct an investigation of natural resources with the object of developing manufactures within the province. The minister announced that it is not the intention to reach out into the hinterland and prospect for new mineral wealth until such time as the province owns its natural resources, the opinion being expressed that under lax federal laws as to development requirements, these resources are now being acquired by large American syndicates with the object of retarding development in the interest of holdings on the other side of the boundary line. The efforts of the bureau will be devoted solely to examining the known resources, such as the rich deposits of sodium nitrate and valuable clays and of bringing the facts to the attention of concerns which would be prepared to manufacture the finished products on the ground.

Natural Gas Supply

Agreements entered into between the Great West Natural Gas Corporation and the cities of Regina, Moose Jaw and Swift Current for the supply of natural gas to those centres were ratified by the assembly. The act vests complete control over the location, construction, maintenance and repair of all supply mains outside the cities' limits in the minister of highways. They are given expropriation rights but are not allowed to fence their right of way or prevent farmers from having free passage across the right of way.

Water Supply for South

Several measures of a developmental character were approved. One of the most important is designed to make use of the South Saskatchewan River as a water supply for the cities of Regina and Moose Jaw and the large intervening rural area. A preliminary estimate places the cost for immediate needs at $6,000,000. The government is prepared to bear the costs of investigation but the area benefited is

expected to assume the entire cost of construction and maintenance. The act provides for the appointment of a commission of experts to investigate the feasibility of the scheme. The commission will be assisted by an advisory board consisting of representatives of the three railways operating in the province and a representative each of the cities of Regina, Moose Jaw and Saskatoon. The last mentioned city uses the river and asked for representation as a protective measure. The commisison is also authorized to inquire into the nature and extent of franchises granted for the use of water from this river from the federal government, a statement having been made that enough of the headwaters had already been given away to drain the river before it reached the western boundary of the province. No further action will be taken until the commission has reported at the next session.

An irrigation act, similar to that in operation in Alberta, was placed on the statute books, principally to meet the needs of residents in the south-west of the province who desire to make use of the waters from the Cypress Hills for irrigation purposes. The act provides for the formation of a local board and for the cost to be assessed to the area benefited.

Federal Housing Loan

The acute housing conditions in all the cities and the majority of the larger towns occupied some attention during the session and a housing bill was passed making available to the urban municipalities $1,800,000, Saskatchewan's share of the federal vote. A similar bill was enacted last year but confined the benefit to returned soldiers and required that loans must be made a charge against the municipal borrowing powers. This year it was decided to extend the benefit to workingmen but the government declined to reconsider its decision with respect to the municipal borrowing powers on the ground that if the municipalities' requests were met it would involve the necessity of them issuing a false financial statement.

Drought conditions in some sections of the province where crops were a partial or total failure necessitated relief measures. In certain confined areas in the south-west of the province the situation has been aggravated by three consecutive crop failures and as a result special measures had to be devised this year to help the unfortunate farmers through the winter and to enable them to carry on during the coming year.

Loan Companies Helping Mortgagors

In the organized districts the mortgage companies are providing financial assistance to purchase seed grain. They have been given power to tack the amounts so loaned to existing mortgages to a maximum extent of $250 a quarter section. They are also given a lien on the 1920 crop and in cases where a lien on the coming crop already exists as a result of previous seed grain advances, the 1921 crop is to be pledged for repayment. A penalty of $500 or two years imprisonment is provided for misuse of money loaned for seed grain or for improper use of seed grain so advanced. In cases where the security is not deemed adequate the government will guarantee repayment. The government itself is making provision for seed grain requirements in the unorganized territories.

In some districts it was found necessary to provide for additional relief in the form of flour, fuel and fodder. As the result of an agreement between the federal and provincial governments, supplies will be provided in the organized districts by the municipalities, which are empowered to borrow from the bank for this purpose at a maximum interest rate of 7 per cent. Such loans will not be a charge against the municipality's borrowing power. The amount of relief to be furnished needy families is limited, in the case of fodder to $150 a quarter section. The municipality is required to take promissory notes from the borrower and to charge up arrears of repayment against the land. In a similar manner the provincial government is providing for relief in the unorganized districts. Where there are losses, and it is admitted that some of the money will not be recoverable, they will be equally divided between the federal and Saskatchewan governments.

Other Relief Measures

A further relief measure was passed in the form of a bill to enable municipalities to borrow money for the supply of fencing materials. This was necessary to enable some farmers to protect crops, principally flax, which have not been threshed, from the depredations of cattle in municipalities where cattle are allowed to range. Where the amount to be borrowed by the municipality totals more than $2,000 a by-law must be submitted to the ratepayers for approval. In the event of the by-law being approved the municipality furnishes fencing materials to a maximum of $100 per quarter section. The beneficiary will give the municipality a promissory note repayable in three equal annual instalments covering the rate of interest the municipality was required to pay and the cost of handling. The municipality is limited to a maximum interest rate of 8 per cent. Arrears of payments are to be made a charge against the land.

As a result of drought conditions in the south-west of the province a number of owners of purchased homesteads and pre-emptions are unable to meet their payments to the federal government, and these lands are being cancelled in considerable numbers. To meet this situation and to provide protection, not only for the holder of pre-emptions but also his creditors, legislation was enacted permitting mortgage companies to advance money to pay off government claims and giving them a prior charge against the land. The suggestion was made that certain interests intended to make use of this legislation to seize some of these lands and a proviso was attached that no part of the principal of any such loans should be repayable in less than three years from the date of execution.

City Act Amended

In a young and growing province like Saskatchewan it is only to be expected that every session will see the necessity for new and amending municipal legislation. This year was no exception and amendments were made to all the municipal acts. The amendment to the City Act of greatest interest was perhaps the provision for cities to adopt proportional representation at municipal elections as an optional measure, provided the citizens approved the change by a vote at the polls. The income of married men and widowers with children up to $1,500 and of single men up to $1,000 is to be exempt from income tax. In the case of soldiers any sums received as pensions are not to be taken into consideration in totalling the sum to be exempted. This privilege is also to be extended to soldiers of the allied forces who are British subjects. These exemptions for soldiers are made to apply in all classes of municipalities. Legislation was enacted to apply all exemptions from taxation, forfeiture proceedings and concessions granted to soldiers to sailors and men of the air forces.

As a result of representations made by the Saskatchewan Association of Rural Municipalities on account of defalcations of secretary-treasurers, legislation was approved requiring in future that a form of receipt approved by the department of municipal affairs be used in connection with all moneys received by officials of rural municipalities and villages. The department was given the control of issuance of all receipt forms. More stringent audit requirements were included in the law, and in the Village Act provision is made for bonding officials who handle money. Where councils neglect to bond their officials the councillors will be held personally responsible for default of officials. In villages and hamlets the value of merchants' stocks to be assessed for taxation was reduced from 100 to 60 per cent.

Hail Insurance Law Amended

Some important amendments were made to the Municipal Hail Insurance Act. In future no person who has withdrawn his land from hail insurance protection under the municipal scheme will be permitted to vote on a by-law to repeal hail insurance in his municipality. Every person assessable for hail insurance is required to report to the municipality the amount of his land under crop by June 1 and if he fails to do so the municipality is empowered to make an estimate, this estimate to be binding in fixing the levy and also for purposes of compensation in the event of loss. whose crops have been destroyed by some cause other than hail may withdraw his land from hail assessment not later than July 20 and secure partial refund of premium. Other amendments were included making more stringent regulations in connection with reports by the farmer to the municipality and by the municipality to the association with the object of speeding up payment of claims and of reducing claims based on misrepresentation.

Several additions were made to the Arrears of Taxes Act, which has now become an involved piece of legislation; the amendments being designed, while protecting the interests of soldiers in property under confiscation proceedings, to permit the municipalities to secure title to properties bought in for arrears of taxes under the provisions of the act.

A number of minor amendments were made to educational acts, the principal being provision for the establishment of day and night vocational training schools in high school and town school districts. Administration of such schools is provided for under a board to comprise representatives of local school boards, employers and employees and funds for carrying on the schools will be provided for by levy within the local school district. The question of extending financial assistance to enable rural schools to undertake high school work was discussed. A resolution approving the adoption of this policy was passed with the understanding that the government would make the necessary provision to put it into effect.

MILLING PRODUCTION OVER QUARTER BILLION

Industry in 1918 Used Raw Materials Worth $218,237,250—Wage Bill, $7,525,070, and Expenses About $10,000,000—Capital Investment is $78,144,461

A PRELIMINARY report of the flour milling industry in Canada for the calendar year 1918 has been compiled by the Dominion Bureau of Statistics, covering reports from 1,183 individual establishments. Distributed by provinces, the number of mills reporting was as follows: Alberta 53, British Columbia 5, Manitoba 46, New Brunswick 52, Nova Scotia 37, Ontario 622, Prince Edward Island 27, Quebec 284, and Saskatchewan 57.

Capital Investment

The total capital invested in the industry amounted to $78,144,461, of which land, buildings and fixtures amounted to $25,845,826; machinery and tools, $14,620,318; materials on hand, stocks in process, etc., $22,606,266; cash, trading and operating accounts and bills receivable, $15,072,051.

Employees, Salaries and Wages

The number of persons employed in the industry by classes of employment and by sex, together with the amounts paid to each class for salaries and wages, is shown in the following tabular statement:—

Classes of employment.	Employees. Male.	Employees. Female.	Salaries or wages.
Officers, superintendents and managers	413	9	$1,064,620
Clerks, stenographers and other salaried employees	653	306	1,088,145
Employees on wages—average number	5,750	234	5,372,305
Totals	6,816	549	$7,525,070

Fuel and Miscellaneous Expenses

The total cost of all fuel used during the year was $828,872, comprising 92,125 tons of bituminous coal of all classes, worth $562,050; anthracite coal, 6,191 tons, worth $34,404; lignite coal, 12,789 tons, worth $62,253; coke, 178 tons, worth $1,562; gasoline, 52,853 gallons, worth $18,646; fuel oil, 131,892 gallons, worth $29,877; wood, $20,167 cords, worth $74,701; natural gas, 321,778 cubic feet, worth $42,901, and other fuel not specified to the value of $2,478.

The total charge for the year of miscellaneous expenses was $9,950,317. The items comprised: Rent of offices, machinery, works and power costing $1,243,566; insurance premiums, $651,858; taxes, $548,229; advertising and travelling expenses, $663,804; repairs to buildings and machinery, $1,560,851; and all other sundry expenses, $5,282,009.

Materials Used

The total cost of all materials was $218,237,250, made up of wheat to the value of $174,454,518; oats, $18,738,514; corn, $3,883.987; barley, $3,118,845; other and mixed grains, $15,987,986; and materials for containers, $1,853,400.

Production

The quantity and value of each class of products at the point of production, including merchant and custom grinding, were as follows:—

Kind.	Quantity.	Value.
Wheat flour, white (barrels)	20,201,813	$187,730,229
Wheat flour, graham (barrels)	87,432	821,992
Oatmeal and rolled oats (barrels)	1,437,540	12,663,709
Cornmeal (barrels)	183,495	1,465,249
Corn flour (barrels)	91,544	923,721
Rye flour (barrels)	57,423	451,437
Buckwheat flour (pounds)	9,364,843	660,052
Barley meal (pounds)	5,470,783	220,019
Barley, pot and pearl (pounds)	5,210,848	265,229
Peameal (pounds)	706,264	38,580
Hominy (pounds)	4,771,168	215,548
Grist (pounds)	433,200	19,546
Feed, chopped (tons)	1,517,994	28,819,643
Offal (tons)	709,602	23,935,169
Cereal foods (value only)	....	1,845,151
All other products (value only)	....	1,414,124
Construction and repair work	....	425,673
Total value	....	$261,915,071

The total cost value at the mill of all materials used in the industry and the selling value at the mill of the different products are given below by provinces:—

Province.	Cost of materials.	Value of products.
Alberta	$ 18,795,504	$ 23,078,613
British Columbia	1,030,047	1,281,957
Manitoba	26,713,977	31,855,937
New Brunswick	1,302,207	1,704,180
Nova Scotia	576,141	808,372
Ontario	119,225,883	142,522,816
Prince Edward Island	376,750	464,927
Quebec	35,033,939	42,415,439
Saskatchewan	15,182,802	17,782,830
Total	$218,237,250	$261,915.071

PAPER CONTROL TO CEASE

The control over newsprint prices, which has been exercised by the Dominion government for the past three years, is to cease next June. R. A. Pringle, K.C., the paper controller, has already resigned and was temporarily succeeded by R. W. Breadner, whose official position at Ottawa is that of commissioner of taxation. The Board of Commerce will, however, be able to take such action as it sees fit with respect to the industry. In addition to the general powers of the board, all the authority which different paper controllers have had in the past is conferred upon the board, which is named specifically as paper controller. The resolution states that the board can exercise to the full not only its own statutory authority in connection with the supply of newsprint, but also all authority which the paper controller could exercise under any order-in-council or under the legislation of 1919.

SUCCESSION DUTY ON CHARITABLE BEQUEST

New Brunswick Supreme Court Decides Duty Can be Collected Where Expenditure of Money Within Province is Not Specified

ON a stated case to the Supreme Court of New Brunswick regarding succession duty on charitable bequests, it was held that in New Brunswick charitable bequests are liable to succession duty unless specifically bequeathed for charitable purposes within the province, the rate of duty in such cases to be 10 per cent. with accrued interest at five per cent. if the duties are not paid within six months after the testator's death.

Charity Was Not Specified

The case arose out of an action commenced by the provincial secretary of New Brunswick against C. W. Robinson and A. E. Bartlett as executors and trustees of the last will and testament of one A. R. McClelan. The aggregate value of the estate of A. R. McClelan is $205,602 of which $152,999 was a charitable bequest to be administered by the above named trustees, Robinson and Bartlett. The residuary clause of the will which directed the application of this charitable bequest is: "I give and bequeath all the residuary estate to my executors and trustees in trust to manage, to call in, collect and convert the same into money and deposit the same at interest in a chartered bank or banks and use and employ the money so deposited from time to time and all interest therefrom arising for the benefit, advantage, assistance or the founding of such charitable, religious, educational or sanitary institutions as my said executors and trustees may from time to time see fit and deem desirable."

The questions upon which the Court was asked to give an opinion were: (a) Is the plaintiff entitled to succession duty under The Succession Duty Act, 1915, in respect of all moneys passing to the said Clifford W. Robinson and Abner E. Bartlett, as trustees under the residuary clause in the will of the said Abner R. McClelan, deceased? (b) If the Court should decide that the plaintiff is entitled to succession duty under The Succession Duty Act, 1915, in respect of all moneys passing to the said Clifford W. Robinson and Abner E. Bartlett, as trustees under the residuary clause in the will of the said Abner R. McClelan, deceased, at what rate is such succession duty to be computed? (c) Is the plaintiff entitled to interest on such succession duty, as claimed?

Duty Could be Collected

The learned judge in his answer to the questions stated that as regards the first question the answer depended on the construction and meaning to be placed on section 6 subsection 2 of chapter 27 of the Succession Duty Act which reads as follows: "No duty shall be computed in reference to (2) any property given, devised or bequeathed for religious, charitable or educational purposes to be carried out in New Brunswick nor the amount of any unpaid subscription for any like purpose made by any person mentioned in this sub-section for which his estate is liable."

In answer to the first question His Lordship said: "I base my judgment upon the fact that upon a true construction of the will there is no obligation on the part of the trustees to carry out the intention of the testator in this province, and that the bequest is not a bequest to be carried out in New Brunswick. To bring the case within the statute the legacy must be given to be carried out in New Brunswick, and there must be a clear intention manifest upon the face of the will that the purpose is to be effectuated here. In the language of Palles, C. B., *mutatis mutandis* it is not sufficient that an application of money in New Brunswick would satisfy the bequest. In my opinion, therefore, the answer to the first question must be yes, or in other words that the plaintiff is entitled to succession duty under the Succession Duty Act, 1915, in respect of all money passing to the said C. W. Robinson and A. E. Bartlett as trustees under the residuary clause in the will of the said A. R. McClelan, deceased."

In regard to the second question His Lordship said: "Counsel for the plaintiff called attention to clause (e) of section 10, which is to the effect that where a successor resides out of the province he shall pay double the rate otherwise provided for, and contended that under a correct reading of that statute the double rate should be applied in the present case, or in other words that the Crown was entitled to a duty of 20 per cent. on the amount of the residuary bequest. It is quite clear that if the bequest were made for the benefit of a charitable institution outside the province the assessment on the amount would be as follows: A rate of 10 per cent. would be computed owing to the institution being a stranger in blood to the testator, and this would be doubled because such beneficiary was outside the province. From this counsel for the plaintiff argue that that would be the case here, if it is decided that the bequest must be considered a bequest for charitable purposes not to be carried out in New Brunswick. That, however, is not my opinion. My judgment is that it is liable to a duty of 10 per cent. because it goes to institutions that must be regarded as in the same position as strangers in blood to the testator, and because it is not directed that it shall be disposed of for purposes to be carried out in New Brunswick."

In answer to the third question it was decided that in accordance with section 18 of the Succession Duty Act, interest at the rate of five per cent. can be collected from the time of the testator's death.

STRATHCONA FIRE INSURANCE COMPANY

Since commencing business in 1909 the Strathcona Fire Insurance Co. has succeeded in building up a business in force of $30,842,116 as at December 1st, 1919. The company does business only in the province of Quebec, and most of the risks are on residential property distributed throughout it. The results for 1919 were especially satisfactory, the loss ratio being 35 per cent., compared with 42 per cent. for 1918, and the expense ratio being reduced by nearly 3 per cent. to 42 per cent. Premium income was $341,683, an increase of $78,643, and after paying losses, expenses, etc., a profit of $51,511 remained.

The company now has assets totalling $322,396, including $121,354 of bonds and debentures and $30,000 of mortgages on real estate. The paid-up capital is $120,000, the balance of the $300,000 subscribed being subject to call. Dividends will be commenced this year, the directors having authorized two semi-annual payments of 3 per cent. each. A. A. Mondou is president and general manager of the company, and J. Marchand, assistant general manager.

FIRE INSURANCE AGENTS' ASSOCIATION

For the past two or three years an effort has been made to have all fire insurance agents in the province of Saskatchewan band together in an agents' association. One was formed, and the agents at Saskatoon, Regina, Moose Jaw, Swift Current, Grayson and a number of other points became members. Mr. Bushe, of Saskatoon, who was secretary, addressed circulars to all agents throughout the province, asking them to attend meetings, first at Saskatoon and last year at Regina, but only a very small number attended or became members. In the United States these organizations flourish, and have helped to put the business of insurance on a higher plane.

The February "Kernal," published by the Kern Agencies. Moose Jaw, commends this movement. It says:—

"The agents could be a great force, both for the good of the insuring public and for themselves. We favor such organization if for no other reason than that we should be able to make it compulsory for all Saskatchewan business to be written in the province by Saskatchewan agents. Perhaps you don't realize what this would mean, but there are countless risks written east and west on which our agents do not get commission, and a great many others on which they get a small policy fee."

W. FRANCIS,
President.

C. H. EASSON,
General Manager.

Toronto, 31st January, 1920.

Auditor's Report to the Shareholders.

I have compared the above Balance Sheet with the books and accounts at the chief office of The Standard Bank of Canada, and the certified returns received from its branches, and after checking the cash and verifying the securities at the chief office and certain of the principal branches on 31st January, 1920, I certify that in my opinion such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs according to the best of my information, the explanations given to me, and as shown by the books of the Bank.

In addition to the examination mentioned, the cash and securities at the chief office and certain of the principal branches were checked and verified by me at another time during the year, and found to be in accord with the books of the Bank.

All information and explanations required have been given to me, and all transactions of the Bank which have come under my notice have, in my opinion, been within the powers of the Bank.

G. T. CLARKSON, F.C.A.,
of Clarkson, Gordon & Dilworth, Toronto, Canada.

Toronto, February 16th, 1920.

EATON COMPANY INSURANCE PLAN

Have Applied for Incorporation of Life Insurance Co. and General Insurance Co., with Federal Charters

OFFICIAL notice has just appeared of the application to Dominion parliament for the incorporation of the T. Eaton Life Assurance Co. and of the T. Eaton General Insurance Co. The notice is signed by the company's solicitors, Donald, Mason, White and Foulds, Toronto. The usual powers are requested. In the case of the former it is "power to make contracts of life insurance, to grant, sell or purchase life annuities and endowments depending upon the contingency of human life and generally to carry on the business of life insurance in all its branches and forms and with all the powers, privileges and immunities conferred by the Insurance Act, 1917." For the General Insurance Co. it is "power to carry on sickness, accident, guarantee, burglary, inland transportation, plate glass, automobile, sprinkler leakage, fire and steam boiler insurance."

In an interview with *The Monetary Times* this week, the company stated that it was not prepared to make any announcement as to its plans until the charters had been received. It was pointed out, however, that this move is entirely in connection with the company's own business and employees. Two charters are required, because the Dominion laws do not permit a life insurance company to do other kinds of business, and the T. Eaton Co.'s welfare plans include provision for pensions, accidents, etc., as well as life insurance. The number of employees in Canada varies from 20,000 to 30,000. A department for handling this business is being created, and employees skilled in various branches of insurance will be engaged.

DOMINION MORTGAGE ASSOCIATION ANNUAL

The annual meeting of the Dominion Mortgage and Investment Association will be held in Toronto, March 4 and 5. Besides the transaction of regular business, several prominent speakers will give addresses. Some of the features on the program are: "Federal Loans to Farmers in the United States," by E. D. Chassell, secretary, Farm Mortgage Bankers' Association of America; "Cost of Foreclosure Proceedings in Several Provinces," by A. L. Crossin, Winnipeg; "Difficulties Incident to Extreme Fluctuations in Rates of Exchange," by A. J. Glazebrook; "International Finance and Europe After the War"; "Adjustment of Financial Difficulties of Municipalities," by E. G. Long, Toronto; "Moratoria in Canada," by several speakers.

BORROWING OF BRITISH COLUMBIA GOVERNMENT

In answer to a question in the legislature on February 13, Hon. John Hart, minister of finance, gave the following statement of borrowings of the present British Columbia government since it took office: Loans to Pacific Great Eastern Railway Co. for construction work, $5,450,000; loans to farmers through the land settlement board, $1,800,000; loan to the district municipality of South Vancouver, $790,000; loans to municipalities for better housing for soldiers, $750,000; loans made under Department of Industries Act, $110,000; expenditures in carrying out of the Soldiers' Land Act, $170,000; expenditures for the conservation of irrigation works, $200,000; expenditures by department of public works on permanent works, $500,000; to meet deficits and liabilities left by previous administrations, $4,000,000; total, $13,770,000.

No amounts have been borrowed by the present administration to cover current expenses since it took office. No commissions were paid in connection with any of these loans. All these loans are outstanding with the exception of two treasury bills for $50,000 each, which are held respectively for the department of public works and the department of industries.

MINIOTA FARMERS' MUTUAL FIRE

The 34th annual meeting of the Miniota Farmers' Mutual Fire Insurance Co. was held at Beulah, Manitoba, on January 30th, 1920. The directors' report showed increased business of $5,358,903, with total volume of business at end of 1919 amounting to $30,870,421. Assets also increased during the year by $100,774, and the total surplus now held for members amounts to $569,548.

The directors elected for 1920 are as follows: J. A. Frazer, president; G. Rowan, vice-president; M. G. Doyle, secretary-manager; H. E. Hemmins, treasurer; and F. J. Collyer, J. R. Lynch, A. Doig, W. R. Doyle and R. W. Brethour.

DOMINION BUSINESS FAILURES

Business failures in Canada for the week ended February 20, 1920, compared with previous weeks, as reported by R. G. Dun and Co., follows:—

Date.	Ont.	Que.	Man.	Alta.	Sask.	B. C.	N. S.	N. B.	P.E.I.	Total.	1919.
Feb. 20th ..	4	7	2	0	2	0	1	0	0	16	16
Feb. 13th ..	2	2	2	0	1	0	1	0	0	8	21
Feb. 6th ..	3	6	0	0	6	1	2	0	0	18	12

Bradstreet's figure for the week ended February 19, 1920, was fourteen, twelve of which were concerns with capital of $5,000 and under, one with a capital over $5,000 and up to $20,000, and one with a capital over $20,000. For the corresponding week of 1919, the number of failures was fifteen, for 1918 fourteen, for 1917 twenty-nine, and for 1916 forty-three.

PROFITABLE YEAR FOR STANDARD BANK

The experience of the Standard Bank of Canada during the fiscal year ending the 31st of January last, is the most satisfactory in its history. Net earnings at $776,310 create a new record. Compared with the previous year, there is an increase of $78,866. From earnings, the sum of $455,000, being dividends at the rate of 13 per cent. per annum was paid. Further disbursements were as follows: Contributions to officers' pension fund, $25,000; patriotic contributions, $8,100; war tax on bank note circulation, $35,000; reserve for Dominion income tax, $45,000; reduction of bank premises account, $75,000. The balance carried forward was $360,537, an amount equal to over 10 per cent. of the paid-up capital of the bank, and in excess of the same item in the statement of the previous year by $133,210.

Total assets at the close of January were $93,405,405, or an increase of $9,748,539, compared with the previous year. There was an increase of $1,346,850 in cash on hand and quick assets, the total amounting to $37,412,187, or 45 per cent. of the bank's liabilities to the public. That the bank has, during the year, maintained its well-known relationship with the agricultural, industrial and commercial institutions of the country, is indicated by the fact that current loans and discounts at the end of January stood at $52,463,278, an increase for the year of $6,869,400. Further evidence, both of the bank's expansion in business and its increase in the confidence of the public, is seen in the gain of 10 per cent. which has taken place in the deposits, the total amount standing at $74,019,023, of which $49,940,378 is interest bearing and $24,078,643 is non-interest bearing deposits. During the year 37 new branches and sub-branches were opened throughout the Dominion.

An increase in the dividend rate from 13 to 14 per cent. was announced at the annual meeting of the Standard Bank in Toronto on February 25th. The board of directors was re-elected. Referring to general conditions, the general manager, C. H. Easson, said that the ever-rising discount on sterling must result in a decline in exports, followed by a general let-up in business activity and readjustment.

BRITISH IMPERIAL PREFERENTIAL TARIFFS

New Policy in Great Britain, But Has Been in Force For Some Years in Some Colonies—Rates of Preference

TO Canadian firms engaged in export trade, and to those wishing to extend markets abroad for their products, the subject of preferential duties within the empire is deserving of careful study. The Royal Bank of Canada has just issued a pamphlet on this subject giving up-to-date particulars relating to British preferential tariffs. The bank itself through its widely extended system offers good facilities to Canadian traders doing business abroad.

A preface to the pamphlet says:—

"The intention has been to indicate the openings presented by the preferential tariffs for the enlargement of Canadian trade, but for particulars as to the rates of duty on the various articles reference should in all cases be made to the complete tariffs of the countries concerned. Canadian exporters are urged to pay particular attention to the requirements relative to certificates of origin in each of the countries extending a preference to Canada. These requirements are really drawn up for the protection of the Canadian shipper and should be carefully followed. Specimens of the forms of certificates required will be found under the heading of the different countries.

Countries Extending Privilege

"Preferential treatment is at the present time accorded certain classes of Canadian goods by the United Kingdom, New Zealand, South Africa, British Guiana, and the West India Islands, which were a party to the Canada-West Indies Trade Agreement of 1913. Australia extends a tariff preference of an average rate of approximately five per cent. on certain goods imported from the United Kingdom and South Africa, but this does not apply to Canada. The Canadian government has been in communication with the Australian government on this subject, and it is possible that a preference will be granted certain Canadian goods by Australia in the not too distant future.

"The Canada-West Indies Trade Agreement of 1913 included the colonies of British Guiana, Trinidad and Tobago, Barbados, St. Vincent, St. Lucia, St. Kitts-Nevis, Grenada, Montserrat and the Virgin Islands. Under the agreement these colonies give Canada a tariff preference of 20 per cent. on a specified list of articles. There has lately been considerable discussion in British Guiana and other colonies for an enlargement of the Preferential Agreement. The other British colonies in the Caribbean, Jamaica, Turks and Caicos Islands, the Bahamas and British Honduras, did not join in the Trade Agreement of 1913, but there is now a strong movement in certain of these colonies in favor of becoming a party to the reciprocity arrangement with Canada.

"New Zealand gives the countries of the British Empire a preference on certain classes of goods, which varies on different articles. The preference is in the form of a surtax on goods from non-British origins and is of an average rate of about 12½ per cent.

"The South African Customs Union extends a preference rebate of three per cent. on a wide range of goods to reciprocating countries of the British Empire, including Canada.

Recently Adopted in Britain

"The British government only adopted the principle of Imperial Preference in the year 1919. A tariff preference of one-sixth or one-third is given to dutiable products of the British Empire, but the list of articles covered by the tariff is not very extensive. The Prime Minister, Mr. Lloyd George, recently declared that in case any articles are added to the tariff a preference will be given to countries of the British Empire. In view of the tendency towards the adoption of a protective tariff by Great Britain, it seems probable that in the next revision of the British tariff a number of articles will be added, and in the case of each item a preference will be accorded goods from the British Empire.

"That the principle of Imperial preference is more likely to be extended than restricted in the future is evident from the prevailing sentiment for the encouragement of trade within the Empire. The subject will come up for discussion at the next Imperical Conference. A study of the movement for preference within the Empire will confirm that this principle has now become one of the foundations of Imperial policy."

MOUNT ROYAL ASSURANCE COMPANY

The annual financial statement of the Mount Royal Assurance Co. for the past fiscal year shows premium revenue, after deducting reinsurances, amounted to $645,986, an increase of $108,292 over the preceding year. The losses paid amounted to $278,388. The net profits of the company amount to $190,902, of which $120,448 was carried to profit and loss. The company's reinsurance reserve now amounts to $396,777, and the total at credit of profit and loss to $675,566. Total assets of the company amount to $1,708,120, including investments amounting to $1,396,174.

The retiring directors of the company were re-elected as follows: Hon. H. B. Rainville, president; Hon. J. M. Wilson, vice-president; Neuville Belleau, Hon. J. L. Decarie, H. A. Ekers, Hon. N. Perodeau, Sir Lomer Gouin, Paul Rainville and E. A. Ouimet.

PRESENT SECURITY PRICE LEVELS

In the February issue of "Investment Items," Royal Securities Corporation says:—

"Market values appear high at the present time in comparison with recent years, but we believe there are good reasons for their present level. If our argument that high commodity prices and wages will continue is well-founded, and we believe that it is, present security levels are justified and in many instances even higher levels will be attained. In the long run security prices are based on earning power, and this in turn must be sufficiently great to induce new capital into any given enterprise or industry. Because the value of any piece of reproductive capital, for whose product there is a steady demand, must eventually be measured by the cost of replacing it, we feel that security values must finally readjust themselves in accordance with the new values now placed on the assets which they represent.

"Taking into account the cost of replacement, which is seldom less than 70 per cent. to 80 per cent. higher than it was five years ago, many classes of productive property are still greatly undervalued on the security market. This is true of the majority of hydro-electric companies, textile companies, cement plants, steel plants, pulp and paper enterprises and railways. Whatever limitations may at present be imposed, by governments and otherwise, on the earning powers of some of these, they will eventually have to be permitted to earn enough to enlist new capital upon the basis of the new cost of reproduction. There is, in our opinion, room for a further advance in the price of most securities in these classes, and it would seem reasonable to suppose that this advance will eventually be achieved, although in such an extensive process of readjustment the market will naturally develop from time to time speculative conditions conducive to a temporary reaction.

"Bond values at present are lower than they have been for twenty years. This is a natural consequence of the concentration of the security market's interest upon the very profitable readjustment process in stocks, which is described above, and which is quite probably not yet complete. One of the first signs of its completion will be the diversion of interest from stocks to bonds, and according to all precedent the price of bonds should tend to rise slightly before the culmination of the advance in both commodities and stocks. For this reason the bond market to-day offers exceptional attractions, especially to those who do not care to take the risk of overstaying the stock market."

BRITISH COLUMBIA ELECTRIC RAILWAY

INCREASED EARNINGS—IMPROVEMENT IN LOCAL CONDITIONS

The Twenty-Third Ordinary General Meeting of the members of the British Columbia Electric Railway Company, Ltd., was held on Tuesday, February 3rd, at Liverpool-street Hotel, London, England, Mr. G. P. Norton, presiding.

The Secretary (Mr. R. W. Bartlett, A.C.A.) having read the notice convening the meeting and the report of the auditors,

The Chairman said: Ladies and Gentlemen,—If you agree we will take the report and accounts as having been read. Our Chairman, Mr. R. M. Horne-Payne, is not able to be with us to-day, but he has prepared a speech, and I will ask Mr. Blundell Brown if he will kindly read it to you.

Mr. T. Blundell Brown then read the Chairman's statement, which was as follows:—

"Ladies and Gentlemen,—We meet to-day under very much more pleasant circumstances than have existed at any meeting since 1913. Not only are your directors able to recommend modest dividends on the various stocks of the company for the year under review, but we are able to tell you that the outlook for the future is encouraging. Trade and industry in British Columbia have prospered in a very satisfactory manner since the close of the war, and are now based on stable and permanent conditions such as did not previously exist. So long as your company receives fair treatment we have nothing to fear for the future, and there is no reason to expect that British Columbia, which needs capital to develop her resources, will treat otherwise than fairly our splendid enterprise, with which the credit of the Province is identified in the investing centres of the world. I will not make any lengthy statement to-day, as I know you will all want to hear my colleague, Mr. John Davidson, who, at the request of the directors, kindly undertook a trip to British Columbia, from which he returned shortly before Christmas. I will only deal with two matters on which I think you will require some explanation.

Revenue of an Exceptional Character.

"First, with regard to the accounts, you will see that the ordinary net revenue during the year, after making provision for depreciation, sinking fund and renewals on the usual scale, was £224,600 15s. 9d. This compares with £203,607 7s. 2d. for the preceding 12 months, an increase of £20,993 8s. 7d. In addition to the ordinary net revenue—by which I mean the net revenue earned by the whole enterprise in the ordinary course of its business—we have been able this year to bring into the revenue available for division a further sum of £138,419 1s. 7d., which I will describe as revenue of an exceptional character. It arises from two sources—firstly, the profit on exchange in remitting earnings from Vancouver to London, and, secondly, the bringing in of certain moneys set aside for contingencies and now no longer required for such. With regard to the first of these—namely, the profit on exchange—while the rate of exchange continues at the present time to be extremely favorable for remitting money from Vancouver to London, it is impossible to say for how long or how short a time it may remain favorable, and therefore how long our revenue may be augmented from this source. With regard to the second—namely, the bringing in of certain moneys set aside for contingencies—the directors consider that, in view of the improved conditions obtainable in British Columbia, the moneys brought in from this source may be safely distributed. This exceptional revenue enables us to recommend the payment of a bonus of 3 per cent. on the Deferred Ordinary stock, in addition to a final dividend of 2½ per cent. on the Preferred Ordinary stock and a dividend of 3 per cent. on the Deferred Ordinary stock. For the reasons I have given, the bonus of 3 per cent. upon the Deferred Ordinary stock must be looked upon as an entirely exceptional distribution, and not regarded as likely to recur in future years.

"On the other hand, the improvement in local conditions is such as to justify us in believing that the time has returned when we may hope to be able to make an annual distribution of dividend on the Deferred Ordinary stock. Our hopes in this respect are encouraged by the increase in earnings during the first six months of the current year, which, as compared with the previous year, show an increase of $382,590. Although increases at this rate may not, and probably will not, be maintained, and a large increase in our wages bill has to be faced, the improvement is encouraging, and we rely on the fact that the Public Utilities Commission is directed by the Act, in fixing any rates,, to have regard to providing a fair and reasonable return upon the appraised value of the company's property. I think no one will contend that a return of anything like 3 per cent. upon the Deferred stock, which has been subscribed in cash at a premium, is a fair and reasonable return. I do not think that I need detain you with any further remarks upon the accounts, which speak for themselves.

Fares in Vancouver City.

"I will now pass to the subject of the six-cent fare which has been collected by us in the City of Vancouver. You will all recollect that the origin of the six-cent fare dates from June, 1918, when a demand was made by the company's employees for a large increase in wages, which, in view of the condition of our earnings, it was impossible to concede. Early in July, 1918, a strike took place which completely paralysed the tramway services. Up to that time we had been collecting a five-cent fare in the City of Vancouver, and in order to put us in a position to meet the demand for increased wages and thus resume the services, the authorities granted us the right, for a period of nine months, to charge a six-cent fare in the city. This right to charge a six-cent fare expired on the 8th April, 1919, but in March, 1919, the Public Utilities Act was passed by the legislature, which gave us authority to continue charging a six-cent fare, but provided that until the company had satisfied the Public Utilities Commission that such rate was just and reasonable, the amount collected in excess of the five-cent fare previously charged should be held in suspense. Soon after the passing of the Public Utilities Act, Major J. L. Retallack was appointed commissioner, and immediately commenced an inquiry as directed by the Act. In connection with this inquiry, the commission ordered an appraisal of all the property of the company on the mainland, but before the appraisal could be commenced, owing to an amendment to the General Railway Act of the Dominion of Canada, our railways passed from the jurisdiction of the Province of British Columbia, and of the Public Utilities Commission, to that of the Dominion of Canada and of the Dominion Railway Board. The amendment in question was passed on 7th July, 1919, and in order to comply with the law we had to apply to the Dominion Railway Board to have the railway rates which we were charging, including the six-cent fare, approved. This approval was granted by the Railway Board, and the effect of it is that the 6-cent fare belongs to the company as from 7th July, 1919, and will continue to belong to the company so long as the company remains under the jurisdiction of the Dominion Railway Board, and is not altered by that Board.

"The result of the legislation, however, is to place part of our property under the jurisdiction of one authority while leaving the remainder under the jurisdiction of an entirely distinct authority, and, if this situation continued, it is evident that the effect would be that neither body would have power to consider the company's enterprise and its earning capacity as a whole. As the enterprise was built up as a whole, it is impossible to dissociate the consideration of the earnings of one section from those of the other section, and your company, therefore, readily joined with the local authorities in petitioning that amending legislation be introduced to bring our railways again under the jurisdiction of the Public Utilities Commission. It is fully expected that such amending legislation will be passed early next year, when no doubt the enquiry and appraisal which, in the meantime, have been adjourned, will be resumed."

Mr. Davidson's Visit to British Columbia.

The **Chairman**: One of our directors, Mr. John Davidson, has recently paid a visit to British Columbia, and I think it will be convenient now if he will kindly address the meeting.

Mr. John Davidson: At the request of my colleagues I had the pleasure in September last of visiting British Columbia. My visit was necessarily a brief one, but I found time to go over most of the company's properties. I would like to tell you that it is impossible for anyone to see the properties belonging to your company and fail to be impressed with their great physical value and with the immensity and importance of the undertaking. Let me give you a few facts regarding the company's properties. In Vancouver, South Vancouver, Point Grey, North Vancouver, Victoria, New Westminster, Steveston and Chilliwack, you have a fully equipped electric railway system aggregating 367 miles, on which over 53,000,000 passengers were carried last year. In the operation of this system of electric railways you have 385 passenger cars and 463 cars carrying freight, besides car barns and equipment of every kind necessary to the operation of such a system. On the mainland, 15 miles from Vancouver, you own a magnificent water power plant with a generating capacity of 84,000 horse power. The water power for this plant is derived from Lake Buntzen and supplemented from Lake Coquitlam, the latter being situated higher up among the mountains and connected with Lake Buntzen by a tunnel 12,755 feet long. On the island of Vancouver you own another water power plant at Jordan River, 43 miles from Victoria, which, together with a smaller water power plant at Goldstream, has a generating capacity of 24,500 horse power. These great water powers supply most of the electric energy required for the running of the electric railway system and the lighting of the cities of Vancouver and Victoria—both wonderfully lit cities—and also for the bulk of the light and industrial power required by the surrounding districts. The water power plants are of the most modern and permanent character, as are also the 15 sub-stations which are built of solid reinforced concrete. Your company also owns auxiliary steam plants with a combined capacity of 28,500 horse power. In addition, the company owns gas works both in Vancouver and Victoria, and supplied last year a total of 436 million cubic feet of gas. Incidental to the operation of these plants, the company owns a vast distributing system of cables and pipes.

The whole of the plant impressed me as being in an excellent state of repair and thoroughly efficient. I was also much imprssed with the care taken to secure an uninterrupted service to the public. During my visit I passed through all the principal cities of Canada, and I can say from personal knowledge that the condition of the plant and the efficiency of the service given by your company is not surpassed by any other similar company in Canada. The standard of service expected and demanded from a public utility company is of the most exacting character, but it is met with the utmost energy and keenness by the staff, to whom our best thanks are due. (Hear, hear.) With regard to the management, I cannot speak in terms of sufficient praise. In Mr. Kidd you have a general manager of rare ability, with a genius for choosing the right men for the right places. Mr. Murrin, the assistant general manager, is also a man of exceptional ability, and Mr. Goward, the manager in Victoria, and Captain F. R. Glover, the general executive assistant, and the other senior executive officials are all men of marked ability.

Appointment of Public Service Commission.

You will, no doubt, wonder why from this great enterprise, which is in such satisfactory physical condition and under such excellent management, you for some years received no return at all upon your capital investment, and are now receiving only a very inadequate return. The basic reason, of course, is the disturbance of economic conditions caused by the war, which resulted in (1) increased wages, (2) increased cost of material, (3) jitney (that is, motor-car) competition, and (4) reduction in population of the districts served. The first and second—that is, increased wages and increased cost of material—operate as much today as at any time during the war, and their ultimate level cannot be foreseen. The third—that is, motor-car competition—by which I do not mean motor-cars in private use, but motor-cars plying for hire in the same manner as motor-buses—has been eliminated from the City of Vancouver as a result of the findings and recommendations of the Special Commission appointed by the Government of British Columbia in 1917. The fourth—that is, the reduction in the population of the districts served—is being gradually rectified by the return of normal conditions. If your company were an ordinary commercial undertaking, it would have been the duty of your directors so to increase the charges for the goods supplied or services rendered as to offset the increase in the costs to which I have just referred, but it is now a well-recognized prinicple of American and Canadian law and practice that public utility enterprises supplying services essential to the well-being, and, indeed, to the very existence of the communities they serve, and which are essentially monopolistic in character, cannot be accorded the freedom of ordinary commercial undertakings, but must have the services they give and the rates they charge regulated and approved by a Public Service Commission. There is nothing inherently unjust in this; it is not any more novel or arbitrary than the powers that have long existed everywhere for regulating the rates to be charged by steam railways, but in the nature of things it is not generally possible to obtain simultaneously with an increase in costs authority for an off-setting increase in charges, and in the interval the company's net revenue suffers. The Province of British Columbia has been the last of the Canadian Provinces to appoint a Public Service Commission. I regard the appointment of this Commission by the Province of British Columbia as in itself prima facie evidence of a desire on the part of the Province that a fair economic balance be maintained between the cost to the supplier and the charge to the consumer, and the Act of Parliament appointing the Public Service Commission confirms me in this opinion. It is in its terms fair and reasonable, and the inquiries held by the Commission have been conducted with great ability, and its decisions and rulings from its appointment down to the present time have been characterized by strict impartiality and justice.

Development of the Province.

There are, of course, in every community individuals who desire to profit at the expense of their neighbors, but I do not think that there is any desire on the part of the great majority of the population of the districts served by your company to see the company receiving other than fair payment for its services, and there is the strongest incentive from mere motives of self-interest to desire that the company should receive a fair return on its capital, as a public utility company, cannot, any more than any other manufacturing concern, attract to itself capital for expansion if the capital already engaged is not earning an adequate return. You may think that it is far cry to the day when the plant owned by your company will be insufficient to provide for the needs of the communities concerned, but is it? I last visited Vancouver in 1907, and I can tell you that its growth since that time has been such that I found it difficult to recognize it as the city which I knew 12 years ago. As there has been no growth in the city since 1913, this metamorphosis took place within the short space of six years. Now compare the position of the Province in 1907 with its position to-day. In 1907 there was only one Canadian trans-continental railway into Vancouver; to-day there are two. In 1907 the Panama Canal was not open; to-day ships are loaded at Vancouver with freight for Europe, via the Panama Canal. In 1907 the population of the Prairie Provinces was comparatively thin; to-day there is a much larger and infinitely more prosperous farming community, many of whom find their way into British Columbia. Then there is the growth in the wealth and population of their neighbors in the United States, more and more of whom are settling permanently in Canada. Many more are discovering that British Columbia, and perhaps, in particular, Vancouver Island, are most attractive and invigorating holiday resorts, and the tourist traffic is largely increasing.

With such an environment of increased opportunity as I have described, would it not be ignoring precedent to anticipate that the growth of Vancouver and the districts served by your company will be less during the next six years than it was in 1907-1913? and we know from experience that any substantial increase in population calls for a large capital outlay for a corresponding increase in transportation, light, heat, power and gas services. Therefore, apart from any question of equity, there is the strongest possible incentive of self-interest to maintain the company in a sound position, so that it may be able to meet the requirements of the—in my judgment—not far distant future. I feel justified in encouraging you to look forward with confidence to the return of the prosperity for which we have waited and worked so long. In conclusion, I desire to acknowledge the courtesies which I received during my visit from the Lieut.-Governor, Sir Frank Barnard, the Premier, the Hon. John Oliver, and the Mayor of Vancouver, Mr. Gale, besides many others too numerous to mention. (Applause.)

An Enterprise with Great Possibilities.

The **Chairman**: Ladies and Gentlemen,—I have no doubt that, like myself, you will all have been greatly interested in the very concise and clear statement which Mr. Davidson has just made. It must have been most interesting to him to have seen the growth of the city of Vancouver, especially during the last 12 years. It reminded me of the fact that my first visit to British Columbia was something like 30 years ago, when Vancouver was a very small place indeed, whereas to-day it is a great city. If we look forward 30 years we shall probably see Vancouver become a city something like Liverpool, so that your enterprise has great possibilities. I will now propose:—"That the balance-sheet as at 30th June, 1919, and revenue account for the year ended on that date, together with the reports of the directors and auditors theron, be, and are hereby received and adopted."

Mr. Davidson seconded the resolution.

Mr. D. M. MacLeod asked if the one cent increase in fares was equivalent to the extra outlay of the company in wages and other expenses. He supposed that the profit on exchange in remitting earnings from Vancouver to London was exceptional, and that they could not anticipate having a windfall like that every year.

The **Chairman**, in reply, said that wages were continually changing, so that it was impossible to say whether the one-cent increase in fares would be sufficient to cover the extra cost. Fortunately, the Public Utilities Commission was in existence, and they assumed that if wages and expenses went up they would be able to get an increase in fares which would correspond with the increase in working costs. It would be seen from the monthly returns that the net earnings of the company were increasing. The profit on exchange was entirely exceptional, and they could not expect it to continue indefinitely.

The resolution was carried unanimously.

The **Chairman** then moved:—"That the payment on the 28th June, 1919, of the dividend at the rate of 5 per cent. per annum on the Cumulative Perpetual Preference stock, and the payment on the 30th June, 1919, of the interim dividend at the rate of 2½ per cent. on the Preferred Ordinary stock be and are hereby approved, and that a dividend be now declared on the Preferred Ordinary stock at the rate of 2½ per cent., making a total dividend of 5 per cent. for the year ended 30th June, 1919; also that a dividend at the rate of 3 per cent., together with a bonus of 3 per cent., be now declared on the Deferred Ordinary stock in respect of the year ended 30th June, 1919."

Mr. E. L. Evan-Thomas seconded the motion, which was unanimously agreed to.

The **Chairman** also proposed: "That the retiring directors, Sir William Mackenzie and Mr. John Davidson, be and are hereby re-elected directors of the company." He thought it was not necessary for him to say anything in recommending the reappointment of these gentlemen, who had given such excellent services to the company in the past.

Mr. T. Blundell Brown seconded the motion, which was carried unanimously.

Appreciation of General Manager and Staff.

Mr. Davidson: I have great pleasure in proposing a vote of thanks to the general manager and staff in British Columbia. I do not know any class of enterprise which has had to face more difficulties during and since the war than public utility companies in Canada, and Mr. Kidd and his assistants have met these difficulties with a wisdom and prudence which have commanded our respect. I also do not know any class of enterprise from which, at all times, such a high standard of service is expected. People have come to regard these services as something which should be as readily available as the air they breathe, and in order not to disappoint these expectations you will readily understand the vigilance and sustained effort necessary on the part of the staff to eliminate possibilities of interruptions. I am sure that we could not have a more able management or a more intelligent and efficient body of employees, and they thoroughly deserve our best thanks. I have great pleasure in being the mover of this resolution.

Mr. Evan-Thomas: I have been connected with this company for nearly twenty years. We have had difficulties at various times, but I can say that we have had no difficulties so great as those which have had to be grappled with during the last four years by Mr. Kidd and his staff. I associate myself entirely with what Mr. Davidson has said as to how grateful this company ought to be to them for what they have done.

The **Chairman**: As chairman of the meeting I feel that I ought to endorse what has been said both by Mr. Davidson and Mr. Evan-Thomas. I think we have very much to congratulate ourselves in the fact that we have three or four men in British Columbia who, I think, are recognized as being leading citizens. They are men who are held in the highest possible respect by the community, and they are men of first-class business capacity. I think they have shown that by the manner in which they have led us through these difficulties and brought us into the light again.

The vote was unanimously accorded.

Mr. Bristow proposed: "That the retiring auditors, Messrs. Norton Slade and Co., be and are hereby re-elected auditors of the company for the ensuing year at a fee of 250 guineas, and that the Canadian auditors, Messrs. Helliwell and Maclachlan and Co., be re-elected the company's auditors in British Columbia at a fee to be fixed by the Board."

Mr. Lees seconded the motion, which was passed unanimously, and the proceedings terminated.

BLOOD PRESSURE AND LIFE INSURANCE

"The Significance of Blood Pressure" was the subject of an address before the Insurance Institute of Toronto on February 19th by Dr. H. B. Anderson, medical referee of the Imperial Life Assurance Co. After describing the process of circulation, he showed how blood pressure was measured. This test, he said, was one way of finding if any serious disease was developing, and frequently companies postpone accepting doubtful risks for several months until it is found whether abnormal blood pressure is a permanent condition, or merely a symptom of some other disease.

DIRECTORS' REPORT TO THE SHAREHOLDERS AND MEMBERS OF

THE LONDON MUTUAL FIRE INSURANCE COMPANY OF CANADA

Your Directors submit herewith the Sixtieth Annual Statement of the Company's affairs, showing Assets and Liabilities as at December 31st last, and Income and Expenditure accounts for the year 1919.

The affairs of the Company have shown a vigorous and healthy growth during the year, and the profits have been substantial.

The net premium income was $525,184.05, an increase of $126,936.39, while the net losses were $226,495.18, a decrease of $27,718.09, and a ratio of 43.13 per cent. of net premium income. The Cash Assets were increased by $184,257.02 and now stand at $668,121.70. The Bonds and Debentures owned by the Company now amount to $370,473.63, an increase of $152,198.80. All the Securities purchased are of the highest class, and with a return to more normal conditions in the money market, are likely to show a considerable appreciation on their present book value.

The Trading Profit for the year, after deducting losses paid and estimated and expenses paid, from premiums written, interest and other income, amounted to $118,608.53, and after adding $59,083.78 to Reinsurance Reserve, $5,931.74 to reserve for Taxes, $3,000.00 to Bonus Reserve, $4,785.76 to reserve for building and furniture and fixtures, and appropriating $2,750.00 for dividend, the sum of $43,057.26 was added to surplus, making a cash surplus to Policyholders of $207,375.13, to which must be added the unassessed portion of Premium Notes, amounting to $150,947.35, making a total surplus to Policyholders of $358,322.48.

During the year Reinsurance Contracts have been made with companies of good standing, which enable the Company to write substantial lines on desirable classes of business, thereby increasing the facilities which it offers to Agents, and of which they are largely availing themselves.

The vacancies on the Board of Directors caused by the resignation of Mr. R. Home Smith, and Mr. G. H. Williams, have been filled by the election of Mr. W. H. Hunter, President of the Independent Order of Foresters, and Mr. W. J. Willcox, a Director of Carson and Williams Bros., Limited.

Your Directors wish to place on record their appreciation of the loyal support which the Company is receiving from its Agents, which is so plainly shown by the results of the past year, and also of the loyal and efficient service rendered by the Field and Office Staffs, which has done much to promote a feeling of good fellowship in our organization, and to foster a spirit of co-operation which is bound to show still more satisfactory figures in future years.

All of which is respectfully submitted.

A. H. C. CARSON,
President.

January 23rd, 1920.

BALANCE SHEET AS AT DECEMBER 31st, 1919

ASSETS

Bonds and Debentures		$370,473.63

AUDITORS' CERTIFICATE

We have audited the books of the London Mutual Fire Insurance Company of Canada for the year ending December 31, 1919. We find the books to be in order and all the information asked for has been cheerfully given.

Our examination has included the Cash and Bank Books, Premium Registers, Agents' and Branch Balances and the securities held by the Company.

We certify that the annexed Balance Sheet is in accord with the books, and in our opinion is a full and fair statement of the position of the Company on that date.

EDWARDS, MORGAN & CO.,
Chartered Accountants.

P. V. WILSON, Manager.

To the Directors and Shareholders of The Waterloo County Loan and Savings Company.

Gentlemen,—We beg to report that we have audited the books of account of your corporation for the year ending 31st of December, 1919, and have verified the cash, bank balance and securities of the corporation.

That we have examined the annexed statement and that it agrees with the books of the corporation.

That after due consideration we have formed an independent opinion as to the position of the corporation.

That with our independent opinion so formed and according to the best of our information and the explanation given us, we certify that in our opinion the statement sets forth fairly and truly the state of the affairs of the corporation.

That all transactions of the corporation that have come within our notice have been within the powers of the corporation.

Respectfully submitted,
J. M. SCULLY, F.A., } Auditors.
J. SCULLY,

Waterloo, Ontario, January 26th, 1920.

WATERLOO COUNTY LOAN AND SAVINGS

Earnings of the Waterloo County Loan and Savings Co. in 1919 were $144,033, as compared with $102,846 in 1918. The sum of $8,864 was also received as premium on stock, and $1,531 was brought forward from 1918, making a total of $154,429 available in profit and loss. Interest on deposits required $40,122, and on debentures $3,873. Expenses were $23,945, an increase of $7,700, and after providing for other items, $20,000 was carried to reserve, $32,987 paid in dividends, and $2,256 carried to profit and loss for 1920.

Assets have now reached $2,473,187, the increase for the year being over $600,000. Compared with 1918, the principal investments and liabilities are as follows:—

	1918.	1919.
Mortgages	$ 589,994	$ 735,172
Government bonds	423,435	705,116
Municipal bonds	592,054	698,470
Office premises	11,600	76,000
Loans on securities	19,855	26,126
Other real estate	39,372	35,767
Cash	169,728	196,534
Total assets	$1,846,040	$2,473,187
Savings deposits	629,034	913,214
Deposit receipts	225,000	275,606
Debenture accounts	402,301	545,389
Capital paid up	481,802	604,331
Reserve	85,000	105,000

The increase in deposits and debentures is an unusually good showing, considering the demand for funds from other sources at high rates of interest. Besides greatly increasing its bond holdings, the company also acquired more mortgages, which will help sustain the present good rate of earnings.

SASKATCHEWAN MORTGAGE AND TRUST CO.

Earnings of $73,691 are reported by the Saskatchewan Mortgage and Trust Corporation in its statement for the year 1919. This is slightly more than for 1918, while the expenses of $16,992 are about the same, leaving a net revenue of $56,699, compared with $54,413 for 1918; $44,191 was paid in dividends, and $10,000 appropriated to reserve, leaving a balance of $9,823 carried forward in profit and loss, compared with $9,637 brought forward from 1918.

Capital assets have declined from $968,261 to $957,778, chiefly by reductions in mortgage holdings. On the other hand property acquired under foreclosure and agreements of sale have increased. Paid-up capital is $808,705 and reserve $115,000. Guaranteed trust accounts total $41,546, trust and agency accounts $25,590, and estates and trusts $584,935.

MONTREAL LOAN AND MORTGAGE CO.

Profits of $87,929 are reported for 1919 by the Montreal Loan and Mortgage Co., compared with $85,963 for 1918. The sum of $50,000 was transferred to reserve, and dividends at 10 per cent. with a bonus of 1 per cent. required $66,000. A further sum of $50,000 is added to reserve, from funds set aside during previous years to offset possible losses. A balance of $36,424 is carried forward, compared with $64,494 brought forward.

Assets are $1,774,888, an increase of $60,000, mortgages being increased by over $100,000, while call loans have fallen by $50,000.

At the annual meeting of the Prince Albert Life Underwriters' Association recently, A. L. Vandrick, of the Canada Life Assurance Co., was elected president.

SOUTHERN LOAN AND SAVINGS CO.

Assets of $2,598,560 are now shown by the Southern Loan and Savings Co., St. Thomas, Ont., in its statement for 1919. Outside of bonds and debentures totalling about $200,000, and the company's building $20,000, almost all the assets are in the form of mortgages. Deposits total $572,955, and debentures $798,186. The company's capital is $900,000, and the reserve $270,000.

Earnings for the year were $157,862, and the balance of $19,725 brought forward made the total $177,588. Interest required $55,713, and expenses $12,299. The sum of $63,000 was paid in dividends and bonus, and $20,000 transferred to reserve. After meeting taxes and other payments a balance of $14,781 is carried forward into the current year.

NEW RATING FOR AUTOMOBILE INSURANCE

A special meeting of the Canadian Automobile Underwriters' Association was held in Ottawa on February 4th and 5th. The chief business was the considering of rates for the coming year. In case of liability, collision and property damage insurance, it was decided to adopt a new basis of rating, viz., the present price list of car, while in the case of fire and theft insurance, the list prices were discarded, and in lieu thereof the merit system was adopted, based, in the case of the fire risks, upon the physical hazard of each make of car as established by the Underwriters Laboratories of Chicago after examinations carried on during the past eighteen months, and in the case of theft insurance upon the experience of companies, as to the types of cars most popular with thieves.

STERLING TRUSTS APPROPRIATES RESERVE

In order to meet reductions in the valuation of some of its assets, the Sterling Trusts Corporation this year appropriated the $100,000 which had been set aside as reserve, and also $61,920 from profit and loss account. The corporation has been clearing itself of the wreckage of the Standard Reliance Mortgage Corporation, and certain assets shown in preceding statements, including some stock in the Standard Reliance, have now been written off. The managing director, C. Bauckham, stated to *The Monetary Times* that the reserve proved sufficient to offset all doubtful assets, and the balance sheet shows the true position of the company.

Capital assets are now $514,859, compared with $598,108 at the end of 1918. Mortgages and other securities have been reduced from $332,570 to $283,488, and advances to estates and trusts held under administration from $192,679 to $157,321. On the liability side there is the paid-up stock of $501,302 and accounts payable $5,277, and a small balance of $8,279 in profit and loss. Guaranteed trust accounts have been increased from $563,641 to $587,307, but estates, trust and agency accounts have dropped from $10,896,204 to $7,070,068. The corporation's connection with the Standard Reliance seriously affected its business this year, which largely accounts for the falling off in business. Net earnings for the year were $62,196, a large increase over the figure of $24,004 for 1918.

These drastic revisions are the result of changes in the management which have taken place since 1916, when W. S. Dinnick was president and the late H. Waddington managing director. In 1917 the late E. F. B. Johnston became president and C. Bauckham manager. Further changes are contemplated. The annual meeting, which was held on February 23, was postponed to March 18, with a view to passing a by-law to reduce the number of directors from 21 to 13. The plan is that one of the directors should be a Regina man and chairman of the advisory board there, and at least one other of the remaining twelve should represent the western shareholders. Another step in advance is the appointment of the firm of Marwick, Mitchell, Peat and Co: as auditors.

Ottawa Light, Heat & Power Company, Ltd.

The annual meeting of the Shareholders of the Ottawa Light, Heat and Power Company, Limited, was held February 23rd.

The annual report as presented at that time shows decided progress and a strengthening of the Company's position.

The gross revenue from all sources was $1,237,129.44, as compared with $1,114,915.33 in 1918. After paying interest on bonds and current liabilities the net revenue was $230,970.34. Four quarterly six per cent. dividends were paid which called for $209,983.50, this balance being carried to Profit and Loss Account, which now stands at $123,983.56.

An increase in gas rates was made during the year. As this increase only went into effect towards the close of the year the favorable results of such increase will not be apparent until the next annual statement is presented.

During the year 2,558 new customers were added to the Company's books.

Both electric and gas systems have been maintained in a high state of efficiency.

The main features of the balance sheet for the past two years compare as follows:—

ASSETS.

	1919.	1918.
Property, plant and equipment	$6,165,314.22	$5.944.071.15
Merchandise and stores	128,314.67	173,605.98
Coal and other supplies	131,003.20	155,699.96
Accounts and bills receivable ..	348,083.65	339,591.05
Victory Bonds	41,137.81	
	$6,813,853.55	$6,612,968.14

LIABILITIES.

BRITISH COLUMBIA HAS CAPITAL SURPLUS

Some Assets of Doubtful Value not Included in Balance Sheet—Heavy Contingent Liabilities—Accounts Presented in New Form

CAPITAL assets totalling $41,614,757, exceeding capital liabilities by $13,788,196, are shown in the public accounts of British Columbia for the year ended March 31, 1919. The assets include payments from the Dominion, capitalized at 5 per cent., $12,462,701, sinking funds $4,886,273, and buildings, roads, bridges and other properties, $20,392,363. Current assets total $10,673,309, the principal items being cash and advances $2,502,896, accounts receivable $3,774,915, and special deposits and trust accounts $3,561,374. The current liabilities, made up chiefly of temporary loans $2,810,000, accounts payable $2,118,721, and special funds and trust accounts $4,557,093, total $9,634,311, leaving an excess of current assets of $1,038,998.

There are also $7,354,057 of deferred assets, the realization on which is uncertain, and which are not included in the general balance sheet; these are Nakusp and Slocan Railway $993,332, Pacific Great Eastern Railway $6,260,639, and Bank of Vancouver $100,086. The province has also guaranteed securities to a total of $71,723,333, of which $63,902,863 have already been issued.

New Form of Accounts

When the estimates for the year 1918-1919 were presented, they were drawn up in such a way as to show the expenditures proposed in each department. The accounts for the year have been prepared in a similar way, so that the cost of each unit of service may be known, and compared from year to year. Commenting on this change, the comptroller general, A. N. Mouat, C.A., points out that it has not been possible to extract from the accounts of previous years figures to compare accurately with the figures as now shown.

The difficulty with the previous form was that the cost of each department was not clearly shown. For instance it might reasonably be assumed that salaries, under the general heading of civil government, would include all salaries paid to officials of the province, but as a matter of fact the item included only about three-quarters of the total so paid. Mr. Mouat mentions education and agriculture as two other services the total cost of which was not shown, and he also points out that expenditure under the heading "miscellaneous" was too large, and should be apportioned, so far as possible, to the several departments.

In a summary of expenditures for 1918-19, the form to be used in future is illustrated. The cost of each department, and of each sub-division of a department, is shown, including salaries, maintenance of buildings, and all miscellaneous expenses. The statement of revenue and expenditure for the year was given in these columns last week.

BRITISH COLUMBIA FINANCES FOR NINE MONTHS

A surplus on current account for the nine months of the present fiscal year, covering the period from April 1st to December 31st last, is shown in the statement of the Comptroller-General, presented to the British Columbia legislature a few days ago. Total revenue in that period was $10,609,454 and total expenditures were $10,488,418, but against that latter amount was set off capital expenditures charged to income of $1,341,006, leaving expenditures chargeable to income $9,147,412.

The bulk of this surplus is made up through increased taxation. The main receipts were: Amusement tax, $223,000; income tax, $1,869,000; poll-tax, $260,000; personal property tax, $862,000; succession duties, $282,000; real property tax, $1,032,413; wild land, coal and timber lands, $1,027,655; motor fees, $134,000; game licenses, $108,000; land registry fees, $253,000; timber royalty, $623,000; timber sales, $193,000; land sales, $238,000; timber licenses, $900,000.

BRITISH COLUMBIA BOARDS OF TRADE

No less than fifty-one questions were drawn up for the consideration of the British Columbia Boards of Trade at their convention which opened in Vancouver on February 4. C. Spencer, president of the Vancouver board, was selected as chairman, and W. E. Payne, secretary of the Vancouver board, was appointed secretary. Committees on organization and on resolutions were also appointed. More than thirty boards of trade were represented.

Among the subjects discussed were:—Construction of the Pacific Great Eastern Railway to Prince George and its extension to the Peace River district; oriental immigration; ferry service on the Okanagan Lake and on the Fraser River at Port Haney; telephone connection between Vancouver and the Okanagan; provincial jurisdiction over telephone service; government irrigation policy; the development of hydroelectric power; the interprovincial highway and the road via Hope-Princeton.

The industrial congress to be held by Alberta and British Columbia next June, now referred to as the "A.B.C." congress, was also discussed at length. A committee of fifty has been formed in each province to make the arrangements, and it is planned to send lecturers to the United States, the United Kingdom, and throughout Canada, to invite visitors. The following resolution was passed:—"Be it resolved that this meeting of the boards of trade of British Columbia endorses the holding of the proposed congress and request the government of this province to appropriate $10,000 towards the expenses to be incurred."

It was decided to organize an "Associated Society of British Columbia Boards of Trade," and the constitution and by-laws for such a body were accordingly drawn up. C. Spencer was elected president, J. Kingman, of Victoria, vice-president, and W. E. Payne, secretary. The new board will hold its first annual meeting in February, 1921.

Special features of the convention were addresses by President Klinck, of the University of British Columbia; by Senator Taylor, of New Westminster, on the "Canadian Government Railways."

VOLUME OF EMPLOYMENT STILL INCREASING

Reports from employers to the Employment Service of Canada, for the week ended January 24, indicate that, disregarding loss of time due to strikes, there was, as had been anticipated, an increase in the volume of employment as compared with the preceding week. The actual increase again greatly exceeded that anticipated and would indicate a return practically to pre-holiday and inventory conditions. Increases were registered in all the provinces, that in Quebec again being the most considerable. For the week ending January 31, an increase on the whole was expected, the anticipated increase, however, being considerably smaller than that registered during the week of January 24. With the exception of the prairie provinces, where a slight decline was expected, increases were anticipated in all districts.

All groups with the exception of building and construction, commercial and mercantile, railway construction and shipping and longshore, reported increases in staffs. For the week ending January 31, declines were expected in six groups only, building and construction; chemicals; food, drink and tobacco; pulp, paper and printing; railway construction and railway operation. These decreases were all of a nominal character.

Reports for the week ending January 24 were received from 4,639 firms. These firms reported 668,991 persons on their payrolls as compared with 662,490 on their payrolls for the week ending January 17, an increase of 6,501 persons or one per cent. These same firms, moreover, anticipated increasing their staffs by 801 persons or one-tenth of one per cent. for the week ending January 31. The increase for the week ending January 24 had been anticipated. Reports for the week ending January 17 indicated an increase in staffs of 6,954 persons or one and one-tenth per cent. and an anticipated increase of 375 persons or one-tenth of one per cent. during the week of January 24.

THE NORTHERN LIFE
Assurance Company of Canada

Has found 1919 to be a year of Splendid Progress, as the following figures will show:

	1918	1919	Increase
Income for the Year -	$ 684,544.47	$ 792,420.90	15.8%
Paid Policy Holders during Year -	248,354.67	279,188.72	12.4%
Policies Issued and Revived - -	3,411,300.00	6,294,139.00	84.5%
Insurance in Force December 31st -	13,724,762.00	17,879,907.00	30.3%
Policy Reserves December 31st -	2,440,221.25	2,699,050.15	10.6%
Total Assets December 31st - -	3,085,373.46	3,346,820.78	8.5%

Determining the Relative Value of Stocks

Three Conditions May Indicate Coming Advance—Their Relative Importance, and a Method of Comparing Them With Other Stocks—Graphical Method of Finding Yield or Price on Stocks, and Possible Profit or Loss

By JOHN S. WATTS

WHEN the ordinary investor seeks to pick out the best stock in which to invest his money, he is in a quandary as to how to judge the relative merits of the various companies, being tempted on the one hand with a good return on a stock, which may or may not be risky, and on the other hand with stocks of unassailable reputation, but netting a low return at its market price. As all the stocks, now high priced and considered absolutely safe, were at one time low in price and considered more or less speculative, it follows that the purchase of such a stock, when the price was low and the net return high, must have been very profitable to those who had the good judgment to buy them and the courage of their convictions to hold the stock until the price rose to the true value.

Few people are in a position to form a correct judgment of the true future value of a low-priced stock, and will usually consult a broker, who will, in practically every case, play safe and avoid the issue by recommending some other stock, which, however, will be a high-priced stock giving a low net return. Frequently the intending purchaser, disgusted by being offered advice by an expert to purchase an expensive stock, which the purchaser could have picked out for himself had he wished to buy that kind, will make a snap judgment, and without sufficient enquiry, invest in some speculative stock of which he knows little or nothing and quite possibly suffer a heavy loss.

It seems to me that as the brokers give us no assistance in the matter, it is up to the investor to use his own judgment if he wants to get any reasonable profit, and that he can get good returns by so doing, if he goes about the matter in a methodical manner, somewhat on the lines of the following:—

First, I would say that this article is not written for the speculator on margins, as to succeed at that game requires inside information which is not available to the ordinary investing public, and is practically a gamble. On the other hand, the investor who buys stock to hold, can expect, with the use of good judgment and a reasonable amount of brain work, to average a good return on his capital.

Stocks Which May Advance

To commence with, there are three principal classes of stocks on which we may be able to gain a good profit: First, those companies which have back dividends due on their preferred stock; second, those which may be expected to increase their dividends in the future; third, those stocks which are, by reason of a slump in the market or some temporary difficulty, selling at a price below the real value.

For those who can dispense with an immediate income on their capital in the shape of dividends, while waiting for a rise, the best prospects of profit probably lie with the first class of stock. A fair estimate of the profit to be expected can be got by assuming that the stock will go to par, or to net 7 per cent. on the regular dividends, on or before the resumption of dividends. The date when the payment of dividends will resume, is usually pretty accurately forecasted by the financial papers, or can be gauged from a study of the balance sheets of the company by the investor himself. The estimated profit should be taken as the difference between the present price and par, or that price which will net 7 per cent., not calculating on any dividends.

For the second class, the profit will be the dividends paid while the stock is being held, plus the rise in price, due to the increase in dividend. The probable date of the increase is generally forecasted quite some time before the event, by the financial papers, and may be looked for in any company with a rising rate of profit and increasing reserve fund. The price the stock will rise to, is usually that amount which will give the same return with the increased dividend, that it previously did with the old dividend and lower price.

For example, a 6 per cent. stock selling at 65, would give the same net return, when paying a 7 per cent. dividend and selling at 76, and therefore we could reasonably expect to see an eleven-point rise, provided that the company's position was such that this increased dividend could be expected to be permanent. The accompanying chart will greatly facilitate the calculation of these amounts and the methods of its use will be explained later.

Slump in the Market

For the third class, it is a matter of deciding what the true value of the stock is, and when that value may be expected to be reached by its market price. This length of time is dependent upon a number of factors, which can generally be valued by a perusal of the balance sheets of the company, and from the financial papers by anyone with a fair amount of judgment. The estimated profit in this case is the amount of the expected rise in price, plus the dividends during the time the stock is held.

A comparison of the profits in each case, of course, involves taking into account the probable length of time it will take the stock to rise, and converting this into a profit expressed in terms of percentage of the capital invested, per annum. To arrive at the probable date of the resumption or increase of dividends, it may be assumed that the profits of the company will increase in a uniform ratio with the increase of past years, and a simple calculation will show what length of time must elapse before the dividends are resumed or increased as the case may be. So long as the same method is used in comparing the different stocks, it is probable that the result will be sufficiently correct for purposes of comparing probable profits, which is what we are after.

Determining Intrinsic Value

The factors upon which depend the length of time a stock in the third class must be held, are more complex and involve consideration of the following: Raw material; if the supply is ample and under the company's own control, this factor may be considered perfect, but if there is any doubt of the supply, the price of the stock will probably stay down until this doubt is removed. Labor; if the labor supply is insufficient, or labor troubles are frequent, the price will stay down as long as those conditions are operative. Management can be judged from the past records, that is dividends, surplus, etc., and if the officials and staff are continually changing, the prosperity of the company, and therefore the price of its stock, will be adversely affected. Demand for product; unless this demand is continuous and likely to remain so, the stock will be a poor investment.

Finding Return from Chart

As the actual net return on the stock in dividends at the selling price enters into the calculation of profits, and the tables hitherto published that I have seen, are not complete enough for the purpose, I have prepared a chart from which may be read off the net return on any stock at a selling price up to 200, and paying from nothing to 15 per cent. in dividends on the par value, also what price will give the same net return when the dividend is increased. To use the chart, follow down the vertical line for the selling price, to the horizontal line for the dividend rate and through this

When You are Old

Who'll provide the money to keep you? Will you then be compelled to keep on working the same as some old men you know? Or will you be able to enjoy an old age of comfort and independence?

A moderate annual saving now—when you can spare the money—invested in an Imperial Endowment Policy will secure you a regular income in your old age; or it will provide for your family should death call you early.

February, 1920

88

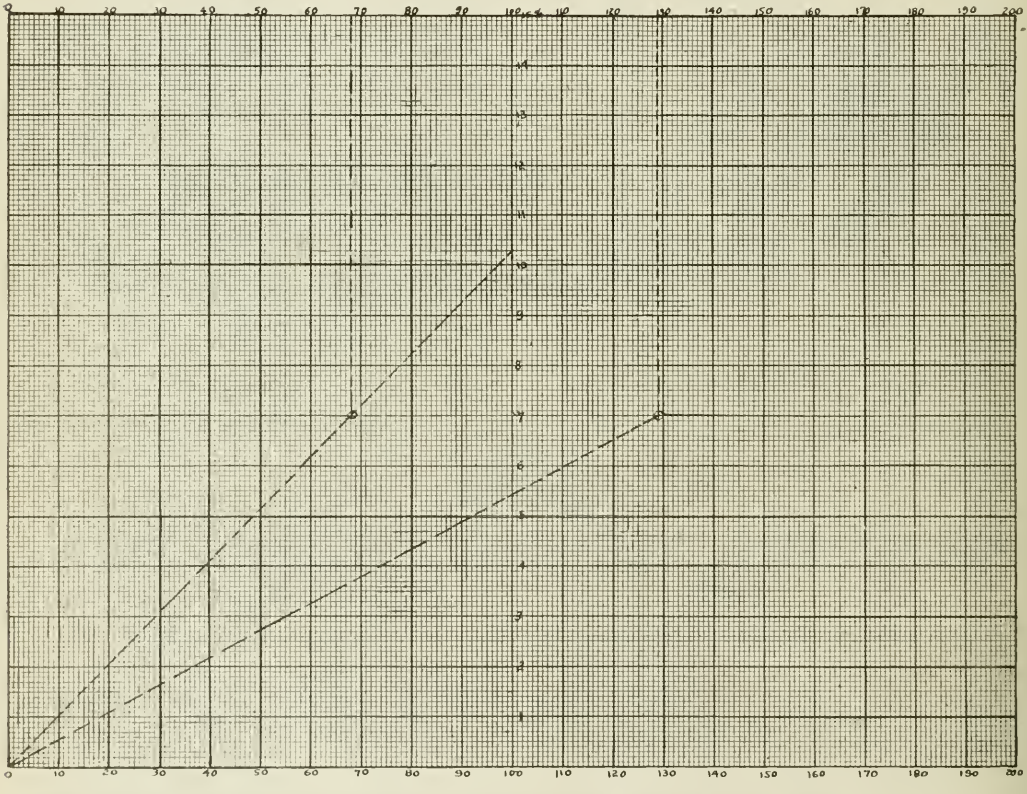
intersection draw a line from the lower left-hand corner to the central line, where we read off the net return.

For example, lines have been drawn on the chart for a 7 per cent. stock, selling at 68, the chart shows the net return to be nearly 10.3 per cent. Similarly, a 7 per cent. stock selling at 129, nets a little over 5.4 per cent. By following up the diagonal line drawn for the first example, to its intersection with the 8 per cent. line, we find that this stock will give the same net return at 8 per cent. dividend, that it did at 7 per cent., if sold at nearly 78. For stocks selling at over 200, the chart can be used by taking half the selling price, and half the dividend, the answer will be the correct net return.

So far, we have confined the discussion to the methods of determining the probable profits, it remains now to determine the relative merits of the companies, as to their future prospects.

We will assume that three or four stocks have been chosen, all giving approximately the same net return. As stated before, the future prosperity of a company, and hence the probable dividends depend principally upon the four factors named above, and it remains to decide their relative value. They seem to me to be each about equally important, and I therefore allow a maximum of 25 points to each, and reduce this 25, in as near as can be judged, the amount which the company's situation falls short of perfection in that respect. The total addition would be 100 if a company's position is unassailable in all four points, and the total will be, if our judgment is correct, a fair criterion for comparison with other companies judged by the same standards.

CHART TO ILLUSTRATE PRICE AND YIELD.



INSURANCE CO. OF NORTH AMERICA

Assets totalling $32,872,924 are shown in the statement of the Insurance Co. of North America for the year 1919. The principal assets are bonds and stock $24,985,184, cash $3,285,691, fire premiums in course of transmission $2,938,729, and marine premiums in course of transmission $1,055,039. After providing a reinsurance reserve of $12,760,514 and $4,661,750 for loss claims unpaid and anticipated, there is a surplus of $6,000,000 above the paid-up capital of $4,000,000 and all liabilities. Contingent, conflagration and marine contingent funds of $1,699,070, $1,000,000 and $500,000, respectively, are also provided.

Premiums on fire risks were gross $22,142,090 and net $13,826,356, and on marine and inland risks gross $10,293,515 and net $6,849,954. Net premium income, therefore, was $20,676,310 and total income $22,069,291. Net amount paid for fire losnes was $4,974,508 and for marine losses $3,619,083, a total of $8,593,592. Agency charges, commissions and brokerage were $6,900,401. Other items added to these made a total expenditure of $17,051,449, leaving an excess of $5,017,841 of income over expenditures.

Robert Hampson and Son, Montreal, are the chief agents for the company in Canada, and substantial increases in the Canadian business is reported. During 1918 the premium income in Canada was $643,429, and at the end of 1918 the company had over $94,000,000 at risk in Canada.

DOMINION FINANCES UP TO EXPECTATIONS

The January statement of the Dominion's finances issued by the Department of Finance, Ottawa, shows that Canada's revenue from all sources for the month was $34,266,188, and more than sufficient to meet the ordinary expenditures of the country. During the ten months ended January 31, receipts from all sources aggregated $288,230,911, as compared with ordinary expenditures of $271,352,190; there was thus a surplus of revenue over ordinary or consolidated fund expenditure in the period of $16,878,721.

Capital expenditures during the ten months aggregated $334,599,182, made up of $298,815,088 expended on war account, and $35,662,428 on public works. In January war expenditures reached $59,105,904, and public works expenditures $3,073,829. Capital expenditures for January thus reached $62,179,734, and about equalled the increase in the public debt for the month of $62,015,109.

The following is the official statement of debt, and revenue and expenditure up till January:—

News of Industrial Development in Canada

Several New Industries Coming to Ontario — Chain of Oxygen Plants to be Established Across Canada — Construction of Drydock to Commence Shortly at Vancouver—To Spend Nearly $1,000,000 for Fish-curing Industry in Nova Scotia

NEW industries continue to come to Canada in large volume, and mention is made below of several that have recently been announced. Low rates of exchange on Canada encourage this movement, and American and British firms are taking the opportunity to establish plants here. Purchases in the United States are also being cut down by Canadian buyers, and Americans recognize the fact that one of the surest ways of retaining Canadian trade is to establish branches here.

Ontario Industries

London anticipates a busy year. Details are nearly completed for the location of two new industries, and it is certain that several more will be secured in 1920. The Greene-Swift Co., Ltd., is contemplating an addition to its factory building on Talbot St., at the estimated cost of $100,000. Other manufacturers in the city are also planning extensions.

At Toronto, the Canadian Tygard Engine Co., Ltd., contemplates starting the manufacture of a new type of aeroplane engine, and has secured a site for a new factory at 952 Kingston Road. The Canada Metal Co., Ltd., has purchased the United Brass and Lead Company's building, on St. Helen's Ave., and will use the factory as a subsidiary to their main plant.

Brantford has secured a new industry in S. C. Johnson and Son, Racine, Wis., manufacturers of prepared wax and other products, and a site is being prepared for the erection of a large plant.

A big real estate deal has been completed in Sarnia, whereby a Detroit and Chicago syndicate become the owners of 650 acres of land along the banks of the River St. Clair, at the cost of $250,000. Although nothing definite has been given out, it is anticipated that a large new industry will locate there.

A new scheme is being considered at Niagara Falls, relative to a suggestion which was discussed at Winnipeg last year regarding an "Incubator of Infant Industries." It is probable that a by-law will be submitted to the people to guarantee the bonds of a company to be formed locally to build a factory tenement building. Space will, therefore, be available for industries coming to the city who do not want to wait while building a factory, and for manufacturers who wish to make experiments in the district. It is expected that the vote will be for $80,000. Ten or tweny thousand dollars will be put up by a number of local men interested in the project.

Chain of Oxygen Plants

The establishment of a series of oxygen plants across Canada, by the National Electro Products, Ltd., has been announced, following the development of producing oxygen of 100 per cent. purity, by A. J. MacDougall, a Canadian chemical engineer. The National Electro Products, Ltd., is backed by a strong group of Canadian industrial interests. It has had its complete plants in operation in Toronto and Montreal, and plans are now being carried out for the establishment of six additional plants at different points in Canada, at which there is a large demand for the various products to be turned out by the company.

As a result of the formation of the National Electro Products, Ltd., the entire undertaking is being financed by Canadian interests. It is understood that the entire capital of $5,000,000 has been subscribed by a group of Montreal and Toronto interests, who have already been very active in the Canadian industrial field. The Toronto directors include W. J. Cluff, president; W. W. Near, R. J. Cluff and A. J. MacDougall. The Montreal group will be represented on the board by H. W. Beauclerk, vice-president; G. H. Duggan, vice-president of Dominion Bridge Co., and W. F. Angus, director of Canadian Car and Foundry Co.

There has been a huge demand for oxygen and its by-products during the past few years, more particularly by large steel plants in connection with the cutting and welding departments.

Notes from the West

The Massett Timber Co. Ltd., of Massett, Graham Island, B.C., which carries on an extensive lumber business in the district, intends to erect a paper manufacturing plant at Massett. A water power is now being developed with this view, and a start will be made on the paper mill next year. The limits consist of spruce and hemlock.

The Douglas Fir Turpentine Co., of California, is desirous of opening an industry in the province of British Columbia for the manufacture of turpentine, resin and other by-products, obtainable from the Douglas Fir.

The announcement is received from Vancouver that a large tract of land has been purchased on the Burrard Inlet, B.C., by the Lord Leverhulme interests, and a factory will be erected shortly for the manufacture of soap to fill the company's market in Western Canada. The price paid for the land was about $200,000.

The Dominion government has let the contract for the construction of a drydock in Vancouver Harbor, B.C., to Messrs. Coughlan and Sons, of Vancouver. Work will commence within thirty days from the date of the subsidy agreement. The dock will accommodate largest vessels on the western coast, plying between there and the Orient.

A $75,000 warehouse will be built for the Canadian Fairbanks-Morse Co. shortly in Regina, Sask.

Maritime and Other Developments

That the fishing industry in the Maritimes is making rapid strides, is indicated in the announcement of the Great Eastern Fisheries, Ltd., St. Peter's, N.S., to widen its scope at the cost of about $1,000,000. Besides making substantial additions to its fleet, the company intends to spend a large sum on the improvement of its plant for the curing of fish at St. Peter's. The Great Eastern Fisheries, Ltd., is one of the largest concerns of its kind in America, and is capitalized at $50,000,000.

The new plate mill of the Dominion Steel Corp., has been officially opened at Sydney, N.S., and will start immediately on the government contract for 50,000 tons of ship's plate.

Large financial interests in the United States will shortly form a Canadian company to be known as the Imperial Brick Co. of Canada, Ltd., and will erect plants in Montreal, Toronto and Winnipeg, the sites in Toronto and Winnipeg having already been procured.

ALBERTA ASSOCIATION OF MUNICIPAL DISTRICTS

The eleventh annual convention of the above association was held in Edmonton, February 11 and 12, with about 300 delegates in attendance. The president, A. J. H. Donahoe, of Foremost, occupied the chair. Reports on proposed systems of drought and frost insurance were presented by the executive, but were laid aside for an indefinite period. Hon. A. J. McLean welcomed the visitors on behalf of the government.

No less than seventy-three resolutions were passed by the resolutions committee, and came before the meetings for discussion, the most important relating to taxation. A resolution asking that the province allow the municipalities 5 per cent. instead of 2½ per cent. for the collection of provincial taxes was passed. Next year's convention will be held in Calgary.

MERCANTILE TRUST COMPANY

The statement for 1919 of the Mercantile Trust Company, Hamilton, Ont., which was presented at the annual meeting held on February 16 shows net profits of $55,470, compared with $49,481 for 1918. Adding $15,546 brought forward from 1918, and $620 of premiums received from sale of the company's stock, a total of $71,637 was available for distribution. Dividends at 6 per cent. required $29,313, and $24,380 was transferred to reserve fund. After allowing for depreciation, taxes, etc., a balance of $7,578 is carried forward.

The company's assets now total $6,915,107, an increase of almost $1,300,000 over the total for 1918. These are made up as follows:—Capital account, $829,361; guaranteed account, $451,167; trust account, $1,362,877; original assets of estates, etc., under administration, $4,271,700. The paid-up capital is $500,000 and the reserve $125,000.

1870 —— OUR GOLDEN JUBILEE —— 1920

The Mutual's Wonderful Year

"Nineteen-nineteen" will stand out for all time as a conspicuous landmark in the forward march of the Mutual of Canada. In amounts paid to policyholders, in assets, in new assurances written, in assurances in force—splendid increases were recorded. Nineteen twenty bids fair to eclipse last year for the demand for Mutual policies is insistent. "The reason why" is no mystery. Fifty years of just and generous dealing lie behind the immense demand for Mutual protection. The Mutual has disbursed $29,981,000 to beneficiaries and holds to guarantee future payments $37,689,000—in all $67,668,000—either paid to or held for beneficiaries. All assets including surplus being exclusively the property of our policyholders.

NEWS OF MUNICIPAL FINANCE

Hamilton, Toronto and Ottawa Tax Rates Up—Burnaby Assessment Nearly $14,000,000—Calgary Granted Credit by Bank—Lethbridge to Amend Tax Arrears Law

Hamilton, Ont.—The city's tax rate for 1920 will be 35 mills, which is four mills higher than last year. According to the treasurer's figures, the revenue will be about $4,246,725. The assessment is $93,097,410.

Ottawa, Ont.—The city's tax rate will be increased by 2.3 mills on the dollar exclusive of the increases which will likely be made by the collegiate institute and school boards. The tax, exclusive of school and water rates, will be 18.85 mills.

Ojibway, Ont.—The financial statement of the town for 1919 shows excess of assets over liabilities of $12,658. The principal items of the balance sheet are: Debenture levy unpaid, $3,380; cash in bank, $4,737; Victory bonds, $10,000. Receipts exceeded expenditures by $4,737.

Vancouver, B.C.—At a taxation conference of the city council recently, it was suggested that a tax of one-half of one per cent. on wages, salaries and other incomes be levied, as a solution to the city's taxation problem. No definite decision has yet been arrived at, although the matter will be investigated more thoroughly.

Burnaby, B.C.—Total land values in the municipality amount to $16,034,323, according to the final returns on the 1920 assessment roll as handed in by Assessor Phillips. Exemptions in the shape of tax sale lands held by the corporation, government lands and other non-taxable property, leave the assessed value of improved land taxable to the amount of $11,785,578, and wild land assessed value at $1,830,520, or a grand total for general taxation of $13,616,098, and a taxation total for school purposes of $13,913,963.

Fort William, Ont.—The city council has passed a resolution to dispose of a block of Victory bonds, for the purpose of taking up an issue of $337,000 school bonds. Application is being made to the Ontario Railway and Municipal Board for permission to purchase these bonds out of the money at the credit of the sinking fund. On account of the unstable conditions of the money market, it is considered good financing, as after the sale of the Victory bonds, the city will still have remaining $1,300,000 of sinking fund money invested in Victory bonds.

Lethbridge, Alta.—According to the present law in regard to tax arrears, the owner of property who is in default of payment for his 1919 taxes, will be subject to have the property sold this year. To give such owners a year's leeway, an amendment to the city charter will be asked for at the coming session of the provincial legislature. One object of the amendment is to accommodate taxpayers in the old country who hold property in the city. It is apprehended that with the present ruling and with the rate of exchange as it is in regard to the pound sterling, these owners will be ready to let the property go by default at a tax sale.

Ontario.—Changes in the municipal system of government for Ontario will be among the questions brought to the attention of the legislature by the Ontario Municipal Association. The resolution adopted by the association referring to the change in municipal government, asks that the legislature secure a report on the improvement of the present municipal system which will best conform to the ideas of the government and satisfy modern demands. The municipalities will also ask for authority to collect business and income taxes in the year in which they are assessed. Under the present system the taxes are collected the year following the assessment and the various collectors find it difficult to collect from those who move away in the interval.

Calgary, Alta.—The finance committee has recommended that the city sell $77,500 Victory bonds and use the proceeds to buy the city's bonds now offered on the market. The city's bonds will yield 6¾ to 7 per cent. Approximately $500,000 in Victory bonds is held by the city.

City Treasurer Mercer has informed the finance committee that $200,000 as a special line of credit had been granted the city by the bank for capital expenditure, repayable not later than May 1, 1921. Special arrangements have also been made with the city's bankers to make a further special loan in respect of the exhibition expenditures, this amount in all not to exceed $250,000, and repayable May, 1921. Originally, a special loan of $115,000, maturing April 1 of this year was arranged, but expenditures were authorized by the council amounting to approximately $215,000, and it was with the view of taking care of the original loan and all further expenditures that Mr. Mercer deemed it advisable to apply for $250,000.

Toronto, Ont.—If present estimates are adopted, the tax rate will be about 35 mills, the highest in the city's history, and four mills above last year's rate. It was the intention to carry all the standing overdraft, but it was found impossible to carry more than half, or $78,864.

A motion asking that legislation be sought to permit the city to assess realty improvements on a lower percentage than land, has been adopted by the council.

The estimates of the works department provide for expenditures in 1920 amounting to $7,960,872. This is an increase of nearly $2,000,000 over the expenditures and liabilities of last year when the estimates provided for expenditures of $5,433,851 and the actual expenditures were $5,874,745. The following is a summary of the chief divisions of expenditure: Maintenance, $2,078,812; marine section, $24,342; civic railway, $585,285; garage, $15,450; insurance, $10,633; workmen's compensation, $7,500; special items, $841,043; capital expenditure, $4,396,777; total, $7,960,872.

Regina, Sask.—The payment of the city's sterling bonds at par of exchange is again being considered by the council. The situation has developed from the fact that there were a number of Canadian investors, such as the city of Calgary, who were holders of part of the bond issue in question, and these holders were being deprived of receiving the full rate of interest stipulated on the bond, by being asked to accept $4.10 to the pound instead of $4.86.

Since the decision of the council that the coupons falling due on January 1 last, should be redeemed at the current rate of exchange, numerous letters of protest have been received from eastern bond dealers and others interested. Among those was one from the Bond Dealers' Association denying that there was any intention on their part of boycotting the city if it persisted in its decision to pay these coupons at the current rate of exchange, and expressing regret that the unfortunate suggestion had appeared in the press. The bond dealers, however, pointed out that Regina's action was having considerable effect on the high standing of the city in the bond market, as far as individual investors were concerned and they were of the opinion that the city's credit was already being damaged.

NEW SAVINGS CERTIFICATES ON SALE

Particulars of the new issue of savings certificates to be placed on sale by the finance department are now available. They will be issued in denominations of $5, $10, $25, $50 and $100, and are payable three years from the date of purchase, with interest at the rate of 5½ per cent., compounded half-yearly. Thus an investment of $85 now will bring $100 three years hence. Certificates may be cashed any time before maturity, but those surrendered before the end of the three years will receive only 4 per cent. for each full half-year the money is invested. The new securities will be placed on sale immediately at all banks and money order post-offices. The 25-cent thrift stamps, which do not bear interest, are being kept on sale, and a card containing seventeen of them will be exchanged for a $5 certificate. This plan of purchase is particularly for school children.

For the time being no active propaganda for the sale of the new securities will be carried on by the department of finance. They are intended to provide a ready channel for the profitable investment of small sums, and to be an incentive to thrift and saving.

DEBENTURES FOR SALE

CITY OF MOOSE JAW

SALE OF DEBENTURES

Sealed tenders endorsed "Tender for Debentures," will be received by the City Commissioners up to noon of the 6th day of March, 1920, for any or all of the following issues of debentures of the City of Moose Jaw.

All debentures are on the Sinking Fund plan bearing interest at the rate of 5½% per annum, payable semi-annually.

(a) $16,000.00 debentures for repairs to Fourth Avenue Overhead Bridge, repayable at the end of ten years.

(b) $13,000.00 debentures for the purpose of building a Public Comfort Station in the City, repayable at the end of thirty years.

(c) $40,000.00 debentures for the purpose of carrying out extensions to the waterworks system at Britannia Park, repayable at the end of thirty years.

(d) $22,200.00 debentures for the purpose of building cement sidewalks in the City, repayable at the end of fifteen years.

Full particulars may be had on application to the City Commissioners. The highest or any tender not necessarily accepted.

S. A. HAMILTON,
Mayor.
GEO. D. MACKIE,
City Commissioners.

DIVIDEND NOTICE

IMPERIAL OIL, LIMITED

Notice is hereby given that a dividend of 75c. per share in Canadian funds has been declared by the Directors of Imperial Oil, Limited, and that the same will be repayable in respect of shares specified in any share warrant of the Company within three days after the coupon serial number Two of such share warrant has been presented and delivered at The Royal Bank of Canada, Toronto, Ontario, or at the office of Imperial Oil, Limited, Toronto, Ontario, such presentation and delivery to be made on or after the Twenty-eighth day of February, 1920.

Payment to shareholders of record and fully paid up at the close of business on the 26th day of February, 1920 (and whose shares are represented by share certificates) will be made on or after the twenty-eighth day of February, 1920.

The books of the Company for the transfer of shares will be closed from the close of business on the twenty-sixth day of February, 1920, to the close of business on the twenty-eighth day of February, 1920.

By order of the Board.

A branch of the Bankers' Trust Co., Montreal, has just been opened at Vancouver, B.C., in the Merchants Bank, on Granville St. The manager of the branch will be Harold E. Laudman, for some years connected with the local land registry office, and recently associated with J. C. Groynn in the liquidation of the Dominion Trust Co. It will be under the general supervision of A. C. Fraser, superintendent of the Merchants' Bank in British Columbia.

Government and Municipal Bond Market

Victory Loan Prices are Cut—Action Due to General Lower Prices of Bonds — Few New Provincial or Municipal Issues Offered — Some Municipalities in the East Sell Bonds Locally to Avoid Market Conditions

BECAUSE of the decline in bond prices, the special committee of the Bond Dealers' Association has reduced the prices of the Victory Loans, and at the same time increased the margin between buying and selling price. The new selling prices, compared with the old, are as follows:—

Maturity.	Old price.	New price.
1922	100	99
1923	100	99
1924	100	97½
1927	101½	100
1933	102¼	100
1934	100	97
1937	104¼	101

The 1919 war loan issues are considerably lower in price than the others because they are taxable. The above prices are those at which bond dealers will sell, and they will purchase at these prices less a commission of 1 per cent. Formerly the margin was ½ per cent. By an arrangement made by the committee, this commission is wholly paid to dealers who sell the bonds, so that they make no profit on a purchase. The outstanding bonds of the 5 per cent. war loans, due 1925, 1931 and 1937, are not included in this arrangement, but are traded in on the stock exchanges and among other dealers in the ordinary way. Transactions in all the issues are reported by the stock exchanges as before.

This arrangement went into force with the commencement of business on Monday, following a decision reached in consultation with the Dominion government. It has been made necessary because of the fact that at the old prices purchases by the association were exceeding sales. The bond market has been depressed for some months past, and the low rates for sterling exchange brought out large amounts of Dominion of Canada bonds which were offered here at prices much lower than those fixed for the Victories. There are still large amounts held in Great Britain, however, and no doubt as long as sterling stays down there will be a movement of securities in this direction. Meanwhile, few provinces or municipalities care to face the market for new money. An embargo on the importation of securities was discussed this week with a view to maintaining prices here.

Coming Offerings

The following is a list of offerings, of which mention has been made in this or previous issues:—

Thorold, Ont.	$7,832	6	30-years	Mar. 1
Moose Jaw, Sask.	91,000	5½	Various.	Mar. 6
Grey R.M., Man.	35,000	5½	30-instal.	Mar. 3
St. Honore, Que.	70,000	6	40-instal.	Mar. 8
Sarnia, Ont.	104,639	Var.	Various.	Mar. 8
Nokomis, Sask.	20,000	7	15-years	Apr. 1

Grey R.M., Man.—Tenders will be received until March 3rd, 1920, for the purchase of $35,000 5½ per cent. 30-instalment good roads debentures.—O. T. Soole, clerk.

Saint Honore, Que.—Tenders will be received until March 8th, 1920, for the purchase of $70,000 6 per cent. 40-instalment debentures.—Secretary-treasurer of Parish of Saint Honore.

Sarnia, Ont.—Tenders will be received until March 8th, 1920, for the purchase of various blocks of debentures as follows: Waterworks, $35,000 5½ per cent. 10-years; Hydro, $50,000 5½ per cent. 20-years; sewers, $6,460 6 per cent. 20-years; drain, $1,580 6 per cent. 10-years; drain, $1,155 6½ per cent. 9-years; sidewalk, $864 6 per cent. 10-years; sidewalks and curbs, $4,265 6 per cent. 3-years; sidewalks and curbs, $5,313 6 per cent. 5-years. Total, $104,639.

Debenture Notes

Ripley, Ont.—Ratepayers have approved the borrowing of $15,000 for Hydro purposes.

Gladstone, Man.—The town has been authorized to pass a by-law for the issue of debentures to the amount of $11,000.

Burnaby, B.C.—An issue of $50,000 6 per cent. 10-year water improvement bonds in small denominations over the counter is proposed.

Kitchener, Ont.—The finance committee of the city council has guaranteed to finance the city's share of the new collegiate to the extent of $350,000.

Woodstock, Ont.—Citizens will likely have the opportunity of investing in $120,000 local debentures which the council will likely decide to issue in connection with the establishment of three industries in the city.

Fort Garry, Man.—Two money by-laws have been endorsed by ratepayers. One is for the expenditure of $200,000 for the installation of a waterworks system, and the other for the expenditure of $21,000 for the building of a bridge over the LaSalle River.

Halifax, N.S.—The city will need to borrow about $500,000 for improvements this year. The items are: $250,000 for sewage, $200,000 for water, $25,000 for street sprinkling, fence for the city yard $1,000, $3,000 for a permanent incinerator apporach, $2,500 plumbing in city hall, $10,000 heating city hall, wiring $2,750, fire alarm system $4,000.

Quebec, Que.—City Treasurer Verge and H. Desrivieres, manager of the St. Roch's branch of the Bank of Montreal, are in New York studying the conditions of the money market relative to the renewal of a loan of the city for the sum of $2,125,000. The loan was floated five years ago, and comes due on April 1st. It is expected that the renewal of the loan will involve an expenditure of about $300,000 for the city.

Saskatchewan.—The following is a list of authorizations granted by the Local Government Board from January 26th to February 16th, 1920:—

Schools.—Milestone, $2,000 10-years 7 per cent. instalment; *Fairholme, $4,750 10-years 8 per cent. annuity; *Little Six, $3,500 10-years 8 per cent. instalment; *Ipsley Mound, $4,000 10-years 6½ per cent. annuity; East Side, $3,500 10-years 8 per cent. annuity; Greenvale, $2,700 10-years 6½ per cent. annuity; *Deer Run, $2,750 10-years 8 per cent. annuity.

Rural Telephones.—For 15-years, 8 per cent. annuity: South Melville, $500; Macroirie, $1,000; Westbrook-Gladwin, $700; Little Quill, $16,000; Perley, $7,200; Torondal, $2,000.

---

*To be included in the next sale held by the board.

Bond Sales

Charlottenburgh Township, Ont.—Messrs. Brent, Noxon and Co. have been awarded an issue of $60,000 5½ per cent. 20-year road debentures at 94.73, which is on about a 5.96 per cent. basis. Other tenders received were:—

C. H. Burgess and Co.	94.21
A. E. Ames and Co.	94.099
Mackay and Mackay	93.575
Wood, Gundy and Co.	93.21

Midland, Ont.—Messrs. C. H. Burgess and Co. have purchased an issue of $30,000 6 per cent. 20-instalment debentures at 97.67, which is on about a 6⅛ per cent. basis. R. C. Matthews and Co. bid 97.60.

Prince Rupert, B.C.—The following certificates have been issued by the municipal department of British Columbia: Construction of school building, $150,000, payable December 1st, 1949, with interest at 6 per cent., payable half-yearly.

The Outstanding Advantage

of buying Government and Municipal Bonds to-day lies in the fact that the maximum of security is combined with high interest return. Present prices offer an income of from 5.65% to 7% on bonds of this class. We shall be glad to furnish a list of such bonds upon request.

RSC
INVESTMENT-SERVICE

220,000 Cash Customers Every Day

The seating capacity of the 31 Famous Players Canadian Corporation's theatres will be 45,000. This means about 220,000 patrons a day, for 313 days a year. Every customer pays cash. No bad debts.

And remember, hard times do not affect motion picture patronage. They stimulate it. Human nature seems to drive people to "movies" in days of depression. War proved this.

This is important when weighing both the security and the earning-power of the 8% Cumulative Preferred Shares of Famous Players Canadian Corporation.

A Substantial Bonus of Common Shares is being given to original investors in these Preferred Shares. The potentialities of profit through appreciation in value of the Common Stock Bonus are strong.

Write now for full particulars.

Repairing of roads, $25,000, payable December 1st, 1924, with interest at 6 per cent., payable half-yearly.

Greater Winnipeg Water District.—It is understood that no bids were received for the issue of $1,000,000 of 5½ per cent. bonds, for which tenders were invited up to February 16th. The chairman of the district is now visiting Toronto, Montreal and New York, endeavoring to arrange a sale on suitable terms.

Saskatchewan.—The following is a list of debentures reported sold by the Local Government Board from January 26th to February 16th, 1920:—

Schools.—Venice S.D., $9,000; Canada Landed and National Investment Co., Winnipeg. Rereshill, $500, Ollenberger, $600, Warwick, $1,000, Bonnie Hill, $1,200; Saskatchewan General Investment and Agency Co., Regina. Riverburn, $3,500; C. H. Gripton, St. Catharines. Vimy Ridge, $1,200; Cross, Jonah, Hugg and Forbes, Regina. Edam R.C.S.S., $4,000; Amede Lavigne. Petersville, $1,500; Kern Agencies, Ltd., Moose Jaw. Saskatoon P.S.D., $210,000; Wood, Gundy and Co., Saskatoon. Harvard, $5,000; Waterman-Waterbury, Regina. Half Way, $3,700; sold locally.

Town.—Govan, $12,000; T. K. McCallum, Saskatoon.

Villages.—Admiral, $1,500; Harris, Read and Co., Regina. Glidden, $3,500, Salvador, $2,000; W. L. McKinnon and Co., Regina.

Local Bond Sales

The sale of bonds to local citizens in small denominations is becoming very popular, particularly in Ontario municipalities. London, St. Thomas and Chatham are three cities which have engaged in the selling of debentures over the counter at par for past years, and still consider that plan the best, and it is evident that other municipalities are anxious to try this method. City Treasurer Perry, of St. Thomas, in a statement issued recently, said: "As to the merits of the plan there can be no question. It is simply doing away with the middlemen."

This may be true as far as investment centres such as those mentioned above are concerned, but in the case of some western municipalites and other smaller localities, where the citizens are to a certain extent uneducated as to the buying of bonds, the success of such an issue is doubted. The education received by the Canadian public through the war loans, however, may prove very helpful to municipalities who desire to engage in local selling.

The first sale locally, which is credited to St. Thomas, was in 1908, when a small issue of less than $20,000, bearing interest at 5 per cent. per annum, was sold. Since that time, and particularly since the outbreak of the war, the sum of $800,000 has been disposed of locally, 90 per cent. of the amount having been sold to citizens and the balance to people of the community. These bonds have been sold at par, and of the total, $336,162 bore interest at 5 per cent. per annum, $389,107 interest at 5½ per cent., and $74,707 at 6 per cent. Of the $100,000 issue of the present year, $70,000 of the total amount has been sold to date. These debentures pay 5½ per cent. per annum.

The Premier Theatre Security

Of all theatre owners and managers on this continent, Marcus Loew of New York has been the most successful. He now owns and controls about 200 theatres.

WE OWN AND OFFER

$30,000 of the 8% Cumulative Sinking Fund Preferred Stock of LOEW'S BUFFALO THEATRES, INCORPORATED, at par, with a bonus of 20% in Common Shares.

As the whole capital issue has been oversubscribed by underwriters and the general public, the building of this theatre is assured, and it should prove to be quite as successful as that of Toronto. Everyone knows of the large profits earned by the latter.

PARIS LOAN POSTPONED

Further information concerning the proposed city of Paris Canadian loan for $20,000,000, proceeds of which would be used to cover purchase of foodstuffs and other essential commodities in this country, is now forthcoming. Last week's cable advices stated that the loan was to be made, but the National City Company now state, that the cable advices were incorrect.

It was learned that the National City Co., together with their associates, comprising an influential group of banks and corporations had been for some time past, negotiating for the purchase of these bonds, and had planned a financial operation which would have involved the selling of city of Paris bonds in Canada, the proceeds from which would be expended entirely within the Dominion.

Negotiations had reached a point this week whereby it was expected the transaction would be completed in Paris. The general exchange situation, however, has been reflected to such a marked extent in the local security market that it was decided after a conference with one of the leading bankers, a member of the purchasing group, and who is closely in touch with the minister of finance, to endeavor to postpone at this time the purchase of the Paris bonds.

RAILROAD EARNINGS

The following are the earnings of Canada's transcontinental railways for the first three weeks of February:—

Canadian Pacific Railway

	1920.	1919.	Inc. or dec.
February 7	$3,298,000	$2,579,000	+ $ 709,000
February 14	3,547,000	2,883,000	+ 664,000
February 21	2,901,000	2,729,000	+ 172,000

Grand Trunk Railway

February 7	$1,178,184	$ 905,449	+ $ 272,735
February 14	1,220,509	947,889	+ 272,620
February 21	928,693	974,220	— 45,527

Canadian National Railway

February 7	$1,545,473	$1,503,137	+ $ 42,336
February 14	1,673,047	1,611,722	+ 61,325
February 21	1,552,908	1,572,152	+ 19,244

CORPORATION SECURITIES MARKET

Trading is Inactive and Price Tendency is Lower—Issue of Montreal Tramways Debentures Being Arranged

THE market for industrial bonds and stocks is dull, in sympathy with the stock markets, and very few new issues are definitely planned. It is understood that an issue of $2,000,000 Montreal Tramways Co. debentures is being arranged through New York bankers, but no definite announcement has as yet been made.

The Ontario Smelters and Refineries, Ltd., will offer shortly, through Messrs. Tanner, Gates and Co., Toronto, an issue of $250,000 7 per cent. first mortgage bonds at 100 and accrued interest, with a bonus of 25 per cent. of the common stock. The business has been established for a number of years, and has been earning substantial profits. Its plant is located at Chippawa, Ont. The company's products are well known and are in demand in the markets of Canada and abroad, customers now trading being located in England, France, Belgium, United States, South America, Japan, China and Canada. The bonds are secured by a specific first mortgage upon the property of the company, on which are erected suitable buildings fronting on the Park Boulevard and deep water of the Niagara River at Chippawa, Ont.

Four Industrial Stock Issues

The Imperial Brick Company of Canada, Ltd., which has just been formed, backed by large financial interests in the United States, and which intends to build plants in Montreal, Toronto and Winnipeg, will shortly make an issue of preferred and common stock through a well-known trust company.

A new stock issue has been announced by the International Petroleum Co. The distribution will be of 1,353,401 shares in the proportion of share for share to those possessing stock on March 5th. The price will be par, or $5 per share, payable in New York funds. The company, which has head office in Toronto, is planning large operations in South America, and it is presumed the new capital is required in this connection.

Messrs. Graham, Sanson and Co., Toronto, are offering $750,000 8 per cent. cumulative preference stock of Chase Tractors Corporation, Ltd., at par, with a bonus of 40 per cent. common stock. The product of the company has been on the market for some years, and is well and favorably known in many parts of the world. The corporation was organized about six months ago to take over the tractor business end of the Chase Motor Truck Co., of Syracuse, N.Y. A plant was purchased in Toronto, and operations have been under way since incorporation at the new plant, where the business was removed for the purpose of obtaining the advantage of the preferential duties in favor of manufacturers within the British Empire, and also to secure the better labor conditions available in Toronto.

The Victoria Shipowners, Ltd., of Victoria, B.C., which company was incorporated recently to engage in the shipbuilding trade and for other purposes along that line, is offering 10,000 shares of stock at $50 per share.

LISTED STOCKS REGISTER SOME DECLINES

Atlantic Sugar, Brazilian, Canada Steamships and National Breweries are Active—Reductions Were Small, Following New York's Lead

STOCKS on the New York exchange suffered further declines this week, and call money rates were high at times. This is a continuation of the downward movement started last November. Trading has been active during the past few weeks, however, the stock sales up to February 19th, totalling 949,300 shares, compared with 895,900 up to February 20th, 1919.

Activity on the Montreal and Toronto exchanges centred around Atlantic Sugar, Brazilian, Canada Steamships, National Breweries, and Canadian General Electric. Atlantic Sugar was most heavily traded in, although it did not dominate the market as it did last week. Sales in Toronto for the week ended February 25th totalled 4,717, compared with 5,432 for the week ended February 18th, while in Montreal the total was .... compared with 29,070 for the preceding week. Closing prices are 90-90¾, a slight reduction. 1.743 shares of Brazilian changed hands in Toronto, with little net change in price. Canada Bread suffered a decline of about one point, with sales totalling 688. Steamships common went back about two points to 71¾ bid, sales totalling 445; the preferred did not suffer in price, but 698 shares were sold in Toronto. Canadian General Electric lost one point, 104¼ being bid as compared with 105¼ last week, and 682 shares changed hands. Dominion Steel was active with 1,800 shares sold, and a fall in price from 70 bid to 67¾ bid. Over 7,300 shares of La Rose Consolidated (par value $5), were traded in, with no important change in price. Nipissing was another active mining stock, with 550 shares sold, and Tretheway, with 9,100 sales, went down slightly in price. Slight gains are registered by some of the banks, loan and trust stocks, following upon favorable annual reports. Among the bonds, the war loans received extra attention as a result of the reduction in prices made in accordance with the arrangement with the bond dealers association.

PROTECT FORESTS AGAINST FIRE

The Ottawa River Forest Protective Association, which held its annual meeting in Ottawa on February 12, decided to construct 200 miles of telephone line through the forests of upper Canada. In a report to the association, Arthur H. Graham, chief fire inspector, stated that last season was one of the worst for forest fires in many years. He said that fire loss in 20,000 acres or 31 square miles of valuable forest was caused by unextinguished lunch fires, careless smoking by campers, travellers and berry-pickers, and slash burning without fire ranger's permit. The work of the Ottawa River Forest Protective Association was outlined briefly by Mr. Graham, who pointed out that in the year the association employed 200 fire rangers and patrolled 21,000,000 acres, or 32,000 square miles, of forest land in western Quebec. On this territory 227 fires were extinguished by these forest rangers.

A Newspaper Devoted to Municipal Bonds

THERE is published in New York City a daily and weekly newspaper which has for over twenty-five years been devoted to municipal bonds. Bankers, bond dealers, investors and public officials consider it an authority in its field. Municipalities consider it the logical medium in which to announce bond offerings.

Investments and the Market

City Dairy Preference Arrears Now Cleared Off—Provincial Paper Profits Up—Gross Revenue of Canada Steamship Reaches High Level—Business of Ottawa Light, Heat and Power Increased Substantially

City Dairy Co.—Directors of the company, besides declaring the quarterly dividend of 1¾ per cent. on the paid-up capital preferred stock have taken action regarding the payment of the deferred dividends on the preference stock amounting to 10½ per cent. The company passed these dividends in the fall of 1916 and they were not resumed till midsummer, 1918. These arrears are now cleared off by dividends to cover this amount, payable as follows: Two per cent. on April 1, 1920; 2 per cent., payable July 1, 1920; 3¼ per cent., payable October 1, 1920; and 3¼ per cent., payable January 2, 1921.

Provincial Paper Mills Co., Ltd.—Net profits for the twelve months ended December 31, 1919, were $420,573, as compared with $404,142 in the previous year, an increase of $16,431. The sales totalled $3,838,415, a considerable increase over the previous year, and the largest in the history of the company. Sales were confined to the Canadian market, and the demand for paper was such as to keep the company's mills operating at full capacity. Mr. I. H. Weldon, the president, said that the present market conditions indicated that a strong demand would prevail during the year 1919.

The Port Arthur Pulp and Paper Co., in which the company is largely interested, will be in a position during 1920 to pay all accumulated dividends on its preferred stock, which will mean a very substantial increase in revenue for the company. The Provincial Paper Mills surplus for the year was $133,408, and this with the balance of $852,406 carried forward from 1918, gives a surplus at December 31 last of $985,815.

Canada Steamship Lines, Ltd.—Gross revenue for 1919, for the first time in the company's history, crossed the $15,000,000 mark. The net profit for the year indicates earnings of 12.18 per cent. on the $12,000,000 common stock compared with the 4 per cent. disbursed, which, however, has been increased to 7 per cent. for the current year.

The operating account shows a total revenue for the year 1919 of $15,240,414, as compared with $14,094,393 in the previous year, a gain of approximately $1,200,000. Of this amount revenue from vessels amounted to $14,495,657, as compared with $13,481,238 in 1918, docks and wharves $238,426, against $222,310, and miscellaneous $305,192, against $174,674. Other revenue amounted to $201,137, against $216,169.

Total expenses were $10,660,141, up from $9,756,313, leaving net earnings for the year of $4,580,272, as compared with $4,338,079 in 1918. Out of the net earnings the amount required for bond interest, depreciation and reserve for government taxes, etc., amounted to $2,243,593, leaving a net profit for the year of $2,336,679, which compares with $2,324,098 a year ago.

At the end of last year the total surplus stood at $5,009,630, and added to it, as per operating account of December 31, 1919, was the total of $2,336,679, and net profits on sales of fixed assets, etc., amounting to $773,601, a total of $3,110,280, making a total amount available for distribution of $8,119,910. Of this amount preference stock dividend at the rate of 7 per cent. required $875,000 and common stock dividend at the rate of 4 per cent. $480,000, a total of $1,355,000, leaving a balance to be carried forward into the new year of $6,764,910, an amount which is close to the total funded debt of the company.

Montreal Cottons, Ltd.—The annual financial report of the company for the year ended December 31st, 1919, shows net profits available on the capital stock of $662,538, after making a write-off of $307,500 to cover exchange and taxes in order that purchases of raw cotton might be protected during the year. A year ago the net was $681,220, and in 1917 $419,175. Cloth sales in the year amounted to $7,678,505, against $5,917,520 and $4,308,521 in the two respective previous years. After the usual adjustments, net cloth sales were $7,611,755, against $5,799,342 and $4,078,848.

Among expenses, raw cotton took up $5,057,422, against $3,898,860 in 1918 and $2,960,434 in 1917. In the year $180,000 was written off to depreciation, as against $122,500 in 1918 and $115,000 in 1917. After all expenses, operating income was $995,030, against $703,096 and $492,720, and total income $1,014,204, against $720,649 in 1918 and $496,608 in 1917. Bond interest deduction, etc., left the net as above, and after payment of increased dividends the surplus was $317,538, against $351,220 in 1918 and $89,175 in 1917.

The balance sheet of the operating company shows current assets of $4,190,247, against $3,607,238 in 1918, and current liabilities of $1,186,298, as against $916,263 in 1918, leaving net working capital of $3,003,949, up from $2,690,975 in the previous year. Among the changes in assets was an increase in government bonds held from $50,000 to $1,145,198; an increase in book debts, $1,299,488 from $994,149, and a drop in raw cotton to $170,305 from $1,291,559.

Ottawa Light, Heat and Power Co.—According to the report for the year ended December 21, 1919, substantial increases occurred in the gross business of both the Ottawa Light, Heat and Power Co. and the Ottawa Gas Co., but, in common with other public utilities, the operations were carried on under exceptional difficulties and at unavoidable increased expense but to the abnormal advance in the cost of coil, oil and operating wages, and an extraordinary increase by the city in the company's taxes. The demand for coal in foreign countries and a shortage in supply due to strikes at the mines, kept up the price, and made it very difficult to obtain supplies, even where contracts were placed well in advance of requirements. The main feautres of the balance sheet for the past two years compare as follows:—

Assets.

	1919.	1918.
Property, plant and equipment	$6,165,314	$5,944,071
Merchandise and stores	128,314	173,605
Coal and other supplies	131,003	155,699
Accounts and bills receivable .	348,083	339,591

NOTICE OF ANNUAL MEETING

THE MERCANTILE FIRE INSURANCE COMPANY

Notice is hereby given that the Annual Meeting of this Company will be held at the Head Office, No. 14 Richmond Street East, Toronto, at 3 o'clock on Monday, the Eighth day of March, 1920.

By order.
ALFRED WRIGHT,
91 Secretary.

INTERNATIONAL PETROLEUM COMPANY LIMITED

To the Shareholders of International Petroleum Company, Limited:

Notice is hereby given that the Board of Directors of the Company have resolved to issue 1,353,401 shares of £1 each (par value $5.00) of the Common Stock of the Company at the price of $5.00 (five dollars) per share, payable in New York funds at par.

The above issue of new stock will be made on the basis of share for share of the Preference and Common Capital Stock issued and fully paid up as at the close of business on the 5th day of March, 1920, and each Shareholder is entitled to subscribe and pay for one new Common Share in respect of each share held by him.

Holders of Bearer Share Warrants who present their Warrants at the office of the Company at 56 Church Street, Toronto, Canada, or at The Farmers' Loan and Trust Company, 16-22 William Street, New York City, U.S.A., on or before the 15th day of March, 1920, are entitled to subscribe and pay for new shares on the terms mentioned above.

All Bearer Share Warrants presented as aforesaid must be accompanied by certified cheque (that is, cheque duly certified or accepted by a bank) or bank draft made out to the order of The Farmers' Loan and Trust Company for account of International Petroleum Company, Limited, and payable at par at a bank in New York City, U.S.A., for the full amount due of $5.00 per share on each new share subscribed for. The Bearer Share Warrants presented as aforesaid will be stamped, "Ex Rights, 1920," and returned to the patries presenting them, together with share warrants for the new shares subscribed and paid for.

Failure to exercise the rights to subscribe for new shares within the time limit and in the manner aforesaid will subject these rights to forfeiture.

The Books of the Company will be closed from the 6th day of March, 1920, to the 20th day of March, 1920, inclusive, and no Bearer Share Warrants will be "split" during that period.

No warrants for "rights" will be issued, and shareholders who desire to spilt warrants in order to sell part of their holding to enable them to pay for the new shares must do so on or before the 5th March, 1920.

Holders of Bearer Share Warrants are recommended to send their warrants, together with their remittance, by Registered Mail, insured, as the Company is not responsible for Share Warrants lost in transit, and duplicate Share Warrants cannot be issued.

By Order of the Board.
J. R. CLARKE, Secretary.
56 Church Street, Toronto, Canada,
23rd February, 1920. 87

The Monetary Times' index to Volume 63, July to December, 1919, is now ready. A copy may be had on request.

the 1918 issue, held by the company, was $13,219, making a total income for the year of $242,062. The interest on outstanding bonds of the year was $10,422, and administration expenses $61,724, these items combined forming a total of $72,146 to be deducted from income, leaving a net surplus for the year of $169,915. The balance of surplus brought forward from the year 1918 is $1,297,706, which, added to the returns for the year 1919, makes a total of $1,467,622, out of which dividends for the year at the established rates of 7 per cent. on preferred and 12 per cent. on common shares, a total of $182,400 have been paid and the balance of $1,285,222 carried forward to the credit of profit and loss.

The following directors were unanimously elected at the annual meeting at Brockville, Ont., on February 24 last: T. J. Dillen, Welland; J. H. A. Briggs, Brockville; J. T. Dillen, Buffalo; J. A. Mackay, Charles W. MacLean, Wm. Weir, Colin O. Cameron, Stephen J. Lehuray, Montreal; Lieut.-Col. Monsarrat, Ottawa; Lawrence Chamberlain, New York; Henry Bertram, Dundas. The following officials were unanimously named: President and general manager, T. J. Dillen; vice-president, Hon. George P. Graham; secretary-treasurer, J. H. A. Briggs; assistant secretary-treasurer, F. C. Hesch; executive, the president, vice-president, Wm. Weir and J. T. Dillen.

F. N. Burt Co., Ltd.—The report of the company for the twelve months ended December 31, 1919, shows that profits were $795,714, an increase of $325,337 over the previous year, when the total was $470,376. There were paid in dividends to preferred and common shareholders the sum of $198,548, while the amounts written off patents account and transferred to realty and plant reserve account absorbed $201,489. The balance of $395,676 was left in profit and loss account. The balance carried forward to 1920 is $713,044. In his report, President S. J. Moore said:—

"A reserve of $40,000 was set up to provide for Federal income taxes, and the profit and loss balance was left, subject to deduction of Federal excess profits taxes. During the year 1919 a total of $99,415 was paid in respect of Federal income and excess profits taxes on the profits for 1918. The amount paid over and above the reserve—namely, $59,415, has been deducted from the profit and loss balance brought forward in this report.

"Important additions have been made to the company's plant during the year, thereby considerably increasing production. These have been provided for out of profits, while, at the same time, current liabilities have been reduced and quick assets increased. The outlook for the year 1920 is good."

Niagara Falls Power Co.—The income account of the Niagara Falls Power Co., and the Canadian Niagara Power Co., shows a surplus of $2,084,056 after charges. After the deduction of 7 per cent. preferred dividends, this was equivalent to $8.82 a share earned on the $14,484,600 common stock, as compared with $7.56 a share earned on the common stock in the year before.

International Coal and Coke Co., Ltd.—The report of the company for the eleven months ended November 30, 1919, shows a profit of $77,947. The balance sheet shows current assets of $306,837, and current liabilities of $64,815. Coal lands, rights and development at cost are now credited with the amount of $3,170,197, while plant, railroad and equipment total $910,442. Reserves were $1,117,319 at the end of November last year, and the surplus $133,457.

Oak Tire and Rubber Co.—Profits for the year were $38,274, and after payment of income tax 1918, there was $37,360 surplus for dividends. After adding balance of $18,235 carried forward from previous account, there was a surplus of $55,595. The balance sheets shows current assets of $183,043, compared with $154,448 in the previous year, and current liabilities of $89,528, against $73,995 a year ago. Raw materials, supplies and manufactured stock on hand are placed at $165,970, against $135,869 in the previous year.

RECENT FIRES

Deseronto, Ont.—February 20—Home of Peter Laughlin, Green Street, with contents, was destroyed. Cause unknown.

Gooderham, Ont.—February 19—Building of Homer Wright was destroyed. Cause unknown. Three deaths.

Dominion Mortgage and Investments Association

Progress in Membership and Work is Recorded—Retiring President Forecasts Active Demand for Loans — Guaranty Trust Officer Optimistic About Europe—Bankers' Association President Suggests Contraction in Credit

FORTY-ONE financial institutions, which comprise the membership of the Dominion Mortgage and Investments' Association, were fairly well represented at the annual meeting held in Toronto on March 4 and 5. Because of the fact that these institutions are spread from coast to coast, it was not possible for them all to be represented, but a keen interest is taken in the important subjects discussed. Special efforts put forth by the executive made this year's meeting a distinct success.

The association has made good progress during the past year both in membership and in the amount of work handled. E. M. Saunders, president for the year, and John Appleton, secretary-treasurer, received many tributes for their part in this progress. The following companies were added to the membership roll during 1919: British Columbia Permanent Loan Co., Vancouver; Chartered Trust and Executor Co., Toronto; Security Life Insurance Co., Toronto; Montreal City and District Savings Bank, Montreal; and Standard Agencies, Ltd., Calgary. The membership now consists of eighteen mortgage, savings and loan companies, eleven trust companies and twelve life insurance companies.

After the usual routine business on Thursday morning, the reports of the executive committee and of the secretary-treasurer were read. The former stated that the full committee had held ten meetings, and numerous sub-committee meetings were also held. Assets administered by the member companies on December 31, 1919, totalled $1,030,239,435, made up as follows: Loan companies, $198,047,664; trust companies, $451,327,871; life insurance companies, $380,863,899. The association is affiliated with the Mortgage and Trust Companies' Association of British Columbia, the Mortgage Loans' Association of Alberta, the Mortgage Loans' Association of Manitoba, and the Land Mortgage Companies' Association of Saskatchewan. The by-laws were amended to provide a lower fee for companies which could not invest on the security of real estate.

The committee's report also reviewed the action taken in connection with municipal finances, seed grain loans, fire prevention, personal covenant in mortgages, Loan and Trust Corporations' Act of Ontario, the proposal to appoint public trustees, soldiers' settlement and deposits.

A report of the committee on "Limitations of Deposits with Loan Corporations," by W. E. Long, was read, and a report of the committee on the "Interest Act," by J. K. Pickett. The latter referred to suggestions in a paper read by F. C. L. Jones last year, and recommended that some action be taken to secure amendments as soon as normal conditions prevail.

E. M. Saunders, in his presidential address, referred to the fact that the members now administered assets of over one billion dollars, indicating the importance of the association's work. The past few years had, he said, been a period of inactivity in the mortgage field, and the companies had to look elsewhere to place their funds. It might not be long, however, before the demand would equal or exceed the supply, and if requirements were to be met it was necessary that moratoria and other "protective legislation" should be repealed or amended to make conditions more attractive to investors. Mr. Saunders also referred to the general economic situation and spoke favorably of the proposed commercial arrangement with the West Indies.

Addresses were also made by A. S. Bond, president of the Mortgage Loans' Association of Manitoba, H. W. Givens, president of the Land Mortgage Companies' Association of Saskatchewan, W. T. Creighton, president of the Mortgage Loans' Association of Alberta, and by H. S. Awrey, of British Columbia.

Three interesting addresses, followed by general discussions, took up the attention of the delegates on Thursday afternoon. These were "Federal Loans to Farmers in the United States," by F. H. Sisson, vice-president of the Guaranty Trust Co., New York; "Cost of Foreclosure Proceedings in Western Provinces," by A. L. Crossin, Winnipeg; and "Difficulties Incident to Extreme Fluctuation in Rates of Exchange," by A. J. Glazebrook.

The outstanding feature of the convention, however, was the address by F. H. Sisson, vice-president of the Guaranty Trust Co., New York, given at the meeting on Thursday evening. Mr. Sisson's subject was "International Finance and Europe After the War." Regarding the exchange situation, he said that the underlying difficulty was the lack of productive effort. The United States is anxious to help, but as investors there can only slowly be educated to foreign investments, credits could be advanced only in small quantities.

Mr. Sisson was optimistic as to the future of European countries. "I think it is safe to say," he said, "that Great Britain has turned the corner." In any case he considered its position the best of the European countries, but speaking of Europe as a whole, he did not think that it would succumb. France, however, had gone into the war expecting either to lose everything, or to win and make Germany pay. She had won, and now found it necessary to face her financial obligations. Practically, no part of her war expenditure had been paid out of taxation, and she now found herself poor, in spite of the fact that the French people had prospered during the war.

Sir Thomas White, ex-minister of finance, made some reference to Canada's financing of the war, and mentioned especially how this country had rendered Great Britain an important service in handling gold. About $1,300,000,000 in gold had, he said, passed through the office of the receiver-general at Ottawa, on its way from South Africa to New York.

C. A. Bogert, president of the Canadian Bankers' Association, stated that the bankers and the investment institutions had many interests in common. The members of the Dominion Mortgage and Investments' Association administered assets totalling $1,000,000,000, while the total in the case of the Bankers' Association was $3,000,000,000. "This is a great responsibility," he said, "and we should use more than ordinary care in the placing of loans during the period of complications which is now being faced." Referring to the exchange situation, he stated that the proceeds of the last Victory loan were being depleted to protect the market, and that the restrictions asked by the finance minister should be observed.

MANITOBA ESTIMATES WILL BE LARGE

Campaign in Support of Rural Credits is Anticipated—R. D. Waugh Leaving Greater Winnipeg Water Commission

(Special to The Monetary Times)

Winnipeg, March 3, 1920.

THE rural credit societies of Manitoba will be operated this year without much doubt from a central office in Winnipeg. Banking by mail has been advertised to some extent by the banks and this method will necessarily be followed by the local government in this matter. Several of the societies, notably those in the municipality of Lawrence, have done all their business for the past two years through the mails with complete success, and the same policy will now be followed by all.

The societies, of which there are more than forty doing business, will make their wants known to the Winnipeg office, and lines of credit will be granted to the various members. Cheques will be issued the day that notes are received. There will be no delay and all funds asked for by the societies will be provided.

Government Campaign for Deposits

The government will, no doubt, push the campaign for deposits with extreme vigor and will conduct a campaign in every constituency. The legislation which has been prepared will be put through the house with such improvements and changes as may be suggested for its betterment. The Winnipeg staff of the department will be enlarged to meet the demands of the increased business which will be transacted.

The interest in the rural credits movement has deepened considerably among the members of the legislature, with whom the issue has become a live one. Several members interviewed by "The Monetary Times" stated that in their opinion large sums could be obtained in deposits for this purpose under the plan proposed by the government. Four per cent. will be paid.

The estimates, it is said, will call for an expenditure by the government of Manitoba, for this year, of more than $10,000,000. The large increase is accounted for by the growth of the expenditures under the Good Roads Act, the establishment of a psychopathic ward in the general hospital, and also by the inclusion of the upkeep and interest of the new parliament buildings. The estimates last year were slightly in excess of $8,000,000. The $10,000,000 estimate does not include supplementaries, it is said. These may bring the total to about $13,000,000, according to unofficial information.

City Loses Popular Official

R. D. Waugh, commissioner of the Greater Winnipeg Water District and newly appointed Canadian representative of the Saar Valley Commission, expresses great regret at leaving Winnipeg. Mr. Waugh, who is an ex-mayor of the western metropolis on two separate terms, has resided in Winnipeg for thirty-seven years, where he has many friends and interests. "This new duty, however," he states, "cannot lightly be turned aside and it is therefore necessary that I leave. I have, however, the satisfaction of having accomplished all work entrusted to me by the citizens of Winnipeg." Said Mr. Waugh to "The Monetary Times." Mr. Waugh will leave Winnipeg on March 16.

From reliable information it is learned that house rents in Winnipeg will advance from $5 to $10 per dwelling in the spring, and notices to tenants advising them of this fact are now being prepared and sent out by members of the building owners association.

T. D'Arcy McGee has been appointed president and general manager of Foote's, Limited, new wholesale shoe house. For the past eighteen years he has been secretary-treasurer and managing director of Thomas Ryan & Company.

The Canadian Pacific Railway has reopened its office in Hamburg, Germany, and sailings to that port may be arranged shortly.

INSURANCE PROPOSALS BEFORE LEGISLATURE

Scheme Recommended to Apply to All Except Professional Men, and to Come Into Force Next Year—Details of Benefits

THE report of Miles M. Dawson, consulting actuary of New York, and F. W. Hinsdale, secretary of the British Columbia Workmen's Compensation Board, was presented to the Manitoba legislature shortly after its opening, and referred to a sub-committee. Together with the report of the latter, it was discussed in a joint conference with outside bodies on February 26. The recommendations of the experts were briefly as follows:—

Whatever schemes were adopted should come into force January 1, 1921; a system of state insurance by all employers, for all except professional men; the creation of a provincial accident fund to assume the payment of compensation and other benefits under the act; the appointing of a governing board to be composed of representatives from insured employers and employees.

Increased Benefits

The benefits are to be raised as follows, it is recommended: Widows' compensation—$30 per month instead of $20, and $7.50 per month for each child instead of $5; where the mother does not survive the compensation to be $15 per month per child, instead of $10, with an aggregate total of $60 instead of $40; parents, etc., not more than $20 per month, as at present, but an aggregate total of $60 instead of $40; for total disability 66⅔ per cent. of the disabled person's regular pay per month, instead of 55 per cent., and for partial disability 66⅔ per cent. of the impairment of the earnings per month, instead of 55 per cent.

The experts recommended that the medical benefits commence from the date of the accident, instead of after seven days, and also that the expenses so incurred be allowed to exceed $100, at the discretion of the board, instead of only under conditions where there is a likelihood of preventing permanent disability.

It is recommended in the report that an employer, with the approval of the board, may also insure similar compensation and benefits, as already enumerated, for his employees in case of injury or death due to accidents not out of and in course of the employment. In this event, a charge of one per cent. per day shall be paid by each employee to defray the cost.

The computed cost, as reported by the experts, would not be greater than the present cost for premiums being paid by employers who insure in companies and to employers who carry their own risk. The amount of the additional compensation would not increase their expense more than one-fourth. Different rates for insurance to be governed by the degree of danger connected with different kinds of work are recommended. These rates will be fixed by the board. The report states that the insurance applied to the employees of merchants—clerks and office men, stenographers, etc.—will cost merely a fraction of one per cent.

BANK CHANGES

Forty-seven branches of Canadian banks were opened in January, distributed among the various banks as follows:—

Commerce, 4; Molsons, 1; Royal, 13; Nova Scotia, 6; Home, 2; Union, 4; Imperial, 3: Standard, 4; Dominion, 3; Provinciale, 2; Merchants, 2; Montreal, 2; Hochelaga, 1.

During the month seven branches were closed. They are as follows:—

*Bradwell, Sask., Royal; Brodhagen, Ont., Merchants; Courcelles, Que., Nationale; *Deschambault, Que., Provinciale; *Scollard, Alta., Royal; *Wartime, Sask., Royal; West Shefford, Que., Hochelaga.

---

*Sub-branch.

Investments and the Market

Increased Working Expenses Kept C.P.R. Net Down—Dominion Linens' Profits Lower—City Dairy Report Reflects Good Year—Trading Profits of Penman's Increased Substantially—Labour Trouble Affected Northern Ontario Power Company—Good Statement Submitted by Howard Smith Company

Southern Canada Power Co., Ltd.—The gross earnings of the company for the month of January, 1920, amounted to $60,526, an increase of $7,304, as compared with last year. Operating expenses and purchase power amounted to $30,417, leaving net earnings of $30,108, an increase of $3,539, as ocmpared with last year.

Brazilian Traction, Light and Power Co.—The earnings' statement of the company, in milreis, for the twelve months ended December 31 last, shows net of 58,423,000, and gross of $113,074,000. The increase of net compared with the figure for 1918 is $6,292,000.

New Brunswick Power Co.—At the annual meeting of the company at St. John, N.B., on February 24 last, L. R. Ross, the president, stated that owing to severe storms and extremely cold weather of the last winter, the company was compelled to pass the dividends on the preferred stock. He stated that the storm losses totals $40,000 and upwards.

Canadian Pacific Railway.—Net earnings of the company for January amounted to $585,941, as compared with $1,553,512 in 1919, and $1,167,993 in 1918. Gross for the month amounted to $13,914,569, or higher by $886,241 than that for January, 1919, and represents the best total for any January in the company's history. Working expenses, however, which continue to mount out of proportion to the increased business done by the road, reflecting the ever-increasing costs of labor and materials, were increased by $1,853,812, standing in the ratio of almost 96 per cent. to gross.

Canadian Fur Auction Sales Co., Ltd.—At a meeting in Montreal last week, six new directors were added to the board. The new members of the board are: Sir Herbert S. Holt, president of the Royal Bank of Canada and the Montreal Light, Heat and Power Co.; J. W. McConnell, Montreal financier; and Fred Cooper, of the firm of Boulter, Waugh and Co., of Montreal; W. H. McWilliams, of Winnipeg; and A. A. Allan and R. T. Gough, of Toronto. Four more seats remain to be filled, but it is understood that this will be effected in the near future, the vacancies being retained, it is stated, for representatives of the Prince Edward Island fox-raising industry.

Dominion Linens, Ltd.—Profits of the company for the year ended December 31, 1919, amounted to $76,190, as compared with $71,142 for the previous year. The balance sheet showed considerable improvement as compared with 1918. On the assets side, bills and accounts receivable were $96,500, as compared with $45,871 in the preceding year. Investments of $75,540 was a new item, while real estate, plant, machinery and equipment increased from $378,694 in 1918 to $395,446. On the liabilities side, bank loans and advances shows an increase of about $9,000, as compared with 1918, the amount being $50,200. Accounts payable amounted to $10,484, compared with $11,315 in the previous year, while reserves increased by over $26,000. Total assets are now $851,846.

City Dairy Co., Ltd.—The annual report of the company for 1919 shows net profits of $115,389, compared with $112,022 in 1918, an increase of $3,367. After bringing forward the 1918 balance of $159,507, the total available was $274,897, out of which was paid dividends on preferred shares amounting to $49,000, leaving a balance of $225,897 to be carried forward to 1920.

The statement of assets and liabilities shows total assets as $1,901,253, as against $1,739,956 last year. In the cash position, accounts receivable are $95,364, as against $88,708 in 1918, and the mortgage sinking fund and prepaid charges amount to $37,255; cash on hand, $1,410, etc. Liabilities include bankers' advances of $19,358, which shows a substantial reduction from last year, when the figures were $24,737.

The president, in his report, points out that extensive additions and improvements have been made during the period, and the plant has now been brought to the highest point of efficiency. Capacity has been increased, and an additional receiving station will be constructed during the year.

Temiskaming Mining Co.—The report of the company for 1919 shows that the production in 1919 amounted to 243,037 ounces of silver, compared with 420,078 in the previous year. "Labor troubles closing down the Cobalt camps for seven weeks last summer," said the report, "was an unfavorable feature of the year's operations. Earnings were $295,252, compared with $425,014. The surplus on mining account was $70,448, compared with $135,394 in 1918. The surplus account had a balance of $922,738 at the end of 1918, which, with last year's surplus, made $993,186. Depreciation amounting to $29,170 was provided for, and a dividend of $100,000 was paid, leaving $864,016 in surplus account at the end of 1919. A pocket of high-grade ore was found in the middle of April on the Gans property, and other rich patches in the same area gave encouragement and stimulated further exploration in the older workings of the property. Development work for the year amounted to 2,283 ft. Ore production for the year had net value of $283,623, and shipments had a value of $225,596. Costs averaged $15.6 per ton milled."

Hillcrest Collieries, Ltd.—Profits of the company for the year amounted to $112,641, compared with $110,295 in 1918. Net earnings of $72,581 were equivalent to 7.25 per cent. on the common stock, as against $60,288, or 6.02 per cent. for the preceding year. The surplus from operations was $12,581, which, added to the previous balance, brought the amount remaining at the credit of the profit and loss account up to $219,051.

The balance sheet shows that the company has increased its working capital from $272,094 at the end of 1918 to $340,889 as at December 31 last. Cash on hand, which a year ago amounted to only $98, is shown in the statement at $24,103, while accounts receivable were almost $47,000 higher at $146,223. Miscellaneous current assets were over $25,000 up at $340,869. Among the current liabilities bank loans were reduced in the year by an excess of $10,000, standing at $45,741, but accounts payable increased from $12,955 at the close of 1918 to $43,413 in the 1919 statement. The old board of directors has been re-elected.

Canadian Car and Foundry Co.—It has been announced by W. W. Butler, president of the company, that new business to the amount of about $12,000,000 has been secured in the past two weeks. Of the new business about $5,000,000 has been received from the Canadian Pacific Railway Co., covering the building of freight cars, while orders involving the outlay of approximately $7,000,000 for both freight and passenger car equipment have been awarded the company by the Canadian National Railways.

With the addition of these orders, Mr. Butler stated, the company now has on its books business aggregating almost $20,000,000, with prospects of further orders of substantial magnitude in the near future. In the latter connection, it

PARLIAMENT TO DISCUSS GRAND TRUNK

Agreement Will be Subject of Debate in House of Commons—Board of Commerce and Naval Policy Also on Program

(Special to *The Monetary Times.*)

Ottawa, March 4th, 1920.

PARLIAMENT is off again. Not even that dazzling extravaganza, "Chu Chin Chow," was more brilliant as a fashion show than the scene on the floor of the House when the Governor-General opened parliament. It is traditional that the speech from the throne is a meaningless document, but this year it contained less information even than ever. Outside of the Franchise Bill, there was no intimation of any important legislation, and no forecast of any measures of interest to the financial or business world.

However, because the speech from the throne was barren of promise of legislation means nothing. The House is but a few days old, but there is already looming up three questions which will evidently be the subject of debate, and all three of which are of interest to the world of commerce. One is the Grand Trunk Railway agreement. Sir George Foster has announced that the agreement with the Grand Trunk shareholders for arbitration, which had been ratified at the recent London meeting, would be laid before parliament also for approval. The Opposition has given intimation that it proposes to discuss this agreement at length.

Commerce Board Under Fire

Judging by the number of questions which have been filed in regard to the Board of Commerce, that body will be under fire this coming session. The recent resignation of Judge Robson has started a lot of gossip, and there are many rumors afloat—rumors which, in the interests of all concerned, should be settled one way or another. The correspondence in regard to the resignation of Judge Robson has been laid on the table of the House. It is a comparatively harmless document. There will be a full dress debate on the whole question later.

Naval Policy

Third, there is the report of Lord Jellicoe in regard to a naval policy for Canada. This report has been made, and is in the hands of Hon. C. C. Ballantyne. It will also be tabled within the next few days and, without doubt, will start a bitter controversy, as, if there is any one subject outside of the tariff upon which there are divided views, it is the question of a naval policy for the Dominion. However, because a report is to be tabled does not mean that it will be acted upon. It is stated that a very moderate policy, far short of the proposals made by Jellicoe, will be laid before a caucus of the government for approval, and, if accepted, will be introduced to parliament as an interim measure at least.

The speeches of the mover and seconder of the address in reply to the throne are generally full of the most ordinary platitudes. This year was an exception. Mr. Hume Cronyn, of London, was the mover of the address. He is a financier of experience, a man of thought and culture, who takes his parliamentary work seriously. He is one of the outstanding members of parliament, who is making a strong impress upon the House. He gave a speech of more than ordinary merit, in which he discussed the country's social, economic and financial problems in a broad way. His points were summed up by himself in the following terms: (1) Rigid economy. (2) Cessation or minimization of government borrowing. (3) Adequate taxation on a scientific and equitable basis. (4) An energetic and discriminating immigration campaign. (5) National scientific research.

Changes in Government Annuities

Sir Henry Drayton has given notice of a resolution, to be taken up in Committee of the Whole, to amend the Government Annuities Act, 1908, to provide for the increase of the total amount which may be paid by way of annuity from $1,000 to $5,000 a year, and to increase the interest from 3 to 4 per cent. on moneys repaid to the purchaser or his legal representatives when the annuitant or the last survivor of the joint annuitants dies before the annuity becomes payable, and moneys have been paid or deposited as consideration for the annuity. Another resolution from the Minister of Finance is to amend the Civil Service Superannuation and Retirement Act to provide that the rate of interest computed on all sums to the credit of the retirement fund, whether principal or interest, be increased from 4 to 5 per cent. per annum.

FIRE UNDERWRITERS MAY ORGANIZE

Fire insurance agents in the province of Alberta may organize into an association similar to the Life Underwriters' Association. This was discussed at the annual meeting of the Fire Underwriters' Association held in Calgary on February 25. The following are the 1920 officers elected for the latter body: Chairman, O. E. Tisdale; vice-chairman, G. L. Peet; executive committee, H. L. High, James Cleav, W. Gravely and C. E. Tait.

NORTH EMPIRE FIRE INSURANCE COMPANY

Following upon the recent purchase of the North Empire Fire Insurance Co. by the London Guarantee and Accident Co., considerable change was made in the directorate at the annual meeting held a few days ago. J. A[illegible] Thompson, of Winnipeg, remains as president, but the other directors are all new, as follows: Vice-presidents, J. D. McArthur, Winnipeg, and Geo. Weir, Toronto; manager, J. E. Hounsom; secretary, H. B. Thompson; C. A. Adamson, F. W. Drewry, D. F. Coyle, all of Winnipeg; and P. Tur[illegible] Wilson and J. E. Hounsom of Toronto. Geo. A. Touche and Co. have been appointed auditors.

The statement for 1919, which is the last year under the former management, shows net income of $21,568, compared with $8,586 for 1918. Higher net profit on insurance is responsible for this increase. Expenses were $26,052, an increase of over $2,000. The balance sheet shows assets of $364,419, an increase of $20,000, represented by additional investments and an interest in the Consolidated Insurance Co. Current liabilities were $2,314, compared with $19,149 at the end of 1918. Reserve for unearned premiums is now $70,112, and surplus $46,828, the latter having almost doubled during the year.

HAMILTON PROVIDENT AND LOAN SOCIETY

A very good statement was presented at the 48th annual meeting of the Hamilton Provident and Loan Society, held on March 1. Earnings were $320,051, compared with $312,272 in 1918. Interest on debentures and deposits, and expenses, were both slightly isncreased, being $97,147 and $52,243 respectively. Dividends at nine per cent. required $108,000, and taxes $10,930, and $30,000 was added to reserve, leaving $1,730 to be added to the contingent fund.

Assets total $4,764,939, an increase of $184,867, represented chiefly by additional mortgages held. Deposits and debentures increased from $2,102,632 at the end of 1918 to $2,229,768 on December 31, 1919. The society's financial position is now excellent, reserve being $1,250,000, which is $50,000 more than the paid-up capital, and $30,570 being also available in a contingent fund.

The shareholders agreed to resolutions as follows: that the society's act be amended to enable it to increase the amount it is at present allowed to hold on deposit to that authorized by the Ontario Loan and Trust Corporation Act; that the corporate name of the society be changed by striking out the word "society" and substituting "corporation."

THE INVESTOR AND THE SECURITY MARKET

LITTLE has been heard from investors regarding the restrictions which have been placed on the importation of securities. Probably it is because they are not organized in such a way as to express an opinion. Bond dealers and stock brokers are concerned chiefly with trading conditions, the actual yield obtainable on investments being a matter of secondary importance with them. It is the latter in which investors are interested.

The flood of Canadian securities from abroad unquestionably played havoc with markets here, and prevented all but a few issues of new securities. For this reason firms, which were not engaged in bringing back securities from abroad, found little business to do. But this was not only the most profitable kind of business, but it was also the best for the country as a whole; it reduced our debt abroad and to the same extent cut down the amount of interest which would have to be sent away each year, and enforced a desirable policy of economy in borrowing on governments and corporations in this country.

Dealers have strongly objected to the agreement prepared, and it is no secret that many bankers are in sympathy with them and would continue to finance them unless the strongest pressure were brought to bear. It is distinctly unfair that legitimate trading and banking business of this kind should be restricted, while direct purchases could still be made by institutions and individuals who wished to hold the securities as investments. The difficulties of controlling a market in this way exceed any advantages that might result, and that there were any advantages was not clearly demonstrated.

EXCHANGE RATES WILL ADJUST TRADE

NEW YORK exchange at a premium of about 18 per cent. substantially increases the cost of American goods here, and it is frequently alleged that the cost of coal, cotton, and other goods which we must import from the United States should not be enhanced by such a large amount. But an examination of the latest trade figures indicates little, if any, falling off in our imports from that country, even in the case of luxuries.

This failure of trade to react to exchange rates has started a movement for an embargo against the importation of luxuries, on the ground that it is only by action of this kind that our large unfavorable balance with the United States can be reduced and exchange rates thereby restored to normal. A broader view of the question, however, results in the conclusion that the only effective discrimination between necessities and luxuries rests with the consumer. Rising prices cause a reduction in the purchasing power of an income, and when this takes place luxuries must give way to necessities. That the large increase in prices has not already restricted the purchase of luxuries is due to the fact that incomes have been increased roughly in proportion to the cost of living. So long as this takes place, there is no need to worry as to the high price of the necessities of life.

It is, in fact, useless for any country to try to reduce prices below the levels fixed by world conditions. Attempts in Canada and elsewhere to fix prices and to limit profits have proved abortive. The thrift campaign in this country was a dismal failure, and to try to limit imports to necessities would prove equally futile.

But incomes cannot continue to be raised in proportion to prices, for signs of a business depression are already clear. Just as soon as the consumer realizes that his purchasing power is to be reduced for an indefinite period, will he restrict the purchase of luxuries and the exchange situation will be automatically solved.

THE RURAL CREDITS CONTROVERSY

REPORTS of the recent rural credits convention in Winnipeg, indicated that the arrangement between the banks and the societies was working fairly well. Although the banks did not feel that the rate of six per cent allowed to them was adequate, yet it was understood that the arrangement would continue for the time being. Now the banks have refused to advance further sums at this rate, and the provincial government has expressed its willingness to extend the necessary support to the societies, and to empower them to accept deposits.

The amount of money involved is just about $2,000,000, an extra half per cent. on which, would be an insignificant sum, but the points at issue are important. The controversy illustrates the difference of opinion which, undoubtedly, exists between the banks and the farmers of the west. Hon. Edward Brown, provincial treasurer, made a trip to Toronto this week for the especial purpose of trying to reach an agreement with the banks. "Compared with the amount of money involved," he said in an interview with *The Montary Times*, "it is of far greater importance to the banks that the arrangement be continued." He pointed out how the societies had acted as a connecting link between the banks and the farmers, and if a satisfactory arrangement could be maintained it would stimulate friendliness, not only in Manitoba, but throughout Canada, for all eyes were turned on Manitoba's experiment. If the banks had stated their position clearly at the time of the convention, he thought the societies would have readily agreed to paying an additional half per cent., in view of present high money rates, but the government could scarcely break faith with them by raising the rate so soon after the convention.

Agriculture should have funds at the lowest rate, said G. W. Prout in an interview on February 25. He maintained that industries in the east obtained better terms from the banks than did the farmers. The same point was emphasized by Mr. Brown, in speaking to *The Monetary Times;* as the prosperity of other branches of industry depended upon agriculture, he said, it had the first claim on funds available for loaning purposes. But both Mr. Prout and Mr. Brown overlook the fact that loans which do not fall due until the end of the year, which is the case with the loans to the societies, are not as suitable to the banks as the shorter loans which are required by most lines of industry. It is essential that bank assets be kept liquid, and with this in view large sums should not be tied up for a fixed period, and where such loans are made the rate must be slightly higher.

In an interview on February 26, Vere C. Brown, western superintendent of the Bank of Commerce, pointed out that there is no discrimination as among industries, but the banks on the other hand look solely to the character of the security in fixing the rate.

FUTURE OF THE COMMERCE BOARD

FOLLOWING upon the resignation of its chairman, H. A. Robson, and general dissatisfaction with its work, the Board of Commerce is threatened with extinction. It has succeeded in disturbing the normal course of business, and thereby brought upon itself criticism from firms engaged in the industries in which it interfered, without conferring any corresponding advantage on the consumer. Nevertheless the board may well be made the beginning of a useful organization, and its early attempts must be more or less experimental. The control of industry has become more and more concentrated into a few hands, and a public body for the regulation of industries so controlled has become a necessity. The board, however, in a futile attempt to stem the tide of rising prices, started to fix prices and profits in the retail trade, and other lines of industry which are distinctly competitive.

A board composed of two lawyers and one labor man could not be expected to regulate industry wisely, when not one of its members was experienced in the direction of business. Nevertheless Judge Robson in retiring throws out one or two suggestions which are well worth consideration. He calls attention to the inconsistency of a government which on the one hand encourages export trade, thereby sustaining and raising prices, and on the other hand tries to reduce prices by fixing them and by limiting profits. He also points out that the Combines and Fair Prices Act, under authority of which the board operated, has been administered to deal only with the necessaries of life, and profiteers in other commodities were left to do as they please. The effect appeared to be to deter business men from dealing in such necessaries of life on which dealers had a right to get the highest possible price in the export market.

GROWTH OF AUTOMOBILE INSURANCE

AUTOMOBILE insurance has in the space of a few years become one of the leading casualty lines, following upon the rapid increase in the use of motor cars. The development of this branch of insurance was described on February 12 by John Jenkins, fire manager of the Employers' Liability, to the Fire Insurance Association of Montreal. There were in 1903, he said, just 220 cars in Canada, whereas there were, last year, 370,000 registered in Canada. This latter number meant one car for every twenty-one people, and, the speaker said, it would not be long before there would be one for every fifteen persons. In 1910 seven companies had licenses to do automobile insurance business, and at the present time the number was from fifty to seventy. In 1918 the premiums on this class of business were $2,152,000, and last year the figure was no doubt fifty per cent. more than that.

Mr. Jenkins dealt with each section of loss covered by automobile policies—fire, theft, damage, liability, property damage and transportation. As regards fire loss, he pointed out the likelihood of a car that is kept in a well-protected garage when at home being frequently placed in a public garage that is less secure when the owner is touring. As regards theft, while Canada is not so bad as the United States, it is bad enough, said the speaker.

The most troublesome feature is the stealing of spare tires. A man goes into a building and while there someone comes along in another car, cuts away and takes a spare tire and is off in a moment without creating any immediate suspicion. The insurance company is thus at a loss of $50 or $100 or more. There must be, said Mr. Jenkins, a channel for disposing of these tires, as there evidently is for disposing of cars that are stolen and done over.

Insurance of the owner against claims made on him for damage or injury caused by the operation and maintenance of his car by self or chauffeur is almost a necessity in cities, said Mr. Jenkins. In the case of property damage, the limit of a policy is generally $1,000, but the speaker referred to a case where a car ran into a grocery store, putting it out of business for some days, resulting in loss of profits having to be paid for as well as the actual damage done.

PLANS FOR "BANK OF ALBERTA"

EDMONTON is to be the headquarters of a new bank, fo the incorporation of which application will be made a the present session of parliament. The name proposed is the "Bank of Alberta," and branches would immediately be opened at Edmonton and Calgary, and possibly other point in the province. A capital of $2,000,000 is proposed, an farmers are to be relied upon to supply a good part of thi sum.

A previous charter for the Bank of Alberta was authorized, but never actually issued, by parliament in 1914. A that time the proposition took shape along somewhat simila lines as those now proposed, and its organizer was E. S McQuaid. The provisional list of directors included a number of well-known capitalists in both Edmonton and Calgar and the late D. R. Fraser was spoken of as the first president The stock was partly subscribed, but never paid up sufficientl to secure an issue of the charter, and, though two years' extension was given, the bank did not get to the point of commencing business. The present scheme has no connectio with the original Alberta bank, except in so far as advantag may be taken of the action already authorized by parliamen in respect to approval of the subject. Whether the bankin committee will agree to a renewal of the first charter to th present applicants or will advise that a fresh beginning b made remains to be seen, but it is expected that the next fe weeks will settle this point.

Exports

A special Department of this Bank is devoted to the interests of the foreign business of its customers.

Exporters and others having business relations with foreign countries are invited to avail themselves of the very complete information which has been gathered by the Bank's Foreign Department. This may be done through any one of the Bank's many branches.

J. P. BELL - - General Manager

PERSONAL NOTES

Mr. A. J. Pattison, of A. J. Pattison, Jr. and Company, Toronto, and R. S. Morris, of Morris and Wright, Hamilton, were elected members of the Montreal Stock Exchange, on March 2nd.

Mr. Miller Lash has been elected a director of the Western Assurance Company, and of the British America Assurance Company, succeeding his father, the late Z. A. Lash, K.C., on both boards.

Mr. Francis H. Sisson, who addressed the Dominion Mortgage and Investment Association in Toronto on March 4, is vice-president of the Guaranty Trust Company of New York. He formerly was prominent in United States railroad circles as assistant chairman of the Railway Executives Advisory Committee. This threw him in close touch with the heart of business in the United States and the relation of financial organizations to business health. Prior to that time, Mr. Sisson had a varied business experience, and had extensive interests in the publishing and advertising fields. He has always been a very keen student of financial problems. Mr. Sisson was born in Galesburg, Ill., and graduated from Knox College in that city. Subsequently he attended Harvard where he took post-graduate work. In addition to his association with the Guaranty Trust Company of New York, he is a director of the Montana Farming Corporation.

Mr. Thomas Robb, manager and secretary of the Shipping Federation of Canada, at Ottawa, has been appointed to the Lighthouse Board as representative of shipping interests in the Atlantic Division.

Mr. Richard D. Waugh, ex-mayor of Winnipeg, and recently Commissioner of the Great Winnipeg Waterway Commission, has been appointed as Canada's representative on the Sarre Valley Commission.

Mr. Jas. A. Fuller, manager of the branch factory of of the Dominion Canners, Ltd., West Lorne, Ont., has been appointed superintendent of western branches, The vacancy was caused by the death of Mr. David Marshall, M.P., of Aylmer, Ont.

Mr. George H. Muirhead, Deputy Master of Titles at Osgoode Hall, Toronto, has resigned his position to accept that of estates manager with the Brantford Trust Company. Mr. Muirhead was formerly a member of the firm of Brewster, Muirhead and Heyd, lawyers in Brantford.

Mr. J. M. Mackie, vice-president of the United Financial Corporation, Montreal, and formerly general manager of C. Meredith and Company, Limited, has resigned to devote his entire attention to the Hillcrest Collieries, of which he was general manager before entering the investment business.

Mr. William S. Chadwick who since 1912 has been one of the assistant secretaries of the Guarantee Company of North America, Montreal, was appointed secretary and treasurer of the company last week, in succession to Richard B. Scott. Mr. Scott held his office for the past twenty-eight years, and has resigned to return to his home in Florida. Mr. Chadwick, who is well known in Montreal was born in London, Ont., and joined the staff of the Guarantee Company in 1886.

Mr. Edward F. Sise, formerly president of the Northern Electric Company, has joined the Montreal stock brokerage firm of H. C. Scott and Company as a partner, and with the present member of the firm, Hope Scott, will conduct business under the old name style. Mr. Sise for many years has been associated with the electrical industry in Canada, organizing in 1899 the Imperial Wire and Cable Company, in which he held the position of managing director. This company was merged in 1914 with the Northern Electric and Manufacturing Company, the merger being the present Northern Electric Company, Limited, of which Mr. Sise was president until he retired from the board of directors in November, 1919. Mr. Scott has had a long experience in stock broking, having been with the clearing house of the Montreal Stock Exchange in 1903 and later with Brown and Company, of the New York Stock Exchange, subsequently becoming floor member for H. C. Scott and Company in 1907.

Mr. E. M. Saunders, treasurer of the Canada Life Assurance Company, presided at the annual meeting of the Dominion Mortgage and Investments Association in Toronto, March 4 and 5. Approximately, sixty-six million dollars of assets are held by the Canada Life, and the responsibility of investing this total safely and profitably keeps Mr. Saunders in close touch with conditions throughout the Dominion. The association has done good work not only for its own members but for security holders as a whole, by keeping a careful watch over mortgage loans and the field of government and municipal bonds. Special questions which required attention in 1919 were the moratoria and so-called "protective legislation," and the difficulties in which some Canadian municipalities found themselves financially.

OBITUARIES

Mr. William Power, a well known fire insurance adjuster and valuator, of Toronto, and at one time superintendent of buildings for the Exhibition Association, died February 24th.

Mr. David Weismiller, president and general manager of the London Mutual Insurance Company for many years, until his retirement in 1913, died suddenly in Toronto, last week. He was born in Wellesley, Ont., and was 61 years old.

Dr. Daniel Strachan, industrial welfare administrator of the Imperial Oil Company, died on March 3. He was born in Glencoe, Ont., in 1866, and was a Presbyterian minister before entering the service of the company in August, 1918.

Mr. Henry Acton Fleming, Toronto, died last week. For 12 years he had been in partnership with Mr. Stuart A. Marvin in the firm of Fleming and Marvin, on the Standard Mining Exchange. Mr. Fleming was born in Toronto, and was 35 years old. After his graduation from Upper Canada College he was engaged with the Imperial bank at the corner of York and King Sts., and later joine the brokerage firm of Brouse, Mitchell and Company.

MANITOBA'S LEGISLATIVE SESSION

Public Loans to Industry Proposed—Delegation Urges Completion of Hudson Bay Railway and Development of Northern Region

GOVERNMENT assistance for industry was urged before the Manitoba legislature on February 10 by J. W. Wilton, member for Assiniboia. The speaker of the house pointed out, however, that as this involved the expenditure of public funds, it was not in order for a private member to introduce such a measure. Hon. Mr. Wilton's proposal was to create a foundation, the stock of which would be open to public subscription, and which would be managed by a board of directors composed of representatives of employers, employees, farmers and of the government. It would act as a joint council of industry, a bureau of scientific research and a land settlement board; money would also be loaned to assist industry. It should be responsible to some cabinet minister, and costs of administration should be defrayed from the interest received.

Hudson Bay Railway

The completion of the Hudson Bay Railway was also urged before the legislature by a deputation from Le Pas Board of Trade. J. A. Campbell, M.P. for Nelson, who accompanied the deputation, said that this year there should be a definite decision as to who would control the natural resources of the north. The development of northern Manitoba was being delayed, he said, by the present unsatisfactory state of affairs, and he thought the province should have complete control of the territory.

Data prepared by Le Pas Board of Trade show that expenditure on the railway has been $13,720,699, and on the Nelson works $6,321,569; 332 miles have been completed, and the remaining 92 graded.

Hail Insurance Legislation

One of the most important bills of the session was the "Manitoba District Hail Insurance Act," providing for a system of municipal hail insurance. About ten years ago, an Act of this kind was passed, but did not go into effect because of objections to certain of its clauses. The new Act provides for a maximum indemnity of $8 per acre. Premiums are to be collected by the municipal authorities. Any farmer wishing to carry less than $8 per acre, may reduce it to $6 per acre up to June 15 of each year.

In moving the bill for its second reading, A. E. August, M.L.A. for Dufferin, explained that the municipalities of the province would have to bring themselves under the Act by the vote of the electors, and each one would then send a representative to Winnipeg where the assembled representatives would select the other officials necessary. A return from each farmer would have to be sent to the secretary-treasurer of each municipality stating the acreage under crop. If the crop was destroyed early in the season a rebate on the amount of premiums paid would be given. All losses sustained would have to be paid within 30 days except 10 per cent., which would be withheld until adjustment was arrived at in the fall of the year.

TRUSTEE COMPANY OF WINNIPEG

Assets of $2,872,943 are now being administered by the Trustee Co. of Winnipeg, according to its statement for 1919, shown in detail elsewhere in this issue. Of this total, company assets comprise $343,500, assets held for trusts' liabilities $1,962,674 and agency assets $566,768. Of the company assets $69,839 has been advanced to estates, trusts and clients, $165,000 invested in mortgage loans, the balance being in stocks and bonds, cash, etc. The company's subscribed capital is $400,000, of which $134,166 has been paid up. There is a reserve of $10,000. Company liabilities include balance due to clients and to estates $85,176, guaranteed investments $93,970 and uncompleted loans $10,222.

TRADE OF CANADA STILL GROWING

Balance of Approximately $320,000,000—Imports from United Kingdom Increasing—Trade with United States Shows Little Change

THE statement of Canada's trade, classified by countries, for the twelve months ended January, 1920, shows that a favorable turn has been made. Imports for consumption totalled $970,773,307, compared with $923,121,048 for the previous twelve months. Exports total $1,291,013,187, of which Canadian products were $1,242,585,893, and foreign products $48,427,294. Foreign products showed a decrease of a little over $1,000,000, as compared with the figure for the previous year, while Canadian products increased over $22,000,000. Canada has now a favorable trade balance of approximately $320,000,000.

Imports from the United Kingdom for the twelve months totalled $97,222,122, as compared with $73,883,683 for the previous period, an increase of nearly $24,000,000. On the other hand, however, exports showed a decline of over $50,000,000. Trade with the United States shows very little change, although exports to that country are steadily rising. All British colonies and foreign countries are buying more from the Dominion, with the exception of France, which shows a drop in exports of approximately $33,000,000.

The following is a summary of the trade of Canada with other countries, as prepared by the Dominion Bureau of Statistics, for the twelve months ended January 31st, 1920, with comparisons:—

	Twelve Months ending January		
	1918 $	1919 $	1920 $
IMPORTS FOR CONSUMPTION			
Dutiable Goods	552,038,593	519,798,522	630,820,209
Free Goods	442,314,598	403,822,526	339,953,098

The Bank of Commerce has made the following appointments: Viking, Alta., Reginald W. Winfield, manager; Ste. Rose du Lac, Man., J. Duncan, manager; Toronto, Ont., J. S. Greenshields, manager.

Mr. E. A. Warnock has been appointed manager of the Bank of Hamilton branch, at Lemberg, Sask.

Mr. Norman Evans, manager of the Windsor, Ont., branch of the Dominion Bank of Canada, has been appointed to a responsible position at the head office of the bank, in Toronto. He will be succeeded by A. M. Cowie, manager of the Calgary branch of the Dominion bank. Mr. I. G. Trask, paying teller of the Dominion Bank, Windsor, Ont., has been appointed manager of the bank's branch at Baden, Ont.

UNLISTED SECURITIES

In their weekly comment on the unlisted securities market, A. J. Pattison, Jr., and Co., say, "The recent embargo placed on the importation of securities by arrangement between the members of the stock exchanges, bond dealers' association and the government has had a most favorable effect on the market. Already the floating supply of securities that have been brought over appears to have dried up and the inquiry for these is particularly good with prices moving slowly upward. It would now appear that this arrangement would result in a decided improvement in all other securities, on this account we look for a more active market with higher prices."

EXCHANGE QUOTATIONS

Messrs. Glazebrook and Cronyn, exchange and bond brokers, report exchange rates as follows:—

	Buyers.	Sellers.	Counter.
N.Y. funds	14⅝ pm.	14¾ pm.	....
Mont. funds	Par.	Par.	⅛ to ¼
Sterling:—			
Demand	3 9550	3 9650	....
Cable transfers	3 9650	3 9725	....

New York quotations of exchange on European countries, furnished by the National City Co., as at March 4, 1920, are as follows:—

London, cable, 348¾, cheque, 348; Paris, cable, 14.12, cheque, 14.14; Italy, cable, 18.25, cheque, 18.27; Belgium, cheque, 13.62; Swiss, cheque, 6.10; Spain, cheque, 17.40; Holland, cheque, 36⅝; Denmark, cheque, 15.20; Norway, cheque, 17.20; Sweden, cheque, 18.90; Berlin, cheque, 1.05; Poland, cheque, .75; Greece, cheque, 11.25.

January Bank Statement

Current and Call Loans in Canada Still Increasing—Additional Coin and Notes Held — Demand Deposits Are Less, But Deposits After Notice Show Increase

	January, 1919.	December, 1919.	January, 1920.	Year's inc. or dec.	Month's inc. or dec.
Deposits on demand	$ 623,919,410	$ 703,329,292	$ 621,408,024	— .32	—11.6
Deposits after notice	990,000,085	1,138,086,691	1,163,297,037	+17.4	+ 2.2
Current loans in Canada	1,080,340,861	1,207,109,046	1,226,962,963	+13.2	+ 1.6
Current loans elsewhere	126,513,338	168,955,696	182,533,124	+44.4	+ 8.3
Loans to municipalities	32,640,198	42,635,290	46,147,388	+43.7	+ 8.5
Call loans in Canada	87,598,427	125,888,760	132,015,334	+51.7	+ 5.6
Call loans elsewhere	140,819,656	172,232,161	170,206,805	+21.4	— 1.1
Circulation	226,385,506	247,611,079	237,269,805	+ 4.8	— 4.0

THE above are the changes in the principal accounts shown by the bank statement for January, compared with January, 1919, and December, 1919. Current loans in Canada increased only slightly. The decline in circulation and in demand deposits for the month point to a slackening in industry. Savings deposits, moreover, are not recovering so rapidly as they did after preceding Victory loans.

No new capital authorizations or subscriptions are recorded for the month. A comparison with the December statement reveals the following additions to paid-up capital and reserve:—

	Capital paid-up.	Reserve.
Merchants	$10,062	......
Provinciale	4,220	......
Union	7,910	......
Hamilton	4,630	$ 2,315
Sterling	102	......
Weyburn	....	10,000
	$26,924	$12,315

The decline in demand deposits is, no doubt, partly due to slacker business. Deposits in Canada over a thirteen-month period have been as follows:—

	Deposits payable on demand.	Deposits payable after notice.
1919—January	$623,919,410	$ 990,000,085
February	566,775,434	1,018,184,512
March	566,797,268	1,037,851,766
April	571,412,857	1,070,985,080
May	568,730,118	1,107,983,072
June	605,927,027	1,139,569,570
July	584,176,765	1,175,092,155
August	584,300,855	1,196,632,931
September	650,743,015	1,277,437,715
October	705,280,241	1,262,746,984
November	728,657,589	1,137,858,277
December	703,329,292	1,138,086,691
1920—January	621,408,024	1,163,297,037

The following table shows deposits for the past six years:—

January.	On demand.	After notice.	Total.
1915	$329,916,730	$ 666,960,482	$ 996,877,212
1916	387,002,926	714,264,486	1,001,267,412
1917	427,308,526	864,163,344	1,291,471,870
1918	559,777,237	900,314,256	1,460,091,493
1919	623,919,410	990,000,085	1,613,919,495
1920	621,408,024	1,163,297,037	1,784,705,061

Holdings of coin and notes have increased substantially, as the following comparison indicates:—

Gold and sub. coin in Canada	+	$ 694,990
Gold and sub. coin elsewhere	+	112,408
Total	+	$ 807,399
Dominion notes in Canada	+	8,081,575
Dominion notes elsewhere	—	27,713
Total	+	$ 8,053,864
	+	$17,722,523

The following table gives the record of loan accounts during the past six years:—

Jan.	Current loans in Canada.	Current loans elsewhere.	Call loans in Canada.	Call loans elsewhere.
1915	$ 770,118,911	$ 43,987,270	$ 66,154,891	$ 85,796,641
1916	758,500,492	61,986,845	82,584,659	134,248,552
1917	806,479,147	85,989,511	79,737,064	155,747,476
1918	855,506,506	116,220,343	76,239,201	132,687,066
1919	1,080,340,861	126,513,338	87,598,427	140,819,656
1920	1,226,962,963	182,533,124	132,015,334	170,206,805

The following table shows the call loans abroad over a period of four calendar years:—

	1917. $	1918. $	1919. $	1920. $
January	155,747,476	132,687,066	140,819,656	170,206,805
February	162,344,556	160,239,494	155,983,681	....
March	161,616,735	167,296,701	160,116,443	
April	159,156,054	179,818,531	155,533,666	
May	168,692,675	172,259,879	157,176,325	
June	159,309,133	170,034,476	167,236,045	
July	151,875,676	167,112,836	178,098,434	
August	176,610,625	160,544,990	174,176,578	
September	166,480,004	159,680,810	169,532,489	
October	151,018,747	157,040,858	158,194,085	
November	139,832,552	171,035,732	169,626,880	
December	134,483,482	150,248,322	172,232,161	

The trend of the Canadian loans account for the past thirteen months is shown in the following table:—

Loans.	Current in Canada.	Call in Canada.
1919—January	$1,080,340,861	$ 87,598,427
February	1,095,301,791	79,154,121
March	1,117,197,446	87,601,337
April	1,107,986,523	86,091,844
May	1,071,447,686	89,187,032
June	1,043,712,932	95,852,728
July	1,014,387,206	93,587,497
August	1,011,785,424	95,899,836
September	1,058,572,202	96,912,709
October	1,104,940,160	100,549,390
November	1,189,408,423	121,754,469
December	1,207,109,046	125,888,760
1920—January	1,226,962,963	132,015,334

LIFE UNDERWRITERS' ASSOCIATION CONVENTION

The 1920 convention of the Life Underwriters' Association will be held in Ottawa, August 18th to 20th. This decision was reached at a meeting of the executive a few days ago. The association's membership campaign has been fairly successful. While complete figures are not yet reported, it is understood that Toronto will have increased its membership from 105 to about 300, Sherbrooke by 420 per cent., Prince Albert by 300 per cent., Halifax to a total of 40 members, and Winnipeg expects to have all local agents in the association.

Further educational work is planned, this subject being one of the principal ones discussed at the semi-annual meeting of the executive on January 19th. Efforts are being made to have a school of life insurance salesmanship established in connection with some university, and Dalhousie University, Halifax, and the University of Alberta, Edmonton, have indicated interest in the proposal.

EASTERN TRUST COMPANY

While not showing the expansion experienced by some of the trust companies in 1919, the Eastern Trust Co. nevertheless, is able to record increases in most branches of its business. Profits for the year, after deducting expenses of management, etc., were $131,766, compared with $126,080 for 1918. Dividends at the rate of 8¾ per cent. were paid, requiring $87,500; $30,000 was transferred to reserve fund, and, after paying taxes and other incidentals, a balance of $25,672 is carried forward into the present year.

Company assets are now $1,455,672, a decrease of $94,482; $989,086 is invested in mortgages, $22,500 in provincial bonds, $122,658 in municipal bonds, and $134,452 in Victory loan. Paid-up caiptal is $1,000,000, and reserve $330,000. Guaranteed investment accounts total $161,582, compared with $121,000 at the end of 1918, and estates, trust and agency accounts total $21,653,965, an increase of about $1,000,000.

Economical Executor Service

Losses through the inexperience of an individual executor are just as real as though due to dishonesty. Safeguard the interests of your estate by appointing the Union Trust Company as executor. By so doing you are assured of the benefit of the combined experience of our staff, and may save thousands of dollars to your estate. Our service costs no more, oftentimes less than that of the inexperienced individual.

Succession Duties in Ontario

THIS is the title of a little Booklet which we have issued recently. It has been written for the general public, and shows what property is liable for Duty, and what is exempt, on the death of the owner, and has tables giving the rates of Duty payable on all classes of estates. To readers of *The Monetary Times* we shall be pleased to send a copy of this valuable booklet free on request. As the supply is limited, write today for a copy to the Publicity Department.

Of the deposit in Central Gold Reserves $10,500,000 is in gold coin; the balance is in Dominion Notes.

T. C. BOVILLE, *Deputy Minister of Finance.*

GERMAN INSURANCE CONTRACTS STILL GOOD

Insurance policies issued by German companies before the war are still good in Canada, and the Canadian government is prepared to protect Canadians who possess paid-up insurance of this kind. The peace treaty provides that the war did not cancel such policies, most of which are held in Canada by Italians, Norwegians, Swedes and Russians. Sums falling due during the war on German policies are recoverable with interest at 5 per cent. from date they became due. The government is anxious to learn at once how much of this German insurance is held in Canada. Where enforcement of war measures prevented policyholders from paying premiums, it is possible to revive the policy by payment of overdue premiums before April 10th. The fullest possible information should be given in the notice sent to Ottawa.

NEW WESTMINSTER BOARD OF TRADE

At the annual meeting of the New Westminster, B.C., Board of Trade on February 21st last, W. W. Mascall was elected president, W. M. McCloy, vice-president, and W. A. Gray (ex-mayor), secretary-treasurer. The following were elected to the executive: Messrs. G. H. Stevens, A. P. Macdonald, L. B. Lusby, E. Gilley, W. H. Elson, F. C. Murray, D. E. MacKenzie, J. R. Agar, H. Stewardson, F. T. Hill, E. Mercer, W. T. Reid, G. H. Jacobson and J. W. Cunningham.

The Montreal investment house of Hanson Brothers has opened a branch office at Ottawa, with W. R. Magee as manager.

WORKMEN'S COMPENSATION DECISION REVERSED

Manitoba Court of Appeal Holds Provincial Act to be Intra Vires, and Board to Have Authority—Case may be Carried to Privy Council

MANITOBA'S Workmen's Compensation Board has the authority delegated to it by the provincial Workmen's Compensation Act, according to the decision of the Manitoba Court of Appeal in the case of Kowhanko v. Tremblay, announced on February 25th. This reverses the decision given by the Court of King's Bench, reported in these columns several weeks ago. The latter court took the ground that the board is a superior court, and could not, therefore, be established by a province. The case may now be carried to the Privy Council. The decision also affects the Public Utilities Act, which created a board with similar powers in the regulation of public utility rates. This board recently granted the Winnipeg Electric Railway an increase in rates.

Board is Administrative Body

The Court of Appeal's judgment says, in part:—

"The board as created is an administrative body and not a court of justice. It is not, in the opinion of the court, a supreme court. Some provisions of the Act are of a drastic, almost revolutionary nature. But the courts have nothing to do with the policy or the legislation of the Act.

"If the board exceeds its jurisdiction or acts without jurisdiction, it may be restrained. But as long as the board acts within its jurisdiction it is the duty of the courts to lend them assistance when necessary to carry out the purpose and intentions of the Act.

"It has been argued that the Workmen's Compensation Board was a supeiror court, and that the appointment of the board came under the British North America Act, assigning power exclusively to the Dominion, and that, therefore, appointments made by the provincial government were ultra vires. The intention of the Workmen's Compensation Act is to provide means for securing speedy compensation to workers who receive injuries arising out of and in the course of their employment. Also to recover reasonable compensations, without the expense of lengthy litigation.

Board's Decisions are Final

"To the board the provincial legislation has entrusted exclusive jurisdiction. The actions and decisions of the board are final, and, in fact, the legislature has appointed the board exclusive judges of law and fact in all questions arising under its jurisdiction.

"Similar statutes are in force in other provinces of Canada, and the jurisdiction of the provincial legislatures to enact such statutes has not been successfully attacked.

"Taking the Workmen's Compensation Act at large, the court holds the power to enact such legislation was conferred on the legislatures of the provinces by Section 92 of the British North America Act. In previous cases, it has been found that the B.N.A. Act conferred a provincial government with 'authority as plenary and as ample within the limits prescribed by Section 92 as the Imperial parliament in the plentitude of the powers possessed could bestow.' Within these limits of subjects and areas the local legislature is supreme.

INDUSTRIAL LIFE AGENTS' ASSOCIATION

The Industrial Life Insurance Agents' Association of Canada held a meeting in Toronto on February 28th for the purpose of outlining its objects to new members. Several applications for membership were received. The constitution was amended to permit superintendents, assistant superintendents and deputy-assistant superintendents to become members. President E. A. Spanner corrected an erroneous impression to the effect that the association was a union.

FUR INDUSTRY IMPORTANT TO CANADA

Conference at Ottawa Discusses Conservation and Development—Annual Production Estimated at $30,000,000

UNDER the auspices of the Commission of Conservation and the Advisory Board on Wild Life Protection, a Fur Industry and Wild Life conference was held in Montreal, February 19th and 20th. Prince Edward Island, which has a well-developed fur-farming industry, had about twenty-five delegates present. In opening the conference, the chairman, C. C. Jones, stated that Canada would soon be one of the leading fur markets of the world. James White, assistant to the chairman of the Commission of Conservation, pointed out how fur trading had helped in the development of Canada in the past.

C. Gordon Hewitt called attention to the abnormal destruction of fur-bearing animals taking place, not only by trappers, but by hundreds of men who never hunted before. The high prices attract men to hunt. A mink, which once brought forty cents, is worth $13 to $28 to-day, and muskrat, $5.50 to-day as against twelve cents some years ago. If no steps were taken to control the destruction of fur-bearers, they would probably be exterminated in all but the most remote regions, and a valuable source of trade would be seriously affected. The same protection was needed for fur-bearing animals as was given to game animals.

Marketing of Furs

Present methods of marketing Canadian furs were described by A. Pierce. These, he said, formerly had been shipped to foreign markets and then brought back here. Now 75 per cent. of the furs were bought locally. Senator Lorne C. Webster advocated the establishment of a fur auction market in Montreal. Production of furs in Canada is about $30,000,000 per annum, a very considerable trade, which should be kept at home. A good attendance of Canadian and foreign buyers is expected at the first auction, to be held in Montreal during the week of March 22nd, when four or five million dollars worth of Canadian furs will be offered.

It was unanimously decided at the conclusion of the convention conference that steps should be taken to organize an international exhibition of fur-bearing animals, especially the silver fox and other fur-bearing animals that have been more or less domesticated, at Montreal during the coming fall. It was recognized by the convention, despite the large number of Prince Edward Islanders present, that Montreal was the logical centre for such an exhibition. As a result of this, the following resolution was unanimously adopted: "That this gathering of fox farmers of the Dominion of Canada is of opinion that it is in the interests of fox farming in Canada to hold an international exhibition of fur-bearing animals in Montreal under the auspices of the Commission of Conservation, such exhibition to be held at a date to be fixed by that commission." To further this end, a committee of Prince Edward Island silver fox farmers was appointed, with power to add to their number, so as to get representatives from every province in which the farming of fur-bearing animals is carried on.

FISH PRODUCTION INCREASED

Figures issued by the Department of the Naval Service show that the total value of sea fish landed in Canada during January was $962,840. In January, 1919, it was $608,256. Fishing operations on the Atlantic coast were greatly interrupted by unusually cold and stormy weather during January, and certain catches were not quite as good as during the same month a year ago. There was a falling off in the catches of haddock, hake and pollock, and also of scallops. Herring were in great abundance in the Nanaimo, Alberni and Clayoquet districts of British Columbia, and the total catch amounted to 36,000 cwts., against 75,200 cwts. for January, 1919. About the same quantity of halibut was landed as during January, 1919.

To the Shareholders:—

We beg to report that we have audited the Books and Accounts of The Trustee Company of Winnipeg, Limited, both at its Head Office in Winnipeg, and at its Branch Office in Moose Jaw, Sask., for the year ending 31st December, 1919, and hereby certify that the above Balance Sheet is, in our opinion, properly drawn up so as to exhibit a true and correct view of the Company's affairs according to the best of our information and the explanations given us, and as shown by the books of the Company. All loan balances have been checked with the Mortgage Ledgers, and the Securities covering such loans and the Bonds and Stocks (excepting those with the Company's solicitors and Bankers whose acknowledgments thereof were produced) have been duly examined. The funds in Bank and on Hand were verified by certificates and actual count respectively. All our requirements as auditors have been complied with.

Analysis of Business Failures

Lack of Capital and Incompetence Account for Over Half Failures, According to Credit Authority—Totals for 1919 Show Large Reduction From 1918—Liabilities Double Assets—Credit Ratings Had Pretty Accurately Reflected Business Condition

STATISTICS of failures in Canada in 1919 indicate the conditions of general prosperity which prevailed during the year. According to the estimate of R. G. Dun and Co., given in *The Monetary Times* of January 9, the number of failures in 1919 was 755, with assets of $10,741,441, and liabilities of $16,256,259. The corresponding figures for 1918 were: number, 873; assets, $11,251,341; liabilities, $14,502,477. The number increases each year as we go back to 1914, when 2,898 in business failed, with assets of $30,909,563 and liabilities of $35,045,095. Though the number fell to 2,661 in 1915, the maximum of liabilities was reached in that year, being $41,162,321, against which there were $39,526,358 of assets.

Bradstreet's, in their estimate of failures for 1919, find that the total was 626, compared with 815 for 1918; the assets of the failing firms amounted to $5,104,534, and the liabilities $10,120,232. The figures compiled by Bradstreet's for Canada and for the United States, classified according to causes, are given herewith. Another interesting analysis of failures according to the amount of capital, and according to the credit ratings, is also shown.
street's says:—

Commenting on the causes for the failures, Bradstreet's says:—

"Canadian failures in 1919 were 23 per cent. below 1918, less than one-fourth those of 1915, and the smallest yearly total there is record of. Liabilities were only $10,120,232, 18 per cent. below 1918 and less than one-third those of either 1915 or 1914. Personal causes of failure sought and found their fullest play in 1919, when 77.3 per cent. of all failures were charged to those causes, as against 72.8 per cent. in 1918 and 73.5 per cent. in 1917. On the other hand, non-personal causes accounted for only 22.7 per cent. of all failures in 1919, as against 27.2 per cent. in 1918 and 26.5 per cent. in 1917. Incompetence, with 20.1 per cent., fraud, with 8.9 per cent., unwise credits, with 2.6 per cent., neglect, with 2.4 per cent., and extravagance, with eight-tenths of 1 per cent., all found a relatively larger number of victims in 1919 than in the preceding year, where as lack of capital, with 35.8 per cent., inexperience, with 5.4 per cent., speculation, with 1.3 per cent., and among non-personal causes, specific conditions, with 20.9 per cent. of all failures, claimed a relatively smaller proportion of victims.

"While personal causes were responsible for 77.3 per cent. of all failures, they accounted for 87.1 per cent. of all liabilities, which was a larger proportion than in either 1918 or 1917, when the proportions were 83.5 and 83.4 per cent., respectively. Lack of capital, with 45.5 per cent. of all liabilities, and fraud, with 21.3 per cent., showed a large increase over 1918, when the proportions were 30 and 5 per cent., respectively. On the other hand, incompetence, with 13.1 per cent. in 1919, against 33.8 per cent. in 1918, speculation, with only 2.4 per cent., against 9.4 per cent. in 1918, and specific conditions, with 11.5 per cent. in 1919, against 14.9 per cent. in 1918, produced a smaller relative quantity of liabilities."

MANITOBA WILL SUPPORT RURAL BANKS

New Legislation Planned to Enable Societies to Compete with Banks in Accepting Deposits as Well as Making Loans

REPORTS of the recent rural credits societies' convention in Winnipeg indicated that the arrangement between the banks and the societies was working fairly well. More recent announcements indicate that this is not the case, and the banks, as a matter of fact, have refused to continue to lend at six per cent. claiming six and a half per cent. as an equitable rate. The government of Manitoba proposes instituting a deposit system under the direction of the treasury department, in which persons will be able to deposit money, for which they will secure an interest rate of four per cent. per annum.

Meanwhile, the banks are financing the societies. As to the plans for a permanent arrangement, G. W. Prout, M.L.A., said a few days ago: "The deposit slips will be negotiable and the province of Manitoba will be behind them. Deposit offices will be opened throughout the province, and men will be secured to go through the country in order to secure the support of the people." Mr. Prout stated that the sum of $3,000,000 will be needed for the Rural Credits scheme during 1920 owing to the success of the act. Over $1,000,000 was used in 1919.

Maintains Discrimination Against Farmers

Agriculture should have money at the lowest rate, said Mr. Prout in an interview on February 25th. "A railway company," he said "cannot refuse to do business. It must carry passengers, and freight. It must charge similar rates to all shippers, and its rates are controlled by the government. The banks are in a similar position. They are public service corporations. They have received great privileges, and quite rightly. They must, however, as public service corporations, operate under certain well defined regulations. Having assumed responsibilities, they must discharge their function. They have not the freedom of a private individual. They must continue to do business. Their charges must be uniform for similar services, and their rates are subject to review. No railway company is allowed to take advantage of the exigencies of the public in the matter of rates, and the banks are under a similar restriction.

"In this matter of the rate of interest to be charged to rural credit societies, there is a great principle involved. This principle may not have been clearly understood and appreciated here, but it is clearly appreciated and understood in every country of Europe. It is this principle, that agriculture being the basic industry of the country, on which all others are dependent, it is entitled to money at as low a rate as any other industry. In Canada there has been in the past years bitter dissatisfaction in the rural districts, and part of that dissatisfaction is due to the fact that a much higher rate was charged the farmers for money than was charged to big and prosperous corporations. This is absolutely contrary to the principle laid down in Europe a hundred years ago that the food producer must have money at the lowest rate quoted to any borrower. People in Canada who have any interest in this matter, ought to acquaint themselves with the system which obtains in France, under which enormous sums are furnished through co-operative borrowing organizations to French peasants from the bank of France, where extraordinary arrangements are made to meet this great need.

"Up to the present, the banks have shown much cordiality to the rural credits movement. Branch managers in all parts of the country are desirous of co-operating in the movement, and have been of the greatest assistance to it. There are, however, certain fundamental facts which must now be faced, and certain principles for which a fight must be made, and we hope that this discussion will be carried on in the best spirit."

Convention Refused Increase

"With reference to the present situation, I may explain, that we held last month in the city an important conference of the directors of the rural credit societies, which was attended by several hundred of the leading men of the province. In connection with this convention, a committee from the rural credit societies met the bankers of Winnipeg and discussed the interest rate. After the conference, the members of the committee reported to the convention un-

favorably to an increase in the rate from six to six and a half per cent. The bankers did not indicate to the convention that they would not carry on, but since that time practically all the banks have notified the societies that they would not grant any further credits at the rate of six per cent. The government is not able to intervene directly, owing to the fact that the rural credit societies are not government institutions, but self-governing bodies, operating with some government support. It is necessary to secure their consent to an increase in the rate. The banks have suggested that the government should unconditionally guarantee all loans, but this the government declines to do, and it is probable that the government will ask for power to take deposits."

Banks Think Rate Too Low

The banks' side of the story is given by Vere C. Brown, western superintendent of the Canadian Bank of Commerce, in an interview with the "Manitoba Free Press" on February 26, Mr. Brown said:—

"From the very beginning the banks have protested that six per cent. was too low a rate for credits of small amounts—whether to farmers or any other borrowing class. However, because they felt that these societies could be made to render valuable service, particularly in the newer districts, in extending credit to struggling settlers who could not borrow from the banks owing to the Exemptions Act, they waived discussion of the rate of interest for the time being and gave their hearty co-operation to the movement, and their country managers have rendered invaluable assistance in the practical management of the societies.

"This was all done in the expectation that the unfairness of the rate would be recognized by the government in good time and a proper adjustment made. The matter is one which each bank must decide for itself, but under existing monetary conditions, a rate of seven per cent. for loans to members of Rural Credit societies would be recognized by any well informed person as eminently reasonable, and it is not likely that many of the banks will be willing to supply money at a lower rate. A number of the banks, however, with numerous country branches, have offered to lend the necessary money to the government direct at six per cent., if the government would prefer to relieve the banks of the labor and responsibility entailed in putting through a multitude of loans to individual members of the societies.

"In no country is the rate of interest determined by the nature of the occupation in which a borrower is engaged The rate of interest is always governed the world over by such considerations as: the financial strength of the borrower, the quality of the security afforded, and the size of the loan. The time, trouble and expense involved in handling ten farmers' loans of $1,000 each is much greater than even ten times that connected with one loan of $10,000 to a commercial customer. Moreover, to compare rates prevailing in the old, densely populated, intensively cultivated and rich agricultural districts of the best countries of Europe, with those prevailing in a new and sparsely settled country like the prairie provinces, is manifestly absurd."

Purpose was to Strengthen Credit

"The object of the societies as enunciated at the outset was to provide credit for struggling settlers whose financial position was not such as to enable them to obtain credit from the banks. In many of the newer districts of the northern portion of the province, the societies have reached a large number of small settlers in remote districts who could not be helped by the banks, and here the societies have done a splendid work. In the last year or two, however, a large number of societies have been organized in old-settled parts of the province, where the farmers were already getting all the credit they required from the banks; and in some cases 90 to 95 per cent. of the business done by the societies consists of loans to farmers formerly carried by the banks. In this way the banks were being called upon to supply the societies with money at six per cent. in order that the societies might loan it to former customers of the banks at one per cent. below the rate charged by the latter.

"If the people of the province of Manitoba approve of their government entering into competition with the banks in the matter of farmers' floating credits, the banks could not, of course, offer any objection. But no fair-minded individual would expect the banks to supply the money with which to enable the government to so compete, at a rate of interest below the market value of money. What the struggling small farmers in the newer portions of Manitoba require, is credit—intelligently dispensed credit—at a rate of interest neither unfairly high, nor unfairly low.

"My own personal opinion is, that if the Rural Credit societies could gather deposits, paying a higher rate of interest than the banks, and could then afford to re-lend the money at a lower rate, it would simply mean that the service now rendered by the branches of chartered banks at the small villages throughout the province is unnecessary, and that the establishment of branch banks at the smaller country points constitutes a mere economic waste. I do not believe this is true, but, if it is, I feel sure the sooner it is demonstrated, the better pleased bankers generally will be. One of the most important safeguards connected with the Rural Credit societies up to the present time has been the assistance and co-operation of the country bank managers. If, however, the government decides to develop Rural Credit societies, not as an adjunct of the banks to reach the smaller men of slender capital and credit, but to serve as active competitors for banking business, the experiment will be one meriting careful observation by the community at large."

ÆTNA LIFE INSURANCE COMPANY

Assets of $163,097,712 are shown in the seventieth annual statement, for 1919, of the Ætna Life Insurance Co. This compares with $149,788,100 at the end of 1918. The principal assets are: Stocks and bonds, $67,935,420; mortgages on real estate, $61,731,650; loans on policies, $11,926,649; and cash, $7,768,435. The life insurance in force totals the enormous sum of $892,676,309, and in addition to life and group life insurance the company also writes accident and health, liability and workmen's compensation insurance. The reserve on life, endowment and term policies totals $114,592,915, and unearned premiums on accident, health and liability insurance total $6,304,465. Other reserves total several millions of dollars, and, after making full provision in this way, there is a surplus to policyholders of $17,455,272, consisting of caiptal, $5,000,000, and surplus, $12,455,272.

Premiums for 1919 were $44,988,355, and interest, rents, etc., $8,405,270, making a total of $53,303,626. Payments to policyholders were $24,214,809; expenses and miscellaneous disbursements, $8,738,765, and commissions to agents, $3,001,030. The Ætna Life's chief agent for Canada is T. H. Christmas, of Montreal. At the end of 1918 it had over $30,000,000 of business in force in this country, and premium income for 1918 was $968,015.

Æmilius Jarvis and Co. have sold their office building at 103 Bay Street, Toronto, for $225,000. The purchaser, whose name is not announced, is to take possession August 1st.

Natural gas companies serving Windsor, Ont., and district have applied for franchise amendments permitting them to charge 60 cents per thousand feet during the summer. This is a large increase over the present rates, and the municipalities are opposing it.

The following officers have been elected for the Georgetown, Ont., Chamber of Commerce for 1920: President, L. E. Flack; vice-president, J. M. Moore; secretary, W. F. Bradley; treasurer, H. B. Mimms; council, R. B. Foulis, F. A. Harley, H. Corke, G. C. McKay, J. A. Willoughby, J. B. Mackenzie and C. B. Dayfoot.

1919—The Northwestern's Greatest Year

BEATS all records of Canadian Life Assurance Companies at the same age

Applications for 1919 Total Nearly a Million and a Quarter Dollars

ASSETS PASS THE HALF MILLION MARK
TOTAL RESOURCES NEARLY A MILLION AND A HALF DOLLARS

DIRECTORS' REPORT

To the Shareholders of
The Northwestern Life Assurance Company:—

Your Directors take pleasure in submitting their report covering the operations for 1919, your Company's most successful year.

Closing of Business Year—In accordance with a resolution of the Board of Directors the books of the Company were closed on December 15th to enable the Auditor to produce his report at an earlier date than in the past. This year's report, therefore, covers eleven and a half months of business operations.

New Business—Applications received amounted to $1,147,000.00. After deducting declined and postponed applications as well as a large amount carried over into 1920 on account of closing the books on December 15th, the policies actually issued totalled $980,894.00.

The total business in force at the date of closing the books was $1,874,994.00.

Assets—The cash assets of the Company show an increase of $96,318.80 and now amount to $430,354.12. Assets of all kinds, including balances on stock in course of collection show an increase of $105,057.50, and now amount to $504,003.52.

Liabilities—Liabilities to the public amount to $338,720.91, an increase of only $64,523.79 as against the large comparative increase in assets shown above.

Investments—Our investments now amount to $371,593.49, an increase of $84,268.22. The average interest return is 5.76%. The Company still maintains a conservative policy in this respect. Practically every dollar of these could be liquidated on short notice.

Income and Expenses—The Company's income as per revenue account amounted to $137,005.56, while total expenditure, including death claims, was only $58,861.81, showing a surplus over all expenditure of $78,143.75.

Mortality—Death Claims were again extremely light, amounting to only $8,500, and one claim for $1,000 carried over from the previous year. This indicates most careful selection of risks on the part of our medical examiners and Chief Medical Officer, Dr. Lenahan, and also indicates that the heavy mortality expected on account of risks being impaired by the "flu" has not materialized.

Reserves—Our Reserves for the protection of policyholders are still on the highest basis of any Canadian Company. These now amount to $147,133.32,. being $16,200.32 greater than the reserve required by the Dominion Government.

Total Resources—The Company now has total resources for the protection of policyholders amounting to $1,458,378.12, an Increase of $683,006.64.

Audit—The Company's books have been regularly audited by W. G. Sanburn, C.A., and the reserves are certified to by C. C. Sinclair, F.A.S.

Directors—Your Directors continue to serve without remuneration. They retire annually and are eligible for re-election.

Representatives and Employees—The Directors, in recognition of the faithful and efficient service of the office staff, presented each employee with a Christmas bonus, and we are now making provision for a Group Assurance scheme for both Office and Field Staffs.

Presented on behalf of the Board of Directors.

To the Honourable,
The Provincial Treasurer of Manitoba,
Winnipeg, Manitoba.

29 January, 1920.

Sir:—

In accordance with Order-in-Council No. 24740, by virtue of which I am appointed Auditor of the Accounts of the Comptroller-General of the Province of Manitoba, I beg to report that I have conducted a periodical audit of the Books and Accounts of the Comptroller-General for the fiscal year ending 30th November, 1919, and hereby certify that the attached Balance Sheets, (Capital, Current, Deferred and Trust) are in accordance therewith as at that date.

The Accounting work of the Comptroller-General's Department, involving the verification by the respective auditors appointed for that purpose of all receipts and disbursements, and the correlating of the whole transactions in the Comptroller's Books, continues to be carried out in the same manner as in the previous years.

There have been produced for our inspection the Securities representing the Investments, and these were found to be in order. The Cash in Banks was verified by Certificates obtained from the Bankers.

I further beg to certify that in my opinion the attached Combined Balance Sheet is properly drawn up so as to show a true and correct view of the financial position of the Province as at 30th November, 1919, as shown from the Books of the Comptroller-General.

I have the honour to be,
Sir,
Your obedient servant,
JOHN SCOTT,
Chartered Accountant.

ST. LAWRENCE WATERWAYS DEVELOPMENTS

Objections from New York State—Ontario Expects Much Hydro-Electric Power to be Developed

PLANS for the deepening of the St. Lawrence are rapidly taking shape. They include also the development of considerable water power. It is felt in New York state, on the other hand, that this would deprive the canals there of considerable traffic. A report of Edward S. Walsh, state superintendent of public works, to be issued shortly, will contain a warning of this kind, he says. The particular point emphasized is that large lake vessels might go right down to Montreal, instead of stopping at Buffalo to transfer their cargo to the New York route. The report will declare that the state barge canal is adequate to the needs of the commerce of several coming generations and it will add: "No benefits, however, may be derived from it so long as the public interest is diverted from it and public enthusiasm chided by the injection of chimerical schemes designed wholly to discredit the system and to discourage its use, having their inception with interests who have every reason to fear the effects of its successful operation." It will further say, that the "State of New York, in the protection of its waterways improvement and of the commerce of the port of New York must take vigorous action opposing any further movement in Congress that has for its purpose the appropriation of funds from the treasury of the United States for the development of international waterways competitive with its canal system."

Municipalities in eastern Ontario are already being organized into an Eastern Ontario Hydro Union, to encourage the development and distribution of power. At a meeting of the executive committee of this union held in Brockville, Ont., on February 25, the following resolution was passed:—

"It having been intimated by wire from the Hydro Power Commission that the International Joint Waterways Commission is coming to hold meetings in Buffalo and eastern Ontario to gather information regarding the power possibilities of the St. Lawrence River, to improve resources, commerce and industry; therefore, be it resolved that the members of the Eastern Ontario Municipal Power Union take the necessary steps to organize the townships of eastern Ontario for the following purposes:—

"1. To set forth in documentary form what practical benefit will be derived in each township. 2. What benefit eastern Ontario will derive. 3. To what extent the whole province and whole Dominion may be affected. 4. To appoint delegates to attend a joint meeting of all municipalities, boards of trade and councils of the municipalities of eastern Ontario at a place to be decided upon later."

GUELPH FINANCIAL INSTITUTIONS' PROGRESS

The financial reports of the Guelph and Ontario Investment and Savings Society and the Guelph Trust Co. for the year 1919 show that these two associated companies have had a very successful year. The net profits amounting to $143,770 made by the Guelph and Ontario are considerably larger than for the previous year and the $50,000 added to reserve makes that fund nearly equal in amount to the paid-up capital. The total assets of close to four and a half million are composed of first mortgages on improved real estate, specially selected government bonds and municipal debentures. The usual dividend of ten per cent. per annum has been paid on the capital stock and after writing off $9,321 from office premises account the balance of profit and loss carried forward is the substantial sum of $34,842.

The Guelph Trust Co. which is managed in connection with the Guelph and Ontario is filling a long-felt need in the city of Guelph and the surrounding country as is shown by the increasing demand for its services. The company is well equipped to perform the duties of executor, administrator, trustee, guardian, etc., also the management of property, collection of rents, interest and other revenue. The safety deposit department is also an important feature. The financial statement shows that the Guelph Trust Co. is making satisfactory progress.

The Hamilton Provident & Loan Society

The Forty-eighth General Annual Meeting of the Shareholders was held at the Society's Head Office at noon yesterday. Among those present were the following:

George Hope, Stanley Mills, W. H. Wardrope, W. A. Robinson, A. T. Read, H. W. Clarkson, Lieut.-Col. Wm. Hendrie, J. J. Greene, Dr. E. B. O'Reilly, W. A. Wood, F. H. Lamb, Andrew Clark, T. H. Crerar, J. McCoy, W. J. Barr, H. L. Roberts, D. M. Cameron, F. W. Gates, J. S. Whicher, W. J. Waugh, Jas. Dixon, G. E. F. Smith, E. G. Payne, Rev. Archdeacon Forneret, W. A. Stewart, J. P. Bell, R. Butler, Dr. Locheed, H. Brennen.

The net profits for the year, after deducting all interest due and accrued on borrowed capital, cost of management, and all other charges amount to $170,660.57.

AUDITORS' CERTIFICATE

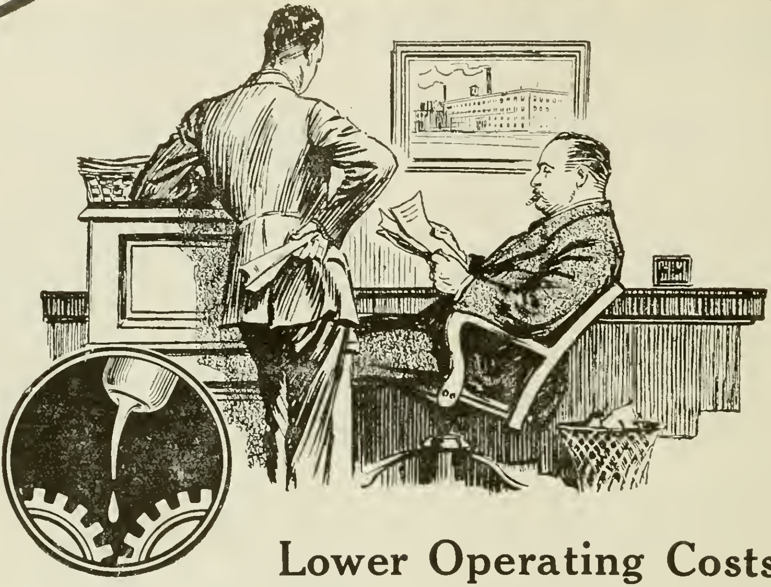
We have audited the accounts of Wm. A. Rogers, Limited (and Wm. A. Rogers, Limited, of California), for the year ending 31st December, 1919, and we certify that, in our opinion, the above Balance Sheet is properly drawn up so as to exhibit a true and correct view of the Company's affairs according to the best of our information and the explanations given us and as shown by the books of the Company.

We have received all the information and explanations we have required.

CLARKSON, GORDON & DILWORTH,
Chartered Accountants.

At the Nineteenth Annual General Meeting of Shareholders, held on March 2nd, 1920, the Board of Directors and officers for the ensuing year were elected as follows: S. J. Moore, President; W. D. Ross, Vice-President; R. E. Sage, General Manager; E. G. Baker, Secretary; Hon. W. Caryl Ely, Hon. Holland S. Duell, and C. W. Colby, Ph.D.



Lower Operating Costs

FACTORY owners, mill superintendents and production managers are daily becoming more and more interested in correct lubrication. They have found that correct lubrication means lower operating costs, smaller depreciation charges, fewer repair bills and increased production capacity.

Correct lubrication not only demands the use of high quality lubricants, but lubricants carefully chosen for their fitness to meet the needs of different mechanical operations and varying service conditions.

Imperial Lubricants are a complete line. Carefully formulated, tested and graded. In the list on the left is the proper lubricant for every type of machine.

Imperial Polarine oils and greases for automobiles and trucks; Imperial Kerosene Tractor oils and other farm lubricants and Imperial Household Lubricant for the home are standards of quality. From one end of the Dominion to the other, Imperial Lubricants lead in every field.

Imperial Lubrication Engineers will be glad to co-operate with your own mechanical engineers in making investigation and recommendations for the correct lubrication of your plant. Address us at 56 Church St., Toronto, or any of our branches.

INSURANCE LICENSES ISSUED

Many Companies Extended Business in February—Fire and Automobile are Most Popular Lines

INSURANCE companies still look upon the Canadian field as a promising one, at least for some lines, judging from the list of new licenses issued during the past few weeks. These are noted below. Dominion licenses have in almost every case been secured, many of the licenses being merely the extension of powers held by companies already doing business throughout Canada. Fire and automobile insurance seem to be the most popular lines:—

The Caledonian-American Insurance Co. has been authorized to transact in Canada the business of fire insurance. The chief agency of the company is to be in Montreal, and the chief agent is Mr. John G. Borthwick.

The Continental Insurance Co. has been licensed to transact in Canada the business of automobile insurance (excluding insurance against loss by reason of bodily injury to the person) in addition to the classes for which it is already licensed.

The Dominion of Canada Guarantee and Accident Insurance Co. has been licensed to transact in Canada the business of steam boiler insurance, in addition to the classes for which it is already licensed.

The Fidelity-Phenix Fire Insurance Co. of New York has been licensed to transact in Canada the business of automobile insurance (excluding insurance against loss by reason of bodily injury to the person) in addition to the classes for which it is already licensed. The company has also obtained a separate license to transact throughout the province of Quebec the business of fire insurance, tornado insurance, explosion insurance and automobile insurance.

The National Surety Co., of New York, N.Y., has been licensed to transact throughout the province of Quebec the business of guarantee insurance, burglary insurance, and forgery insurance.

The National Benefit Assurance Co., Ltd., of London, Eng., has been registered to transact within the province of Quebec the business of fire insurance.

The Continental Insurance Co. of New York, licensed to transact throughout the province of Quebec the business of fire insurance and explosion insurance, has been authorized to include the business of automobile insurance.

The Continental Casualty Co., of Hammond, Ind., has been registered to transact within the province of Quebec the business of accident insurance, automobile insurance and sickness insurance.

CHARTERED TRUST AND EXECUTOR COMPANY

During last year the Chartered Trust and Executor Co. purchased the Guardian Trust Co., and the first annual report of the Chartered Trust since the merger has been issued, and naturally shows great increases in business. Net profit for the year was $48,368, as compared with $15,129. Total assets have grown to $4,924,099, as compared with $327,759, the principal difference being in the real estate sale agreements and other securities growing out of the acquisition of the other company, and amounting to $3,376,523. The company paid dividends amounting to $29,452, as compared with $13,332. The sum of $55,397 was transferred to rest account, and the balance at the credit of profit and loss at the end of the year was $1,183, as compared with $6,390. The capital stock of the company now stands at $446,862, as compared with $285,500. The rest account is $67,000, as compared with $28,840.

PUBLICATIONS RECEIVED

Foreign Exchange.—By A. C. Whitaker, professor of economics, Leland Stanford, Jr., University. D. Appleton and Co., New York. 644 pages, with index, $5. The subject of foreign exchange is one of the foremost topics of finance at the present time. Ordinarily, so delicately balance that their importance was not apparent, the foreign exchanges have recently been so upset that they are now one of the first considerations in foreign trade. This book sets forth clearly the principles of foreign exchange, illustrating them by means of practical examples. It provides ready answers to the banker's daily problems in this field, defines his business vocabulary, and furnishes quick and easy means of making promising bank employees in the foreign departments proficient in the subject A practical feature of the book is the number of forms, which are illustrated.

MONTREAL AND QUEBEC SAVINGS INSTITUTIONS

Returns of the Montreal City and District Savings Bank and of La Caisse d'Economie Notre-Dame de Quebec, submitted to the Department of Finance as at January 31st, 1920, on the whole, show few changes of importance. The statement shows that Dominion government demand deposits decreased from $1,777,800 in December to $1,329,977. Total assets of the two institutions are now $58,468,959, and total liabilities $53,568,288. The summary is given below:—

	CAPITAL		LIABILITIES								
	Capital Stock.	Capital paid up.	Dominion Govt. demand deposits.	Provincial Govt. demand deposits.	Other demand deposits.	Dominion Govt. notice, etc., deposits.	Provincial Govt. notice, etc., deposits.	Other notice, etc., deposits.	Poor Fund or Charity Fund.	Other Liabilities.	Total Liabilities.

News of Industrial Development in Canada

Increased Number of British Branch Plants in Canada — To Extend Those Already Located—Further Expansion in Pulp and Paper Field—Outlook for Steel Trade Good—Quebec Province Leading in the Manufacture of Textiles

THAT British manufacturers are closely watching the industrial development of the Dominion with a view to establishing branch plants or agencies here, is evident by the number of inquiries received and the ever-increasing work of the Canadian government and British trade commissioners. Of course, as has been pointed out from time to time, the number of British plants can never equal that of our neighors immediately south, but it is certain that the development of British capital in this direction will be on a larger scale than hitherto. There was recently opened in Brantford a branch of J. and J. Cash, Inc., of Coventry, England, manufacturers of cotton labels. At Lachine, Que., there is now being completed a plant for the manufacture of wire rope, a branch of B. K. Morton and Co., Sheffield, England, which will be operated under the name of the Anglo-Canadian Wire Rope Co., Ltd. Development by British capital, however, is not confined to the establishment of new industries. Several of the older plants are being extended. Two large buildings are being added to the soap factory of Lever Bros., Ltd., Toronto, in order to increase the capacity. The Dunlop Tire and Rubber Co., Ltd., are erecting a new factory on Queen St. E., to enable them to enlarge their output of tires. The Canadian Hart Accumulator Co., Ltd., St. John, Que., manufacturers of storage batteries, are doubling the size of their plant.

The enterprise of the British-America Nickel Corporation, a project fostered by the British government and launched during the war, is another important development. It has involved the erection of Nickelton, near Sudbury, Ont., of an immense smelter, and at Deschenes, near Hull, Que., of a large refinery. The work of construction has reached the point where trial runs have been possible, while actual commercial operation will shortly commence.

Another British industrial undertaking involves the manufacture near Buckingham, Que., of graphite product. Started in 1910, progress was stopped at the outbreak of war, and, while various attempts were made to complete the plant during the course of the war, it was not until June of last year that any real advance was made. A new company, the Quebec Graphite Co., Ltd., with headquarters in London, was organized, the plant completed and various products will soon be put on the market. The coming of Bovril, Ltd., to Canada, is also an outstanding event. This company has recently acquired land on the outskirts of Montreal, where it will build a model plant on the lines of its English factory. This will be erected in units, the first consisting of five stories, containing 25,000 square feet being now under erection. It will be producing Canadian-made Bovril by the summer.

Pulp and Paper

During the past week many important announcements have been made in connection with the pulp and paper field. Negotiations are under way for the purchase of a block of power from the hydro-electric to operate a fifty-ton pulp mill to be located at Port Arthur, Ont. The mill is to be financed by Canadian and American capital with an additional unit of a paper machine. The location of the mill will probably be on the site formerly occupied by the Prince Arthur Wagon Works.

It is understood that the Abitibi Power and Paper Co. is again operating at about full capacity, having repaired the broken middle dam. According to figures covering the early part of February, the plant has established a new high record in producing 255½ tons of newsprint in twenty-four hours. It is stated that during the first week of the month, the output amounted to 1,484 tons of newsprint, the average not being far below the highest day's record which was established on February 4th. Taking into account the large volume of orders booked ahead, the reasonably adequate supply of workmen and the high degree of co-operation between the company and the employees, that the year 1920 will probably far exceed the output during any previous year in the history of the enterprise.

A new $50,000 sawmill will be erected in the spring near Timmins, Ont., by the Ontario Tie, Timber and Construction Co. Machinery for the plant has already been ordered. It will be one of the finest sawmills in the north and will be erected on the old Helstrom farm. This lumber company, which was formerly Bourke, Lindsay and McCluskey, is doing an immense business and one item alone of the winter output will be 600,000 ties. They have recently taken over a timber limit up the river from Timmins.

Iron and Steel

The outlook for the steel industry seems brighter. The Nova Scotia Steel and Coal Co. has secured an order representing in value about $3,000,000 from the Dominion government. It is for 500 box cars and 500 other cars for general purposes. Other orders are being received by the company, and the prospects are that that concern will do an exceptionally large business this season. It is also announced that the Dominion Iron and Steel Co. is offered more orders than it is in a position to fill.

R. J. Magor, president of the National Steel Car Corporation, Ltd., of Hamilton, which plant he recently acquired, states that they have secured a $3,000,000 order for 1,000 standard 40-ton box cars from the Canadian National Railways. Mr. Magor says that although this is a big order, it will represent only a few months' work, considering the capacity of their plant. He is of the opinion that unless the other Canadian railway companies place all their car business in Canada, the car companies will be unable to operate to their limit.

"The car manufacturers," said Mr. Magor, "will have to secure large foreign orders besides the Canadian business to enable them to give employment to the thousands of men whom they are capable of employing, as well as to buy the quantity of materials from other Canadian industries entering into the construction of railroad equipment."

Textiles and Rubber Products

Two new textile industries will soon be located in the eastern townships of Quebec, in addition to the Dominion Textile Co., Penmans, Ltd., and the Canadian Connecticut Cottons Co., with a program involving the expenditure of about $2,000,000. One company, the name of which is not known, is erecting a plant at Drummondville, and the Canadian Manhasset Cotton Co., Ltd., is building at St. Hyacinthe. The latter company is a subsidiary of a large textile concern which is now operating successfully in the United States.

In the manufacture of rubber products, two new companies have been formed. The Imperial Rubber Products Co. has been organized and will proceed immediately to build a factory at Stratford, Ont., for the manufacture of hot water bottles, rubber gloves, dolls and similar rubber products.

The Lion Tire and Rubber Co., a recently incorporated concern, has purchased a block of land fronting on the north side of the Toronto-Hamilton highway, New Toronto, Ont., and will build a plant which will be utilized chiefly for the manufacture of cord tires.

Two or three announcements have been made recently regarding the automobile trade. Walkerville, Ont., will have

a new motor truck industry in the near future, in the Gotfredson, Joyce Corp., Ltd., which will take over the Gramm plant on the Walker road. The corporation has a large capitalization and will distribute a new two and a-half-ton motor truck, on which their engineers have been working for some time. Benjamin Gotfredson is the president, and Robert Gotfredson the vice-president of the new concern. The secretary-treasurer is Frank H. Joyce.

All buildings on the Indian Reserve property, Sarnia, Ont., purchased last fall by the Wills-Lee Auto Corporation, for the building of their $3,000,000 Canadian branch plant, will be moved or torn down in order that the corporation may begin active building operations with the advent of mild weather. According to an official statement, the Wills-Lee plant, when completed, will be the largest in Canada, and plans are now being formed for a number of subsidiary companies to locate near the auto plant.

The General Top Co. of Canada, Ltd., capitalized at $300,000, has taken over the plant of the Curtiss Airplanes, Ltd., at 163 Dufferin St., Toronto, which, prior to being taken over for war work, was occupied by the Toronto Furniture Co. At this plant standardized Art-craft auto-tops will be manufactured. The officers of the new company are: R. C. Kilgour, president; L. W. Lee, vice-president; W. L. Cowan, secretary-treasurer and H. A. Kent, sales manager. Messrs. Kilgour and Cowan are, respectively, president and general manager and treasurer of the Ontario Motor Car Co., Ltd., of Toronto, Packard distributors.

The shareholders of the Carriage Factories, Ltd., have approved of the plan of the directors of the company to sell the premises occupied by the Heney Carriage and Harness Co., in Montreal. The purchase price is stated as $250,000.

1870 —— OUR GOLDEN JUBILEE —— 1920
The Mutual's Wonderful Year

"Nineteen-nineteen" will stand out for all time as a conspicuous landmark in the forward march of the Mutual of Canada. In amounts paid to policyholders, in assets, in new assurances written, in assurances in force—splendid increases were recorded. Nineteen-twenty bids fair to eclipse last year for the demand for Mutual policies is insistent. "The reason why" is no mystery. Fifty years of just and generous dealing lie behind the immense demand for Mutual protection. The Mutual has disbursed $29,981,000 to beneficiaries and holds to guarantee future payments $37,689,000—in all $67,668,000—either paid to or held for beneficiaries. All assets including surplus being exclusively the property of our policyholders.

Who Takes the Chances?

Who runs the risk when the breadwinner neglects to secure the protection of Life Insurance for those dependent upon him?

Not himself surely, but those for whom it is his duty to provide run the risk of his untimely death.

Whatever chances a man may rightly take for himself, there can be no excuse for subjecting others to a risk against which they cannot guard.

The Great-West Life Policies offer all that can be desired in Life Insurance; low rates, high profit returns and the safeguard of careful, conservative management.

NEWS OF MUNICIPAL FINANCE

Western Cities Consider Civic Income Tax—Finances of Haileybury in Poor Shape—Moncton Bonded Indebtedness Now Over $1,500,000

New Westminster, B.C.—The council has appointed Alderman Keary to discuss a civic income tax with the provincial government.

Hamilton, Ont.—The Board of Control has appropriated $50,000 to pay for the sum lost on payments on debentures payable in New York, owing to the unfavorable rate of exchange.

Saskatoon, Sask.—The total school estimates reach $448,000 after deducting $40,000 for penalties and other sources of revenue. The city's portion of this is approximately $434,000.

Haileybury, Ont.—The municipality has an ovedraft of $25,000. Records also show $28,000 due in unpaid taxes, and a motion was passed, authorizing the bailiff to collect under distraint, and failing this, by suit. Indications are that conditions are serious, and that this year's expenditure will of necessity be exceedingly low.

Vancouver, B.C.—The civic taxation conference was closed last week with the decision to abandon the plan of presenting a detailed income tax scheme to the provincial government. It was finally decided to ask the government to broaden the scope of its income tax and to give the city an unstated portion thereof.

Moncton, N.B.—At a meeting of the city council on February 24th, City Auditor Carter submitted a statement of the city's financial position. The statement shows that the tangible assets are $1,405,910, and the actual direct liabilities are $1,245,353. During the year $10,500 of bonds have been redeemed. The bonded indebtedness of the city is now $1,795,170.

Saskatoon, Sask.—At a recent meeting of the finance committee, Commissioner Yorath reported that the amount of the bank loan of the city now stands at $449,550; cash in sinking fund, $4,517; cash in debenture account, $72,419. The estimated expenditure of the city for March was reported as follows: $154,971, which included $123,566 debenture interest due on April 1st.

Brandon, Man.—The proposed civic income tax bill, which was to have been presented at the present sitting of the legislature, will be withdrawn immediately by the city council, in view of the proposed legislation of the province on income tax. Many citizens, although they agreed that the principle of the tax was sound, they felt that it would not be advisable for Brandon to have an income tax and the rest of the province be without it.

Toronto, Ont.—The waterworks department reports a surplus of $533,827 in 1919. Receipts were $2,619,551, and expenditures $2,085,724. Receipts for 1919 were more than double the 1914 figure, and it is estimated that the amount for 1920 will be around $3,000,000.

Before the city assessors started on their annual assessment on March 1st, Mayor Church, in an address, urged that there should be more equitable assessment. "The smaller residential districts have been assessed anywhere from 70 to 80 per cent. of their value, whereas many of the better districts were only assessed for one-third of the price of recent sales, or 30 to 40 per cent. of their value," he said.

Brockville, Ont.—The city's tax rate this year will be 37 mills. The school rate is 14 mills.

COBALT ORE SHIPMENTS

The following were the shipments of ore, in pounds, from Cobalt Station for the week ended February 28th:—

La Rose, 78,057; McKinley-Darragh, 106,850; Hudson Bay, 60,646; O'Brien Mine, 64,040. Total, 309,593. The total since January 1st is 2,622,375 pounds, or 1,311.18 tons.

ALBERTA INDUSTRIAL DEVELOPMENT ASSOCIATION

The annual meeting of the Alberta Industrial Development Association was held in Edmonton on February 15, delegates from various parts of the province being in attendance. It was announced by J. L. Cote, provincial secretary, that a department of research would be opened shortly by the University of Alberta. The president, M. A. Brown, reviewed the organization and work of the association, and outlined some of its objects.

MORTGAGE CORPORATION OF NOVA SCOTIA

The financial statement of the Mortgage Corporation of Nova Scotia, Halifax, for 1919, shows that interest on mortgages, etc., totalled $73,961, compared with $67,285 in 1918. After paying interest on debentures and bank overdraft, $15,245; interest on deposits, $1,493; expenses of management, $11,787, and other items, $15,000 was carried to reserve and $29,192 paid in dividends. The balance sheet now shows further strengthening in the company's position. Assets total $1,303,385, compared with $1,280,754 at the end of 1918. The principal assets are: Capital unpaid, $358,246; mortgages on real estate, $956,391. The liabilities side shows capital subscribed, $865,900; debentures, $270,048; deposits, $38,086; owing to banks, $16,514; reserve fund, $125,000. Both deposits and debentures showed a small increase for the year.

At the annual meeting of the company, held on February 18th, the following directors were elected: President, R. H. Brown; vice-president, F. U. Anderson; managing director, Alfred Whitman, K.C., A. H. Whitman and Andrew McKinlay.

EMPLOYMENT CONDITIONS FAVORABLE

Reports from employers to the Dominion headquarters of the Employment Service of Canada, Department of Labor, indicate that, disregarding loss of time due to strikes, there was, as had been anticipated, an increase in the volume of employment for the week ended February 7th, as compared with the preceding week. There was also a substantial increase registered in comparison with the volume of employment afforded by the same firms for the week ending January 17th (the base week). The actual increase for the week ending February 7th was considerably larger than had been anticipated. Increases were registered in all the districts except the maritime provinces, that in British Columbia being the most substantial. With the exception of the prairie provinces and the maritimes, all districts expected to have increases for the week of February 14th, a slight increase on the whole being anticipated.

In comparison with the returns for January 31st, ten groups registered increases and six groups decreases. The groups registering additions were: Lumbering; clay, glass and stone products; chemicals; leather and leather goods; metals; textiles; woodworking; quarrying and mining; railway construction and railway operation. Those that showed declines were: Building and construction; commercial and mercantile; food, drink and tobacco; pulp, paper and printing; vehicles; and miscellaneous.

For the week ending February 14th declines were expected in building and construction; commerical and mercantile; lumbering; food, drink and tobacco; pulp, paper and printing; quarrying and mining; and railway operation. With the exception of the reduction in building and construction, these declines were all of a nominal character. All other groups anticipated having increases. In comparison with the figures for January 17th, the base week, three groups only reported reductions, building and construction; commerical and mercantile; and food, drink and tobacco. All other groups reported increases, those in metals, vehicles and textiles being especially noteworthy.

DEBENTURES FOR SALE

CITY OF MOOSE JAW

SALE OF DEBENTURES

Sealed tenders endorsed "Tender for Debentures," will be received by the City Commissioners up to noon of the 6th day of March, 1920, for any or all of the following issues of debentures of the City of Moose Jaw.

All debentures are on the Sinking Fund plan bearing interest at the rate of 5½% per annum, payable semi-annually.

(a) $16,000.00 debentures for repairs to Fourth Avenue Overhead Bridge, repayable at the end of ten years.

(b) $13,000.00 debentures for the purpose of building a Public Comfort Station in the City, repayable at the end of thirty years.

(c) $40,000.00 debentures for the purpose of carrying out extensions to the waterworks system at Britannia Park, repayable at the end of thirty years.

(d) $22,200.00 debentures for the purpose of building cement sidewalks in the City, repayable at the end of fifteen years.

Full particulars may be had on application to the City Commissioners. The highest or any tender not necessarily accepted.

S. A. HAMILTON,
Mayor.
GEO. D. MACKIE,
City Commissioners.

11th February, 1920. 83

STRASBOURG, SASK.

The Town of Strasbourg, Sask., offers $6,000.00 6½% concrete sidewalk debentures, repayable in fifteen equal annual instalments of principal and interest combined, bearing an annual repayment coupon of $638.12.

SYDNEY L. A. SMYTH,
Town Clerk.
95

THE CONTINENTAL CASUALTY COMPANY having just entered Canada and opened an office at 47 King West, Toronto, is open for applications from men of influence who want to get into the most independent business of to-day, namely, the accident and health insurance business. Premiums annual, semi-annual, quarterly and monthly. A. T. Barlow, supervisor. 93

Government and Municipal Bond Market

Prices Stiffened as Result of Restrictions but Market is Still Very Uncertain —Greater Winnipeg Water Bonds Sold—Quebec City Arranging Loan in New York—Many Municipalities Have Large Borrowing Programs to Complete

WHILE most bankers and brokers accept the restrictions placed on the importation of securities as being in the best interests of the country, and are conforming to the request of the finance minister, his action has been the object of keen criticism, and some brokers show a disposition to continue this class of business.

Local committees formed for the purpose of carrying out the agreement have issued specific requests to the financial institutions concerned. In Montreal, the committee, which is composed of H. B. Mackenzie, chairman, Edwin Hanson and Edgar M. Smith, representing the banks, bond dealers and stock brokers respectively, asked that firms and banks agree: (1) To decline any orders to sell securities not now held in Canada. (2) Not to handle or participate in foreign loans in Canada. (3) Not to handle or participate in the issue of securities in Canada for non-essential purposes.

Reasons for Minister's Action

Sir Henry Drayton explained his reasons in an interview with the Montreal "Gazette," while in Montreal over the week end discussing the situation there. Sir Henry said:—

"Owing to the fall in the value of the pound sterling on this side of the Atlantic a large quantity of Canadian securities held overseas have been dumped on the Canadian market. The securties sold are, for the most part, not direct government obligations, but many of them are guaranteed by the Dominion and provincial governments. These outstanding obligations, whose absorption or liquidation ought to be temporarily stopped, represent to a large extent the working capital of the country. They include the obligations of our municipalities, railways and industries. After extended conferences with bond dealers, stock brokers and bankers, it has been determined that the sale of the securities held overseas on the Canadian markets must be discouraged and, so far as possible, stopped. Effective steps for this purpose in the direction of the financial channels through which such transactions take place have been taken. This action is not taken through any compelling law, but is wholly induced by a commonsense recognition of the business requirements of the country. The purchase of these long-date obligations, in addition to taking essential capital out of the country, as settlements are made on New York still further depreciates the value of the Canadian dollar there and renders still more difficult trade with the Untied States and the discharge of our obligations in that market."

The following extract was quoted by Sir Henry from the "Financial News" of London, as being a favourable British viewpoint: "The action dictated by the needs of the moment is not short-sighted and should have no adverse influence in the future on Canadian issues. It is designed to protect Canada from any aggravation of the exchange situation with New York and to check speculation for exchange profits and retain money for home requirements."

Information Should be Made Known

W. L. McKinnon, of W. L. McKinnon & Company, made the following statement to the Toronto "Globe" on Monday: "The restrictions against the importation of securities are wise. The co-operation of the brokers is wise. But one small group of brokers should not know everything that is going on, when the balance of the brokers are kept in the dark, especially when all the brokers are supposed to co-operate."

F. J. James, of Nay & James, Regina, said in an interview on February 27:—

"Perhaps the minister of finance may be authorized by the government to exercise discretionary powers. Undoubtedly, English investors in Canadian securities will feel very strongly on the subject, as this embargo will, I should judge, practically close their market for the sale of bonds of Canadian municipalities, as very few securities of this character are marketed elsewhere.

"The drop in the prices of Canadian war loans, as announced on Monday last, to my mind, seems to indicate that Canada's finances need careful handling, and the task before Sir Henry Drayton is by no means a light one. Any man who can afford to hold his Victory bonds has as good an investment as he ever had, and, in cases where he has to sell, while no doubt it is disappointing to have to get rid of his bonds at a lower figure than he had to pay, the shrinkage is comparatively light in comparison with the depreciation in other securities.

"As far as foreign securities are concerned, there are, undoubtedly, many of these which might be left in the countries of origin for some time at least. It is only a short time ago since we read of a meeting in London, England, of the Grand Trunk shareholders, called for the purpose of obtaining their consent to an arrangement to be entered into with the Canadian government on the latter's terms. Some of the shareholders expressed themselves very strongly and, I imagine, there will be very little likelihood of any of them becoming investors in Canadian enterprises for some time at least.

"Financial newspapers of London will, probably, comment on Canada's action in connection with this embargo, and will score us heavily; and another reason will, probably, be advanced for not sending money to this country for investment. If it were possible, I should like to see some plan devised whereby English investors who purchased Canadian securities, believing that they would at all times have a free market, might receive a measure of consideration at the hands of our government.

"As previously indicated, I feel that it is somewhat early to pass judgment on the action of the government, and am looking forward to an official statement by the minister of finance. In the meantime, we can only assume that the action was taken in the interests of Canada as a whole."

Bond Market is Stronger

Although the action of the Dominion Government towards preventing the import of further amounts of securities produced some effect, the bond market can scarcely be said to be any stronger than it has been for some weeks past. It is well known that the supply cannot be entirely shut off, and a large number of dealers and brokers are opposed to any restrictions whatever. Municipalities are in the meantime waiting for a more dependable market before making new issues.

A statement by the Victory Loan special committee, having to do with the marketing of Victory bonds at the present time, was issued by Secretary R. A. Daly on March 3rd. Mr. Daly reports good progress in the marketing of bonds. His statement says:—

"In view of the discussion that has been taking place during the last ten days, following the reduction in price of Victory bonds, and the placing of the embargo on foreign securities entering Canada, it should be of interest to all holders of Victory bonds to know that since the above measures were put into effect the liquidation of Victory bonds has been very materially reduced. The demand for Victory bonds has correspondingly increased, with the result that during the above interval the committee's sales to the public have been substantially greater than their purchases from the public."

Municipalities which are contemplating borrowing to any extent are: Saskatoon, $993,000; Windsor, Ont., $1,200,000;

The Outstanding Advantage

of buying Government and Municipal Bonds to-day lies in the fact that the maximum of security is combined with high interest return. Present prices offer an income of from 5.65% to 7% on bonds of this class. We shall be glad to furnish a list of such bonds upon request.

Rurals, 15 years: Blarney, $2,500; Hurstbourne, $2,000; Lily Lake, $2,200; Smoky Lake, $5,000; Passchendaele, $2,500; Wellman, $4,000; Busby Park, $2,500; Champlain, $1,500; Pine Grove, $700. Villages, 5 years, $1,500; 15 years, $2,000. J. T. Ross, Deputy Minister, Edmonton.

Debenture Notes

Chatham, N.B.—A bond issue of $22,000 has been authorized. The maturity will be twenty-five years.

Langley, B.C.—A special election will be necessary to decide on the securing of $63,500 for school purposes.

Berwick, N.S.—Ratepayers have decided to borrow $5,000 for the completion of the electric light plant.

Windsor, Ont.—It is estimated that the city will need to issue debentures this year to the amount of $1,200,000.

Saskatoon, Sask.—Debentures will be shortly advertised for sale to the amount of $993,000 for local improvements.

Sydney Mines, N.S.—The town council will ask the authority of the provincial legislature to borrow $15,000 for fire purposes.

London, Ont.—The city's bill this year will contain requests for authority to issue more than $300,000 worth of debentures.

Trail, B.C.—The city council will, in the near future, place a by-law before the ratepayers to authorize the issuing of $80,000 7 per cent., 20-year debentures for a municipal building.

Wallace R. M., Man.—A by-law will be submitted to the ratepayers on March 17 authorizing the borrowing of $48,000 by debentures for bridges.

Sainte Rose R. M., Man.—The legislature has given power for the borrowing of $5,000 by debenture issue for the construction of sidewalks and other local improvements.

Westbourne R. M., Man.—A by-law has been introduced into the provincial legislature providing for the issuance of debentures to the amount of $130,000 for good roads.

Moncton, N.B.—The city council is asking for power to borrow the sum of $307,500, while the school trustees are asking for $200,000, which will mean an addition of over $500,000 to the bonded debt. It is explained that $278,000 of the proposed city issue is to cover the over-expenditure of last year and previously.

Winnipeg, Man.—The city will require to issue debentures to the amount of $2,790,000 this year. Acting-Mayor Fowler anticipates no trouble in getting the money, as the funds will not be needed until late in the year, when he hopes the market will be in a better condition.

Bond Sales

Ingersoll, Ont.—The sale of debentures locally to the amount of $120,000 is meeting with success.

Thorold, Ont.—Messrs. C. H. Burgess and Co. have purchased an issue of $7,832 6 per cent. 30-instalment debentures at 97.13.

Korah Township, Ont.—Messrs. Mackay and Mackay have purchased a $12,000 6 per cent., 30-instalment issue of debentures at 92.50.

Winnipeg, Man.—The offer of Messrs. Wood, Gundy & Company and the Dominion Securities Corporation to purchase $750,000 6 per cent., 10-year Greater Winnipeg Water District debentures at 87.25, payable in New York funds, and an option for thirty days on the balance of $1,250,000 at the same price, has been accepted. On the basis of the present rate of exchange, the commission paid 5⅞ per cent. for its money.

CONTINENTAL CASUALTY COMPANY PLANS

As already mentioned in these columns, the Continental Casualty Co. of Chicago, which recently secured a Dominion license and opened an office in Toronto, has appointed Jones and Proctor Bros., Toronto, chief agents for Ontario, and Dale and Co., Montreal, for Quebec. Warren Griffith, the company's superintendent of agents, is now in the west, making arrangements for the writing of business in Calgary, Winnipeg, Edmonton and Regina.

It is expected that Fred Alexander, who is a brother of H. G. B. Alexander, the president of the company, will shortly take charge of the office in Toronto. Meanwhile, A. T. Barlow, who is chief supervisor for the monthly pay accident and health department, is developing that branch of the business here. The casualty agents will not be under the supervision of any Canadian office but will report direct to Chicago. The Canadian office will not have charge of underwriting but will be used for bookkeeping, making reports to Canadian departments, receiving Canadian premiums and investing in Canadian securities.

YIELDS ON INVESTMENTS

The following table of investment yields of stocks and bonds has been compiled for *The Monetary Times* by Messrs. Morrow & Jellett, Members Toronto Stock Exchange, 103 Bay Street Toronto:—

March 3rd, 1920.

	Div. Rate	Price about	Yield about
Preferred			
Canada Cement	7	92	7.60
Canadian Locomotive	7	90	7.77
Canada Steamships	7	83	8.43
Dominion Foundries	8	103	7.76

Victory Loan, 1937	5½	101	5.41

STOCK MARKETS ADVERSELY INFLUENCED

Atlantic Sugar Still a Feature—National Breweries and Spanish River Also Active—Trading on New York Exchange Irregular

TRADING on the New York exchange during the past week was marked by irregularity. The return of railroads to their owners, caused a drop to lower levels in rails and railway equipment, while the announcement that the United States Steel Corp., was not a trust, and therefore need not dissolve, checked selling in the industrials to a certain extent. The revival of the railway stocks and bonds depends chiefly upon the announcement of the Interstate Commerce Commission, which is expected shortly in regard to the rates; and until then, the roads cannot with surety foretell the future.

On the Canadian exchanges Atlantic Sugar led in trading with total sales in Montreal, of 24,401, and in Toronto, 1,710. For the week ended March 3, the closing prices were 95⅞ and 96 respectively, an advance of five points in Montreal and six points in Toronto. National Breweries was fairly active with total sales of 9,091 in Montreal with small change in price. Spanish River common advanced 3⅝ on the Montreal exchange and 5¾ on the Toronto exchange, with total sales of 5,197 and 232 respectively. Preferred also advanced but with very little trading. In mining, Tretheway was active with 3,700 sales and Nippising 500 sales, with little change in price.

NORTHERN ONTARIO BOARDS OF TRADE

The annual meeting of the Timiskaming and Northern Ontario Boards of Trade was held in Cochrane, Ont., February 25. Complaint was made about damage caused by federal works at New Liskeard. The advisability of framing one definite policy of colonization for New Ontario for presentation to the provincial government was urged by Commissioner George Lee of the T. and N. O. Ry. in discussing a resolution proposing free financial assistance to settlers to enable them to stay on their farms and clear their land. A resolution which would force into the open market veterans' unimproved lots, held by non-residents for speculative purposes, was adopted, also one calling for the throwing open of the part of Gillies Limit still closed to the prospector.

ESSEX AND SUFFOLK TO ENTER CANADA

Intimation has been given that it is the intention of the Essex and Suffolk Insurance Society, Ltd., to establish themselves in Canada, and the necessary security has already been deposited with the government and application made for license to transact fire business in all parts of the Dominion. The company is one of the old English county companies, with head office at Colchester, in the county of Essex, England, and was established in 1802, so that it has now been transacting business in the Old Country for 118 years. The company transacts all classes of business there, except life, but it is the intention to confine its operations in Canada to fire business only.

The company will be under the management of Mr. M. C. Hinshaw, the manager of the Atlas Assurance Co., Ltd., of London, and he will be assisted by Mr. Ronald R. Martin, who has been appointed sub-manager for both companies. Mr. Martin has been for many years in the service of the Atlas, both as inspector and assistant at the head office, and his well-deserved promotion will permit of increased service being extended to the companies' agents throughout the Dominion. Arrangements have already been made for the establishment of the Essex and Suffolk business in the western provinces, Mr. C. E. Sanders, of Winnipeg, having been appointed as local manager for the prairie provinces.

MANITOBA'S REVENUE EXCEEDED ESTIMATE

Good Surplus Over Expenditure is Feature of Treasurer's Speech on Finance—Provincial Debt is Large—Exchange Rates a Difficult Problem

REVENUE of $8,986,076 and a surplus of $441,285 for the year ended December 31st, 1919, were announced by Hon. Edward Brown, treasurer of Manitoba, in the legislature on February 24th. The gross debt is $39,820,877, and the net debt $12,769,672.

Capital Expenditure and Borrowing

After dealing with general conditions, including the exchange situation, the treasurer entered into the details of the province's finances. Capital expenditures for the year had totalled $4,243,088, the strike preventing the government from overtaking all the program forehadowed. This was in addition to $206,751 expended on live stock purchase and sales, settlers' animals purchase, and conservation of cattle against which there had been collections amounting to $150,091. The loans raised during the year amounted to $4,836,277. The bonds had been issued at an average rate of 5.45 per cent. and the treasury bills at 5.28 per cent., perhaps the lowest of any government in Canada. With one exception, all had been issued at par, and the exception was a 15-year issue at 101.04 at 5½. One million of the issue had been at 5 per cent. at par. Unexpended capital balances were $1,790,997 at the close of the year.

Ordinary Expenditure

The estimates authorized an expenditure of $8,580,304. The actual expenditure had been $8,544,790. Eight of the twelve departments were under the estimates, and only two exceeded them greatly. The attorney-general's department excess of $65,500 was due to the strike, and the telephones to increase of wages and strike expenditure. It amounted to $108,750.

Conservative Policy Pursued

Referring to the general financial policy of the province, he said: "We have not embarked upon or given aid to any undertaking outside the legitimate functions of the government. We have not pledged the credit of the province to any undertaking of a private character, as the only guarantee of which has been issued under this government, outside of strictly government undertaking during our five years of office, has been for the benefit of the Winnipeg General Hospital, an organization which at least is of a semi-public character, doing a great work in the public interest."

The provincial treasurer foreshadowed the creation of an assessment board whose work would be the establishing of an equitable assessment, he said, for the whole province.

Details of Manitoba's present financial position will be found elsewhere in this issue.

DOMINION BUSINESS FAILURES

Business failures in Canada for the week ended February 27, 1920, compared with previous weeks, as reported by R. G. Dun and Co., are as follows:—

Date.	Ont.	Que.	Man.	Alta.	Sask.	B.C.	N.S.	N.B.	P.E.I.	**Total.**	1919.
Feb. 27th	3	1	0	0	2	1	5	0	0	12	11
Feb. 20th	4	7	2	0	2	0	1	0	0	16	16
Feb. 13th	2	2	2	0	1	0	1	0	0	8	21
Feb. 6th	3	6	0	0	6	1	2	0	0	18	12

Bradstreet's figure for the week ended February 26, was fourteen, all of which concerns had capital of $5,000 and under. For the corresponding week in 1919 the figure was nineteen, in 1918, twenty-one, in 1917, twenty-one, and in 1916, forty-six.

CORPORATION SECURITIES MARKET

Prospect for New Issues Not Very Bright in View of Present Artificial Situation—Considerable Trading in Outstanding Issues

VERY little change is visible in the market for industrial stocks and bonds, although during the past week considerable trading in outstanding issues has taken place. The prospect for new issues is not very bright, as it is felt that it would be dangerous to undertake issues on the strength of the artificial support given to the market by the government's action.

The offering of $160,000 7 per cent. Regina Trading Company's bonds, which are being offered to Regina citizens by Messrs. Bell & Mitchell, local brokers, is meeting with success. In discussing the sale of the issue, J. H. Mitchell pointed out that the selling of industrial debentures was a new departure in the west, and the present undertaking was something in the way of pioneering, the success of which would make any succeeding effort along this line much easier to carry through.

The Sunloch Mining Company, which owns property near Victoria on the Jordan River, proposes to issue $500,000 7 per cent. debentures for the purpose of installing a concentrator at the plant.

Shareholders of the Granby Consolidated Mining, Smelting and Power Company, Limited, have approved of the proposal of the directors to increase the capital stock from $20,000,000 to $25,000,000, and to issue bonds to the amount of $2,500,000. At the meeting held for the purpose of the ratifying of the new financing, it was stated that the new issue of stock would be held in the treasury, and shareholders would be given the opportunity of subscribing for the new 8 per cent. convertibles at par. An underwriting syndicate has been formed for the bonds, and officials of the company expect to get between 95 and 96 for the bonds not subscribed for by the shareholders. The bonds are convertible into stock at $55 per share, or two shares for $110 par value of bonds, and the proceeds from the sale of the bonds will be used to pay off some contingent liabilities.

Canadian Manhasset Cotton Issue

A private offering of $600,000 8 per cent. cumulative preferred stock of the Canadian Manhasset Cotton Company, Limited, is being made by Messrs. Nesbitt, Thomson & Company, at a price of 98, with a bonus of 20 per cent. common stock. A similar offering is being made by Messrs. Bodell & Company, of Providence, R.I., in the United States. The company has an authorized capital of $3,000,000, of which $1,800,000 is outstanding.

The Canadian Manhasset Cotton Company, Limited, which is a subsidiary of the Manhasset Manufacturing Company, of Taunton, Mass., is building a mill at St. Hyacinthe, Que., and will manufacture chiefly tire fabrics. Officers and directors have purchased the majority of the common stock of the Canadian company, paying therefor a very substantial amount in cash.

The Canadian Salt Company, Limited, whose works are at Windsor, Ont., with executive office at Montreal, has issued a circular to shareholders calling a meeting for March 10 next, to ratify increasing the capital stock of the company from $800,000 to $1,500,000 by the issuance of 7,000 shares at $100 each.

Messrs. Richardson, Sheppard & Thorburn, Toronto, are making an issue of $500,000 7 per cent. cumulative preferred stock of Loew's Windsor Theatre. The shares will be sold at par ($100) with a bonus of three $10 shares of common stock. Seating capacity of the new theatre will be 2,000.

Rogers Will Increase Capital

Shareholders of the Canadian Wm. A. Rogers, Ltd., at a special general meeting this week, decided to increase the preferred stock by $250,000 and reduce the common by the same amount. The capital will now consist of $750,000 preferred and $250,000 common. The shareholders have also approved a revised agreement with the William A. Rogers, Ltd., the parent company, the object of which was to provide further working capital for the Canadian company. As set forth by the president in the annual report to the shareholders of Wm. A. Rogers, Ltd., the revision is as follows: "A plan has been devised which will preserve to us the moneys paid out under the guarantee agreement. Up to date we have paid out a total of $175,000, which has been written off profits, and is not carried as an asset. Under the original agreement, these moneys could only be recovered within the remaining period of the agreement, namely, five years, and out of the annual surplus earnings of the Canadian company, over $25,000. Under the plan proposed, we shall receive $175,000 of 7 per cent. cumulative convertible preference stock of the Canadian company at once, and shall subscribe for an additional $75,000 of such preference stock at par, and shall surrender 2,000 shares of 2,500 shares of common stock of the Canadian company owned by us."

BANKERS' TRUST COMPANY'S FIRST ANNUAL

The annual meeting of the Bankers' Trust Co. was held at its offices in Montreal on Wednesday, February 25th. While the company has been in existence for a period of eight months, three of these were consumed practically in rounding out the organization details, leaving only five months of practical operation. No figures are available, but it is understood the results of these initial months' work have been satisfactory.

Lieut.-Col. Sir H. Montagu Allan, C.V.O., was elected president in place of K. W. Blackwell, who became vice-president. It was always understood Mr. Balckwell would retire from the presidency of the company at the end of the first year, as he only assumed that position temporarily and in place of Sir Montagu Allan, who was absent in connection with war work on the other side when the company was organized. Apart from this change, the same board was re-elected, with the following executive officials: Lieut.-Col. Sir H. Montagu Allan, C.V.O., president; K. W. Blackwell, vice-president; D. C. Macarow, vice-president; James Elmsley, manager.

Wholesale Houses or Manufacturers requiring new or more extended facilities in Winnipeg or the West, will do well to write us. We are able to offer some attractive values in warehouse properties.

A Newspaper Devoted to Municipal Bonds

THERE is published in New York City a daily and weekly newspaper which has for over twenty-five years been devoted to municipal bonds. Bankers, bond dealers, investors and public officials consider it an authority in its field. Municipalities consider it the logical medium in which to announce bond offerings.

INVESTMENTS AND THE MARKET

(Continued from page 7)

is understood that the company has been given options on further equipment involving several millions of dollars. In addition to the substantial business already secured, the Grand Trunk Railway, according to Howard G. Kelley, president of the road, will be in the equipment market shortly, for extensive additions to rolling stock, so that, taken altogether, the prospects of company's building plants are decidedly bright.

Penman's, Ltd.—Sales for 1919 amounted to $8,538,848, as compared with $8,648,382 in 1918, a decrease of $109,534. This, however, is offset by an increase in net trading profits of $156,143. The reserve account and surplus now amount to $4,004,269, and President Sir Charles Gordon points out that another $200,000 has been subscribed for Victory bonds. The common stock dividend has been increased from 6 to 7 per cent.

The total assets, as shown in the following comparisons, have decreased by nearly $500,000, the main difference being reduction in inventory:—

	1919.	1918.
Net trading profits	$1,293,314	$ 1,137,171
Sales	8,538,848	8,648,382
War tax provision	425,000	355,169
Carried forward	154,102	42,299
Gross trading profits ,.....	2,092,398	1,953,643
Operating expenses	655,107	595,312
Surplus forward	1,004,269	850,167
Accounts receivable	1,258,928	1,026,506
Cash on hand and in bank ..	104,621	48,654
Inventory	2,913,620	3,820,188
Total current assets	4,345,309	5,043,883
Total assets	9,939,045	10,465,415
Current liabilities	709,176	1,889,648
Reserve	3,000,000	2,500,000
Accounts payable	678,990	117,773

Bell Telephone Co.—The annual statement of the company submitted to shareholders last week, showed gross earnings of $14,149,119, an increase of $1,921,574, as compared with those of the previous year. Heavier costs of operation, due primarily to higher wage payments and cost of materials, besides an increase in taxes of over $120,000, more than offset the good showing in gross.

Interest charges in the 1919 period totalled $670,208, or $108,154 higher than in the previous statement, the increase representing interest payments on new stock instalments, leaving the balance available for application to stock dividend requirements at $1,483,116, a decrease of $59,518, from the 1918 figure, and almost $500,000 below that of 1917. Allowing for the additional stock issue, the full proceeds of which were not available until late in the year, earnings were at the rate of, approximately, 8 per cent. on the outstanding capitalization, compared with 8.6 per cent. in the previous period and 10.9 per cent. in 1917. The balance carried forward to surplus, after all deductions were made, amounted to $43,116, or less by $59,518 than that at the end of 1918.

Surplus and reserve now stand at $20,580,632, against $19,576,746 at the close of the preceding period. These represent in excess of 61 per cent. of the total capital and funded debt of the company.

Northern Ontario Light and Power Co.—A decrease of $74,220 in the profits of the company are reported for the year ended December 31, 1919. The amount of $647,621 in 1918 was reduced to $573,401 last year. Labor trouble in the mining camps last summer was the main cause of the setback. There was an actual shutdown of approximately seven weeks in the Kirkland Lake and Cobalt camps, while it required about four weeks more to restore normal conditions at Cobalt, and the Kirkland Lake mines have not yet come back fully to normal. President D. Fasken, in his report, is optimistic, however. He said:—

"With the coming of spring, it is anticipated that extensive development planned will be proceeded with, and that the producing mines will be restored to normal operations. Gross eanrings from all sources decreased by $72,924 to $835,126, but there was little change in operating expenses, and the surplus for the year was also less than $2,000 lower. The company's undertakings, including the hydro-electric and compressed-air installations, dams, buildings, machinery, transmission lines and sub-stations in the Cobalt district, and also the company's systems at Haileybury, New Liskeard. Cochrane, Porcupine; Sturgeon Falls, Kirkland Lake, Charlton and Englehart, have been maintained during the year in good operating condition."

Canadian Salt Co., Ltd.—Net profits for the year ended December 31, 1919, were $136,286, compared with $136,565 for the previous year. Operating profits amounted to $226,881, as against $223,342 in 1918. E. G. Henderson, the president, points out that from the gross profits paid interest on bonds, $24,000; sinking fund, $10,000; interest on overdraft, $14,849.09; income tax for 1917, $1,669.99; directors' fees, $4,440, and dividends amounting to $64,000, in addition to which $33,335 was reserved for depreciation, and $2,300 written off patent rights, leaving a balance of $72,286 to be added to the sprplus, bringing the balance on this account up to $595,858.

"Great difficulty was experienced during the year," says Mr. Henderson, "in obtaining a requisite supply of fuel, owing to strikes and embargoes in the United States, and in addition at times the supply of hydro power was greatly curtailed which prevented your plant being operated to its full capacity. The value of the plant has been increased by $39,073.21, representing coal handling plant erected at Windsor and improvements at the Sandwich and chemical plant. A further payment of $10,000 has been made on your Sandwich property leaving the balance now due $50,000. We are obliged to carry large stocks of raw material owing to the difficulty in getting reasonable delivery, which explains the necessity of overdraft."

The annual meeting of the company will be held on March 10th, when it is proposed to increase the capital stock from $800,000 to $1,500,000.

Howard Smith Paper Mills, Ltd.—Profits of the company for the year 1919 amounted to $429,228, an increase of 70 per cent. over the previous year and 114 per cent. over 1917. Total revenue amounted to $437,990, and after all deductions, including a liberal allowance for depreciation, there remained a balance of $181,552 to be carried forward to general reserve, making a total reserve of $643,793. The balance sheet shows excess of current assets over liabilities of $471,554, as compared with $84,346 in 1918. Funded debt and capital stock issues were increased by nearly $3,000,000, while investments in other companies, representing chiefly the acquisition of the Toronto Paper property, increased to $2,241,798. The bank indebtedness of $200,000 was completely wiped out. In his report to shareholders, C. Howard Smith, president, said:—

"The year 1919 was a difficult period in which to carry on a large manufacturing business. It was impossible to forecast the general trend of the market and there were many rapid changes in conditions, but, notwithstanding this, there was always a plentiful supply of orders, both domestic and foreign. Your company is in a very favorable position as regards orders, being booked for several months ahead. With the additional tonnage which we are putting on the market, we hope to be able to catch up with our back orders and give prompt delivery to our customers. The company's foreign trade is increasing to a considerable extent and its products have been placed in the different markets of the world. The Canadian demand, however, does not permit supplying the tonnage which could be taken for export, and the policy of the company in taking of domestic business first will be continued. With the additional tonnage provided for, it is hoped to take care of a greater quantity of export business."
